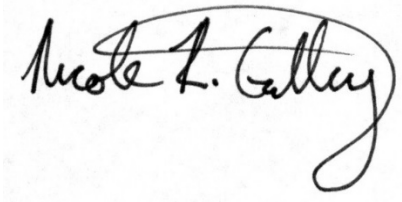
NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for political subdivisions other than cities, towns, and villages, required to file a financial report, under Section 105.145, RSMo, and 15 CSR 40-3.030. Section 105.145, RSMo, provides that the State Auditor's Office notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Because of different filing requirements, a separate report is issued for cities, towns, and villages.

The filing status for the 11 political subdivisions required to file a financial report by November 30, 2019, is presented in summary on page 3 and by individual entity in Appendix A. We have not audited the reports submitted and, accordingly, do not express an opinion or any other assurance on them.

This report also includes the updated filing status for political subdivisions, other than cities, towns, and villages, that filed a financial report in November 2019, after their filing deadline. The filing status for these 10 entities is presented in summary on page 3 and by individual entity in Appendix B-E.



Nicole R. Galloway, CPA
State Auditor

The following staff participated in the preparation of this report:

Director of Audits:	Jon Halwes, CPA, CGFM
General Counsel:	Paul Harper, JD
Senior Analyst:	Jill Wilson, MBA

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office posts individual annual financial reports to its website. A searchable link is available at http://auditor.mo.gov.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of $500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than $5,000 in the fiscal year of the annual financial report.

This report includes the filing status for the 11 political subdivisions, other than cities, towns, and villages, with a fiscal year end of May 31, 2019. Cities, towns, and villages have additional filing requirements and their reporting status is included in a separate report. Of the 11 political subdivisions, 10 filed an annual financial report timely.

This report also includes the filing status for 10 political subdivisions, other than cities, towns, and villages, that filed their financial report in November 2019, after their filing deadline.

NICOLE GALLOWAY, CPA
Missouri State Auditor

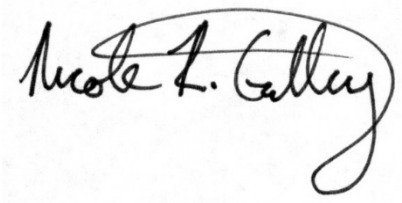
Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for the municipalities required to file a financial report by November 30, 2019, under Section 105.145, RSMo, and 15 CSR 40-3.030, and, when applicable, an addendum under Section 479.359, RSMo, and 15 CSR 40-3.170 and a municipal court certification under Section 479.360, RSMo, and 15 CSR 40-3.180.

Section 105.145, RSMo, provides that the State Auditor's Office (SAO) notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. Additionally, Section 479.362, RSMo, provides that the SAO notify the Department of Revenue whether counties, cities, towns, and villages have timely filed under Sections 479.359 and 479.360, RSMo. Because of different filing requirements, a separate report is issued for all other political subdivisions required to file a financial report.

The filing status for 3 cities and 3 villages is presented in summary on page 3 and by individual entity in Appendix A. This compilation is limited to presenting information submitted to our office. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report includes the updated filing status for municipalities that filed at least one of the items (financial report, addendum, or certification) in November 2019, after their filing deadline. The filing status for these 6 cities is presented in summary on pages 4 and by individual entity in Appendixes B to D.



Nicole R. Galloway, CPA
State Auditor

The following staff participated in the preparation of this report:

Director of Audits:	Jon Halwes, CPA, CGFM
General Counsel:	Paul Harper, JD
Senior Analyst:	Jill Wilson, MBA

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision, except counties and school districts, in the state to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at http://auditor.mo.gov.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of $500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than $5,000 in the fiscal year of the annual financial report.

Section 479.359.1, RSMo, requires every county, city, town, and village to annually calculate the percentage of its annual general operating revenue received from fines, bond forfeitures, and court costs for minor traffic violations.

Section 479.359.3, RSMo, provides that all entities having a municipal court file an addendum to the annual financial report containing items listed in 15 CSR 40-3.170, which also provides the procedures to file an addendum.

Section 479.360, RSMo, requires every county, city, town, and village that has a municipal court to file, with its annual financial report, a certification of substantial compliance with 10 municipal court procedures. This certification must be signed by the municipal court judge. 15 CSR 40-3.180 provides the procedure to file the municipal court certification. Any county, city, town, or village that does not have a municipal court judge is not required to file a certification.

Section 479.362, RSMo, requires that the SAO notify the Department of Revenue whether counties, cities, towns, or villages have timely filed their addendums under Section 479.359 and certificates of substantial compliance under Section 479.360, RSMo. Section 479.368, RSMo, provides penalties for counties, cities, towns, and villages that fail to file, including loss of revenue and mandatory ballot measure to dissolve the political subdivision.

This report includes the filing status for the 3 cities and 3 villages with a fiscal year end of May 31, 2019, whose financial report was due by November 30, 2019. Of the 6 municipalities required to file an annual financial report, 5 filed the report timely. Of the 3 municipalities required to file an addendum, 2 filed an addendum timely. Of the 2 municipalities required to file a certification, 1 filed a certification timely.

This report includes the filing status for 6 cities that filed at least one of the items (financial report, addendum, or certification) in November 2019, after their filing deadline. Of these municipalities, 4 filed an annual financial report and 2 filed an addendum.

Missouri State Auditor

Office of State Treasurer

Report No. 2019-130

December 2019

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the Office of State Treasurer

Background

On January 9, 2017, Eric Schmitt was inaugurated as the forty-sixth Treasurer of the state of Missouri. He served in this role until January 3, 2019, when he was sworn in as Missouri's forty-third Attorney General. His term as State Treasurer was to expire in January 2021. Governor Michael L. Parson appointed Scott Fitzpatrick as State Treasurer and he was sworn in on January 14, 2019. From January 3, 2019, until January 14, 2019, Johnathan M. Hensley served as Assistant State Treasurer.

The Office of State Treasurer is an elective office as provided in the Missouri Constitution. The duties of the State Treasurer as defined by Article IV Section 15 are to be the custodian of all state funds; to determine the amount of state monies not needed for current operating expenses; and to invest such monies in interest-bearing time deposits at Missouri banking institutions selected by the State Treasurer and approved by the Governor and State Auditor, short-term U.S. government securities, or certain allowable commercial paper and banker's acceptances.

The Office of State Treasurer operates in four major functional areas (1) accounting and banking services, (2) general and administrative services, (3) investments and deposit programs, and (4) unclaimed property.

Findings

The audit identified no significant deficiencies in internal controls, no significant noncompliance with legal provisions, and no significant deficiencies in management practices and procedures. No findings resulted from this audit.

In the areas audited, the overall performance of this entity was **Excellent**.*

***The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Scott Fitzpatrick, State Treasurer
Jefferson City, Missouri

We have audited certain operations of the Office of State Treasurer, in fulfillment of our duties under Chapter 29, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended June 30, 2019. The objectives of our audit were to:

1. Evaluate the office's internal controls over significant management and financial functions.

2. Evaluate the office's compliance with certain legal provisions.

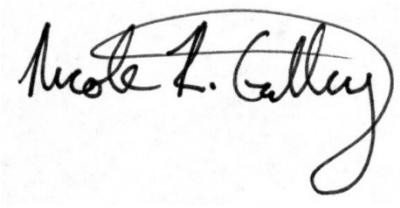
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the office, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal control that is significant to the audit objectives and assessed the design, implementation, and operating effectiveness of such internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the office's management and was not subjected to the procedures applied in our audit of the office.

For the areas audited, we identified (1) no significant deficiencies in internal controls, (2) no significant noncompliance with legal provisions, and (3) no significant deficiencies in management practices and procedures. No findings resulted from our audit of the Office of State Treasurer.



Nicole R. Galloway, CPA
State Auditor

The following auditors participated in the preparation of this report:

Senior Director:	Douglas J. Porting, CPA, CFE
Audit Manager:	Robyn Vogt, M.Acct., CPA
In-Charge Auditor:	Nicole Cash, MBA, CFE, CGAP
Audit Staff:	Albert Borde-Koufie, MBA
	Logan J. Vogel

Office of State Treasurer
Organization and Statistical Information

The Office of State Treasurer is an elective office as provided in the Missouri Constitution. The duties of the State Treasurer as defined by Article IV Section 15 are to be the custodian of all state funds; to determine the amount of state monies not needed for current operating expenses; and to invest such monies in interest-bearing time deposits at Missouri banking institutions selected by the State Treasurer and approved by the Governor and State Auditor, short-term U.S. government securities, or certain allowable commercial paper and banker's acceptances.

The Office of State Treasurer operates in four major functional areas (1) accounting and banking services, (2) general and administrative services, (3) investments and deposit programs, and (4) unclaimed property.

The accounting and banking services area (1) maintains a fund accounting system to fulfill a statutory responsibility to keep separate accounts of the funds of the state and to allocate investment interest to funds, (2) maintains ledger controls on fund balances and appropriations to assure that no check is issued that exceeds the lawful appropriated balances, (3) controls receipt of state monies collected by state agencies and deposited in local banks throughout the state, (4) reconciles bank activity to receipt and disbursement activity reflected on the state books, (5) determines the amount of state monies not needed for current operating expenses, and (6) confirms daily disbursements with the bank as certified by the Office of Administration.

The general and administrative services area provides processing support to other areas of the office by (1) operating the central check mail service, (2) controlling and processing outlawed and replacement checks, and (3) processing invoices for office expenditures.

The investments area places state monies not needed for current operating expenses in interest-bearing time deposits, U.S. government and agency securities, commercial paper, banker's acceptances, and repurchase agreements. This area also administers the State Treasurer's statutory linked deposit program and monitors and accounts for the collateralization of state funds.

The Unclaimed Property Division administers Missouri's Unclaimed Property Act (Chapter 447, RSMo). The Unclaimed Property Division is responsible for (1) ensuring unclaimed property is reported, (2) receiving and recording reports of unclaimed property, (3) depositing unclaimed funds to the Abandoned Fund Account Fund, (4) maintaining custody and safekeeping of abandoned or unclaimed physical property, and (5) processing owner claims for abandoned funds or physical property.

On January 9, 2017, Eric Schmitt was inaugurated as the forty-sixth Treasurer of the state of Missouri. He served in this role until January 3, 2019, when he was sworn in as Missouri's forty-third Attorney General. His term as State

Treasurer was to expire in January 2021. Governor Michael L. Parson appointed Scott Fitzpatrick as State Treasurer and he was sworn in on January 14, 2019. From January 3, 2019, until January 14, 2019, Jonathan M. Hensley served as Assistant State Treasurer.

As of June 30, 2019, the office had 44 full-time positions to assist in the accomplishment of its mission.

Financial Activity

A summary of the office's operating financial activity, cash and investment balances, and investment income is presented in the following Appendixes and in the Notes to the Appendixes.

Appendix A

[1] In the fiscal year 2017 budget, the General Assembly moved the appropriation for the state's share of debt service and maintenance payments for the Edward Jones Dome from the Office of Administration to the Office of State Treasurer. At the Office of State Treasurer's request, the appropriation was moved back to the Office of Administration in the fiscal year 2018 budget.

The accompanying Notes to the Appendixes are an integral part of this statement.

Notes to the Appendixes

1. Basis of Presentation

Amounts presented in Appendixes A through E are reported on the budgetary or cash basis of accounting. The budgetary basis recognizes revenues as cash is received and expenditures as cash is disbursed. Missouri issues a Comprehensive Annual Financial Report (CAFR) for each fiscal year ended June 30, in conformity with generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board. The financial activity of the Office of State Treasurer is included in the CAFR.

The amounts presented in Appendix A represent receipts, disbursements, transfers, and cash and investment balances of funds that are dedicated to the activities and programs of the office.

The amounts presented in Appendixes B and C represent funds appropriated to the office by the Missouri General Assembly and expended by the office.

The amounts presented in Appendixes D and E represent all funds in the state treasury and all trust funds in the custody of the State Treasurer.

State treasury funds are subject to appropriation; trust funds are not. The appendixes do not include any funds or investments that are not in the custody of the State Treasurer.

2. Cash and Investments

Article IV, Section 15 of the Missouri Constitution establishes the State Treasurer as custodian of all state funds and funds received from the U.S. government. This section further authorizes the State Treasurer to place all such monies on time deposit, bearing interest, in Missouri banking institutions selected by the State Treasurer and approved by the Governor and the State Auditor, or in obligations of the U.S. government or any agency or instrumentality thereof maturing or becoming payable not more than 5 years from the date of purchase. In addition, the State Treasurer may enter into repurchase agreements maturing and becoming payable within 90 days secured by U.S. Treasury obligations or obligations of U.S. government agencies or instrumentalities of any maturity, as provided by law. The State Treasurer may also invest in banker's acceptances issued by domestic commercial banks possessing the highest rating issued by at least 2 nationally recognized statistical rating organizations and in commercial paper, issued by domestic corporations receiving the highest rating issued by at least 2 nationally recognized statistical rating organizations. Investments in bankers acceptances and commercial paper shall mature and become payable not more than 180 days from the date of purchase, maintain the highest rating throughout the duration of the investment and meet any other requirements provided by law. The State Treasurer shall prepare, maintain, and adhere to a written investment policy that shall include an asset allocation plan limiting

the total amount of state money that may be invested in each investment category authorized by law.

Deposits

The State Treasurer maintains approximately 41 demand deposit bank accounts that serve as the state's primary operating accounts, and 84 additional demand deposit bank accounts throughout the state, some with multiple depositing locations, that serve as collection accounts for various state agencies. Cash balances in the state's accounts that are not needed for immediate use are invested.

The demand deposit accounts on Appendix D are used to manage the state's daily receipt, disbursement, and transfer activities and to segregate funds available for investing. The demand deposit accounts consist of the following:

Demand Deposit Accounts

	June 30, 2019		June 30, 2018		June 30, 2017	
	Bank Balance ($)	Number of Accounts	Bank Balance ($)	Number of Accounts	Bank Balance ($)	Number of Accounts
US Bank	339,723	1	190,783	1	1,006,127	1
Central Bank	31,494,061	30	53,972,648	32	88,675,672	32
Commerce Bank	1,238,809	8	1,293,481	8	4,160,519	8
Wells Fargo	2,500,000	1	10,100,000	1	34,374	2
UMB Bank	166,337	1	107,057	1	93,945	1
Collection bank accounts	2,242,413	84	2,891,959	101	3,176,418	104

Banking service agreements on the operating demand accounts allow the State Treasurer to invest outstanding checks up until the checks clear the bank, thereby investing an amount in excess of book balances. Negative balances at June 30 (Appendix D) for any bank's appropriated funds demand deposits represent the book balance net of amounts invested.

The State Treasurer's deposits at June 30, 2019, were entirely covered by federal depositary insurance or by collateral securities held by the custodial banks in the State Treasurer's name.

To protect the safety of state deposits, Sections 30.270 and 110.020, RSMo, require depositaries to pledge collateral securities to secure deposits not insured by the Federal Deposit Insurance Corporation.

Investments

The State Treasurer's investments at June 30, 2019, are listed by type below to give an indication of the level of risk assumed by the state at year end. All investments are insured or registered, or have collateral held by the State Treasurer or a custodial bank in the state's name.

Investments in Custody of State Treasurer - June 30, 2019

		Reported Amount	Fair Value
Time deposits	$	373,181,821	373,181,821
U.S. government securities		2,601,285,398	2,604,207,941
Repurchase agreements		1,258,562,000	1,258,562,000
Other investments		5,130	102,632
Total investments	$	4,233,034,349	4,236,054,394

Investments are recorded at acquisition cost except "other" investments, which are recorded at par. Investments in time deposits and repurchase agreements are acquired at face value and earn a stated interest rate. Investments in U.S. government securities are acquired at fair value and mature at face value.

4. Special Fund Dedicated Investments

The State Treasurer is assigned the authority for recording direct investments of special funds in the accounting system. The amounts presented as special fund dedicated investments in the appropriated funds on Appendix D include funds under the control of certain state agencies that represent specific investments made or held by the State Treasurer on behalf of the Pansy Johnson-Travis Memorial State Gardens Trust Fund and the State Public School Fund. The State Treasurer is responsible for purchasing, custodial, income collection, distribution, and record-keeping duties related to the investments of these funds.

The investments of the Pansy Johnson-Travis Memorial State Gardens Trust Fund are maintained in the instruments transferred to the State Treasurer from the previous trustee of the fund. The investment purchases for the State Public School Fund are made in accordance with the instructions of the State Public School Fund investment committee.

Statewide Accounting System Internal Controls

Report No. 2019-129

December 2019

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the Statewide Accounting System Internal Controls

User Account Management	The Statewide Advantage for Missouri (SAM II) and MissouriBUYS systems are vulnerable to the risk of unauthorized or inappropriate transactions being processed because user accounts of terminated employees are not always removed timely. A weakness in the Financial system security settings allows users to create a transaction and then apply approval to the same transaction without review or additional approval from another party.
Security Administration	Controls in place over the centralized security administration function are not adequate, increasing the risk of improper activity in the SAM II system. Central security administrators have access to the SAM II system in excess of that required for their job duties. Office of Administration (OA) management does not require documented supervisory review of system logged user actions performed by the SAM II central security administrators.
Policies and Procedures	OA management has not fully developed policies and procedures for SAM II system administration. OA management has not fully established policies and procedures to segregate programmer access to the SAM II system software libraries, including the production environment, or to ensure software libraries are fully protected from unauthorized changes. OA management has not fully developed a policy for reversing changes in the event of unforeseen complications in the implementation process. OA management has not documented specific responsibilities for oversight and maintenance of the SAM II contingency plans.

In the areas audited, the overall performance of this entity was **Fair**.*

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Sarah H. Steelman, Commissioner
Office of Administration
Jefferson City, Missouri

We have audited certain internal controls, including security controls, designed to protect data and information maintained by the Statewide Advantage for Missouri (SAM II) system. This audit was conducted in fulfillment of our duties under Chapter 29, RSMo. The objectives of our audit were to:

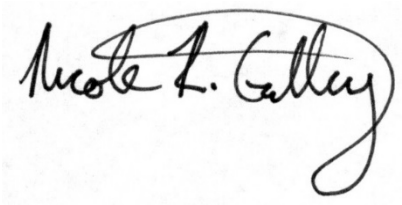
1. Evaluate the system's internal controls over significant management and financial functions.

2. Evaluate compliance with certain legal provisions.

3. Evaluate the economy and efficiency of certain management practices and information system control activities.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

For the areas audited, we identified (1) deficiencies in internal controls, (2) no significant noncompliance with legal provisions, and (3) the need for improvement in management policies and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the SAM II system.



Nicole R. Galloway, CPA
State Auditor

The following auditors participated in the preparation of this report:

Senior Director:	Douglas J. Porting, CPA, CFE
Audit Manager:	Alex R. Prenger, M.S.Acct., CPA, CISA, CFE, CGAP
In-Charge Auditor:	Patrick M. Pullins, M.Acct., CISA, CFE
Audit Staff:	Joanne P. Lewis

Statewide Accounting System Internal Controls Introduction

Background

The state of Missouri processed approximately $40 billion of financial transactions during state fiscal year 2019. These transactions were processed to support the operations of 25 separate state legislative, judicial and executive entities. The system of record for these transactions is the Statewide Advantage for Missouri (SAM II) system. SAM II is supported by several other interfaced systems, including the MissouriBUYS eProcurement solution.

SAM II

The SAM II system is the state's integrated financial and human resource management system, providing accounting, budgeting, procurement, inventory, and payroll and personnel capabilities for state departments and agencies. The SAM II system processes revenue, expenditure, payroll, transfer, and adjusting transactions.

Our audit work on the SAM II system focused on two primary components, the SAM II Financial system and the SAM II Human Resources (HR) system. The Financial system, used for purchasing, payment, and revenue processing, was implemented in July 1999. The HR system, used to maintain and process employment and payroll information, was implemented in phases between November 2000 and June 2001. Users are granted access rights to these systems to process transactions or to have inquiry-only access. As of June 2019, there were 2,849 Financial system user accounts and 1,659 HR system user accounts.

The SAM II system is managed by the Office of Administration (OA). The OA Division of Accounting is responsible for the Financial and HR systems, including maintaining policies and procedures for use of the systems. Technical support is provided by the systems development and programming staff under the OA Information Technology Services Division (ITSD).[1] OA security administrators are responsible for processing security requests to add, change, or remove user access to the Financial and HR systems.

Changes to the functionality of the SAM II system are processed by ITSD programmers with access to software libraries that maintain source code. Source code is the written programming code used to produce an executable program in the SAM II system. Software libraries are maintained in separate environments for programs being developed or modified, programs being tested by users, and programs approved for use.

During fiscal year 2019, the state began the process of replacing the SAM II system. In April 2019, the state selected a contractor that is currently working

[1] Prior to July 2019, the state also contracted with the system vendor for additional support services. Due to rising costs, this contract was allowed to expire, and the system is now solely supported by the ITSD. If the state requires additional support from the vendor, an hourly charge applies.

to develop the request for proposals for a new Enterprise Resource Planning system and will help select the vendor(s) to provide and implement the new system.

MissouriBUYS

The MissouriBUYS system is the state's eProcurement system, which establishes a virtual marketplace between state departments and agencies, and vendors. The system replaced the state's previous On-Line Bidding and Vendor Registration systems. The system was fully implemented during 2018 and integrates with the SAM II system for financial processing. As of September 2019, there were 1,381 MissouriBUYS user accounts.

The MissouriBUYS system is provided by a third-party contractor using a Software-as-a-Service (SaaS) model. Under this model, the state pays a subscription fee to use the software, and the contractor is responsible for hosting the software on a password-secured website, and all maintenance and support of the software. The state has elected to retain responsibility for user account administration, and placed that responsibility within the OA Division of Accounting.

According to accepted standards, security controls are the management, operational, and technical safeguards or countermeasures prescribed for an information system to protect the confidentiality, integrity, and availability of the system and its information. Confidentiality refers to preserving authorized restrictions on information access and disclosure, including the means for protecting personal privacy and proprietary information. Integrity relates to guarding against improper information modification or destruction, and availability ensures timely and reliable access to and use of information.

Scope and Methodology

The scope of our audit included (1) internal controls established and managed by the OA, (2) policies and procedures, and (3) other management functions and compliance issues in place during the year ended June 30, 2019. Our scope did not include internal controls that are the responsibility of the management of agencies using the SAM II and MissouriBUYS systems.

Our methodology included reviewing written policies and procedures, interviewing various OA personnel, and performing testing. We obtained an understanding of the applicable controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We tested certain of those controls to obtain evidence regarding the effectiveness of their design and operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violation of contract or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We obtained data files from the SAM II system of user accounts having access to the HR and Financial systems as of June 2019. To ensure completeness of the data, we grouped the accounts by agency and compared the results to a separate list of state agencies whose users should have access to the systems. We reviewed the approval rights of the Financial system user accounts to determine if each user was restricted from approving transactions the user had also entered in the system.

We obtained data files from the MissouriBUYS system of user accounts having access to the system as of September 2019. During testing, we determined this data was inaccurate, and a second data request of users with access as of October 2019 was obtained. Potential errors identified in our testing of September data were confirmed in the October dataset.

We obtained employment records of all state employees from the SAM II system. We matched these records to user accounts with SAM II or MissouriBUYS system access to determine if any terminated employees had active user accounts. We provided OA management a list of all terminated employees we found who had active access to the SAM II or MissouriBUYS systems.

Although we used computer-processed data from the SAM II and MissouriBUYS systems for our audit work, we did not rely on the results of any processes performed by these systems in arriving at our conclusions. Our conclusions were based on our review of the issues specific to the audit objectives.

We based our evaluation on accepted state, federal, and international standards and best practices related to information technology security controls from the following sources:

- Missouri Adaptive Enterprise Architecture (MAEA)
- National Institute of Standards and Technology (NIST)
- Government Accountability Office (GAO)
- ISACA

Statewide Accounting System Internal Controls Management Advisory Report State Auditor's Findings

1. User Account Management

The Statewide Advantage for Missouri (SAM II) and MissouriBUYS systems are vulnerable to the risk of unauthorized or inappropriate transactions being processed because user accounts of terminated employees are not always removed timely. Additionally, two Financial system users are not prevented from approving transactions they created.

1.1 SAM II terminated users

The SAM II system's terminated user accounts are not always removed timely. Office of Administration (OA) management could reduce the risk of unauthorized access by increasing efforts to identify user accounts assigned to former employees and promptly removing user access assigned to former employees. We found 21 former employees still had access to the SAM II system 30 days or more after terminating employment from the state agency that had granted the user access. These users were employed by the agencies (and non-agency entities) identified in Table 1 below.

Table 1: SAM II terminated users by entity

Entity	Financial system terminated users	HR system terminated users
Conservation	0	1
Corrections	3	0
Higher Education	0	2
Legislature	1	0
Mental Health	3	0
Missouri Consolidated Health Care Plan	0	1
Natural Resources	1	0
Public Safety[1]	1	6
Social Services	2	0
Total	11	10

Source: SAO analysis of SAM II user accounts

[1] Department of Public Safety users include users from the Missouri Capitol Police (1 HR user), Missouri State Highway Patrol (1 Financial and 2 HR users), Missouri Veteran's Commission (1 HR user), and the Office of the Director (2 HR users).

According to the Missouri Adaptive Enterprise Architecture (MAEA),[2] agencies must have a procedure in place for the timely notification of administrators when a user no longer needs access. SAM II policies and

[2] The Enterprise Architecture includes standards, policies and guidelines established by OA management. The Enterprise Architecture is made up of several information technology domains, including domains dedicated to security and information. The domains define the principles needed to help ensure the appropriate level of protection for the state's information and technology assets.

procedures place the responsibility for identification of accounts belonging to terminated and transferred users with the agency employing the users. Agencies are responsible for determining who is given access to the system and for ensuring all individuals who have access still need the access. When a user no longer needs access, procedures require agency security coordinators to submit a form to the OA security administrator requesting removal of the user's access to the system.

Although agencies are responsible for submitting requests to add, change, or remove user access rights, OA management is ultimately responsible for security of the system. The OA has documented procedures in place for the SAM II security administrators to regularly check for SAM II user IDs associated with terminated employees and report any findings to agency security coordinators. In addition, the OA provides user security reports to agencies listing SAM II users and access levels for use by agency security coordinators, who are expected to review user access. However, these controls are not consistently effective since terminated employees continued to have active SAM II access.

Without effective procedures to remove access, terminated employees could continue to have access to critical or sensitive resources or have opportunities to sabotage or otherwise impair entity operations or assets, according to the Government Accountability Office (GAO).

1.2 MissouriBUYS terminated users

The MissouriBUYS system's terminated user accounts are not always removed timely. We found 41 former employees still had access to the MissouriBUYS system 30 days or more after terminating employment. These users were employed by the agencies (and non-agency entities) identified in Table 2.

Table 2: MissouriBUYS terminated users by entity

Entity	Number of terminated users
Agriculture	1
Corrections	18
Elementary and Secondary Education	2
Health and Senior Services	3
Judiciary	1
Mental Health	3
Natural Resources	4
Office of Administration	1
Public Safety[1]	4
Secretary of State	1
Social Services	1
Transportation	2
Total	41

Source: SAO analysis of MissouriBUYS user accounts

[1] Department of Public Safety users include users from the Missouri Veteran's Commission.

Similar to the process for the SAM II system described in section 1.1, agency security coordinators for the MissouriBUYS system are expected to review monthly security reports provided by the OA to identify any users whose system access should be removed. Agency security coordinators submit removal request forms to MissouriBUYS security administrators, who remove the access. However, these controls are not consistently effective since terminated employees continued to have active MissouriBUYS access.

User access can be removed by three methods: account deletion, suspension, or inactivation. Deletion and suspension are security administrator actions that take immediate effect. An account's circumstances affect the choice between deletion and suspension. However, both methods are effective due to their immediate, deliberate nature.

Inactivation is an automated system control, independent of security administrator action. Inactivation triggers when the account does not access the system within 180 days. This trigger can be delayed, potentially indefinitely, if the account regularly accesses the system within 180 days, which resets the countdown, making inactivation a less effective control.

Our review of the 41 accounts identified two scenarios, each representing a different weakness in current procedures.

- For 39 accounts, according to OA management, the agency security coordinator did not submit a removal request to the MissouriBUYS security administrator for more than 30 days after the user terminated

employment. For 32 of 39 accounts, this delay exceeded at least 6 months. Although the agencies eventually submitted removal requests for all accounts, many of these requests did not occur until October 2019, after audit staff alerted the applicable agencies. While 38 of 39 accounts were in an inactive status, the remaining account was active as of October 4, 2019, for a user who terminated employment in May 2019. The OA did not receive a removal request for this account until October 7, 2019, after audit staff alerted the agency.

- For 2 accounts, according to OA management, OA received the removal requests within a week of the user terminating employment. While these requests were received in April and May 2019, the accounts remained active as of October 2019. Because security administrators had not deleted or suspended the accounts, and a minimum of 180 days had not passed for the inactivity control to trigger, these accounts allowed continued access.

OA management indicated if an account is already inactive when a removal request is received, often no further action is taken to delete or suspend the account. We observed this situation for 6 additional inactive accounts, despite associated removal requests being submitted within 30 days of the users terminating employment.

While deletion, suspension and inactivation all prevent an account from accessing the system, relying on inactivation leaves the system at risk for an extended period (a minimum of 180 days, versus 30 days) and increases opportunities for an account to be reactivated accidentally or maliciously.

1.3 Transaction approvals

OA management has not fully corrected a weakness in the Financial system security settings that allows users to create a transaction and then apply approval to the same transaction without review or additional approval from another party.

Each user account in the Financial system is assigned certain rights and privileges from a list of available options, including the authority to create and approve transactions. Each agency is also able to assign rules to transactions to specify approvals necessary based on dollar value and transaction type. If a user is allowed rights to both create and approve a transaction, and these rights satisfy the rules established for the transaction, the user would be able to create and approve the same transaction without review or additional approval from an independent party. While OA management has taken steps to limit this risk, we identified two Financial system user accounts had authority to enter and approve the same expenditure transaction as of June 2019.

Allowing users to approve their own transactions without another approval increases the risk that inappropriate or unauthorized transactions may be processed.

Similar conditions previously reported

A condition similar to section 1.1 was noted in our prior 3 audit reports, and a condition similar to section 1.3 was noted in our 2010 and 2013 audit reports.

Recommendations

The OA:

1.1 &
1.2 Continue monthly reviews of SAM II and MissouriBUYS user accounts to ensure access of terminated or transferred employees is removed, and develop additional procedures to identify accounts no longer needing access. In addition, consistently and timely remove access to MissouriBUYS by deleting or suspending accounts upon receiving a removal request.

1.3 Continue to work with agencies to limit the risk of users approving transactions they create and establish policies to ensure future users are not granted this right.

Auditee's Response

1.1 &
1.2 We do not agree that risk associated with unauthorized access to the SAM II system is as significant as reported in the audit because a user must access the state network in order to access the accounting system. The audit fails to acknowledge or evaluate this initial security measure. OA will continue to provide oversight of user accounts. System limitations exist related to deleting accounts in MissouriBUYS; however, OA will review the possibility of actively suspending accounts.

1.3 We concur.

Auditor 's Comment

1.1 &
1.2 While the SAM II system has the referenced control of requiring users to be on the state network, the risk of inappropriate access is not fully reduced because certain users can access the state network from remote locations. Further, the control is not effective in situations where a user transfers from one state agency to another, and thus legitimately retains access to the state network. Failing to remove the accounts also leaves them vulnerable to unauthorized access by others, such as a former co-worker or supervisor who may know the former employee's user name and password. The most effective way to reduce the risk of inappropriate access is to timely disable the accounts of the users in question.

2. Security Administration

Controls in place over the centralized security administration function are not adequate, increasing the risk of improper activity in the SAM II system.

The SAM II system decentralizes responsibility for providing user access to the system. Each agency designates a security coordinator, who reviews and approves requests from staff of that agency to access the SAM II system, and periodically reviews reports provided by OA to ensure agency users' access remain appropriate. Agency security coordinators do not have access rights in the SAM II system to directly make changes. They instead submit documentation (request forms and supporting information as necessary) requesting any additions, changes, or removals of users to an OA-centralized SAM II security administrator, who has the access rights necessary to process the requested changes.

2.1 Security administrator duties

Central security administrators have access to the SAM II system in excess of that required for their job duties.

Every user of the SAM II system is assigned a user profile, which controls the actions a user is allowed to perform. These actions can include the ability to create, view, edit, approve, and delete transactions; modify system security; change system configuration options; and other specific functions. While some functions are broad and low-risk (for example, most users can view any transaction statewide), others are high-risk and tightly controlled (for example, few users can view security tables, and fewer still can modify them).

The security profile assigned to security administrators grants them excessive access to the SAM II system. In addition to their security administration functions, these security administrators have the ability to enter transactions including cash receipts, journal vouchers, manual checks, transfers, and expenditure documents including employee expense accounts. To reduce risk of improper activity, the ability to enter transactions should be disabled.

OA management noted that the security administrators, by virtue of their duties, can change their level of access to the system at any time by self-assigning profiles. For this reason, it is important that compensating controls be established, such as periodic managerial review of system changes made by the security administrators to ensure changes are supported by appropriate documentation, and documented formal monitoring of certain high-risk accounts and changes (see section 2.2).

Accepted standards require that users be allocated the minimum access rights necessary to perform their assigned job functions, and that access to security functions be explicitly assigned. Allowing users access to the system in excess of that required for their job responsibilities increases the risk of improper activity occurring without collusion between multiple users.

2.2 Security administrator supervision

OA management does not require documented supervisory review of system logged user actions performed by the SAM II central security administrators.

As part of their job responsibilities, the SAM II central security administrators have the ability to create and modify user accounts. OA policy requires approval of a security request form by the agency security coordinator before a user account is created. The central security administrators are responsible for ensuring the security request forms received have been approved by appropriate agency personnel. OA management indicated they periodically compare logged changes made by the central security administrators against approved security request forms submitted by agency security coordinators. However, they also indicated these comparisons are neither documented nor performed regularly. According to OA management, the agency does not have sufficient personnel to segregate duties or to regularly review changes made by central security administrators.

Routinely monitoring security administrator actions can help identify significant problems and deter employees from inappropriate activities.

A similar condition was noted in our prior 3 audit reports.

Recommendations

The OA:

2.1 Disable security administrators' ability to enter transactions in the SAM II system. Because of their ability to re-enable this permission, implement documented compensating controls to mitigate this risk.

2.2 Perform and document periodic supervisory reviews of defined actions performed by security administrators.

Auditee's Response

2.1 Security has been changed.

2.2 Monthly reviews of MissouriBUYS system security administrators' activities have been occurring and will continue. OA will periodically conduct a random sample of SAM II administrator security actions to provide additional oversight.

3. Policies and Procedures

OA management has not fully developed policies and procedures for SAM II system administration. Access to software libraries has not been appropriately segregated, a policy for the reversal of programming changes has not been established, and the responsibility for maintaining contingency plans has not been formally documented. The resulting internal control weaknesses leave the system vulnerable to unauthorized changes being made and less assurance the contingency plans will remain current.

3.1 Programmer segregation of duties

OA management has not fully established policies and procedures to segregate programmer access to the SAM II system software libraries, including the production environment, or to ensure software libraries are fully protected from unauthorized changes.

Any change to an information system can potentially have significant effects on the overall security of the system, according to accepted standards. As a result, organizations should define, document, approve, and enforce access restrictions associated with changes to the information system.

Programmers responsible for development and maintenance of source code are allowed to move source code into the production environment. Management review procedures are not sufficient to ensure the source code placed in production is the approved version. As a result, a programmer can modify source code or insert new code without detection. According to OA management, the agency does not have sufficient personnel to segregate the library management functions from programmers and instead relies on supervisory review. However, supervisory reviews performed are not documented to provide evidence of their effectiveness.

Programmers should not be allowed to independently develop, test, and move program changes into production, according to the GAO. In addition, access to software libraries should be limited and the movement of programs and data among libraries should be controlled by personnel independent of both the user and the programming staff. Organizations should also conduct periodic audits of information system changes to determine whether unauthorized changes have occurred, according to accepted standards.

Inadequately segregated duties increase the risk that erroneous or fraudulent transactions could be processed, improper program changes implemented, or computer resources damaged or destroyed, according to the GAO. Management can reduce the risk of unauthorized changes and help ensure the appropriateness of changes by performing and documenting supervisory review of programmer actions if adequate resources are not available to properly segregate duties.

3.2 Change management

OA management has not fully developed a policy for reversing changes in the event of unforeseen complications in the implementation process.

According to the MAEA, change management defines the roles, processes, and standards for deployment of software through the development, test, and production environments. Change management is necessary to control versions, scope, and development of software and provides accountability and responsibility for changes. Good change management provides strict control over the implementation of system changes and thus minimizes corruption to information systems, according to the GAO.

Change control procedures did not require programming staff to document procedures for the reversal of a change to the SAM II system if the implementation did not operate as intended. Accepted standards require that, as part of the implementation plan for a proposed change, consideration should be given to how the change would be reversed in the event of a system error or other unforeseen complication. OA management told us standard written procedures have not been developed because procedures are dependent on the specific change being implemented. However, the OA has not taken any action to formally document any change-specific procedures within its change documentation.

Failure to document reversal procedures for proposed changes leaves the system at risk of extended failure and outages if a change fails to produce the expected results and necessary resources to reverse the change are not readily available.

3.3 Contingency planning

OA management has not documented specific responsibilities for oversight and maintenance of the SAM II contingency plans.

Contingency plans establish policies, procedures, and technical measures that can enable a system to be recovered quickly and effectively following a service disruption or disaster, according to the MAEA. According to accepted standards, contingency plans should be reviewed for accuracy and completeness at least annually or whenever significant changes occur to any element of the plan. While responsibility for maintaining the contingency plans has been informally assigned, OA management has not documented the formal assignment of specific responsibilities for maintaining the contingency plans. OA management indicated responsibilities related to contingency planning have not been formalized because contingency operations are very similar to regular operations and therefore require no specialized knowledge. In addition, with the process of replacing the SAM II system underway, OA management indicated expending limited resources on the existing system would not be practical.

Without a formal designation of staff responsible for oversight and maintenance, there is increased risk that contingency plans and related policies and procedures may not remain current, potentially impacting the ability to promptly restore the system and related business functions.

Similar conditions previously reported

Similar conditions to sections 3.1, and 3.2 were noted in our prior 3 audit reports, and a similar condition to section 3.3 was noted in our prior 2 audit reports.

Recommendations

The OA:

3.1 Restrict programmers from moving source code to the production environment. If resource constraints prohibit segregation of duties, sufficient supervisory review of programmer actions should be performed and documented.

3.2 Enhance change management policies and procedures by documenting procedures for the reversal of changes to the SAM II system if the implementation did not operate as intended.

3.3 Ensure adequate, complete documentation of the system is maintained throughout the entire system life-cycle, including replacement. This documentation should include formally designating responsibility for creating and maintaining contingency plans to ensure the system is available in the event of a disaster.

Auditee's Response

3.1 OA recognizes that segregation of programmer duties is desired. However, resource constraints prohibit complete segregation of duties. OA recognizes that periodic supervisory audits of system changes are a best practice, however, we also recognize given the age of the system, few to no changes are occurring. While this finding was very relevant 10 years ago, we believe the applicability of the concern is greatly reduced or eliminated in the current environment.

3.2 Since OA is making few to no changes given the age of the accounting system, OA does not believe it is a good use of taxpayer resources to draft a policy and procedure with little to no value.

3.3 OA has successfully managed to maintain operations during recent disasters including snow storms, floods, and a tornado that unexpectedly shut down offices for two days. The morning of the recent tornado in Jefferson City was the critical day for processing state employee payroll. Even though offices were closed, employees were paid timely and without interruption because advances in technology allow staff to work from anywhere and procedures are documented sufficiently that staff completing unfamiliar tasks were successful. OA believes we have proven our abilities to maintain systems with the existing documentation.

NICOLE GALLOWAY, CPA
Missouri State Auditor

The Citizens of Missouri

This report was compiled from follow-up reports issued in 2019. The State Auditor's Office conducted 14 follow-up reviews pursuant to the Auditor's Follow-Up Team to Effect Recommendations (AFTER) program. The objectives of the AFTER program are to:

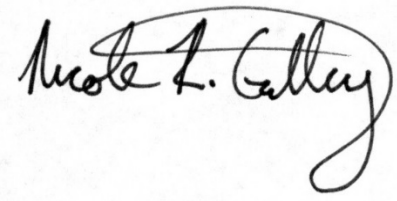
1. Identify audit report findings for which follow up is considered necessary, and inform the auditee about the follow-up review on those findings.

2. Identify and provide status information for each recommendation reviewed. The status of each recommendation reviewed will be one of the following:

    - Implemented: Auditee fully implemented the recommendation, either as described in the report or in a manner that resolved the underlying issue.
    - In Progress: Auditee has specific plans to begin, or has begun, to implement and intends to fully implement the recommendation.
    - Partially Implemented: Auditee implemented the recommendation in part, but is not making efforts to fully implement it.
    - Not implemented: Auditee has not implemented the recommendation and has no specific plans to implement the recommendation.

Auditors conduct follow-up work for audits with significant or serious findings when determined necessary.

Of the 227 recommendations included in the follow-up reports, 83 (37 percent) had a status of implemented, 55 (24 percent) had a status of in progress, 52 (23 percent) had a status of partially implemented, and 37 (16 percent) had a status of not implemented.



Nicole R. Galloway, CPA
State Auditor

Summary of 2019 Follow-up Reports
Status of Recommendations

1.	City of Amoret	City of Amoret received a "Poor" overall audit rating. The follow-up report focused on 20 recommendations.
	Report Number 2019-017	Status determined: Implemented 2 In Progress 4 Partially Implemented 6 Not Implemented 8
2.	City of Coffey	City of Coffey received a "Poor" overall audit rating. The follow-up report focused on 10 recommendations.
	Report Number 2019-020	Status determined: Implemented 8 In Progress 2
3.	Thirty-Seventh Judicial Circuit, City of Winona Municipal Division	Thirty-Seventh Judicial Circuit, City of Winona Municipal Division received a "Poor" overall audit rating. The follow-up report focused on 9 recommendations.
	Report Number 2019-027	Status determined: Implemented 3 In Progress 2 Partially Implemented 2 Not Implemented 2
4.	City of Winona	City of Winona received a "Poor" overall audit rating. The follow-up report focused on 26 recommendations.
	Report Number 2019-032	Status determined: Implemented 10 In Progress 5 Partially Implemented 10 Not Implemented 1

5. City of Greenville

City of Greenville received a "Poor" overall audit rating. The follow-up report focused on 18 recommendations.

Report Number 2019-049

Status determined:

Implemented	9
In Progress	3
Partially Implemented	3
Not Implemented	3

6. Sex Offender Registration

Sex Offender Registration did not receive an overall audit rating due to the nature of the report. The follow-up report focused on 6 recommendations.

Report Number 2019-056

Status determined:

Implemented	2
In Progress	3
Partially Implemented	1

7. City of Seymour

City of Seymour received a "Poor" overall audit rating. The follow-up report focused on 24 recommendations.

Report Number 2019-060

Status determined:

Implemented	8
In Progress	4
Partially Implemented	6
Not Implemented	6

8. Callaway County Collector and Property Tax System

Callaway County Collector and Property Tax System received a "Poor" overall audit rating. The follow-up report focused on 13 recommendations.

Report Number 2019-062

Status determined:

Implemented	7
In Progress	5
Partially Implemented	1

9.	Kinloch Fire Protection District	Kinloch Fire Protection District received a "Poor" overall audit rating. The follow-up report focused on 25 recommendations.
	Report Number 2019-077	Status determined:
		Implemented 5 In Progress 7 Partially Implemented 5 Not Implemented 8
10.	Smithville Area Fire Protection District	Smithville Area Fire Protection District received a "Poor" overall audit rating. The follow-up report focused on 24 recommendations.
	Report Number 2019-086	Status determined:
		Implemented 8 In Progress 6 Partially Implemented 7 Not Implemented 3
11.	City of Miller	City of Miller received a "Poor" overall audit rating. The follow-up report focused on 19 recommendations.
	Report Number 2019-111	Status determined:
		Implemented 7 In Progress 6 Partially Implemented 4 Not Implemented 2
12.	City of Miller Police Department Disbursements and Seized Property	City of Miller Police Department Disbursements and Seized Property received a "Poor" overall audit rating. The follow-up report focused on 7 recommendations.
	Report Number 2019-112	Status determined:
		Implemented 4 In Progress 3

13. Madison County Collector and Property Tax System

Madison County Collector and Property Tax System received a "Poor" overall audit rating. The follow-up report focused on 5 recommendations.

Report Number 2019-121

Status determined:

Implemented	3
In Progress	1
Partially Implemented	1

14. Village of Ferrelview

Village of Ferrelview received a "Poor" overall audit rating. The follow-up report focused on 21 recommendations.

Report Number 2019-122

Status determined:

Implemented	7
In Progress	4
Partially Implemented	6
Not Implemented	4

Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the City of St. Louis - Board of Aldermen

Payroll Controls and Procedures	The Board of Aldermen has not adopted a written personnel manual documenting the civil service rules it uses or its policies and procedures that differ from the civil service rules. The Board does not require salaried employees to submit time records or other documentation of hours worked to support compensatory time earned. Procedures are not in place to ensure leave request forms are properly reviewed, approved, and submitted for processing.
Sunshine Law	The Board of Aldermen did not adequately prepare or retain meeting minutes for the Personnel and Administration committee meetings in accordance with the Sunshine Law.

In the areas audited, the overall performance of this entity was **Good**.*

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Board of Aldermen's Responses....9

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the Board of Aldermen
City of St. Louis, Missouri

We have audited certain operations of the City of St. Louis Board of Aldermen in fulfillment of our duties under Section 29.200.3, RSMo. The State Auditor initiated audits of the City of St. Louis in response to a formal request from the Board of Aldermen. The city has engaged KPMG LLP, Certified Public Accountants (CPAs), to audit the city's financial statements for the year ended June 30, 2019. To minimize duplication of effort, we reviewed the CPA firm's report for the year ended June 30, 2018, audit since the year ended June 30, 2019, audit had not been completed. The scope of our audit included, but was not limited to the year ended June 30, 2019. The objectives of our audit were to:

1. Evaluate the Board's internal controls over significant management and financial functions.

2. Evaluate the Board's compliance with certain legal provisions.

3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

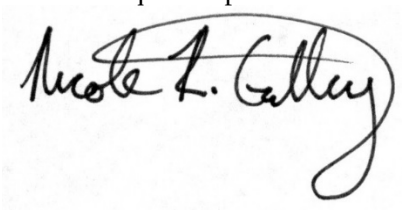
Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the Board, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We tested certain of those controls to obtain evidence regarding the effectiveness of their design and operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the Board's management and was not subjected to the procedures applied in our audit of the Board.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the City of St. Louis Board of Aldermen.

Additional audits of various officials and departments of the City of St. Louis are in process, and any additional findings and recommendations will be included in subsequent reports.



Nicole R. Galloway, CPA
State Auditor

The following auditors participated in the preparation of this report:

Director of Audits:	Kelly Davis, M.Acct., CPA, CFE
Audit Manager:	Heather R. Stiles, MBA, CPA, CFE
In-Charge Auditor:	Erin N. Dierksen
Audit Staff:	Morgan Alexander

1. Payroll Controls and Procedures

The Board of Aldermen has not adopted comprehensive written personnel policies and procedures, and payroll controls and procedures need improvement.

1.1 Personnel manual

The Board has not adopted a written personnel manual documenting the civil service rules it uses or its policies and procedures that differ from the civil service rules. According to Article XVIII of the City Charter, all officers and employees of the Board are considered unclassified employees and are not subject to civil service rules regarding working hours, overtime, holidays, vacation, and medical leave.

Board personnel indicated the Board follows many of the civil service rules. However, the Board also follows procedures that differ from civil service rules. For example, Board employees are paid for their meal periods and also earn compensatory time for working during their meal periods unlike most other city employees. Additionally, vacation leave benefits provided to Board employees are more generous than those provided to most other city employees. Board employees earn 5 hours of vacation leave per pay period for their first 5 years of service. After 5 years, employees accrue 1 additional hour per pay period for every 5 years of additional service up to 9 hours per pay period for employees with 20 or more years of service. Most other city employees accrue 3 hours of vacation leave per pay period during the first 5 years of service, increasing to 5 hours per pay period after 5 years of service. One additional hour is accrued per pay period for each additional 5 years of service up to 8 hours per pay period for employees with 20 or more years of service.

A comprehensive personnel manual that details policies and procedures can benefit both the office and employees by providing an understanding between the Board and employees regarding rights and responsibilities. A personnel manual can also provide guidance and control for the effective and consistent management of the office and to help avoid misunderstandings and ensure management's policies are fairly and consistently applied to all employees.

1.2 Compensatory time

The Board does not require salaried employees to submit time records or other documentation of hours worked to support compensatory time earned. Employees are only required to notify their supervisors of the number of hours of compensatory time earned. Salaried employees are allowed to earn compensatory time for time worked during their meal period and for hours worked in excess of 40 hours per week.

Adequately detailed records of actual time worked are necessary to ensure compensatory time claimed as earned and/or used is appropriate. In addition, detailed records of time worked substantiate payroll disbursements and provide a method to monitor individual attendance.

1.3 Leave requests

Procedures are not in place to ensure leave request forms are properly reviewed, approved, and submitted for processing. Each employee is required to complete leave request forms to be reviewed and approved by the employee's supervisor and an approving authority (generally the payroll clerk) and submitted to the payroll clerk for processing.

We reviewed leave request forms submitted to the payroll clerk for the pay period ending June 22, 2019, and noted 6 of the 14 leave request forms reviewed (43 percent) were not approved by a supervisor. Additionally, 5 of the 14 (36 percent) were not signed by the approving authority. We also noted 1 employee did not submit a leave request until after taking 56 hours of vacation leave and the leave request was not approved by the approving authority. Board procedures require vacation leave requests of more than 16 hours be submitted for approval at least 1 week prior to the beginning of the request period.

Without accurate approval, Board officials cannot ensure hours worked and leave earned and taken by employees are properly documented. To ensure the accuracy of leave taken, leave requests should be signed by the employees and reviewed and approved by the supervisor and approving authority.

Recommendations

The Board of Aldermen:

1.1 Develop a comprehensive written personnel manual.

1.2 Require salaried employees to submit time records or other documentation of hours worked to support compensatory time earned and taken.

1.3 Ensure employee leave requests are prepared, properly signed, approved, and retained for all employees.

Auditee's Response

The Board of Aldermen provided written responses. See Appendix.

2. Sunshine Law

The Board did not adequately prepare or retain meeting minutes for committee meetings in accordance with the Sunshine Law. In addition, the Board discussed some topics in closed meetings that are not allowable by state law.

The Personnel and Administration Committee of the Board held 14 meetings from January 2018 to July 2019. According to posted meeting notices, each of these meetings was closed under Section 610.021(3), RSMo, to discuss matters related to the hiring, firing, disciplining or promoting of employees or Section 610.021(1), RSMo, to discuss legal matters. However, meeting minutes were not prepared for 2 of the 14 meetings and the minutes for 2 other meetings were insufficient. The insufficient meeting minutes only

included votes to go in and out of closed session and did not include documentation of topics discussed. Additionally, according to minutes of closed meetings, the Board discussed some topics in closed meetings that were not allowable including proposed policy changes, the upcoming budget for the Board, the decision to post open positions, and approved protocols for Board meetings.

Without sufficient minutes of all meetings, there is no record of the discussions held or support for the decisions made, and there is less assurance to the public that various statutory provisions are followed including restricting closed session discussions to only allowable topics.

Section 610.020.7, RSMo, requires meeting minutes be maintained as a record of business conducted and to provide an official record of actions and decisions. Section 610.022, RSMo, mandates that the discussion topics and actions in closed meetings must be limited to only those specifically allowed by law as announced in the justification for closing the meeting.

Recommendation

The Board of Aldermen ensure complete and accurate meeting minutes are maintained for all meetings and meeting minutes include all the information required by the Sunshine Law. In addition, the Board should ensure closed meeting minutes include sufficient detail necessary to provide a complete record of matters discussed and actions taken, and ensure items discussed in closed meetings are allowable topics under state law.

Auditee's Response

The Board of Aldermen provided written responses. See Appendix.

City of St. Louis - Board of Aldermen
Organization and Statistical Information

The Board of Aldermen is the law making body of the City of St. Louis. The Board consists of 28 aldermen, elected by the voters of their respective wards, and a President, who is elected by a citywide vote. The members are elected for 4-year terms.

Board of Aldermen

Lewis E. Reed currently serves as the President of the Board of Aldermen for the City of St. Louis. He has served in that capacity since April 2007.

The members of the Board of Aldermen, at June 30, 2019, are identified below. The Aldermen each receive a salary of $37,310 annually and the President of the Board of Aldermen receives a salary of $90,766 annually. In addition to their salaries, each Alderman, Alderwoman, and the President receives $4,200 per year[1] for expenses.

Lewis E. Reed	Board President
Sharon Tyus	Ward 1 Alderwoman
Lisa Middlebrook	Ward 2 Alderwoman
Brandon Frazier-Bosley	Ward 3 Alderman
Samuel L. Moore	Ward 4 Alderman
Tammika Hubbard	Ward 5 Alderwoman
Christine Ingrassia	Ward 6 Alderwoman
Jack Coatar	Ward 7 Alderman
Annie Rice	Ward 8 Alderwoman
Dan Guenther	Ward 9 Alderman
Joseph Vollmer	Ward 10 Alderman
Sara Martin	Ward 11 Alderwoman
Larry Arnowitz	Ward 12 Alderman
Beth Murphy	Ward 13 Alderwoman
Carol Howard	Ward 14 Alderwoman
Megan E. Green	Ward 15 Alderwoman
Tom Oldenburg	Ward 16 Alderman
Joseph D. Roddy	Ward 17 Alderman
Jesse Todd	Ward 18 Alderman
Marlene E. Davis	Ward 19 Alderwoman
Cara Spencer	Ward 20 Alderwoman
John Collins-Muhammad	Ward 21 Alderman
Jeffrey L. Boyd	Ward 22 Alderman
Joseph Vaccaro	Ward 23 Alderman
Bret Narayan	Ward 24 Alderman
Shane Cohn	Ward 25 Alderman
Shameem Clark Hubbard	Ward 26 Alderman
Pam Boyd	Ward 27 Alderwoman
Heather Navarro	Ward 28 Alderwoman

[1] Five aldermen elected to receive reimbursements for expenses rather than the $4,200 stipend.

Other Significant Employees

Terry Kennedy has served as the Clerk to the Board of Aldermen since April 2019. Louis Galli serves as Counsel to the Board of Aldermen. Tom Shepard serves as the Chief of Staff to the President of the Board of Aldermen. The Board of Aldermen had 14 employees on June 30, 2019.

Ward Capital Improvement Accounts

In 1993, city voters approved a 1/2-cent sales tax for the purpose of funding capital improvements. In accordance with the ballot and ordinance number 62885, 50 percent of the sales tax proceeds are allocated equally between the city's 28 wards and credited to individual ward capital improvement sub-accounts. In accordance with the annual appropriation bill, these capital improvement monies can only be transferred and credited to another ward capital improvement sub-account for use by another ward upon the recommendation of the aldermen involved and the recommendation and approval of the Board of Estimate and Apportionment.

During the fiscal year ended June 30, 2019, each ward received approximately $328,500 for capital improvement projects. City offices or aldermen present potential projects to be funded by ward capital improvement funds. Projects selected are approved by the respective ward alderman. At June 30, 2019, monies held in ward capital improvement accounts that had not been assigned to an ongoing or future project totaled approximately $6.6 million, an average of approximately $235,700 per ward account.

Memo

To: **Ms. Nicole Galloway, CPA**
Missouri State Auditor
From: **Clerk**
St. Louis Board of Aldermen
Subject: **Response to 2019 Audit Report of the St. Louis Board of Aldermen**
Date: **November 26, 2019**

Overview
The following is the Clerk's reply to the 2019 Audit Report from the Missouri State Auditor.

Acknowledgments
We would like to thank the staff of the Missouri Auditors Office for their review of the St. Louis Board of Aldermen. We found those assigned to the Board of Aldermen professional, sensitive and accommodating. This was greatly appreciated. Their findings and recommendations are in line with where the Board is headed and affirms the new direction the Board is taking.

Background and Authority
The St. Louis Board of Aldermen is the legislative branch of city government. Its job is to make the laws that the administrative branch, the Mayor's office, is to implement. The Mayor's office is to see to the daily operations of the city and the administration of city services. The departments heads are selected and directed by the Mayor and sit on the Mayor's cabinet. They are not selected or approved by the Board of Aldermen.

The Board of Aldermen also provides checks and balances to the administrative branch of government. It has the power to investigate matters and legislate laws that direct city activities. However, the Board is not empowered to see to the implementation of laws. According to its own rules Board members or its committees cannot assume executive functions. The Board of Aldermen is to the city what Congress is to the Federal Government.

Structure and Charter of 1914
The present City Charter of 1914 created the Board of Aldermen. Before this, the city had a bicameral government. It had a Municipal Assembly composed of a House of Delegates and a Council. These two bodies made up the legislative branch of the municipal government.

The Charter of 1914, which is the present charter, created a single body called the Board of Aldermen. The present Charter created the Aldermanic job a part time position. In the early days most members worked other jobs while being Alderman.

This Charter created only three elected municipal positions as full time. This would be the Mayor, the Comptroller and the President of the Board of Aldermen. All three of these positions are elected City-wide. Two of the three positions are administrative positions with the Mayor being the Chief Executive/Administrative officer of the city. The President of the Board presides over Board meetings. The Comptroller handles City financial affairs.

Because the 1914 Charter envisioned the Board of Aldermen as a part time body of individuals its staff represented this vision. The Board did not have an extensive staff which has continued until today. Though ordinances have become more numerous and complicated than in 1914 the number staff members has not kept up with the changing times. In the past Board members could work a full time job and periodically attend a few Board committee meetings during the day and one full Board meeting a week. Today, there is an increased

number of committees, far more committee meetings, numerous meetings in the day and an increasing number of meetings held in the evening.

There is about one secretary for every five to six Aldermen; two, and at times three members, share a single office. Though the Board's primary function is the writing and passage of laws there is only one attorney for the 29 members. There are no assistants or aides for Board members. There are other staff members related to the processing of bills and resolutions. Between Board Bills and Resolutions, the Board processes about 600-700 pieces of legislation a session.

Legislative Sessions and Fiscal Years
The Board of Aldermen primality operates by Legislative Sessions. These sessions are outlined by the City Charter. A Legislative Session begins the third Tuesday of April of each year and ends the third Monday of April of each year. Other city departments primarily operate by the City's Fiscal Year. The City's Fiscal Year Begins the July1 and ends June 30th of each year.

The city's Fiscal Year and the Board's Legislative Session overlap. The State Auditors told Board staff that they were looking at fiscal years, though the Board measures its activities by Legislative Session.

The City's Fiscal Year ends a little more than two months into the beginning of a Board of Aldermen's Legislative Session. This is significant because some improvements made by the Board at the beginning of its Legislative Session, when the Board reconvene often times with newly elected members, were only counted by the Auditor's as an improvement in the last quarter of the Fiscal Year.

Combining the Clerk and the Legal Counsel
In 2003, due to a projected shortfall in the city budget, all city departments looked for ways to reduce their budgets. The Board of Aldermen, which was already short staffed, responded by combining the Clerk's position with the Board's Legal Counsel. Though needing additional staff to keep up with an increased workload, the Board also placed a temporary freeze on hiring new staff and filling vacancies.

Unlike other departments of the city the Board of Aldermen is an office composed of 29 elected officials. This includes 28 Aldermen and a President. Each position addresses a plethora of constituent needs but with little staff to help.

Until recently the Board did not have a financial advisor to help with drafting and review of Board Bills and fiscal notes. There is no legal research team. Each Aldermen shared a secretary with four or five others. Board members have no assistant, aide or community liaison officer as do other city elected officials. Though the volume and complexity of the work of Aldermen has increased over the years its staff did not reflect those needs or changes. This means the Board was already understaffed when tightening the budget became a necessity in 2003.

Effects of Combining the Clerk and Legal Counsel
The Clerk is the chief administrative officer of the Board. This position oversees all operations and manages all staff. The Clerk is the keeper of the archives and sees to the organization and administration of all meetings.

The Legal Counsel writes Board Bills, advises Board members on all legal matters and represents the Board related to litigation. Alone, each position is demanding and has voluminous and extremely important duties. Combined, the duties were more than challenging.

Though, combining the positions answered the short-term financial concerns, in the long run, it proved to cripple the operations of the Board. Those hired for the combined position were licensed attorney's in the State

of Missouri. Their tendency, and understandably so, was to concentrate on the law aspects of the combined position. This meant that many of Clerking duties fell to the way side.

Still further, as many of these Clerks left the Board for new job opportunities, there were significant periods of time when the duties of the Clerk became divided among staff members. This meant they had to perform their regular duties as well as the additional tasks. At other times there was only an acting Clerk. This ongoing lack of a Clerk disrupted the continuity of work and knowledge of Board administrative affairs.

The combined position lasted from April 2003 until April of 2019. In April of 2019 the positions were once again divided as envisioned and designed by the City Charter.

New Beginnings

Board of Aldermen Operational Development Plan

In April of 2019, at the beginning of the present Legislative Session, the Board brought on a new Clerk dedicated to just that position. In April the new Clerk provided the Board President with a Board of Aldermen Operational Development Plan. This plan outlined what steps would be taken to improve the operations and compliances of the Board. It also covered advances never before seen by the Board.

This plan was reviewed by the Personnel Committee of the Board and was shared with the Auditors when they began their review. The first step of the plan was a complete review of all Board of Aldermen policies, procedures, systems, processes, equipment, facilities, supplies and staffing. The plan called for glaring items to be addressed immediately in order to bring the Board complainant with its rules and applicable laws.

New Minutes and Agendas

In April 2019, which was the beginning of the present Board of Aldermen Legislative Session but was the last quarter of the City's Fiscal Year, the new Clerk implemented minutes and agendas for all committee meetings. This was completely new for the Board. Though the Board made and kept detailed rolls calls of all committee votes never in its history had it had or kept detailed minutes and agendas for all committee meetings. Minutes and agendas were only made for the meeting of the entire Board.

Other Changes and Updates

The new Clerk implemented changes in the staff sign in process, vacation requests and comp. time forms and requirements. A six-month report on this plan was issued to the Personnel Committee in October 2019. Numerous items were either addressed, improved and/or brought into compliance. Many of the items mentioned in the Auditor's report were addressed or were being addressed before the audit began. A step by step development plan was new for the Board and had just began in mid -April of 2019. The Audit of the Board began in May.

Audit Review

The first meeting with Board staff and the State Auditors took place in May 2019. The new Clerk had in place less than a month. The Assistant Clerk had only been in their position for about seven months.

The Auditors asked for and received information from the Fiscal Years of 2018, 2019 and 2020. 2020 is the present City Fiscal Year. These fiscal years overlap three Legislative Sessions. These are the 2017 – 2018, 2018 – 2019 and the present 2019- 2020 Legislative Session.

Responses

Topic Item Number 1
Payroll Controls and Procedures

Item 1.1 Personnel Manual
With the installment of the new Clerk, the Board of Aldermen's first comprehensive Employee Manual was drafted and submitted to the President of the Board of Aldermen in April of 2019 and later the Personnel and Administrative Committee of the Board. This Aldermanic Committee oversees the operations of the Board. This is the first complete personnel manual that the Board has ever had for its staff. Previous to this new manual a few policies related to the staff were covered in the Board's Rules. This manual covers far more than the items outlined in the rules.

The new manual includes new policies related to vacation time, sick leave, sign in, compensatory time and many other protocols and policies. It covers items recommended in the Auditor's report and much more. Some of the policies outlined in the new employee manual are independent policies from the manual but are reviewed and referenced in the new manual. Each separate policy referenced in the Employee Manual has to be reviewed and adopted by the committee before the full Employee Manual can be passed by the committee. This takes time and detailed review.

This manual was drafted and presented before the Auditors met with the Board's staff. It has received preliminary review and endorsement by the committee. It was shared with the Auditors once their review of the Board began. It is anticipated that all portions of the new manual and the new manual itself will be adopted by early 2020.

Also submitted was the Board's first Record Retention Policy. This policy sets out requirements and procedures related to the staff's usage, retention and destruction of documents. Though it is a separate document it is one of the policies mentioned and referenced in the new Personnel Manual. This policy was adopted by the committee. It represents one of several portions of the new Employee Manual that has been adopted. In relations to this policy the staff took time over this past summer to completely reorganize, update and arrange its archives. Over 470 boxes of files were removed from the archive room and rearranged on the new shelving acquired for this update. These files had not been organized to this extent in decades.

Item 1.2 Compensation Time
The Board does not provide payment for overtime work. It does allow for compensation time when employees have to work beyond the normal work hours. A policy related to this was presented by the Clerk in June of 2019 to the Personnel Committee for review and adoption. The Board did not have a written policy on this matter. This new policy includes how compensation will be determined, recognized, implemented, lodged and verified. It also sets out guidelines on what happens if an employee has to temporarily but, on an extended basis, take on additional duties due to absence of an employee or due to a position being vacant. This too is a new, independent policy but is reviewed and referenced in the new Personnel Manual.

A new policy proposed by the Clerk has been presented and adopted by the Personnel Committee related to accruing vacation time. One of the vacation schedules outlined in the City's Civil Service manual related to vacations was adopted by the Personnel Committee in October of 2019. Also adopted was the policy of reviewing the vacation accrual schedule every time the city updates its Civil Service policies. This is to ensure that the Board stays up-to-date on personnel vacation accrual policies. The implementation of minutes of all committee meetings, which is new for the Board, will maintain an archive so that future Boards will know where things are.

Item 1.3 Leave Time
Leave time policies are covered in the new Employee Manual. New processes have been already been implemented that ensures that all leave time forms are approved and signed by the proper supervisory staff. The new procedures ensure that all leave forms are approved and signed by the Clerk before the leave is taken.

Topic Item Number 2
Sunshine Law

Meeting Minutes
For the first time in the history of the Board of Aldermen comprehensive, written minutes and agendas are being created and kept for all Board of Aldermen committee meetings. This began in April of 2019 when the 2019-2020 Legislative Session. began This is also before the Auditor's met with staff. In the past the Board only kept tally sheets of committee meetings showing the votes. Committee meetings are also video recorded and streamed live.

The new minutes are a comprehensive review of committee meetings that not only show the vote count but also the proceedings of the meeting. The new minutes include a review of all of closed sessions as well as what was discussed in closed session. All closed sessions have been related to the hiring, firing, disciplining and/or promotion of employees. Some items had to be discussed in relations to these topics as well.

Very soon these minutes will be posted on the Board of Aldermen's web page. This will take a redesign of this page. A number of changes to this page are underway by the city's Information Technology Department that maintains this web page.

The 14 closed session meetings mentioned in the Auditor's report cover three fiscal years. The new minutes were implemented in April of 2019. The new minutes therefore only cover the last quarter of the last fiscal year reviewed by the Auditors.

The shape, form, look, style and scope of the minutes are still evolving. The minutes used today are somewhat different than how they started in April of 2019. Despite the staff shortage all committee meetings in the present Legislative Session have minutes and agendas without one meeting being missed.

Minutes of the Full Board meetings were also redesigned in April of 2019. This was done to better reflect the meetings and to provide more information for the public. In the past years Board minutes were not kept up-to-date. Though the Board meets every Friday, except when there is a holiday, minutes of meetings would not be produced for weeks at a time. Sometimes, minutes would be presented for approval months after the meeting. In April the new Clerk and staff began to ensure that all weekly full Board meeting minutes are prepared and sent to the members for approval in a timely manner. Minutes of the Friday full Board member meeting are ready for review and approval by Board members following Wednesday. They are also uploaded on the website at that time. This change also allows for the minutes to be timely published in the City Journal which is published weekly.

Summary
Though much needs to be done to bring the Board up to full compliance with its Rules and present needs, after almost two decades of being without a full-time Clerk, it has come a long way in very short period of time. It had addressed or was addressing many of the recommendations of the Auditors before they began their audit. The 2019-2020 Legislative Session marks a new beginning for the St. Louis Board of Aldermen.

NICOLE GALLOWAY, CPA
Missouri State Auditor

December 19, 2019

Honorable Mike Parson, Governor
and
Members of the General Assembly

The State Auditor's Office reviewed state agency compliance with Section 536.175, RSMo. We determined the Secretary of State, State Auditor, State Treasurer, Attorney General, Public School Retirement System, Local Government Employees' Retirement System, Missouri State Employees' Retirement System, County Employees' Retirement Fund, Kansas City Board of Police Commissioners, St. Louis Board of Police Commissioners,[1] Public Defender Commission, and Department of Health and Senior Services met the requirements of Section 536.175, RSMo. These requirements include each agency reviewing its existing rules, completing and filing the periodic rule review report with the Joint Committee on Administrative Rules (JCAR), and ensuring the report is available on the agency's website.

Section 536.175, RSMo, requires a 5 year rolling review by all state agencies of their existing rules. The first group of agencies (Title 1 through 6 of the Code of State Regulations [CSR]) were required to begin their rule review no later than July 1, 2015, and to complete it by June 30, 2016. The second group of agencies (Title 7 through 10 of the CSR) were required to begin their rule review no later than July 1, 2016, and to complete it by June 30, 2017. The third group of agencies (Title 11 through 14 of the CSR) were required to begin their rule review no later than July 1, 2017, and complete it by July 30, 2018. The fourth group of agencies (Title 15 through 19 of the CSR) were required to begin their rule review no later than July 1, 2018, and complete it by July 30, 2019. The final group of agencies (Title 20 through 22 of the CSR) began their rule review no later than July 1, 2019. Each agency must repeat this process every 5 years, and the first group of agencies will begin their review process again no later than July 1, 2020.

The JCAR publishes in the Missouri Register a notification of which rules are subject to review and the process for this review, including who the public may submit comments to at each agency. Each agency must prepare a report of the results of the agency's rule review with an attached appendix summarizing comments received and the agency's response. The agency must file the report and appendix electronically with the JCAR and the small business regulatory fairness board no later than June 30th after the JCAR publishes the notice. These reports also must be made available on the state agency's website.

Any rule not included in the agency review and report may become null and void. There is a process in place before nullification of a rule, including the ability of the agency to request an extension from the JCAR and a notice and opportunity for the agency to correct the delinquency.

[1] Proposition A, adopted in November 2012, eliminated the St. Louis Board of Police Commissioners and established the Metropolitan Police Department - City of St. Louis (SLMPD). Therefore, we contacted the SLMPD for our review.

P.O. Box 869 • Jefferson City, MO 65102 • (573) 751-4213 • FAX (573) 751-7984

On July 2, 2018, the JCAR published in the Missouri Register the notification of the agency rules (Title 15 through 19) subject to review and the process, as required by Section 536.175.2, RSMo. The following agencies began their rule review on July 1, 2018, and completed the review process by June 30, 2019:

Title 15 - Elected Officials
Title 16 - Retirement Systems
Title 17 - Boards of Police Commissioners
Title 18 - Public Defender Commission
Title 19 - Department of Health and Senior Services

Based on a review of the JCAR's website, each agency timely completed and filed its periodic rule review report by June 30, 2019. These reports are available on that website. Each agency also posts its report on the agency's website.

On October 25, 2019, my office sent a letter to each agency to confirm the information from this review. Each agency provided a response. The table below provides a summary of the information determined from this review.

Department	Number of Rules Reviewed	Number of Comments Received	Rule Report Filed with the JCAR	Rule Report Available on Agency Website
Secretary of State	211	0	Yes	Yes
State Auditor	31	0	Yes	Yes
State Treasurer	15	0	Yes	Yes
Attorney General	108	0	Yes	Yes
Public School Retirement System (PSRS/PEERS)	40	0	Yes	Yes
Local Government Employees' Retirement System (LAGERS)	25	0	Yes	Yes
State Employees' Retirement System (MOSERS)	1	0	Yes	Yes
County Employees' Retirement Fund (CERF)	42	0	Yes	Yes
Kansas City Board of Police Commissioners	7	0	Yes	Yes
St. Louis Board of Police Commissioners	50	0	Yes	Yes
Public Defender Commission	6	0	Yes	Yes
Department of Health and Senior Services	759	0	Yes	Yes

Based on this review, these agencies timely completed their rule review process and report as required under Section 536.175, RSMo; and, no further action is necessary.

Report No. 2019-125

December 2019

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of Missouri State Highway Patrol's Use of Highway Funds

Background

Missouri state law requires the Missouri State Auditor to examine whether State Highways and Transportation Fund appropriations to the Missouri State Highway Patrol are used in accordance with the Missouri Constitution, which limits the use of these funds to activities related to administering and enforcing state motor vehicle laws or traffic regulations.

Methodology

Audit staff reviewed policies and procedures, financial records and other pertinent documents; interviewed agency personnel; and tested selected transactions. Auditors also reviewed highway patrol calculations of amounts spent for non-highway activities; and the amounts spent for highway-related activities from other funding sources.

Conclusions

The audit determined the Missouri State Highway Patrol complied with legal provisions related to the use of this funding for the 2019 fiscal year.

Because of the limited objective of this review, no overall rating is provided.

State Auditor's Report 2

Background, Methodology, and Conclusions 3

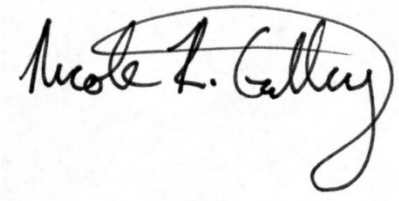
NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
and
Sandra K. Karsten, Director
Department of Public Safety
and
Colonel Eric T. Olson, Superintendent
Missouri State Highway Patrol
Jefferson City, Missouri

We have audited the Department of Public Safety, Missouri State Highway Patrol's Use of Highway Funds, as required by Section 226.200.3, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended June 30, 2019. The objective of our audit was to determine whether the agency is in compliance with legal provisions related to the use of Highway Funds.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The Background, Methodology, and Conclusions present our comments concerning the overall compliance related to the Department of Public Safety, Missouri State Highway Patrol's Use of Highway Funds.



Nicole R. Galloway, CPA
State Auditor

In-Charge Auditor:	Joyce Thomson
Audit Staff:	Jacob Thompson

Missouri State Highway Patrol's Use of Highway Funds Background, Methodology, and Conclusions

Background

The State Auditor is required to determine whether appropriations from the State Highways and Transportation Fund (State Highway Fund) to the Missouri State Highway Patrol (MSHP) are used for administering and enforcing state motor vehicle laws and traffic regulations pursuant to the constitution.

Limitations and requirements

Article IV, Section 30(b), Missouri Constitution, limits the MSHP's use of highway funds to activities related to administering and enforcing state motor vehicle laws or traffic regulations. In addition, Section 226.200.3, RSMo, provides, in part:

" . . . Appropriations allocated from the state highways and transportation department fund to the highway patrol shall only be used by the highway patrol to administer and enforce state motor vehicle laws or traffic regulations. Beginning July 1, 2007, any activities or functions conducted by the highway patrol not related to enforcing or administering state motor vehicle laws or traffic regulations shall not be funded by the state highways and transportation department fund, but shall be funded from general revenue or any other applicable source. Any current funding from the highways and transportation department fund used for activities not related to enforcing state motor vehicle laws or traffic regulations shall expire on June 30, 2007. The state auditor shall annually audit and examine the appropriations made to the highway patrol to determine whether such appropriations are actually being used for administering and enforcing state motor vehicle laws and traffic regulations pursuant to the constitution. The state auditor shall submit its annual findings to the general assembly by January fifteenth of each year."

During the year ended June 30, 2019, the MSHP used appropriations from the State Highway Fund as follows:

		Appropriation Authority	Expenditures	Lapsed Balances*
Enforcement personal service	$	76,593,852	68,596,384	7,997,468
Enforcement expense and equipment		6,486,658	5,835,400	651,258
Technical services personal service		16,224,942	14,151,320	2,073,622
Technical services expense and equipment		14,339,238	13,727,663	611,575
Vehicle and driver safety personal service		11,469,917	10,602,702	867,215
Vehicle and driver safety expense and equipment		1,020,875	802,299	218,576
Refund unused motor vehicle inspection stickers		100,000	43,185	56,815
Administration personal service		6,270,112	6,081,803	188,309
Administration expense and equipment		462,589	404,561	58,028
Crime laboratories personal service		4,125,861	3,864,126	261,735
Crime laboratories expense and equipment		1,259,249	1,127,057	132,192
Law Enforcement Academy personal service		1,362,021	1,269,144	92,877
Law Enforcement Academy expense and equipment		73,576	57,291	16,285
Fringe benefits personal service		87,013,521	76,969,510	10,044,011
Fringe benefits expense and equipment		6,571,488	6,554,216	17,272
Vehicle replacement expense and equipment		6,323,075	3,848,997	2,474,078
Gasoline expenses		4,837,264	3,349,655	1,487,609
Interoperable system highway		5,612,926	5,435,642	177,284
Interoperable ongoing highway		4,100,000	3,662,123	437,877
Total	$	254,247,164	226,383,078	27,864,086

* The lapsed balances include withholdings made at the Governor's request totaling $4,816,865.

Methodology

Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the agency; and testing selected transactions. We obtained an understanding of internal control that is significant to the audit objective and assessed the design, implementation, and operating effectiveness of such internal control to the extent necessary to address our audit objective. We also obtained an understanding of legal provisions that are significant within the context of the audit objective, and we assessed the risk that illegal acts, including fraud, and violations of other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

To determine whether the MSHP complied with the limitations on the use of highway funds, we reviewed the MSHP calculations of amounts expended from the State Highway Fund for non-highway activities and the amounts expended by the MSHP for highway-related activities from other funding sources. We compared the amounts used in the MSHP calculations to

expenditures recorded in the state accounting system (SAM II) and other supporting documentation. In addition, we tested certain expenditures to determine if the expenditures were properly recorded.

Conclusions

We concluded the MSHP appears to be in compliance with legal provisions related to the use of Highway Funds. During fiscal year 2019, the MSHP spent approximately $2,790,000 appropriated from the State Highway Fund for expenditures not related to highway activities. This amount included non-highway personal service expenditures made from the State Highway Fund from appropriations for administration, crime laboratories, training academy, and fringe benefits; and expense and equipment expenditures from appropriations for administration and fringe benefits. However, these expenditures were more than offset by personal service and/or expense and equipment expenditures totaling approximately $6,956,000 from appropriations for crime laboratories, training academy, technical services, gasoline, and fringe benefits that were related to highway activities but not paid from the State Highway Fund. As a result, approximately $4,166,000 more was spent on highway-related activities than was paid from highway funds during fiscal year 2019.

Missouri State Auditor

Barry County Collector and Property Tax System

Report No. 2019-124

December 2019

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the Barry County Collector and Property Tax System

County Collector's Controls and Procedures	The County Collector's office does not reconcile the composition of receipts to the composition of deposits, and personal commissions are not reported to the Internal Revenue Service by the county or applicable cities.
Property Tax System	Refunds of overpayments related to errors in property tax records are not always properly recorded in the property tax system, and reductions in assessed valuations do not always go through the abatement process. Neither the County Clerk nor the County Commission adequately reviews the financial activities of the County Collector. The County Collector's annual settlements for the years ended February 28, 2019, and 2018, were not complete and accurate.

In the areas audited, the overall performance of this entity was **Good**.*

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Organization and Statistical Information 8

NICOLE GALLOWAY, CPA
Missouri State Auditor

County Commission
and
County Collector
Barry County, Missouri

We have audited the County Collector and Property Tax System of Barry County in fulfillment of our duties under Section 29.230, RSMo. Additionally, Section 52.150, RSMo, requires the State Auditor to audit the office of the County Collector after being notified of a vacancy in that office. On June 30, 2019, a vacancy occurred in the office of the County Collector of Barry County. A successor was appointed and sworn into office effective July 17, 2019. The scope of our audit included, but was not necessarily limited to, the period of March 1, 2019, to June 30, 2019, and the 2 years ended February 28, 2019. The objectives of our audit were to:

1. Evaluate the county's internal controls over significant property tax functions.

2. Evaluate the county's compliance with certain legal provisions.

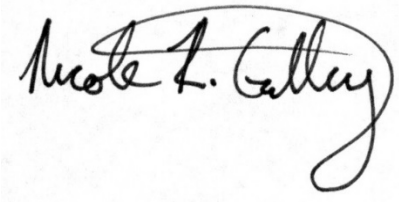
Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal control that is significant to the audit objectives and assessed the design and implementation of such internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the County Collector and county management and was not subjected to the procedures applied in our audit of the County Collector and Property Tax System.

Section 52.150, RSMo, requires the County Commission to accept the State Auditor's report and, if necessary, to take certain specific actions if the State Auditor finds any monies owed to the county or the former County Collector. For the areas audited, we identified (1) deficiencies in internal controls, and (2) noncompliance with legal provisions. The accompanying Management Advisory Report presents our findings arising from our audit of the County Collector and Property Tax System of Barry County.

An additional report, No. 2019-118, *Barry County*, was issued in December 2019.



Nicole R. Galloway, CPA
State Auditor

The following auditors participated in the preparation of this report:

Director of Audits:	Randall Gordon, M.Acct., CPA, CGAP
Audit Manager:	Lori Melton, M.Acct., CPA
In-Charge Auditor:	Connie James, CGAP
	Marian Rader, M.Acct., CPA, CFE, CGFM
Audit Staff:	Misty Bowen, MSED

1. County Collector's Controls and Procedures

The County Collector's office does not reconcile the composition of receipts to the composition of deposits, and personal commissions are not reported to the Internal Revenue Service (IRS). Property taxes and other monies collected by the County Collector totaled approximately $24.4 million during the year ended February 28, 2018, and approximately $25.8 million during the year ended February 28, 2019.

1.1 Composition of receipts

The County Collector does not reconcile the composition of receipts (cash, check, money order, or credit card) to the composition of deposits. For 16 out of the 43 deposits reviewed (37 percent), the composition of receipts did not agree to the composition of deposits. The method of payment is marked on the tax statements and is entered in the computer system. However, when more than one form of payment is used, both forms of payments are not always entered in the computer system. A report is generated from the computer system totaling receipts by the method of payment. However, the composition of receipts on this report is not reconciled to the composition of deposits.

Failure to implement adequate recording, reconciling, and depositing procedures increases the risk of loss, theft, or misuse of monies received will go undetected.

A similar condition was noted in our prior county audit report.

1.2 Commissions

Personal commissions are not reported to the IRS by the county or applicable cities. The County Collector was personally paid commissions for the collection of city taxes totaling $9,515, $9,513, and $9,915 for the years ended February 28, 2019, 2018, and 2017, respectively. Since these payments were not processed through the county payroll system, they were not reported on the employee's W-2 forms, appropriate payroll taxes were not withheld, and the employer's share of payroll taxes was not paid. The IRS regulations require individuals treated as employees to have all compensation reported on W-2 forms.

To ensure all compensation is properly reported and taxed, all compensation should be paid through the normal county payroll process. The failure to properly report and tax all wages could result in penalty and interest charges assessed against the county.

Recommendations

The County Collector:

1.1 Accurately indicate the method of payment and reconcile the composition of receipts to the composition of deposits.

1.2 Ensure all compensation is paid through the county's normal payroll process, properly taxed, and reported to the Internal Revenue Service.

Auditee's Response

1.1 The County Collector agrees and will be working with her staff and the system capabilities to ensure the accurate method of payment is entered into the system and is reconciled to the deposits made.

1.2 The County Collector has not been able to receive approval from the County Commission to process the commissions through the county payroll system, so she is researching other options to ensure commissions received for the collection of cities' taxes are properly reported to the IRS.

2. Property Tax System

Controls and procedures of the property tax system need improvement.

2.1 Abatements

Refunds of overpayments related to errors in property tax records are not always properly recorded in the property tax system, and reductions in assessed valuations do not always go through the abatement process. If an error in a property tax record resulting in an overpayment is identified after the related tax has been paid, the County Assessor adjusts the assessed value of the property in the subsequent tax year so that the tax liability is reduced to offset the amount of the overpayment. The County Assessor enters a reminder into the tax system to verify the accuracy of the assessed value in the following year. However, the County Collector should issue a refund check for tax overpayments instead of the County Assessor changing assessed valuations to lower a future payment.

The lack of independent verification and approval of changes in the property tax system significantly increases the risk of intentional and unintentional errors and omissions to the property tax books. Presenting abatement orders to the County Commission provides an independent review of changes made to the property tax system and helps ensure these changes are proper.

Sections 137.260 and 137.270, RSMo, assign responsibility to the County Clerk for making corrections to the tax books as ordered by the County Commission. Section 53.030, RSMo, requires the County Assessor to take an oath to assess property at what he or she believes to be the actual cash value, and no provision of law permits the County Assessor to change the assessment based on overpayment of tax. Making adjustments to assessed valuations to satisfy overpayments increases the risk of improper assessments in future years and loss of tax revenues.

2.2 Review of annual settlements

Neither the County Clerk nor the County Commission adequately reviews the financial activities of the County Collector. The County Clerk does not maintain an account book or other records summarizing property tax charges, transactions, and changes. In addition, the County Clerk and the County Commission did not provide any evidence they had verified the accuracy and

completeness of the County Collector's annual settlements. As a result, there is an increased risk of loss, theft, or misuse of property tax monies going undetected.

Section 51.150.1(2), RSMo, requires the County Clerk to maintain accounts with all persons chargeable with monies payable into the county treasury. An account book or other records that summarize all taxes charged to the County Collector, monthly collections, delinquent credits, additions and abatements, and protested amounts should be maintained by the County Clerk. Such records would help the County Clerk ensure taxes charged and credited to the County Collector are complete and accurate and could also be used by the County Clerk and County Commission to verify the County Collector's annual settlements. In addition, Section 139.190, RSMo, requires the County Commission to carefully and fully examine the annual settlement of the County Collector. Such procedures are intended to establish checks and balances related to the collection of property taxes.

A similar condition was noted in our prior 2 county audit reports.

2.3 Accuracy of annual settlements

The County Collector's annual settlements for the years ended February 28, 2019, and 2018, were not complete and accurate. The annual settlements did not include private car tax receipts totaling $47,020 for the year ended February 28, 2019, and $43,565 for the year ended February 28, 2018. The annual settlements also did not accurately report the taxes outlawed at the conclusion of the year ended February 28, 2019, totaling $44,529, or the taxes outlawed at the conclusion of the year ended February 28, 2018, totaling $40,300. These outlawed amounts were not reported as abatements, but were erroneously reported as delinquent taxes.

The County Collector should ensure complete and accurate annual settlements are prepared to provide assurance all collections and distributions are accounted for properly. Incomplete and/or inaccurate annual settlement information reduces the effectiveness of the settlement as a mechanism for accounting for all monies the County Collector is charged with collecting. As noted in section 2.2, procedures should be performed by the County Clerk and the County Commission to verify the accuracy of the County Collector's annual settlements.

Recommendations

2.1 The County Assessor discontinue the practice of changing assessed valuations for subsequent billings when overpayments occur and present abatement orders to the County Commission for correction of all erroneous assessments.

2.2 The County Clerk maintain an account book with the County Collector. In addition, the County Clerk and the County Commission

should use the account book to review the accuracy and completeness of the County Collector's annual settlements.

2.3 The County Collector prepare complete and accurate annual settlements.

Auditee's Response

2.1 The County Assessor will work with the County Collector to discontinue the practice of adjusting the assessed values on future tax years when an adjustment is required after the related tax has been paid. Refunds will be issued in this situation and the County Assessor will follow the procedure established for abatements including presenting the abatement orders to the County Commission.

2.2 The County Clerk is in the process of developing a system to track the activity of the County Collector. The County Commission will use the developed account book to verify the annual settlement.

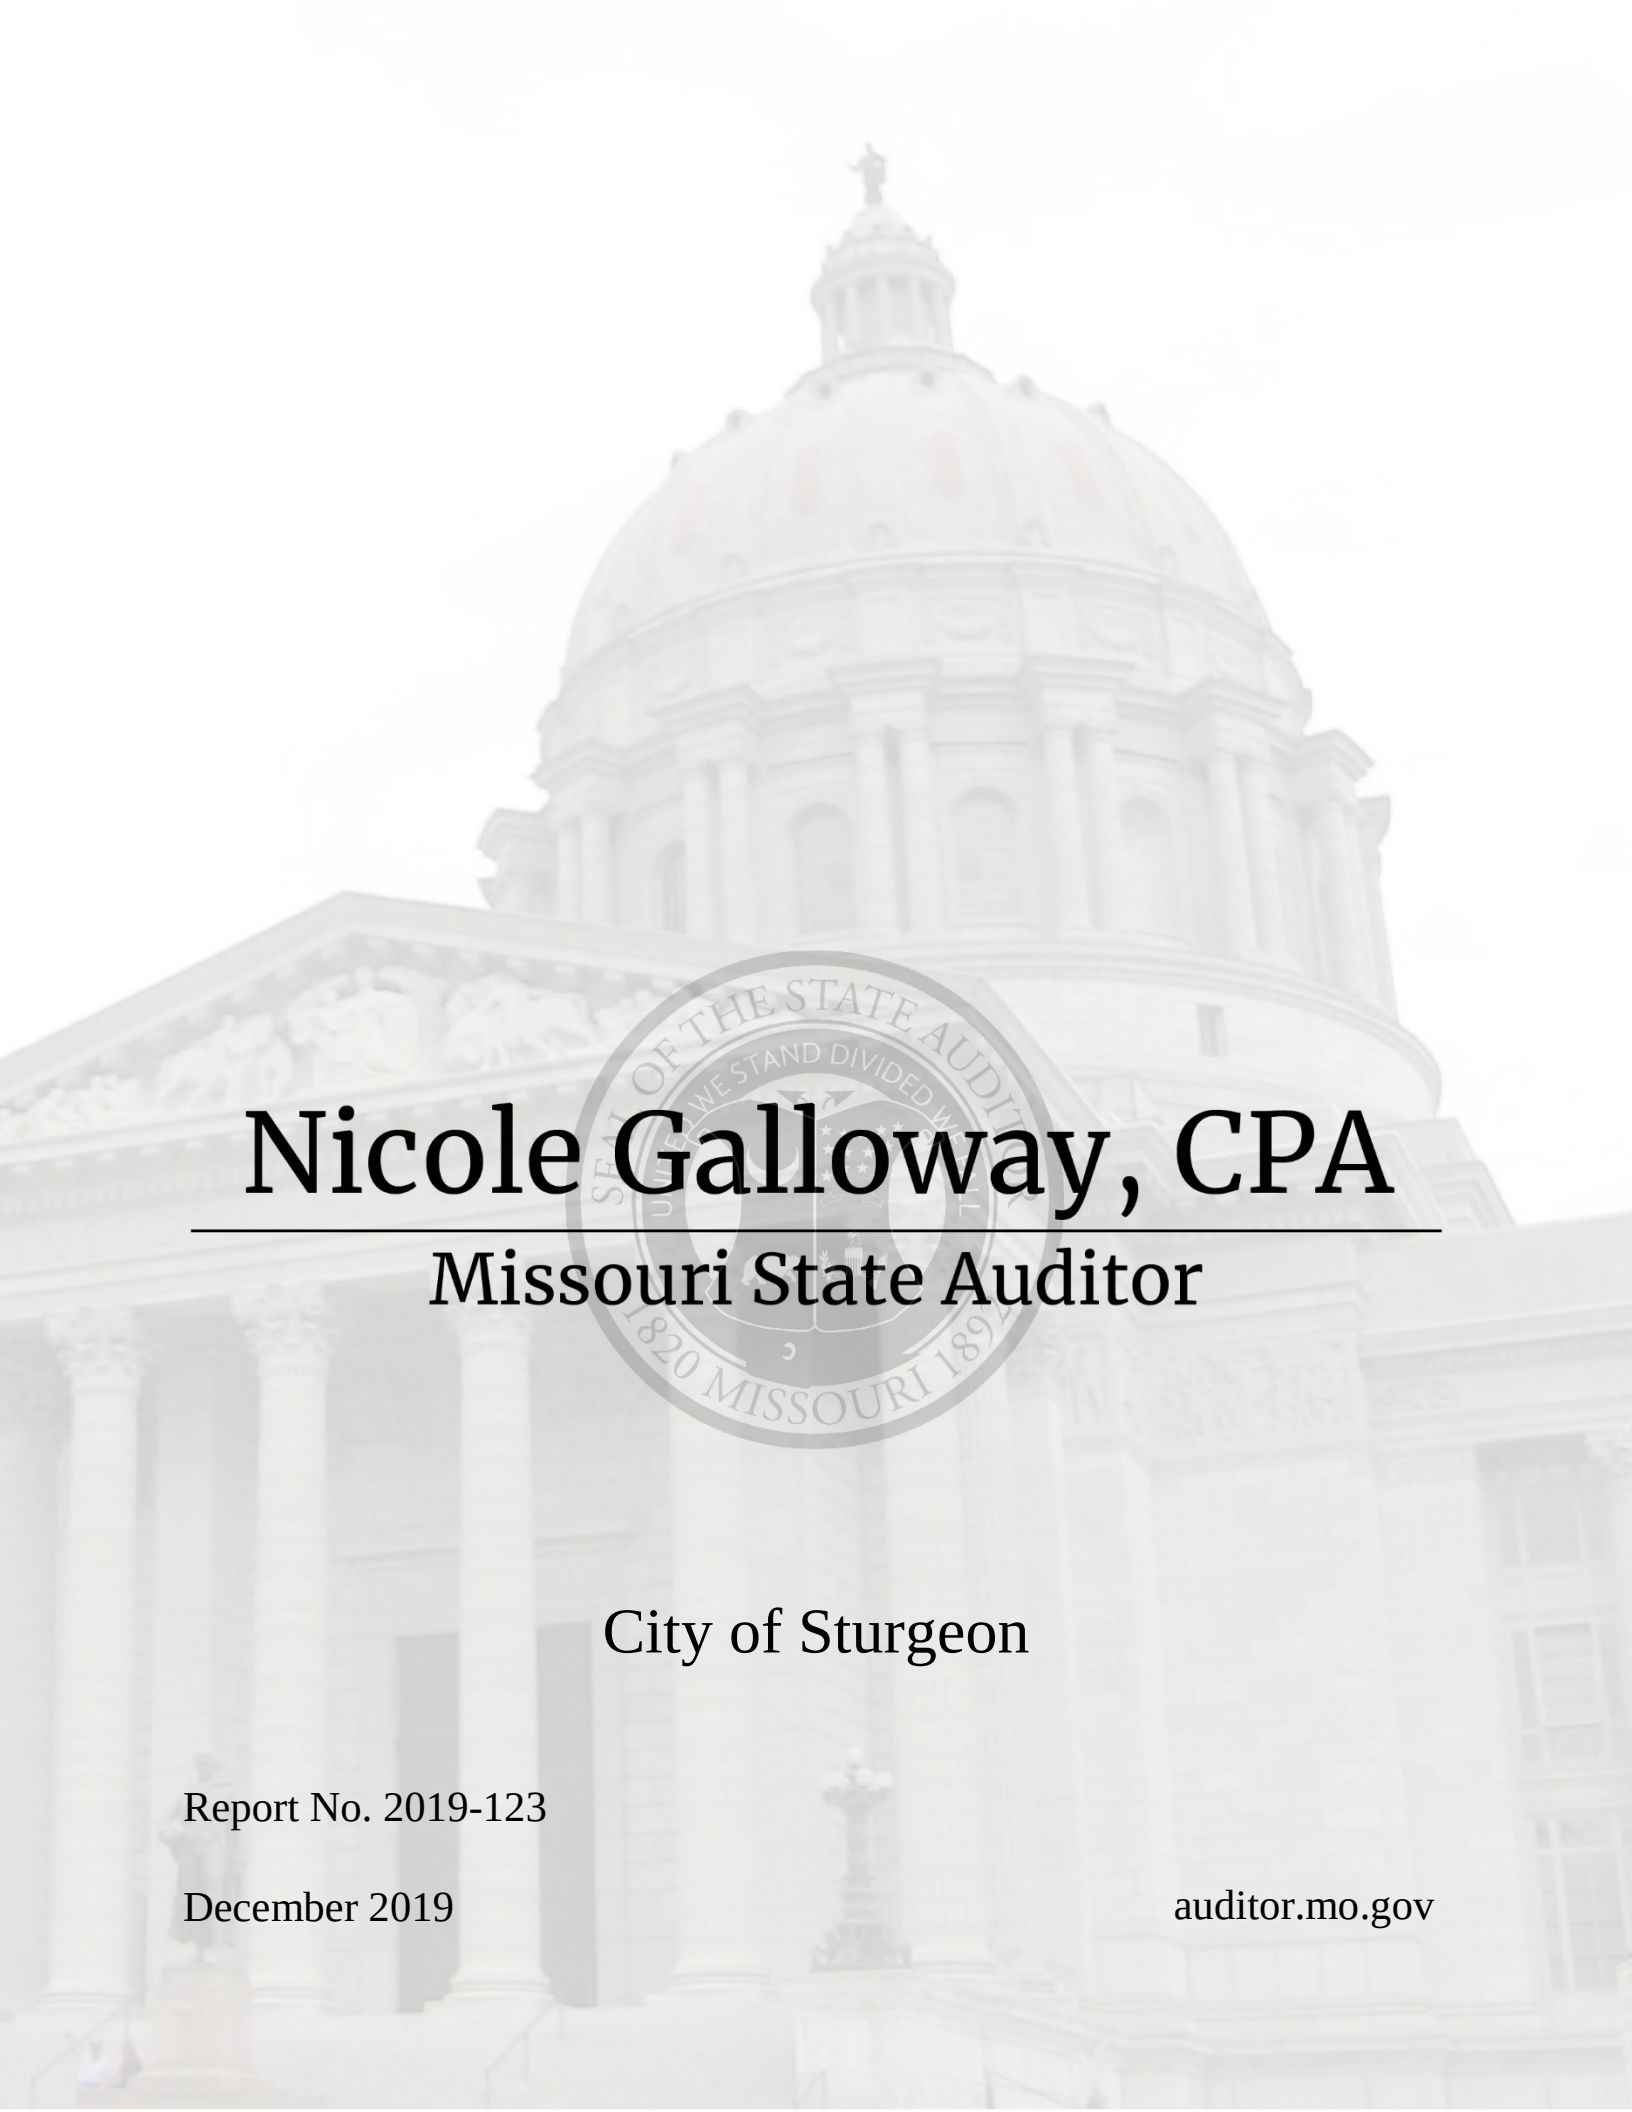
2.3 The County Collector agrees to include the private car tax receipts on the annual settlement and will ensure the outlawed taxes are accurately reported as abated.

Barry County Collector and Property Tax System
Organization and Statistical Information

The County Collector bills and collects property taxes for the county and most local governments. Pursuant to Section 52.015, RSMo, the term for which collectors are elected expires on the first Monday in March of the year in which they are required to make their last final settlement for the tax book collected by them. Annual settlements are to be filed with the county commission for the fiscal year ended February 28 (29).

Janice Varner served as County Collector until June 30, 2019. Skyler Bowman was appointed the Barry County Collector and sworn into office on July 17, 2019.

The County Collector received compensation of $17,003 for the period March 1, 2019, to June 30, 2019. The County Collector received compensation of $54,890 for the year ended February 28, 2019, and $54,513 for the year ended February 28, 2018. Compensation was in accordance with statutory provisions.



Nicole Galloway, CPA

Missouri State Auditor

City of Sturgeon

Report No. 2019-123

December 2019

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the City of Sturgeon

Mt. Horeb Cemetery Fund	The Board of Aldermen has not maintained restricted revenues of the Mt. Horeb Cemetery Fund in compliance with state law. The Board maintains the assets of the Mt. Horeb Cemetery Fund with other city assets in violation of city code.
Budget, Financial Reporting, and Accounting Records	The city budget prepared for the year ended June 30, 2019, did not contain all required elements. The financial statements submitted to the State Auditor's Office for the year ended June 30, 2019, and 6 prior years were not adequate. The city did not maintain accurate accounting records.
Accounting Controls and Procedures	The Board has not adequately segregated accounting duties or ensured documented supervisory or independent reviews of work performed by city personnel are performed. The city's procedures for receipting, recording, and depositing monies are poor. City personnel did not prepare adequate bank reconciliations for the general bank account.
Sunshine Law	Weaknesses exist in the documentation of minutes for Board meetings.

In the areas audited, the overall performance of this entity was **Fair**.*

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Organization and Statistical Information 11

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the Honorable Mayor
and
Members of the Board of Aldermen
City of Sturgeon, Missouri

The State Auditor was petitioned under Section 29.230, RSMo, to audit the City of Sturgeon. We have audited certain operations of the city in fulfillment of our duties. The scope of our audit included, but was not necessarily limited to, the year ended June 30, 2019. The objectives of our audit were to:

1. Evaluate the city's internal controls over significant management and financial functions.

2. Evaluate the city's compliance with certain legal provisions.

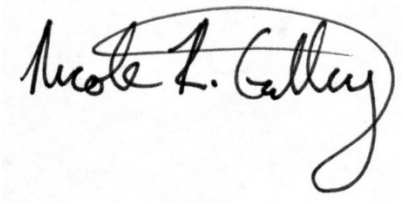
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the city, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal control that is significant to the audit objectives and assessed the design and implementation of such internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the city's management and was not subjected to the procedures applied in our audit of the city.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the City of Sturgeon.



Nicole R. Galloway, CPA
State Auditor

The following auditors participated in the preparation of this report:

Director of Audits:	Randall Gordon, M.Acct., CPA, CGAP
Audit Manager:	Josh Allen, CPA, CFE, CGAP
In-Charge Auditor:	Emily Barraclough, CPA
	James M. Applegate, MBA
Audit Staff:	Ryan P. Tierney, MAcc, CPA
	Catherine Pence

1. Mt. Horeb Cemetery Fund

The city has not established adequate procedures to ensure restricted revenues are maintained in compliance with state law and city code.

1.1 Restricted revenues

The Board of Aldermen has not maintained restricted revenues of the Mt. Horeb Cemetery Fund in compliance with state law.

On May 27, 1969, the city passed City Ordinance 304, which established a perpetual care cemetery fund, under Chapter 214, RSMo, for the Mt. Horeb Cemetery. The statutory purpose of a perpetual care cemetery fund is to fund the preservation, care, upkeep, and adornment of a cemetery. State law authorizes fund revenue to include proceeds from the sale of cemetery lots, gifts, and donations. Fund revenues are to be invested and only the interest income is to be expended for the purpose of maintaining the cemetery. As of June 30, 2019, the balance of the Mt. Horeb Cemetery Fund consisted of monies held in the general bank account and certificates of deposit (CDs) held at a local bank.

Transfers

City officials transferred 2 CDs from the Mt. Horeb Cemetery Fund to the General Revenue Fund in violation of state law. In November 2018, a $58,105 CD of the Mt. Horeb Cemetery Fund matured and this amount was deposited into the general bank account and credited to the General Revenue Fund. City officials also transferred another CD with a $26,175 balance from the Mt. Horeb Cemetery Fund to the General Revenue Fund during fiscal year 2019. City officials indicated they transferred the CDs to the General Revenue Fund because they believed the CDs had been erroneously placed in the Mt. Horeb Cemetery Fund in prior years. However, city officials did not have any documentation to support this claim.

Fund balance

The transfer of the CDs from the Mt. Horeb Cemetery Fund has resulted in a significant decline in the fund's fiscal year ending balance. The following table lists the fund's ending balance for the fiscal year ended June 30, 2019, and the previous 5 fiscal years.

Fiscal Year Ended June 30,	Ending Fund Balance
2014	$ 187,389[1]
2015	187,165[1]
2016	181,763[1]
2017	169,758[2]
2018	177,706[2]
2019	95,051[3]

[1] Fund balances reported in the city's unaudited financial statements.

[2] Fund balances reported in the city's audited financial statements.

[3] Fund balance recorded in the city's accounting system as of June 30, 2019.

Disbursements

City officials have expended the principal of the Mt. Horeb Cemetery Fund in violation of state law. The Mt. Horeb Cemetery Fund's disbursements exceeded interest income during the year ended June 30, 2019, by approximately $10,400. During the years ended June 30, 2014, through 2018, disbursements exceeded interest income each year by approximately $7,500 to $19,800.

Section 214.020, RSMo, states the income from the perpetual care cemetery fund "shall be expended by such town, city or village for the preservation, care, upkeep and adornment of such cemetery, for the repurchasing of cemetery lots previously sold, and for no other purpose whatsoever. The principal of said perpetual care cemetery fund shall not be encroached upon for any purpose whatsoever and no money shall be transferred out of such perpetual care cemetery fund except for the purposes of being invested as provided for in this section and for the repurchasing of cemetery lots previously sold."

1.2 Commingled assets

The Board maintains the assets of the Mt. Horeb Cemetery Fund with other city assets in violation of city code. The city separately tracks the Mt. Horeb Cemetery Fund within the city's accounting system. However, the assets of the fund are commingled in the city's general bank account with assets from other city funds.

City Code Section 7.150, states that any "bequest, gift or donation which may be accepted by the City as aforesaid shall be held and kept separate and apart from all other funds of the City and there shall be no commingling of any such cemetery trust funds unless specific authority therefor be granted by the donor(s) thereof."

Recommendations

The Board of Aldermen:

1.1 Ensure the Mt. Horeb Cemetery Fund is reimbursed for monies inappropriately deposited and credited to the General Revenue Fund. In addition, the Board should ensure the principal of the Mt. Horeb Cemetery Fund is maintained and only interest income is disbursed in accordance with state law.

1.2 Ensure the assets of the Mt. Horeb Cemetery Fund are separately maintained from all other funds as required by city code.

Auditee's Response

1.1 Although the city disagrees that it did not have documentation to support the city's claim that some CDs had been erroneously placed in the Mt. Horeb Cemetery Fund in prior years, the city nevertheless accepts and will implement the recommendation of the State Auditor's Office, and will reimburse monies inappropriately deposited and credited to the General Revenue Fund back to the Mt. Horeb Cemetery Fund. Additionally, in the future, the Board will

ensure only the interest income earned on the principal will be disbursed for cemetery upkeep and maintenance.

1.2 The city will ensure that separate bank accounts for the Mt. Horeb Cemetery Fund and the Mt. Horeb Maintenance and Upkeep Fund are opened, and that these funds are separately maintained from all other funds to avoid commingling of assets. The city will implement a procedure to document into which fund's account donated monies are to be deposited and maintained.

Auditor's Comment

1.1 Audit staff received no documentation from city officials indicating CDs were erroneously placed in the Mt. Horeb Cemetery Fund instead of the General Revenue Fund.

2. Budget, Financial Reporting, and Accounting Records

The city's budget, financial reporting, and accounting records are in need of improvement.

2.1 Budget

The city budget prepared for the year ended June 30, 2019, did not contain all required elements. The budget document did not include a budget message, actual or budgeted amounts for the 2 preceding years, beginning and ending fund balances, or a budget summary.

Section 67.010, RSMo, requires the budget to present a complete financial plan for the ensuing budget year and sets specific guidelines for the information to be included in the budget. A complete and well-planned budget, in addition to meeting statutory requirements, can serve as a useful management tool by establishing specific financial expectations for each area of city operations. It also assists in setting the tax levy, utility rates, and informing the public about city operations and current finances. Proper monitoring is necessary for the budget to be an effective management tool and to comply with state law.

2.2 Financial reporting

The financial statements submitted to the State Auditor's Office for the year ended June 30, 2019, and 6 prior years were not adequate. The data submitted consisted of beginning and ending bank account balances and receipts and disbursements for each fund. The information submitted did not include the beginning and ending fund balances and the city's property tax levy as required by state regulations.

Section 105.145, RSMo, requires each political subdivision to file annual reports of its financial transactions with the State Auditor's Office. Regulation 15 CSR 40-3.030 details the elements required, which include beginning and ending balance, summary of receipts and disbursements, statement of

indebtedness at the beginning and ending, and the property tax rate levied for each fund for the reporting period.

2.3 Accounting records

The city did not maintain accurate accounting records. The city implemented a new accounting system in April 2019. However, city officials did not ensure current year receipts and disbursements were accurately transferred into the new system. Therefore, fund balances in the new accounting system for the year ended June 30, 2019, were not accurate when compared to recorded current year activity and prior year ending balances. For example, the beginning fund balance of the Recreation Center Fund was $50,575. Receipts and disbursements recorded in the new accounting system during the year ended June 30, 2019, resulted in a decrease of $303 in the fund balance. The expected ending fund balance should have been $50,272. However, the new accounting system's ending fund balance totaled $52,018, resulting in a difference of $1,746.

Accurate accounting transactions and financial information are necessary for the Board to make informed decisions and to provide residents with reliable information about city finances. Inaccurately recorded financial information makes it more difficult to detect loss, theft, or misuse of funds.

Recommendations

The Board of Aldermen:

2.1 Prepare annual budgets that contain all information as required by state law.

2.2 Ensure financial data filed complies with state regulations and statutes.

2.3 Ensure accounting transactions are appropriately recorded.

Auditee's Response

2.1 The city will implement procedures to correct its budget, financial reporting, and accounting records formats to comply with standard practice and ensure that annual budgets contain all information as required by Section 67.010, RSMo, and any other provisions of state law.

2.2 The city will utilize the sample templates it received from the State Auditor's Office website to submit future financial data reports to ensure it complies with state regulations and statutes.

2.3 The city will research this finding with its accounting and financial software provider, and ensure that its accounting transactions are being correctly recorded.

3. Accounting Controls and Procedures

Accounting controls and procedures need improvement. During the year ended June 30, 2019, city receipts totaled $1,068,481 (excluding transfers).

3.1 Segregation of duties

The Board has not adequately segregated accounting duties or ensured documented supervisory or independent reviews of work performed by city personnel are performed. The City Clerk and Assistant City Clerk are responsible for receipting, recording, and depositing monies. In addition, the Assistant City Clerk is responsible for performing bank reconciliations. Reviews of the detailed accounting records and the bank reconciliations are not performed by other city personnel or Board members.

Proper segregation of duties helps ensure all transactions are accounted for properly and assets are adequately safeguarded. If proper segregation of duties cannot be achieved, documented independent or supervisory reviews of accounting and bank records should be performed.

3.2 Receipting, recording, and depositing

The city's procedures for receipting, recording, and depositing monies are poor. As a result, there is no assurance all monies collected are properly receipted, recorded, and deposited. City personnel do not:

- Issue receipt slips for some water and sewer monies received. The stubs from the water and sewer bills received are maintained, but they do not indicate the date, amount, and method of payments received.
- Issue receipt slips for recreation center monies received. City records indicate recreation center revenues totaled approximately $36,400 during the year ended June 30, 2019.
- Deposit security deposits received. The city obtains a security deposit when individuals rent city buildings for events. During our cash count on July 31, 2019, we noted $2,252 in security deposits on hand. The oldest check for $100 had been receipted in October 2017.
- Always issue receipt slips sequentially and do not always indicate the method of payment on the receipt slips. Therefore, the composition of receipts cannot be reconciled to the composition of deposits.
- Account for the numerical sequence of receipt slips issued.

Failure to implement adequate receipting, recording, and depositing procedures increases the risk that loss, theft, or misuse of funds will go undetected.

3.3 Bank reconciliations

City personnel did not prepare adequate bank reconciliations for the general bank account. In April and May 2019, the city closed the water and sewer,

recreation center, fairgrounds, fairs and festivals, and wetland improvement bank accounts. The balances of these accounts were transferred into the general bank account.

The bank reconciliation process for April 2019 through June 2019 only included documenting the transactions that had cleared the bank; however, reports of outstanding checks and deposits in transit were not prepared. City personnel prepared bank reconciliations properly prior to April 2019, but after the implementation of the new accounting system they did not. The June 2019 general account bank balance was $333,658.

Performing adequate monthly bank reconciliations helps ensure receipts and disbursements have been properly handled and recorded, and increases the likelihood errors will be identified and corrected timely.

Recommendations

The Board of Aldermen:

3.1 Segregate the accounting duties. If proper segregation cannot be achieved, ensure documented independent or supervisory reviews of detailed accounting and bank records are performed.

3.2 Ensure prenumbered receipt slips are issued sequentially for all monies received and ensure all receipts are deposited. The Board should also ensure the method of payment is indicated, the numerical sequence of receipt slips is accounted for, and the composition of receipts is reconciled to the composition of amounts recorded and deposited.

3.3 Ensure adequate monthly bank reconciliations are prepared, and lists of outstanding checks and deposits in transit are prepared. Any differences between accounting records and reconciliations should be promptly investigated and resolved.

Auditee's Response

3.1 The city's current procedure of handling accounting duties will be segregated between the City Clerk and Assistant City Clerk. The city will implement the best practice of ensuring proper documentation of accounting transactions and that supervisory review occurs. This implemented procedure will also apply to bank records, ordering and receiving of office supplies, and proper verification of payroll calculations and paycheck issuance.

3.2 The city has implemented a procedure to ensure prenumbered receipt slips are issued sequentially for all monies received, and that each receipt records the amount received, date received, and method of payment. In addition, the city will deposit all receipts and ensure the composition of receipts is reconciled to the composition of amounts recorded and deposited.

3.3 The city has implemented a procedure where bank reconciliations will be performed by both the City Clerk and the Assistant City Clerk. Additionally, the city will ensure adequate bank reconciliations are prepared for the general bank account, and will prepare reports of all outstanding checks and deposits in transit. Any difference between accounting records and reconciliations will be promptly investigated and resolved. Finally, the Mayor will review bank reconciliations each month.

4. Sunshine Law

Weaknesses exist in the documentation of minutes for Board meetings. The city has 6 different boards and committees.

- The Recreation Center Board meeting minutes did not indicate results of votes taken to approve purchases.
- The Fairgrounds Board meeting minutes did not indicate the time and place of meetings and the Board members absent. In addition, the minutes were not signed to indicate Board approval.
- The Park and Trees Board meeting minutes did not indicate the Board members absent. In addition, the minutes were not signed to indicate Board approval.

Section 610.020.7, RSMo, states minutes of open and closed meetings shall be taken and retained by the public governmental body, including, but not limited to, a record of any votes taken at such meetings. The minutes shall include the date, time, place, members present, members absent, and a record of any votes taken. In addition to the statutory requirements, the meeting minutes should be signed by the preparer and subsequently approved by the Boards to provide an independent attestation that the minutes are a correct record of the matters discussed and actions taken during the meetings.

Recommendation

The Board of Aldermen work with the Boards to ensure meeting minutes include all information required by law and are signed by the preparer and approved by the Boards.

Auditee's Response

The Mayor, City Clerk, and Board will conduct a special training session with each advisory Board. Attendance at this training session will be mandatory and copies of the Missouri Sunshine Law booklet will be distributed. This process should educate members on the proper steps of conducting and documenting an advisory Board meeting. The city will establish a plan for follow-up trainings every six months to ensure continuing compliance.

City of Sturgeon
Organization and Statistical Information

The City of Sturgeon is located in Boone County. The city was incorporated in 1856 and is currently a fourth-class city. The city employed 5 full-time employees and 5 part-time employees on June 30, 2019.

City operations include utilities (water, sewer, and trash), police, maintenance of streets, recreational facilities (park, recreation center, youth center, and fairgrounds), and 2 cemeteries.

Mayor and Board of Aldermen

The city government consists of a mayor and a 4-member board of aldermen. The members are elected for 2-year terms. The mayor is elected for a 2-year term, presides over the board of aldermen, and votes only in the case of a tie. The Mayor and Board of Aldermen, at June 30, 2019, are identified below. The Mayor is paid $100 per month and Board of Aldermen members are paid $75 per month.

Steve Crosswhite, Mayor
Zane Arends, Alderman
Stan Robinson, Alderman
Ron Sage, Alderman
Janice Butler, Alderwoman

Financial Activity

A summary of the city's financial activity, prepared using the city's bank statements, for the year ended June 30, 2019, follows:

City of Sturgeon
Schedule of Receipts, Disbursements, and Changes in Cash and Investments
Year Ended June 30, 2019

	General	Water/Sewer	Recreation Center	Fairgrounds	Fairs and Festivals	Wetland Improvement	Total
RECEIPTS

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the Honorable Chairperson
and
Members of the Board of Trustees
Village of Ferrelview, Missouri

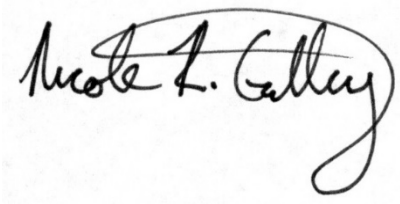
We have conducted follow-up work on certain audit report findings contained in Report No. 2019-019, *Village of Ferrelview* (rated as Poor), issued in March 2019, pursuant to the Auditor's Follow-Up Team to Effect Recommendations (AFTER) program. The objectives of the AFTER program are to:

1. Identify audit report findings for which follow up is considered necessary, and inform the village about the follow-up review on those findings.

2. Identify and provide status information for each recommendation reviewed. The status of each recommendation reviewed will be one of the following:

    - Implemented: Auditee fully implemented the recommendation, either as described in the report or in a manner that resolved the underlying issue.
    - In Progress: Auditee has specific plans to begin, or has begun, to implement and intends to fully implement the recommendation.
    - Partially Implemented: Auditee implemented the recommendation in part, but is not making efforts to fully implement it.
    - Not Implemented: Auditee has not implemented the recommendation and has no specific plans to implement the recommendation.

As part of the AFTER work conducted, we reviewed documentation provided by village officials and held discussions with village officials to verify the status of implementation for the recommendations. Documentation provided by the village included minutes of meetings, financial records, and other pertinent documents. This report is a summary of the results of this follow-up work, which was substantially completed during October 2019.



Nicole R. Galloway, CPA
State Auditor

Village of Ferrelview
Follow-Up Report on Audit Findings
Status of Findings

1. Financial Condition

The village's General Fund was in poor financial condition and the Board of Trustees was not adequately monitoring the financial condition of the village. The reconciled cash balance of the General Fund at December 31, 2017, was $19,053, and a receivable, totaling $6,550, from the Water and Sewer Fund was listed as an asset for the General Fund in the 2018 budget. The balance of the General Fund was achieved through significant transfers from the Water and Sewer and Street Funds. Without those transferred funds, the General Fund balance at December 31, 2017, would likely have been negative. In addition, the General Fund balance was not sufficient to allow the village to pay calculated excess revenues collected from traffic tickets during 2016 and 2017, totaling $20,300 and $1,551, to the Department of Revenue, according to addendums filed with the State Auditor's Office (SAO).

Recommendation

The Board of Trustees closely monitor the village's financial condition. The Board should reduce spending where possible, establish a plan to pay interfund obligations and excess revenues to the state, and evaluate controls and management practices to ensure efficient use of resources.

Status

Partially Implemented

The reconciled balance of the General Fund is $19,039 as of August 31, 2019. The Board is now monitoring the financial condition of the village more closely. Cash balances for each bank account, disbursements from each fund since the previous meeting, and bills currently due are presented for the Board's approval at its monthly meetings. The Board no longer compensates Trustees and has chosen to leave the position of Village Treasurer vacant. The Village Clerk now performs the duties of both offices to reduce payroll costs. The village disbursed $1,551 to the Missouri Department of Revenue in November 2018 for excess revenues collected in 2017, but no payments have been made regarding amounts due by the village for 2016 excess revenues. The Board has not taken action regarding the interfund obligation and gave no indication of plans to address this issue. In addition, as of October 31, 2019, the district has not set up a payment plan with the SAO or made any payments toward the May 2019 audit billing.

2.2 Utilities - Shut off procedures

The village was not following its service shut off ordinance and had not developed adequate procedures to monitor and collect delinquent water accounts. Numerous customers who had not made payments within 15 days of the due date did not have service disconnected as required by ordinance, and there were no records showing any service shut off for the period of our review. In addition, a former Trustee, who served as the Water Commissioner, used his position to halt the shut off of his water service for non-payment.

Recommendation

The Board of Trustees ensure utility accounts are shut off in accordance with village ordinance and no one is given preferential treatment.

Status	**Implemented** Per the Village Clerk, utility customers are given until the close of business on the 25th of each month to pay their balance. She monitors accounts throughout the month and if a payment is not received, a door hanger is placed at the residence on the 26th informing the customer they have 24 hours to make payment to avoid service disconnection. If payment is not made by the next day, the Water Commissioner is notified and the water operator is instructed to discontinue service. We reviewed a transaction dated October 1, 2019, for a customer account reconnection fee of $75, which indicates shutoff of service is now happening. The Village Clerk indicated since the city began enforcing the ordinance fewer unpaid bills are occurring. In addition, the Village Clerk indicated the village will also enforce the shut off policy for village staff or trustees.
2.3 Utilities - Partial payments	The village did not have a written policy regarding partial payments by customers who have delinquent accounts, and customers were allowed to make partial payments without entering into a written payment agreement and without Board approval.
Recommendation	The Board of Trustees establish a written policy regarding partial payments and ensure signed written payment agreements are prepared and approved by the Board.
Status	**Implemented** Per the Village Clerk, partial payments for customers with delinquent balances are no longer allowed. The village will accept a partial payment on a utility account that is not delinquent, but the total amount due must still be paid by the due date to avoid interest charges and shut off. Partial payments of customer deposits are allowed, at the Village Clerk's discretion, by Ordinance 335, as long as an initial payment of $150 has been made.
2.4 Utilities - Accounts receivable	The village did not have accurate records of outstanding utility accounts nor adequate procedures to pursue collection of accounts receivable. In addition to not following established shut off procedures, village personnel made limited or no efforts to collect past due amounts. The village also did not pursue collection of outstanding amounts due from renters with landlords, as allowed by state law. Village personnel indicated a settlement agreement entered into in July 2003 with the owner of a mobile home park stated the village would not pursue collection of renters delinquent balances with management of the park.
Recommendation	The Board of Trustees ensure adequate records are maintained to determine unpaid utility bills and pursue collection of outstanding balances. In addition, consult with the village's attorney regarding the ability to pursue collections

from owners of rental property for unpaid utility bills and develop adequate procedures to pursue amounts due.

Status

Implemented

A Utility Disconnect Report that shows the amount customers are delinquent (if any) is generated monthly. The October report showed one delinquent customer account that the Village Clerk stated had already had water service disconnected. The village entered into a contract with a collection agency in August 2019 for collection services on delinquent utility accounts. Subsequent to the release of our audit report in March 2019, the Village Clerk located Ordinance 2005-02, which was adopted in 2005 and allows a tenant and property owner to be held jointly liable to pay for utility services rendered. The Village Clerk indicated village officials plan to enforce this ordinance in the future.

2.5 Utilities - Accounts receivable reconciliations

The village did not perform monthly reconciliations of total amounts billed, payments received, and amounts unpaid for any utility services.

Recommendation

The Board of Trustees ensure monthly reconciliations of amounts billed to amounts collected and delinquent accounts are performed.

Status

Not Implemented

The Village Clerk indicated monthly reconciliations are not performed.

2.6 Utilities - Non-monetary adjustments

The Village Clerk, who was responsible for receipting and posting utility payments to the system, made 431 non-monetary adjustments, totaling $207,885, during 2017 to reduce customer account balances. These posted adjustments were not reviewed and approved by an independent person and documentation of reasons for the adjustments was not always retained. In addition, a comparison of approved adjustments to adjustments actually made to the system was not performed by an independent person.

Recommendation

The Board of Trustees ensure all non-monetary adjustments are properly approved and compared to actual changes posted to the computer system, and documentation of reasons for all non-monetary adjustments is retained.

Status

Partially Implemented

Non-monetary adjustments to utility accounts are now approved by the Water Commissioner and Board of Trustees in advance and reasons for the changes are documented in the Board meeting minutes. The August 3, 2019, minutes documented approval for a customer receiving a utility credit of $351 with an explanation listed for the adjustment. In addition, the Water Commissioner

also documented her review and approval by signing off on the utility adjustment edit register. The village has not adopted a procedure to compare approved adjustments to changes posted to the computer system but the Village Clerk indicated she would discuss the issue with the Board and attempt to get one of the Trustees to perform this review in the future.

2.7 Utilities - Utility deposits

Refundable utility deposits held in the Water and Sewer Fund, along with water receipts, were not accounted for properly. The village's list of refundable utility deposits totaled $31,956 as of February 28, 2018; however, the bank balance of the Water and Sewer Fund account was only $31,654. Village officials had not determined the cause of the shortage.

Recommendation

The Board of Trustees ensure utility deposits held in the Water and Sewer Fund are accounted for properly and reconcile the utility deposit listing monthly to the amount held in the Water and Sewer Fund bank account. Any discrepancies should be investigated and resolved.

Status

Implemented

The Village Clerk uses a spreadsheet to track refundable utility deposits and she verified each active customer had a deposit on hand. She also updated the utility deposit report, which tracks the balance of water deposits in the Water and Sewer Fund. She recently reconciled the deposit listing to the utility deposit report, which totaled $33,008 as of November 12, 2019, and indicates she will do this monthly in the future.

3.2 Budgets, Financial Planning, and Reporting - Long range plans

The village had not developed formal written long-range plans for streets or utilities.

Streets

The village had not developed a formal annual maintenance plan for village streets. Village streets were in very poor condition and a relatively small amount of money had been spent to repair/replace village streets since 2015. As of December 31, 2017, the Street Fund balance was $55,923. This balance includes approximately $48,000 requested from Platte County in October 2015 as a distribution of the village's share of the countywide transportation sales tax passed by county voters in 2013. In addition, personnel at the Platte County Treasurer's office indicated the village had approximately $68,000 available for distribution as of June 30, 2018.

Utilities

The village has an aging infrastructure for its water and sewer system and a multi-year capital improvement plan had not been documented. Because bonds issued in 1991 to build the system had been repaid, no reserve funds or repair and replacement funds were required, and as of December 31, 2017, no funds had been set aside for the system's long-term repairs or maintenance.

Recommendation

The Board of Trustees develop a formal street maintenance plan which will utilize available resources in a manner consistent with existing restrictions on the funds and prepare a formal capital improvement plan for the water and sewer system and a means to fund it.

Status

Partially Implemented

A formal street maintenance plan has not been developed. The Village Clerk has prepared a spreadsheet that lists all village streets and has a column to indicate inspection dates and notes about maintenance work recently done to each street (if any). Another column allows a priority (number 1 through 3) to be assigned regarding necessary maintenance for each street, but no priority levels have been assigned. No estimates of future available resources to pay for street maintenance or when the work might be performed is included on the spreadsheet.

In April 2019, the village passed Ordinance 335 that authorizes the addition of a $5 monthly charge to customer utility bills for a Replacement and Emergency Fund. According to the ordinance this fund is to be used for maintenance and repairs of the water system only. The Village Clerk did not know why the sewer system was not included in the ordinance. She stated she will bring this issue to the attention of the Board during the November 2019 meeting. As of September 30, 2019, the balance of the Replacement and Emergency Fund was $3,517. A formal capital improvement plan for the utility systems has not yet been developed.

3.3 Budgets, Financial Planning, and Reporting - Financial reporting

The financial statement submitted to the State Auditor's Office for the year ended December 31, 2017, was filed timely but was not adequate. In addition, a financial statement for the year ended December 31, 2016, was submitted timely, but had to be resubmitted several times after being updated due to errors identified by the Village Treasurer in the financial records of the village. A final revision was submitted in February 2018.

Recommendation

The Board of Trustees ensure financial data submitted complies with state regulations and statutes.

Status

Not Implemented

The village submitted its 2018 financial statement to the State Auditor's Office. However, it was not submitted by the required deadline and reported financial activity of the General Fund only.

4.1 Accounting Controls and Procedures - Segregation of duties

The Village Clerk receipted and deposited payments received and posted transactions to the utility system, including adjustments to customer account balances. The Village Treasurer posted transactions to the accounting system and received and deposited non-utility payments as well as prepared bank

reconciliations and wrote checks for all bank accounts. No one reviewed the work performed by either of these employees.

Recommendation

The Board of Trustees segregate the accounting duties of the village office personnel. If proper segregation cannot be achieved, ensure a documented independent or supervisory review of detailed accounting and bank records is performed.

Status

Not Implemented

The Board has chosen to leave the position of Village Treasurer vacant and all accounting functions are now performed by the Village Clerk. While there is some evidence that particular functions or actions taken by the Village Clerk are reviewed by a Board member, such as non-monetary adjustments discussed in the status for MAR finding number 2.6, a documented review of amounts received to amounts deposited or bank records is still not performed.

4.2 Accounting Controls and Procedures - Receipting

Receipts slips were not issued for most payments received by the village. The Village Clerk issued a manual receipt for utility payments when payment was in cash or if a receipt was requested. The utility software system assigned a sequential number for each transaction posted to the system, but those transactions included non-monetary adjustments where no payment was received. Personnel did not account for manual receipts issued by the Village Clerk or have procedures to determine that all manual receipts slips issued have been accounted for and posted to the system. The Village Treasurer did not issue receipt slips for non-utility payments received.

Recommendation

The Board of Trustees ensure receipt slips are issued for all monies received and account for the numerical sequence of all receipt slips issued.

Status

Partially Implemented

The village updated its utility computer system to generate receipt slips for utility payments, but has not established a procedure to account for the numerical sequence of receipts slips issued. The village continues to issue some manual receipt slips for both utility receipts and non-utility receipts, but has still not adopted procedures to ensure manual receipt slips issued for utility payments have been accounted for and posted to the utility system. For non-utility payments where a manual receipts slip is issued, the village copy of the receipt slip is attached to the deposit slip, but a log of the receipt slips issued is not maintained, which would allow the numerical sequence to be accounted for properly. Receipt slips are not issued for non-utility payments received through the mail or direct deposited to a village account.

5. Payroll Controls and Procedures

Significant improvement over payroll controls and procedures was needed.

5.1 Payroll procedures

Payroll records were not reviewed by the Board or someone independent of the payroll function. We identified errors with time and leave records, and documentation to support payroll transactions was not always adequate. Timecards were not always prepared or maintained for all police department personnel and prepared timecards were not signed by a supervisor to document approval of time worked.

Recommendation

The Board of Trustees adequately segregate payroll duties or, at a minimum, ensure a documented periodic review of these functions is performed by someone independent of the payroll functions. In addition, the Board should ensure timesheets are prepared, properly signed, approved and retained for all employees, and the information is reviewed for accuracy prior to entry into the accounting system.

Status

Partially Implemented

Timesheets are required for all employees and are now retained, but are still not signed by employees. The Village Clerk indicated timesheets and a payroll summary report are reviewed by a Board member when signing paychecks, but that review is not documented.

5.2 Personnel ordinances and policies.

The village did not have ordinances to address some significant issues and did not always comply with established ordinances. The village also had not adopted a personnel manual or other needed policies.

- During portions of 2016 and 2017, the Police Chief was paid a weekly salary, but the number of hours required to be worked each week was not established by ordinance or policy. In July 2017, the Board voted to pay the Police Chief a $300 per week salary for 20 hours of work. An ordinance was not adopted establishing the compensation for the Police Chief and no formal policies were adopted to establish the position's normal hours.

- Compensation for the Village Clerk and Village Treasurer was not established by ordinance.

Recommendation

The Board of Trustees adopt necessary personnel ordinances and/or policies, and ensure compliance with those ordinances and policies.

Status

In Progress

At its October 5, 2019, meeting the Board approved the Employee Handbook and plans to update compensation ordinances for clarity and consistency with

the handbook in April 2020 when any new Board members are sworn in and village officials are reappointed. A policy establishing the limitation on hours per week for the Police Chief has not been established, but the Board Chairman indicated the Police Chief agreed to limit his hours to 25 hours per week unless authorized in advance by the Board Chairman.

5.3 Police department payroll costs

Total payroll costs for the village increased significantly from 2014 to 2017. During the 2 years ending December 31, 2017, approximately $214,000 was spent on payroll, with more than $95,000 (45 percent) being for police officer salaries.

The Board had not performed an analysis to determine the level of police protection needed or if its police department payroll costs were comparable to other similar cities. Payroll for the police department increased significantly from 2014 to 2016, and then began to decrease in 2017 and 2018 after the police department was disbanded and all officers but the Police Chief terminated.

Recommendation

The Board of Trustees evaluate the level of personnel services, including police protection, provided by the village and determine if any changes are warranted.

Status

Implemented

The village has chosen to leave the position of Village Treasurer vacant and the Village Clerk now performs the duties of both offices. The former Police Chief was reinstated by the Board during 2018 and is currently the only officer employed. While not formally documented, the Police Chief is limited to 25 hours per week unless approved by the Board Chairman. These personnel decisions have reduced payroll costs during 2019. The need for additional law enforcement personnel has been discussed by the Board, but action will not be taken until village finances allow expansion of the department. The Board Chairman indicated the village plans to add some volunteer reserve officers in the next few months.

6.1 Disbursements - Approval process

The Village Treasurer indicated a copy of the check register showing all checks written since the last meeting is presented to the Board at each Board meeting, but these registers had not been part of the official minutes. Since the registers report spending for the time period prior to the meeting, the Board was not approving payments before they occurred and the minutes of Board meetings during 2017 did not mention bills approved for payment. In addition, we saw no evidence any Board members reviewed invoices or other supporting documentation prior to payments occurring or that the Chairperson or other check signers reviewed invoices prior to signing checks.

Recommendation	The Board of Trustees ensure complete lists of disbursements are prepared and compared to invoices and other supporting documentation, check signers review invoices, and these reviews are documented.
Status	**In Progress** While the Village Clerk prepares a listing of disbursements made since the last Board meeting to the Trustees at each meeting, this listing does not include the check number associated with each payment. Such a listing would allow the Board to ensure the list is complete, and the Village Clerk stated she will begin adding check numbers to the listing in December 2019. Check signors are now presented invoices to review when signing checks, but their review has not been documented. The Board Chairman, who is one of the check signers, indicated he has now begun documenting his review of the invoices and will ensure other check signers do also.

6.2 Disbursements - Allocation of funds	The Board had no documentation of any discussions held or the basis for determining the amounts paid from the Water and Sewer Fund and Street Fund to the General Fund. Documentation was not maintained to support the amounts paid and the village had not developed a method to allocate administrative costs to any funds, so these payments appeared, at least partially, to be subsidies to the General Fund.
Recommendation	The Board of Trustees ensure payroll costs and other disbursements are properly allocated to the applicable village funds and allocations are supported by adequate documentation.
Status	**In Progress** The Village Clerk indicated she tracked how her time was spent for a one week period in 2018 and used this time study to allocate her payroll expenses; however, the time study was not maintained. Quarterly, the Village Clerk makes a transfer from the Water and Sewer Fund to the General Fund to reimburse the General Fund for that fund's portion of her payroll expenses. Currently, no transfers are made from the Street Fund, but the Village Clerk indicated she plans to track her time again for a longer period of time to determine if any changes need to be made to the quarterly allocation, and indicated she will retain the support for the allocation. For disbursements other than payroll, she determines which fund should pay the invoice when it is received and allocations of these disbursements to more than one fund has not been considered necessary.

7. Capital Assets	Improvement was needed over capital asset records and for dispositions of capital assets.
7.1 Capital asset records	The village did not maintain records of its capital assets including buildings, land, vehicles, equipment, and other property. The village also did not tag,

number, or otherwise identify assets for specific identification or perform physical inventories.

Recommendation

The Board of Trustees ensure village personnel properly tag, number, or otherwise identify all applicable village property and conduct and document an annual inventory.

Status

Not Implemented

The Village Clerk created an asset log in October 2019 to track assets; however, no village property has been posted to the log. The Village Clerk indicated she plans to complete the log by year end and will ensure a physical inventory is performed by a Board member annually. Asset tags have not been purchased and attached to village assets.

7.2 Disposition of police vehicle

We identified concerns regarding the process followed for the sale of 2 police vehicles. The Board selected the winning bidders at its January 9, 2018, meeting with the results documented in the minutes. However, the sales did not occur to those bidders as approved. One of the vehicles was eventually sold to a Trustee for $550, although he was not the high bidder for the vehicle awarded to him and it is unclear who approved the sale. Minimum bid amounts were established for each vehicle in the advertisement, but the amount paid by the Trustee for the vehicle purchased was less than the minimum amount advertised. We saw no evidence the Board authorized a reduction in price. In addition, the advertisement did not specify the color of each vehicle and when bids were received, several referred to the vehicles by year and by color, but the year indicated did not match the year of the vehicle. The city initially received bids for the vehicle not purchased, but those bids were withdrawn or the bidder declined to make the purchase.

The March 13, 2018, Board minutes indicated there were concerns with the process followed regarding the vehicle purchased by the Trustee. A motion was made, and the Board voted unanimously, to contact the high bidder and determine if he was still interested in purchasing the vehicle. If he was not, the Board voted to rerun the advertisement. The Trustee and his wife, the Board Chairperson at the time, both voted on this matter. The Trustee retained possession of the vehicle he purchased, while the city did not sell the other vehicle.

Due to the conflicts between years and colors of vehicles bid on, the lack of clear documentation on decisions made by the Board and how those directions were carried out, and the vehicle being sold to a Board member for much less than the minimum bid amount established in the advertisement, this transaction gives the appearance of a conflict of interest and violates the Missouri Constitution.

Recommendation	The Board of Trustees establish policies and procedures for the sale of village assets and ensure future sales are clearly documented, bid specifications for payment are met, and avoid the appearance of a conflict of interest. In addition, the Board should take action to retrieve the vehicle sold.
Status	**Partially Implemented** The village has not established policies or procedures for the sale of village assets. The village has not sold any village assets since our audit report was released and still has the vehicle that was not sold. The Board determined taking action to retrieve the vehicle in the possession of the former Trustee would likely exceed the value of the vehicle.

8.1 Ordinances and Sunshine Law - Ordinances	Village ordinances were not organized, complete, or up to date. Village ordinances were not codified or maintained in a well-organized manner. Also, the ordinances pertaining to employees' job responsibilities, work hours, compensation, and other applicable items had not been updated since December 1953.
Recommendation	The Board of Trustees ensure ordinances are maintained in a complete and well-organized manner and an index of all ordinances passed and rescinded is established. The Board should also establish and or update, by ordinance, village employees' compensation and fees for village services.
Status	**In Progress** The Village Clerk stated there are multiple ordinance books and she located an index of the contents of each book. She has scanned the various ordinances into her computer and has begun identifying which ordinances are still in effect and which have been repealed, but has not prepared an updated index. At its October 5, 2019, meeting the Board approved the Employee Handbook and plans to update compensation ordinances for clarity and consistency with the handbook in April 2020 when any new Board members are sworn in and village officials are reappointed. Ordinances related to fees for village services have not been adopted.

8.3 Ordinances and Sunshine Law - Closed sessions	The village did not comply with state law regarding closed sessions.
Reasons for closing meetings	Open meeting minutes did not always document the specific reasons or section of law allowing the meetings to be closed. Most meeting notices and agendas included a statement that a closed session would be held, in the event the Board wanted to enter closed session, and the statement generally included the same list of potential discussion matters.

Allowable topics	Some topics discussed and voted on in closed meetings were not allowable under the Sunshine Law.
Insufficiently detailed meeting minutes	Minutes for some closed session meetings did not include sufficient details of the topics discussed. We noted instances where the topic of the meeting could not be determined and the minutes simply indicated no votes were taken.
Recommendation	The Board of Trustees ensure specific reasons for closing a meeting are documented in the open minutes, and ensure only topics allowed by state law are discussed in closed meetings. In addition, the Board should ensure closed meeting minutes include sufficient detail necessary to provide a complete record of matters discussed and actions taken.
Status	**Implemented** Minutes of both open and closed sessions are now significantly more detailed regarding the topics discussed and decisions made, and the Chairman indicated the Board is more diligent in its efforts to ensure only allowable topics are discussed in closed session. The August 22, 2019, Board meeting included a closed session and the open minutes properly indicated the specific reason for closing the meeting. The closed minutes included sufficient detail of the matter discussed and actions taken to show the discussion was limited to the reason for closing the meeting.

8.4 Ordinances and Sunshine Law - Meeting minutes	Minutes for monthly Board meetings were neither signed by the Village Clerk as the preparer, nor the Board Chairperson or another Board member to indicate Board approval.
Recommendation	The Board of Trustees maintain complete and accurate minutes for all meetings and ensure meeting minutes are signed by the preparer as well as the Board Chairperson or another Board member following Board approval.
Status	**Implemented** We reviewed minutes for meetings held by the Board in August and September 2019 and they looked complete and accurate and were signed by both the Village Clerk as preparer and the Board Chairperson to indicate Board approval.

NICOLE GALLOWAY, CPA
Missouri State Auditor

County Commission
and
County Collector
Madison County, Missouri

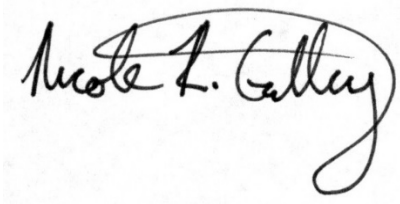
We have conducted follow-up work on certain audit report findings contained in Report No. 2019-050, *Madison County Collector and Property Tax System* (rated as Poor), issued in July 2019, pursuant to the Auditor's Follow-Up Team to Effect Recommendations (AFTER) program. The objectives of the AFTER program are to:

1. Identify audit report findings for which follow up is considered necessary, and inform the county about the follow-up review on those findings.

2. Identify and provide status information for each recommendation reviewed. The status of each recommendation reviewed will be one of the following:

    - Implemented: Auditee fully implemented the recommendation, either as described in the report or in a manner that resolved the underlying issue.
    - In Progress: Auditee has specific plans to begin, or has begun, to implement and intends to fully implement the recommendation.
    - Partially Implemented: Auditee implemented the recommendation in part, but is not making efforts to fully implement it.
    - Not Implemented: Auditee has not implemented the recommendation and has no specific plans to implement the recommendation.

As part of the AFTER work conducted, we reviewed documentation provided by county officials and held discussions with county officials to verify the status of implementation for the recommendations. Documentation provided by the county included financial records, and other pertinent documents. This report is a summary of the results of this follow-up work, which was substantially completed during October 2019.



Nicole R. Galloway, CPA
State Auditor

Madison County Collector and Property Tax System
Follow-Up Report on Audit Findings
Status of Findings

1. Missing Monies and Other Questionable Deleted Transactions

Between January 1, 2017, and October 31, 2018, monies totaling at least $13,263 were receipted and the transactions were subsequently deleted from the property tax system. The monies were not deposited and are missing. Additional transactions totaling at least $2,056 were receipted and subsequently deleted from the property tax system during the period and are questionable.

Recommendation

The County Commission and the County Collector work with law enforcement officials regarding criminal prosecution related to the missing monies and take the necessary actions to obtain restitution.

Status

Implemented

The County Collector indicated she and the County Commission continue to work with law enforcement regarding the prosecution of the former Deputy Collector. In August 2019, the former Deputy Collector was charged with 5 counts of stealing and the case is ongoing as of November 2019. The County Collector indicated the county filed a claim with its surety bonding company and resolution of the claim is pending the outcome of the criminal case.

2.1 County Collector's Controls and Procedures - Segregation of duties

The County Collector had not adequately segregated accounting duties and did not perform a supervisory review of detailed accounting and bank records. All employees received and recorded payments received in the property tax system and the partial payment manual receipt slip book and prepared daily deposits. The County Collector did not perform a documented review of accounting and bank records.

Recommendation

The County Collector segregate accounting duties to the extent possible or ensure independent or supervisory reviews of detailed accounting and bank records are performed and documented.

Status

In Progress

The County Collector indicated she plans to implement an independent review process between herself and the newly hired Deputy Collector once the Deputy Collector is trained on the functions of the office. The County Collector plans for herself and the Deputy Collector to review each other's daily transactions including reviewing daily batch reports and comparing the reports to deposit slips, accounting for the numerical sequence of transactions, and reviewing adjustments. The County Collector also plans to have the Deputy Collector review the monthly bank reconciliations the County Collector prepares and the partial payment account activity. The County Collector expects this process will be implemented within 1 to 2 months. In addition, the County Commission has been reviewing selected daily batch reports and supporting documentation. Our review of July 2019 transactions

noted a documented review by the County Commission of 6 daily batch reports and the supporting documentation.

2.2 County Collector's Controls and Procedures - Deletions and adjustments

The County Collector did not review and approve deleted transactions in the property tax system or periodically obtain a report of deleted transactions from the property tax system vendor to review.

Recommendation

The County Collector require an independent and/or supervisory review and approval of all deleted transactions and adjustments made in the property tax system.

Status

Implemented

The County Collector indicated office personnel no longer have the ability to delete transactions and all corrections are done through the adjustment function in the property tax system. We observed the County Collector attempt to delete a transaction and noted the system would not allow this to occur.

When a correction is needed, office personnel initiate an adjustment in the property tax system and the system requires comments explaining the need for each adjustment. A system report of adjustments is generated that summarizes the comments, dollar amount, and user (employee) who processed the adjustment. The County Collector indicated this documentation is filed with the daily batch reports and we observed the reports for July and September 2019. We also reviewed the supporting documentation for the 6 July 2019 adjustments and noted all were properly documented, including notations of the reason for the adjustment. In addition, the County Commission's review of selected daily batch reports includes a review of related adjustment activity.

2.3 County Collector's Controls and Procedures - Numerical sequence of receipt slips

The County Collector did not account for the numerical sequence of receipt slip numbers assigned by the property tax system or manual receipt slips issued for partial payments.

Recommendation

The County Collector implement procedures to account for the numerical sequence of receipt slip numbers.

Status

Implemented

The County Collector indicated she currently accounts for the numerical sequence of receipt slip numbers but plans for this procedure to be part of the review process discussed in the status of MAR finding number 2.1. During our review of July and October 2019 records, we were able to account for the numerical sequence of receipt slip numbers. The County Collector also indicated she accounts for the daily batch report number sequence. We reviewed the batch report sequence for July 2019 and were able to account for the numerical sequence.

3.1 Electronic Data Security - User identification and passwords

Employees in the County Collector's office shared user identifications and passwords for the property tax system. Employees shared computers in the office and did not log off and log back on with their unique user identification and password when using the property tax system at one of the shared computers. As a result, there was no assurance that the user listed in the system for posting or deleting a transaction was the person who did it. Also, employees were not required to change passwords periodically and passwords were not required to have a minimum number of characters.

Recommendation

The County Collector require unique user identifications and passwords for each employee and require passwords contain a minimum number of characters and be changed periodically.

Status

Partially Implemented

The County Collector indicated all employees now have unique user identifications and passwords. However, the County Collector indicated the newly hired Deputy Clerk is using the user identification and password of a former employee because the operating system contractor had not set up the Deputy Collector's user identification. During our review, we noted no other employees using shared user identifications or passwords.

The County Collector indicated the office works with two system contractors to change passwords periodically. The County Collector indicated the office systems do not require passwords to be changed so the contractors assist employees with password changes every 3 months for one system and 6 months for the other system. The County Collector indicated passwords for the property tax system do not require a minimum number of characters and the operating system contractor establishes the passwords for that system.

2019 Property Tax Rates

Report No. 2019-120

December 2019

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the review of 2019 Property Tax Rates

Background

Property taxes largely fund public schools and are the main source of revenue for many of Missouri's special purpose political subdivisions and county boards. The State Auditor's Office and county officials assist local government officials in determining the data necessary to complete the tax rate computations. Taxing authorities are required to file final proposed tax rates and data supporting the proposed property tax rates with the county, using forms prescribed by the State Auditor. The counties submit the supporting data received to the State Auditor for review. The data is reviewed and a finding is returned to both the county and the taxing authority advising whether the proposed rates comply with Missouri law.

Rate Calculations

Rate ceilings set the limit for the amount of taxes that can be levied. Each tax rate ceiling is determined annually and is adjusted to ensure revenue neutrality. The review of each tax rate ceiling is based on the assessed valuation for the entire political subdivision and is not calculated on an individual taxpayer basis. The 2019 tax rate ceilings were determined based on the requirements of Section 137.073, RSMo, and Missouri Constitution, Article X, Section 22, commonly referred to as the Hancock Amendment, which limits taxation by the state and local governments.

Results

In 2019, the State Auditor received supporting data and reviewed 4,839 property tax rates for 2,804 taxing authorities. Of the rates reviewed, 503 are debt service tax rates, 127 are new property tax rates approved by voters, and 53 are existing property tax rates that were increased by voter approval. We reviewed the remaining 4,156 tax rates for revenue neutrality. This is the fifth year since the review of property tax rates started in 1985 that no taxing authorities levied a tax rate that exceeded the tax rate certified.

Additional Comments

The State Auditor's Office has no authority to determine or review individual tax assessments. All individual tax assessment matters are the responsibility of the county assessor and board of equalization. Appeals to the state on tax assessment matters are handled by the Missouri State Tax Commission.

Because of the nature of this review, no overall rating is provided.

The complete 2019 Property Tax Rates Report is available on our Web site: auditor.mo.gov.

NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The State Auditor's Office is required by Section 137.073, RSMo, to annually review local property tax rates of all taxing authorities in the state. The primary objectives of this review were to determine whether:

1. Local governing boards levied taxes in accordance with the Missouri Constitution and state law.

2. Local property tax rates were adjusted to ensure property reassessments were revenue neutral.

Reassessments of existing property are not intended to increase property tax revenue but to equitably reallocate the existing tax burden based on the relative value of property owned by taxpayers.

For 2019, we received supporting data on 4,839 property tax rates of 2,804 taxing authorities. This is the fifth year since the State Auditor's Office started reviewing property tax rates that no taxing authorities levied a tax rate that exceeded the tax rate certified.

Property taxes are the main source of revenue for many of Missouri's special purpose political subdivisions and county boards. The bulk of property taxes, however, fund public schools. General acceptance of these taxes is dependent on fair and equitable assessment practices and public understanding and input regarding the setting of rates. If the tax burden is increased without voter approval, confidence in the fairness and assessment practices can be eroded.

2019 Property Tax Rates
Results

Summary

The State Auditor received supporting data and reviewed 4,839 property tax rates for 2,804 taxing authorities. Of the rates reviewed, 503 are debt service tax rates, 127 are new property tax rates approved by voters, and 53 are existing property tax rates that were increased by voter approval. We reviewed the remaining 4,156 tax rates for revenue neutrality. This is the fifth year since the review of property tax rates started in 1985 that no taxing authorities levied a tax rate that exceeded the tax rate certified.

Methodology

The State Auditor's Office and county officials assist local government officials in determining the data necessary to complete the tax rate computations. Taxing authorities are required to file final proposed tax rates and data supporting the proposed property tax rates with the county, using forms prescribed by the State Auditor. The counties submit the supporting data received to the State Auditor for review. The data is reviewed and a finding is returned to both the county and the taxing authority advising whether the proposed rates comply with Missouri law.

The 2019 tax rate ceilings were determined based on the requirements of Section 137.073, RSMo, and Missouri Constitution, Article X, Section 22 (commonly referred to as the Hancock Amendment). Each tax rate ceiling is determined annually and is adjusted to ensure revenue neutrality. The review of each tax rate ceiling is based on the assessed valuation for the entire political subdivision and is not calculated on an individual taxpayer basis.

To ensure taxing authorities do not receive a windfall from reassessment, the review of property tax rates begins with the prior year allowed revenue. Current year tax rate ceilings must be set to yield the same gross revenue as allowed in the prior year. In addition, an adjustment is made for additional revenue permitted for assessment growth. That adjustment is the lower of (1) the actual growth rate, (2) the inflation rate as determined by the consumer price index, or (3) 5 percent. Factors such as new construction and improvements, newly added territory, newly separated territory, and changes from locally assessed to state assessed property also affect the tax rate ceiling calculation. Counties and the City of St. Louis use the tax rates set by each taxing authority to levy taxes on all property including new construction and improvements.

Voters may authorize increases beyond the annual revenue neutral tax rate ceiling. Voter-approved increases are reviewed for compliance with applicable laws and stated ballot restrictions. In addition to reviewing new and existing property tax levies for revenue neutrality, the State Auditor's Office also reviews debt service tax rates. A tax levied to meet the annual debt service requirement is compliant if the revenue to be generated plus the existing fund balance does not exceed the current payment requirements plus a reserve for the following year's payments.

Sections 137.073.5(3) and 137.073.5(4), RSMo, provide that a voluntary reduction taken in a non-reassessment year (even numbered year) results in a reduced tax rate ceiling during the following reassessment year (odd numbered year). These provisions also allow taxing authorities that voluntarily reduce a tax rate in a previous even numbered year to reverse the impact of the voluntary reduction to reinstate a higher tax rate ceiling in the following even numbered year. To increase the tax rate in the following even numbered year, the taxing authority must conduct a public hearing, and adopt an ordinance, a resolution, or a policy statement justifying its action before setting and certifying its tax rate.

Section 137.073.6(3), RSMo, allows a taxing authority to submit amended tax rate forms to the State Auditor's Office in the event the taxing authority incorrectly completed the forms or made clerical errors. These changes are factored into the current year's tax rate ceiling calculation.

A taxing authority's total assessed valuation submitted by the county clerk or a representative of the taxing authority is used in the State Auditor's Office review of property taxes. The State Auditor's Office does not review the assessed valuation of individual pieces of property. Chapter 138, RSMo, governs the appeals process for assessed valuations. Citizens may appeal their individual assessed valuations calculated by the county assessor to the local Board of Equalization. Citizens not satisfied with the resolution by the Board of Equalization may appeal the decision to the Missouri State Tax Commission. Any decision of the Missouri State Tax Commission may be reviewed by a court of law.

As assessed valuations increase, tax rate ceilings generally decrease, depending on the amount of the increase, to produce substantially the same amount of revenue as allowed in the prior year. As assessed valuations decrease, tax rate ceilings may increase to produce substantially the same revenue as allowed in the prior year from existing property, limited by voter authorization. See Appendixes I and II for a summary of the changes in assessed valuation by type of taxing authority, and Appendixes III and IV for a summary of changes in tax rate ceilings by type of taxing authority. In addition, Appendix V is a map that provides a statewide geographical perspective of total county valuation changes prior to adjustments for new construction and reassessment. The total assessed valuation is the value used to bill the property tax rates. Appendix VI is a map of the adjusted assessed valuation by county. The adjusted assessed valuation is the value of last year's property in the current year. This map reflects the inflationary change in each county's valuation from the previous year. A significant inflationary change generally indicates a major reassessment occurred. However, 2019 assessed valuations indicate the majority of county adjusted assessed valuation changes were less than the consumer price index, which does not indicate a major reassessment increase. The comparison of assessed valuations and tax rate ceilings from 2018 to 2019 for Appendixes I through VI give

consideration to revisions submitted by taxing authorities to the State Auditor's Office for changes to assessments occurring after setting the 2018 property tax rate.

Taxing authorities are listed by primary county (as designated by the taxing authority when established) in Appendixes VII and VIII and categorized by type of taxing authority. The counties are listed alphabetically (Adair through Wright followed by the City of St. Louis). A taxing authority located in more than one county is listed under the primary county only. The assessed valuations presented for taxing authorities in Appendixes VII and VIII, except school districts, include all taxable locally assessed and state assessed property. The assessed valuations presented for school districts include only taxable locally assessed property. The abated portions of property valuations that are not taxable under various economic development programs are omitted from the taxable assessed valuations used to compute the annual tax rate ceiling. Prior years' tax rate reports are available on the State Auditor's website at auditor.mo.gov.

We do not review sales tax rollbacks required by law for some county levies as part of this report. Any concerns in that area would be addressed in audit reports we issue for individual counties. Sales tax (Proposition C) rollbacks for school levies were subjected to a limited review to ensure the district did not waive all or part of the rollback without voter approval in order to generate additional local revenues. A majority of the 516 school districts have obtained voter approved waivers of the required sales tax rollback of their property tax, including 460 with a full waiver and 30 with a partial waiver. Appendixes VII and VIII indicate the 490 school districts that have either full or partial waivers of Proposition C reductions.

LEGEND:

A A new voter approved tax rate, newly formed district, or a levy voted to replace an expired levy.
B A voter approved increase or decrease to an existing levy.
C Levy includes a recoupment rate authorized by state law.
D School district has a full Proposition C (sales tax) waiver allowing the district to reduce its required Proposition C reduction to $0.0000 and levy up to its calculated tax rate ceiling.
E School district has a partial Proposition C (sales tax) waiver allowing the district to waive a portion of its required Proposition C reduction to the extent necessary to collect $2.7500 or the amount stated on the ballot.
F Article X, Section 11(g) of the Missouri Constitution allows the Kansas City 33 School District School Board to set its tax levy at a rate that is lower than the court-ordered rate for the 1995 tax year (which was $4.96). The rate so established may be changed from year to year by the School Board.

NOTES:

Taxing authorities are listed by primary county and categorized by type of taxing authority. The counties are listed alphabetically (Adair through Wright followed by the City of St. Louis). When a taxing authority is in more than one county, it is listed under the primary county only.

Appendix VII
2019 Property Tax Rates
Listing of 2019 Tax Rates for Local Governments Levying a Single Tax Rate on All Property

Political Subdivision	Purpose	Assessed Value	Ceiling	Levied	Revenue	Expiration Year

This Appendix does not list taxing authorities that levied a separate tax rate for each subclass of property. Previous legislation required taxing authorities wholly in St. Louis County and allowed the City of Gladstone in Clay County to calculate a separate tax rate on each subclass of property. Taxing authorities partially in St. Louis County, whether the primary county is St. Louis County or another county, are required to levy a single rate on all property when one or more counties opted in and one or more counties opted out of the provisions requiring the multi-rate calculation. See Appendix VIII for a listing of taxing authorities that calculated separate tax rates for each subclass of property.

All rates in the levied column represent the rate extended and certified to the State Auditor's Office by both the taxing authority and the county or counties in which the tax rate is levied.

The Assessed Value column presents only the assessed valuation the property tax is levied against.

The revenue amount shown is computed by dividing the assessed valuation by 100 and multiplying the quotient by the tax rate levied.

ACRONYMS:

AD	Ambulance District
CID	Community Improvement District
EMS	Emergency Medical Services

Legend:

A	A new voter approved tax rate, newly formed district, or a levy voted to replace an expired levy.
B	A voter approved increase or decrease to an existing levy.
C	Levy includes a recoupment rate authorized by state law.
D	School district has a full Proposition C (sales tax) waiver allowing the district to reduce its required Proposition C reduction to $0.0000 and levy up to its calculated tax rate ceiling.
E	School district has a partial Proposition C (sales tax) waiver allowing the district to waive a portion of its required Proposition C reduction to the extent necessary to collect $2.7500 or the amount stated on the ballot.

Notes:

This Appendix contains levy information for political subdivisions wholly in St. Louis County and the City of Gladstone in Clay County. Previous legislation required taxing authorities wholly in St. Louis County and allowed the City of Gladstone in Clay County to calculate a separate tax rate on each subclass of property. Political subdivisions partially in St. Louis County and partially in another county(ies) were also required by previous legislation to levy a single rate on all property when one or more counties opted in and one or more counties opted out of the provisions requiring the multi-rate calculation. See Appendix VII for a listing of taxing authorities that calculated a single tax rate to apply to all property.

All rates in the levied column represent the rate extended and certified to the State Auditor's Office by both the taxing authority and the county or counties in which the tax rate is levied.

The Assessed Value column presents only the assessed valuation the property tax is levied against.

The revenue shown is computed by dividing the assessed valuation by 100 and multiplying the quotient by the tax rate levied.

CITIZENS SUMMARY

Findings in the audit of the Black Mountain Community Improvement District

Misappropriation of District Revenues	The Black Mountain Community Improvement District (CID), which was approved by the City of Van Buren to create a sales tax for the purpose of making public infrastructure improvements inside the district's boundaries, was instead used by its creators and former Board members to pay off private business debts and to improve private commercial property for resale. Also, documentation was not retained to support some payments made to companies owned by board members.
Noncompliance with State Law	The CID Board did not prepare or post meeting notices with agendas, meeting minutes were not always maintained, and the board has not adopted a written policy regarding public access to district records as required by state law. The CID Board did not enter into a written contract to support the agreement to reimburse $135,000 in construction costs to a developer. The Board repeatedly failed to submit the required annual performance reports to the city and the state's Department of Economic Development as required by state law. The CID Board failed to submit its annual budgets for the years ended December 31, 2010 through December 31, 2017, to the city as required by state law. Also, district budgets did not contain all the elements required by state law.

In the areas audited, the overall performance of this entity was **Poor**.*

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA
Missouri State Auditor

Andy Dazey, Chairman
and
Board of Directors
Black Mountain Community Improvement District
Van Buren, Missouri

We have audited certain operations of the Black Mountain Community Improvement District as authorized under Section 67.1471.5, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2018. The objectives of our audit were to:

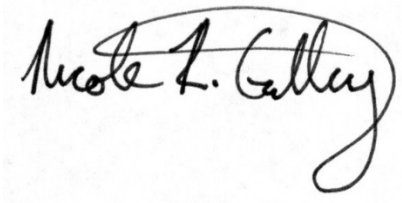
1. Evaluate the district's internal controls over significant management and financial functions.

2. Evaluate the district's compliance with certain legal provisions.

3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

For the areas audited, we identified (1) deficiencies in internal controls over significant management and financial functions, (2) noncompliance with certain legal provisions, and (3) the need for improvement in management practices and procedures including financial transactions. The accompanying Management Advisory Report presents our findings arising from our audit of the Black Mountain Community Improvement District.



Nicole R. Galloway, CPA
State Auditor

Black Mountain Community Improvement District
Introduction

Background

In December 2018, two Directors from the Black Mountain Community Improvement District (CID) contacted and met with the State Auditor's Office (SAO) and requested an audit based on concerns with the previous Board's use of public monies. Based on information provided by the current Board, the SAO conducted an initial review of these matters under Section 29.221, RSMo. After completion of this review of documentation and communications provided, the SAO determined further investigation was warranted under Section 29.221, RSMo. On December 30, 2018, the Board passed an ordinance formally requesting and authorizing an audit and the audit began on January 7, 2019.

The CID is located in the City of Van Buren. The CID was organized in August 2010 by an ordinance passed by the city's Board of Alderman. The CID is governed by a five member Board of Directors. Pursuant to the petition approved by the city creating the district, the five members must be either a property owner of real property within the district, a business owner within the district, an authorized representative of a property or business owner, or a registered voter living within the district.

The CID boundaries consist of an estimated 17 acres. The CID had an existing convenience store with a fast food operation within the same building and a discount store. According to petition documents, the CID was formed for the purpose of funding the cost of public infrastructure, storm water controls, and other eligible site costs. The CID was not seeking a blighted status for the district and the area was not declared blighted by the city. The CID has a fiscal year end of December 31. The CID has not received an independent audit of its financial statements.

Board members serve 4-year terms and are appointed by the city's Board of Alderman. The initial CID Board appointed by the city was as follows:

Name	Term Ended
Donald L. Black II (1) (4)	August 2018
Chris D. Black (4)	August 2018
Jacob W. Black (3) (4)	August 2018
Nicolas S. Black	August 2018
Curtis L. Black (2) (4)	December 2018

(1) Chairman
(2) Vice Chairman
(3) Treasurer and Secretary
(4) Property owner and/or business owner

Obligations

The CID obtained multiple loans to fund two district projects. One loan was obtained from a local bank for $238,309 in March 2013 to consolidate previous private business loans and to fund the remodeling of the convenience store owned by three of the Board members. A second loan was obtained from

a private individual for $214,672 in February 2015 to refinance the prior bank loan. A third loan was then obtained from a local bank for $137,200 in October 2018 to refinance the second loan with a balance of $127,066 and the remaining funds were deposited into the CID bank account for future administrative and legal expenses. As of December 31, 2018 the district had an outstanding principal balance on these bank debts of $133,167.

The initial Board then agreed to pay $135,000 (payable at a rate of $800 per month) to the person who provided the second loan discussed in the previous paragraph to finance a portion of the costs associated with constructing a restaurant. As of December 31, 2018, the district had a remaining balance of $107,000 on this obligation.

Revenues

In November of 2010, the qualified property owners of the CID approved the imposition of a sales tax of up to 1 percent on all taxable transactions within the boundaries of the district for 30 years. The Board of Directors subsequently passed a resolution that set the sales tax rate 1-cent (1 percent), effective December 2010.

Current businesses within the district include Current River Express, McDonald's, Subway, and Dollar General.

Governance

Board members at December 31, 2018, were:

Name	Term Expires
Andy Dazey (1)(5)	August 29, 2020
Lisa Burke (2) (3)	August 29, 2022
Kevin Dazey (3)	August 29, 2022
Greg Pryor (3)	August 29, 2020
Vacant Board Seat (4)	

(1) Chairman
(2) Vice Chairman, Treasurer and Secretary
(3) Property owner and/or business owner
(4) Vacant until a successor is appointed by the city pursuant to Section 67.1451.4, RSMo.
(5) Representative of a business owner as allowed by Section 7 of the Petition.

Scope and Methodology

The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2018.

We reviewed relevant laws, regulations and CID agreements; including Sections 67.1401 through 67.1571, RSMo; the petition approved by the city creating the CID; the ordinance forming the CID; the development agreement between the district and the property owners; and the bylaws of the CID. Our review of these statutes and agreements covered the legal responsibilities of the district and the CID Board. In addition, we reviewed the loans issued to fund the projects to obtain an understanding of the terms of the obligations and the requirements imposed on the district. We also reviewed Board

meeting minutes to obtain an understanding of actions taken by the Board and to determine the attendance and the oversight provided by the Board members.

We held discussions with former and current CID Board members, the former consultant and custodian of records for the CID, certain city officials, business owners or franchisees of businesses in the CID, an individual and representatives of banks who made loans to the CID, and certain contractors that worked on CID projects. The purpose of these conversations was to obtain an understanding of the district's operations and decisions made by the district's Board of Directors as well as obtaining evidence of compliance with certain legal requirements. We obtained bank information from the current board and former custodian of records. We obtained CID loan information from West Plains Bank after issuing a subpoena for the information. We obtained and reviewed available invoices and canceled checks of the CID to evaluate if all CID costs were allowable and appropriate.

We obtained an understanding of the internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violation of applicable contract or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

Black Mountain Community Improvement District
Management Advisory Report
State Auditor's Findings

1. Misappropriation of District Revenues

The Black Mountain Community Improvement District (CID), which was approved by the City of Van Buren to establish a sales tax for the purpose of making public infrastructure improvements inside the district's boundaries, was instead used by its creators and former Board members to pay off private business debts and to improve private commercial property for resale. In addition, the former CID Board approved the payment of CID funds for the construction of a private commercial property owned by a local developer with past business connections with the Chairman of the Board as well as the CID. The former Board[1] spent $296,937 in CID monies for purposes not allowed by state law, including approximately $100,603 to pay off private business debts of members of the Board.[2] An additional $77,669 in expenses were not supported by invoices or adequate documentation to determine the propriety of the expenditures. However, the majority of the unsupported expenses were paid to entities associated with members of the Board.

Taxpayer funds used to pay off private business debts

Public monies were used to secure a bank loan to consolidate $100,603 for three of the five the Board members' existing private business loans. The CID obtained a loan from the West Plains Bank for $238,309 on March 11, 2013. The initial loan disbursement included $100,603 that did not go through the CID bank account, but was disbursed as follows:

- $54,284 - West Plains Bank - Farmland Real Estate Loan
  (personal loan collateralized with personal farm land)
- $12,550 - West Plains Bank - Auto Loan
  (personal loan collateralized with a semi-truck and trailer)
- $16,875 - Scott Hilderbrand - Private Individual Loan
  (personal loan)
- $10,144 - West Plains Bank - Commercial Real Estate Loan
  (personal loan collateralized with commercial real estate)
- $ 6,750 - Dennis Young - Private Individual Loan
  (personal loan)

According to Donald Black II, former CID Chairman of the Board, these 5 loans were private business loans used to purchase inventory for resale, equipment, provide cash flows for operational expenses, and performing

[1] All subsequent references to the CID Board in the rest of this report pertain to the former CID Board members listed on page 3 unless reference is made to the new Board of Directors.
[2] See Appendix C for a listing of unallowable disbursements by project.

repairs and maintenance to the Black Mountain Convenience Store.[3] These disbursements paid off personal business expenses that provided a benefit to the Board members and not for public improvements to the CID.

Using CID monies to pay for private business debts for the purchase of inventory for resale, purchase of equipment, to provide cash flows for operational expenses, and performing repairs violates state law[4] and the Missouri Constitution.[5]

Taxpayer funds used to improve private business asset for resale

Public monies were used to make improvements to a private asset in an area not designated as blighted, in violation of state law. The use of CID funds for this purpose is also not in accordance with the petition approved by the city to form the district. CID funds were used to make $125,972[6] of improvements to the Black Mountain Convenience Store while the store was owned by Board members Donald L. Black II, Curtis L. Black, and Jacob W. Black via Black Mountain Lodge, LLC. These improvements included:

- $52,324 for new fuel pumps and a new point-of-sale system for the fuel pumps
- $25,866 for a new canopy for the fuel pumps
- $9,960 for a new walk-in beer cave

Other expenses included remodeling of restrooms, new wallpaper and painting, electrical work, and labor expenses. These improvements were complete by June 2014. Black Mountain Lodge, LLC, then sold the convenience store 6 months later in December 2014. The public was not reimbursed for the public funds used to renovate the convenience store.

The former Chairman, through his attorney, claimed a formal blight designation is not needed in order to use public money to renovate a private business under the CID statutes. However, state law[7] requires the petition document to state whether or not the petitioners are seeking a blighted determination. In addition, Section 9 of the CID petition document indicates the petitioners did not seek a blighted status for the district.

[3] The Black Mountain Convenience Store was sold in December 2014 and the name was changed by the new owner to the Current River Xpress Convenience Store.
[4] Section 67.1461, RSMo, does not grant the authority to the Board to use public monies for private business purposes.
[5] Article VI, Sec. 23.
[6] Of this amount, $109,082 was expended through the checking account, with an additional $16,890 being expended directly from loan funds. See Appendixes A and B.
[7] Section 67.1421.2(i), RSMo.

The former Chairman, through his attorney, also stated that even if a blight designation is required, a Tax Increment Finance (TIF) Redevelopment plan was adopted by the city, which designated the area as blighted. However, Section 1.3 of the TIF Plan states the area inside the CID boundaries is not considered blighted. Also, as part of our fieldwork, we confirmed with a city official that the area within the CID boundaries had never been recognized by the city as being blighted. We requested the former Chairman to provide any evidence that any area within the CID had been recognized as blighted. He could not provide any evidence and stated there may have been evidence in the Carter County Courthouse that was destroyed during the flood in spring of 2017.

The petition document requesting the creation of the district gives the appearance the public monies will be used for public improvements and not to rehabilitate a private asset. Also, using public monies to improve a private asset inside the CID boundaries without a blight designation is not in accordance with Section 67.1461.2, RSMo.[8]

Taxpayer funds used to assist in construction of a private business

Public monies were used to reimburse a portion of the construction costs of a private business owned by a local developer who recently provided financing to the district Board and who had previously made private business loans to the Chairman of the Board.

The CID Board approved the reimbursement of $135,000 in construction costs to the local developer on December 15, 2015, payable at a rate of $800 per month. The construction expenses related to building a Subway restaurant inside the district's boundaries. See MAR finding number 2.2 for additional discussion of this agreement. These expenses were incurred between January 2016 and May 2016 and included the following:

- $72,900 for dirt work, concrete, and rebar
- $23,500 for legal and consulting fees
- $9,925 for surveying

Other expenses included electrical work, inspections, and striping the parking lot. While the local developer submitted invoices totaling $146,382, the CID only agreed to reimburse the developer for $135,000 in costs and paid for $3,725 in construction expenses directly from the CID checking account.[9]

[8] While Section 67.1461.2, RSMo, allows the Board to renovate a building owned by a private property owner if the area is a blighted, the CID does not have any blighted areas within the district's boundaries.

[9] See Appendix E for a listing of project expenses.

The CID has paid approximately $28,000 to satisfy this agreement and has $107,000 still outstanding as of December 31, 2018.

These expenses were incurred approximately 11 months after the CID received financing from this developer when the West Plains Bank called the $238,309 note discussed on page 6. Additionally, Donald Black II stated he had received loans in the past from this developer. The only businesses that received CID assistance in the district were the Black Mountain Convenience Store owned by Black Mountain Lodge LLC and the Subway owned by a business associate of Donald Black II. No other businesses received any assistance from the CID. Donald Black II stated the other businesses in the district, including the McDonald's and the Dollar General, could have requested assistance from the CID but those businesses did not request assistance. We discussed this matter with the owners of those businesses who stated they were never told they could request assistance from the CID. Those business owners also did not have a previous business relationship with Donald Black II.

Using CID monies to finance the construction of a new private business asset is not allowed by Section 67.1461.1(16), RSMo, which allows only for the construction or repair of public improvements, and violates the Missouri Constitution.[10]

Public misled about the purpose of the district

The creators of the CID misled the city and the public regarding the purpose of the CID. Donald Black II was the primary petitioner. Chris D. Black was also a petitioner, and both of these individuals privately benefited at the expense of the public.

In order to form a CID, a petition must be filed with the governing body (in this case the City of Van Buren) requesting the formation of the district. State law requires the petitions to contain several elements, including a 5 year plan stating a description of the purposes of the proposed district.[11] Exhibit C of the petition filed with the city requesting the formation of the CID states the CID will be formed to fund the cost of needed public infrastructure, storm water controls, and other eligible site costs. Exhibit C includes a section titled "Public Improvements to be Funded By District" and lists specific public infrastructure the CID will fund such as utility installation, streets, sidewalks, alleys, bridges, ramps, tunnels, overpasses, underpasses, traffic signs and signals, drainage, water, storm and sewer systems, and other site improvements such as parking lots, garages, lades (sic), dams and waterways, streetscape, lighting, benches or other seating furniture, trash receptacles, marquees, awnings, canopies, walls, barriers, telephone and information

[10] Article VI, Sec. 23.
[11] Section 67.1421.2(3)(d), RSMo.

booths. However, the petition document also includes a statement which allows "any other useful, necessary, or desired improvement to the District as allowed by Section 67.1401 to 67.1571 of RSMo, as amended," which would potentially allow CID monies to be used for private assets if a blight designation had been obtained. Exhibit C of the CID petition is included at Appendix F.

As documented in this report, no CID monies were expended on public infrastructure.

CID monies used for personal and private gain

Public monies were used to directly benefit the private interests of Donald L. Black II, and the business interests of Black Mountain Lodge LLC, which is owned by Donald L Black II, Curtis L. Black, and Jacob W. Black; all of which were board members of Black Mountain CID. Instances include:

- Donald L. Black II used CID loan funds to pay off three private business loans totaling 77,909.[12]

- Approximately $126,000 in CID funds were used to remodel and improve Black Mountain Convenience Store[13] while the store was owned by Black Mountain Lodge, LLC. Black Mountain Lodge, LLC sold the convenience store 6 months after the renovations were complete. The public was not reimbursed for the public funds used to renovate the convenience store.

- More than $22,000 in business loans taken out by Black Mountain Lodge, LLC were later paid off with CID monies.[14]

- CID monies were used to lease land in the CID boundaries from Black Mountain Lodge LLC. The lease was for 3 years at a total cost of $28,000 for signage for the convenience store. The sign being leased was constructed in 2000, however, the lease for the sign began in 2015 after the convenience store was sold by Black Mountain Lodge LLC. The Board made lease payments from 2015 through 2018 until the new CID Board stopped making them. These payments are an unreasonable use of CID funds and serve no purpose other than to benefit Black Mountain Lodge LLC.

[12] See the $54,284 farmland real estate loan, the $16,875 private individual loan, and the $6,750 private individual loan in the *Taxpayer funds used to consolidate private business debts* section on page 6.

[13] See the *Taxpayer funds used to improve private business asset for resale* section on page 7.

[14] See the $12,550 auto loan and the $10,144 commercial real estate loan in the *Taxpayer funds used to consolidate private business debts* section on page 6.

- $10,000 was paid to a consultant for drafting a TIF plan. The TIF plan was proposed by Black Mountain Lodge, LLC. This payment is a business expense of Black Mountain Lodge, LLC and is not an allowable use of CID funds.

- $638 was paid for a title search and mortgage premium related to the convenience store. This expense was incurred while Black Mountain Lodge, LLC owned the property. This payment is a business expense of Black Mountain Lodge, LLC and is not an allowable use of CID funds.

Section 105.452.1(4), RSMo, prohibits elected and public officials from favorably acting on any matter that provides a special monetary benefit[15] to the official. In addition, Section 105.452.1(5), RSMo, prohibits public officials from using their decision making authority for the purpose of obtaining a financial gain.

Unsupported expenditures

The CID Board could not provide adequate documentation to support $77,669[16] of expenses. The CID did not retain sufficient documentation to support these disbursements and we could not determine the propriety or impropriety of them based on information obtained. These unsupported payments include:

- $51,259 to entities owned by Board members[17]

- $15,296 to the CID consultant for unknown purposes

- $6,153 to unknown vendors for unknown purposes

- $4,955 for backhoe services for an unknown purpose

To ensure disbursements are necessary and legitimate, the CID should implement a procedure to require adequate documentation as proof of the disbursement incurred by the district. Taxpayers have placed a fiduciary trust in the Board to spend public funds only on items necessary and beneficial to the district.

Conclusion

Members of the CID Board violated state law by using public monies to enrich themselves by paying off previous private business loans, renovating a convenience store (a private asset) prior to selling the store, and providing

[15] This section defines a special monetary benefit as being materially affected in a substantially different manner or degree than the manner or degree in which the public in general will be affected.

[16] See Appendix D for the listing of unsupported payments.

[17] The following entities received payments: $25,000 to Black Brothers Convenience, $14,259 to Black Mountain Convenience, and $12,000 to Black Mountain Lodge.

public money to a previous business associate to build a private asset. The petitioners of the district misled the public by telling the city the district would be used to fund public improvements. Other expenditures lacked adequate documentation to determine their purpose, but also involved companies related to the former Board members. All of these issues would have been detected sooner if the district had a governance structure without significant conflicts of interest and a significant lack of oversight.

Recommendation

The new CID Board work with law enforcement officials regarding criminal prosecution of the improper payments made for private business loans, private convenience store renovations, and Subway construction expenses, and take the necessary actions to seek restitution. In addition, supporting documentation should be obtained to support all district expenditures and ensure that expenditures do not violate state law and are a reasonable use of public funds.

Auditee's Response

The new CID Board provided a written response. See Appendix G.

2. Noncompliance With State Law

The CID Board did not prepare or post meeting notices with agendas, meeting minutes were not always maintained, and the Board has not adopted a written policy regarding public access to district records as required by state law. In addition, the CID Board did not enter into a written contract for the agreement to reimburse $135,000 in expenses related to the construction of the Subway restaurant as required by state law. Also, the Board failed to submit financial and performance reports to the city, the Department of Economic Development (DED), and the State Auditor's Office (SAO) in accordance with state law. The Board also did not include all required elements in annual district budgets, and the Board failed to submit annual budgets to the city in accordance with state law.

2.1 Sunshine Law

The CID Board did not prepare or post meeting notices with agendas, meeting minutes were not always maintained, one meeting had two different sets of minutes, and the Board has not adopted a written policy regarding public access to district records as required by state law.

Notices and agendas

No one could locate meeting notices or tentative agendas for 23 of 39 (59 percent) Board meetings held during period September 2010 through December 2018. No notices or agendas were prepared for the 15 meetings occurring between July 2014 and January 2018. In addition, notices were not signed by the Board Chairman.

Section 610.020, RSMo, requires notice of the time and place of future meetings be posted. In addition, state law[18] requires public entities to give

[18] Section 610.020, RSMo.

notice of the time, date, and place of each meeting and its tentative agenda to advise the public of matters to be considered. The notice shall be given at least 24 hours prior to the meeting.

Meeting minutes

The district did not prepare or could not locate meeting minutes for any Board meetings occurring after October 4, 2016, and prior to September 4, 2018. An agenda was provided for a meeting on February 6, 2018; however, no minutes were prepared for the meeting. In addition, the CID Board approved and signed two Board resolutions on March 11, 2013; however, no meeting minutes were maintained documenting a Board meeting occurred on this date. In addition, there were two different sets of minutes provided for a Board meeting held on December 15, 2015. No documentation could be provided indicating the original minutes were amended or approved and one set reports the discussion of the reimbursement of $135,000 in costs for the Subway.

Section 610.020.7, RSMo, requires minutes of meetings (open and closed) be taken and retained by the public governmental body. Meeting minutes serve as an official record of district business conducted and district actions and decisions.

Public access policy and requests for records

The CID has not adopted a written policy regarding public access to district records as required by state law. A written policy regarding public access to district records would establish guidelines for the district to make records available to the public. This policy should identify a person to contact, provide an address to mail such requests, and establish fees that may be assessed for providing copies of public records.

Section 610.023, RSMo, requires all Board meeting minutes and other records be available for public inspection. In addition, state law[19] lists requirements for making records available to the public. Also, state law[20] allows the district to charge fees for providing access to and/or copies of public records and provides requirements related to fees. In addition, state law[21] requires a written policy regarding release of information under the Sunshine Law.

2.2 Contracts

The CID Board did not enter into a written contract to support the agreement to reimburse $135,000 in construction costs to the developer of the Subway restaurant discussed in MAR finding number 1. As a result, the CID made 35 monthly $800 payments, totaling $28,000, to an entity without a written agreement.

[19] Section 610.023, RSMo.
[20] Section 610.026, RSMo.
[21] Section 610.028, RSMo.

Section 432.070, RSMo, requires contracts for political subdivisions to be in writing. Written agreements, signed by the parties involved, should specify the services to be rendered and the manner and amount of compensation to be paid. Written contracts are necessary to ensure all parties are aware of their duties and responsibilities and to prevent misunderstandings.

2.3 Reporting

The Board repeatedly did not timely submit required annual performance reports to the city and the DED as required by state law. In addition, the Board repeatedly did not timely submit required annual financial reports to the SAO as required by state law.

- The Board did not submit any of the fiscal year 2010 through 2017 annual performance reports to the city as required by state law. The fiscal year 2018 annual performance report was submitted to the city on January 30, 2019, after appointment of the new Board.

- The Board submitted the fiscal year 2010 through 2016 annual performance reports to the DED on June 15, 2018.

- The Board did not submit the required financial reports to the SAO for fiscal years 2010 and 2011 until June 14, 2018, did not submit the required financial reports for fiscal year 2012 until February 6, 2018, and did not submit the required financial reports for fiscal years 2013 through 2016 until February 5, 2018.

Section 67.1471.4, RSMo, requires the CID to submit its annual performance report to the municipal clerk and the DED within 120 days after the end of the fiscal year. State law[22] also requires all political subdivisions, including CIDs, to file annual financial reports with the SAO. In addition, 15 CSR 40-3.030, requires each political subdivision to file annual financial reports within 6 months of the end of the subdivision's fiscal year. Effective August 28, 2017, under Section 105.145, RSMo, the SAO must notify the Missouri Department of Revenue if a political subdivision fails to file a timely financial statement. Failure to timely file a financial statement may subject the political subdivision to a fine of $500 per day. Good governance and the conduct of district business requires transparency, openness, and accountability. Financial statement filing would increase transparency and allow the public to be better informed of district activities.

2.4 Budgets

The CID Board failed to submit its annual budgets for the years ended December 31, 2010 through December 31, 2017, to the city as required by state law. In addition, the Board failed to approve budgets for fiscal years

[22] Section 105.145, RSMo.

2010, 2011, and 2015 through 2018. Also, while the Board approved budgets for fiscal years 2012, 2013 and 2014, they were not approved in the time frame as required by Section 67.1471.3, RSMo. In addition, the district's budgets for fiscal years 2010 through 2018 did not contain all the elements required by state law. These budgets did not include a budget message and budget summary to describe a general overview, important features, and major changes of the budget.

Section 67.1471.2, RSMo, requires the CID to submit their proposed budget to the governing body of the city between 180 and 90 days prior to the first day of the fiscal year. Additionally, state law[23] requires the Board to present a budget with a complete financial plan to include a general budget summary and a budget message describing the important features of the budget and major changes from the preceding year.

Recommendations

The new CID Board:

2.1 Ensure proper notification and agendas for public meetings are given, meeting minutes are prepared and maintained for all CID Board meetings, and develop written policies regarding procedures to obtain access to, or copies of, public records.

2.2 Ensure all contracts are in writing. Additionally, consult with legal counsel to determine if continuing to make payments pursuant to the verbal agreement is in the best interest of the district.

2.3 Ensure annual performance reports and annual financial reports are filed with the appropriate entities within the time frames established by state law.

2.4 Ensure compliance with state law by submitting the budgets timely to the city and including a budget message describing the important features of the budget and major changes from the preceding year along with a general budget summary in the district's budgets.

Auditee's Response

The new CID Board provided a written response. See Appendix G.

EXHIBIT C

FIVE YEAR PLAN OF THE BLACK MOUNTAIN COMMUNITY IMPROVEMENT DISTRICT

FIVE YEAR DEVELOPMENT PLAN

BLACK MOUNTAIN COMMUNITY IMPROVEMENT DISTRICT

OBJECTIVES AND PURPOSE OF DISTRICT:
The Black Mountain Community Improvement District compromises estimated 17+/- acres of land lying north of U. S. Highway 60, south of Business Hwy 60, west of Current Express and south of Commercial Drive in the City of Van Buren, Missouri. The proposed District currently has an existing convenience store with a fast food operation within the same building, plus a discount store. The owners propose to develop the remainder of the property. It is proposed that a commercial building be constructed, estimated at 5,000 square feet, fronting U.S. Hwy 60 which will be operated or leased as a gift store operation. It is proposed to construct a restaurant, estimated at 5,000 square feet fronting Current Express and an estimated 54 unit hotel/motel operation. Another commercial building is proposed fronting Current Express of an estimated 5,000 square feet which will be operated or leased as a retail furniture operation. The land owners finds that the cost of developing the property to be excessive and can not afford to make all of the public improvements needed to serve the property. It is proposed that the Black Mountain Community Improvement District be formed to impose a sales tax of 1% to fund the cost of needed public infrastructure, storm water controls and other site cost eligible. The project will cost an estimated $5,750,000 with an estimated $1,200,000 in public site improvements and cost. The land owner proposes to provide all funds for the project and seek to be reimbursed by the Black Mountain Community Improvement District from tax revenue generated. The property owners conclude that without the assistance of the District the property and the needed improvements and development could not occur. District proposed to take ownership of and maintain streets known as Commercial Drive and Current Express.

PUBLIC IMPROVEMENTS TO BE FUNDED BY DISTRICT:
The District will be responsible for the funding of all public infrastructure cost for the entire development, which will include all utilities installation, streets, sidewalks, alleys, bridges, ramps, tunnels, overpasses and underpasses, traffic signs and signals, drainage, water, storm and sewer systems, and other site improvements such as; parking lots, garages, lades, dams and waterways, streetscape, lighting, benches or other seating furniture, trash receptacles, marquees, awnings, canopies, walls, barriers, telephone and information booths, bus stop and other shelters, rest rooms, kiosks, paintings, murals, display cases, sculptures, fountains, parks, trails, lawns, trees, and any other landscape, pedestrian or shopping malls and plazas, and any other useful, necessary, or desired improvement to the District as allowed by Section 67.1401 to 67.1571 of RSMo, as amended.

ESTIMATED COST OF IMPROVEMENTS:

Utilities Work	$75,000
Demolition/Excavation/Fill/Grading/Storm Water Control	$650,000
Paving –Parking Lot-Curbs-Sidewalks-Streets-Drives	$300,000
Landscaping	$100,000
Signage	$50,000
Professional Fees	$25,000
TOTAL	**$850,000**

18

October 23, 2019

Black Mountain Community Improvement District
101 Current Expressway
PO Box 62
Van Buren, MO. 63965

The Honorable Nicole R. Galloway
Missouri State Auditor
PO Box 869
Jefferson City, MO. 65102

Sent Via Email and USPS

Dear Auditor Galloway:

We are providing this letter in response to the recommendations in the audit of the Black Mountain Community Improvement District (CID)

Recommendation 1.

The new CID Board work with law enforcement officials regarding criminal prosecution of the improper payments made for private business loans, private convenience store renovations, and Subway construction expenses, and take necessary actions to seek restitution. In addition, supporting documentation should be obtained to support all district expenditures and ensure that expenditures do not violate state law and are a reasonable use of public funds.

1. We agree with the recommendation. We have already, and will continue, to take necessary steps to implement the recommendation.

Recommendation 2.1

The new CID Board ensure proper notification and agendas for public meetings are given, meeting minutes are prepared and maintained for all CID meetings, and develop written policies regarding procedures to obtain access to, or copies of, public records.

2.1 We agree with the recommendation. We already have procedures on proper notification, agendas for public meetings, and meeting minutes are prepared and maintained. At our next CID meeting, we will develop written policies regarding procedures to obtain access to, or copies of, public records. No request for access to or copies of public records has been made to date.

Recommendation 2.2

The new CID Board ensure all contracts are in writing Additionally, consult with legal counsel to determine if continuing to make payments pursuant to the verbal agreement is in the best interest of the district.

2.2 We agree with the recommendation. All contracts will be in writing and consult with legal counsel to determine is continuing to make payments pursuant to the verbal agreement is in the best interest of the district.

Recommendation 2.3

The new CID Board ensure annual performance reports and annual financial reports are filed with the appropriate entities within the time frame established by state law.

2.3 We agree with the recommendation. We have already, and will continue, to take necessary steps to implement the recommendation.

Recommendation 2.4

The new CID Board ensure compliance with state law by submitting budgets timely to the city and include a budget message describing the important features of the budget and major changes from the preceding year along with a general budget summary in the district's budgets.

2.4 We agree with the recommendation. We have already, and will continue, to take necessary steps to implement the recommendation.

Sincerely,

Andy Dazey, Chairman

Lisa Burke, Secretary/Treasurer

CITIZENS SUMMARY

Findings in the audit of Barry County

Sheriff's Controls and Procedures	The Sheriff has not adequately segregated accounting duties and does not ensure supervisory reviews of detailed accounting and bank records are performed. The Sheriff needs to improve receipting, reconciling, and depositing procedures. The Office Administrator does not prepare adequate bank reconciliations for the 3 bank accounts, and monthly lists of liabilities are not prepared to reconcile to the available cash balances. The Sheriff's office has not remitted net proceeds to the County Treasurer from the inmate commissary account for deposit into the Inmate Prisoner Detainee Security Fund. The Sheriff does not disburse some civil and criminal process fees timely. The Sheriff does not have adequate procedures to ensure all inmate monies are refunded upon release. The Sheriff's office does not always retain records to account for phone cards and e-cigarettes purchased and sold to inmates, track inventory remaining on hand, or conduct periodic physical inventory counts. The Sheriff's office does not charge or collect sales taxes on phone cards and e-cigarettes sold to inmates, and no sales taxes are remitted to the Department of Revenue.
Public Administrator's Controls and Procedures	The Public Administrator does not consistently assess and collect fees from the accounts of some wards and estates and does not maintain a fee schedule or document criteria used to determine the fees charged. The Public Administrator does not always deposit receipts intact or restrictively endorse checks.
Electronic Data Security	The County Assessor, County Clerk, County Collector, County Treasurer, Ex Officio Recorder of Deeds, Public Administrator, and Sheriff have not established adequate password controls to reduce the risk of unauthorized access to computers and data. The County Assessor, County Collector, County Treasurer, and Ex Officio Recorder of Deeds do not have security controls in place to lock computers after a certain period of inactivity. The County Collector and Ex Officio Recorder of Deeds have not fully established controls for maintaining user accounts for accessing system resources. The Public Administrator does not store backup data at an off-site location and does not perform periodic testing of backup data.
Developmentally Disabled Board	The Developmentally Disabled Board has accumulated a significant cash reserve without any specific plans for its use.
Ex Officio Recorder of Deeds' Controls and Procedures	The Ex Officio Recorder of Deeds has not adequately segregated accounting duties and does not ensure supervisory reviews of detailed accounting and bank records are performed. The Ex Officio Recorder of Deeds does not account for the numerical sequence of receipt slip numbers to ensure monies received have been properly recorded and deposited.

Additional Comments

Because counties are managed by several separately-elected individuals, an audit finding made with respect to one office does not necessarily apply to the operations in another office. The overall rating assigned to the county is intended to reflect the performance of the county as a whole. It does not indicate the performance of any one elected official or county office.

In the areas audited, the overall performance of this entity was **Fair**.*

***The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Organization and Statistical Information 14

NICOLE GALLOWAY, CPA
Missouri State Auditor

County Commission
and
Officeholders of Barry County

We have audited certain operations of Barry County in fulfillment of our duties under Section 29.230, RSMo. In addition, McBride, Lock & Associates, LLC, Certified Public Accountants, was engaged to audit the financial statements of Barry County for the 2 years ended December 31, 2017. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2017. The objectives of our audit were to:

1. Evaluate the county's internal controls over significant management and financial functions.

2. Evaluate the county's compliance with certain legal provisions.

3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

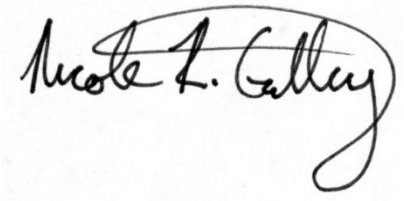
Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the county's management and was not subjected to the procedures applied in our audit of the county.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of Barry County.

An audit of the Barry County Collector and Property Tax System, fulfilling our obligations under Section 52.150, RSMo, is still in process, and any additional findings and recommendations will be included in the subsequent report.



Nicole R. Galloway, CPA
State Auditor

The following auditors participated in the preparation of this report:

Director of Audits:	Randall Gordon, M.Acct., CPA, CGAP
Audit Manager:	John Lieser, CPA

Audit Staff:	Misty Bowen, MSED
	Ethan D. Evans

1. Sheriff's Controls and Procedures

Controls and procedures for the Sheriff's office need improvement. The Sheriff's office collected monies for civil fees, concealed carry weapon permits, bonds, jail phone commissions, and other miscellaneous receipts totaling approximately $278,000 for the year ended December 31, 2017.

1.1 Segregation of duties

The Sheriff has not adequately segregated accounting duties and does not ensure supervisory reviews of detailed accounting and bank records are performed. The Office Administrator is responsible for receipting, recording, and depositing monies; preparing and signing checks; and preparing the bank reconciliations. The Sheriff does not perform a documented supervisory review of the accounting and bank records to ensure all monies received are properly recorded, deposited, and disbursed.

Proper segregation of duties is necessary to ensure transactions are accounted for properly and assets are adequately safeguarded. Internal controls would be improved by segregating the duties of receiving, recording, depositing, disbursing, and reconciling monies. If proper segregation of duties cannot be achieved, documented independent or supervisory reviews of detailed accounting and bank records are essential.

1.2 Receipts, reconciliations, and deposits

The Sheriff needs to improve receipting, reconciling, and depositing procedures.

- The Office Administrator does not reconcile total receipts to total deposits. Receipt slips could not always be traced to a deposit, and some deposits could not be traced to a receipt slip. For example, bond receipts totaling $200, recorded on manual receipt slips issued between October 27, 2017, and October 29, 2017, were not deposited and no receipt slips were issued for a $120 deposit made on November 21, 2017. As a result, we could not determine if all monies received were handled appropriately and deposited.

- The Office Administrator does not reconcile the composition of receipts (cash, checks, money orders, or credit cards) to the composition of deposits. In addition, the method of payment is not accurately recorded on several receipt slips as all credit card payments were entered as cash.

Failure to implement adequate receipting, reconciling, and depositing procedures increases the risk that loss, theft, or misuse of monies will go undetected.

1.3 Bank reconciliations and liabilities

The Office Administrator does not prepare adequate bank reconciliations for the 3 bank accounts. In addition, monthly lists of liabilities are not prepared to reconcile to the available cash balances. While a bank reconciliation is prepared each month, the reconciled bank balance is not agreed to the check register balance to ensure all transactions are accounted for.

Performing adequate monthly bank reconciliations helps ensure accurate records are kept and increases the likelihood errors will be identified. Regular identification and comparison of liabilities to the available cash balance is necessary to ensure records are in balance and monies are available to satisfy all liabilities.

1.4 Commissary net proceeds

The Sheriff's office has not remitted net proceeds to the County Treasurer from the inmate commissary account for deposit into the Inmate Prisoner Detainee Security Fund. The account consists of inmate monies and the net proceeds from commissary sales and had a reconciled bank balance of $16,864 at December 31, 2017. Inmate balances totaled $1,722 as of December 31, 2017, leaving undistributed commissary net proceeds totaling $15,142 in the account at that time.

Section 221.102, RSMo, requires each county jail to keep revenues from its commissary in a separate account and pay for goods and other expenses from that account, allows retention of a minimum amount of money in the account for cash flow purposes and current expenses, and requires deposit of the remaining funds (net proceeds) into the county Inmate Prisoner Detainee Security Fund held by the County Treasurer.

1.5 Disbursements

The Sheriff does not disburse some civil and criminal process fees timely. Civil and criminal process fees collected in August 2017, totaling $11,041 were not disbursed to the County Treasurer until October 2017, and civil and criminal process fees collected in November and December 2017, totaling $18,622 were not disbursed to the County Treasurer until February 2018.

Timely disbursement of monies collected is necessary to provide adequate controls over account balances and increase the likelihood discrepancies are promptly detected. In addition, Section 50.370, RSMo, requires all county officials who receive fees or any other remuneration for official services to pay such fees monthly to the County Treasurer. Additionally, pursuant to Section 50.380, RSMo, the Sheriff may be subject to penalties for failure to timely disburse monies.

1.6 Inactive inmate account balances

The Sheriff does not have adequate procedures to ensure all inmate monies are refunded upon release. As of November 7, 2018, the Sheriff's office was holding $2,776 for 609 former inmates in the commissary bank account. These inmates were released from the county jail but did not claim their commissary account balance.

Follow up on inactive accounts is necessary to ensure monies are appropriately disbursed to the former inmates or as otherwise provided by state law. In addition, establishing procedures to refund all inmate monies upon release will allow the Sheriff to more adequately safeguard any monies being held and reduce the risk of loss, theft, or misuse of monies.

A similar condition was noted in our prior audit report.

1.7 Commissary inventory

The Sheriff's office does not always retain records to account for phone cards and e-cigarettes purchased and sold to inmates, track inventory remaining on hand, or conduct periodic physical inventory counts. Sheriff records indicate sales to inmates totaled approximately $41,700 for phone cards and $20,500 for e-cigarettes for the year ended December 31, 2017.

Inventory records are necessary to account for phone cards and e-cigarettes and should be retained. Comparisons of phone cards and e-cigarette purchases and sales to inventory records are necessary to ensure the phone cards and e-cigarettes and associated monies are properly recorded and handled.

1.8 Sales tax

The Sheriff's office does not charge or collect sales taxes on phone cards and e-cigarettes sold to inmates, and no sales taxes are remitted to the Department of Revenue (DOR). Pursuant to 12 CSR 10-110.955(3)(B), sales by the state of Missouri and its political subdivisions are subject to tax. Therefore, the Sheriff should be charging and collecting sales tax and remitting tax collections to the DOR.

Recommendations

The Sheriff:

1.1 Segregate accounting duties or ensure independent or supervisory reviews of detailed accounting and bank records are performed and documented.

1.2 Maintain adequate records for receipting, reconciling, and depositing monies. Such records would include reconciling the composition of receipts to the composition of deposits and ensuring the method of payment is accurately documented on all receipt slips. Also, the Sheriff should ensure receipts are deposited timely and intact.

1.3 Ensure monthly bank reconciliations are accurately performed and lists of liabilities are prepared and reconciled to the available cash balance monthly. Any differences should be promptly investigated and resolved.

1.4 Disburse net proceeds not necessary to meet cash flow needs or current operating expenses to the County Treasurer for deposit into the Inmate Prisoner Detainee Security Fund.

1.5 Ensure receipts are disbursed timely.

1.6 Refund inmates their remaining balance upon release. In addition, the Sheriff should attempt to return unclaimed balances to the former

inmates. If the payee cannot be located, the amount should be disbursed in accordance with state law.

1.7 Maintain inventory records of phone cards and e-cigarettes, reconcile these records to phone cards and e-cigarettes purchased and sold, and perform periodic physical inventory counts.

1.8 Contact the DOR for guidance on establishing procedures for charging and collecting sales taxes on phone card and e-cigarettes sales and ensure future sales tax collections are remitted to the DOR.

Auditee's Response

All of these issues could be more readily addressed if the Sheriff's office had more staff.

1.1 Due to minimal office staff, we cannot segregate duties. We will ensure supervisory reviews of detailed accounting and bank records are performed and documented on a monthly basis.

1.2 We will make deposits weekly and intact. All monies as they are received are kept in a lock box. The key to the lock box is kept in the Sheriff's office with limited access by the Sheriff, Office Administrator, and the Chief Deputy.

We are totally revising portions of our receipting process to more accurately describe what the receipted monies are composed of (cash, money order, credit card, debit card, etc.). These new procedures and receipt slips will enable us to trace deposits to receipts and ensure that all monies received are handled appropriately and deposited in a timely manner.

This new procedure and receipts slips will enable the Office Administrator to reconcile the composition of receipts to the composition of deposits. This new procedure will also help ensure that the method of payment is accurately recorded on the receipt slips.

1.3 Bank reconciliations will be done monthly on the bank accounts. A list of liabilities (if any) will be prepared and reconciled to the available cash balance. Any differences will be promptly investigated and resolved.

1.4 A minimal account balance, as deemed appropriate by the Sheriff to ensure continuous operation of the jail's facilities (i.e., commissary payments, inmate phone systems, and returned inmate funds), will be maintained in the commissary account. The commissary account will be reviewed for liabilities monthly. Net proceeds will be transferred

from the commissary account to the Inmate Prisoner Detainee Security Fund quarterly.

1.5 *As stated in our response to 1.2, we will deposit or disburse all receipts weekly and intact.*

1.6 *We will establish procedures to follow up on outstanding checks. We will contact and reissue checks to payees that can be located. For payees that cannot be located, the monies will be turned over to the state's unclaimed property fund. We will send certified letters to the last known address of the inmate and if they are returned or the former inmate does not contact us within 90 days, the unclaimed money that is still in the former inmate's account will go to the Missouri State Treasurer's Office. We are currently refunding monies to inmates upon their release. We will work to resolve unclaimed balances in former accounts and send all unclaimed funds to the state on a quarterly basis.*

1.7 & 1.8 *We are in the process of selecting a new commissary vendor. We will no longer be handling any phone card or e-cigarette inventory. These items will be handled by the commissary vendor.*

2. Public Administrator's Controls and Procedures

Controls and procedures for the Public Administrator's office need improvement. The Public Administrator is the court appointed personal representative for wards or decedent estates of the Circuit Court, Probate Division, and was responsible for the financial activity of approximately 160 wards and estates during the year ended December 31, 2017.

2.1 Fees

The Public Administrator does not consistently assess and collect fees from the accounts of some wards and estates and does not maintain a fee schedule or document criteria used to determine the fees charged. During the year ended December 31, 2017, fees totaling $27,394 from 35 wards and estates were paid to the Public Administrator or prior Public Administrator.

To ensure fees are properly assessed, the Public Administrator should work with the Circuit Judge, Probate Division, to establish a fee schedule. Without documenting criteria used when determining the appropriate fee to charge there is less assurance fees charged to each ward or estate are fair, reasonable, and properly assessed.

2.2 Receipts

The Public Administrator does not always deposit receipts intact or restrictively endorse checks. A cash count performed on September 24, 2018, identified a gap in the sequence of receipt slip numbers for the receipts on hand to be counted. Receipts for receipt slip numbers 845005 through 845014

(excluding 845007, 845008 and 845010) were on hand at the time of the cash count. However, $600 in receipts for receipt slip numbers 845007, 845008, and 845010 had already been deposited on September 24, 2018, resulting in receipts not being deposited intact. In addition, 3 checks on hand totaling $4,400 had not been restrictively endorsed.

Failure to implement adequate receipting procedures increases the risk of loss, theft, or misuse of monies and the likelihood that errors will go undetected. Procedures should be established to ensure all receipts are deposited intact and restrictively endorse checks upon receipt.

Recommendations

2.1 The Public Administrator work with the Circuit Judge, Probate Division, to establish a formal policy outlining the fee amount to assess wards and estates.

2.2 The Public Administrator deposit receipts intact and restrictively endorse checks immediately upon receipt.

Auditee's Response

The Public Administrator drafted policies implementing the points in the report and discussed the policies with his staff. He will provide the policy to the Circuit Judge, Probate Division, for approval.

3. Electronic Data Security

Controls over county computers are not sufficient. As a result, county records are not adequately protected and are susceptible to unauthorized access or loss of data.

3.1 Passwords and user identification

The County Assessor, County Clerk, County Collector, County Treasurer, Ex Officio Recorder of Deeds, Public Administrator, and Sheriff have not established adequate password controls to reduce the risk of unauthorized access to computers and data. Employees in these offices are not required to change passwords periodically or have a minimum number of characters in the passwords to help ensure they remain known only to the assigned user. In addition, officials and employees share the user identification and password for certain computers in the offices of the County Assessor, County Collector, and Ex Officio Recorder of Deeds.

Passwords are necessary to authenticate access to computers. The security of computer passwords is dependent upon keeping them confidential. However, since passwords do not have to be periodically changed or contain a minimum number of characters in certain offices and are shared by employees in some offices, there is less assurance they are effectively limiting access to computers and data files to only those individuals who need access to perform their job responsibilities. Passwords should be unique and confidential and changed periodically to reduce the risk of a compromised password and unauthorized access to and use of computers and data.

A similar condition was noted for the County Collector in our 2 prior audit reports.

3.2 Security controls

The County Assessor, County Collector, County Treasurer, and Ex Officio Recorder of Deeds do not have security controls in place to lock computers after a certain period of inactivity. In addition, the County Clerk, County Collector, County Treasurer, Ex Officio Recorder of Deeds, Public Administrator, and Sheriff do not have security controls in place to lock computers after a certain number of incorrect logon attempts.

Inactivity controls are necessary to reduce the risk of unauthorized individuals accessing an unattended computer and having potentially unrestricted access to programs and data files. In addition, logon attempt controls lock the capability to access a computer after a specified number of consecutive invalid logon attempts and are necessary to prevent unauthorized individuals from continually attempting to logon to a computer by guessing passwords. Without effective security controls, there is an increased risk of unauthorized access to computers and the unauthorized use, modification, or destruction of data.

3.3 User accounts

The County Collector and Ex Officio Recorder of Deeds have not fully established controls for maintaining user accounts for accessing system resources. As a result, accounts assigned to former employees are not always removed timely.

Without effective procedures to remove access, terminated employees could continue to have access to critical or sensitive resources or have opportunities to sabotage or otherwise impair entity operations or assets. The failure to remove all terminated employees' access on a timely basis increases the risk of unauthorized access and may compromise the confidentially and integrity of county data.

3.4 Data backups

The Public Administrator does not store backup data at an off-site location and does not perform periodic testing of backup data.

Failure to store computer backup data at a secure off-site location results in the backup data being susceptible to the same damage as the data on the computer. To help prevent loss of information and ensure essential information and computer systems can be recovered, computer data should be stored off-site and tested on a periodic basis.

Recommendations

The County Commission work with other county officials to:

3.1 Require confidential passwords for each employee that are confidential, contain a minimum number of characters, and are

periodically changed to prevent unauthorized access to county's computers and data.

3.2 Require county computers have security controls in place to lock each computer after a certain period of inactivity and after a certain number of incorrect logon attempts.

3.3 Ensure user access is promptly deleted following termination of employment.

3.4 Ensure computer backup data is stored in a secure off-site location and tested on a regular basis.

Auditee's Response

The County Commission will work with the county's information technology company to implement these recommendations.

4. Developmentally Disabled Board

The Developmentally Disabled Board has accumulated a significant cash reserve without any specific plans for its use.

The Board's cash balance at December 31, 2017, totaled approximately $1,000,000. This balance, based on previous spending, represents approximately 3 years of payments to nonprofit organizations and other disbursements. According to the Board President, the Board maintains a large balance due to concerns about potential cuts to services at the state and federal level. Despite the significant cash balance, the Board continues to propose a property tax rate at or slightly less than the maximum rate allowed.

Accumulating an excessive cash balance with no specific long-term plans for use of these monies puts an unnecessary burden on taxpayers. The Board should determine future needs, and consider reducing future tax levies if a specific use for the cash reserves is not determined. Pursuant to Section 205.971, RSMo, the County Commission is given the taxing authority to levy a property tax rate to provide services for the developmentally disabled. Thus, the County Commission should review the necessity of the tax levy rate proposed by the Board.

A similar condition was noted in our 4 prior audit reports.

Recommendation

The Developmentally Disabled Board work with the County Commission to evaluate funding needs and consider reducing the property tax levy. If plans have been made for expending the accumulated cash balance, such plans should be set forth publicly in the budget document.

Auditee's Response

The Board has reduced the property tax levy for the year 2020. This was done due to the accumulated cash balance in the Board's account. The property tax was reduced to 0.0200 for the 2020 tax year, which is significantly below

the maximum rate allowed. The Board continues to be concerned about potential cuts to services at the state and federal level.

5. Ex Officio Recorder of Deeds' Controls and Procedures

Controls and procedures for the Ex Officio Recorder of Deeds' office need improvement. The office collected various fees totaling approximately $286,000 related to recording documents, such as marriage licenses and deeds, during the year ended December 31, 2017.

5.1 Segregation of duties

The Ex Officio Recorder of Deeds has not adequately segregated accounting duties and does not ensure supervisory reviews of detailed accounting and bank records are performed. The Deputy Recorder is responsible for receipting, recording, and depositing monies, and preparing the bank reconciliations. The Ex Officio Recorder of Deeds does not perform a documented supervisory review of the accounting and bank records to ensure all monies received are properly recorded, deposited, and disbursed.

Proper segregation of duties is necessary to ensure all transactions are accounted for properly and assets are adequately safeguarded. Internal controls would be improved by segregating the duties of receipting, recording, and depositing monies and preparing bank reconciliations. If proper segregation of duties cannot be achieved, documented independent or supervisory reviews of detailed accounting and bank records are essential.

5.2 Numerical sequence

The Ex Officio Recorder of Deeds does not account for the numerical sequence of receipt slip numbers to ensure monies received have been properly recorded and deposited.

Failure to implement adequate receipting and depositing procedures increases the risk that loss, theft, or misuse of monies could occur and go undetected.

Recommendations

The Ex Officio Recorder of Deeds:

5.1 Segregate accounting duties or ensure independent or supervisory reviews of detailed accounting and bank records are performed and documented.

5.2 Account for the numerical sequence of receipt slip numbers.

Auditee's Response

5.1 The Recorder of Deeds and Deputy Recorder now share the responsibility of the daily activities, which include receipting, recording, and depositing monies and preparing the bank reconciliations. A daily review will be conducted and documented on our daily deposit slip with the initials of the verifier.

5.2 A daily receipts journal report will be reviewed to verify that all documents are in numerical sequence. This will be documented on our daily deposit slip and initialed by the verifier.

Barry County
Organization and Statistical Information

Barry County is a county-organized, third-class county. The county seat is Cassville.

Barry County's government is composed of a three-member county commission and separate elected officials performing various tasks. All elected officials serve 4-year terms. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county roads and bridges, and performing miscellaneous duties not handled by other county officials. Principal functions of these other officials relate to law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records important to the county's citizens. In addition to elected officials, the county employed 67 full-time employees and 10 part-time employees on December 31, 2017.

In addition, county operations include the Developmentally Disabled Board and Senior Services Board.

Elected Officials

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below:

Officeholder	2018	2017
Cherry Warren, Presiding Commissioner	$	31,700
Gary Schad, Associate Commissioner		31,185
Wayne Hendrix, Associate Commissioner		31,185
Craig Williams, Circuit Clerk and Ex Officio Recorder of Deeds (1)		
Gary Youngblood, County Clerk		45,000
Amy Boxx, Prosecuting Attorney		137,073
Gary Davis, Sheriff		54,600
Lois Lowe, County Treasurer		45,000
Jim Fohn, County Coroner		16,800
Keith Daniels, Public Administrator (2)		26,120
Pam Modlin, Public Administrator (2) (3)		1,274
Janice Varner, County Collector (4), year ended February 28,	54,513	
Sherry Smith, County Assessor, year ended August 31,		45,750
Sam Goodman, County Surveyor (5)		

(1) Compensation is paid by the state.

(2) Includes fees from probate cases.

(3) The prior Public Administrator received fees for cases still in her possession until the cases were transferred to the current officeholder. As allowed by Section 473.767, RSMo, the prior Public Administrator transferred cases throughout the year, at the first court date of the case.

(4) Includes $9,513 of commissions earned for collecting city property taxes.

(5) Compensation on a fee basis.

Other Information

In November 2017, the County Commission approved separating the position of Circuit Clerk and Ex Officio Recorder of Deeds from one elected official to two elected officials. Danielle Still was elected the Recorder of Deeds on November 6, 2018, and took office on January 1, 2019.

NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for political subdivisions other than cities, towns, and villages, required to file a financial report, under Section 105.145, RSMo, and 15 CSR 40-3.030. Section 105.145, RSMo, provides that the State Auditor's Office notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Because of different filing requirements, a separate report is issued for cities, towns, and villages.

The filing status for the 78 political subdivisions required to file a financial report by October 31, 2019, is presented in summary on page 3 and by individual entity in Appendix A. We have not audited the reports submitted and, accordingly, do not express an opinion or any other assurance on them.

This report also includes the updated filing status for political subdivisions, other than cities, towns, and villages, that filed a financial report in October 2019, after their filing deadline. The filing status for these 14 entities is presented in summary on page 3 and by individual entity in Appendix B-E.

Monthly Report on Political Subdivision Filings
October 2019
Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office posts individual annual financial reports to its website. A searchable link is available at http://auditor.mo.gov.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of $500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than $5,000 in the fiscal year of the annual financial report.

This report includes the filing status for the 78 political subdivisions, other than cities, towns, and villages, with a fiscal year end of April 30, 2019. Cities, towns, and villages have additional filing requirements and their reporting status is included in a separate report. Of the 78 political subdivisions, 71 filed an annual financial report timely.

This report also includes the filing status for 14 political subdivisions, other than cities, towns, and villages, that filed their financial report in October 2019, after their filing deadline.

NICOLE GALLOWAY, CPA
Missouri State Auditor

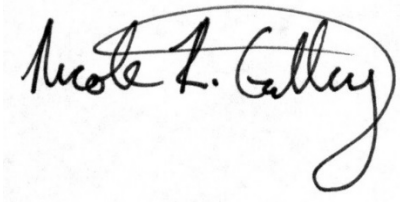
Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for the municipalities required to file a financial report by October 31, 2019, under Section 105.145, RSMo, and 15 CSR 40-3.030, and, when applicable, an addendum under Section 479.359, RSMo, and 15 CSR 40-3.170 and a municipal court certification under Section 479.360, RSMo, and 15 CSR 40-3.180.

Section 105.145, RSMo, provides that the State Auditor's Office (SAO) notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. Additionally, Section 479.362, RSMo, provides that the SAO notify the Department of Revenue whether counties, cities, towns, and villages have timely filed under Sections 479.359 and 479.360, RSMo. Because of different filing requirements, a separate report is issued for all other political subdivisions required to file a financial report.

The filing status for 19 cities, 1 town, and 4 villages is presented in summary on page 3 and by individual entity in Appendix A. This compilation is limited to presenting information submitted to our office. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report includes the updated filing status for municipalities that filed at least one of the items (financial report, addendum, or certification) in October 2019, after their filing deadline. The filing status for these 16 cities and 6 villages is presented in summary on pages 4 and by individual entity in Appendixes B to E.



Nicole R. Galloway, CPA
State Auditor

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision, except counties and school districts, in the state to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at http://auditor.mo.gov.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of $500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than $5,000 in the fiscal year of the annual financial report.

Section 479.359.1, RSMo, requires every county, city, town, and village to annually calculate the percentage of its annual general operating revenue received from fines, bond forfeitures, and court costs for minor traffic violations.

Section 479.359.3, RSMo, provides that all entities having a municipal court file an addendum to the annual financial report containing items listed in 15 CSR 40-3.170, which also provides the procedures to file an addendum.

Section 479.360, RSMo, requires every county, city, town, and village that has a municipal court to file, with its annual financial report, a certification of substantial compliance with 10 municipal court procedures. This certification must be signed by the municipal court judge. 15 CSR 40-3.180 provides the procedure to file the municipal court certification. Any county, city, town, or village that does not have a municipal court judge is not required to file a certification.

Section 479.362, RSMo, requires that the SAO notify the Department of Revenue whether counties, cities, towns, or villages have timely filed their addendums under Section 479.359 and certificates of substantial compliance under Section 479.360, RSMo. Section 479.368, RSMo, provides penalties for counties, cities, towns, and villages that fail to file, including loss of revenue and mandatory ballot measure to dissolve the political subdivision.

This report includes the filing status for the 19 cities, 1 town, and 4 villages with a fiscal year end of April 30, 2019, whose financial report was due by October 31, 2019. Of the 24 municipalities required to file an annual financial report, 20 filed the report timely. Of the 17 municipalities required to file an addendum, 5 filed an addendum timely. Of the 10 municipalities required to file a certification, 7 filed a certification timely.

This report includes the filing status for 16 cities and 6 villages that filed at least one of the items (financial report, addendum, or certification) in October 2019, after their filing deadline. Of these entities, 16 filed an annual financial report, 8 filed an addendum, and 3 filed a certification.

Nicole Galloway, CPA

Missouri State Auditor

City of Bellerive Acres

Report No. 2019-115

November 2019

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of City of Bellerive Acres

Disbursements	The Board of Aldermen's review and approval process for disbursements is not adequate. The city does not have a formal bidding policy and has not established policies for the selection of vendors providing professional services. The city held a holiday party, costing approximately $7,000, in December 2017, that was a questionable and/or unnecessary use of city resources. City officials could not provide adequate supporting documentation for numerous disbursements.
Contracts	City officials do not obtain written contracts for all services. The city does not have a current contract with a neighboring city for the various services being provided for Bellerive Acres and did not comply with some of the previous contract terms.
Compensation	The Board did not document its approval of a salary increase for the former City Administrator and compensation paid to city employees is not set by ordinance.
Budgets and Published Financial Statements	City officials do not properly prepare or approve budgets, and do not publish semiannual financial statements in accordance with state law.
Certificates of Deposit and Municipal Court Bank Account	The city does not have adequate procedures to monitor certificate of deposit balances. The city incurred significant fees in the municipal court bank account causing the account to have insufficient funds for required disbursements of fines and costs and the reconciled bank balance to be negative.
Ordinances and Sunshine Law	City ordinances are not organized, complete, or up to date. The Board has not adopted a written policy regarding public access to city records as required by state law.
Capital Assets	The city does not maintain adequate records of its capital assets including buildings, land, vehicles, equipment, and other property.

In the areas audited, the overall performance of this entity was **Fair**.*

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Organization and Statistical Information 14

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the Honorable Mayor
and
Members of the Board of Aldermen
City of Bellerive Acres, Missouri

The State Auditor was petitioned under Section 29.230, RSMo, to audit the City of Bellerive Acres. We have audited certain operations of the city in fulfillment of our duties. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2018. The objectives of our audit were to:

1. Evaluate the city's internal controls over significant management and financial functions.

2. Evaluate the city's compliance with certain legal provisions.

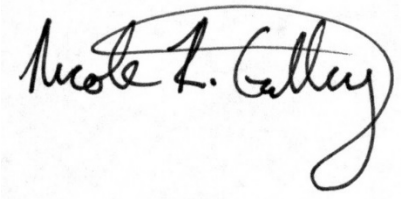
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the city, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the city's management and was not subjected to the procedures applied in our audit of the city.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the City of Bellerive Acres.



Nicole R. Galloway, CPA
State Auditor

The following auditors participated in the preparation of this report:

Director of Audits:	Kelly Davis, M.Acct., CPA, CFE
Audit Manager:	Robyn Vogt, M.Acct., CPA
In-Charge Auditor:	Joyce Thomson
Audit Staff:	Joel Stucky

1. Disbursements

City procedures over disbursements need improvement. The city disbursed approximately $342,000 for the year ended December 31, 2018.

1.1 Review and approval process

The Board of Aldermen's review and approval process for disbursements is not adequate. The Mayor prepares manual checks for invoices provided by the City Administrator and other routine payments are made electronically. The city's financial services provider presents a listing of disbursements made since the prior meeting to the Board at each Board meeting. However, because the report lists disbursements already made, the Board does not review any disbursements before payment. Also, although meeting minutes may document discussion of specific purchases, neither the meeting minutes nor the disbursement listing include documented approval of any disbursements and the Board generally does not review any invoices or other documentation supporting the disbursements.

To adequately document the Board's review and approval of disbursements, a complete and detailed listing of disbursements should be signed or initialed by Board members to denote their approval, and retained with the official minutes. In addition, the Board or someone independent of the disbursement process should review supporting documentation before payment is made. Failure to properly review all invoices and supporting documentation, and document authorizations, increases the possibility of inappropriate disbursements occurring.

1.2 Procurement procedures

The city does not have a formal bidding policy and has not established policies for the selection of vendors providing professional services. The city did not solicit proposals for professional services including trash services ($28,400), sewer lateral services ($12,900), legal services ($8,200), and accounting services ($5,600).

Formal bidding procedures for major purchases or services provide a framework for economic management of city resources and help ensure the city receives fair value by contracting with the lowest or best bidders. Competitive bidding also helps ensure all parties are given an equal opportunity to participate in city business. Formal bidding procedures should be sufficiently detailed and include requirements for documenting the process of awarding a bid.

Soliciting proposals for professional services is a good business practice, helps provide a range of possible choices, and allows the city to make better-informed decisions to ensure necessary services are obtained from the best qualified provider after taking expertise, experience, and cost into consideration.

1.3 Holiday party

The city held a holiday party, costing approximately $7,000, in December 2017, that was a questionable and/or unnecessary use of city resources.

According to the city's newsletter, the event was held at a local country club, food was provided, and adult residents of the community were invited. In addition, according to a Board member, alcohol was provided at no cost to the guests during the party and contributed to the higher cost of the event. City personnel could not provide an itemized invoice or other documentation to support the amount spent on the party. The Mayor indicated a holiday party did not occur in 2018 due to the high cost in 2017.

Public funds should be spent only on items necessary and beneficial to the city. Citizens have placed a fiduciary trust in their public officials to spend city monies in a prudent and necessary manner. For any future city events, the Board should evaluate if the cost to the city is reasonable.

1.4 Supporting documentation

City officials could not provide adequate supporting documentation for numerous disbursements. Our review determined supporting documentation was not maintained for 109 of 199 disbursements (55 percent) made during the year ended December 31, 2018.

To ensure obligations were actually incurred and amounts paid were proper, all disbursements should be supported by paid receipts, itemized vendor invoices, or other detailed documentation with payment information clearly indicated.

Recommendations

The Board of Aldermen:

1.1 Review and document approval of all disbursements and supporting documentation.

1.2 Establish formal bidding policies and procedures and periodically solicit proposals for professional services.

1.3 Ensure all disbursements are necessary and prudent uses of public funds.

1.4 Require adequate, detailed supporting documentation be retained for all disbursements.

Auditee's Response

1.1 The city will ensure that all disbursements are approved by the Board prior to the disbursements being paid, and that such approvals will be documented in meeting minutes. Reports will be given during public meetings with respect to the specific disbursements that are being approved by the Board. The city's financial services provider already provides, and will continue to do so, a financial report each month at public Board meetings and has all invoices and checks available for review by the Board members at each meeting. Further, the Board will adopt a procedure for allowing for the payment of

essential bills, such as utilities, for months when the city is unable to hold its regularly scheduled meetings. The city will ensure compliance with all applicable laws and policies and procedures.

1.2 The city accepts the recommendation and will develop policies and procedures with respect to the soliciting and approving of bids. The city will ensure that documentation relative to the soliciting and approval of bids is maintained at City Hall. The city will ensure all written contracts are executed in accordance with Section 432.070, RSMo.

1.3 As reflected in the report, based upon the expenses incurred in holding a holiday party in 2017, the current Board did not hold a similar party in 2018 and does not intend to do so in 2019. As such, the city accepts the recommendation and will ensure all disbursements are necessary and prudent uses of public funds.

1.4 The city accepts the recommendation and will maintain all invoices and checks for all disbursements pursuant to the records retention schedule published by the Missouri Secretary of State.

2. Contracts

City officials do not obtain written contracts for all services. In addition, the city does not have a current contract with the City of Normandy and did not comply with some of the previous contract terms.

Written contracts

The city does not have written contracts with some service providers and certain outside parties. Written contracts have not been established with vendors or entities providing trash, legal, and accounting services. Also, the city's copies of the written contracts for sewer lateral services are not signed by the contractor.

City of Normandy contract

The city does not have a current contract with the City of Normandy and did not comply with some terms of the previous contract. In accordance with the contract, the City of Normandy provides police protection and services, municipal court services, and general clerical services to the city.

The initial contract, which began in February 2012, was amended in March 2013, and covered the period through January 2018. The city has not entered into a new contract with the City of Normandy since that contract ended. The City of Normandy continues to provide services to the city.

In addition, the city did not comply with the contract payment terms. The contract provided for an annual cost increase, effective each year, in February, and allowed for payment to be made in monthly installments. According to the contract, the city was to pay $4,170 monthly beginning in March 2013, with increases to $4,371 per month in February 2014, $4,581 in February

2015, $4,801 in February 2016, and $5,000 in February 2017. However, the city paid significantly less than the contract amount required. For example, the city paid $2,185 per month in 2015 and 2016. The amount increased to $4,370 per month in January 2017, and has remained at that level through at least March 2019.

The City Administrator indicated the former City Administrator approached the City of Normandy with concerns the city could not afford the full monthly contract amount so City of Normandy officials agreed to accept a reduced amount. The City Administrator further indicated that the monthly payment amount increased in 2017 because the City of Normandy requested the city increase its payment due to the current amount not being sufficient to cover the services provided. No documentation exists to support the discussions between city officials and the City of Normandy, and no contract amendments were prepared regarding the changes in compensation terms of the contract.

Conclusion

Clear and detailed written contracts, including reporting requirements and provisions to allow for proper monitoring, are necessary to ensure all parties are aware of their duties and responsibilities, prevent misunderstandings, and ensure city monies are used appropriately and effectively. Closely monitoring contractor performance and compliance with contract terms is important to ensure limited city resources and assets are used wisely and that expectations of the Board and the public are met. Section 432.070, RSMo, requires contracts for political subdivisions to be in writing. Formal written contract amendments are necessary when terms change substantially.

Recommendation

The Board of Aldermen enter into written contracts defining services provided and benefits received, establish procedures to properly monitor contract requirements, ensure compliance with contracts, and update or amend contracts, as necessary, when terms change.

Auditee's Response

The city accepts and has already begun implementing this recommendation.

3. Compensation

The Board did not document its approval of a salary increase for the former City Administrator and compensation paid to city employees is not set by ordinance.

The former City Administrator received a salary increase from $750 to $1,000 per month in March 2017. City personnel could not provide documentation of Board approval for the increase and the Board meeting minutes do not include any discussion or approval of the increase. In addition, the city does not have ordinances establishing the compensation of city officials and employees.

Documented approval by the Board of all salary increases and ordinances documenting approved salary amounts help ensure equitable treatment and prevent misunderstandings. Section 79.270, RSMo, authorizes the Board to fix the compensation of all city officials and employees by ordinance.

Recommendation

The Board of Aldermen document approval of all salary increases and establish the compensation of all city officials and employees by ordinance.

Auditee's Response

The city accepts the recommendation and will develop policies and procedures, as well as pass appropriate ordinance(s) with respect to the compensation of city employees.

4. Budgets and Published Financial Statements

City officials do not properly prepare or approve budgets and do not publish semiannual financial statements in accordance with state law.

4.1 Budgetary requirements

The city's budgets do not contain all statutorily required elements and are not always approved timely. The annual budgets for the years ended December 31, 2018, and December 31, 2017, did not include a budget message, actual or budgeted amounts for the 2 preceding years, the actual beginning and estimated ending cash balance for each fund, or a budget summary. In addition, the Board did not approve the 2018 budget until July 26, 2018, and did not approve the 2017 budget until April 27, 2017.

Section 67.010, RSMo, requires the budget present a complete financial plan for the ensuing budget year and sets specific guidelines for the information to be included in the budget. A complete and well-planned budget, in addition to meeting statutory requirements, can serve as a useful management tool by establishing specific financial expectations for each area of city operations. It also assists in providing information to the public about city operations and current finances. In addition, Section 67.030, RSMo, states the governing body shall approve and adopt the annual budget prior to the beginning of the fiscal year.

4.2 Published financial statements

City officials do not publish semiannual financial statements as required by state law. As a result, information regarding the city's financial activity and condition is not available to all citizens.

Section 79.160, RSMo, requires the Board to prepare and publish financial statements semiannually that include a full and detailed account of the receipts, disbursements, and indebtedness of the city.

Recommendations

The Board of Aldermen:

4.1 Prepare annual budgets that contain all information required by state law and approve the budget prior to the beginning of the fiscal year.

4.2 Publish semiannual financial statements as required by state law.

Auditee's Response

4.1 The city will ensure its annual budgets are adopted as required and that the monthly financial reports contain sufficient detail. The city will breakdown the budget by each of the four funds, and will include a budget message or summary, beginning and estimated ending balances, budgeted amounts for the preceding years and any city indebtedness information, in addition to any other information required by state law. The city will put in place necessary policies and procedures to ensure that the budget is prepared in a timely manner, and that the monthly financial statements contain sufficient information to allow the Board to effectively monitor actual performance compared to the budget. The Board will approve budgets in a timely manner and ensure that such approvals are documented in meeting minutes.

4.2 The city accepts the recommendation and will publish a semiannual financial statement as required by state law.

5. Certificates of Deposit and Municipal Court Bank Account

The city does not have adequate procedures to monitor certificate of deposit (CD) balances. In addition, the city's handling of the municipal court bank account needs improvement.

5.1 Certificates of deposit

The city does not have adequate procedures to monitor CD balances. At December 31, 2018, the city maintained 7 CDs totaling approximately $137,000. These CD balances are reported on the city's monthly financial reports; however, city personnel do not always receive a statement or other documentation to support the amounts reported. For 1 of the 7 CDs, city personnel have no documentation to support the CD balance reported.

In addition, city officials did not change the signature authority assigned to the CDs when former officials left the city. The city's financial services provider indicated the signature authority on all CDs is either the former Mayor or a former Board member. This issue has resulted in problems for city officials as they attempt to obtain documentation of the CD balances.

To reduce the risk of loss, theft, or misuse of funds, the Board should ensure statements or other supporting documentation is routinely received on all

financial accounts, and the Board should update the bank signature cards for all financial accounts to ensure authorized signatories are only current city officials or employees.

5.2 Municipal court bank account

The city incurred significant fees in the municipal court bank account causing the account to have insufficient funds for required disbursements of fines and costs and the reconciled bank balance to be negative. City personnel voided some disbursements and held others for several months to keep the account from being overdrawn. This account consists of receipts and disbursements of fines and costs from municipal court activity.

A review of monthly bank statements and bank reconciliations for 2018 and early 2019 identified the following concerns:

- The city incurred a monthly processing fee associated with the court's credit card machine of approximately $118.
- The city incurred a monthly bank service charge of $3.
- Three checks, totaling $1,585, written from the municipal court bank account between December 2017 and March 2018, to the city, were voided in June 2018, and not reissued.
- Two checks, totaling $267, written from the municipal court bank account in June and July 2018, payable to the city, were still outstanding as of March 2019.
- The reconciled book balance of the municipal court bank account as of March 2019, was negative $260.

City officials indicated they stopped using the credit card machine in March 2019, and the credit card processing fees are no longer assessed. The municipal court bank account continues to be assessed a monthly bank service charge.

The fines and costs deposited in the municipal court bank account represent accountable fees and should be properly and fully disbursed. In addition, the Board should review banking options to determine if the service charges can be avoided.

Recommendations

The Board of Aldermen:

5.1 Obtain documentation to support all financial accounts on a routine basis and ensure only current city officials or employees are authorized signatories on all financial accounts.

5.2 Closely monitor the activity of the municipal court bank account to ensure all accountable fees are properly and fully disbursed. In addition, review banking options to determine if the service charges can be avoided.

Auditee's Response

5.1 The city accepts and has already begun implementing this recommendation. Resolutions were passed in August 2019 authorizing current city officials and the current City Administrator to have their names placed on the certificates of deposit (CDs) in order to obtain current balances. Said resolutions also removed the names of former city officials from the city's financial account(s). Going forward, the city will ensure that account statements are obtained on a routine basis.

5.2 The city accepts and has already begun implementing this recommendation. Further, the city will contact the Office of State Courts Administrator to ensure that any and all funds deposited and disbursed into the municipal court account are done so in accordance with Supreme Court Rules.

6. Ordinances and Sunshine Law

City ordinances are not organized, complete, or up to date. In addition, the Board has not adopted a written policy regarding public access to city records as required by state law.

6.1 Ordinances

City ordinances are not organized, complete, or up to date.

- Ordinances are poorly maintained. Some ordinances are old and not updated. In addition, an index of all ordinances passed and rescinded by the city is not maintained, making it difficult to determine which ordinances remain in effect.
- City officials could not locate an approved and signed ordinance relating to trash services provided by the city. They located a draft ordinance, but it was unsigned and only covered the period June 1, 2017, through December 31, 2017.
- We identified 2 instances where the same ordinance number was used for different ordinances.

Because ordinances passed by the Board to govern the city and its residents have the force and effect of law, it is important ordinances be complete and organized.

6.2 Public access policy

The Board has not adopted a written policy regarding public access to city records as required by state law. A written policy regarding public access to city records would establish guidelines for the city to make records available

to the public. This policy should identify a person to contact, provide an address to mail such requests, and establish fees that may be assessed for providing copies of public records.

Section 610.023, RSMo, lists requirements for making records available to the public. Section 610.026, RSMo, allows the city to charge fees for providing access to and/or copies of public records and provides requirements related to fees. Section 610.028, RSMo, requires a written policy regarding release of information under the Sunshine Law.

Recommendations

The Board of Aldermen:

6.1 Ensure ordinances are maintained in a complete and well-organized manner, establish an index of all ordinances passed and rescinded, sign and retain copies of all ordinances, and establish an ordinance relating to trash services provided by the city.

6.2 Develop a written public access policy.

Auditee's Response

6.1 The city accepts the recommendation and will ensure that a complete and well-organized index of all ordinances passed and rescinded is maintained at City Hall. The city will begin the recodification process of the city's municipal code, as well as explore having the municipal code available online through General Code or a comparable company. Moreover, the city will pass an ordinance relating to trash services provided by the city.

6.2 The city has and will continue to abide by its Open Meetings and Records Policy which is codified in Chapter 120 of its municipal code. The city will ensure that Chapter 120 reflects the recent updates of the Missouri Sunshine Law.

7. Capital Assets

The city does not maintain adequate records of its capital assets including buildings, land, vehicles, equipment, and other property. Additionally, city personnel do not tag, number, or otherwise identify assets or perform annual physical inventories. The most recent capital asset listing city personnel could provide us was dated 2005.

Adequate capital asset records and procedures are necessary to provide controls over city property; safeguard city assets that are susceptible to loss, theft, or misuse; and provide a basis for proper financial reporting and insurance coverage.

Recommendation

The Board of Aldermen ensure complete and detailed capital asset records are maintained that include all pertinent information for each asset such as tag number, description, cost, acquisition date, location, and subsequent

disposition. The Board should also ensure city personnel properly tag, number, or otherwise identify all applicable city property and conduct and document an annual inventory.

Auditee's Response

The city currently maintains a list of capital assets; however, this list needs to be updated to reflect the current value of assets, as well as the inclusion of more detail regarding each asset. As such, the city accepts the recommendation and will schedule an inventory for early 2020. The city will thereafter perform annual inventories.

City of Bellerive Acres
Organization and Statistical Information

The City of Bellerive Acres is located in St. Louis County. It was incorporated as a village in 1939, and became a fourth-class city in 2015. The city employed 3 part-time employees on December 31, 2018.

City operations include trash services and street maintenance.

Mayor and Board of Aldermen

The city government consists of a mayor and 4-member board of aldermen. The members are elected for 2-year terms. The mayor is elected for a 2-year term, presides over the board of aldermen, and votes only in the case of a tie. The Mayor and Board of Aldermen, at December 31, 2018, are identified below. The Mayor and Board of Aldermen receive no compensation.

Clayton Klein, Mayor
Thomas Kiely, Alderman (1)
Katrina Thompson Moore, Alderwoman
William (Bill) McCrary, Alderman
Nancy Hartman, Alderwoman

(1) Replaced by Maureen Roach, who was elected in April 2019.

Other Principal Officials

The city contracts with the City of Normandy for police protection and services, municipal court services, and general clerical services. The city employed a City Administrator until his resignation, effective June 2018. The City Administrator for the City of Normandy now also serves as the City Administrator for the City of Bellerive Acres.

Financial Activity

The following page shows a summary of the city's unaudited financial activity, prepared using the city's financial reports, for the year ended December 31, 2018.

City of Bellerive Acres
Schedule of Receipts, Disbursements, and Changes in Cash Balances
Year Ended December 31, 2018

	General Fund (1)	Capital Improvement Fund	Road and Bridge Fund	Sewer Lateral Fund	Total
RECEIPTS

Missouri State Auditor

City of St. Louis

Local Taxing Districts

Report No. 2019-114

November 2019

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the City of St. Louis - Local Taxing Districts

Establishment and Evaluation of Local Taxing Districts	The City of St. Louis does not have a comprehensive economic development plan that provides a strategic approach for establishing and evaluating local taxing districts.
Community Improvement Districts	City officials allow Community Improvement Districts (CIDs) to form and operate without adequate public scrutiny to ensure these districts are in the best interest of the public. The city does not have procedures in place to ensure CIDs in the city provide annual budgets and annual performance reports as required by state law.
Transportation Development Districts	City officials do not scrutinize proposed Transportation Development District (TDD) projects to ensure the project is in the best interest of the public or if the cost of the project is a prudent use of taxpayer funds. The city has not appointed advisors to any of the TDD Board of Directors as required by state law.
Special Business Districts	The city did not establish any of the 21 current Special Business Districts in accordance with state law.

In the areas audited, the overall performance of this entity was **Poor**.*

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the Honorable Mayor
and
Executive Director, St. Louis Development Corporation
City of St. Louis, Missouri

We have audited certain operations of the City of St. Louis regarding the administration of local taxing districts in fulfillment of our duties under Section 29.200.3, RSMo. The State Auditor initiated audits of the City of St. Louis in response to a formal request from the Board of Aldermen. The city engaged KPMG LLP, Certified Public Accountants (CPAs), to audit the city's financial statements for the year ended June 30, 2018. To minimize duplication of effort, we reviewed the report and the CPA firm's audit report. The scope of our audit included, but was not necessarily limited to, the year ended June 30, 2018. The objectives of our audit were to:

1. Evaluate the city's internal controls over significant management and financial functions related to local taxing districts.

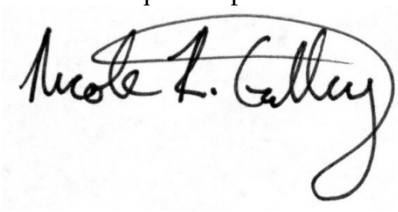
2. Evaluate the city's compliance with certain legal provisions related to local taxing districts.

3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions related to local taxing districts.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the administration of local taxing districts by the City of St. Louis.

Additional audits of various officials and departments of the City of St. Louis are still in process, and any additional findings and recommendations will be included in subsequent reports.



Nicole R. Galloway, CPA
State Auditor

The following auditors participated in the preparation of this report:

Director of Audits:	Robert E. Showers, CPA, CGAP
Audit Manager:	Wayne T. Kauffman, MBA, CPA, CFE, CGAP
In-Charge Auditor:	Matthew Schulenberg, CFE
Audit Staff:	Joseph T. Magoffin

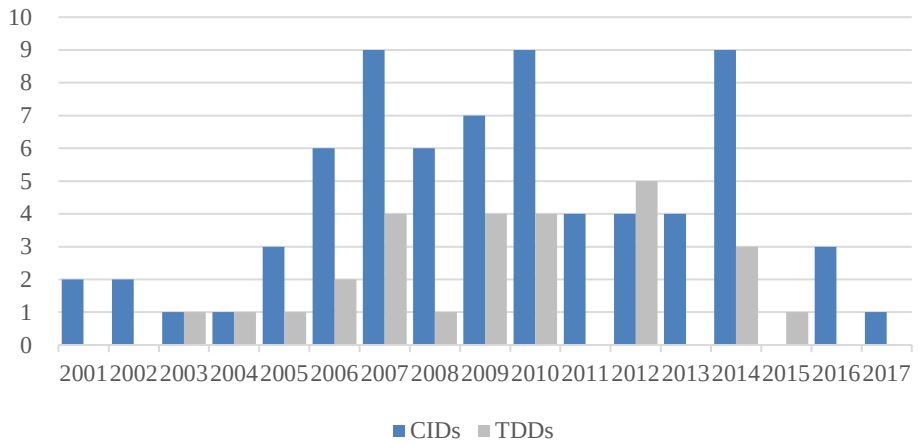
City of St. Louis - Local Taxing Districts
Introduction

Background

The City of St. Louis uses a variety of local taxing districts (LTDs) to help provide public improvements and services to specific communities within the city. These LTDs include community improvement districts (CIDs), transportation development districts (TDDs), and special business districts (SBDs).

Figure 1 shows the total number of CIDs formed in the city each calendar year from 2001 through 2017 and TDDs formed in the city each calendar year from 2003 through 2015 based on information provided by the city.

Figure 1: Number of CIDs and TDDs formed by calendar year



Source: Prepared by the State Auditor's Office (SAO) using data from the City Register.

Community Improvement Districts

The CID Act was established in 1998 and allows for the formation of CIDs under Sections 67.1401 to 67.1571, RSMo. CIDs are separate legal entities, either a political subdivision or a not-for-profit corporation. They are established to pay for either public improvements, or private projects if the area is declared blighted. The projects are funded by these districts through a sales and use tax, special assessment, or real property tax imposed by the district. As of June 30, 2018, city records indicate 86 CIDs existed in the city.

Formation

The process of forming a CID is initiated by the property owner/developer submitting a petition to the city requesting formation. The city is then responsible for determining if the petition complies with the legal requirements and must hold a public hearing before the city can adopt an ordinance approving the petition and establishing the district.

Funding methods

While various funding methods are allowed by law, 79 percent of CIDs formed in the city that responded to our questionnaire during a statewide CID audit[1] are funded with sales taxes imposed on taxable retail sales within the

[1] SAO, *Community Improvement Districts*, report number 2018-056, issued August 2018.

district boundaries. Special assessments are the funding method used by approximately 21 percent of the CIDs within the city that responded to our survey.

Municipality involvement

The city is required to:

- Receive the petition requesting formation, ensure the petition contains all the elements required by law, hold a public hearing regarding the proposed district, and if desired, establish the district via an ordinance.[2]
- Perform required tasks outlined in the petition requesting formation, such as appoint board members.

For additional information on CIDs, see Report No. 2018-056, issued August 2018.

Transportation Development Districts

The TDD Act was established in 1990 and allows for the formation of TDDs under Section 238.200 through 238.280, RSMo. TDDs are separate political subdivisions established and organized for construction, operating, and/or maintaining of transportation-related projects. The projects are funded by sales and use tax, special assessment, or real property tax imposed by the district. As of June 30, 2018, city records indicate 31 TDDs existed in the city.

Formation

The process of establishing a TDD is initiated by the filing of a petition in the circuit court of the city. The circuit court subsequently hears the case and makes a decision whether to authorize the establishment of the district.

Funding methods

While various funding methods are allowed by law, 100 percent of TDDs formed in the city that responded to our questionnaire during a statewide TDD audit[3] are funded with sales taxes imposed on taxable retail sales within the district boundaries.

Municipality involvement

In instances where the TDD's project is not intended to be merged into the state highways and transportation system, the Local Transportation Authority (LTA), in this case, the city, is required to:

- Appoint one or more advisors to the board of directors.[4]
- Approve the project prior to the construction or funding of the project.[5]

[2] Section 67.1421, RSMo.
[3] SAO, *Transportation Development Districts*, report number 2017-020, issued April 2017.
[4] Section 238.220.5, RSMo.
[5] Section 238.225, RSMo.

- Approve any modifications to the project.[6]
- Enter into an agreement with the TDD regarding development and future maintenance of the project.[7]

For additional information of TDDs, see Report No. 2017-020, issued April 2017.

Special Business Districts

SBDs are authorized under Section 71.790 through 71.808, RSMo. SBDs may impose additional property taxes and business licenses to fund certain public improvement and services within the district. As of June 30, 2018, city records indicate 21 SBDs existed in the city.

Formation

The process of forming an SBD is initiated by the city conducting a survey and investigation to determine the nature and location of the improvements as well as other factors. Then, a petition is filed by the property owners requesting formation and the city may establish the district via an ordinance.

Funding methods

SBDs are allowed to impose a property tax and a business license tax within the district.

Municipality involvement

The city is required to:

- Perform the survey and investigation and file the report in the City Clerk's office, which is available for public inspection.[8]
- Form the district via ordinance.[9]
- Appoint an advisory board or commission to make recommendations as to how the revenue of the SBD will be used.[10]

[9] Section 71.794(4), RSMo.
[10] Section 71.798, RSMo.

Scope and Methodology

The scope of our audit included, but was not limited to, the year ended June 30, 2018.

Our methodology included gathering information regarding LTDs through discussions with various officials of the city and the St. Louis Development Corporation (SLDC)[11] and reviewing information maintained by these entities. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We reviewed the petition and formation documents for selected CIDs. We discussed the city's oversight of LTDs with city officials. We also reviewed information maintained by the Department of Revenue and Department of Economic Development regarding sales tax collections and compliance with reporting requirements. We performed site visits to selected LTDs to review the project.

In addition, the SAO issued statewide audits of CIDs[12] and TDDs[13] in 2017 and 2018. As a part of these audits, the SAO sent questionnaires to districts using contact information provided by or obtained from the Department of Economic Development, Department of Revenue, Missouri Department of Transportation, and the various districts. The surveys requested information, including the board composition, the number of years the district can exist, the nature of the district project, the types of revenues (taxes, assessments, or user fees), if the district is associated with other economic incentives, and if the district is located in a blighted area.

We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

[11] The St. Louis Development Corporation acts as the economic development arm for the city of St. Louis and works to foster economic growth within the city by encouraging private investment in both city real estate and business development.

[12] SAO, *Community Improvement Districts*, report number 2018-056, issued August 2018.

[13] SAO, *Transportation Development Districts*, report number 2017-020, issued April 2017.

The SAO also performed individual audits of the 1225 Washington TDD[14] in 2015, the Washington Avenue TDD[15] in 2014, and the St. Louis Convention Center Hotel TDD[16] in 2012.

[14] SAO, *1225 Washington Avenue Transportation Development District*, report number 2015-062, issued August 2015.

[15] SAO, *Washington Avenue Transportation Development District*, report number 2014-098, issued October 2014.

[16] SAO, *St. Louis Convention Center Hotel Transportation Development District*, report number 2012-143, issued November 2012.

City of St. Louis - Local Taxing Districts
Management Advisory Report
State Auditor's Findings

1. Establishment and Evaluation of Local Taxing Districts

The City of St. Louis does not have a comprehensive economic development plan that provides a strategic approach for establishing and evaluating local taxing districts. As a result, the city does not consider if the proposed district, corresponding project, and the resulting taxation of the public is in the best interests of the city and the public.

The city establishes Community Improvement Districts (CIDs) and Special Business Districts (SBDs) and approves Transportation Development District (TDDs) projects without a comprehensive economic development plan to aid in decision making by local leaders. City officials do not have any guidance or criteria to use when evaluating the merits of a proposed district. As a result, they perform a cursory review of the proposed district, mostly to ensure the legal requirements are met, conduct public meetings as required by state law, and then approve the district. No critical evaluation of the merits are considered when determining if the proposed district, and corresponding project and taxation of the public, is in the best interests of the city and the public. This has resulted in developers establishing local taxing districts (LTDs) where the purpose of the district is not well defined, where it is questionable if the project is in the best interests of the public, and where multiple economic incentives and LTDs are approved for the same area. These LTDs overlap each other, resulting in the public paying significantly higher sales tax rates, while allowing the developer to also benefit from the use of Tax Increment Financing (TIF) and Tax Abatement (TA). For the purposes of this report, these districts will be referred to as layered incentive districts (LID).

During 2017 and 2018, the city implemented a new financial model used to evaluate the financial feasibility of TIFs and large TAs. [17] LTDs are included in this analysis if the developer seeking the TIF or large TA notifies the SLDC of their intent to also use an LTD. This method of evaluating LTDs is insufficient for the following reasons:

- The merits of the LTD(s) are not considered. Instead, the LTDs are only evaluated to determine the extent of potential cash flows to the developer. No consideration is performed to determine if the LTD is structured in a way that provides adequate protection to the public or if the LTD and the proposed LTD project are in the best interest of the City and the public.

- The only LTDs included in this financial model are the LTDs the developer is combining with a TIF and/or a large TA and if the same developer discloses the LTD information to the SLDC for analysis. There is no requirement for all proposed LTDs to be evaluated. As a result, 0 of

[17] A Tax Abatement is considered large if the project is greater than $1 million.

the 138 LTDs that existed in the city as of June 30, 2018 have been included in a financial analysis.

Layering of taxing districts

We identified 25 LIDs where two LTDs overlap, resulting in an additional 2 percent sales tax in these areas. The majority of these LIDs include a TIF, which redirects incremental sales and property taxes to the developer, or TA, which allows the property owner/developer to not pay additional property taxes as the value of the property increases as a result of the development. The 25 LIDs identified contain 25 TDDs, 24 CIDs, 16 TIFs, and 3 TAs. During the year ended June 30, 2018, the LTDs located in these LIDs collected approximately $5.5 million in sales taxes. The sales tax rate charged in these 25 LIDs is the highest in the state at 11.679 percent. City officials stated combining LTDs with a TIF results in the TIF debt being repaid sooner and by the taxpayers that are the 'users' of the project. However, city taxpayers are already subject to the highest sales tax rates in the state, and the city does not evaluate if the use of these tax dollars are in the best interest of the public.

See Appendix A for the listing of these 25 LIDs and the dollar amount of associated LTD sales tax revenue during the fiscal year ended June 30, 2018.

Designing and implementing an economic development plan could provide guidance or limitations on the following:

- The goals the city is looking to achieve by allowing the LTDs to exist
- Any preferred LTD locations
- Any criteria for desired or undesired LTD projects
- Any preferred LTD funding methods
- Limitations on the life and the allowable debt of the LTD
- Limitations on the number and purpose of LTDs

A plan could also provide clear responsibilities and duties when it comes to evaluating and monitoring the LTDs to ensure the goals of both the city and district are being achieved.

While the city has an economic development plan in conjunction with the St. Louis Economic Development Partnership, city officials have indicated the plan does not include any guidance on the use of LTDs. By defining parameters in a comprehensive economic development plan for establishing and issuing LTDs, the city and the Board of Aldermen will be able to provide more assurance the districts created are in the best interest of the public.

MAR finding numbers 2, 3 and 4 contain recommendations specific to the city's handling of CIDs, TDDs and SBDs.

Recommendation

The City of St. Louis establish a comprehensive economic development plan that defines parameters for establishing and approving local taxing districts. In addition, the comprehensive economic development plan should establish thresholds on the number of districts approved and the amount of taxes to be collected.

Auditee's Response

The city provided a written response. See Appendix B.

Auditor's Comment

The city's response references the use of a financial analysis model to evaluate the need for LTDs. Our review found that as of June 30, 2018, no active LTDs were processed through the analysis model referenced. Based on discussions with city personnel, any current or future LTDs processed through that model will be analyzed, however the extent of that analysis is to determine if LTD revenues are necessary for the viability of the project under analysis. No evaluation of the merits of the LTD, or evaluation of whether the LTD is structured in such a way to protect taxpayers, is included. Our recommendation is intended to ensure the city has guidelines established regarding when such LTDs are appropriate, to ensure criteria are established related to the structure and governance of any LTDs or projects approved, and to provide the Board of Alderman and the public additional assurance any LTDs and their projects are in the best interest of the taxpayer.

2. Community Improvement Districts

City officials allow CIDs to form and operate without adequate public scrutiny to ensure these districts are in the best interest of the public. They also do not monitor these districts after formation to ensure they operate in the best interest of the public. In addition, the city does not have procedures in place to hold the CIDs accountable when they fail to comply with state reporting requirements. As of June 30, 2018, there were 86 CIDs within the city according to the City Register. Annual revenues for these CIDs are approximately $10 million.

2.1 Minimal public scrutiny when districts are formed

City officials do not perform adequate public scrutiny of the CIDs before allowing them to form and tax the public. A petition requesting the formation of a CID is required to be filed with the City Registrar, with state law[18] requiring the petition to contain certain elements.[19] The city is then required to hold a public hearing and then may adopt an ordinance to establish the

[18] Section 67.1421.2(3), RSMo.

[19] Certain required elements include the legal description of the district, a 5-year plan stating the purposes of the district as well as the services to be provided, improvements to be made, an estimate of the costs to be incurred the method of selecting the board, a statement as to whether the petitioners are seeking a blighted designation for the district, and the proposed length of time for the existence of the district.

CID.[20] The city has complied with all of these requirements. However, additional scrutiny of these petitions is necessary to protect public interests. When a petition to form a CID is received, representatives of the city stated a legal review is performed to ensure all the required elements are included in the petition. However, based on discussions with city officials and a review of city records, the city does not ensure the purpose of the district is well defined or that the board contains independent representation.

City does not require district purpose to be well defined

The city does not require district petition documents contain a well-defined purpose. While state law requires the petition to state the general purpose of the district, the estimated costs to be incurred, and the proposed length of time the district will be in existence, district petition documents do not always specifically define the district project. As a result, the city has allowed districts to form with vague purposes.

Our review of the petition documents for 18 CIDs that are included in the LIDs discussed in MAR finding number 1 determined none of the 18 had a well-defined purpose. For example, 13 of the petitions reviewed included the following language specifically or with minor changes:

> *The contemplated improvements and services consist of any of the improvements and services authorized under the Act*[21] *including, without limitation…*

Of the remaining 5 districts, 2 used this language except the district was not authorized to acquire property by condemnation.

Requiring the CID petition to better define the purpose of the district would provide better information to city officials when evaluating the merits of the district and would help protect the public interest by ensuring CID revenues are only used for intended purposes.

Boards are not required to include anyone independent

The city does not require anyone independent of the developer/property owner(s) to be on the board of directors if no registered voters reside within the district (i.e. the CID is created for retail development). While state law allows the city to dictate the make-up of the board before formation of the district, the city does not require independent representation prior to approving the petition. As a result, many of the district boards do not include anyone independent of the developer/property owner. During a statewide CID

[20] Section 67.1421.4, RSMo.

[21] The CID Act - Sections 67.1401 through 67.1571, RSMo.

audit, [22] we determined the following from the St. Louis established CIDs that responded to our questionnaire: [23]

- The property owner/developer has a controlling interest (greater than 50 percent) on the board of 51 of the 53 CIDs, or 96 percent, that have appointed a board.
- There is no one independent of the property owner/developer on the board of 42 of the 53 CIDs, or 79 percent that have appointed a board.

Approving CIDs without adequate scrutiny results in CIDs that lack independent representation, projects that are not well defined and projects that overlap with other incentives creating additional LIDs in the city. Our statewide audit of CIDs illustrates the weaknesses in CID state law and recommended municipalities perform a more critical review of district petition documents to ensure the interests of the public are considered. While state law does not require CIDs be structured in such a way to ensure public representation on the board or require the project to be well defined, doing so provides greater protection to the public.

Districts can be established to pay TIF liabilities

A review of established CIDs identified districts created with the sole purpose of paying down tax increment financing (TIF) liabilities, thereby ensuring the developer is repaid for TIF reimbursable costs sooner than otherwise would occur. The questionnaires completed from the statewide audit of CIDs indicate 30 of the responding 55 CIDs (55 percent) are part of a TIF. These arrangements can involve most CID revenues going toward the TIF, instead of only 50 percent like other economic activity taxes. State law already includes funding mechanisms for developers to be reimbursed for TIF projects but developers/property owner(s) are establishing CIDs to provide additional funding for TIF projects. City officials stated the financial involvement of an LTD as part of the financial structure of a project is viewed as a positive since it generates additional revenue, and results in the user of the particular project helping to pay for the development.

It is not clear if state law intended the formation of CIDs for this purpose, and while a CID used to pay TIF debt is clearly in the best interest of the developer, it is not clear whether such a district is in the best interest of the public paying the additional tax.

2.2 Lack of transparency

The city does not have procedures in place to ensure CIDs in the city provide annual budgets and annual performance reports as required by state law.

[22] SAO, *Community Improvement Districts*, report number 2018-056, issued in August 2018.
[23] We sent a questionnaire to all identified CIDs requesting various information, including the composition of the board of directors. Not all CIDs responded to our request for information.

Budgets

We determined 85 of 86 of the CIDs reviewed (99 percent) did not submit a proposed annual budget for fiscal year 2018 to the city within the statutory required time frame. One district submitted a budget, but city records did not indicate when it was received. Of the 85 districts, 71 (83 percent) did not submit budgets and 14 submitted their budgets after the statutory required timeframe. These 14 districts submitted their budgets between 165 and 544 days (average of 261 days) after the statutory deadline.

State law[24] requires that no earlier than 180 days and no later than 90 days prior to the first day of each fiscal year, each CID's Board of Directors shall submit to the governing body of the municipality a proposed annual budget, setting forth expected expenditures, revenues, and rates of assessment and taxes, if any, for such fiscal year.

Annual performance reports

We determined 56 of 86 (65 percent) of the CIDs reviewed did not submit the annual performance report for fiscal year 2018 to the city within the statutory required time frame. Of these 56 districts, 55 did not submit reports and 1 submitted the report after the statutory required timeframe.

State law[25] requires that within 120 days after the end of each fiscal year, each CID's Board of Directors shall submit to the governing body of the municipality an annual performance report, stating the services provided, revenues collected and expenditures made by the district during such fiscal year, and copies of written resolutions approved by the board during the fiscal year.

Conclusion

Compliance with reporting requirements is necessary for public transparency. While state law does not require the city to actively enforce the above reporting requirements, it is in the best interests of the city and the taxpayers to ensure compliance.

Recommendations

The City of St. Louis:

2.1 Establish procedures to perform and document an evaluation of CID petitions to ensure a potential district is in the best interest of the public before adopting an ordinance establishing the district. Also, ensure the CID is structured in a way that provides independent oversight of CID activities.

2.2 Establish procedures to ensure CIDs are submitting annual budgets and annual performance reports to the city within the timeframe required by state law.

[24] Section 67.1471.2, RSMo.
[25] Section 67.1471.4, RSMo.

Auditee's Response

The city provided written responses. See Appendix B.

Auditor's Comment

The city's response states, correctly, that the city is in compliance with state law when approving CID petitions. Our finding does not cite noncompliance, but rather the need for more effective oversight and scrutiny to protect taxpayers. The city also implies that some level of scrutiny is applied by the public or the voters, however, based on survey responses in our statewide audit[26] of CIDs, 26 of the 42 CIDS (62 percent) in the city were created and voted on not by the public, but by the property owners that benefit from them.

3. Transportation Development Districts

City officials do not review proposed TDD projects to ensure the project is in the best interest of the public. Additionally, they do not monitor TDDs to ensure the TDDs complete the projects as approved by the city. As of June 30, 2018, there were 31 TDDs within the city limits, according to city records. During the year ending June 30, 2018, these TDDs received approximately $3.8 million in sales taxes.[27]

3.1 Minimal public scrutiny when projects approved results in public money for private assets

City officials do not scrutinize proposed TDD projects to ensure the project is in the best interest of the public or if the cost of the project is a prudent use of taxpayer funds. This weakness has allowed developers and property owners to use public money to pay for private assets. For example, our TDD audit report[28] discussed projects that involved parking lots that had already been constructed that did not appear to benefit the public.

Adequately scrutinizing proposed TDD projects will help ensure the project is in the best interests of the city and the public.

3.2 No oversight of district boards

The city has not appointed advisors to any of the TDD Board of Directors as required by state law. During a statewide TDD audit,[27] we determined the following from the St. Louis established TDDs that responded to our questionnaire:[29]

- The property owner/developer has a controlling interest (greater than 50 percent) on the board of 11 of the 12 responding TDDs, or 92 percent.
- There is no one independent of the property owner/developer on the board of 10 of the 12 responding TDDs, or 83 percent.

[26] SAO, *Community Improvement Districts*, report number 2018-056, issued in August 2018.

[27] Sales taxes are imposed and collected by the TDDs that have imposed a sales tax. These monies are the sent to the Missouri Department of Revenue (DOR). The DOR retains a collections fee and then remits the remaining collections to the respective TDDs.

[28] SAO, *Transportation Development Districts*, report number 2017-020, issued April 2017.

[29] We sent a questionnaire to all identified TDDs requesting various information, including the composition of the board of directors. Not all TDDs responded to our request for information.

We identified one instance where the TDD modified the project without obtaining approval from the city, which could have been detected had the city appointed advisors to the Board. The Washington Avenue TDD project was to provide public parking in the city by leasing a parking lot and making it available to the public (using the method described in section 3.1 by using public money to pay for private assets). However, the property owners do not allow the public access to the parking lot but instead only lease the spaces to tenants of their loft apartment building. The Washington Avenue TDD still imposes the sales tax on the public but provides no benefit to the public. This issue was communicated to city officials in October 2014[30] and they have taken no action to address the problem.

According to a city official, state law does not require the city to perform oversight of TDDs, including tracking and monitoring. As a result, city officials do not perform any tracking or oversight of TDDs. However, state law[31] requires the city to appoint one or more advisors to the board of directors if the TDD project is not going to be merged with the state highway system. These advisors have the authority to participate in all board meetings and discussions, whether open or closed, and have access to all records of the district and its board of directors. Given the large percentage of TDD board of directors that do not have anyone independent of the property owner/developer on the board, appointing advisors independent of the property owner/developer would provide assurance the TDD board of directors make decisions that benefit the public. City officials said this requirement is an unfunded mandate from the state and expressed concern about finding individuals to serve in this capacity. However, it is in the taxpayers' best interests to have some form of public representation on these public entity boards.

Recommendations

The City of St. Louis:

3.1 Establish procedures to perform an evaluation of proposed TDD projects and document their results to ensure the project is in the best interest of the public and the cost of the project is a prudent use of taxpayer funds before approval.

3.2 Establish procedures to ensure advisors are appointed to the TDD Board of Directors in accordance with state law.

Auditee's Response

The city provided written responses. See Appendix B.

[30] Washington Avenue Transportation Development District, report number 2014-098, released in October 2014.
[31] Section 238.220.5, RSMo.

Auditor's Comment

The city's response suggests the State Auditor's Office (SAO) is required by state law to provide oversight of TDDs. Section 238.272, RSMo, provides the SAO the discretion to audit TDDs if necessary and has done audits of TDDs including a review of the oversight of TDDs in the City of St. Louis. The City of St. Louis is the transportation authority with project approval responsibilities for TDDs within its city limits, and is the most appropriate entity to provide the oversight recommended.

4. Special Business Districts

The city did not establish any of the 21 current SBDs in accordance with state law. We determined the city did not perform a survey and investigation report for all of these SBDs as required by law, resulting in a general lack of transparency between the city, the district, and the public.

Prior to establishing an SBD, state law[32] requires the governing body of the municipality to conduct a survey and investigation. In addition, this survey and investigation is required to be written in a report, filed with the City Register, and made available for public inspection. City officials could not provide any explanation for why these documents were not required or on file.

Recommendation

The City of St. Louis establish procedures to ensure survey and investigation reports are prepared for all SBDs, filed with the City Register, and made available to the public.

Auditee's Response

The city provided a written response. See Appendix B.

Auditor's Comment

The city's response makes reference to the existence of required survey and investigation documents. During audit fieldwork and as of the report exit conference, city officials provided us no evidence of the existence of these documents.

[32] Section 71.792, RSMo, requires the survey and investigation "for the purposes of determining the nature of and suitable location for business district improvements, the approximate cost of acquiring and improving the land therefor, the area to be included in the business district or districts, the need for and cost of special services, and cooperative promotion activities, and the percentage of the cost of acquisition, special services, and improvements in the business district which are to be assessed against the property within the business district and that part of the cost, if any, to be paid by public funds."

Overall Conclusion

LTDs are development tools established by state law intended to help encourage development at the local level. State law also leaves oversight primarily up to local officials, including approval of CID and SBD petitions and approval of TDD projects, and the ability to participate in the governance of these districts. State law also requires various documents and reports to ensure transparency and aid in local oversight. The city has not used the tools provided by state law to provide any meaningful oversight of LTDs, and has made no coordinated effort to strategically evaluate LTD petitions and projects. By taking action to be more critical of LTD petitions and projects, and by taking a more active role in providing oversight of LTDs, the city can help ensure the tax dollars that go toward these districts are used in the most effective manner possible and in the best interest of taxpayers.

Appendix A
City of St. Louis - Local Taxing Districts
Layered Incentive Developments

	TDD	CID	Additional LTD Sales Tax Rate	Sales Tax Revenue, June 30, 2018	TIF	Tax Abatement
1	1225 Washington	1225 Washington	2 percent	$ 140,673	Yes	No
2	1831/2000 Sidney St	1831/2000 Sidney St	2 percent	***	No	Yes
3	2118 Chouteau	2017 Chouteau	2 percent	***	No	No

Re: City of St. Louis Response to State Auditor's Findings Regarding Local Taxing Districts

Dear Auditor Galloway:

The City of St. Louis sincerely thanks you and your staff for the time invested in preparing your report relating to the creation and operation of local taxing districts in the City of St. Louis. Although Community Improvement Districts (CID), Transportation Development Districts (TDD) and Special Business Districts (SBD) are all separate political subdivisions apart from the City, the City has a significant interest in ensuring that these districts are created and operated in an appropriate manner. Whenever it participates in the creation of a local taxing district, the City must consider the public's best interest and be responsive to the property owners and voters that petition or vote for the creation of these districts and the right to impose additional taxes or assessments upon themselves.

The City has reviewed the State Auditor's findings. Several of these findings are policy proposals that the City does not necessarily disagree with, but that require state legislation to implement effectively. Additionally, the City has identified several instances where the State Auditor's findings are inaccurate or as to which the City has a different opinion regarding best practices or policies. The City's responses to the State Auditor's findings are set forth below:

1. Establishment and Issuance of Local Taxing Districts

Auditor Finding: **The City of St. Louis does not have a comprehensive economic development plan that provides a strategic approach for establishing and evaluating local taxing districts. As a result, the city does not consider if the proposed district, corresponding project, and the resulting taxation of the public is in the best interests of the city and the public.**

City's Response: The plan described by the State Auditor is not required by state statute. Nonetheless, the City is currently in the process of formulating its Equitable Economic Development Strategy plan and will consider the State Auditor's findings as this plan is finalized. This plan is expected to be completed by January, 2020.

Auditor Finding: **[T]he city does not consider if the proposed district, corresponding project, and the resulting taxation of the public is in the best interests of the city and the public.**

The city establishes Community Improvement Districts (CIDs) and Special Business Districts (SBDs) and approves Transportation Development District (TDDs) projects without a comprehensive economic development plan to aid in decision making by local leaders. City officials do not have any guidance or criteria to use when evaluating the merits of a proposed district. As a result, they perform a cursory review of the proposed district, mostly to ensure the legal requirements are met, and then approve the district. No consideration is given to determine if the proposed district, and corresponding project and taxation of the public, is in the best interests of the city and the public.

City's Response: The State Auditor's conclusion that the City does not consider if the proposed district, corresponding project and the resulting taxation of the public are in the best interests of the City and the public is incorrect. The State Auditor alleges that the City performs only a cursory review of the proposed districts to determine legal compliance, which is also incorrect. These false conclusions (1) do not take into account the economic and political differences among various local taxing districts and their corresponding projects, (2) significantly undervalue the economic modeling analysis performed by the St. Louis Development Corporation (SLDC), and (3) ignore the role of the public, the affected residents and property owners, and the City's elected Board of Aldermen in planning for and implementing local taxing districts.

Local taxing districts can be divided into "neighborhood level" and "site-specific" districts. Approval of legislation to create a neighborhood level district, such as a CID or SBD that encompasses an entire business district or several blocks, is the culmination of many months or even years of community planning and outreach. In contrast, site-specific CIDs and TDDs are usually associated with a single redevelopment project, that may have also undergone months or years of planning.

When legislation is finally introduced to create the neighborhood level district, the policy and political calculations have already been thoroughly analyzed by a critical mass of the affected residents and businesses and the sponsoring alderman. In these cases, City staff's role at the time legislation is being considered is largely to ensure legal compliance because the policy and political issues have been thoroughly vetted and resolved.

Site-specific CIDs and TDDs rarely exist without accompanying TIF or tax abatement for such projects. SLDC and City staff review proposed site-specific districts in connection with the other incentives because funding available from a district may be integral to the financial feasibility of the project or may reduce the need for TIF or tax abatement. SLDC has developed a detailed economic model to analyze requests to create local taxing districts in connection with other economic development incentives for projects over $1,000,000 (projects under $1,000,000 are unlikely to involve local taxing districts because of the costs of

forming and operating such districts). This model takes into account both the need for an incentive and estimated tax revenues expected to be available to the City and other taxing districts as a result of the project. If the project does produce the sufficient tax revenues, net of any incentives, in comparison to similar properties and in consideration of what is needed to adequately fund government services, the project and associated request to form a local taxing district will not be recommended.

The State Auditor concludes that merits of local taxing districts are not adequately taken into account as part of SLDC's analysis. The City disagrees. As noted above, the merits of a neighborhood level district are best evaluated as part of the community planning and outreach that occur prior to the introduction of legislation to create the district. The merits of a site-specific district cannot be evaluated in a vacuum; the City must evaluate whether the accompanying redevelopment project is in the best interests of the City. The SLDC analysis takes into consideration whether the requested incentive amount is necessary for the proposed project to be completed and whether the proposed project will, net of any tax incentives, generate sufficient taxes relative to what similar properties generate and what is needed by the City to fund governmental services.

Additionally, other aspects of the project may be reviewed by the City's Planning Commission and Preservation Board. If TIF is involved, the City's TIF Commission will also review the project. Due to the timing of when a developer actually closes on the purchase of property, a petition to create a site-specific CID or TDD may come months after TIF, tax abatement and zoning approvals. Without the context of these prior project approvals, the approval of a local taxing district may seem cursory, but, in reality, would be another step in a series of related project analysis and approvals, many of which occurred many months prior to the approval of the related local taxing district.

Finally, the City notes that it has 28 elected aldermen. In almost all cases, an alderman for a specific ward introduces the legislation for the creation of local taxing districts in his or her ward. Aldermen are routinely involved in the planning process of local taxing districts, either through participation in neighborhood groups or through consultations with developers wishing to undertake projects in an alderman's ward. If the alderman believes that a local taxing district is appropriate, it is then up to that alderman to convince a majority of his or her counterparts to approve the legislation. The ultimate determination of whether a thorough analysis of a proposed local taxing district has occurred is part of the sponsoring alderman's decision to introduce legislation and the other aldermen's decision to vote in favor or against the legislation.

Auditor's Finding: **This has resulted in developers establishing local taxing districts (LTDs) where the purpose of the district is not well defined, where it is questionable if the project is in the best interests of the public, and where multiple economic incentives and LTDs are approved on the same area. These LTDs overlap each other, resulting in the public paying significantly higher sales tax rates, while allowing the developer to also benefit from the use of Tax Increment Financing (TIF) and Tax Abatement (TA). For the purposes of this report, these districts will be referred to as layered incentive districts (LID).**

We identified 25 LIDs where two LTDs overlap, resulting in an additional 2 percent sales tax in these areas. The majority of these LIDs include a TIF, which redirects incremental sales and property taxes to the developer, or TA, which allows the property owner/developer to not pay additional property taxes as the value of the property increases as a result of the development.

City's Response: State law permits overlapping local taxing districts. Additionally, the use of overlapping districts on large development projects can reduce the need for TIF and tax abatement that burden city-wide taxing districts. Essentially, for a project that warrants assistance, the City and the proponent of the project must often determine whether it is better to place a heavier burden on the ultimate users of the project (through local taxing district sales taxes or assessments) or the City, the school district and other city-wide taxing districts (through more generous tax increment financing and tax abatement incentives).

The State Auditor's findings also criticize applying funds from taxing districts to TIF obligations. Not only does state law permit applying funds from local taxing districts to the payment of TIF obligations, it can speed up the repayment of those obligations (which allows for the termination of TIF at an earlier date – a significant benefit to the school district and other taxing districts).

Auditor's Recommendation:

We recommend the Board of Aldermen establish a comprehensive economic development plan that defines parameters for establishing and approving local taxing districts. In addition, the comprehensive economic development plan should establish thresholds on the number of districts approved and the amount of taxes to be collected.

City's Response: See discussion above.

2. Community Improvement Districts

2.1 Minimal public scrutiny when districts are formed

Auditor's Finding: **City officials allow CIDs to form and operate without adequate public scrutiny to ensure these districts are in the best interest of the public.**

The city does not perform adequate public scrutiny of the CIDs before allowing the CIDs to form and tax the public.

City's Response: The City complies with all requirements of the Community Improvement District Act, Sections 67.1401 to 67.1571, RSMo. (the "CID Act") regarding the formation of community improvement districts. As noted above, "neighborhood level" districts are often the culmination of years of community planning and outreach and "site specific" districts receive a comprehensive evaluation in concert with their accompanying development or redevelopment project.

Auditor's Finding: **[T]he city does not have procedures in place to hold the CIDs accountable when they fail to comply with state reporting requirements.**

City's Response: The CID Act does not provide an enforcement mechanism or a penalty if a CID fails to file budgets or annual reports with the City in a timely manner. State legislation to amend the CID Act to include an enforcement mechanism or penalty should be considered.

Auditor's Finding: **The city does not require district petition documents contain a well-defined purpose. While state law requires the petition to state the general purpose of the district, the estimated costs to be incurred, and the proposed length of time the district will be in existence, district petition documents do not always specifically define the district project. As a result, the city has allowed districts to form with vague purposes.**

City's Response: The State Auditor's findings conclude that the project descriptions in many of the petitions for the creation of community improvement districts were not well-defined. These project descriptions are almost always drafted by the proponents of the district and the City's review of a petition upon submission to the City ensures that all project descriptions meet the requirements of the CID Act.

Moreover, the City believes that many of these project descriptions are not vague when placed in the context of the larger project. Prior to legislation concerning the creation of a community improvement district, the Board of Aldermen will often have already considered legislation concerning TIF, tax abatement and zoning and will be well-informed about the overall project. Redevelopment agreements or cooperation agreements entered into in connection with overall project may have contractually limited the scope of the district project.

The City also believes that some districts, by their very design, are intended to exercise a wide array of powers under the CID Act and, accordingly, broad project descriptions have been purposefully included in the petition to create the district. Ultimately, these project descriptions are validated by the property owners signing the petition to create the district and the qualified voters approving the taxes and assessments for the district.

Auditor's Finding: **The city does not require anyone independent of the developer/property owner(s) to be on the board of directors if no registered voters reside within the district. While state law allows the city to dictate the make-up of the board before formation of the district, the city does not require independent representation prior to approving the petition. As a result, many of the district boards do not include anyone independent of the developer/property owner.**

City's Response: Under the CID Act, a member of the board of directors of a district must generally be the authorized representative of property owner or business owner within the community improvement district. The State Auditor suggests that these boards have "independent representation." It is not clear who would provide this independent representation. However, the City believes that, with respect to some districts, it is in the City's best interest to negotiate for the contractual right to have a property owner or business owner authorize a City

designee to serve on the board of directors. The City will continue to evaluate which proposed districts warrant this heightened level of public oversight. The City notes that this level of oversight (1) goes beyond the requirements of the CID Act and (2) due to limited City resources, is not practical for all districts.

The City further notes that, with respect to community improvement districts created in connection with TIF or tax abatement, redevelopment agreement terms will often provide limits on the duration or governance of the district. Enforceable contractual control over a developer or district can provide more effective oversight than designating one member of five-member board.

2.2 Lack of transparency

Auditor's Finding: **The city does not have procedures in place to ensure CIDs in the city provide annual budgets and annual performance reports as required by state law.**

City's Response: Under the CID Act, community improvement districts are separate political divisions or nonprofit corporations and are distinct, legal entities that are not part of the City. The CID Act does not provide the City with an enforcement mechanism to ensure each community improvement district within its boundaries submits a copy of its budget to the City within the timeframe required by the CID Act. Compliance is the responsibility of the community improvement district which is a separate and distinct political subdivision established under state law.

From time to time, the City Registrar, the Clerk of the Board of Aldermen and SLDC have received budgets from community improvement districts. The City will endeavor to create a central repository for these filings so that receipt can be more easily tracked.

Auditor's Recommendation:

We recommend the City of St. Louis:

2.1 Establish procedures to perform and document an evaluation of CID petitions to ensure a potential district is in the best interest of the public before adopting an ordinance establishing the district. Also, ensure the CID is structured in a way that provides independent oversight of CID activities.

2.2 Establish procedures to ensure CIDs are submitting annual budgets and annual performance reports to the city within the timeframe required by state law.

City's Response: See discussion above.

3. Transportation Development Districts

3.1 Minimal public scrutiny when projects approved results in public money for private assets

Auditor's Finding: **City officials do not review proposed TDD projects to ensure the project is in the best interest of the public. Additionally, they do not monitor TDDs to ensure the TDDs complete the projects as approved by the city.**

City officials do not scrutinize proposed TDD projects to ensure the project is in the best interest of the public or if the cost of the project is a prudent use of taxpayer funds.

City's Response: As permitted by the Missouri Transportation Development District Act, Sections 238.200 to 238.280, RSMo. (the "TDD Act"), almost all of the transportation development districts in the City have been created by a petition of the property owners within the proposed transportation development district filed with the Circuit Court. Although the City was served a copy of the petition filed in the Circuit Court, the City has limited control over the creation process. Under the TDD Act, transportation development districts are created as separate political subdivisions and are distinct, legal entities that are not part of the City. While the City believes it provides proper oversight of transportation development projects that affect public rights-of-way, the City understands the State Auditor's concerns regarding transportation development districts that do not affect public rights-of-way. The City has limited oversight abilities under the TDD Act and other law in connection with these projects, but will evaluate measures that can be taken with respect to future districts and projects.

The City further notes that state law specifically empowers the State Auditor to audit transportation development districts every three years. The City welcomes the State Auditor's statutorily-required oversight of the transportation development districts within its boundaries.

Auditor's Recommendation:

3.1 Establish procedures to perform an evaluation of proposed TDD projects and document their results to ensure the project is in the best interest of the public and the cost of the project is a prudent use of taxpayer funds before approval.

City's Response: See discussion above.

3.2 No oversight of district boards

Auditor's Finding: **The city has not appointed advisors to any of the TDD Board of Directors as required by state law.**

City's Response: As noted above, most of the transportation development districts in the City were created by petition of the property owners within those districts and, pursuant to the TDD Act, those property owners elect the board of directors for those transportation development districts. The TDD Act does permit the City to designate a person to serve as a non-voting advisor to the board of directors. However, for purposes of practical implementation, the provision of an advisor is dependent upon (1) the board of directors notifying the City of a meeting place and time in sufficient time for the City to identify the appropriate person to serve as advisor and (2) funding or other resources to allow the advisor, should he or she be an employee of the City, to advise the transportation development district in lieu of performing other job responsibilities. Even if an advisor did attend the

board of directors meeting, he or she, as a non-voting advisor, would still not have any authority to prevent or resolve the concerns raised by the State Auditor.

The City notes that, with respect to transportation development districts created in connection with TIF or tax abatement, redevelopment agreement terms will often provide limits on the duration or governance of the district. Enforceable contractual control over a developer or district can provide more effective oversight than appointing a non-voting advisor.

Auditor's Recommendation:

3.2 Establish procedures to ensure advisors are appointed to the TDD Board of Directors in accordance with state law.

City's Response: See discussion above.

4. Special Business Districts

Auditor's Recommendation:

The City did not establish any of the 21 current SBDs in accordance with state law. We determined that the city did not perform a survey and investigation report for all of these SBDs as required by law (resulting in a general lack of transparency between the city, the district, and the public).

City's Response: The State Auditor alleges that the surveys and investigations required by Section 71.792, RSMo. were not prepared in connection with the approval of the SBDs. This is an untrue statement. SBDs are only created after extensive community planning and outreach. The ordinances approving the creation of the SBDs recite that surveys and investigations were performed and filed with the City Register as required by law. Aldermen and attorneys that were involved in the creation of some of the more recently-created SBDs clearly remember those documents existing. A search of the City Register's files and the files of persons involved in the creation of the SBDs has produced some, but not all of the actual survey and investigation documents. The City believes that the survey and investigation documents that it cannot locate were sent to the City Register, but have been misfiled over the course of several decades. The City will review its record-keeping policies to ensure that these documents are properly retained for any newly-created SBDs.

Sincerely,

Linda M. Martinez
Deputy Mayor for Development

CITIZENS SUMMARY

Findings in the audit of the Forty-Fifth Judicial Circuit Lincoln County

Disbursements	Significant weaknesses exist in the controls and procedures over the disbursements of the Circuit Clerk's office. The former Circuit Clerk made purchases from the Interest Fund that were not in compliance with statutory restrictions and did not maintain supporting documentation for some Interest Fund disbursements. The current Circuit Clerk did not have adequate controls and procedures over municipal fine receipts and disbursements.
Accounting Controls and Procedures	We identified significant weaknesses with accounting controls and procedures. The former Circuit Clerk did not adequately segregate accounting duties or perform adequate independent and/or supervisory reviews of accounting and bank records. The former and current Circuit Clerks did not perform monthly bank reconciliations for all bank accounts maintained by the office and supervisory reviews of bank reconciliations performed by the former Circuit Clerk for the general bank account were not always documented. The Circuit Clerk's office has not performed procedures to routinely follow up on outstanding checks. The office's accounting clerks are allowed to void monetary transactions without independent review or approval and no independent or supervisory reviews are performed for fee adjustments in the Judicial Information System (JIS). Periodic reviews of user access to data and other information in the JIS are not performed to ensure access rights are commensurate with job responsibilities and remain appropriate. The former Circuit Clerk did not maintain passport fees and report passport fee expenditures in accordance with state law.
Non-Judiciary Email	The current Circuit Clerk did not comply with OSCA electronic security policies.

In the areas audited, the overall performance of this entity was **Fair**.*

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA
Missouri State Auditor

Presiding Judge and Court en Banc
and
Circuit Clerk of the
Forty-Fifth Judicial Circuit
Lincoln County, Missouri

We have audited certain operations of the Forty-Fifth Judicial Circuit, Lincoln County in fulfillment of our duties under Chapter 29, RSMo. Due to concerns regarding Interest Fund disbursements, the State Auditor initiated the audit. The scope of our audit included, but was not necessarily limited to, the 3 years ended December 31, 2018. The objectives of our audit were to:

1. Evaluate the court's internal controls over significant financial functions.

2. Evaluate the court's compliance with certain legal provisions.

3. Evaluate the court's compliance with certain court operating rules.

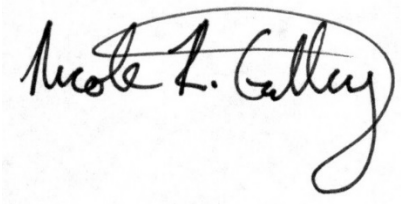
4. Determine if improper use of public resources occurred and, if so, quantify the amount to the extent possible.

Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the court, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the court's management, the Office of State Courts Administrator, and Lincoln County and was not subjected to the procedures applied in our audit of the court.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, (3) noncompliance with court operating rules, and (4) improper and/or unsupported disbursements totaling approximately $10,040. The accompanying Management Advisory Report presents our findings arising from our audit of the Forty-Fifth Judicial Circuit, Lincoln County.



Nicole R. Galloway, CPA
State Auditor

The following auditors participated in the preparation of this report:

Audit Manager:	Josh Allen, CPA, CFE, CGAP
In-Charge Auditor:	Emily Barraclough, CPA
Audit Staff:	Catherine Pence

Forty-Fifth Judicial Circuit
Lincoln County
Introduction

Background

The Circuit Clerk's office collects various fines, bonds, garnishments, court costs, and other fees for Lincoln County. Monies collected by the Lincoln County Circuit Clerk's office totaled approximately $2,057,500 during the year ended December 31, 2018.

Grace Sinclair was elected Lincoln County Circuit Clerk in November 2006, took office in January 2007, and served as Lincoln County Circuit Clerk through December 31, 2018. Grace Sinclair is referred to as the former Circuit Clerk throughout this report. Karla Allsberry was elected Lincoln County Circuit Clerk in November 2018 and took office on January 1, 2019. Karla Allsberry is referred to as the current Circuit Clerk throughout this report. Patrick Flynn was elected Presiding Judge of the 45th Judicial Circuit in November 2018 and also took office on January 1, 2019.

From December 2018 to February 2019, 9 deputy clerks, including two clerks primarily responsible for accounting functions, left employment with the Circuit Clerk's office, causing a significant disruption to the operations of the office. On January 11, 2019, the Court en Banc voted to remove the current Circuit Clerk's appointing authority over all non-statutory state-paid positions assigned to the Circuit Court of Lincoln County and also removed her custodial duties over personnel records for the deputy clerks. The measure authorized the Presiding Judge to perform both functions formerly performed by the current Circuit Clerk. Three of the four circuit judges voted to approve the measure. Gregory Allsberry, Associate Circuit Judge Division 3 of the 45th Judicial Circuit and husband of Karla Allsberry, abstained from voting on the measure.

In March 2019, the State Auditor's Office (SAO) received complaints through its Whistleblower Hotline alleging possible fiscal mismanagement within the office of the former Lincoln County Circuit Clerk. The SAO conducted an initial review of these matters under Section 29.221, RSMo. After a review of the documentation and communications provided, the SAO determined an audit of the 45th Judicial Circuit Court-Lincoln County was warranted. The SAO began the audit of certain operations of the Circuit Court on May 20, 2019. The scope of our audit included, but was not necessarily limited to, the period of January 1, 2016, through December 31, 2018.

On May 28, 2019, Karla Allsberry was suspended from office and placed on administrative leave by Presiding Judge Patrick Flynn. The Presiding Judge appointed Dianne Doll as the temporary Circuit Clerk. Dianne Doll is referred to as the temporary Circuit Clerk throughout this report. On July 10, 2019, the SAO received a letter (see Appendix A) from the Missouri Attorney General's Office (AGO) requesting investigative assistance regarding public corruption allegations submitted to the AGO by Presiding Judge Patrick Flynn. As a result of the AGO's request for investigative assistance, we also performed limited procedures for the period of January 1, 2019, through June 2019.

1. Disbursements

Significant weaknesses exist in the controls and procedures over the disbursements of the Circuit Clerk's office.

1.1 Interest Fund

The former Circuit Clerk made purchases from the Interest Fund that were not in compliance with statutory restrictions and did not maintain supporting documentation for some Interest Fund disbursements.

The statutory purpose of the Interest Fund is to provide funding for the operation of the Circuit Clerk's office. The office's Interest Fund is maintained in a separate bank account and checks require only one signature without independent review. Expenditures from the Interest Fund from 2016 through 2018 totaled approximately $23,400. On December 28, 2018, the former Circuit Clerk transferred approximately $8,600 from the Interest Fund account into the Circuit Clerk's general bank account and closed the Interest Fund account. The former Circuit Clerk then disbursed $28,089 of accumulated interest proceeds and passport fees (see MAR finding number 2.6) from the Circuit Court's general bank account to Lincoln County's General Revenue Fund. The current Circuit Clerk reestablished the Interest Fund bank account on February 28, 2019.

We reviewed expenditures from the Interest Fund for the period of January 2016 through December 2018 and noted expenditures totaling $1,875 were unnecessary for the operations of the Circuit Clerk's office and not in compliance with state law. We also identified expenditures totaling $3,905 that were unsupported by adequate documentation, so it cannot be determined whether the expenditures were reasonable, necessary, and in compliance with state law. The former Circuit Clerk also wrote checks to herself from the Interest Fund totaling $4,260 for cell phone reimbursements. These cell phone reimbursements were not independently reviewed or authorized and adequate supporting documentation for the reimbursements was not maintained.

Unnecessary disbursements

Disbursements with supporting documentation identified as unnecessary for the operation of the court included:

- Purchases of t-shirts, tumblers, PopSockets, and Koozies for court employees totaling $986.
- Purchases of gift cards totaling $240 and food totaling $165 for employee recognition on "Secretary's Day." Gifts cards were provided to deputy clerks, the secretary to the Presiding Judge, and the drug court administrator.
- A $138 purchase of two engraved plaques for retirement gifts for two deputy clerks.
- Various purchases of utensils, plates, napkins, and food for the Justice Center kitchen totaling $240.

- Lunch for the former Circuit Clerk and other county officials totaling $106.

Unsupported disbursements

We noted other expenditures totaling $3,905 did not have supporting documentation. Without supporting documentation, we could not substantiate the purpose of the transaction or determine the specific items purchased. However, based on a review of the description written on the memo line of the checks and discussions with the former Circuit Clerk, some of the unsupported disbursements also appear unreasonable, unnecessary for the operations of the office, and not in compliance with state law. Disbursements without supporting documentation included:

- A $169 disbursement for t-shirts for the deputy clerks.
- A $262 disbursement to the former Circuit Clerk. The reason for the disbursement could not be determined.
- A $681 reimbursement to the former Circuit Clerk for lodging and meals for a conference in 2016.
- Two disbursements for office lunches totaling $200.
- A $154 disbursement to a restaurant in Troy, Missouri. The check's memo line did not indicate a purpose for the purchase.
- A $171 reimbursement check to the former Circuit Clerk for a Christmas lunch and gifts for the deputy clerks.
- A $20 check to the Lincoln Circuit Court for a cash shortage in a court deposit.
- Postage expenses totaling $1,420.
- Other items such as mileage reimbursements, meals, and kitchen supplies totaling $828.

Phone reimbursements

Beginning in June 2016 through November 2017, the former Circuit Clerk wrote 9 checks from the Interest Fund to reimburse herself for using her private cell phone for court business. These reimbursements totaled $4,260 and were for phone usage covering 120 months from January 2007 through December 2018.

The county's cell phone policy provides a listing of county officials and employees whose job duties were assumed to require cell phone usage. This listing includes two associate judges, but does not include the Circuit Clerk. Other officials and employees could submit requests to the county for monthly stipends for cell phone usage. During 2016, the Lincoln County Commission paid four cell phone stipends to the former Circuit Clerk totaling $480 covering the period of October 2015 through September 2016.

On November 27, 2017, the County Commission amended its cell phone policy to exclude officials and employees who were not on the county's payroll and were also not assumed to require cell phone usage from receiving the monthly stipends. The Circuit Clerk is not a county employee and was not

listed as an official requiring cell phone usage; therefore she became excluded from the county's cell phone reimbursement policy. However, the former Circuit Clerk wrote a check to herself in late 2017 for $420 for calendar year 2018 cell phone use. The check cleared the bank on November 27, 2017, the same day the County Commission amended the cell phone policy.

The former Circuit Clerk indicated she used the Lincoln County cell phone policy to determine the monthly stipend amounts but could not explain differences between the county's monthly stipend rates and the amount she reimbursed herself. For example, the county's policy in April 2012 set the stipend amount at $30 per month. However, on October 10, 2016, the former Circuit Clerk wrote a check to herself for $900 for cell phone usage during the years 2011, 2012, and 2013 at a rate of $25 per month. On November 10, 2016, the Circuit Clerk wrote another check to herself for $600. A handwritten note signed by the former Circuit Clerk indicates the check was to provide additional reimbursement for cell phone usage for the years 2011 through 2015. The amount represents reimbursement of an additional $10 per month for that period.

Other monthly rates used by the former Circuit Clerk ranged from $20 to $50 per month. No documentation was maintained to support the propriety of the amounts reimbursed. Also, in some cases, the reimbursements to herself were written significantly later than the stated reimbursement period. For instance, in June and October 2016, the former Circuit Clerk wrote three checks to herself to reimburse for cell phone usage for the years 2007 through March 2015 for a total of $2,460.

At other times, the former Circuit Clerk paid herself in advance of the reimbursement period. For instance, we noted that she wrote a check to herself in the amount of $735 in August 2017. No documentation was maintained to support the payment and no description was written in the memo line of the check. When we asked her about this payment, the former Circuit Clerk indicated the disbursement consisted of a $420 prepayment for calendar year 2018 cell phone usage, $72 for Justice Center kitchen supplies, and $243 for mileage and meal reimbursements. However, as previously mentioned, in November 2017 the former Circuit Clerk wrote a $420 check to herself for 2018 cell phone usage and was therefore paid twice for the same period. When we asked her about the duplicate payment, the former Circuit Clerk indicated the second payment was an oversight and immediately wrote a $420 check to the Lincoln County Circuit Court to reimburse the Interest Fund.

Conclusion

Section 483.310, RSMo, authorizes the Circuit Clerk to invest funds paid into the registry of the court. Income earned from these investments may be used by the Circuit Clerk to pay for bonds on employees, rent on safety deposit

boxes, court and state publications, and other expenditures of the Circuit Clerk's office.

Detailed supporting documentation improves the court's transparency and provides better documentation of the items purchased to ensure expenditures are reasonable and in compliance with statutory restrictions. Supervisory and/or independent review of disbursements helps ensure public funds are spent only on items necessary and beneficial to the court. County residents have placed a fiduciary trust in their public officials to spend public funds in a prudent and necessary manner. In addition, in situations where a public official is writing checks to himself or herself, in the interest of accountability and transparency, there should be clearly documented authority to receive the payments.

1.2 Municipal fines

The current Circuit Clerk did not have adequate controls and procedures over municipal fine receipts and disbursements. The Circuit Clerk's office records and receipts payments for state and municipal traffic tickets. Monies owed to the state and municipalities, based on the type of ticket, are normally disbursed by the Circuit Clerk's office on a monthly basis.

In January 2019, due to staff turnover, a deputy clerk was reassigned to record municipal traffic tickets. From January 1, 2019 through May 10, 2019, the deputy clerk incorrectly coded municipal traffic ticket fines as state traffic ticket fines in the Judicial Information System (JIS), the Missouri Courts automated case management system. This miscoding resulted in fines of $46,311 collected for municipal traffic tickets being erroneously disbursed to the state instead of the local municipalities.

The Circuit Clerk's office became aware of the errors in February 2019 due to inquiries from municipalities. However, the cause of the errors and the necessary correction was not determined until May 2019. The coding errors were corrected within JIS during May 2019. On May 22, 2019, the Circuit Clerk's office disbursed $45,546 due to the municipalities from state fees in order to correct the prior overpayments to the state. During our review, we noted these disbursements were $765 less than the errors identified. We discussed this issue with the temporary Circuit Clerk so it could be investigated further.

Other errors identified included an additional $1,108 of erroneously entered municipal traffic ticket collections during May 11, 2019 through July 21, 2019. In addition, the Office of State Courts Administrator (OSCA) identified municipal fines assessed of $5,795 were coded incorrectly for unpaid municipal tickets. Had payments been collected on these unpaid tickets, the coding error would have caused the monies collected to be similarly disbursed incorrectly. The temporary Circuit Clerk indicated the office is in the process

of correcting the coding errors and ensuring any related or subsequent payments are properly disbursed to the municipalities.

Adequate oversight of accounting functions helps ensure all transactions are accounted for properly. To ensure disbursements are appropriate, the Circuit Clerk's office should ensure the disbursement information is complete and accurate.

Recommendations

The Circuit Clerk:

1.1 Establish procedures to ensure Interest Fund disbursements are reasonable, necessary to the operations of the office, in compliance with statutory restrictions, sufficiently documented, and properly authorized. The Circuit Clerk should also ensure all disbursements receive supervisory and/or independent review.

1.2 Ensure adequate controls and procedures are in place to ensure coding of fines and fees and related disbursements are complete and accurate. In addition, the Circuit Clerk's office should ensure any concerns brought to the attention of the office are timely investigated and resolved.

Auditee's Response

The former Circuit Clerk's written response is included at Appendix B. The former Circuit Clerk was not requested to respond to finding 1.2.

The Presiding Judge and the temporary Circuit Clerk's written response is included at Appendix C.

The current Circuit Clerk's written response is included at Appendix D. The current Circuit Clerk was not requested to respond to finding 1.1.

Auditor's Comment

1.1 The former Circuit Clerk's response states the expenditures identified in the audit report were reasonable expenses of the Circuit Clerk's office. However, the purchases identified as unreasonable did not relate to items necessary for the operation of the Circuit Clerk's office and therefore are not in compliance with state law.

2. Accounting Controls and Procedures

We identified significant weaknesses with accounting controls and procedures.

Court records indicate receipts collected during the year ended December 31, 2018, totaled approximately $2,057,500. Fines, bonds, garnishments, court costs, and other receipts are collected; recorded in the JIS, and deposited into the Circuit Clerk's general bank account by the Circuit Clerk. In addition to the general and interest fund bank accounts, the Circuit Clerk's office

maintains a jury account, time payment account, supervised visitation account, juvenile victim compensation account, and family court account.

2.1 Segregation of duties

The former Circuit Clerk did not adequately segregate accounting duties or perform adequate independent and/or supervisory reviews of accounting and bank records. An accounting clerk's duties for the general bank account included receipting and recording payments, reconciling, and preparing and signing checks. In addition, the former Circuit Clerk prepared and signed checks for most of the other 6 bank accounts without independent review.

Thorough independent and/or supervisory reviews help ensure all assets are accounted for and adequately safeguarded. If proper segregation of duties are not implemented, documented independent and/or supervisory reviews of accounting and bank records are necessary.

2.2 Bank reconciliations

The former and current Circuit Clerks did not perform monthly bank reconciliations for all bank accounts maintained by the office and supervisory reviews of bank reconciliations performed for the general bank account were not always documented. The former Circuit Clerk indicated she reviewed the monthly bank reconciliations prepared by office personnel for the court's general bank account but these reviews were not always documented.

The current Circuit Clerk was put on administrative leave by the Presiding Judge on May 28, 2019. Prior to her suspension, the current Circuit Clerk had not reconciled any of the court's bank accounts since taking office in January 2019. The current Circuit Clerk indicated she had requested OSCA's assistance to complete the bank reconciliations. After the current Circuit Clerk's suspension, the temporary Circuit Clerk completed general account bank reconciliations for some months with the assistance of OSCA. As of July 11, 2019, the Circuit Clerk's office had completed the general account bank reconciliations for December 2018, January through March 2019, and May 2019.

Missouri Supreme Court Operating Rule 4.59 requires reconciling all bank balances and open items records at least monthly. Timely bank reconciliations are necessary to ensure accounting records balance, transactions are properly recorded, and errors or discrepancies are detected and corrected timely. Thorough independent and/or supervisory reviews help ensure all assets are adequately safeguarded.

2.3 Outstanding checks

The Circuit Clerk's office has not performed procedures to routinely follow up on outstanding checks. As of May 31, 2019, 15 checks totaling $5,945 had been outstanding for more than a year, with some dating back to February 2018.

Procedures to routinely follow up on outstanding checks are necessary to prevent the accumulation of monies in the account and ensure monies are appropriately disbursed to the payee or as otherwise provided by state law.

2.4 Voided and fee adjustment transactions

The office's accounting clerks are allowed to void monetary transactions without independent review or approval and no independent or supervisory reviews are performed for fee adjustments in the JIS.

Voided monetary transactions entered by deputy clerks are reviewed and approved by the accounting clerk and the backup accounting clerk. However, no independent or supervisory reviews are similarly performed of voided transactions entered by the accounting clerks. Voided monetary receipts entered by the accounting clerks totaled approximately $211,000 during the 3 years ended December 31, 2018.

Also, no independent or supervisory reviews are performed for fee adjustments entered in the JIS by office personnel. Fee adjustments entered by personnel of the Circuit Clerk's office totaled approximately $345,000 during the 3 years ended December 31, 2018. Personnel with access to enter fee adjustments in JIS included 8 deputy and accounting clerks, the Circuit Clerk, the Presiding Judge's secretary, the Alternative Dispute Resolution Program Specialist, and the Treatment Court Administrator. As noted in section 2.5, 12 of the 16 JIS users had unlimited access within the JIS.

An independent and/or supervisory review and approval of voided transactions and fee adjustments is necessary to help ensure such transactions are appropriate and reduce the risk of loss, theft, or misuse of funds.

2.5 Periodic review of user accounts

Periodic reviews of user access to data and other information in the JIS are not performed to ensure access rights are commensurate with job responsibilities and remain appropriate. As a result, some court personnel have inappropriate access to initiate and modify transactions within the JIS.

We obtained a report from the OSCA of user accounts having access to the JIS as of December 2018. This report showed 12 of the 16 JIS users had unlimited access within the JIS and had the ability to process receipts, record and void transactions, process fee adjustments, prepare deposits, and print checks. Some of these users had significantly more access than required to perform their job responsibilities.

Periodic reviews of user accounts ensure the right type and level of access, corresponding to each user's job responsibilities, has been provided.

2.6 Passport fees

The former Circuit Clerk did not maintain passport fees and report passport fee expenditures in accordance with state law. In December 2018, the former Circuit Clerk transferred $4,244 of passport fees held in the Circuit Clerk's interest account to the County Treasurer for deposit in the county's General

Revenue Fund. In addition, the former Circuit Clerk did not provide statutorily required reports to the Presiding Judge and the OSCA.

Section 483.537, RSMo, states that the clerk of any state court who, by deputy or otherwise, takes or processes applications for passports or their renewal shall account for the fees charged for such service and for the expenditure of such fee in an annual report made to the presiding judge and the OSCA. Such fees shall be used only for the maintenance of the courthouse or to fund operations of the circuit court.

Recommendations

The Circuit Clerk:

2.1 Segregate accounting duties to the extent possible or ensure independent and/or supervisory reviews of detailed accounting and bank records are performed and documented.

2.2 Perform monthly bank reconciliations of all bank accounts timely and ensure supervisory reviews of bank reconciliations are documented.

2.3 Establish procedures to routinely investigate outstanding checks. Old outstanding checks should be voided and reissued to payees that can be readily located. If payees cannot be located, the monies should be disposed of in accordance with state law.

2.4 Require an independent and/or supervisory review and approval of all voided transactions and fee adjustments made in the JIS.

2.5 Periodically review user access to data and other information resources within the JIS to ensure access rights are commensurate with job duties and responsibilities.

2.6 Ensure passport fees are maintained and reported as required by state law. To ensure compliance with statutory requirements, the Circuit Clerk should work with county officials to return the transferred passport fees to the Circuit Clerk's office.

Auditee's Response

The former Circuit Clerk's written response is included at Appendix B. The former Circuit Clerk declined to respond to findings 2.1, 2.4, and 2.5.

The Presiding Judge and the temporary Circuit Clerk's written response is included at Appendix C.

The current Circuit Clerk's written response is included at Appendix D. The current Circuit Clerk was not requested to respond to findings 2.1 and 2.6.

3. Non-Judiciary Email

The current Circuit Clerk did not comply with OSCA electronic security policies.

Upon taking office, the current Circuit Clerk used a private email address to register an online banking profile for the bank accounts maintained by the Circuit Clerk's office. This private email address, rather than an OSCA assigned email address, was registered with the bank from January 14, 2019, until June 7, 2019. The username of the private email address made reference to her public office. This private email address was also used to obtain online pricing information for jury summons envelopes. The pricing documents reflecting the private email usage were submitted to the county in February 2019.

OSCA Missouri Judiciary Electronic Information Security Guidelines Section 400.01 states that judiciary email shall be sent and received only through the judiciary user's official assigned email address.

Recommendation

The Circuit Clerk ensure email messages for court business are sent and received only through the judiciary user's official assigned email address.

Auditee's Response

The Presiding Judge and the temporary Circuit Clerk's written response is included at Appendix C.

The current Circuit Clerk's written response is included at Appendix D.

Auditor's Comment

The current Circuit Clerk's statement that audit staff refused to meet with her is misleading. Audit staff made no such refusal. At no point did the current Circuit Clerk indicate an in-person meeting was necessary to discuss the issues raised in her response. Audit staff received numerous document submittals, emails, and conducted extensive phone conversations with the current Circuit Clerk during the months of May, June, and July of 2019. In addition, audit staff met with the current Circuit Clerk on October 2, 2019, for more than 2 hours to discuss any concerns or questions regarding the audit report. During this meeting, the current Circuit Clerk did not submit any additional information regarding court operations that had not been previously communicated to audit staff.

Forty-Fifth Judicial Circuit
Lincoln County
Organization and Statistical Information

The Forty-Fifth Judicial Circuit consists of Lincoln County as well as Pike County.

The Forty-Fifth Judicial Circuit consists of 1 circuit judge and 3 associate judges. The circuit judge hears cases in Lincoln and Pike counties. Of the 3 associate circuit judges, 2 are located in Lincoln County and 1 in Pike County. Circuit personnel located in Pike County are not included in the scope of the audit.

Personnel

At December 31, 2018, the judges and Circuit Clerk of the Forty-Fifth Judicial Circuit, Lincoln County, were as follows:

Title	Name
Circuit Judge[1] [2]	Chris Kunza Mennemeyer
Associate Circuit Judge[1]	James D. Beck
Associate Circuit Judge[1]	Gregory K. Allsberry
Circuit Clerk[3]	Grace Sinclair

[1] The Circuit Judge, and Associate Circuit Judges Beck and Allsberry are located in Lincoln County but also hear cases in Pike County.
[2] Patrick Flynn replaced Chris Mennemeyer as Circuit Judge in January 2019.
[3] Karla Allsberry replaced Grace Sinclair as Circuit Clerk in January 2019. On May 28, 2019, Judge Flynn placed Karla Allsberry on administrative leave and appointed Dianne Doll as the temporary Circuit Clerk.

In addition, the Forty-Fifth Judicial Circuit, Lincoln County, employed 18 full-time employees and 3 part-time employees on December 31, 2018.

Financial Information

Receipts of the Forty-Fifth Judicial Circuit, Lincoln County, were as follows:

	Year Ended December 31, 2018
Court deposits, fees, bonds, and other	$2,034,892
Interest income	22,656
Total	$2,057,548

Caseload Information

From the Office of State Courts Administrator Missouri Judicial Reports, case filings of the Forty-Fifth Judicial Circuit, Lincoln County, were as follows:

	Year Ended June 30, 2018
Civil	2,364
Criminal	3,905
Juvenile	164
Probate	232
Total	6,665

Re: Public Corruption Complaint by Judge Patrick Flynn

Dear Ms. Allison,

The Missouri Attorney General's Office is requesting investigative assistance regarding public corruption allegations submitted to our office by Lincoln County Presiding Judge Patrick Flynn. His complaint relates to the suspected waste of public resources by the Lincoln County Circuit Clerk, Karla Allsberry. I am enclosing some of the documentation we have in the matter.

If you have any clarifying questions regarding Judge Flynn's complaint, I will make myself available.

Thank you for your assistance in this matter.

Respectfully,

Steven M. Kretzer
Assistant Attorney General

Missouri State Auditor

Re: Auditees response

Dear Auditor Galloway,

You have provided me with a draft of your Management Advisory Report. At your request, I'm providing my response to some of your specific findings.

1.1 Interest Fund
I disagree with the report that the disbursements from the Interest Fund were unreasonable expenditures of the Circuit Clerk's Office.

a. Cell Phone- The Circuit Clerk is on-call 24 hours a day, seven days a week. As Circuit Clerk I would be called after hours to discuss protection orders, warrants, and involuntary commitment petitions. I believe a partial cell phone reimbursement is an expenditure of the Circuit Clerk's Office.

b. Purchases were made for Circuit Court employees. I do believe these fall into expenditures of the Circuit Clerk's Office. State of Missouri employees are the lowest paid in the nation. These purchases/gifts helped build moral and showed an appreciation for the dedication in the employees of the Lincoln County Circuit Court. Some of these expenditures were used for jury meals and supplies. I do not agree that the expenditures were unreasonable. The interest money was turned over to the County of Lincoln in 2018. The County is responsible for providing a yearly operating budget for the Circuit Clerk's Office.

2.2 Monthly bank reconciliations were performed for the general bank account (JIS).

2.3 The Circuit Clerk's Office has in the past followed up on outstanding checks. Unclaimed funds were turned over to the Mo. State Treasurer at least yearly.

2.6 The Circuit Clerk's Office stopped processing Passport Applications in 2007/2008. I was unaware that the fees on deposit had to be reported.

Sincerely,

Grace Sinclair

Re: Auditees Response – Management Advisory Report
Forty-Fifth Judicial Circuit – Lincoln County

Dear Auditor Galloway:

We are in receipt of your draft of your Management Advisory Report. The professionalism and thoroughness of your staff, Joshua Allen and Emily Barraclough, were exemplary in light of the circumstances surrounding the audit.

At your request, we are providing our response to your specific findings. For clarity, our response will be in the same order and with the same numerical identification which you have chosen in your report.

RECOMMENDATIONS – AUDITEE'S RESPONSE

1.1 Procedures will be implemented to comply with the statutory requirements of 483.310 pursuant to the Auditor's recommendations.
(The Missouri State Legislature needs to amend 483.170 to define the term "other expenditures", due to its vagueness.)

1.2 Procedures have been implemented to ensure coding is complete and accurate pursuant to the Auditor's recommendations.

The malfeasance, misfeasance and nonfeasance of the Circuit Clerk Karla Allsberry in addressing the multiple demands of the municipalities for the monthly disbursement will not be repeated by any Circuit Court Employees. A personal apology for the actions of the Circuit Clerk has been made to each of the municipalities by the Presiding Judge.

2.2 Procedures have been implemented to perform monthly bank reconciliations of all bank accounts timely and ensure supervisory reviews of bank reconciliations are documented pursuant to the Auditor's recommendations.

2.3 Procedures will be implemented to address outstanding checks pursuant to the Auditor's recommendations.

2.4 Procedures have been implemented to address all voided transactions and fee adjustments made in JIS pursuant to the Auditor's recommendations.

2.5 Procedures have been implemented to periodically review user access to data and other information resources within JIS pursuant to the Auditor's recommendations.

2.6 Passport fees are no longer collected by the Office of the Circuit Clerk. Procedures will be implemented to ensure fees are maintained and reported pursuant to the Auditor's recommendations. Upon the public release of this report by the Auditor, the Temporary Circuit Clerk will work with the county officials to return the transferred passport fees.

3. The malfeasance, misfeasance and nonfeasance of the Circuit Clerk Karla Allsberry in conducting official court business, retaining bank records and operating the Court's bank accounts and corresponding through her private email server, circuitclerklc@gmail.com, was limited to her. The Temporary Circuit Clerk has re-routed all matters known at this time to the appropriate and official OSCA issued court email addresses. Upon notification by investigatory authorities outside this audit of other violations of Court Operating Rules the Temporary Circuit Clerk will re-route those matters not known at this time.

If there is any further information or assistance we can provide in preparing the conclusion of this audit, please advise.

We remain in fact, truth, protocol and respect –

Sincerely,

Dianne Doll
Temporary Circuit Clerk

RE: Audit Response to the Audit Report of the 45th Judicial Circuit of Lincoln County

Dear Missouri State Auditor Nicole Galloway:

When I ran for the office of Circuit Clerk in 2018, one of my campaign promises was to secure an audit of the Circuit Clerk's office. The former Circuit Clerk and her supporters, including current Presiding Judge Patrick Flynn, insisted that an audit was not necessary. Judge Flynn went so far as to tell me that he would never permit an audit. Soon after I took office in January, 2019, I became aware of financial issues in the Circuit Clerk's office that were extremely concerning to me. Consequently, I am delighted that the Missouri State Auditor's Office decided to conduct this audit of the 45th Judicial Circuit Court in Lincoln County.

On May 28, 2019, as I sat at my desk preparing documents in response to your office's request for information, Presiding Judge Flynn appeared in my office doorway and told me to immediately leave the building. He handed me a letter telling me that I was "temporarily on administrative leave" and that my access to the Justice Center was "suspended" until further notice. Armed deputies were present to escort me out of the building under threat of force. In your report, you refer to me as "suspended" from office. This is not accurate. One elected official cannot "suspend" another elected official from office, in the manner that Judge Flynn has attempted to do. He has blocked me from access to the tools necessary to perform my job – the computer, the court files and records, my office and the Justice Center etc. – but I am still the duly elected Circuit Clerk.

Some people have responded to Judge Flynn's actions by assuming that I must have done something that justified him placing me on "administrative leave." Your audit report makes clear that the accounting and other problems that existed in the Circuit Clerk's office existed long before I assumed office. It should also be clear to all readers that, as a result of Judge Flynn's actions in January and February, 2019 that constructively discharged the only remaining accounting deputy clerk and that prevented me from hiring deputy clerks to fill open positions, it

1

was impossible for me to adequately address these problems during my brief time on the job between January 2 and May 28, 2019. Please see my letter to Judge Flynn and others dated January 25, 2019, Attachment #3, wherein I called to Judge Flynn's attention the serious accounting problems that his actions were causing.

In the draft report that you provided for my review and response, you redacted significant sections of the report. Unfortunately, I do not see in the draft report a detailed analysis of some very serious financial irregularities that occurred before I took office. In particular, in the draft report that you provided to me, you failed to adequately address the voided monetary receipts entered by the accounting clerks during the 3 years before I took office. As you pointed out, these voided receipts totaled approximately $211,000. I hope that you did look into these matters and that you have addressed them in those sections of the draft report that you have chosen not to provide to me. This is my response to those portions of the draft report that you have provided to me:

1. Disbursements.
The introductory sentence and Section 1.1 are redacted entirely from the draft report you provided to me, so I cannot respond to them. Section 1.2 addresses municipal fines. Recommendation 1.1 is redacted entirely.

Recommendation 1.2 recommends that adequate controls and procedures be put in place and that concerns be timely investigated and resolved. I share your concerns. However, on January 11, 2019, Circuit Judge Flynn, Associate Circuit Judge Jim Beck, and Associate Circuit Judge Milan Berry took appointing authority away from me and gave it to Presiding Judge Flynn. This means that, since the evening of January 11, 2019, I have lacked the ability, not only to hire deputy clerks, but also to assign them their day-to-day functions. See attachments #4 and #6. This is so because of the manner in which Judge Flynn has wielded his appointing authority. In many ways, Judge Flynn regularly reminds the deputy clerks that they answer to him only, and not to me. The deputy clerks work under the constant threat of being suspended or discharged if they do not display sufficient loyalty and adoration toward Judge Flynn. He has turned the Circuit Clerk's office into a political patronage office where the main qualification for employment is loyalty to him. (See Lori Russell's affidavit, Attachment #1, describing the manner in which Judge Flynn, on January 23, 2019, terrorized her when she resisted his attempt to cross-examine her regarding her affiliation with me. Ms. Russell was the sole remaining deputy clerk who had accounting function skills and ordering supplies.)

As further evidence of this, Judge Flynn recently terminated the employment of a deputy clerk who was doing an excellent job, but who did not display sufficient loyalty to "Team Flynn", in furtherance of the hostile work environment that Judge Flynn has created. (See Windy Harper v. Judge Patrick Flynn et al., 19L6-CC00130.) This is the same deputy clerk whom I hired and whose first day on the job was January 11, 2019. On her very first day on the job, in front of the entire office, (even before he had taken over appointing authority), Judge Flynn announced that I did not have the authority to hire Ms. Harper and, on the next day business day, he placed her on "administrative leave" for no reason other than I was the one who had hired her.

As a result, the deputy clerks take directions only from Judge Flynn or his designees, and not from me. He has made himself the *de facto* Circuit Clerk. Despite the admonition of Judge Steven Ohmer, chairman of the Supreme Court's Circuit Court Budget Committee, in February 2019 telling Judge Flynn to allow me to perform my statutory duties of running the day-to-day functions of the Circuit Clerk's office, Judge Flynn has consistently refused to do so.

You write that "the current Circuit Clerk did not have adequate controls and procedures over municipal fine receipts and disbursements. " This was due largely to the fact that Judge Flynn has blocked my access to the computer and any authority over the deputy clerks to the point that I cannot adequately oversee or supervise or control the work that the deputy clerks are doing. He consistently acts as their immediate supervisor. I discuss this problem in greater detail below. Also, see attachment #6.

You write that "the Circuit Clerk's office became aware of the errors [regarding municipal disbursements] in February 2019 due to inquiries from municipalities." This is not accurate. Although we received inquiries from one or more municipalities, we were not aware of errors being made. Several times, I asked the deputy clerks to double-check and to make sure they were processing tickets and using coding correctly. More than once, I contacted an OSCA accountant asking for assistance in evaluating this concern. After the deputy clerk whose error caused the improper municipal court disbursements brought her error to my attention on May 13, 2019, I took immediate action, created an OSCA help desk ticket, and worked with the OSCA accounting department to put a plan into place that successfully and quickly resolved the problem before the end of the month.

2. Accounting Controls and Procedures.
Section 2.1 – this section is completely redacted from my view.
Section 2.2 – Bank reconciliations
Section 2.3 – Outstanding checks
Section 2.4 - Voided and fee adjustment transactions
Section 2.5 – Periodic review of user accounts
Section 2.6 – this section is completely redacted from my view.

Response: Regarding the four recommendations that you have provided to me, I share your concerns. In fact, during my time in my office between January 1 and May 28, when Judge Flynn had me removed from the building by armed deputies, I attempted many times to address these issues. I spent a great deal of time on the phone with the OSCA accounting department in my efforts to oversee the financial function of the office. However, as I have stated, Judge Flynn removed my appointing authority on the evening of January 11, 2019. Twelve days later, he constructively discharged the only remaining deputy clerk, Lori Russell, who had knowledge of accounting functions in the office and ten years of experience. We were at the time, and continued to be, short-staffed, yet I had no ability to hire or to assign duties after January 11. I would attempt to assign duties to deputy clerks only to have Judge Flynn un-assign these duties – and he would often harass me over the assignments I had made. Please see Judge Flynn's email to me dated May 3, 2019, Attachment #4. This is just one example of the many times and ways

in which Judge Flynn micromanaged the function of the Circuit Clerk's office down to the smallest details, including but not limited to staff training, assigning financial accounting duties, and approving personal leave time. The citizens of Lincoln County elected me as Circuit Clerk, not Judge Flynn, to handle these matters.

Judge Flynn has granted security point of contact to his secretary and to one of the deputy clerks, though not to me, a fact that you fail to mention in your report. This is ***extremely*** significant because it means that Judge Flynn has blocked me from the computer access that I need in order to adequately oversee, assign and control financial and accounting activities of the deputy clerks. From my very first day on the job, January 2, 2019, Judge Flynn refused to allow me to be one of the security point of contacts for the Circuit Clerk's office. On January 9, 2019, I put my request to Judge Flynn in writing. See Attachment #5. He responded by issuing, the very next day, an administrative order dated January 10, 2019, Attachment #2, designating his own secretary and one of the deputy clerks (but not me) as security point of contacts. I repeatedly requested the access that I need. Most of these requests were ignored or denied. No Circuit Clerk in the State of Missouri can adequately perform his or her statutory oversight duties without adequate computer and security access – and in Lincoln County, this access is completely controlled by Judge Flynn. This is a glaring omission from your audit report.

In your audit report, you point out that 12 of the 16 JIS users had unlimited access with the JIS and had the ability to process receipts, record and void transactions, process fee adjustments, prepare deposits, and print checks. You recommend that a review be performed to ensure that the right type and level of access has been provided. I did not set things up this way. I knew from my circuit clerk training that this was not the correct way to set up the office, yet I have no ability to correct the problem. I expressed the same concerns to Judge Flynn. My concerns were disregarded. One of the great frustrations that I have had as the elected Circuit Clerk is that Judge Flynn has consistently prevented me from setting up and running the office in the efficient and proper manner that it should be run.

3. Non-judiciary email.
Response: I was not aware of the electronic information security guideline regarding email accounts when I took office. Even my OSCA-assigned mentor clerk, the longtime Circuit Clerk in Phelps County with whom I regularly confer, was not aware of this obscure guideline. To my knowledge, the guideline and its contents were never brought to my attention until after Judge Flynn barred me from entry into the Justice Center. I set up the email account because OSCA had not set up my email account properly at the beginning of my term. OSCA misspelled my name and my last name was incorrectly shown as being hyphenated. For this reason, I set-up a gmail address. It was used as a bank login (username) to download bank statements to my official work computer in my office. No banking transactions involving the movement of funds were made using this gmail account or any email account. I established online logon access of the Circuit Clerk's general bank account for the OSCA accounting staff so they could have access the bank records they needed to assist the Circuit Clerk's Office in a variety of accounting needs, including but not limited to clearing deposits, bank reconciliation, JIS computer training,

data input and other types of training and assistance. I requested accounting assistance from the OSCA accounting department many times and was transparent with banking records. To my knowledge, no information was disclosed to unauthorized persons as a result of my very limited use of this email address. I only set up this email because OSCA did not properly set up my official email at the beginning of my term. This issue has now been resolved. I will send and receive emails only through my official email address in the future. (Please note that since my removal from the Justice Center, I have not had access to my official court email Karla.Allsberry@courts.mo.gov. The State Auditor's office has used a non-judiciary email address to contact me. Upon my inquiry, the Auditor's office has authorized me to submit this response using a private email.)

The audit report states that a private email was used to obtain online pricing for jury summons envelopes. I believe this statement is misleading. To clarify, I did nothing more than to download and to print an updated order form from the United States Postal Service website so that the Circuit Clerk's office could submit an accurately priced purchase order request to the county, so that the county could issue a check payable to the United States Postal Service for envelopes with forever stamp postage and the Circuit Clerk's official name and return mailing address of 45 Business Park Drive, Troy, MO 63379 be imprinted. The form used to purchase the jury summons envelopes happened to list pricing. I simply downloaded this form to make sure the pricing was current to ensure the county issued check was the correct amount. I did not use this email address to conduct any financial transactions or bidding.

(Please note: Lori Russell, the accounting clerk with 10 years of experience whom Judge Flynn ordered off the premises on January 23, 2019 was the only deputy clerk who knew the county's process of ordering supplies for the office. I immediately had to take over the task of ordering office supplies, in addition to all of my other duties. Initially, I did not have access to all the forms needed to order urgently needed supplies. Upon taking office, I noticed that many important office supplies including postage appeared to be close to depletion.)

Appendix A.

July 10, 2019 letter from Steven Kretzer, Asst. Attorney General, to Missouri State Auditor's Office.

Response: Although the letter notes that Judge Flynn has made allegations against me regarding "public corruption" and regarding "the suspected waste of public resources by the Lincoln County Circuit Clerk, Karla Allsberry", your audit report does not mention any evidence of either public corruption or of waste of public resources by me. I regard your audit report as confirmation that no evidence exists to support these false and libelous allegations that Judge Flynn has made against me. In addition, upon information and belief, the Missouri Attorney General has concluded that Judge Flynn's allegations are without merit.

I am disappointed and concerned, however, that your office has failed to examine the waste of public resources by Judge Flynn, in appointing a "temporary circuit clerk" at significant

additional expense to the taxpayers, when appointment of a temporary circuit clerk was completely unnecessary. Why appoint a "temporary circuit clerk" – with a substantial increase in pay – when the duly elected Circuit Clerk is ready, willing and able to perform her duties? Is this not a waste of public resources? As a taxpayer and as an elected official, I am greatly disturbed by this. I am also disappointed that your audit staff refused to meet with me in person while the audit was being conducted. According to information your staff relayed to me, I was the only person involved in the audit whom you refused to meet with in person while the field audit was being conducted.

I will also add with great concern that it has been reported to me that large numbers of documents and files have been shredded and destroyed by Presiding Judge Patrick Flynn and his secretary during the time period that Judge Flynn has barred me from entering into the Circuit Clerk's office. On May 28, 2019 when Judge Flynn verbally ordered the deputies to remove me from the building he also instructed the deputies to get the keys to my desk from me. There were important financial records locked in my desk that related to the audit you were conducting.

Respectfully Submitted,

Karla Kerpash Allsberry

Karla Kerpash Allsberry

Duly Elected Lincoln County Circuit Court Clerk

STATE OF MISSOURI)
) ss.
COUNTY OF LINCOLN)

AFFIDAVIT OF LORI RUSSELL

LORI RUSSELL, of lawful age, upon first being duly sworn, upon her oath states and deposes that she is in all ways competent to testify admissibly in a court of law to the following facts based on her personal knowledge thereof, and that they are true, accurate, and correct, to the best of her information, knowledge, and belief:

1. That Affiant, LORI RUSSELL, I was a Court Clerk for Lincoln County Circuit Court for over ten years until I very reluctantly submitted my resignation on February 6, 2019. Below is my account paraphrasing what happened on January 23, 2019, when I was put on administrative leave by Presiding Judge Patrick Flynn.

2. I arrived upstairs at Judge Flynn's office for a meeting in which I was led to believe, after talking to him earlier that day, we would be discussing accounting. Kathy Hall, his secretary, was also present. Karla Allsberry had asked to come to the meeting but was told no by Judge Flynn.

3. The meeting started by Judge Flynn talking for about the next ten minutes or so while I just sat and listened. He talked about the recent en banc meeting in which Karla Allsberry was stripped of her Circuit Clerk appointing authority and why he felt it was necessary to do—for the good of the Circuit Clerk's office. He talked about the Supreme Court ruling and said that it was not an uncommon practice what happened to

7

Karla. I believed there were other things he talked about in support of him taking away Karla's appointing authority, but the above is what I remember clearly.

4. At this point I was feeling confused as to why he was telling me all this when I thought we were going to discuss accounting. I had told him that morning that I had concerns about falling behind and he said he was meeting with everyone individually to allow them to discuss their concerns and had asked me if I would be available later that day, which is today. So I was just waiting for him to start discussing accounting with me.

5. I just sat and listened still. He mentioned the former Circuit Clerk, Grace Sinclair, and said although she was very knowledgeable about the Courts, she was very bad at managing her people when it came to conflicts amongst them. In a matter of fact tone, he told me he will not tolerate bad behavior or any conflict between the clerks while he is the Presiding Circuit Judge.

6. He told me he was notified that I had suddenly abandoned the office by leaving the building the prior day. He asked very sternly why I would do that when we were short handed. I said I didn't abandon the office, that I wasn't feeling good. He said he was told by the girls I left because I was stressed. I said, yes, that's also correct Judge. I told him in a very respectful and truthful manner that I have been extremely stressed with the workload because we've had half of our clerks quit and we've all been working hard to keep things going and it is very stressful for all of us clerks right now. I told him with the accounting manager also being gone now, I'm doing her job too—and trying to keep up. But I also have not been feeling good. I told Judge Flynn that I felt

like I needed to leave quickly yesterday as I was going to be sick. I told him that I did tell the other clerks I was leaving and I also got the okay from Karla Allsberry. Right after I told him that, he asked me in a very authoritative tone, "whose your appointing authority?" I said, you are. I then told him that I did let Kathy Hall (payroll) know this morning when I saw her in the clerks office that I left early the prior day and told her why. I turned to Kathy right then and she nodded in agreement. I believe I told him there has been a lot of changes and I thought by telling Karla, I didn't think it was a big deal considering I had to leave so quickly. We've always just told the Circuit Clerk in the past. At this time, I felt it best that I just acknowledge the mistake and apologize, so that's what I did and said it wouldn't happen again. I did ask him if there had been any emails or other correspondence letting us clerks know we needed to do anything different besides telling the Circuit Clerk. I don't remember if I got an answer to that or not. Still, at this time, I was hoping we could move on to discussing accounting.

7. Judge Flynn then asked me why I was in Karla Allsberry's office with the door shut. I was confused as to why he would ask me that but I told him we were just talking. He asked but why was the office door shut. He seemed very fixated on why we would have the office door shut so I told him that its not uncommon for Karla to shut the door sometimes when clerks come in to talk to her. He asked what we were talking about. I said, just work. He said what else did you talk about. I thought for a moment and said again, just work stuff. I could see by the look on his face, he was getting frustrated with my answers. He asked me if Karla had discussed with me anything that

was said at a prior meeting she had with him. He didn't say specifically what he was talking about, and at the time I wasn't sure what he was talking about. I told him I couldn't remember, but also said that Karla and I talk about any number of work related things on any given day. It felt like he wasn't satisfied with my answers and was getting more frustrated with me. I was still trying to think about specific work stuff Karla and I had discussed but I was feeling very stressed and my mind just went blank so I just finally said, I couldn't remember what specifically Karla and I talked about but I do know it was work related. He asked if Karla had told me anything that upset me that morning and I said, no. He wasn't being specific and it felt like he was trying to toy with me. During this meeting he also mentioned how I seem to support Karla. I thought this was an odd thing to say but I told him of course I did, she's my new boss, I told him I also supported Grace too when she was in office. I remember just finally telling him I thought he brought me up here to talk about accounting.

8. By this time, it started to become very clear to me that his goal was not to discuss accounting with me. Due to the fact that I felt like I'd already answered his questions as best as I could and I didn't want to be put through anymore, I told him I was sorry but I felt like I've answered his questions and don't feel comfortable continuing and I got up and started to walk into the next adjoining room where the door was to leave. He then warned me not to leave and I saw he was getting out paperwork on his desk. I think he told me if I left that something was going to happen which I later found out he was putting me on administrative leave. But I don't recall him saying this as I was leaving.

He later said he did, but I don't recall. At this point I knew I just wanted to get out of there as fast as I could. I was feeling very tricked into attending a meeting where I thought the subject matter was going to be about accounting and how we could make improvements and instead I felt very mistreated and cross-examined by him throughout the whole meeting.

9. As I was going down the stairs back to the clerks office, I was overcome with extreme emotion about what just happened. I started crying and felt I couldn't go back to my cubicle to continue working just yet so I knocked on Karla Allsberry's door. She could see I was upset right away and let me in and closed the door. I told her that I wished I could have had her there at the meeting now. She had me sit down and started trying to console me.

10. A minute or so later, there was a knock at the door and we could see through the window that it was Judge Flynn. Judge Flynn then told Karla that I was being put on administrative leave. He tried to talk to me through the door a few times but I told him I didn't want to talk to him and that I was afraid of him. Karla asked him why I am being put on administrative leave and he said she walked out of a meeting with the presiding judge. At one point I told him I thought he was being disrespectful to me at the meeting in which he responded by asking Kathy Hall if he was. She said no, in which I then said to her that she was a liar. Karla told Judge Flynn that she was in a meeting with me and asked him to please leave. Judge Flynn had had his foot in the door and wouldn't let Karla close it. He announced again that I was being put on administrative leave and I

needed to get my stuff, turn in my key and leave the building. I told him I would do that if he moved away from the door so I could get through. He was blocking the doorway. I again told him that I was scared of him. He announced again that I would need to turn in my key and leave the building immediately or he would call the deputies and have me escorted out. During this time in Karla's office, I tried to comply and tell him if he would leave that I had no problem leaving. I asked him a few separate times to please move away from the doorway and I will leave, but he wouldn't move. Karla asked him as well. A few moments later, the deputy came. I heard him go into detail with the deputy about what was happening and that the deputy was to escort me out to my car and get my credentials. Judge Flynn then left the Circuit Clerk's office.

11. At this time, Karla asked the deputy for just a few minutes of my time alone which the deputy granted. During this time, Karla asked me if I was going to be okay driving home on my own. She consoled me for and few minutes before we went with the deputy to my cubicle to gather my personal things and turn in my key. I was feeling extremely traumatized and in absolute shock. I didn't see this coming at all. All the clerks in the office overheard everything that Judge Flynn said which was also very upsetting. I have worked with these coworkers for so many years and the fact that they had to listen and witness all of this was upsetting. I was then escorted to my car by Karla and the deputy. Karla offered to drive me home but I declined. I then drove home myself.

12. A few weeks later: I received a phone call from Kathy Hall saying Judge Flynn wanted to set up a meeting with me. At the time, I agreed. But when I realized he wanted to meet me after business hours when the building was closed and I would be alone with him and Kathy Hall and the deputies, I wasn't comfortable with that. I also found out from one of the clerks that he told all of his clerks to leave the building by 4:30 p.m. I then felt even more uncomfortable about meeting with him and Kathy Hall. I requested that my boss, Karla Allsberry, be allowed to attend the meeting and was refused. I emailed and asked if I could have an attorney's present and didn't get a response. I called Kathy Hall and requested that we have a phone conference instead of a physical meeting. Judge Flynn also said no to a phone conference. I told her I was not comfortable meeting with him in person. I later received a confirmation email from her even though I didn't agree to it. I emailed her to let her know that I would not be there physically and that I would still like the phone conference and would be waiting for his call.

13. At this time, I was not uncomfortable meeting with him and Kathy again after how he treated me at the last meeting, even with the deputies present because I was afraid that he would do the same thing to me or worse. He had the power to have the deputies throw me out again if he wanted to and I didn't want to go through that again. I was afraid, so I reluctantly decided just to quit my job as I knew I would most likely get fired if I didn't show up for his meeting. And I didn't want a firing on my ten year

record. I was mentally exhausted at this time and didn't feel as though I had any other choice.

Lori Russell
LORI RUSSELL, Affiant

RE: Court Clerk Lori Russell

Dear Judges of the 45th Judicial Circuit:

On January 23, 2019, Judge Flynn verbally ordered Lori Russell who has worked in the Circuit Clerk's office for over 10 years in the accounting department on an indefinite administrative leave without consulting with me. This action is disruptive and crippling to the function of Circuit Clerk's office. Also, this action is unfair to her. The administrative suspension Judge Flynn verbally sited was due to her leaving a meeting without getting his permission. I saw her immediately after the meeting and she was crying inconsolably. She told me that she left the meeting because Judge Flynn was mistreating her.

I need Lori Russell to return to work as soon as possible. She is the only clerk who is trained in the accounting department, which was already backlogged before I took office and will now only become even more backlogged.

Respectfully,

Karla Kerpash Allsberry

Circuit Criminal Cost Training
Patrick Flynn to: Karla Allsberry, Gayle Whitehead 05/03/2019 04:57 PM
History: This message has been replied to and forwarded.

My email is not working on my desktop and you are the only two clerks whose email address would populate. This also applies to Amy, Darla and Windy.

Amy should be the only one training on Monday for Circuit Criminal Costs as well as Karla , if she so chooses. Monday is the largest docket of the year and Darla is in Court. Dianne is out of the office. It being a Monday the office will be hit with various matters that occur over the weekend that will require the attention of Windy and Gayle.

Furthermore, an Administrative Order is forthcoming assigning Circuit Court Criminal costs to Amy .

I remain in fact, truth, protocol and respect-

PATRICK S. FLYNN
Presiding Judge

Point of Contact for Secuirty
Karla Allsberry to: Patrick Flynn
Cc: Kathy Hall, Sue Brown
01/09/2019 11:49 AM

Judge Flynn,
I respectfully request that you make me the point of security contact for the circuit clerk 's office as we discussed last week. We have been slowed down getting access to programs and data bases because I do not have this function. Also, I have visiting clerks that I need to utilize our computers. I strongly believe our office would run more smoothly if this change was made as soon as possible. Thank you for your help in this matter.

Respectfully,
Karla Kerpash Allsberry

Email RE: Muni Checks
Karla Allsberry to: Patrick Flynn
Cc: prughlaw, Sue Brown
05/23/2019 08:07 AM

Judge Flynn,

Yesterday you forced Sharon Hoss to approve Kathy Hall's retake session that was entered in without my authorization. I clearly explained to Sharon and you that I was waiting to approve this cashier session because I wanted to verify that the correct codes were entered. As I was checking these codes with the OSCA Accounting department, you forced Sharon Hoss to approve this cashier session before the work was checked and without my knowledge until after the fact. My reason for waiting was simple, I wanted to be proactive and avoid having to re-void receipts which would create more work for a short staffed office. It is odd and inappropriate that you and Caroline would allow your secretary to enter receipts without my approval. This is yet another example of your overreach in the circuit clerk's office.

I have placed the checks and reports for the Cities of Foley, Hawk Point, Silex and Old Monroe in your inbox located in the Circuit Clerk's Office. I would have preferred to deliver these checks directly to the municipalities. Unfortunately, I have been prohibited from doing so because yesterday afternoon you verbally threatened me as I was working in my office to rectify the errors that Caroline Kight made. You indicated to me that if I did not give you the municipal checks that I would face consequences. I have worked diligently to correctly resolve the clerk error made by Caroline Kight. It is disappointing that you continue to choose to mistreat me. It is concerning to me that you continue to disregard my wishes to meet with you by phone or correspond via email because of your history of aggressive and violent behavior towards me.

Respectfully,
Karla Kerpash Allsberry

3. Credit Card Purchases and Missing Assets.....4
4. Donations and Seized Property.....6

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the Honorable Mayor
and
Members of the Board of Aldermen
City of Miller, Missouri

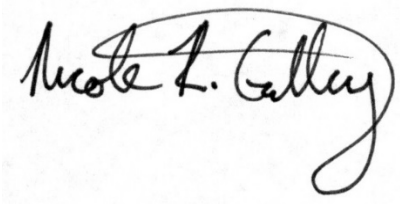
We have conducted follow-up work on audit report findings contained in Report No. 2019-036, *City of Miller Police Department Disbursements and Seized Property* (rated as Poor), issued in May 2019, pursuant to the Auditor's Follow-Up Team to Effect Recommendations (AFTER) program. The objectives of the AFTER program are to:

1. Identify audit report findings for which follow up is considered necessary, and inform the city about the follow-up review on those findings.

2. Identify and provide status information for each recommendation reviewed. The status of each recommendation reviewed will be one of the following:

    - Implemented: Auditee fully implemented the recommendation, either as described in the report or in a manner that resolved the underlying issue.
    - In Progress: Auditee has specific plans to begin, or has begun, to implement and intends to fully implement the recommendation.
    - Partially Implemented: Auditee implemented the recommendation in part, but is not making efforts to fully implement it.
    - Not Implemented: Auditee has not implemented the recommendation and has no specific plans to implement the recommendation.

As part of the AFTER work conducted, we reviewed documentation provided by city officials and held discussions with city officials to verify the status of implementation for the recommendations. Documentation provided by the city included minutes of meetings, financial records, and other pertinent documents. This report is a summary of the results of this follow-up work, which was substantially completed during October 2019.



Nicole R. Galloway, CPA
State Auditor

1. Improper Payroll Payments

The audit identified estimated improper payroll checks totaling $24,623 issued to the former Lieutenant, Randall Bruce, but negotiated by the former Police Chief, Joshua Bruce. The audit also identified improper overtime payments totaling $1,758 to the former Police Chief related to highway safety grants.

1.1 Improper payments and timesheets

The city's payroll records showed significant and unexplained increases in the amounts paid to and hours worked by the former Lieutenant. The city could not provide timesheets for some payroll checks issued to the former Lieutenant. The former Police Chief also improperly prepared timesheets for his brother, the former Lieutenant, and some of the timesheets prepared were not accurate. The related payroll checks issued to the former Lieutenant were also improperly negotiated by the former Police Chief.

Recommendation

The Board of Aldermen continue to work with law enforcement officials regarding criminal prosecution of improper payments issued to the former Lieutenant and negotiated by the former Police Chief, and take the necessary actions to obtain restitution.

Status

Implemented

The Board is working with the Missouri State Highway Patrol (MSHP) and local prosecutors regarding criminal prosecution of the former Police Chief. Multiple criminal charges of receiving stolen property were filed against the former Police Chief in Lawrence and Christian Counties, and the cases are ongoing as of October 2019. Criminal charges of receiving stolen property were filed against the former Lieutenant in Lawrence County. This case has concluded, and the city received restitution totaling $6,272 in September 2019.

1.2 Highway safety overtime grants

Former Police Chief Bruce and the former City Clerk did not maintain and submit all required records for highway safety grants and as a result, the city owed $1,779 in grant funding to the Missouri Department of Transportation's (MoDOT) Highway Safety and Traffic Division. In addition to inaccurately reporting time worked on grant reimbursement requests, the former Police Chief improperly requested and was paid by the city for overtime related to these grants, even though he was not entitled to receive overtime compensation.

Recommendation

The Board of Aldermen develop procedures to ensure requirements are met for any future grants obtained and work with MoDOT to resolve the grant repayment request. In addition, the Board should continue to work with law enforcement officials regarding criminal prosecution of the improper overtime payments issued to the former Police Chief, and take the necessary actions to obtain restitution.

Status	**Implemented** The city issued a $1,779 check to the MoDOT in April 2019 to return the grant funding. The Mayor indicated no grant funds have been received by the city during the period May 2019 through September 2019. As discussed in section 1.1, the Board is working with law enforcement officials regarding criminal prosecution of the former Police Chief.
2. Mileage Reimbursements, Fuel Purchases, and City Vehicle Use	Unsupported and excessive mileage reimbursements were paid to the former Police Chief. In addition, the former Police Chief made questionable fuel purchases with assigned city credit cards. These purchases occurred at gas stations in Clever, Miller, and locations within 50 miles of the City of Miller. In addition, some of these purchases occurred on weekends and were for diesel fuel, with almost all of these purchases occurring in neighboring areas. Any city credit card was expected to only be used by the former Police Chief for fuel purchases when traveling out of the area. Also, the city did not report the value of personal (commuting) mileage to the Internal Revenue Service (IRS), as required.
Recommendation	The Board of Aldermen continue to work with law enforcement officials regarding criminal prosecution of unsupported and excessive mileage reimbursements issued to the former Police Chief, questionable fuel purchases, and take the necessary actions to obtain restitution. In addition, the Board should comply with IRS guidelines for reporting fringe benefits and ensure mileage logs clearly distinguish between official or city business and commuting use.
Status	**In Progress** As discussed in section 1.1, the Board is working with law enforcement officials regarding criminal prosecution of the former Police Chief. The city's employee handbook, amended in April 2019, states, "Under no circumstances is a city owned vehicle to be taken out of city limits, unless it is for City business or mutual aid, and will not be taken to a personal residence overnight. In certain situations, with pre-approval from the board this may be permissible." The employee handbook also states, "Casey's Credit Card – Each department has one for fuel purchase. When purchasing fuel, the employee MUST fill out the Fuel Log form in its entirety, and must turn in the receipt to the City Clerk. If an employee does not turn in a receipt, the employee will be liable for the amount of the charges, to be deducted from the employees next pay check, after the Credit Card Statement has been reviewed." The Mayor indicated the Board will amend the former Police Chief's past W-2 forms, if appropriate, at the conclusion of the criminal case.
3. Credit Card Purchases and Missing Assets	The former Police Chief used a city credit card to purchase personal items/services and numerous meals that were likely not related to city

business. In addition, supporting documentation was not retained for numerous other city credit card purchases made by the former Police Chief, and other meals purchased looked excessive and lacked adequate supporting documentation. The MSHP located numerous city assets at the former Police Chief's residence after his termination, and several other city assets were missing.

3.1 Personal and unsupported purchases and questionable meals

The Board and former City Clerk did not perform adequate reviews of credit card statements, invoices, and other supporting documentation. Several disbursements were determined to be personal purchases and adequate supporting documentation was not submitted or retained for numerous other credit card purchases made by the former Police Chief.

The former Police Chief frequently used a city credit card to purchase meals that did not appear proper and/or to benefit the city. Many of the meals were purchased in areas between his home and the city or in other neighboring areas. The city did not have a formal written policy regarding meal reimbursements, but city officials indicated the city's practice was for employees to use city credit cards only for meals when overnight travel was required.

Recommendation

The Board of Aldermen continue to work with law enforcement officials regarding criminal prosecution of personal, unsupported, and excessive purchases and take the necessary actions to obtain restitution. In addition, the Board should establish and maintain appropriate policies and procedures regarding meal expenses.

Status

In Progress

As discussed in section 1.1, the Board is working with law enforcement officials regarding criminal prosecution of the former Police Chief. The June 14, 2018, meeting minutes show the Board discussed establishing meal expense per diem rates, but took no action to formally adopt a policy or an ordinance. The Mayor indicated she will draft an ordinance addressing meal expenses for the Board's consideration at its November 2019 meeting. In addition, the city's employee handbook, amended in April 2019, addresses the use of the city's credit card. The handbook states, "For an employee to use this card, they must first fill out the Credit Card Log form when picking up the card from the City Clerk. Once the purchase has been made, the employee must return the card, with the receipt to the City Clerk. If the employee does not turn in a receipt, the employee will be liable for those charges, to be deducted from the employees next pay check, after the Credit Card Statement has been reviewed. **All Credit Card receipts must be signed by the person making the purchase, if their signature does not already appear on receipt**." (emphasis in original)

3.2 Missing assets

The city lacked adequate controls and procedures over police department property items, and did not properly track receipt and use of state and federal surplus property items. Some police department assets and state and/or federal surplus property items were located at the former Police Chief's residence by the MSHP after the former Police Chief's termination, and the city could not account for some assets.

Surplus property and 1033/LESO Program

The city obtained state and federal surplus property items from the Missouri State Agency for Surplus Property (SASP) and federal Defense Logistics Agency 1033 Program (renamed the Law Enforcement Support Office or LESO Program in 2016) through the state Department of Public Safety, but had no procedures in place to monitor SASP purchases or items transferred through the 1033/LESO Program. The former Police Chief used some of these items for personal rather than city business, and some items could not be located.

City assets

The Police Department did not maintain records or perform periodic inventories of weapons used by the department. Also, city officials failed to ensure city assets in the possession of the former Police Chief were returned at the time of his termination. In addition, the former Police Chief circumvented the city's normal disbursement process and purchased rifles from an area tactical vendor with cash.

Recommendation

The Board of Aldermen continue to work with law enforcement officials regarding criminal prosecution of missing city assets. The Board should also establish controls and procedures to monitor and account for city assets, and ensure compliance with applicable surplus property regulations.

Status

Implemented

As discussed in section 1.1, the Board is working with law enforcement officials regarding criminal prosecution of the former Police Chief. The city currently employs no police officers, but the Board has established officer equipment agreements and equipment list forms to document the checkout of city assets, which are to be signed by the Mayor and police officer, if needed in the future. The Board has also established an inventory of all city-owned property still maintained at the police department. The Mayor indicated the city no longer has any surplus property in its possession with regulatory restrictions; however, the Board will ensure compliance with any surplus property regulations in the future.

4. Donations and Seized Property

Cash donations received by the former Police Chief and seized property were missing. Controls and procedures over donations and seized property needed improvement.

4.1 Donations

Cash donations collected by the former Police Chief totaling $1,445 were missing. In addition, receipt slips were not issued and other records of

donations received were not maintained by the former Police Chief or the city.

Recommendation

The Board of Aldermen continue to work with law enforcement officials regarding criminal prosecution of the missing donations and take necessary actions to obtain restitution. In addition, the Board should ensure receipt slips or other records of donations received are maintained.

Status

Implemented

As discussed in section 1.1, the Board is working with law enforcement officials regarding criminal prosecution of the former Police Chief. The city's employee handbook, amended in April 2019, states "Under no circumstances, shall an employee accept monetary or any other type of donation(s) for any reason. The employee is to instruct the donor to go to City Hall and to give the donation to the City Clerk. This way the donation will be appropriated to the correct department, and will be used in the manner in which the donor intends." The Mayor indicated the city received no donations during the period May 2019 through September 2019.

4.2 Seized property

Various seized property items, including firearms and cash, were missing. The MSHP located some of these items at the former Police Chief's residence after his termination. The city lacked controls and procedures over seized property. The former Police Chief did not maintain a comprehensive listing of all seized property, did not conduct periodic inventories of seized property, and access to seized property was not adequately restricted.

Recommendation

The Board of Aldermen continue to work with law enforcement officials regarding criminal prosecution of the missing seized property and take necessary actions to obtain restitution. In addition, the Board should also ensure seized property records are accurate and complete, a periodic inventory is taken and reconciled to the property records, and access to all seized property is adequately restricted.

Status

In Progress

As discussed in section 1.1, the Board is working with law enforcement officials regarding criminal prosecution of the former Police Chief. The city currently employs no police officers, but the Board has established a chain of custody form to track seized property by case if needed in the future. The Mayor indicated no property has been seized since February 2019, and an inventory has not been taken of seized property items remaining in the city's possession. The Mayor also indicated the city is holding this property until the criminal case has been concluded, and at that time the city will work with law enforcement agencies and the court to dispose of it. In addition, the Mayor indicated she is currently the only one with access to the property.

*Includes selected findings

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the Honorable Mayor
and
Members of the Board of Aldermen
City of Miller, Missouri

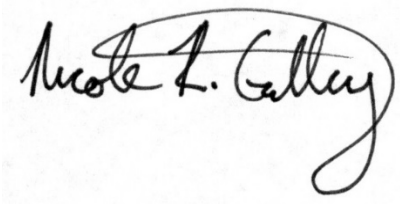
We have conducted follow-up work on certain audit report findings contained in Report No. 2019-035, *City of Miller* (rated as Poor), issued in May 2019, pursuant to the Auditor's Follow-Up Team to Effect Recommendations (AFTER) program. The objectives of the AFTER program are to:

1. Identify audit report findings for which follow up is considered necessary, and inform the city about the follow-up review on those findings.

2. Identify and provide status information for each recommendation reviewed. The status of each recommendation reviewed will be one of the following:

    - Implemented: Auditee fully implemented the recommendation, either as described in the report or in a manner that resolved the underlying issue.
    - In Progress: Auditee has specific plans to begin, or has begun, to implement and intends to fully implement the recommendation.
    - Partially Implemented: Auditee implemented the recommendation in part, but is not making efforts to fully implement it.
    - Not Implemented: Auditee has not implemented the recommendation and has no specific plans to implement the recommendation.

As part of the AFTER work conducted, we reviewed documentation provided by city officials and held discussion with city officials to verify the status of implementation for the recommendations. Documentation provided by the city included minutes of meetings, financial records, and other pertinent documents. This report is a summary of the results of this follow-up work, which was substantially completed during October 2019.



Nicole R. Galloway, CPA
State Auditor

1. Utilities

There were significant weaknesses in the city's utility operations.

1.1 Financial condition

Despite a water and sewer rate increase in February 2016, water and sewer rates charged were not sufficient to pay for the costs of services provided. As a result, the city was using the General Fund to subsidize the Proprietary Fund to avoid a deficit cash balance in that fund. The Proprietary Fund cash balance was not sufficient to refund customer utility deposits also maintained in the fund.

In addition, despite a sewer rate study obtained in July 2017 recommending a significant rate increase, the Board of Aldermen did not approve an increase in the rate structure at that time. The Board subsequently approved a water and sewer rate increase to take effect in September 2018. However, the Board did not set the sewer rates at the amounts recommended in the study, and did not obtain a water rate study.

Recommendation

The Board of Aldermen document formal reviews of utility rates periodically to support any rate increase and set the rates to ensure revenues are sufficient to cover all costs of providing these services, including debt service requirements and reserves for future capital improvements.

Status

Implemented

The Board obtained water and sewer rate studies in August 2019, which recommended utility rate increases. The Board passed ordinances in October 2019, increasing water and sewer rates as recommended.

1.2 Compliance with Missouri Clean Water Law

The city repeatedly violated the Missouri Clean Water Law and city officials had not taken sufficient corrective action to correct sewer treatment facility issues.

Recommendation

The Board of Aldermen bring the sewer treatment facility into compliance with the Missouri Clean Water Law.

Status

In Progress

The Maintenance Supervisor indicated the city continues to be non-compliant with E. coli and ammonia discharge limits. However, the city entered into a contract for improvements to the wastewater system in November 2018, and work on the wastewater system project began at that time. The Maintenance Supervisor indicated the city will not likely be compliant until the project is completed in May 2021.

1.3 Utility reconciliations

The Board did not investigate significant differences identified in the monthly reconciliation of gallons of water billed to customers to gallons of water pumped. In addition, water usage was not tracked for city buildings. Also, the

City Clerk did not perform monthly reconciliations of amounts billed, payments received, and amounts unpaid for utility services.

Recommendation

The Board of Aldermen investigate significant differences between gallons of water pumped to gallons billed. The Board should also ensure monthly reconciliations of amounts billed to amounts collected and delinquent accounts are performed.

Status

Not Implemented

The September 2019 monthly reconciliation of gallons of water pumped to gallons billed indicated more than 2 million gallons of water was lost resulting in a water loss rate of approximately 60 percent. An investigation of the significant differences was not performed/documented. The Mayor indicated a bond issue for water/wastewater upgrades was passed in April 2019, and the Board hopes to fix the water leaks and improve the water system with the money generated from the bond issue. The Mayor also indicated the Board plans to start tracking water usage for city buildings. A reconciliation of amounts billed to amounts collected and delinquent accounts is still not being performed.

1.4 Delinquent utility accounts

The former City Clerk and the Board were not proactive in following up on utility accounts receivable. Also, the former City Clerk allowed 2 customers with significant utility account balances to make partial payments on their accounts for 3 to 4 years without Board approval, and the city did not have a written policy authorizing partial payments. In addition, the former City Clerk failed to follow city code for disconnection for these 2 accounts. The current City Clerk did not turn over all past due utility accounts to the collection agency.

Recommendation

The Board of Aldermen ensure sufficient procedures are developed to collect accounts receivable, all past due accounts are submitted to the collection agency, and service is disconnected in accordance with city code.

Status

In Progress

As of October 28, 2019, the city had 5 utility accounts receivable balances delinquent for over 90 days totaling $1,160. The Board approved writing off 16 of the previous 17 utility accounts totaling $26,375 as bad debts. The Mayor indicated none of the customers listed on the October 2019 delinquent list have been turned over to a collection agency, but 6 of the 22 accounts delinquent for 30 days or longer had their utilities disconnected. The remaining 16 accounts had not been disconnected in accordance with city code.

2.1 Payroll Controls and Procedures - Timesheets and leave records	Timesheets were not always signed by the employee or his/her supervisor to document approval of time worked and leave used, and some overtime hours were not reported on the timesheets for maintenance employees. In addition, leave records were not always maintained to track the number of hours of vacation and sick leave earned, used, and any remaining balances.
Recommendation	The Board of Aldermen ensure timesheets are accurate, properly signed and approved, and employee leave balances are properly tracked and monitored.
Status	**In Progress** The city implemented an electronic timecard system and now uses timecards instead of timesheets. Timecards reviewed for September 2019 were still not signed by the employee, but were initialed by the employee's supervisor. The Mayor indicated employees will be required to sign their timecards in the future. All overtime hours worked in September 2019 were reported on the maintenance employees timecards. The payroll system now tracks vacation and sick time earned, used, and any remaining balances. The City Clerk is now maintaining a spreadsheet to track compensatory time.
2.2 Payroll Controls and Procedures - Salary payments	Employees estimated hours worked for some days on their timesheets because some payroll payments occurred prior to the end of the pay period, and documentation was not available to indicate a comparison was performed between actual hours worked to the reported estimated hours. As a result, full-time employees were sometimes paid in advance for their services.
Recommendation	The Board of Aldermen discontinue compensating full-time employees in advance of receiving services.
Status	**Implemented** The Mayor indicated employees are no longer paid in advance. Time worked and reported on timecards submitted on Friday are not paid until the following Friday.
2.3 Payroll Controls and Procedures - Personnel policies	Some city employees were paid for overtime in violation of city policy, and nonworking time (vacation and sick leave, compensatory time, and holidays) was included in total hours worked when determining the amount of overtime earned by employees, which was not required by the Fair Labor Standards Act. In addition, the city's personnel policy did not address the hours to include when determining the number of overtime hours. Also, the policy did not address employment of related individuals.
Recommendation	The Board of Aldermen ensure compliance with personnel policies, and review and update the personnel policies, as necessary.

Status	**In Progress** The Board amended the employee handbook in April 2019 and it indicates employees will accrue compensatory time at time and a half for overtime hours worked and provides for compensatory time earned to be used within one calendar year from the date accrued. However, nonworking time continues to be included in total hours worked when determining the amount of overtime earned by employees. The Mayor indicated the Board will immediately discontinue using nonworking time in the calculation of overtime earned. The employee handbook was also amended to address the employment and supervision of related employees.
3.1 Accounting Controls and Procedures - Segregation of duties	The Board had not established adequate segregation of duties or supervisory reviews over some of the financial accounting functions performed by the City Clerk and/or Deputy City Clerk positions.
Recommendation	The Board of Aldermen segregate accounting duties to the extent possible and implement appropriate reviews and monitoring procedures.
Status	**Not Implemented** The Mayor indicated the Board and city has experienced significant turnover since May 2019, with 2 of 4 Board members and the City Clerk resigning. As a result, the Board has not been able to establish segregation of duties or supervisory reviews over financial accounting functions. However, a Board member indicated she plans to perform a supervisory review of accounting records in the future.
3.2 Accounting Controls and Procedures - Receipting, recording, and depositing	The City Clerk did not account for the numerical sequence of electronic utility receipt numbers. Utility payments received were not recorded in the computerized utility system at the time of receipt. Checks received were not restrictively endorsed immediately upon receipt, and the former City Clerk did not deposit receipts timely or intact.
Recommendation	The Board of Aldermen ensure the numerical sequence of electronic receipt numbers is accounted for properly, timely record all payments received in the computerized utility system, restrictively endorse all checks upon receipt, and make deposits timely and intact.
Status	**Partially Implemented** Our review of accounting records for September and October 2019, indicated the City Clerk is still not accounting for the numerical sequence of electronic utility receipts numbers or depositing receipts intact. The City Clerk now records utility payments received in the computerized utility system at the

time of receipt, restrictively endorsing checks immediately upon receipt, and makes deposits more timely.

4.1 Restricted Funds and Disbursements - Restricted revenues

The city had not established adequate procedures to properly track and record various statutorily restricted revenues.

Recommendation

The Board of Aldermen ensure restricted monies are accounted for in the appropriate fund or category and establish separate funds or a separate accounting of Law Enforcement Training (LET) and Police Officer Standards Training (POST) fees.

Status

Implemented

In October 2019, the city transferred $7,397 for 1/2-cent street sales tax receipts originally recorded in the police department category during the period July through September 2019 to the street category within the General Fund. According to city accounting records during the period of July through September 2019, all payments received for trash services and all related disbursements were recorded in the trash category. The accounting records of the city do not separately track LET and POST fees. However, the Mayor indicated the city has not employed any police officers since February 2019. Therefore, the city did not receive LET or POST fees during the period July through September 2019.

4.2 Restricted Funds and Disbursements - Allocation

The city had not established adequate procedures to ensure disbursements were properly allocated or expended only for intended purposes. Several employees performed tasks related to multiple city functions, but the city had no documentation to justify the allocation of salaries to the various categories in the General and Proprietary Funds. Some other disbursements and/or allocations were also not adequately supported.

Recommendation

The Board of Aldermen ensure costs are allocated to the appropriate funds, and supported by adequate documentation, which is retained.

Status

Partially Implemented

Accounting records for the period of July through September 2019 indicated the City Clerk's wages were allocated to the general category, the wages of 2 maintenance employees were allocated 45 percent to the water category, 45 percent to the sewer category, and 10 percent to the street category, and the cost of uniforms for maintenance employees were allocated 50 percent to the water category and 50 percent to the sewer category. However, the city had no documentation to justify the allocation of salaries or uniform costs to these categories. The Mayor indicated the Board plans to require maintenance employees to complete daily activity logs in the spring of 2020 to justify the

allocation of their salaries and uniforms, but plans to continue to allocate the City's Clerk's wages to the general category until the financial condition of the water and sewer categories improve.

The city's annual financial statement audit for the year ended June 30, 2019, has not been completed; therefore, audit costs have not been paid or allocated. The cost of utilities for the period July through September 2019, were appropriately allocated based on each utility location to the fire, general, police department, sewer, street, and water categories.

4.3 Restricted Funds and Disbursements - Procurement procedures

The city's procurement procedures did not always comply with the city code, and professional services were obtained without benefit of a competitive selection process.

Recommendation

The Board of Aldermen perform a competitive procurement process for all major purchases in accordance with the city code and maintain documentation of decisions made. The Board should also solicit proposals for professional services and consider establishing a policy to address the procurement of professional services.

Status

In Progress

The Mayor indicated fuel is being purchased at the only gas station in town, bulk fuel is no longer purchased, and stipends are provided to employees for health insurance; therefore, bids are not needed on these items. Property and liability insurance was obtained in accordance with Section 537.620, RSMo. The Board solicited proposals for auditing and attorney/legal services and the Municipal Judge position; however, the Mayor indicated proposals were not solicited for banking services. The Mayor indicated bids will be solicited for banking services in the future, as necessary.

4.4 Restricted Funds and Disbursements - Credit cards

Fifty-nine purchases of items and services made with the city's 2 credit cards did not have supporting documentation, and an independent review of purchases made on these cards was not performed.

Recommendation

The Board of Aldermen require documentation be maintained and reconciled to credit card billing statements, and purchases be approved by someone other than the cardholder.

Status

Implemented

The city maintained supporting documentation for all credit card purchases included on the September 2019 credit card statement, and the Board performed an independent review of the transactions.

5.1 Budgets and Published Financial Statements - Budgets

The city's budgets did not contain all statutorily required elements and were not accurate, and budgeted and actual receipts and disbursements included on the budget summary page did not agree to the individual fund's budgets. In addition, the Board budgeted a deficit cash balance in the Proprietary Fund, and did not adequately monitor budget-to-actual receipts and disbursements. Also, the Board voted to amend the budget to actual receipts and disbursements for the year ending June 30, 2017, even though those actual numbers were not known at the time, and an amended budget document was not prepared to support the amendment.

Recommendation

The Board of Aldermen prepare accurate annual budgets that contain all information required by state law, discontinue deficit budgeting, ensure the budgets are adequately monitored and are properly amended.

Status

Partially Implemented

A budget message was not prepared for the year ended June 30, 2019, budget, but was prepared for the year ending June 30, 2020, budget. A formal budget document was not prepared for the year ended June 30, 2019, or the year ending June 30, 2020, that included the actual beginning and estimated ending cash balances or actual receipts and disbursements for the 2 preceding years. Without beginning and ending cash balances, city officials cannot determine if they are deficit budgeting. The city maintains a profit and loss statement from its accounting system, which reports budget to actual amounts for the current year and is used by the Board to help monitor spending. The profit and loss statement for the year ended June 30, 2019, showed actual disbursements exceeded budget disbursements by approximately $59,000 and a formal amended budget document was not prepared.

6. Board Qualifications and Sunshine Law

Procedures over Board qualifications and closed meetings needed improvement.

6.1 Board qualifications

The city did not have procedures in place to ensure information regarding a person who may have been unqualified to run for or hold elected office was reported timely to the appropriate authority.

Recommendation

The Board of Aldermen seek legal advice and resolve concerns regarding the current Board's qualifications to serve. The Board should establish procedures for handling future situations when the city receives information regarding a person potentially unqualified to run for or hold office, including transmitting this information to the appropriate authority.

Status

Implemented

The Mayor indicated the Board does not plan to seek legal advice regarding the current Board's qualifications to serve because 2 of the Aldermen are no longer Board members, and the remaining Alderwoman paid her delinquent

taxes. The Mayor indicated city personnel now confirms with the County Collector whether persons running for city office have paid their taxes. If taxes have not been paid, this information will be transmitted to the appropriate authority.

6.2 Closed meetings

Some issues discussed in closed meetings held were not allowable under the Sunshine Law.

Recommendation

The Board of Aldermen ensure only topics allowed by state law are discussed in closed Board meetings.

Status

Implemented

The topics discussed for closed meeting minutes reviewed during the period of July through September 2019 were allowed by state law.

7. Electronic Data Security

Controls over some city computers were not sufficient to prevent unauthorized access, and sufficient plans and processes were not in place for recovering systems and data. As a result, city records were not adequately protected and were susceptible to unauthorized access, and the city faced an increased risk of not being able to resume normal business operations timely.

7.1 Passwords

The city had not established adequate password controls to reduce the risk of unauthorized access to computers and data.

Recommendation

The Board of Aldermen require confidential passwords for each employee that are periodically changed to prevent unauthorized access to the city's computers and data. Passwords should contain a minimum number of characters.

Status

Partially Implemented

The Mayor indicated each computer has separate passwords; however, there is only one password to the utility software and it is shared by system users. The Mayor indicated she has no plans to create separate passwords for each user since other users typically only use the utility software when the City Clerk is not working. The Mayor indicated passwords are being periodically changed and require a minimum numbers of characters.

7.2 Security controls

Security controls were not in place to lock computers after a certain period of inactivity.

Recommendation

The Board of Aldermen require each computer to have a security control in place to lock it after a certain period of inactivity.

Status

Implemented

The Mayor indicated each city computer now locks after a certain period of inactivity.

7.3 Contingency plan and backup data

The city had not developed a formal, written contingency plan for resuming normal business operations and recovering computer systems and data in the event of a disaster or other extraordinary situations. In addition, the city did not periodically test backup data to ensure essential data could be restored.

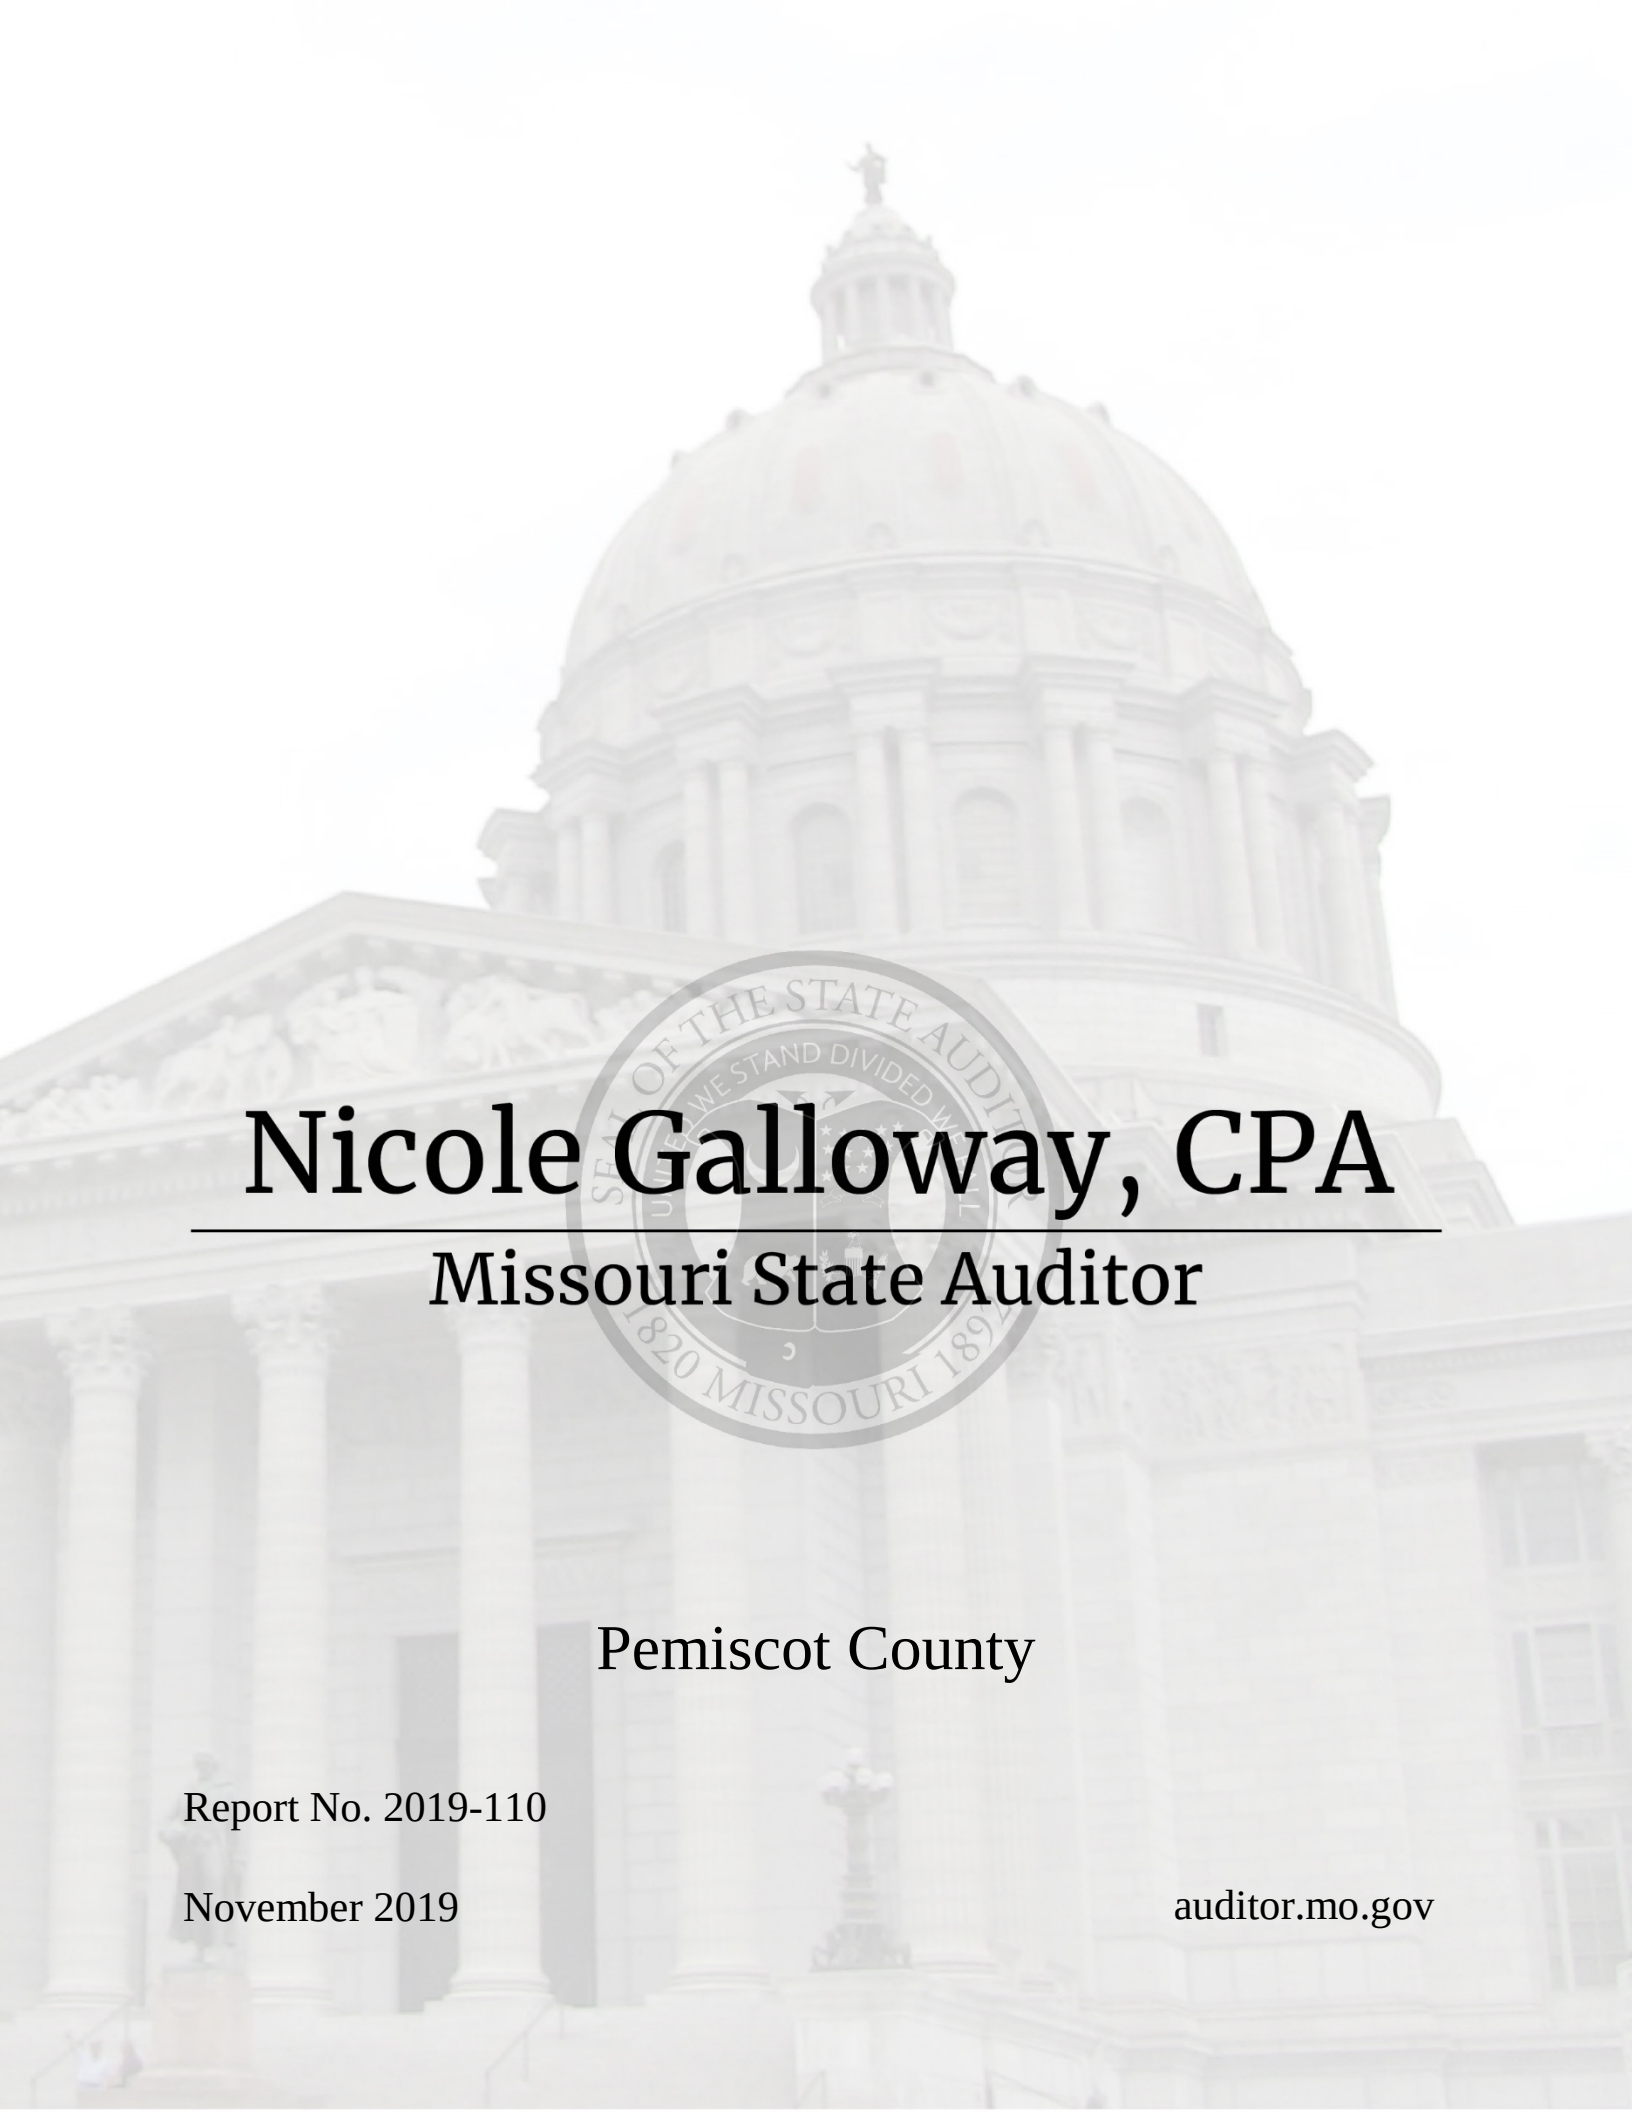
Recommendation

The Board of Aldermen develop a formal, written contingency plan that is periodically tested, evaluated, and updated as needed. The Board should also require city personnel test restoration of backup data on a periodic basis.

Status

In Progress

The Mayor indicated city officials have not had time to develop a formal, written contingency plan or test restoration of backup data, but the Board plans to do this in early 2020.



Nicole Galloway, CPA

Missouri State Auditor

Pemiscot County

Report No. 2019-110

November 2019

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of Pemiscot County

Property Tax System	Neither the County Clerk nor the County Commission adequately reviews the financial activities of the County Collector. The county has not adequately restricted property tax system access. The County Collector's annual settlement for the year ended February 28, 2019, was not accurate.
County Collector's Controls and Procedures	The County Collector has not established proper controls or procedures for refunding monies. Transfers from the Tax Maintenance Fund were not in compliance with uses allowed by state law or there was no documentation to the support transfers.
Sheriff's Controls and Procedures	Sheriff's office personnel do not deposit inmate receipts timely and checks are not restrictively endorsed upon receipt. The Sheriff's Office Manager does not compare the reconciled bank balance to the book balance of the general account because a running book balance is not maintained. Sheriff's office personnel do not prepare a monthly list of liabilities for the inmate account and consequently, liabilities are not agreed to the reconciled bank balance.
Prosecuting Attorney's Controls and Procedures	The Prosecuting Attorney has not adequately segregated accounting duties and does not perform a documented supervisory review of detailed accounting records and transmittals. The Prosecuting Attorney has not established proper procedures for receipting, recording, and transmitting monies.
County Clerk's Controls and Procedures	The County Clerk has not adequately segregated accounting duties and does not perform a documented supervisory review of detailed accounting records and transmittals. The County Clerk has not established proper procedures for receipting and transmitting monies.
Public Administrator's Annual Settlements	The Public Administrator does not always file annual settlements timely in compliance with state law.
Electronic Data Security	The County Collector, Prosecuting Attorney, and Public Administrator have not established adequate password controls.
Sheriff's Salary	The Sheriff's salary has not been set in accordance with state law.

In the areas audited, the overall performance of this entity was **Fair**.*

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA
Missouri State Auditor

County Commission
and
Officeholders of Pemiscot County

We have audited certain operations of Pemiscot County in fulfillment of our duties under Section 29.230, RSMo. In addition, Devereaux & Company, Certified Public Accountants, and Business Advisors, was engaged to audit the financial statements of Pemiscot County for the year ended December 31, 2018. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2018. The objectives of our audit were to:

1. Evaluate the county's internal controls over significant management and financial functions.

2. Evaluate the county's compliance with certain legal provisions.

3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the county's management and was not subjected to the procedures applied in our audit of the county.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of Pemiscot County.

1. Property Tax System

Controls and procedures over the property tax system need improvement. The County Collector processed property tax collections totaling approximately $12.5 million during the year ended February 28, 2019.

1.1 Review of activity

Neither the County Clerk nor the County Commission adequately reviews the financial activities of the County Collector. We reviewed the County Clerk's account book on April 3, 2019, and noted it did not include any amounts for current collections of 2018 taxes. The County Clerk provided us a corrected account book on April 10, 2019; however, several amounts recorded for charges, collections, additions, and abatements did not agree to amounts recorded on the annual settlement for the year ended February 28, 2019. Also, the review procedures performed by the County Clerk and County Commission are not adequate to verify the accuracy and completeness of the County Collector's annual settlements. As a result, there is an increased risk of loss, theft, and misuse of property tax monies going undetected, and less assurance the annual settlements are complete and accurate.

Section 51.150.1(2), RSMo, requires the County Clerk to maintain accounts with all persons chargeable with monies payable into the county treasury. An account book or other records that summarize all taxes charged to the County Collector, monthly collections, delinquent credits, additions and abatements, and protested amounts should be maintained by the County Clerk. Such records would help the County Clerk ensure taxes charged and credited to the County Collector are complete and accurate and could also be used by the County Clerk and the County Commission to verify the County Collector's annual settlements. In addition, Section 139.190, RSMo, requires the County Commission to carefully and fully examine the annual settlement of the County Collector. Such procedures are intended to establish checks and balances related to the collection of property taxes.

A similar condition was noted in our 2 prior county audit reports and the prior audit report of the County Collector and property tax system. In addition, Report No. 2016-038, *Follow-up on Audit Findings - Pemiscot County*, issued in June 2016, reported the status, at that time, as not implemented.

1.2 Property tax system controls

The county has not adequately restricted property tax system access. The County Collector and her office personnel have access rights in the property tax system allowing them to make changes to individual tax records. There is no independent review of changes made to individual tax records in the system. Because the County Collector is responsible for collecting tax monies, the ability of personnel within this office to alter tax records represents a significant weakness in internal controls. Good internal controls require the County Collector and other office personnel not have access rights allowing alteration or deletion of tax rates, assessed valuations, and property tax billing information.

Sections 137.260 and 137.270, RSMo, assign responsibility to the County Clerk for making changes to the tax books upon order of the County Commission. If it is not feasible for the County Clerk to make corrections to the tax books, an independent reconciliation of approved changes to actual changes made to the property tax system would help ensure changes are proper.

1.3 Annual settlements

The County Collector's annual settlement for the year ended February 28, 2019, was not accurate. Total distributions to the General Revenue Fund reported on the annual settlement were overstated by approximately $1.3 million and total distributions to schools were understated by this amount.

To help ensure the validity of the tax book charges, collections, and distributions, and for the County Clerk and County Commission to properly verify these amounts, it is important that the County Collector file accurate annual settlements.

Recommendations

1.1 The County Clerk maintain a complete and accurate account book with the County Collector. In addition, the County Clerk and the County Commission should use the account book to review the accuracy and completeness of the County Collector's annual settlements.

1.2 The County Commission and the County Clerk develop procedures to ensure all property tax changes are properly approved and monitored. In addition, the County Commission should work with the County Collector to ensure property tax system access rights are limited to only what is needed for the users to perform their job duties and responsibilities.

1.3 The County Collector prepare accurate annual settlements.

Auditee's Response

The County Clerk provided the following responses:

1.1 The County Clerk will work to maintain a complete and accurate account book with the County Collector. The County Clerk will work with the County Commission to make sure the account book and the County Collector's annual settlement agree.

1.2 The County Clerk will work with the County Commission to make sure all property tax changes are approved and monitored.

The County Commission provided the following responses:

1.1 The County Commission will be diligent in working with the County Collector and County Clerk to assure that annual settlements are complete and accurate in the future.

1.2 The County Commission will work with the County Collector and County Clerk to approve procedures to assure that all changes to the property tax system are proper.

The County Collector provided the following responses:

1.2 We intend to work with our software company and find out if we can restrict permissions in the County Assessor's program that rolls into the property tax system.

1.3 My annual settlement was incorrect. The $1.3 million was distributed to the schools per the County Clerk's calculations after it was turned over to the County Treasurer. I will ensure that going forward the amounts reported on the annual settlement are correct.

2. County Collector's Controls and Procedures

Controls and procedures in the County Collector's office need improvement.

2.1 Cash refunds

The County Collector has not established proper controls and procedures for refunding monies. Overpayments made by check are refunded in cash and there is no documentation to support these cash refunds. Our review of receipts recorded during the 2-week period ending November 30, 2018, and the 2-week period ending January 18, 2019, identified 3 cash refunds totaling $218 for overpayments of property taxes paid by check. There is no documentation to support the taxpayers received these cash refunds.

Failure to implement adequate refunding procedures increases the risk that loss, theft, or misuse of monies received will occur and go undetected.

2.2 Tax Maintenance Fund transfers

A $15,000 transfer made from the Tax Maintenance Fund (TMF) in 2019 was not in compliance with uses allowed by state law. In addition, there is no documentation to support transfers of $11,600 made in 2018. The County Collector collects a penalty of 9 percent of the total charged on delinquent taxes. Two-ninths of this penalty is required to be paid into the TMF to be used for additional administrative or operational costs related to the office of the County Collector.

The County Collector transferred $15,000 from the TMF to the General Revenue Fund (GRF) on January 30, 2019. The County Collector indicated approximately $12,000 of this amount was used to purchase new blinds for the courthouse and the remaining $3,000 was used to pay for legal fees related to property tax sales. The County Clerk provided invoices totaling $3,055 for the legal fees and an invoice totaling $11,985 for courthouse blinds. The cost of the blinds was not allocated among all county offices benefiting from the blinds. As a result, at least a portion of the $12,000 transfer for the total cost of the blinds was not related to the administration or operation of the County Collector's office.

In addition, the January 17, 2018, County Commission meeting minutes indicated the County Collector would pay for her part of her equipment out of the TMF and would also give $10,000 to the GRF. Actual transfers from the TMF to the GRF totaled $11,600 in 2018. The County Clerk indicated $4,000 was reimbursement for computer system maintenance and $870 was reimbursement for additional salaries of the County Collector's deputies. However, the County Clerk could not provide documentation to support these purchases or for the remainder of the amount transferred.

Section 52.315, RSMo, requires TMF monies be expended for additional administration and operation costs of the County Collector's office and "shall not be used to substitute for or subsidize any allocation of the county general revenue for the operation of the office of collector." Any unexpended balance is required to remain in the TMF to accumulate from year to year and should not be transferred to the county's general revenue for non-collector related purposes prior to reaching the limits set forth in Section 52.317.1, RSMo. Except for the $3,055 paid for legal fees, there was either no documentation supporting the transferred amounts or the documentation was unclear as to how the transferred amount related to the administration or operation of the office of the County Collector. Therefore, these transfers were not an appropriate use of the TMF monies.

Recommendations

The County Collector:

2.1 Issue all refunds by check and maintain supporting documentation of refunds.

2.2 Ensure disbursements from the Tax Maintenance Fund are in compliance with statutory provisions, and the County Commission reimburse the Tax Maintenance Fund for the improper transfers. In addition, the County Collector should maintain documentation to support all transfers made from the Tax Maintenance Fund.

Auditee's Response

2.1 Any overpayments requiring a refund in the future will have documentation to show the taxpayer received the refunded amount or a check will be issued for the amount of the refund.

2.2 Monies transferred from the Tax Maintenance Fund were turned over prior to reaching statutory limits. In the future we will have proper documentation that we have reached that limit or the funds spent are for the benefit of the County Collector's office.

3. Sheriff's Controls and Procedures

Controls and procedures in the Sheriff's office need improvement. Office personnel processed receipts for paper service fees, bonds, inmate monies, prisoner board, transportation reimbursements, and other miscellaneous receipts totaling approximately $674,000 for the year ended December 31, 2018.

3.1 Receipts and deposits

Sheriff's office personnel do not deposit inmate receipts timely and checks are not restrictively endorsed upon receipt. Inmate receipts are typically deposited monthly. Our review of inmate receipt and deposit records noted monies received from June 18 through June 30, 2018, totaling $2,983, were not deposited until July 17, 2018. In addition, during a cash count performed on March 5, 2019, we identified 7 checks, totaling $335, for paper service fees that were not restrictively endorsed.

Failure to implement adequate receipting and depositing procedures increases the risk that loss, theft, or misuse of monies received will occur and go undetected.

3.2 Bank reconciliations

The Sheriff's Office Manager does not compare the reconciled bank balance to the book balance of the general account because a running book balance is not maintained. As of January 7, 2019, the reconciled bank balance and identified liabilities were $4,307.

Maintaining and comparing cumulative book balances to monthly bank reconciliations helps ensure accurate records are kept and increases the likelihood errors will be detected and corrected timely.

3.3 Inmate account liabilities

Sheriff's office personnel do not prepare a monthly list of liabilities for the inmate account and consequently, liabilities are not agreed to the reconciled bank balance. At our request, the Jail Administrator generated a list of inmate balances totaling $4,716 as of April 8, 2019. The April 8, 2019, reconciled bank balance totaled $9,129. After subtracting the inmate balances from the reconciled balance, the account contains an unidentified balance of $4,413. The Jail Administrator indicated the unidentified balance is likely money kept in the account to meet cash flow needs and operate the commissary.

Regular identification and comparison of liabilities to the available cash balance is necessary to ensure accounting records are in balance, all amounts received are disbursed, and monies are available to satisfy all liabilities. Differences must be adequately investigated and explained.

Similar conditions previously reported

Similar conditions to sections 3.2 and 3.3 were noted in our prior audit report.

Recommendations

The Sheriff:

3.1 Deposit monies timely and restrictively endorse checks at the time of receipt.

3.2 Maintain cumulative book balances for the general account and reconcile the book balances to bank reconciliations monthly. Any differences between accounting records and reconciliations should be promptly investigated and resolved.

3.3 Prepare monthly lists of liabilities for the inmate account and reconcile the lists to available cash balances. Any differences between accounting records and reconciliations should be promptly investigated and resolved.

Auditee's Response

3.1 All monies will be deposited in a timely manner (at least weekly). All checks will be endorsed immediately upon receipt.

3.2 The Office Manager will maintain cumulative book balances and reconcile such to bank reconciliations monthly. Any differences will be immediately investigated by the Sheriff.

3.3 A monthly report of inmate balances will be prepared. All balances will be identified and monthly turnovers will be made to the proper entity.

4. Prosecuting Attorney's Controls and Procedures

Controls and procedures in the Prosecuting Attorney's office need improvement. The office collected approximately $93,600 in bad check and court-ordered restitution and fees during the year ended December 31, 2018.

4.1 Segregation of duties

The Prosecuting Attorney has not adequately segregated accounting duties and does not perform a documented supervisory review of detailed accounting records and transmittals. The secretary is primarily responsible for receiving, recording, and transmitting monies. The Prosecuting Attorney does not perform documented reviews of accounting and transmittal records to ensure monies received are properly recorded and transmitted.

Proper segregation of duties is necessary to ensure transactions are accounted for properly and assets are adequately safeguarded. Internal controls would be improved by segregating the duties of receiving, recording, and transmitting monies. If proper segregation of duties cannot be achieved, documented independent or supervisory reviews of detailed accounting and transmittal records are essential and should include comparing daily receipt activity to transmittals.

4.2 Receipting, recording, and transmitting

The Prosecuting Attorney has not established proper procedures for receipting, recording, and transmitting monies.

- The secretary does not always record monies immediately upon receipt. During our cash count on March 6, 2019, we identified 5 checks and money orders totaling $373 that were not receipted and recorded in the accounting system. These receipts were not recorded until April 5, 2019, approximately 30 days after our cash count.

- The secretary does not transmit fees timely and intact to the County Treasurer. Our cash count on March 6, 2019, totaling $7,268, included 1) victim restitution, administrative handling fees, and Missouri Office of Prosecution Services (MOPS) fees ($3,968) received from December 5, 2018 through the cash count date; 2) administrative handling fees ($30) received on September 25, 2018; and 3) Law Enforcement Restitution Fund monies ($3,270) received from February 1, 2019 through the cash count date. While $6,645 was transmitted to the victims and the County Treasurer on March 7, 2019, $250 was not transmitted until April 5, 2019, and the remaining $373 was not transmitted until April 17, 2019.

- Checks and money orders are not restrictively endorsed upon receipt. They are endorsed when the transmittals are prepared.

Failure to implement adequate receipting, recording, and transmitting procedures increase the risk that loss, theft, or misuse of monies received will occur and go undetected. Section 50.370, RSMo, requires all county officials who receive fees or any other remuneration for official services to pay such monies monthly to the County Treasurer. Section 570.120.5, RSMo, requires all MOPS funds to be transmitted monthly by the County Treasurer to the Missouri Director of Revenue.

Recommendations

The Prosecuting Attorney:

4.1 Segregate accounting duties or ensure adequate independent or supervisory reviews of detailed accounting and transmittal records are performed and documented.

4.2 Establish procedures to immediately record receipts in the accounting system when received, transmit all receipts timely and intact, and restrictively endorse checks and money orders at the time of receipt.

Auditee's Response

4.1 You request I "adequately segregate" accounting duties. I have two staff and this recommendation is not something I can enforce. I have, however, begun documenting my review of the accounting and transmittal records per your request.

4.2 You mention "cash count." I understand you are not specifically referring to counting cash within this office, but I want to be clear that we do not, under any circumstance, accept cash. All payments are via cashier check or money order. We do agree with your recommendations of the receipting and transferring of funds and are now enforcing our policy to turn over monies twice a month and endorse "for deposit only" at the time of receipt. Further, we have established a policy to immediately record receipts when received per your recommendation.

5. County Clerk's Controls and Procedures

Controls and procedures in the County Clerk's office need improvement. The office processed liquor license fees, notary fees, and other miscellaneous fees totaling approximately $12,000 during the year ended December 31, 2018.

5.1 Segregation of duties

The County Clerk has not adequately segregated accounting duties and does not perform a documented supervisory review of detailed accounting records and transmittals. The Accounts Payable Clerk is primarily responsible for receiving, recording, and transmitting monies. The County Clerk does not perform a documented review of accounting and transmittal records to ensure monies received are properly recorded and transmitted.

Proper segregation of duties is necessary to ensure transactions are accounted for properly and assets are adequately safeguarded. Internal controls would be improved by segregating the duties of receiving, recording, and transmitting monies. If proper segregation of duties cannot be achieved, documented independent or supervisory reviews of detailed accounting and transmittal records are essential and should include comparing daily receipt activity to transmittals.

5.2 Receipting and transmitting

The County Clerk has not established proper procedures for receipting and transmitting monies.

- Official prenumbered receipt slips are not issued for all monies received and a comprehensive log of receipts is not maintained. Our review of receipt and transmittal records for June 2018 noted receipt slips were not issued for liquor license fees totaling $3,931 and notary/fax fees totaling

$14. In addition, the County Clerk records receipts for sunshine law and voter list requests on printed forms that are not numbered.

- The County Clerk does not transmit all receipts timely and intact to the County Treasurer. Notary fees collected from September 17, 2017, to June 12, 2018, totaling $122 ($92 cash and $30 check), were not transmitted to the County Treasurer until June 13, 2018. Receipts for liquor licenses and reimbursements were typically transmitted daily during this period.

- The County Clerk does not reconcile receipt records to transmittal records. Cash totaling $22.75 associated with receipt number 144653 issued June 15, 2018, was not transmitted to the County Treasurer and is missing.

- Checks are not restrictively endorsed when received. The County Treasurer applies the restrictive endorsement following transmittal.

Failure to implement adequate receipting and transmitting procedures increases the risk that loss, theft, or misuse of monies received will occur and go undetected. In addition, Section 50.370, RSMo, requires all county officials who receive fees or any other remuneration for official services to pay such monies monthly to the County Treasurer.

Recommendations

The County Clerk:

5.1 Segregate accounting duties or ensure adequate independent or supervisory reviews of detailed accounting and transmittal records are performed and documented.

5.2 Issue prenumbered receipt slips for all monies received, transmit receipts intact and timely, reconcile receipts to transmittals, and restrictively endorse checks at the time of receipt.

Auditee's Response

5.1 The County Clerk will perform and document independent reviews of accounting and transmittal records.

5.2 The County Clerk will diligently work to issue prenumbered receipt slips for all money received in the office. The money will be turned over daily to the County Treasurer. All checks will be endorsed at the time of receipt and then turned over to the County Treasurer. The County Clerk will also reconcile receipts to transmittals and document this information.

6. Public Administrator's Annual Settlements

The Public Administrator does not always file annual settlements timely in compliance with state law. The Public Administrator is the court appointed personal representative for wards or decedent estates of the Circuit Court, Probate Division. The former Public Administrator resigned effective May 31, 2018, and the current Public Administrator took office on June 1, 2018. Recommendations are directed to the current Public Administrator because she is in a position to implement changes. The Public Administrator's office was responsible for the financial activity of 36 wards and estates during the year ended December 31, 2018.

During our review of 36 active cases, we found 25 cases did not have annual settlements filed timely. Settlements filed (or still due) for these 25 cases ranged from 31 to 493 days after the due date, as of our review on May 13, 2019. These late settlements were due from both the former Public Administrator and the current Public Administrator. The current Public Administrator indicated she is working to get caught up on the settlements.

Sections 473.540 and 475.270, RSMo, require the Public Administrator to file an annual settlement with the court for each ward or estate. Timely filing of settlements is necessary for the court to properly oversee the administration of cases and reduce the possibility that errors, loss, theft, or misuse of funds will go undetected.

A similar condition was noted in our prior audit report.

Recommendation

The Public Administrator file annual settlements timely.

Auditee's Response

The Public Administrator is working diligently to complete all required annual settlements timely.

7. Electronic Data Security

The County Collector, Prosecuting Attorney, and Public Administrator have not established adequate password controls. As a result, county records are not adequately protected and are susceptible to unauthorized access or loss of data.

Employees in the County Collector's office share user identifications and passwords for the property tax system. These employees share computers in the office and do not log off and log back on with their unique user identifications and passwords when using the property tax system at one of the shared computers. As a result, there is no assurance that the user listed in the system as posting or deleting a transaction is the person who actually performed the action.

The Public Administrator shares her user identification and password with her assistant. In addition, the passwords used by employees in the offices of

the County Collector and Prosecuting Attorney are not required to have a minimum number of characters.

Unique user identifications and passwords are necessary to identify activity performed by each individual. While user identifications and passwords are required to authenticate access, the security of these logon credentials is dependent upon keeping them confidential. Allowing certain users to share logon credentials increases the risk of unauthorized access and/or changes to the system and records and does not provide assurance access is limited to only those individuals who need access to perform their job responsibilities. User identifications should be unique to each person and passwords should be confidential and contain a minimum number of characters to reduce the risk of a compromised password and unauthorized access to and use of computers and data.

Recommendation

The County Commission work with the other county officials to require each employee to have a unique user identification and confidential password with a minimum number of characters.

Auditee's Response

The County Commission provided the following response:

We will meet with all county officials to inform them of this requirement.

The County Collector provided the following response:

We have separate passwords for each computer and also the collection system. We intend to use separate batches and no longer share login credentials when recording any payments or changes in the system. In addition, passwords are now required to contain a minimum number of characters.

The Prosecuting Attorney provided the following response:

You mention that the passwords in this office are not required to have a minimum number of characters. We now require every electronic device in the office to have a password with a minimum number of characters.

The Public Administrator provided the following response:

Unique user identifications and confidential passwords have been set up for the Public Administrator's computer.

8. Sheriff's Salary

The Sheriff's salary has not been set in accordance with state law.

On December 9, 2015, the Salary Commission voted to give the Sheriff a 25 percent raise over the salary amount set in statute and all other elected

officials would receive the salary stated in the statutes. The Salary Commission previously voted on November 9, 2015, to give a 25 percent raise to all elected officials beginning January 1, 2017 (the first day of the next term for certain officials). This vote was rescinded in December when the Salary Commission voted to give the raise only to the Sheriff.

Section 50.333.7, RSMo, requires the Salary Commission to consider the compensation to be paid for the next term of office for each county officer to be elected at their next general election. If the Salary Commission votes to increase compensation, all officers whose compensation is being considered at that time shall receive the same percentage increase over the compensation paid for that office during the term when the vote is taken. The County Commission should consult with legal counsel and review salaries paid to elected officials to ensure amounts comply with state law.

Recommendation

The County Commission ensure elected official salaries comply with state law and consult with legal counsel to determine how to remedy the situation regarding the Sheriff's salary.

Auditee's Response

The County Commission will consult with our county attorney to try to remedy the present situation and to ensure all future raises comply with State Law.

Pemiscot County
Organization and Statistical Information

Pemiscot County is a county-organized, third-class county. The county seat is Caruthersville.

Pemiscot County's government is composed of a three-member county commission and separate elected officials performing various tasks. All elected officials serve 4-year terms. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county roads and bridges, and performing miscellaneous duties not handled by other county officials. Principal functions of these other officials relate to law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records important to the county's citizens. In addition to elected officials, the county employed 89 full-time employees and 3 part-time employees on December 31, 2018.

In addition, county operations include the Senate Bill 40 Board.

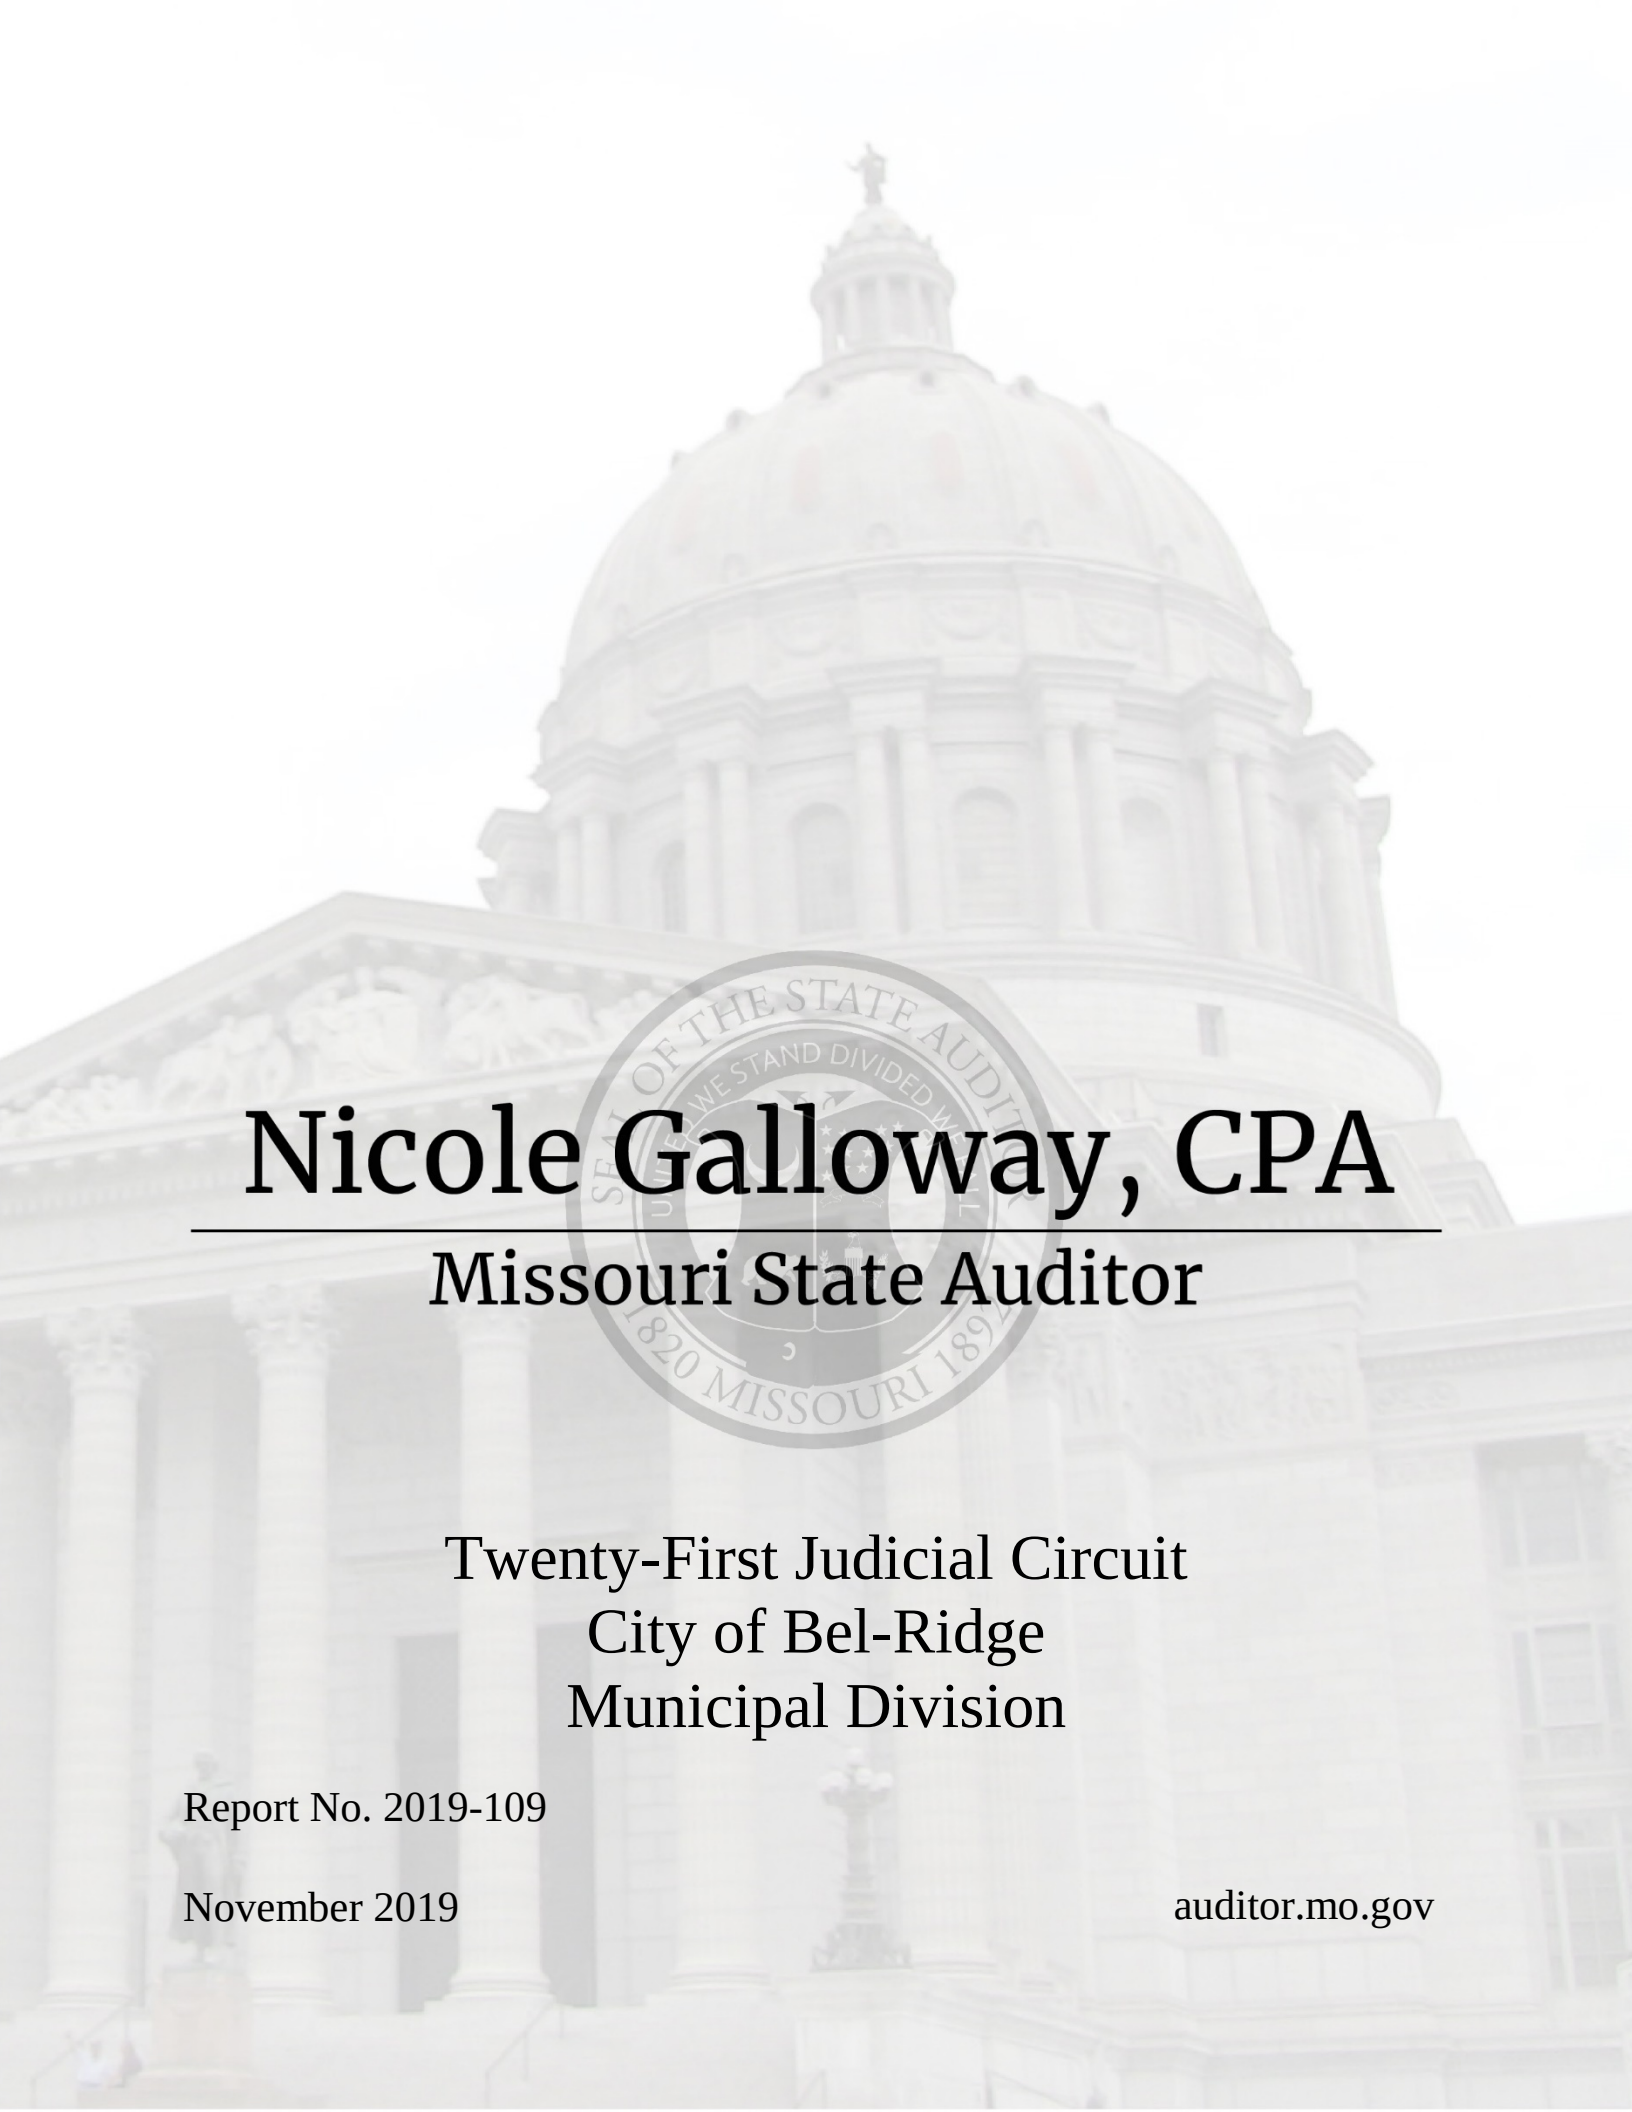
Elected Officials

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below:

Officeholder	2019	2018
Mark Cartee, Presiding Commissioner	$	29,390
Steve Watkins, Associate Commissioner		27,390
Ben H. Baker, Associate Commissioner		27,390
Pam Strawbridge, Recorder of Deeds		41,500
Pam Treece, County Clerk		41,500
Jereme Lytle, Prosecuting Attorney		138,719
Tommy Greenwell, Sheriff		57,500
Frankie R. Stewart, County Treasurer		41,500
James Brimhall, County Coroner		14,000
April Gatewood, Public Administrator (1)		17,292
Trina Hollomon, Public Administrator (1)		24,208
Rhonda Parkinson Price, County Collector (2), year ended February 28,	50,505	
Patsy Hinklin, County Assessor, year ended August 31,		41,500

(1) April Gatewood resigned as Public Administrator effective May 31, 2018. Trina Hollomon was appointed by the Governor and sworn into office on June 1, 2018.

(2) Includes $9,005 of commissions earned for collecting drainage district property taxes.



Nicole Galloway, CPA

Missouri State Auditor

Twenty-First Judicial Circuit
City of Bel-Ridge
Municipal Division

Report No. 2019-109

November 2019

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the Twenty-First Judicial Circuit, City of Bel-Ridge Municipal Division

Accounting Controls and Procedures	Neither the Municipal Judge nor other city personnel independent of the cash custody and record-keeping functions provides an adequate independent or supervisory review of the work performed by the Court Clerk. Neither municipal division nor city personnel perform monthly reconciliations of the municipal division's bank account. Credit card payments received are not recorded timely in the Judicial Information System and are not reconciled to deposits on the bank statements or reports of credit card transactions. The Court Clerk does not account for the numerical sequence of bond forms issued or reconcile bond forms to the bond ledger. The Court Clerk does not periodically review accrued costs owed to the municipal division.
Municipal Division Procedures	The municipal division has not established procedures to periodically review the status of open items. The municipal division has not established adequate procedures to manage open cases. The Municipal Judge does not always document her approval of the final disposition of cases brought before the court or the fines handled through the violation bureau. The municipal division and the police department do not work together to ensure the numerical sequence and ultimate disposition of all tickets issued are accounted for properly. The municipal division does not maintain case records in a complete manner.
Excess Revenues	The city did not timely prepare and submit the financial report addendum containing excess revenue calculations.

In the areas audited, the overall performance of this entity was **Fair**.*

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA
Missouri State Auditor

Presiding Judge
Twenty-First Judicial Circuit
and
Municipal Judge
and
Honorable Mayor
and
Members of the Board of Aldermen
Bel-Ridge, Missouri

We have audited certain operations of the City of Bel-Ridge Municipal Division of the Twenty-First Judicial Circuit in fulfillment of our duties under Chapter 29, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2018. The objectives of our audit were to:

1. Evaluate the municipal division's internal controls over significant financial functions.

2. Evaluate the municipal division's and city's compliance with certain legal provisions.

3. Evaluate the municipal division's compliance with certain court rules.

4. Evaluate the city's compliance with state laws restricting the amount of certain court revenues that may be retained.

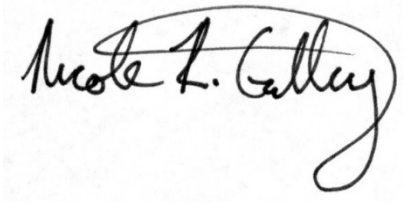
Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the municipal division, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We tested certain of those controls to obtain evidence regarding the effectiveness of their design and operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the municipal division's management and was not subjected to the procedures applied in our audit of the division.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, (3) noncompliance with court rules, and (4) noncompliance with state laws restricting the amount of certain court revenues that may be retained. The accompanying Management Advisory Report presents our findings arising from our audit of the City of Bel-Ridge Municipal Division of the Twenty-First Judicial Circuit.

A petition audit of the City of Bel-Ridge, fulfilling our obligations under Section 29.230, RSMo, is still in process, and any additional findings and recommendations will be included in the subsequent report.



Nicole R. Galloway, CPA
State Auditor

The following auditors participated in the preparation of this report:

Director of Audits:	Randall Gordon, M.Acct., CPA, CGAP
Audit Manager:	John Lieser, CPA
In-Charge Auditor:	Steven Re', CPA
Audit Staff:	Troy Tallman, CFE

1. Accounting Controls and Procedures

Accounting controls and procedures need improvement. During the year ended December 31, 2018, the municipal division collected $309,965 in fines, court costs, and bonds.

1.1 Oversight

Neither the Municipal Judge nor other city personnel independent of the cash custody and record-keeping functions provides an adequate independent or supervisory review of the work performed by the Court Clerk. Proper segregation of duties within the municipal division is not possible because the Court Clerk is the only full-time division employee.

Except for credit card payments posted to the Judicial Information System (JIS) by the city's Office Assistant and a review by a city Board member of checks written by the Court Clerk, the Court Clerk is responsible for all duties related to collecting court payments, recording and posting them to the JIS, and making deposits and disbursements. Additionally, the Court Clerk is responsible for posting manual case information, including case activity and the assessment of fines and court costs into the JIS, and preparing monthly financial reports. Also, bonds collected by the police department are transmitted to the Court Clerk for further processing.

To reduce the risk of loss, theft, or misuse of funds, internal controls should provide reasonable assurance that all transactions are accounted for properly and assets are adequately safeguarded. Internal controls could be improved by implementing documented supervisory or independent reviews of accounting records and electronic case information.

1.2 Bank reconciliations and liabilities

Neither municipal division nor city personnel perform monthly reconciliations of the municipal division's bank account. Upon our request to prepare a bank reconciliation and a list of liabilities, the Court Clerk produced an open items report from the JIS as of May 2, 2019, and the city's contracted accounting firm prepared a reconciliation of the court's bank account as of April 30, 2019. The reconciled bank account balance of $121,883 exceeded the court's liabilities (open items) of $108,631 by $13,252. No one could explain why the difference occurred.

Missouri Supreme Court Operating Rule (COR) 4.59 states, "All bank balances and open items records shall be reconciled at least monthly." Bank reconciliations and reconciling liabilities to the reconciled bank balance are necessary to ensure all accounting records balance, transactions are properly recorded, liabilities are properly accounted for, and errors or discrepancies are detected and corrected timely. Various statutory provisions provide for the disposition of unidentified monies.

1.3 Recording and reconciling

Controls and procedures for recording and reconciling payments received need improvement.

Credit cards

Credit card payments received are not recorded timely in the JIS and are not reconciled to deposits on the bank statements or reports of credit card transactions. As a result, the municipal division does not have assurance all credit card payments received have been recorded and posted accurately and timely to the JIS. Credit card payments received totaled approximately $112,000 for the year ended December 31, 2018.

For the 66 credit card receipts posted to the JIS from December 10, 2018, through December 17, 2018, 16 receipts totaling $2,328 were posted to the JIS 14 days or more after receiving the payment including one transaction for $100 posted more than 300 days after receipt. The Court Clerk periodically provides the Office Assistant with documents for cases with credit card payments for posting to the JIS. Additionally, one credit card receipt for $74 was incorrectly posted in JIS on December 10, 2018, for $85. The Office Assistant corrected the JIS entry after we notified her of the discrepancy.

Bonds

The Court Clerk does not account for the numerical sequence of bond forms issued or reconcile bond forms to the bond ledger. The police department records bond payments received on prenumbered bond forms and sequentially on a bond ledger, however, the Court Clerk does not account for the numerical sequence of the forms or reconcile them to the bond ledger upon preparing bank deposits.

Failure to implement adequate recording and reconciling procedures increases the risk that errors, loss, theft, or misuse of monies received will go undetected.

1.4 Accrued costs

The Court Clerk does not periodically review accrued costs owed to the municipal division. The JIS tracks accrued costs and can produce a report of balances due; however, the Court Clerk does not print and review this report to (1) ensure amounts owed agree to the case file or (2) identify possible errors or cases with potentially uncollectible balances. According to a JIS report we obtained from the Office of State Courts Administrator, as of April 22, 2019, the division had accrued costs totaling $411,238 for 3,122 cases.

Proper and timely monitoring of receivables is necessary to help ensure unpaid amounts are collected and proper follow-up action is taken for non-payment. In addition, proper monitoring is necessary to provide information to the Municipal Judge and to determine appropriate handling when amounts are deemed uncollectible.

Recommendations

The City of Bel-Ridge Municipal Division:

1.1 Ensure independent reviews are performed of accounting records and electronic case records.

1.2 Perform monthly bank reconciliations and reconcile the list of liabilities to the reconciled bank balance. Any differences should be promptly investigated and resolved. After sufficient efforts are made to resolve differences, any money remaining unidentified should be disposed of in accordance with state law.

1.3 Ensure credit card transactions are recorded timely in the JIS and reconciled to the credit card transaction reports and deposits. In addition, the numerical sequence of bond forms should be accounted for and bond receipts reconciled to deposits.

1.4 Establish procedures to monitor accrued costs.

Auditee's Response

1.1 Either the Office Assistant or the City Clerk will perform an independent reconciliation of the Court Clerk's receipts, deposits, and disbursements on a weekly basis.

1.2 We will have the city's contracted accounting firm prepare the municipal division's bank reconciliation each month and reconcile it to open items.

1.3 We will work on developing procedures to record credit card receipts timely. In addition, we will ensure credit card receipts and deposits are reviewed and reconciled by someone independent of the process. Further, we will also ensure the Court Clerk accounts for all bond forms prepared by the police department and reconcile the bond receipts to deposits.

1.4 We have begun reviewing cases with accrued costs, and we will establish procedures to ensure cases with accrued cost are reviewed periodically.

2. Municipal Division Procedures

Municipal division procedures need improvement.

2.1 Review of open items

The municipal division has not established procedures to periodically review the status of open items. Upon our request, the municipal division produced an open items report from the JIS as of May 2, 2019, indicating the municipal division held $88,810 for 373 cases with bonds in open items and open items/suspense accounts. The listing included 192 cases totaling $39,249 with case disposition dates more than one year old, but only one of those cases appeared on a current court docket.

The failure to routinely review open items and apply, forfeit, or refund monies when appropriate increases the volume of cases requiring monitoring and

deprives the state, city, or others the use of those monies. If refunding is appropriate, but proper payees cannot be located, the monies should be disposed of in accordance with state law.

2.2 Case management

The municipal division has not established adequate procedures to manage open cases. The Court Clerk issues a summons to a defendant to appear at the next court date when that defendant does not pay and does not appear at court. The case will appear on the next court docket until 3 summonses have been issued. The Municipal Judge then reviews the case to determine whether to issue an arrest warrant for the defendant, execute a show cause order, or other action. If a warrant is issued, the case is removed from the court docket. For 14 open cases tested from tickets issued in 2018 without payment activity, division personnel often did not issue summonses timely and did not issue warrants and none of the cases appeared on a current court docket. After we inquired about the cases, division personnel issued arrest warrants on 3 defendants.

Without procedures to ensure summonses and warrants are issued timely after defendants fail to appear, the court cannot be assured all cases are properly handled.

2.3 Case dispositions

The Municipal Judge does not always document her approval of the final disposition of cases brought before the court or the fines handled through the violation bureau.

The Court Clerk records the case activity and final disposition of each case in the JIS and on a manual backer sheet in the case file. For 6 of 14 closed cases tested the disposition was not noted on the backer sheet and only 1 backer sheet contained indication of the Municipal Judge's review and approval of the disposition. In addition, the Court Clerk does not print the final docket that documents the case activity recorded in the system for the Municipal Judge's review and approval.

To ensure the proper disposition of all cases has been entered in the municipal division records, the Municipal Judge should sign the final docket or manual case file to indicate approval of the recorded disposition.

2.4 Ticket accountability

The municipal division and the police department do not work together to ensure the numerical sequence and ultimate disposition of all tickets issued are accounted for properly.

The police department issues both manual and electronic tickets. The police department maintains records to track manual ticket books assigned to each officer and a log of voided tickets, however, neither the police department nor the municipal division have procedures in place to account for the numerical sequence and ultimate disposition of all manual and electronic tickets issued.

Our review of all ticket numbers entered into the JIS during the year ended December 31, 2018, identified approximately 1,300 unaccounted for tickets. Sequence gaps may occur because tickets have been voided or were issued before or after 2018. We selected 25 tickets within these sequence gaps for further review. Two of the tickets had been voided and 2 issued prior to 2018, but neither division nor police department personnel could locate the remaining 21 tickets.

Without properly accounting for the numerical sequence and ultimate disposition of tickets issued, the municipal division and police department cannot ensure all tickets are properly submitted for processing. A record should be maintained to account for the ultimate disposition of each ticket to decrease the risk of loss, theft, or misuse of funds.

2.5 Case records

The municipal division does not maintain case records in a complete manner. The Court Clerk could not locate 20 manual case files requested during the audit with case filing dates ranging from March 2013 through September 2016. These files included 3 of 15 cases selected from the April 22, 2019, listing of cases with accrued costs and 17 of 25 cases selected from the May 2, 2019, listing of open items.

Supreme Court Operating Rule 4.03 requires municipal divisions to maintain all documents filed from initiation to final termination of the case and a docket or backer sheet for each case. Retention of applicable records is necessary to properly account for the municipal division's financial activity.

Recommendations

The City of Bel-Ridge Municipal Division:

2.1 Routinely review the list of open items and disburse or dispose of monies as appropriate.

2.2 Ensure summonses and warrants are issued after defendants fail to appear at court.

2.3 Ensure the Municipal Judge reviews and approves the final disposition on all case files.

2.4 Work with the police department to ensure the numerical sequence and ultimate disposition of all tickets is accounted for properly.

2.5 Ensure necessary records are retained.

Auditee's Response

2.1 We have begun reviewing cases with open items, and we will establish procedures to ensure cases with open items are reviewed periodically.

2.2 We will comply with existing case management procedures when the defendant fails to appear in court.

2.3 The Municipal Judge has begun approving amended tickets and will ensure all case files contain indication of her review and approval.

2.4 We have executed a memorandum of understanding with the police department that all voided, refused, and/or lost and damaged ticket numbers will be shared with the court.

2.5 We will continue to work to ensure old case records are located and organized.

3. Excess Revenues

The city did not timely prepare and submit the financial report addendum containing excess revenue calculations.

Section 479.359, RSMo, requires cities to submit to the State Auditor's Office (SAO) an addendum to the city's annual financial report containing an accounting of annual general operating revenue, total revenues from fines, bond forfeitures, and court costs for municipal ordinance violations and minor traffic violations, and the percent of annual general operating revenue from fines, bond forfeitures, and court costs for municipal ordinance violations and minor traffic violations. Code of State Regulations, 15 CSR 40-3.170, requires the city to submit the addendum to the SAO within 6 months of the city's fiscal year end. The city's financial report and addendum for 2018 was due by June 30, 2019, but was filed with the SAO on September 12, 2019.

To ensure compliance with state law, the municipal division and the city should implement procedures to promptly prepare and submit the addendum annually to the SAO.

Recommendation

The Bel-Ridge Municipal Division work with the city to ensure the addendum is prepared annually and submitted to the SAO by the statutory due date.

Auditee's Response

We have executed a memorandum of understanding with the city to ensure the addendum is filed pursuant to state regulation.

Twenty-First Judicial Circuit
City of Bel-Ridge Municipal Division
Organization and Statistical Information

The City of Bel-Ridge Municipal Division is in the Twenty-First Judicial Circuit, which consists of St. Louis County. The Honorable Gloria Clark Reno serves as Presiding Judge.

The municipal division is governed by Chapter 479, RSMo, and by Supreme Court Rule No. 37. Supreme Court Rule No. 37.49 provides that each municipal division may establish a violation bureau in which fines and court costs are collected at times other than during court and transmitted to the city treasury. The municipal division utilizes OSCA's statewide automated case management system known as JIS.

Personnel

At December 31, 2018, the municipal division employees were as follows:

Title	Name
Municipal Judge	Felica Ezell Gillespie
Court Clerk	Chanell Harris
Prosecuting Attorney[1]	Sam Alton

[1] Keith Chung was appointed in April 2019 after Sam Alton resigned.

Financial and Caseload Information

	Year Ended December 31, 2018
Receipts	$309,965
Number of cases filed	4,712

Court Costs, Surcharges, and Fees

Type	Amount
Court Costs (Clerk Fee)	$ 12.00
Crime Victims' Compensation	7.50
Law Enforcement Training	2.00
Peace Officer Standards and Training	1.00
Domestic Violence Shelter	2.00
Court Automation	7.00
Inmate Security (Biometric Verification)	2.00

Missouri State Auditor

City of Silex

Report No. 2019-108

November 2019

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the City of Silex

Financial Condition	The General Fund is in poor financial condition. This problem is not expected to improve significantly in the immediate future.
Budgets and Financial Reporting	The Board does not have adequate procedures to prepare or monitor budgets. The financial statements have not been published for the year ended December 31, 2018. City officials did not file timely annual financial reports with the State Auditor's Office as required by state law. The city has not obtained annual audits of its sewer system as required by state law.
Restricted Funds and Recording Financial Transactions	The city uses restricted monies to finance general operations of the city. The city does not have controls and procedures to ensure revenues and disbursements are accurately and consistently recorded.
Disbursements	Significant improvement is needed in the city's disbursement documentation and review procedures. The city reimbursed unreasonable and/or unnecessary purchases made by city personnel while attending a training seminar. The city does not have procedures to adequately monitor fuel card accounts and fuel use to detect unauthorized use. City officials did not always solicit bids or proposals as required by city policy. The city did not prepare and file 1099-MISC forms with the Internal Revenue Service, as required, for legal services received for the year ended December 31, 2017.
Accounting Controls and Procedures	The Board has not adequately segregated accounting duties or ensured a documented supervisory or independent review over various financial accounting functions is performed. Controls and procedures over bank accounts and reconciliations need improvement. The city does not maintain adequate records of spring and fall event monies received, and as a result, the city cannot ensure all monies collected are accounted for and deposited.
City Procedures	The Board did not swear in the mayoral candidate elected on April 3, 2018, or comply with a subsequent Prosecuting Attorney's order for the appointed mayor to resign. The combination of the positions of City Administrator and Police Chief violates state law and creates a potential conflict of interest.
Payroll and Related Issues	City officials did not ensure payroll taxes were paid as required and some compensation was reported on employee W-2 forms. The city's personnel policy does not adequately address overtime and established policies are not always followed. Employment records for employees are not complete.
Utility System	City officials do not reconcile the total gallons of water billed to the gallons of water pumped, and as a result, significant differences are not investigated. City water deposits charged do not comply with city ordinance. City procedures for discontinuing services and receiving partial payments do not comply with city ordinance.
Ordinances	City ordinances are not codified or complete.

Police Department	The Police Chief has not established adequate controls and procedures over seized property. The police department has not developed adequate procedures to account for the numerical sequence of tickets and the ultimate disposition of manual tickets issued.
Street Maintenance Plan	City officials have not developed a formal annual maintenance plan for city streets.
Capital Assets	Controls and procedures over city property need improvement.

In the areas audited, the overall performance of this entity was **Poor**.*

***The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Organization and Statistical Information 35

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the Honorable Mayor
and
Members of the Board of Aldermen
City of Silex, Missouri

The State Auditor was petitioned under Section 29.230, RSMo, to audit the City of Silex. We have audited certain operations of the city in fulfillment of our duties. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2018. The objectives of our audit were to:

1. Evaluate the city's internal controls over significant management and financial functions.

2. Evaluate the city's compliance with certain legal provisions.

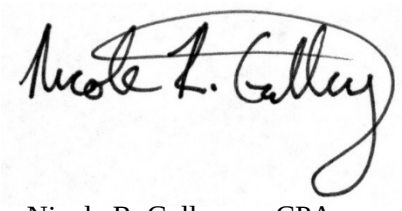
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the city, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the city's management and was not subjected to the procedures applied in our audit of the city.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the City of Silex.



Nicole R. Galloway, CPA
State Auditor

The following auditors participated in the preparation of this report:

Director of Audits:	Kelly Davis, M.Acct., CPA, CFE
Audit Manager:	Chris Vetter, CPA, CGAP
In-Charge Auditor:	Steven Re', CPA
Audit Staff:	Rachel Cline, M.S. Acct., CPA

1. Financial Condition

The General Fund is in poor financial condition. This problem is not expected to improve significantly in the immediate future.

The General Fund is used for most of the city's financial activity and various recent events have contributed to a lower fund balance. The city is transferring monies from restricted funds to finance the general operations of the city (see MAR finding number 3). In addition, the Board of Aldermen is not adequately monitoring the city's financial condition. As a result, the Board is not in a position to make financial decisions that could strengthen fund balances (see MAR finding number 2).

For the year ended December 31, 2018, the city transferred restricted utility monies totaling $141,181 to the General Fund. Transfers included (1) $75,570 from the Water Fund (87 percent[1]) and (2) $65,611 from the Sewer Fund (60 percent[1]). Thus, the city is transferring the majority of revenues from restricted utility funds in order to subsidize the General Fund.

The following table presents the changes in the General Fund balance for the 4 years ended December 31, 2018.

	Year Ended December 31,			
	2018	2017	2016	2015
Beginning Fund Balance	$ 6,114	18,287	9,812	10,761
Deposits	145,294	205,814	516,290	258,642
Transfers in	218,583	388,070	13,014	8,361
Total Funds Available	369,991	612,171	539,116	277,764
Less: Disbursements	364,723	604,119	458,355	239,176
Less: Transfers out	820	1,938	62,474	28,776
Ending Fund Balance	4,448	6,114	18,287	9,812
Fund Balance Increase/(Decrease)	$ (1,666)	(12,173)	8,475	(949)

Source: The city's bank statements.

Cash flow

The city has struggled to generate sufficient cash flow to sustain operations and the General Fund will be further strained as a result of several significant additional costs. The city owes $256,527 (including interest of $73,027) for debris removal from a June 2015 flood. In addition, city personnel have not filed and remitted federal and state payroll taxes for calendar year 2018 totaling $21,176 (see MAR finding number 7.1). A review of the fall and spring events indicated the events lost $2,407 and $628 respectively, resulting in additional strain on the General Fund (see MAR finding number 3.2). Also, the city's tornado siren is inoperable and replacement will cost between approximately $14,500 and $21,000. The Mayor also indicated, as of May 16,

[1] Percentage of the fund's operating revenues.

2019, the city has outstanding payables totaling $90,378 and has not paid bond principal and interest totaling $23,815 due April 1, 2019.

The Missouri Department of Natural Resources (DNR) has notified the city its water system is not in compliance with the requirements of the Radionuclide Rule of the Safe Drinking Water Act. As a result, the city may begin incurring a penalty of $100 per day for noncompliance with Section 640.131, RSMo. Three options presented to the city to address the city's water system issue range in cost from approximately $1.1 million to $1.7 million.

It is essential the Board address the financial condition of the city's General Fund in both the immediate and long-term future. In addition, the Board needs to develop a plan to pay existing obligations and fund future projects. Further, the Board should reduce spending where possible, evaluate controls and management practices to ensure efficient use of resources, monitor detailed financial data that includes cash balances for each fund, and closely monitor budgets.

Recommendation

The Board of Aldermen ensure it receives detailed financial data monthly, perform long-term planning, and closely monitor and take necessary steps to improve the city's financial condition.

Auditee's Response

The City of Silex's current administration welcomes and accepts all of the State Auditor Office's (SAO) recommendations. The city has already implemented nearly all of those recommendations. However, given the financial insolvency and record keeping lapses from the previous administration, implementation of the remaining recommendations will require additional funds and additional effort from a limited volunteer staff. Despite these difficult hurdles, the city is committed to implementing all of the recommendations at the earliest opportunity.

On April 2, 2019, the citizens of Silex elected a new Mayor and a new Alderman. However, the previous City of Silex administration tried to prevent the newly elected Mayor and Alderman from taking their oaths of office and assuming their responsibilities. Indeed, as this audit discusses later, the previous administration mounted a similar effort in 2018, which improperly forced the duly elected Mayor from his position. Due to similar improper conduct in 2019, the newly elected Mayor and Alderman were forced to be sworn in by the Lincoln County Circuit Judge. Even when sworn in, the previous administration refused to give the new Mayor access or keys to City Hall. Once sworn in, the newly elected Mayor sought to protect the city's assets and records by changing the locks to City Hall, in the company of the County Sheriff.

As evidenced by the later discussions in this audit, the new Mayor's efforts to protect the city's records and assets were warranted. The new administration found the city's records, files, assets, and finances in disarray.

It should be noted by the readers of this audit that nearly all of the negative findings relate to events that occurred before the new administration took over. The new administration welcomes this audit and agrees with nearly all of the audit's findings as they relate to the previous administration's actions. It must also be noted that the SAO has informed the city that the SAO did not review all of the city's transactions. Therefore, the city wants its citizens to understand that there are more issues than those that were included in this report that the city must address and remediate.

The city fully accepts and has implemented the SAO's recommendations concerning the city's financial condition.

The General Fund was indeed in poor financial condition when the new administration took over. The previous administration had left the city with only $16,045.86 and current debts of $130,928.55 (not including unpaid taxes and long-term debt obligations).

The new administration is taking aggressive steps to improve its finances, including laying off personnel and selling surplus property. The city is now run largely with volunteers.

The new administration no longer transfers monies from restricted funds to finance the general operations of the city (see MAR finding number 3). In addition, the new Board of Aldermen (new Board) is now monitoring the city's entire financial condition in detail at each public Board meeting. As a result, the Board is making financial decisions to strengthen fund balances (see MAR finding number 2).

The reference to a $256,527 liability from the June 2015 flood refers to a claim by a contractor that has not been resolved. The city is actively working to provide Missouri's State Emergency Management Agency with the documentation that will allow this contractor to be paid from Federal Emergency Management Agency funds. The previous administration had not provided the required documentation and left the files scattered throughout the city's offices, much of which are missing. This has made it extremely difficult for the new administration to provide the required documentation.

The new administration and Board are developing a plan to pay existing obligations and to fund future projects. This is being accomplished by aggressively reducing spending where possible, implementing controls and management practices to ensure efficient use of resources, monitoring detailed financial data that includes cash balances for each fund, and closely monitoring budgets.

2. Budgets and Financial Reporting

City officials did not prepare complete and accurate annual budgets or monitor budgets appropriately. They also did not publish semiannual financial statements, file annual financial reports, or obtain required audits for the city's sewer system.

2.1 Budgets

The Board does not have adequate procedures to prepare or monitor budgets.

Preparation

The city's budgets do not contain all statutorily required elements. The fiscal year 2017 and 2018 budgets did not include the actual or budgeted amounts for the 2 preceding years or the city's indebtedness information. In addition, the fiscal year 2018 budget did not include the actual beginning and estimated ending cash balance for any funds, a budget message, or a budget summary. Also, as of September 2019, the Board has not prepared and passed a budget for calendar year 2019. As a result, the Board is not using all available information to assist in effectively managing the city and the public is not provided a complete overview of city finances.

Section 67.010, RSMo, requires the budget to present a complete financial plan for the ensuing budget year and outlines the various information to be included in the budget. A complete budget should include the beginning available resources and a reasonable estimate of the ending available resources. Section 67.080, RSMo, provides that no expenditures of public monies should be made unless it is authorized in the budget. A complete and well-planned budget, in addition to meeting statutory requirements, serves as a useful management tool by establishing specific financial expectations for each area of city operations. It also assists in providing information to the public about city operations and current finances and in setting the tax levy and utility rates.

Monitoring

The Board does not adequately monitor budget-to-actual receipts and disbursements. Detailed year-to-date budget-to-actual reports of financial activity are not presented to the Board. As a result, actual disbursements had already exceeded the annual budgeted amount in the Sewer Fund by $38,896 through December 31, 2018, without the Board knowing the budget has been overspent. The former City Administrator indicated city officials do not amend budgets.

Without appropriate financial data, it is apparent the Board is not adequately monitoring the city's financial condition on a regular basis. In addition, Section 67.040, RSMo, requires political subdivisions to keep disbursements within amounts budgeted, but allows for budget increases if the governing body officially adopts a resolution setting forth the facts and reasons. In addition, Section 67.080, RSMo, provides that no disbursement of public monies should be made unless it is authorized in the budget. Proper monitoring and amending prior to disbursing funds is necessary for the budget to be an effective management tool and comply with state law.

2.2 Published financial statements

The financial statements have not been published for the year ended December 31, 2018. As a result, information regarding the city's financial activity and condition is not available to citizens.

City ordinance 130.140 requires the Board to publish semiannual financial statements in January and July each year. In addition, Section 79.160, RSMo, requires the Board to prepare and publish semiannual financial statements that include a full and detailed account of the receipts, disbursements, and indebtedness of the city.

2.3 Filing of financial reports

City officials did not file timely annual financial reports with the State Auditor's Office as required by state law. The city's financial report for the year ended December 31, 2017, due by June 30, 2018, was not filed until September 10, 2018. In addition, financial reports were not filed for the years ended December 31, 2015, and 2016.

Section 105.145, RSMo, requires each political subdivision to file annual reports of its financial transactions with the State Auditor's Office. Section 105.145(5), RSMo, prohibits elected officials from continuing to receive compensation or processing disbursements after the deadline to submit the financial statement and until the financial statement is submitted to the State Auditor's Office. Section 105.145(9), RSMo, allows political subdivisions to be fined $500 per day for missing filing deadlines. In addition, 15 CSR 40-3.030, requires each political subdivision to file annual financial reports within 6 months of the end of the subdivision's fiscal year.

2.4 Annual audits

The city has not obtained annual audits of its sewer system as required by state law. Section 250.150, RSMo, requires the city obtain annual audits of the sewer system and the cost be paid from revenues received from the system. The city is also required to obtain annual audits as a condition of bond covenants.

Recommendations

The Board of Aldermen:

2.1 Prepare accurate annual budgets that contain all information required by state law, and ensure the budgets are adequately monitored.

2.2 Ensure publication of the city's semiannual financial statements as required by state law.

2.3 Submit annual financial reports to the State Auditor's Office as required by state law.

2.4 Obtain annual audits of the sewer system as required by state law and bond covenants.

Auditee's Response

The city fully accepts and will implement the SAO's four recommendations concerning the city's budgets and financial reporting.

2.1 It is true that the previous administration did not prepare complete and accurate annual budgets or monitor budgets. Nor did the previous administration prepare or publish statutorily required semi-annual financial statements. Indeed, the previous administration left the city's financial records in disarray.

However, the city has undertaken the reconstruction of its financial records, which has been a very long, difficult, and ongoing process. The city now prepares and publishes semiannual financial statements. It also has current financial statements available to the Board and the public at each monthly public Board meeting

When due, the city will now be able to file its annual financial statements. The city will also obtain the required audits for the city's sewer system when funds become available to do so.

The city agrees that a complete and well-planned budget is needed to (1) meet statutory requirements, (2) serve as a useful management tool to establish specific financial expectations for each area of city operations, and (3) provide information to the public about city operations and current finances. Because of the lack of adequate or reliable documentation from the previous administration, it has been difficult to determine the city's current financial position, current financial obligations, future income, and future expenses. Compounding this lack of documentation is the lack of funds needed to hire the required professionals to assist the city in obtaining and properly recording this information. However, the new administration has been working in earnest to prepare an accurate budget that has validity and is striving to have an accurate budget in place for 2020.

It is true that the previous administration failed to adopt, use, or update a budget to monitor the city's finances and expenditures. This is one of the reasons that the city now faces a financial crisis.

The new city administration is committed to developing an accurate and valid budget, using that budget to monitor the city's finances, and plan the city's activities. The new administration will also keep expenditures to budgeted amounts until a proper budget amendment is adopted that does not result in deficit spending.

2.2 Although the previous administration did not publish the required financial statements, the new administration has now done so. The

new city administration did not expend funds until the financial statement was published. As noted earlier, the new administration has current financial statements available to the Board and the public at each monthly public Board meeting that include a full and detailed account of the receipts and disbursements.

2.3 The failure of previous city personnel to prepare and timely file the city's annual financial reports with the SAO (as required by state law) has presented the current city government with many challenges. The most significant one for this finding is the work required to recreate the data on which to build accurate reports and budgets. The city will file its 2019 annual financial report within 6 months of the end of 2019.

2.4 The city is looking forward to an audit of the sewer system to ensure that the new practices that have been implemented meet not only the needs of the city and its financial obligations, but the law as well. The city has already raised the property taxes to ensure there would be enough funds to meet the city's bond obligations. The city plans to put that tax money into a separate fund used only to pay the bond obligations.

3. Restricted Funds and Recording Financial Transactions

The city has not established adequate procedures to ensure revenues and expenditures are credited to the appropriate fund or to ensure restricted monies are used only for intended purposes.

The receipt and disbursement information in the computerized accounting system may not be complete and accurate. Receipts and disbursements are not recorded consistently to the correct fund or account, all interfund transfers and several deposits did not include supporting documentation, and revenue and expense accounts are not reviewed and reconciled to ensure accuracy. As a result, we could only present summarized information from city bank statements in the Schedule of Receipts, Disbursements, and Changes in Cash Balances included in the Organization and Statistical Information section of this report.

3.1 Transfers and commingling of funds

The city uses restricted monies to finance general operations of the city. The Board has not established controls to ensure transfers between funds are proper, documented, and approved by the Board. In addition, minutes do not document the discussion or approval of transfers. As a result, restricted monies are commingled with general operating funds and are not always used for their intended purpose and misuse of restricted funds may occur. The city transferred $75,570 and $65,611 from the Water Fund and Sewer Fund, respectively, during the year ended December 31, 2018.

Transfers

The city does not prepare supporting documentation for amounts transferred from the Water Fund and Sewer Fund to the General Fund that have been used to pay city operating expenses.

Transfers from restricted funds to General Funds should occur only for allowable and specific purposes, and the reasons should be adequately documented and approved by the Board.

Deposit and disbursements

The city does not ensure restricted monies are properly deposited and disbursed. A review of deposits and disbursements of restricted monies identified the following issues:

- The city deposited water and sewer revenues totaling $1,496 and $1,744, respectively, into the General Fund checking account. In addition, sewer revenues totaling $2,451 and $5,731 were deposited into the Renovation Fund and Water Fund checking accounts, respectively. The former City Administrator could not explain why these deposits occurred.

- The former City Administrator indicated he incorrectly paid $623 of the public works employee's salary from the Sewer Fund instead of the Water Fund in August 2018. In addition, the city incorrectly paid salaries totaling $2,728 from the Water Fund instead of from the General, Sewer, and Police Funds during the year ended December 31, 2017.

Monies received should be deposited into the appropriate bank account. Section 250.150, RSMo, restricts the use of water and sewer monies for operating the systems, payment of bonds, establishment of a reserve, fulfillment of any agreements contained in ordinances, and payment of costs of improvements of such systems.

3.2 Recording and allocation of revenues and disbursements

The city does not have controls and procedures to ensure revenues and disbursements are accurately and consistently recorded. As a result, financial statement information is not accurate, complete, and useful when assessing results of city operations. Our review noted several issues.

Allocation

The former City Administrator indicated he transferred monies from several funds to cover payroll expenses, but had no documentation to justify the allocation of the amounts transferred. As a result, restricted monies may have been used to pay employees performing work for the city's general operations. In addition, city personnel allocate fuel costs equally between the Police, Public Works, Water, and Sewer Funds, but could not provide documentation to justify the allocation to the various funds.

To ensure funds are used for intended purposes, the allocation of expenditures to city funds should be based on specific criteria and documentation supporting allocation decisions should be retained.

Recording

A review of disbursements determined $6,065 in fall festival disbursements were incorrectly recorded as spring tractor pull disbursements. In addition, $1,700 in spring tractor pull disbursements and $1,163 in fall festival disbursements were recorded as "other" in the Renovation Fund. Two additional fall festival disbursements were not recorded. As a result, fall festival disbursements were understated by $13,978 and the spring tractor pull disbursements were overstated by $4,365. The city lost $2,407 and $628 on the fall festival and spring tractor pull events, respectively. In addition, poor records and inconsistent recording of transactions could result in greater losses.

City personnel recorded several transactions under "other" for both revenues and disbursements. As a result, they cannot determine the specific source for revenues or cost associated in the "other" account. The city's financial statements include $155,226 in "other revenues" out of total revenues of $1,441,362 for the year ended December 31, 2018.

The proper recording of revenues and disbursements is necessary to accurately determine the results of operations of specific activities, thus enabling city officials to establish the level of taxation and/or user charges necessary to meet all operating costs.

Recommendations

The Board of Aldermen:

3.1 Establish a process to ensure transfers between funds are proper, approved, and timely. In addition, the Board should ensure monies received are deposited in the appropriate bank accounts and restricted monies are spent for allowable purposes only. The Board should also develop plans to repay the amounts owed to the Water and Sewer Funds.

3.2 Allocate disbursements to city funds based on specific criteria and retain documentation to support the allocation. In addition, ensure revenues and disbursements are properly recorded.

Auditee's Response

The city accepts and will adopt the SAO's two recommendations. However, due to the magnitude of the previous administration's improper transfers of restricted funds, and the limited financial resources available to the city, the repayment of amounts owed to the Water and Sewer Funds will require a long-term plan.

The new administration shares the SAO's frustration with the previous administration's financial record keeping. Revenues and expenditures were not credited to the appropriate fund, which allowed restricted monies to be used for other purposes. The information in the computerized accounting system was not complete or accurate and had to be painstakingly recreated or verified. Transactions did not include supporting documentation, and

revenue and expense accounts were not reviewed and reconciled to ensure accuracy.

3.1 The previous administration used significant sums of restricted monies to finance general operations of the city. The new administration has not done so, and has established controls to ensure transfers between funds are proper, documented, and approved by the Board. Restricted monies are no longer commingled with general operating funds and are now used only for their intended purposes.

The previous administration's failure to prepare or keep supporting documentation for amounts transferred from the Water Fund and Sewer Fund to the General Fund to pay operating expenses has caused the current administration significant difficulties in formulating an accurate budget. Transfers from restricted funds to General Funds will now occur rarely and only for allowable and specific purposes, with reasons documented and approved by the Board at open meetings.

The new administration has corrected the previous administration's failure to ensure that restricted monies are properly deposited and disbursed. Monies received are now deposited into the appropriate bank account. Water and sewer monies will only be used for operating the systems, payment of bonds, establishment of a reserve, fulfillment of any agreements contained in ordinances, and payment of costs of improvements of such systems.

3.2 The new administration is implementing controls and procedures to ensure that revenues and disbursements are accurately and consistently recorded.

Since the new administration took over in April 2019, all monies received are broken down and deposited into the proper accounts and no monies are transferred out of any of the accounts without the knowledge and consent of the Board. There are no transfers made out of restricted accounts into General Funds except for wages paid to the city worker to cover actual hours worked on the water and sewer systems.

There are funds transferred out of the Sewer account and into a segregated Sewer money market account monthly so it can draw a little interest and to have it available to pay for the sewer bonds coming due. This is to ensure that the money is not inadvertently spent on other outstanding debt other than the bonds.

The previous administration's lack of accurate recording of revenues and expenses is very troubling. As the SAO notes, it has been difficult to determine the legitimacy of various transactions. It has also made it extremely difficult to accurately determine the results of operations of specific activities and compiling a meaningful budget. The prior Board had no control over where the monies were deposited, spent, or recorded. That is simply not allowed by this administration. Any and all financial transactions are recorded properly and with the knowledge and consent of the Board.

4. Disbursements

City disbursements were not properly supported or approved and some disbursements were questionable. In addition, the city did not properly bid or report some disbursements as required.

4.1 Disbursement documentation and review

Significant improvement is needed in the city's disbursement documentation and review procedures. We reviewed disbursements made between January 2018 and April 2019.

Unsupported disbursements

Our review identified disbursements that did not have supporting documentation and no one could explain their purpose.

City personnel could not provide supporting documentation for 14 checks totaling $6,212 written to the former City Administrator and signed by the former City Administrator and former Mayor. Two of these checks, totaling $1,256, were handwritten when common city practice was to issue printed checks. City personnel were unaware of the purpose of the checks or if the disbursements were for a city purpose. We attempted to obtain an explanation of the purpose of the disbursements, how they related to city business, and any supporting documentation from the former City Administrator in June 2019, but as of September 27, 2019, no response was provided.

City personnel could not provide detailed invoices for 5 of 20 disbursements, totaling $5,913, reviewed for the year ended December 31, 2018. Disbursements included purchases of building supplies ($2,609), police equipment ($1,869), training ($400), a city sponsored Easter egg hunt ($161), and uniforms ($874). Detailed invoices documenting quantity, price, and items purchased were not included with the payment. In addition, city personnel did not have supporting documentation for 12 non-payroll checks, totaling $5,050, made payable to some city police officers and an electronics store purchase, totaling $447, made by the former City Administrator. City personnel obtained a copy of the receipt from the electronics store and determined it was for a camera, but the camera cannot be located in city offices and city personnel could not provide additional information about the purpose of the camera purchase.

Approval of invoices

City personnel did not document their review and approval of invoices or the receipt of goods or services. We identified 19 of 20 invoices reviewed totaling $35,455 that did not have documented approval.

To ensure obligations were actually incurred and amounts paid were proper, all disbursements should be reviewed, approved, promptly recorded with sufficient details in the accounting records and supported by paid receipts, itemized vendor invoices, or other detailed documentation with payment information clearly indicated.

4.2 Questionable purchases

The city reimbursed unreasonable and/or unnecessary purchases made by city personnel while attending a training seminar at the Lake of the Ozarks. As noted in MAR finding number 9, the city has not established a travel policy to clearly document travel costs to be reimbursed.

A review of disbursements reimbursed for the training trip noted meal charges of $120, $198, and $162. The receipts indicated costs were for one person and a detailed receipt showing the items purchased was not included. In addition, we noted reimbursements for sunscreen and cigarettes. Further, the payment to reimburse the $120 meal was duplicated.

Public funds should be spent only on items necessary and beneficial to the city. Citizens have placed a fiduciary trust in their public officials to spend city monies in a prudent and necessary manner.

4.3 Fuel cards

The city does not have procedures to adequately monitor fuel card accounts and fuel use to detect unauthorized use. The city also does not ensure fuel card access is restricted after an employee is placed on administrative leave, and, as a result, employees on administrative leave purchased fuel with city fuel cards. City employees make the majority of fuel purchases using fuel cards they share. For the year ended December 31, 2018, the city paid vendors $16,874 for fuel charged.

From April 10, 2019, through April 22, 2019, the former City Administrator and 4 other employees made 10 fuel purchases totaling $504. These individuals had been put on administrative leave on April 10, 2019. City officials were not aware they continued to use city fuel cards until we discussed this issue with them in May 2019. City officials also do not require current public works and police department employees to turn in individual fuel tickets for each fuel card purchase and usage or fuel logs are not required for any city vehicles, making it difficult to determine if all fuel purchases are for city vehicles.

Adequate controls should be in place to properly monitor fuel card use to ensure accuracy, necessity, and reasonableness. Requiring fuel tickets be signed by the user, submitted to the City Clerk, and reconciled to invoices

helps provide assurance the fuel billed was charged by city personnel and fuel disbursements were reasonable and necessary. Failure to account for fuel purchases could result in loss, theft, or misuse going undetected. Without complete and detailed usage/mileage logs, the city cannot effectively monitor the appropriateness of vehicle use and ensure fuel costs are reasonable.

4.4 Procurement procedures and contracts

City officials did not always solicit bids or proposals as required by city policy. Also, they could not provide some written contracts and some contracts were not sufficiently detailed. The Board selected the city attorney in August 2014 without soliciting proposals and has not solicited proposals for city attorney/legal services since that time. In addition, city officials did not retain support documenting that the city obtained bids prior to purchasing a police car for $9,000. Also, city officials did not obtain bids for equipment purchased/rented, totaling $7,378, including drilling services ($904), sled rental ($1,200), and uniforms ($874). No one could provide a written contract for the city's current accounting services and the former city attorney's contract did not clearly document monthly charges for municipal court services provided.

City procurement policy states, "…written quotes should be obtained for all purchases in excess of $250." Competitive bidding helps ensure the city receives fair value by contracting with the lowest and best bidders. In addition, bidding helps ensure all parties are given an equal opportunity to participate in the district's business. Written contracts are necessary to ensure all parties are aware of their duties and responsibilities and to prevent misunderstandings. Section 432.070, RSMo, requires contracts for political subdivisions to be in writing.

4.5 1099-MISC forms

The city did not prepare and file 1099-MISC forms with the Internal Revenue Service (IRS), as required, for legal services received for the year ended December 31, 2017. During the year, the city paid $10,700 for legal services.

Sections 6041 through 6050W of the Internal Revenue Code require non-wage payments of at least $600 in one year for professional services or for services performed as a trade or business by non-employees (other than corporations, except for medical and legal services), be reported to the federal government on 1099-MISC forms. To ensure compliance with IRS requirements, the city should ensure 1099-MISC forms are issued in all applicable instances.

Recommendations

The Board of Aldermen:

4.1 Maintain adequate supporting documentation for all disbursements and ensure all disbursements are recorded in the accounting system. The Board should ensure invoices are adequately reviewed and approved and require documentation of receipt of goods and/or services prior to payment of invoices.

4.2 Ensure all disbursements are necessary and prudent uses of public funds.

4.3 Ensure all credit card accounts are properly monitored and credit cards are turned in by employees when their employment has been terminated or suspended. The Board should also establish adequate records and procedures to effectively monitor vehicle and fuel use. Fuel tickets should be submitted to the City Clerk and reconciled to fuel invoices. Usage/mileage logs should be maintained for all vehicles and compared to fuel use.

4.4 Ensure formal bidding policies and procedures are followed, periodically solicit proposals for professional services, and enter into clearly written agreements for those services.

4.5 Ensure payments totaling greater than $600 to non-employees and businesses are properly reported to the IRS. The city should file amended 1099-MISC forms for past years.

Auditee's Response

The city accepts and will adopt the SAO's five recommendations concerning disbursements.

The new administration has taken steps to ensure that there are no disbursements paid without a reimbursement form being completed and the cash register receipt attached to it. The reimbursement form includes who purchased the item, where, what was purchased, and what it was used for.

4.1 The previous administration's lack of disbursement documentation and review procedures resulted in the problems highlighted by the SAO as well as several others.

Many of the previous administration's disbursements did not have supporting documentation and the previous staff could not adequately explain the specific purpose of those disbursements.

Going forward, supporting documentation of the quantity, price, and items purchased, as well as a clear statement of the specific purpose of the disbursement will be required for each check. All checks will be printed rather than handwritten.

The lack of proper documentation is not just a bookkeeping problem. The city has not been able to recover all assets that were represented to have been purchased with city funds -- such as the camera.

The current administration agrees that the previous administration's lack of proper review and approval of invoices or the receipt of goods or services has had significant negative consequences for the city.

To ensure that obligations are actually incurred for a proper city purpose, and the amounts paid are proper, all disbursements will be reviewed, approved, promptly recorded with sufficient details in the accounting records and supported by paid receipts, itemized vendor invoices or other detailed documentation with payment information clearly indicated. The Board will approve the payment of all bills.

4.2 *The city agrees that public funds must only be spent on items that are necessary and beneficial to the city. They must also be spent in a prudent manner. The examples of the types of expenses reimbursed by the previous administration do not meet these standards by far.*

Currently, the city has no one attending training seminars, but could in the future. Prior to that happening, the city will implement policies that clearly list a per diem for all expenses to be incurred and all expenses will need to be submitted for reimbursement using the process described above. As stated above, no one is reimbursed for any expenses without the proper documentation and authorization.

4.3 *The fuel cards have been canceled and all fuel purchased for city use is reimbursed using the reimbursement method stated above. Due to the mismanagement and abuse of fuel cards by the prior administration, the city is still trying to determine how the outstanding debt on the fuel cards will be paid. The former employees who improperly used the cards will be required to repay any unauthorized amounts.*

4.4 *After locking the doors to City Hall to regain control of the city's finances and records, the current administration had to quickly hire a new, experienced City Attorney to establish proper procedures to put the city's house in order. A complicating factor in acquiring this new attorney was that payment could not be guaranteed. The city did sign a written contract with the new attorney based on a proper ordinance authorizing its execution. That written contract clearly documents his fees. Once the city has regained some stability and ability to pay, it will seek proposals for a City Attorney.*

The city was forced to put most of its work force on administrative leave. There are no contracts signed without review from the attorney.

The city has not made any major purchases since the new administration took over in April 2019, so obtaining bids has not been an issue. The new administration will be looking into all city policies and will be updating/rewriting them as needed. This will include the procurement policy foremost, and then generally all the policies to ensure that the city's interests are protected and its activities are transparent.

4.5 1099-MISC forms will be filed with the IRS for all the years where supporting documentation exists.

5. Accounting Controls and Procedures

Numerous weaknesses exist with the city's accounting controls and procedures. The city receives monies for sales, real estate, personal property, and utility gross receipts taxes; merchant licenses; building permits; city sponsored events; and other miscellaneous items.

5.1 Segregation of duties

The Board has not adequately segregated accounting duties or ensured a documented supervisory or independent review over various financial accounting functions is performed.

The City Clerk position is responsible for most financial duties of the city including receipting monies, preparing deposits, posting transactions to the accounting system, preparing invoices for payment, maintaining payroll records, preparing and distributing payroll and accounts payable checks, preparing monthly bank reconciliations, transferring monies between bank accounts, and preparing financial reports for Board meetings. The City Clerk is also responsible for preparing utility bills and monitoring accounts receivables.

Proper segregation of duties helps ensure all transactions are accounted for properly and assets are adequately safeguarded. If proper segregation of duties cannot be achieved, documented independent or supervisory reviews of accounting and bank records should be performed.

5.2 Bank account reconciliations and fees

Controls and procedures over bank accounts and reconciliations need improvement. We identified the following issues:

- City personnel did not prepare bank reconciliations for 5 of 10 months between January and October 2018. For the 5 bank reconciliations prepared, the reconciliations did not include a detailed listing of deposits in transit or outstanding checks to support the reconciliation.

- The Board and the former City Clerk failed to monitor the city's cash balances. As a result, the city incurred $157 in overdraft and returned item fees in the general, water, and renovation bank accounts during calendar year 2018.

The preparation and retention of formal monthly bank reconciliations is necessary to ensure accounting records are accurate and in balance and to identify errors timely. To prevent bank account overdraft and minimum balance charges, city officials should more closely monitor bank account balances.

5.3 Spring tractor pull and fall festival

The city does not maintain adequate records of spring and fall event monies received, and as a result, city officials cannot ensure all monies collected are accounted for and deposited. The city deposited $39,282 from admission fees and beer sales from the 2018 spring and fall events.

The city holds an annual fall festival and spring tractor pull and collects admission fees from customers attending both events. The city also operates a beer booth at each event. Each collection point has a cash box used by volunteers to hold monies collected. Throughout the day, someone representing the city, along with a city police officer, picks up the money from the collection points and places it in the drop safe at city hall for deposit. The city does not keep a record of admission fees collected or beer sales and does not try to reconcile admissions or products sold with monies received to account for all monies collected.

Failure to implement adequate receipting and depositing procedures increases the risk that loss, theft, or misuse of funds will go undetected. To adequately safeguard receipts, receipt records should be prepared for event monies received and admissions and booth sales should be tracked and reconciled with monies collected.

Recommendations

The Board of Aldermen:

5.1 Segregate the accounting duties to the extent possible and implement appropriate reviews and monitoring procedures.

5.2 Ensure monthly bank reconciliations are prepared and reconciled timely, and any differences are promptly investigated and resolved. In addition, the Board should also properly monitor bank account balances to avoid unnecessary bank fees.

5.3 Ensure receipt records are maintained and reconciled to the composition of the deposits. In addition, the Board should develop procedures to track and reconcile admission fees and booth sales to monies collected.

Auditee's Response

The city accepts and will adopt the SAO's three recommendations concerning accounting controls and procedures. However, due to limited funds and personnel, full segregation of duties may not be possible. The city will have an election in April 2020 to select a City Collector, or possibly obtain voter

approval for the appointment of a City Collector to provide greater segregation of duties.

5.1 The city still has weaknesses in this area due to the fact that the city cannot afford to hire additional personnel to divide the duties of the City Clerk. However, procedures have changed providing much greater overview and the Board is provided copies of the bank reconciliation reports every month.

5.2 Bank reconciliations are not only done every month, but this administration went back to January 1, 2017, and did monthly bank reconciliations on every account since that time. Every account is now balanced and in sync with the bank. Bank balances are monitored on a daily basis and there are no overdrafts.

5.3 There was no spring tractor pull this year, but there is a fall festival planned. There will not be admission fees charged, but there will be monies charged for some games, food, and refreshments. There are plans to pick up the monies brought in at certain points during the event, but the procedures will change.

First of all, the monies will be counted at the point of pickup. The person counting the money will put the amount on a piece of paper and sign their name. The person picking up the money will also sign the document. Once at City Hall, the money will be recounted before being put into a central place for deposit into the bank. Once counted the amount will be entered on the same paper and a second person acting as a witness of the money count will sign the document.

We are also looking into using tickets to inventory the number of meals sold and in some instances goods sold. These inputs will be used to try to match "inventory" to sales.

6. City Procedures

City procedures need improvement.

6.1 Mayoral election

The Board did not swear in the mayoral candidate elected on April 3, 2018, or comply with a subsequent Prosecuting Attorney's order for the appointed mayor to resign. The Board stated the candidate falsely completed his application and therefore was not a qualified candidate, but provided no specific information about the falsified application or the Board's authority to decline to swear in an elected candidate.

The mayoral candidate completed and signed the Declaration of Candidacy, which was accepted by the former City Administrator prior to the election, as required. The candidate subsequently won the April 3, 2018, mayoral election

and the election results were certified by the Lincoln County Clerk on April 9, 2018. However, at the April 16, 2018, Board meeting, the Board unanimously voted not to administer the oath of office to the mayor-elect stating the candidate had falsely attested to the accuracy of his application. The Board cited the candidate had violated Section 115.306, RSMo, which states "No person shall qualify as a candidate for elective public office ….who has been found guilty or pled guilty to a felony under the federal laws…." The Board provided no other specific information and did not cite its authority to decline to swear in the elected candidate. The Board subsequently appointed another person to serve as mayor.

On July 25, 2018, the Lincoln County Prosecuting Attorney sent a letter to the appointed mayor stating "because of the election results on April 3, 2018, you are not entitled to hold that position any longer." Further the Prosecuting Attorney stated that "pursuant to the election results on April 3, 2018, election laws, and RSMO 531.010, I am respectfully requesting you to resign your position immediately without further issue. Should you fail and refuse to comply with my directive, I will be forced to take legal action to enforce the election results." In addition, the Prosecuting Attorney contacted the Missouri Attorney General's Office concerning this matter. The city did not comply with the Prosecuting Attorney's directive.

A subsequent mayoral election occurred on April 2, 2019, at which time the same candidate was again elected mayor. He was sworn into office at the Lincoln County Courthouse on April 8, 2019, by Presiding Judge Patrick S. Flynn of the 45th Judicial Circuit and is currently serving as mayor. The candidate could have previously been sworn in by the court but chose not to pursue this approach in 2018.

Chapter 115 RSMo, governs elections and provides for the methods of contesting a candidate's qualifications and election results. To ensure compliance with state law and the propriety of statutory authority, the Board should consult with legal counsel prior to any future votes regarding candidate qualifications or not swearing in an elected candidate.

6.2 Combined positions

The combination of the positions of City Administrator and Police Chief violates state law and creates a potential conflict of interest.

The former City Administrator was initially hired as a city police officer in January 2012 and promoted to Police Chief in August 2014. The Board appointed him as City Administrator in March 2015, and he continued to serve as the city's Police Chief. The City Administrator is responsible for oversight of financial functions and general supervision of the various departments and functions of the city (including the police department). The combination of these positions represents a violation of state law and resulted in potentially conflicting duties.

Section 77.044, RSMo, states that a city administrator shall devote his full time to the performance of the duties of his office. As a result, the statute would prohibit a city administrator from holding other city offices or positions.

Recommendations

The Board of Aldermen:

6.1 Consult legal counsel before any future votes on candidate qualifications or to decline to swear in an elected candidate.

6.2 Ensure the City Administrator does not serve in other city offices or positions.

Auditee's Response

The city accepts and will adopt the SAO's two recommendations concerning the city's procedures.

6.1 This administration believes the prior administration's failure to swear in the elected Mayor was illegal and should have never happened. This administration believes that no one is above the law and no one individual or group has the power or authority to override the choice of the people by not swearing in the certified winner of an election.

6.2 The city ordinance that created the position of City Administrator states the same requirement listed in the report forbidding the combination of the positions of City Administrator and Police Chief. Prior to his election as Mayor in April 2019, Charles Turbyeville brought this issue to the attention of the prior City Attorney on several occasions along with citations to applicable Missouri Ethics Commission regulations and statutes. Mr. Turbyeville also raised concerns over paying the City Administrator for "side jobs" without soliciting bids, in addition to the City Administrator's salaries for the City Administrator and Police Chief positions. The prior City Attorney refused to admit that there was anything wrong with one person holding two positions or with making payments for extra jobs without bids. Upon his election, Mayor Turbyeville corrected this illegality by removing the City Administrator. It cannot be stressed too much that this action by Mayor Turbyeville prevented further financial losses for the city. If it had been taken earlier by the prior administration when it was raised by Mr. Turbyeville, the city would not be so financially distressed.

7. Payroll and Related Issues

Payroll controls and procedures need improvement. We noted numerous problems with the city's payroll and procedures. The city had payroll expenditures of $164,994 for the year ended December 31, 2018.

7.1 Payroll taxes

City officials did not ensure payroll taxes were paid as required and some compensation was not reported on employee W-2 forms. City officials failed to timely file and remit federal payroll taxes, totaling $17,666 to the IRS for the 2 quarterly periods ending September 30, 2018. In addition, the city did not file and remit state payroll taxes totaling $3,510 to the Missouri Department of Revenue for at least the 3 quarterly periods ending September 30, 2018. City officials also indicated payroll taxes were not paid in previous years or in 2019. As a result, the city may be subject to penalties and interest.

The city paid compensation totaling $3,120 to the former City Administrator per his contract for health insurance during the year ended December 31, 2018. These payments were not included on the employee's W-2 form and as a result were not subject to payroll tax withholdings.

The Internal Revenue Code requires employers to file a 941 form by the last day of the month following the end of the quarter, along with payment of Social Security and Medicare taxes withheld from employees and the employer's share, as well as federal income taxes withheld. Similarly, Chapter 143, RSMo, includes requirements for reporting wages and withholding state income taxes. The IRS requires employers to report all compensation on W-2 forms and withhold and remit income and payroll taxes.

7.2 Personnel policies

The city's personnel policy does not adequately address overtime and established policies are not always followed.

Nonworking time (vacation, sick leave, and holidays) is included in total hours worked when determining the amount of overtime earned by employees, which is not required by the Fair Labor Standards Act. As a result, the city has been paying more overtime to employees than required. The city does not have a policy addressing the hours (nonworking time) to be considered when calculating overtime.

City officials also do not follow an established policy regarding paying employees for lunch periods. The city payroll policy states, "Lunch period is one hour and is unpaid. Employees should clock out and clock in via timesheet or time card stamp." During our review of employee timesheets, we noted employees were not clocking out and back in to indicate their lunch hour. The former City Administrator indicated employees are paid for lunch.

Written personnel policies and strict compliance with those policies is necessary to ensure equitable treatment of employees, prevent misunderstandings, and ensure employees are properly compensated.

7.3 Incomplete personnel records

Employment records for employees are not complete. We reviewed the personnel files for 6 employees to ensure proper documentation was maintained. Our review of the personnel files noted 2 employees' files were missing the I-9 form and the form was incomplete for the other 4 employees.

In addition, the state W-4 form was missing for 4 employees and 1 employee file was missing the federal W-4 form.

Complete personnel records should be maintained for all employees to provide documentation of personnel actions. The IRS requires employers to ensure a W-4 form is completed by each employee to support payroll withholding and taxes. In addition, according to the Immigration Reform and Control Act of 1986, an individual may not begin employment unless an I-9 form is completed.

Recommendations

The Board of Aldermen:

7.1 Ensure payroll tax returns are filed timely and delinquent payroll taxes are remitted. In addition, the Board of Aldermen should ensure previous years' W-2 forms are amended, as appropriate, and compensation is properly reported and subjected to proper withholdings.

7.2 Review and update the personnel policy, as necessary, and ensure compliance with the policy.

7.3 Ensure employment records are maintained and complete for all employees.

Auditee's Response

The city accepts and will adopt the SAO's three recommendations concerning the city's payroll and related issues.

7.1 It has been discovered that payroll taxes were not paid in 2015, 2016, 2017, 2018, or 2019. The city is trying to determine how it will find the funds to pay these taxes. Meanwhile, the city has changed the way payroll will be handled. The monies to pay payroll will come from a separate account and the monies subtracted from the employee's checks for withholding will be left in this separate payroll account until the end of the quarter, so it can be sent along with the appropriate 941 form to the taxing agencies. Furthermore, the amounts needed to cover the employer's portion of Medicare and Federal Insurance Contributions Act withholdings will be added to the payroll account when the checks are paid so it will be there when the amounts become due. The 941 forms will be filed on time accompanied by the payment under the new administration.

7.2 All existing city policies are being reviewed. Most of them were created by the prior City Administrator who unilaterally changed and interpreted them. The personnel policies will be rewritten by the new Board to follow accepted practices.

7.3 All employees will have the proper documentation on file including the W-4 and I-9 documents. Furthermore, those documents will be placed in their permanent personnel files. The personnel files will be maintained to the state's document retention standards.

8. Utility System

Significant weaknesses exist in the city's utility system controls and procedures. As a result, there is less assurance all utility payments have been properly recorded and transmitted. The city collected $82,797 in water revenues for the year ended December 31, 2018.

8.1 Water loss

City officials do not reconcile the total gallons of water billed to the gallons of water pumped, and as a result, significant differences are not investigated. Also, the city does not track the water usage for flushing the system, fire suppression, or fire hydrant testing. Without this usage information the city cannot properly perform the reconciliation. We compared water billings to reports of water pumped from January 2018 through November 2018 and noted the city did not bill 76 percent of the water pumped during this time period.

Tracking city usage, reconciling gallons of water billed to gallons of water pumped, and timely investigation of unexpected or significant differences is necessary to help detect significant water loss timely and ensure water usage is properly billed. According to the United States Environmental Protection Agency, most states have regulatory policies that set acceptable losses from public water systems at a maximum of between 10 to 15 percent or less.[2] The standard for Missouri established by the DNR is 10 percent.

8.2 Utility deposits

City water deposits charged do not comply with city ordinance. In addition, the city does not maintain and reconcile a listing of customer deposits held to the balance of the Water Deposit Fund checking account. The former City Administrator indicated only renters are required to pay a $150 deposit. However, city code Section 400.010, requires each water user to pay a $100 refundable deposit. The balance of the Water Deposit Fund checking account as of December 31, 2018, was $221,385; however, this amount is funding received from the Missouri DNR. None of the funds in the account are customer water deposits. City officials could not provide a list of deposits or explain why no deposits are in the account.

[2] United States Environmental Protection Agency, "Control and Mitigation of Drinking Water Losses in Distribution Systems," Appendix A, Table A-2, Selected State Standards for Unaccounted-for Water, https://www.awwa.org/Portals/0/AWWA/Government/WaterLossControl508.pdf, accessed May 28, 2019.

Compliance with the city water deposit ordinance requirement is essential to provide assurance all customers are treated equally. In addition, refundable utility deposits are restricted funds held for customers. The Board should review utility customer deposit records to ensure all deposits are accounted for properly. In addition, the City Clerk should maintain an accurate list of all utility deposits held and reconcile the list monthly to monies held in the Water Deposit Fund bank account.

8.3 Delinquent accounts and adjustments

City procedures for discontinuing services and receiving partial payments do not comply with city ordinance. The Board does not review and approve adjustments to customer accounts or a listing of delinquent accounts each month. The Utility Clerk prints and mails billings at the end of each month. Payment is due by the 10th of the following month.

Delinquent accounts

A review of customer balances noted delinquent utility accounts are not shut off after 30 days past due and a list of delinquent accounts is not provided to the Board for review as required by ordinance. In addition, the city allows some customers to make partial payments in violation of city ordinance. As of December 31, 2018, the city had 27 accounts totaling $6,206 that were at least 30 days past due. The city also charges a $45 disconnect fee when there is no ordinance establishing this fee.

City ordinance No. 1707 article V, section I, states, "All users shall be billed monthly. Billings for each month shall be made within thirty days after the end of that month. Payments are due when billings are made. Any payment not received within thirty days after the billing is made shall be delinquent." In addition, section 2 of the ordinance states "When any bill is thirty days in default, provision of water and/or sewer services to such premises shall be discontinued until such bill is paid following due notice and opportunity of hearing." City ordinance 16-03 indicates the city will not accept partial payments on past due or outstanding water or sewer bills.

Failure to enforce city ordinances results in inconsistent application of shut off procedures and reduces the incentive for customers to make timely payments. Allowing customers to receive service without paying reduces the incentive to make payments, reduces city receipts, and could impact the utility rates for other paying customers. In addition, monitoring of delinquent utility reports is necessary to identify accounts to be shut off.

Adjustments

City personnel post adjustments to customer accounts, including writing off charges caused by water leaks or incorrect meter readings, without obtaining independent approval or maintaining adequate documentation to support the reason. In addition, the Board does not review and approve all adjustments. The same employee receipts payments and posts them and billing adjustments to customer accounts with no independent supervisory review. As a result, there is an increased risk of theft and misuse occurring without being detected.

To ensure adjustments to utility accounts are valid and approved, adjustment transactions should be approved before they are made in the computer system and the posted adjustments should later be compared to the list of approved adjustments. Review and approval of adjustments by the Board is necessary to ensure adjustments made are proper.

Recommendations

The Board of Aldermen:

8.1 Ensure water use is properly metered, gallons of water pumped is reconciled to gallons billed monthly, and significant differences are promptly investigated.

8.2 Ensure compliance with the water deposit ordinance. In addition, the Board should account for all customer utility deposits previously paid, prepare an accurate list of utility deposits and reconcile to monies in the Water Deposit Fund bank account monthly, and resolve any discrepancies.

8.3 Ensure compliance with utility ordinances. The Board should also ensure utility service is shut off in accordance with city ordinance. In addition, the Board should review all adjustments made to customer accounts and require reports of delinquent utility accounts be prepared and reviewed monthly.

Auditee's Response

The city accepts and will adopt the SAO's three recommendations concerning the city's utility system.

8.1 The city has no way to track the water used to flush the system. The fire hydrants in town do not have a meter to determine the number of gallons that have flowed through them. The fire department does report the gallons of water they take from the city's water system. Those amounts were tracked by the former Public Works Superintendent, unfortunately, the prior administration did not follow through with that practice. It has been reinstated now. The city has an existing agreement with the fire department that they will not be billed for water used for fire suppression. The master meters are read on a regular basis and the daily average number of gallons is noted and if there is a large variable, the issue is investigated and corrected if needed.

8.2 When this administration took over, the account had no water deposits. There is no record of where the money went. The new administration has now reestablished the account for water deposits and is now properly depositing water deposits. The new administration is also trying to determine how to pay the fund back for monies inappropriately removed by the prior administration. Unfortunately, the water records and accounting only go back to

2017, so there is no way to know how much there should be in the account, who actually paid a water deposit, or how much was paid by each individual. This is directly due to the lack of records found in City Hall when the new administration took over.

8.3 All of the delinquent accounts have been addressed and those that were seriously late have been put on a payment plan and the overdue balances are slowly being brought current. The disconnect fee is no longer being charged.

This administration has made no adjustments to customer bills, however, a new form is being developed that will report what the adjustment is, why it is being done, the name of the customer and how it will affect the bill. Those adjustments will be included in the documents distributed for Board meetings.

9. Ordinances

City ordinances are not codified or complete. The former City Administrator stated the ordinances were out of date and he did not know when the ordinances were last codified.

- Ordinances are not maintained in an organized manner. The city uses at least five different numbering systems to number city ordinances and the table of contents is incomplete. Also, the city does not maintain an index of all ordinances passed prior to 2017. The city established a log in 2017 to document when new ordinances are passed.

- The city has not adopted an ordinance establishing elected official terms, trash rates, an employee travel policy, a conflict of interest policy, and the procedures for fuel credit card usage. In addition, ordinances have not been adopted establishing fees charged for bad checks, rental of the city community center, towing cars, and aiding with vehicle lockouts.

- The city does not have ordinances establishing the compensation for the city administrator, city clerk, public works supervisor, and police officers.

- Ordinance 130.230B establishing a fee of $0.25 per copy for public records requests is in violation of the Sunshine Law. Section 610.026, RSMo, allows a charge of $0.10 per copy.

Because ordinances passed by the Board to govern the city and its residents have the force and effect of law, it is important ordinances be complete and organized and in compliance with state laws. In addition, ordinances documenting approved salary amounts help ensure equitable treatment and prevent any misunderstandings. Section 79.270, RSMo, authorizes the Board to fix the compensation of all city officials and employees by ordinance.

Recommendation

The Board of Aldermen ensure ordinances are maintained in a complete and well-organized manner and an index of all ordinances passed and rescinded is established. The Board should establish, by ordinance, the terms and compensation of all city officials and employees; trash rates; procedures for fuel credit card use, travel and conflict of interest policies; and the fees charged for bad checks, community center rental, towing, and vehicle lockouts. The Board should also ensure ordinances comply with state law.

Auditee's Response

The city accepts and will adopt the SAO's recommendations concerning the city's ordinances.

This administration is appalled at the dismal state of the city's ordinances. Due to the seriousness of the city's debt and other issues encountered by this administration when it took over, the issue of reassembling the city's past ordinances has not been addressed as yet. However, new ordinances are adopted according to statutory procedure, and written with code sections so that they can be easily codified and indexed into a City Code. The new City Attorney is taking up the challenge of making sense of the prior ordinance book and proposing a comprehensive replacement -- including a searchable electronic version. In the process, it has been discovered that several provisions required of a fourth-class city were not adopted when Silex converted from a village to a fourth-class city. These omissions are being corrected.

It must be noted that although the existing ordinance concerning public information requests recites a copying fee of $0.25 per page, the new administration only charges the statutory fee of $0.10 per page.

10. Police Department

Controls and procedures over seized property and tickets need improvement.

10.1 Seized property

The Police Chief has not established adequate controls and procedures over seized property. The Police Chief and Evidence Custodian stated they could not locate the seized property evidence log. In addition, the Evidence Custodian could not provide documentation indicating when they had conducted a physical inventory and reconciled it to the evidence log, although he stated he performed a monthly inventory of all seized property.

Considering the often sensitive nature of seized property, adequate internal controls are essential and would significantly reduce the risk of loss, theft, or misuse of the property. Complete and accurate inventory records including information such as description, current location, case number, date of seizure, and disposition of such property, should be maintained and periodic physical inventories should be performed and the results compared to inventory records to ensure seized property is accounted for properly.

10.2 Ticket accountability

The police department has not developed adequate procedures to account for the numerical sequence of tickets and the ultimate disposition of manual tickets issued.

The department maintains a record of ticket books assigned to each officer; however, no procedures have been established to account for the numerical sequence of all tickets. We reviewed the list of the last 600 tickets ordered. The Police Chief could not locate or account for 175 of these 600 tickets. Some tickets had been assigned to officers but could not be located and 6 full ticket books were neither assigned to an officer nor in storage with other unassigned ticket books.

Without properly accounting for unassigned ticket books or the numerical sequence of tickets issued or voided and the ultimate disposition of tickets, the department cannot be assured all tickets are properly accounted for or submitted for processing to the circuit court.

Recommendations

The Board of Aldermen:

10.1 Maintain a complete and accurate seized property evidence log, and ensure a periodic inventory is conducted and reconciled to the seized property evidence log, and investigate any differences.

10.2 Ensure tickets are reconciled to the ticket book inventory. In addition, the Board of Aldermen should ensure the numerical sequence and ultimate disposition of all tickets issued or voided are accounted for properly.

Auditee's Response

The city accepts and will adopt the SAO's two recommendations concerning the city's police department.

10.1 The failure of the former Police Chief to establish adequate controls and procedures over property seized by the police department, and the failure of the former Police Chief and Evidence Custodian to locate the seized property evidence log, have placed the city at considerable risk.

The entire police department has been laid off due to lack of funds. Police services are being provided by the Lincoln County Sheriff for state law violations. City municipal violations are not being pursued at this time.

Two Missouri POST commissioned police officers have volunteered their time to properly inventory and document the seized property in the police department offices.

Proper procedures will be adopted before the city re-establishes the police department.

10.2 The prior Police Chief's failure to account for the numerical sequence of tickets and the ultimate disposition of manual tickets issued is a serious problem. The new City Attorney and the new volunteer police officer are beginning the task of tracking down these missing tickets.

The police department has been laid off due to lack of funds. Proper procedures will be adopted before the city re-establishes the police department.

11. Street Maintenance Plan

City officials have not developed a formal annual maintenance plan for city streets. We observed the streets in November and December 2018. While some were in generally good condition, we noted several were unpaved in the New Town section of the city and a section of roadway located near the community care center was in significant disrepair. The city has no current plans to pave or repair the roads.

A formal maintenance plan should be prepared in conjunction with the annual fiscal budget and include a description of the streets needing maintenance, the type of work to be performed, an estimate of the quantity and cost of materials needed, the dates such work could begin, the amount of labor required to perform the work, and other relevant information. The plan should be included in the budget message and approved by the Board. In addition, a public hearing should be held to obtain input from citizens.

A formal maintenance plan would serve as a useful management tool and provide greater input into the overall budgeting process. A plan provides a means to continually and more effectively monitor and evaluate the progress made in the repair and maintenance of streets throughout the year.

Recommendation

The Board of Aldermen establish a formal annual street maintenance plan.

Auditee's Response

The city accepts and will adopt the SAO's recommendations to adopt a street maintenance plan.

The street maintenance plan will be one of the areas included in the new budget when it is complete. Unfortunately, due to the mismanagement of funds by the prior administration, the monies needed to maintain the streets in New Town are not available and the attempt to just dump rock on the existing streets without property preparing the road bed resulted in more debt and no improvement because the rock was simply washed away by the weather. The motor fuel tax is being used to pay down the debt incurred by the prior administration. Once it is paid off and we again have the ability to

purchase more rock, we will properly address how to repair the roads in New Town.

12. Capital Assets

Controls and procedures over city property need improvement.

The city does not maintain records of its capital assets. As a result, assets are more susceptible to theft or misuse. The city's insurance carrier valued the city property, buildings, and contents at approximately $1.7 million at December 31, 2018.

The city has not developed procedures to identify capital asset purchases and dispositions throughout the year. In addition, the city has not tagged or otherwise identified most property items as belonging to the city. Also, although the former City Administrator indicated officials perform an annual inventory each December, city officials could not provide a copy of the December 2017 inventory and no inventory was performed in December 2018.

Adequate capital asset records and procedures, including annual inventories, are necessary to provide controls over city property; safeguard city assets that are susceptible to loss, theft, or misuse; and provide a basis for proper financial reporting and insurance coverage. Capital asset records should be maintained on a perpetual basis. Records should include a detailed description of the assets such as acquisition cost, descriptions, make and model numbers, and asset identification numbers; the physical location of the assets; and, the date and method of disposition of the assets. In addition, property control tags should be affixed to all property items to help improve accountability and ensure assets are properly identified as belonging to the city.

Recommendation

The Board of Aldermen ensure complete and detailed capital asset records are maintained that include all pertinent information for each asset such as tag number, description, cost, acquisition date, location and subsequent disposition. The Board should also ensure city personnel properly tag, number, or otherwise identify all applicable city property and conduct and document an annual inventory.

Auditee's Response

The city accepts and will adopt the SAO's recommendation concerning the city's capital assets.

The previous administration did not maintain records of its capital assets, nor did it inventory them. The prior administration also (1) did not properly document authorizations to acquire many assets, (2) acquired assets without any authorization from the Board, and (3) exceeded prior Board authorizations for purchases. As a result, significant city assets unnecessarily exceed the city's requirements, are missing, or are unaccounted for -- including two police vehicles that the new administration is endeavoring to reclaim. From bitter experience, the new administration recognizes that

adequate capital asset records and procedures, including annual inventories, are needed to provide controls over city property.

All capital assets are in process of being added to the city's financial statements so they can be tracked on a daily, monthly, and annual basis. Due to the lack of records, the city may never have all the information needed to document and account for all assets acquired in the past. But the city will have the information going forward. The city will also maintain a maintenance record on each major asset. The city will also implement an inventory system where all the city's assets will be properly labeled and accounted for.

Auditor's Comment

According to the city attorney, the two missing or unaccounted for police vehicles referenced in the response are involved in a title dispute.

City of Silex
Organization and Statistical Information

The City of Silex is located in Lincoln County. The city was incorporated in 1886 and is currently a fourth-class city. The city employed 5 full-time employees and 4 part-time employees on December 31, 2018.

City operations include utility services (water, sewer, and trash), police, maintenance of streets, and parks and recreation.

Mayor and Board of Aldermen

The city government consists of a mayor and 4-member board of aldermen. The members are elected for 2-year terms. The mayor is elected for a 2-year term, presides over the Board, and votes only in the case of a tie. The Mayor and Board, at December 31, 2018, are identified below. The Mayor is paid $63 per month and Board members $40 per month. The compensation of these officials is established by ordinance.

Dorothy Ford, Mayor (1)
Robert Momphard, Alderman
Justin Spanier, Alderman (2)
Steven Gamble, Alderman
Vacant (3)

(1) Chuck Turbyeville was elected in April 2019 replacing Dorothy Ford.
(2) Stuart Gambrill was elected in April 2019 replacing Justin Spanier.
(3) Dorothy Ford was elected in April 2019 filling the vacant position.

Other Principal Officials

The City Administrator and Police Chief are appointed positions. William Barnes was the City Administrator and Police Chief at December 31, 2018. His employment with the city ended in April 2019.

Financing Arrangements

The Board refunded $497,487 in sewer revenue bonds on September 29, 2017, which were originally issued on November 30, 2012, for the purpose of providing funds for extending and improving the city's sewer system. The bonds are scheduled to be paid off on April 1, 2052. The remaining principal outstanding at December 31, 2018, was $497,487. Interest remaining to be paid over the life of the bond totals $470,449.

The Board issued $277,000 in sewerage system revenue bonds on February 9, 2018, for the purpose of providing funds for extending and improving the city's sewerage system. The bonds are scheduled to be paid off on January 1, 2038, The remaining principal outstanding at December 31, 2018, was $277,000. Interest remaining to be paid over the life of the bond totals $37,143.

The Board refunded $253,597 in general obligation revenue bonds on September 29, 2017, which were originally issued on November 30, 2012, for the purpose of providing funds for extending and improving the city's sewer system. The bonds are scheduled to be paid off on April 1, 2037. The

remaining principal outstanding at December 31, 2018, was $253,597. Interest remaining to be paid over the life of the bond totals $93,038.

The Board entered into a loan agreement with the Missouri Development Finance Board for $150,000 in 2018, for the purpose of providing funds for improving the city's sewer system. The loan agreement is scheduled to be paid off on June, 15, 2038. The remaining principal outstanding at December 31, 2018, was $150,000. Interest and administration fees remaining to be paid over the life of the loan totals $51,647.

Financial Activity

A summary of the city's financial activity for the year ended December 31, 2018, follows:

City of Silex
Schedule of Receipts, Disbursements, and Changes in Cash Balances
Year Ended December 31, 2018

	General Account	Police Account	Sewer Account	Water Account	Renovation Account	Other Accounts (1)	Total
RECEIPTS	$ 145,294	44,801	102,110	87,153	27,322	807,105	1,213,785
DISBURSEMENTS	364,723	32,821	45,799	363	12,796	510,715	967,217
RECEIPTS OVER (UNDER) DISBURSEMENTS	(219,429)	11,980	56,311	86,790	14,526	296,390	246,568

Missouri State Auditor

St. Louis College Prep Charter School

Report No. 2019-107

October 2019

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the St. Louis College Prep Charter School

Attendance Data and Procedures	The St. Louis College Prep Charter School (SCP) attendance data reported to the Department of Elementary and Secondary Education (DESE) significantly overstated actual attendance resulting in excess state funding totaling at least $1.4 million. The SCP core calendar reported to the DESE did not reflect the actual days and hours students attended class. Summer school instruction hours provided to SCP students did not meet the requirements established by state law and should have been considered as part of the school's core calendar. Remedial instruction hours provided to SCP students did not meet the requirements established by state law. In addition to the concerns with the increased school hours, the SCP improperly reported increased individual student attendance.
Closure and Outstanding Liabilities	The school's sponsor and Board mutually agreed the school could no longer operate past the 2018-2019 school year due to the significance of overpayments of state funding and, as a result, has begun closure procedures, which require the school to resolve financial obligations. The SCP had outstanding liabilities/obligations totaling approximately $3.5 million, including the $1.4 million in excess state funding received.
Student Enrollment and Personnel Files	Student enrollment was not always properly documented and personnel files were not always complete making it more difficult to ensure required closure procedures could be followed. Out of 40 student files reviewed from the 2016-2017, 2017-2018, and 2018-2019 school years, 3 (7.5 percent) of the enrollment packets could not be located and another 26 (65 percent) were incomplete. Personnel records for all 5 employees reviewed were not complete and/or maintained in accordance with school board policy.
Credit Card Procedures	Credit card procedures needed improvement. SCP personnel made unsupported and other questionable credit card purchases.
Sunshine Law	The Board did not always prepare closed session meeting minutes and did not record a roll call vote to enter into closed session. In addition, meeting minutes did not document all Board actions and decisions.

In the areas audited, the overall performance of this entity was **Poor**.*

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the Board of Directors
St. Louis College Prep Charter School

The State Auditor conducted an audit of the St. Louis College Prep Charter School under authority granted in Section 29.205, RSMo. A request for an audit was received from the Department of Elementary and Secondary Education (DESE) after concerns were reported to the DESE regarding attendance reporting. We have audited certain operations of the charter school in fulfillment of our duties. The charter school engaged Daniel Jones and Associates, Certified Public Accountants (CPAs), to audit the charter school's financial statements for the year ended June 30, 2018. To minimize duplication of effort, we reviewed the report and substantiating working papers of the CPA firm. The scope of our audit included, but was not necessarily limited to, the year ended June 30, 2018, and the period of July 1, 2018, to March 29, 2019. The objectives of our audit were to:

1. Evaluate the charter school's internal controls over significant management and financial functions.

2. Evaluate the charter school's compliance with certain legal provisions.

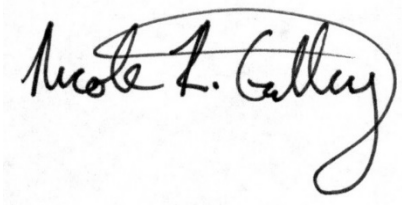
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

4. Evaluate the internal controls and accuracy of the charter school's enrollment and attendance recording and reporting and the impact on state funding.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the charter school, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, (3) the need for improvement in management practices and procedures, and (4) inaccurate enrollment and attendance reporting resulting in overpayment of state funding by $1.4 million. The accompanying Management Advisory Report presents our findings arising from our audit of the St. Louis College Prep Charter School.



Nicole R. Galloway, CPA
State Auditor

St. Louis College Prep Charter School
Introduction

Background

The St. Louis College Prep Charter School (SCP) was a charter school located in St. Louis, Missouri. The SCP was organized and governed under Sections 160.400 through 160.425, RSMo. Charter schools are independent public schools, organized as nonprofit corporations by statute, that are free from rules and regulations that apply to traditional public school districts unless specifically identified in charter school law. In exchange for flexibility, charter school sponsors are to hold the charter schools accountable for results.

In accordance with Section 160.415.4, RSMo, a charter school that has declared itself as a local education authority receives funding from the Department of Elementary and Secondary Education (DESE) based on attendance in the same manner as other school districts. The DESE reduces the local school district's funding allocation based on the charter school attendance and disburses this funding to the charter school. Charter schools also receive federal funding through the DESE.

School

The SCP began operating in the City of St. Louis in August 2011. In accordance with Section 160.400, RSMo, the SCP formed as a nonprofit corporation on March 15, 2010. The school began as a 5th-6th grade school for the 2011-2012 school year, and added an additional grade in subsequent years until the 2016-2017 school year when the SCP removed the 5th grade and added 10th grade. The SCP then added 11th and 12th grades in the 2017-2018 and 2018-2019 school years, respectively. The SCP served students ages 11 to 20 in grades 6 through 12 for the 2018-2019 school year. The SCP adopted a year-long school calendar that consisted of five instructional cycles that were 7 to 8 weeks each, beginning in August and ending in July. The SCP also adopted an extended school day.

The SCP operated at a leased location at 2900 S. Grand Ave from April 2011 to June 2015, when the school moved to a new location at 1224 Grattan Street purchased in June 2015. Total enrollment was 306 for the 2017-2018 charter school year.

The seven member Board of Directors (Board) acts as the policy-making body for the charter school's operations. Board members serve without compensation. Members of the Board at March 29, 2019, were

Steve Singer, President
Patrick Banks, Vice-President
Tricia Gooden, Secretary
Suzanne DeZego, Member
Auriel Kirkland, Member
Justin Moses, Member
Jack Horgan, Member

The charter school's interim Executive Director at March 29, 2019, was Lauren Chaney. Ms. Chaney was hired as interim Executive Director on November 8, 2018, following the resignation of the former Executive Director, Michael Malone. Her annual compensation remained the same as that of her former position as high school principal, $89,922.

Prior to his resignation, the former Executive Director's annual compensation was $100,999. He had been the SCP's Executive Director since the school's inception in 2011.

Sponsor

The University of Missouri-St. Louis (UMSL) is the SCP's sponsor. In order for a charter school to be established, the school must have a sponsor. This sponsor is responsible for accepting and reviewing the application submitted by the proposed school. From this application, a charter can be granted. This charter includes a legally binding performance contract as well as several other areas that are outlined in Sections 160.405 and 167.349, RSMo. The sponsor is also responsible for approving amendments to the charter and overseeing the school to make sure the school is fulfilling the obligations of the charter.

Attendance issues

On December 21, 2018, the State Auditor's Office (SAO) received notice from the DESE of allegations of financial impropriety concerning the SCP. DESE officials informed the SAO that Michael Malone, former Executive Director, admitted to intentionally misreporting the attendance for the 2017-2018 school year and resigned November 1, 2018. On January 7, 2019, the SAO met with the DESE officials to discuss the concerns and on January 11, 2019, agreed to perform an audit of the SCP. On February 19, 2019, the SAO began an audit of the SCP, including conducting interviews of school representatives and gathering and securing school records, including attendance records.

In September 2018, UMSL staff reported concerns about 2017-2018 and the 2018-2019 school years to the DESE. UMSL staff discussed the concerns with the SCP Executive Director. Additionally, on October 19, 2018, a former employee of the SCP met with UMSL staff and made several allegations regarding the Executive Director's actions when reporting attendance. On October 23, 2018, UMSL personnel contacted the Board President to discuss concerns related to the Executive Director's attendance reporting. After this conversation, the SCP's independent auditor found discrepancies in the 2017-2018 school year attendance data and communicated these findings to the Executive Director. On November 1, 2018, the Executive Director notified the Board President of these discrepancies. During this conversation the Board President informed the Executive Director of the October conversation that took place with UMSL personnel, and that the Board was going to conduct an independent investigation of attendance reporting. The Executive

Director subsequently admitted to intentionally misreporting the SCP attendance for the 2017-2018 school year and resigned.

Attendance reported to the DESE

Information about the enrollment[1] of a school, the courses the school will offer, and the hours in a regular school day is reported to the DESE through the Missouri Student Information System several times a year. The school's attendance information is submitted in June of every year. The former Executive Director was responsible for completing and certifying the final submissions of the SCP's attendance information to the DESE.

Attendance audit

In November 2018, the Board engaged LDR AdmServices, LLC for an independent audit of attendance. Findings from this report, completed on December 16, 2018, included:

- The SCP claimed remedial hours for state funding, even though the school does not have any programs that qualify as remedial. See MAR finding number 1.
- The SCP understated its regular school year hours to increase its total Average Daily Attendance (ADA), which includes regular full-time attendance, remedial, and summer school hours. See MAR finding number 1.
- An estimate of the SCP's overpayment of state financial aid by the DESE. The firm compared the attendance data reported in the application used by the SCP to record attendance, TeacherEase, to attendance data submitted to the DESE. That estimate is included in the following table:

School Year	Potential Overpayment
2011-2012	$ 28,517.06
2012-2013	170,064.52
2013-2014	408,215.72
2014-2015	142,976.81
2015-2016	293,889.50
2016-2017	672,774.88
2017-2018	646,322.83
Total	$ 2,362,761.33

Source: LDR AdmServices, LLC, Review of Attendance Reporting submitted December 16, 2018

[1] Head count taken the last Wednesday in September of all resident and non-resident students in the attendance center and reported to the DESE for the October reporting cycle.

Financial audit

The Board also engaged Daniel Jones and Associates, Certified Public Accountants, to audit the charter school's financial statements for the year ended June 30, 2018. The audit report, issued March 7, 2019, included several findings related to the operations of the charter school. In addition, the auditors also disclaimed their opinion as to the accuracy of the SCP's reported attendance and propriety of credit card purchases and emphasized the SCP's inability to continue to operate as a going concern.

Closure and Dissolution

On March 20, 2019, the UMSL notified the Board that by mutual agreement, and in the best interest of the students of SCP, UMSL would terminate its sponsorship of the SCP and the SCP would surrender its charter and close at the end of the 2018-2019 school year.

Before the SCP officially closes, according to Section 160.405, RSMo, the SCP is required to complete the following procedures:

- An orderly transition of student records to new schools and of archival student records.
- The archival of business operation and transfer or repository of personnel records.
- The submission of final financial reports.
- The resolution of any remaining financial obligations.
- The disposition of the charter school's assets upon closure.
- A notification plan to inform parents or guardians of students, the local school district, the employees' retirement systems, and the state board of education within 30 days of the decision to close.

Final dissolution of the nonprofit corporation is pending the completion of final closure activities including final storage of school records and student record requests.

Because MAR finding numbers 4 and 5 relate to the operations of the school prior to closure, and the Board is in the process of dissolution, no recommendations are provided. Also, because the Board is in the process of dissolution, other recommendations focus on the continuing issues resulting from attendance inaccuracies and school closure.

St. Louis College Prep Charter School
Management Advisory Report
State Auditor's Findings

1. Attendance Data and Procedures

The St. Louis College Prep Charter School (SCP) attendance data reported to the DESE significantly overstated actual attendance resulting in excess state funding totaling at least $1.4 million ($508,000 for the 2016-2017 school year, $621,000 for the 2017-2018 school year, and $261,000 for the 2018-2019 school year). The SCP inflated attendance amounts reported by improperly reporting its core calendar and claiming remedial and summer school instruction hours that did not meet DESE and statutory requirements. Analysis of historical attendance data reported since the inception of the school in the 2011-2012 school year shows similar concerns. In addition, individual student attendance hours were inflated and the amounts reported to the DESE were overstated. A lack of proper attendance procedures allowed the inflated attendance reporting.

The DESE requires all schools, including charter schools, to track attendance accurately by attendance hour. The DESE uses attendance data reported by schools in the Missouri Student Information System (MOSIS) to determine average daily attendance (ADA) and the appropriate amount of state funds to give each school through the state funding formula. The ADA is calculated by dividing the actual attendance hours by the potential attendance hours to determine the attendance percentage. The attendance percentage is multiplied by the enrollment amount to determine the ADA. In addition, a fraction of the number of students eligible for (1) free and reduced lunches, (2) special education, and (3) limited English proficiency are added to the school's ADA to determine its weighted average daily attendance (WADA). The higher a school's WADA, the more funding it receives. Absences reduce the amount of funding a school receives.

Every morning, SCP students began the day in advisory class at which time teachers were required to input an official count of the student attendance into the school's attendance system, TeacherEase. Any student that arrived after that time or left early had to go through the front office and the School Secretary was responsible for adjusting the attendance in TeacherEase. Also, the School Secretary was responsible for investigating and correcting any discrepancies between class attendance taken and what had been entered into TeacherEase.

The following table shows a comparison of the SCP's enrollment and ADA for the 2011-2012 through 2017-2018 school years. For 4 of 7 years, the SCP reported an ADA exceeding the school's enrollment.

School Year	Enrollment	Average Daily Attendance
2011-2012	81	79.0738
2012-2013	132	137.6849
2013-2014	191	220.3694
2014-2015	188	177.0769
2015-2016	268	265.2216
2016-2017	290	326.3794
2017-2018	306	328.5034

Source: dese.mo.gov

To evaluate the accuracy of the SCP's attendance data, we compared various attendance records from the SCP's TeacherEase system to the information reported in the MOSIS to determine if attendance and absences recorded on the SCP records were accurately recorded in the MOSIS.

Core calendar

The SCP core calendar reported to the DESE did not reflect the actual days and hours students attended class. As previously noted, the SCP operated with a year-long schedule and an extended school day. However, the SCP reported a core calendar of approximately the minimum school year days and hours required by statute and the DESE. This reporting method allowed the school to inflate attendance by claiming the additional days and hours as summer school or remedial hours, increasing the funding received.

The DESE annually requires each school to declare its core school calendar in August. Prior to August 2019, for schools with a 5 day week, the core school calendar was required to be a minimum 174 days and 1,044 pupil attendance hours (an average of 6 hours per day).[2] Also, for schools with a 5 day week, the maximum hours per day for which a school could receive state funding was 7 hours.[3]

For the 2016-2017 school year, the SCP declared the minimum core calendar of 174 days and 6 hours per day (totaling 1,044 hours). For the 2017-2018 school year the SCP declared a similar calendar of 176 days and 5.9319 hours per day (totaling 1,044 hours). The actual school calendar was 182 days and 8.75 hours per day (totaling 1,592 hours) for the 2016-2017 school year and 179 days and 8 hours per day (totaling 1,432 hours) for the 2017-2018 school year. Additional days and hours were reported as summer school and remedial hours.

[2] Section 171.031.1, RSMo (2018). Effective August 2019, a minimum of 174 days is no longer required.
[3] Section 171.031.7, RSMo (2018). This requirement was eliminated effective for the 2019-2020 school year.

Summer school hours

Summer school instruction hours provided to SCP students did not meet the requirements established by state law and should have been considered as part of the school's core calendar. For all grade levels, the SCP reported summer school hours to DESE totaling approximately 12,000 hours for the 2016-2017 school year and 13,000 hours for the 2017-2018 school year.

During the 2016 summer school period (July 1, 2016, through July 15, 2016), there was no distinctive end to the regular school year (June 30, 2016) and distinctive start to the summer school period as required by DESE. In addition, because of the school's year-round calendar, all students were expected to attend during the summer school period.[4] During the 2017 summer school period (July 5, 2017, through July 14, 2017), all students were also expected to attend. The SCP's Interim Executive Director indicated the SCP did not have a summer school and explained those days were simply included as part of the extended school year.

Reporting these hours to DESE as summer school hours allowed the school to increase its ADA.[5] Had the SCP properly reported July attendance days as part of its core calendar, no additional funding would have been provided for summer school. Also, the attendance percentage for the core calendar year would have been lower because the total potential attendance hours would have increased. This computation would have resulted in a lower ADA and decreased state funding. See the table on page 12.

Remedial hours

Remedial instruction hours provided to SCP students did not meet the requirements established by state law. Instead the hours were part of the core school day and should not have been considered for additional attendance. The DESE allows remedial instruction hours meeting state requirements to be added to regular day attendance, increasing ADA. For all grade levels, the SCP reported remedial hours to the DESE totaling approximately 26,000 hours for the 2016-2017 school year and 47,000 hours for the 2017-2018 school year.

Remedial classes provided to SCP students and identified by the SCP's Interim Executive Director were provided to all students and/or were part of the core school day. These classes were not required by a school policy as a condition of promotion to the next grade level and were not provided outside the core school day, as required by Section 167.640.3, RSMo. We confirmed this information by reviewing 40 student class schedules from the 2016-2017

[4] DESE's Summer School Handbook indicates, 1) "Summer school programs are not mandatory and student attendance cannot be required . . . " and 2) "In order to distinguish between the regular school year and the summer school session, there must be a break of at least one school day between the close of one program and the start of the other."

[5] Summer school ADA is separately calculated by dividing total summer school hours by 1,044 and adding the calculated summer school ADA to the core ADA.

and 2017-2018 school years, noting almost all of these students were offered similar classes during the core school day.

Reporting these hours to DESE as outside the core school day allowed the school to claim the difference between the 6 hour core day declared and the actual extended school day (8.75 hours in 2016-2017 and 8 hours in 2017-2018) as remedial instruction hours, increasing the school's ADA and state funding. Had the SCP correctly reported the core day as the 7 hours maximum allowed, including what the school classified as "remedial" instruction hours, the ADA would have been less, decreasing state funding.

ADA and WADA

We recalculated the SCP's ADA and WADA for the 2016-2017 and 2017-2018 school years and the 2018-2019 school year through March 29, 2019, based on the extended school calendar and the maximum allowed 7 hour school day using TeacherEase data to determine the total number of days each student was marked present. To be conservative, we considered a student present for a full 7 hour day if he/she was recorded in attendance in the TeacherEase system at any point during the day. Some students may not have earned credit for a full day and the calculated attendance percentage could be less (discussed further on the next page). The following table shows our recalculations and the estimated state funding overpayment[6] for each of the last 3 school years:

[6] Our recalculations differ from that reported in the LDR AdmServices, LLC, attendance audit noted in the Background section because we allowed for 7 hour school day permitted by law. This resulted in some hours considered by the LDR AdmServices, LLC as overstated to be considered appropriate in our calculation.

		School Year		
		2018-2019	2017-2018	2016-2017
Estimated number of students	(a)	315	319	333
Days in session	(b)	118	179	182
Maximum hours allowed per day	(c)	7	7	7
Possible attendance hours	(a)*(b)*(c) = (d)	260,190	399,707	424,242
Actual hours in attendance	(e)	214,599	320,691	320,243
Estimated attendance percentage	(e)/(d) = (f)	82%	80%	75%
Estimated ADA	(a)*(f) = (g)	259.8051	255.9385	251.3681
Plus FRL weighted calculation	(h)	39.0773	53.8837	50.4590
Plus IEP weighted calculation	(i)	21.5006	26.9084	33.3252
Plus LEP weighted calculation	(j)	0.0000	0.0000	0.0000
Estimated WADA	(g)+(h)+(i)+(j) = (k)	320.3830	336.7306	335.1523
Regular term WADA reported to DESE	(l)	321.9603	400.5260	388.7387
Difference	(k)-(l) = (m)	(1.5773)	(63.7954)	(53.5864)
State funding per WADA per DESE	(n)	$ 9,100	$ 8,349	$ 8,271
Estimated state funding overpayment	(m)*(n) = (o)	$ (14,354)	$ (532,600)	$ (443,231)
Plus 2018-2019 state overpayment thru March 2019 not yet recouped (1)	(p)	$ (246,689)		
Total state funding overpayment	(o)+(p)	$ (261,043)	$ (532,600)	$ (443,231)

(1) The estimated WADA was again incorrectly reported to the DESE, however, this was adjusted by the DESE beginning January 2019, causing the state funding per WADA to fluctuate throughout the year. Through March 2019, the DESE had paid the SCP $2,314,110 for the 2018-2019 school year, but should have only paid $2,053,067, an overpayment of state funding by $261,043.

Actual hours recorded less than hours reported

In addition to the concerns with the increased school hours, the SCP improperly reported increased individual student attendance. We compared actual student attendance hours recorded in TeacherEase to hours the SCP reported to DESE for each individual student for the 2016-2017 and 2017-2018 school years. For the 2016-2017 school year, we determined 81 out of 333 students (24 percent) had more hours reported to DESE than the student was recorded in attendance. For the 2017-2018 school year, we determined 188 out of 319 students (59 percent) had more hours reported to DESE than the student was recorded in attendance. Overstated hours totaled approximately 10,044 hours for the 2016-2017 school year and approximately 13,255 for the 2017-2018 school year. This comparison indicates attendance was intentionally inflated and DESE overpayments are likely greater than estimated above by at least an additional $153,000 ($88,000 for the 2017-2018 school year and $65,000 for the 2016-2017 school year).

Other school years

The SCP had reported summer school hours to the DESE since the 2012-2013 school years. The SCP reported remedial hours to the DESE since the school's inception in the 2011-2012 school year. As previously noted, SCP staff indicated they do not believe the school ever had a remedial program as defined by state law. We did not attempt to estimate an overpayment for prior

years. However, as noted in the Background section, LDR AdmServices, LLC, estimated the potential overpayment by DESE to the SCP for these prior years at an additional $1 million.

Conclusion

The SCP's remedial instruction and summer school programs and student attendance data do not support the ADA and WADA reported to the DESE and certified by the former SCP Executive Director. These discrepancies indicate the reported information was falsified. The falsification of SCP ADA and WADA resulted in the SCP receiving more funding than the school was entitled. In addition, the SCP may have been falsifying, and at a minimum was inaccurately reporting, attendance data as early as the 2011-2012 school year when it first reported remedial instruction hours. The SCP also began reporting ADA greater than enrollment beginning in the 2012-2013 school year. The Board did not examine these issues until they were brought to their attention in the fall of 2018.

The SAO issued a subpoena to Michael Malone, former SCP Executive Director, and accepted by his attorney on July 22, 2019, to compel Mr. Malone's testimony and require him to produce records and documents (see Appendix A). On August 20, 2019, audit staff and an attorney of the SAO took the testimony[7] of the former SCP Executive Director. Mr. Malone, on the advice of his attorney, pleaded the 5th amendment[8] regarding questioning related to attendance data and procedures.

As further discussed in MAR finding number 2, the overpayments that resulted from inflated ADA and WADA for the 2016-2017, 2017-2018, and 2018-2019 school years represent a liability/obligation of the charter school and should be repaid as part of the dissolution process.

Recommendation

The Board of Directors work with the DESE to determine the proper resolution for the overpayment of the 2016-2017, 2017-2018, and 2018-2019 school years, and the potential overpayments from past school years as deemed necessary.

Auditee's Response

Funds are not available to pay all the school's liabilities. The Board prioritized payment for teacher salaries and benefits. Once a final audit of the school has been performed, the Board will disburse any remaining funds to vendors, prorating payments based on amounts payable, and then will close. There will not be any funds remaining to return to the DESE. We have been in contact with the DESE and they are aware of the situation.

[7] This testimony was given under oath and was recorded by a court reporter.

[8] Pleading the 5th amendment means that the person chooses not to answer a question(s) during testimony on the basis that he might incriminate himself.

2. Closure and Outstanding Liabilities

The UMSL and Board mutually agreed the school could no longer operate past the 2018-2019 school year due to the significance of overpayments of state funding and, as a result, has begun closure procedures.

As discussed in MAR finding number 1, the SCP received at least $1.4 million over the last 3 school years based on inflated WADA. The additional funding represents approximately 15 percent of the school's state funding for the period. The SCP also had unpaid bills over 30 days past due to various vendors totaling over $336,000 as of April 10, 2019, and has outstanding debt on school facilities totaling approximately $1.8 million. As of March 29, 2019, the SCP reported a cash balance of $166,808; however, additional state and federal revenues were expected from the DESE.

The following table reflects the SCP's revenues and expenditures for the year ended June 30, 2018, and the period of July 1, 2018, through March 29, 2019.

	Year Ended June 30, 2018	July 1, 2019, through March 29, 2019
Beginning cash balance	$ 268,462	225,046
Revenues	4,677,481	3,193,230
Disbursements	4,720,897	3,251,468
Ending cash balance	$ 225,046	166,808

Sections 160.400 through 160.425, RSMo, provide requirements for the organization and administration of charter schools. Statutory provisions require sponsors to develop procedures to be implemented if a charter school should close. These procedures include, but are not limited to, resolution of financial obligations and disposition of school assets.

School assets include the SCP's cash on hand and the facilities occupied by the SCP, which the Board plans to sell. Any funds remaining after repayment of liabilities for overpayment of attendance, outstanding building debt, and unpaid bills, if any, should be returned to the state in accordance with Section 160.405.1(17), RSMo.

Recommendation

The Board of Directors return any remaining funds to the DESE.

Auditee's Response

Funds are not available to pay all the school's liabilities. The Board prioritized payment for teacher salaries and benefits. Once a final audit of the school has been performed, the Board will disburse any remaining funds to vendors, prorating payments based on amounts payable, and then will close. There will not be any funds remaining to return to the DESE. We have been in contact with the DESE and they are aware of the situation.

3. Student Enrollment and Personnel Files

Student enrollment was not always properly documented and personnel files were not always complete making it more difficult to ensure required closure procedures could be followed.

Student enrollment

Out of 40 student files reviewed from the 2016-2017, 2017-2018, and 2018-2019 school years, 3 (7.5 percent) of the enrollment packets could not be located and another 26 (65 percent) were incomplete. Eight of these 26 enrollment packets lacked proof of residency. All new or re-enrolling students were required to complete an enrollment packet including proof of residency, transportation information, home language survey, medical information, etc. During the 2018-2019 school year, SCP staff began reviewing all enrollment files for completeness.

Personnel files

Personnel records for all 5 employees reviewed were not complete and/or maintained in accordance with School Board Policy 4860. During our review of the personnel files, we noted required documentation was missing from each of the 5 files including employment applications, educational transcripts, employment contracts, and performance evaluations. In addition, health insurance and immigration records were not maintained separately from the personnel files as required by School Board Policy 4860.

Conclusion

Complete and accurate enrollment information was needed while the school was operating to ensure students were eligible to attend the SCP and is needed post-closure to ensure complete information is provided to the students' new schools. Complete personnel records should be maintained for all employees to provide documentation of personnel actions and ensure accurate records are transferred after closure. School staff indicated that the SCP experienced significant staff turnover, which may have contributed to the incomplete enrollment and personnel files. Section 160.405, RSMo, requires the orderly transition of student records to new schools, archival of student records, and transfer or repository of personnel records.

Recommendation

The Board of Directors ensure procedures are established and followed to ensure the appropriate transfer of complete and accurate student and personnel records.

Auditee's Response

We assembled and have transferred all records as required. Student records were transferred to the St. Louis Public School District and personnel records have been transferred to the charter sponsor UMSL.

4. Credit Card Procedures

Credit card procedures needed improvement. SCP personnel made unsupported and other questionable credit card purchases. Credit card purchases totaled approximately $175,000 during the 2017-2018 school year and $106,000 during the 2018-2019 school year through February 22, 2019.

SCP policy required preapproval for credit card purchases, completion of a credit card sign out sheet, and receipts supporting purchases be turned in with the credit card after use and examined for compliance with policies. These policies included, but were not limited to, ensuring purchases were "for the school or to pay for reasonable travel expenses incurred when performing job duties" and ". . . under no circumstances may employees use school funds to make unauthorized or personal purchases." However, these policies were not consistently followed prior to the resignation of the former Executive Director in the fall of 2018.

SCP personnel could not provide supporting documentation for 28 of 50 credit card purchases (56 percent) reviewed, totaling $13,916, from the 2017-2018 and 2018-2019 school years. In most cases, no documentation beyond the credit card statement was available. In addition, in many other instances, only a credit card charge slip was submitted rather than a detailed invoice. Unsupported transactions included purchases of food, hotel stays, a vacation package, and several purchases from Amazon. Without actual invoices, the SCP cannot determine if the purchases were for legitimate school-related items or were personal items purchased by employees.

After our initial test work identified concerns with credit card purchases, we requested and reviewed all credit card purchases for which the Interim Executive Director could locate supporting documentation. During this review we identified numerous questionable purchases. These transactions were supported by a receipt or invoice that agreed to the amount charged, but there was no additional information to indicate the purpose of the purchase and how it related to school business or complied with school policy. We identified 37 such purchases totaling $3,178. These transactions included purchases of food, drinks, etc. ($538), gift cards and fees ($1,210), alcohol ($683),[9] and other miscellaneous items ($752). In addition, the Interim Executive Director indicated that she believed at least $85 of other credit card purchases were likely for personal use and improper. See Appendix B for detailed information about the unsupported, questionable, and improper purchases. These transactions include purchases of approximately $200 from Amazon shipped directly to the former Executive Director's personal residence. We could not determine what items were purchased or if the school received them.

As discussed in MAR finding number 1, we issued a subpoena to the former SCP Executive Director. When questioned under oath regarding credit card

[9] The SCP Policy for Reimbursement of Meals and Entertainment indicates "expenses are limited to student recruitment, board meetings, and staff meetings. Alcoholic beverages are not reimbursed unless approved by the Executive Director." While the purchase of alcohol for the staff Christmas party was approved by the Interim Executive Director, the amount of alcohol purchased is questionable.

procedures and records, Mr. Malone pleaded the 5th amendment and did not answer the questions.

Credit card purchases are inherently more risky than other purchases because credit card purchases are or can be made prior to proper approval. That risk and the potential for fraud and misuse increases even more when internal controls and proper procedures are lacking. Credit cards provide a good alternative purchase method, but there should be a strong, clear policy that is enforced and prohibits use for inappropriate or non-school purchases. Detailed supporting documentation improves the charter school's ability to review charges and provides better documentation of the items purchased to ensure charges are reasonable and in accordance with established policies. In addition, public funds should be spent in a prudent manner only on items necessary and beneficial to the charter school and enhance the educational process.

5. Sunshine Law

The Board did not always prepare closed session meeting minutes and did not record a roll call vote to enter into closed session. In addition, meeting minutes did not document all Board actions and decisions.

The Board held 4 closed session meetings between January 19, 2019, and March 20, 2019, but minutes were not prepared and subsequently approved by the Board. In addition, roll call votes to enter into closed session were not recorded in the open session minutes for closed sessions held between November 7, 2018, and March 20, 2019. Also, the November 7, 2018, meeting minutes did not document the acceptance of the resignation of the former Executive Director and the appointment of the new Interim Director.

Without minutes of closed sessions, there is no record of the discussions held or support for the decisions made, and less assurance to the public that various statutory provisions are followed. Section 610.020.7, RSMo, requires meeting minutes be maintained as a record of business conducted and to provide an official record of Board actions and decisions. The minutes should provide sufficient details of discussions to demonstrate compliance with statutory provisions and support important decisions made. In addition, under Section 610.022.1, RSMo, before going into a closed meeting a public governmental body must vote to close the meeting, including a specific reference to the section permitting the disclosure.

Clayton, MO 63105

RE: Subpoena for Michael Malone

Dear Mr. Hearne:

Thank you for accepting service of the attached subpoena as counsel for Mr. Malone. This is to confirm that this subpoena remains in effect, but that we have agreed to change the date for performance under the subpoena from August 7, 2019 at 10:00 a.m. to August 20, 2019 at 10:00 a.m. The location will remain the same, at the Wainwright State Office Building, 111 N. 7th Street, St. Louis, MO 63101.

Please let me know if you have any questions.

Sincerely,

Joel E. Anderson

P.O. Box 869 • Jefferson City, MO 65102 • (573) 751-4213 • FAX (573) 751-7984

OFFICE OF MISSOURI STATE AUDITOR

SUBPOENA

To: Michael Malone
5951 Marwinette Ave.
St. Louis, MO 63116

YOU ARE COMMANDED AND REQUIRED to appear personally before the State Auditor or her representatives, Joel Anderson, Chief Litigation Counsel, in Room 116 of The Wainwright State Office Building, 111 N. 7th St., St. Louis, MO 63101, at **10:00 a.m. on August 7, 2019**, for purposes of providing testimony, and for producing for examination, copying, and interrogation the records and documents listed on Exhibit A attached to this Subpoena.

ISSUED this 15th day of July, 2019, pursuant to Section 29.235.4(1), RSMo.

Nicole Galloway
Missouri State Auditor

I served the foregoing subpoena by _____on this _____ day of _____, 2019.

_____

OFFICE OF MISSOURI STATE AUDITOR

EXHIBIT A

You are to preserve for production and inspection, and then appear as instructed on the attached subpoena and produce for inspection and examination, the following items in your possession or under your control:

1. All records related to the St. Louis College Prep Charter School credit cards (including, but not limited to, invoices or receipts to support credit card transactions from June 2017 through November 2018);
2. Any and all St. Louis College Prep Charter School attendance records for the time period between July 2016 through November 2018.

This request for records includes all materials that exist in paper ("hard copy") or electronic form (including but not limited to records and data maintained on computers, tablets, smart phones, external electronic storage drives, thumbnail drives, remote servers or back up tapes). All information requested in the items above are subject to inspection, review and copying by the state auditor. Section 29.235.4(1), RSMo.

					$ 13,916	3,178	85

(1) Each row is a separate transaction and only includes the amounts of the transaction classified as unsupported, questionable and improper.

(2) The purpose was left blank if the transaction was not supported by a credit card receipt or invoice, or the credit card receipt or invoice was not detailed enough to determine what was purchased.

(3) Type indicates how the transaction was coded in the charter school's financial system or records. Transactions marked "Unknown" indicate school staff could not determine the type because the transaction was summarized in the financial system.

(4) No supporting documentation (e.g. credit card receipt or invoice) was provided for transactions.

(5) Questionable transactions were supported by a credit card receipt or invoice that agreed to the amount charged, but there was no additional information to indicate the purpose of the purchase and how it related to school business or complied with school policy.

(6) The Interim Executive Director indicated that she believed these credit card purchases were likely for personal use and improper.

NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for political subdivisions other than cities, towns, and villages, required to file a financial report, under Section 105.145, RSMo, and 15 CSR 40-3.030. Section 105.145, RSMo, provides that the State Auditor's Office notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Because of different filing requirements, a separate report is issued for cities, towns, and villages.

The filing status for the 51 political subdivisions required to file a financial report by September 30, 2019, is presented in summary on page 3 and by individual entity in Appendix A. We have not audited the reports submitted and, accordingly, do not express an opinion or any other assurance on them.

This report also includes the updated filing status for political subdivisions, other than cities, towns, and villages, that filed a financial report in September 2019, after their filing deadline. The filing status for these 17 entities is presented in summary on page 3 and by individual entity in Appendix B-D.

Monthly Report on Political Subdivision Filings
September 2019
Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office posts individual annual financial reports to its website. A searchable link is available at http://auditor.mo.gov.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of $500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than $5,000 in the fiscal year of the annual financial report.

This report includes the filing status for the 51 political subdivisions, other than cities, towns, and villages, with a fiscal year end of March 31, 2019. Cities, towns, and villages have additional filing requirements and their reporting status is included in a separate report. Of the 51 political subdivisions, 37 filed an annual financial report timely.

This report also includes the filing status for 17 political subdivisions, other than cities, towns, and villages, that filed their financial report in September 2019, after their filing deadline.

NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for the municipalities required to file a financial report by September 30, 2019, under Section 105.145, RSMo, and 15 CSR 40-3.030, and, when applicable, an addendum under Section 479.359, RSMo, and 15 CSR 40-3.170 and a municipal court certification under Section 479.360, RSMo, and 15 CSR 40-3.180.

Section 105.145, RSMo, provides that the State Auditor's Office (SAO) notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. Additionally, Section 479.362, RSMo, provides that the SAO notify the Department of Revenue whether counties, cities, towns, and villages have timely filed under Sections 479.359 and 479.360, RSMo. Because of different filing requirements, a separate report is issued for all other political subdivisions required to file a financial report.

The filing status for 51 cities and 25 villages is presented in summary on page 3 and by individual entity in Appendix A. This compilation is limited to presenting information submitted to our office. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report includes the updated filing status for municipalities that filed at least one of the items (financial report, addendum, or certification) in September 2019, after their filing deadline. The filing status for these 21 cities and 5 villages is presented in summary on pages 4 and by individual entity in Appendixes B to D.

State Auditor

The following staff participated in the preparation of this report:

Director of Audits:	Jon Halwes, CPA, CGFM
General Counsel:	Paul Harper, JD
Senior Analyst:	Jill Wilson, MBA

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision, except counties and school districts, in the state to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at http://auditor.mo.gov.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of $500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than $5,000 in the fiscal year of the annual financial report.

Section 479.359.1, RSMo, requires every county, city, town, and village to annually calculate the percentage of its annual general operating revenue received from fines, bond forfeitures, and court costs for minor traffic violations.

Section 479.359.3, RSMo, provides that all entities having a municipal court file an addendum to the annual financial report containing items listed in 15 CSR 40-3.170, which also provides the procedures to file an addendum.

Section 479.360, RSMo, requires every county, city, town, and village that has a municipal court to file, with its annual financial report, a certification of substantial compliance with 10 municipal court procedures. This certification must be signed by the municipal court judge. 15 CSR 40-3.180 provides the procedure to file the municipal court certification. Any county, city, town, or village that does not have a municipal court judge is not required to file a certification.

Section 479.362, RSMo, requires that the SAO notify the Department of Revenue whether counties, cities, towns, or villages have timely filed their addendums under Section 479.359 and certificates of substantial compliance under Section 479.360, RSMo. Section 479.368, RSMo, provides penalties for counties, cities, towns, and villages that fail to file, including loss of revenue and mandatory ballot measure to dissolve the political subdivision.

This report includes the filing status for the 51 cities and 25 villages with a fiscal year end of March 31, 2019, whose financial report was due by September 30, 2019. Of the 76 municipalities required to file an annual financial report, 55 filed the report timely. Of the 54 municipalities required to file an addendum, 25 filed an addendum timely. Of the 31 municipalities required to file a certification, 18 filed a certification timely and 1 filed a certification for only a portion of the fiscal year.

This report includes the filing status for 21 cities and 5 villages that filed at least one of the items (financial report, addendum, or certification) in September 2019, after their filing deadline. Of these entities, 12 filed an annual financial report, 14 filed an addendum, and 3 filed a certification.

Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the Department of Insurance, Financial Institutions, and Professional Registration - Insurance

Insurance Dedicated Fund Expenditures	In fiscal years 2018, 2017, and 2016, costs incurred by the Department of Health and Senior Services were paid from the Insurance Dedicated Fund. State law requires appropriations from the Fund to be used solely for the payment of expenditures incurred by the Department of Insurance, Financial Institutions, and Professional Registration - Insurance.
Examination Fee and Other Fee Tax Credit	The Department makes no attempt to determine the cost-benefit of the Examination Fee and Other Fee Tax Credit on the annual Tax Credit Analysis Form provided to the General Assembly. As a result, a significant portion of examination costs are borne by the state instead of insurance companies without any evidence of the effectiveness of the incentive being paid.

In the areas audited, the overall performance of this entity was **Good**.*

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Mike Parson, Governor
and
Chlora Lindley-Myers, Director
Department of Commerce and Insurance
Jefferson City, Missouri

We have audited certain operations of the Department of Insurance, Financial Institutions, and Professional Registration - Insurance, in fulfillment of our duties under Chapter 29 and 374, RSMo. The scope of our audit included, but was not necessarily limited to, the years ended June 30, 2018, 2017, and 2016. The objectives of our audit were to:

1. Evaluate the department's internal controls over significant management and financial functions.

2. Evaluate the department's compliance with certain legal provisions.

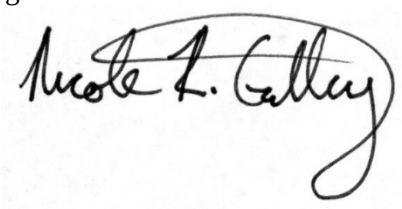
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the department, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We tested certain of those controls to obtain evidence regarding the effectiveness of their design and operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the department's management and was not subjected to the procedures applied in our audit of the department.

For the areas audited, we identified (1) no significant deficiencies in internal controls, (2) noncompliance with a legal provision, and (3) no significant deficiencies in management practices and procedures. The accompanying Management Advisory Report presents our finding arising from our audit of the Department of Insurance, Financial Institutions, and Professional Registration - Insurance.



Nicole R. Galloway, CPA
State Auditor

Department of Insurance, Financial Institutions, and Professional Registration - Insurance
Management Advisory Report - State Auditor's Findings

1. Insurance Dedicated Fund Expenditures

In fiscal years 2018, 2017, and 2016, costs incurred by the Department of Health and Senior Services (DHSS) were paid from the Insurance Dedicated Fund. State law requires appropriations from the Insurance Dedicated Fund to be used solely for the payment of expenditures incurred by the Department of Insurance, Financial Institutions, and Professional Registration (DIFP) - Insurance.

Using funding appropriated in the department's approved budgets, the DHSS spent $500,000 during the year ended June 30, 2018, and $1 million during the years ended June 30, 2017 and 2016, from the Insurance Dedicated Fund for the costs of maintaining and operating a poison control hotline. In addition, DHSS received appropriations of $500,000 from this fund in the department's budget for the year ended June 30, 2019.

The Insurance Dedicated Fund is authorized by Section 374.150.1, RSMo, to receive all fees due to the state under the provisions of the insurance laws. Section 374.150.2, RSMo, provides, in part, that the Insurance Dedicated Fund is "subject to appropriation of the general assembly and shall be devoted solely to the payment of expenditures incurred by the department attributable to duties performed by the department for the regulation of the business of insurance, regulation of health maintenance organizations, and the operation of the division of consumer affairs as required by law which are not paid for by another source of funds." The General Assembly should evaluate the restrictions on the purpose of the Insurance Dedicated Fund before appropriating monies from the fund.

A similar condition was noted in the prior report.

Recommendation

The DIFP-Insurance work with the General Assembly to ensure all appropriated disbursements from the Insurance Dedicated Fund are reasonable and proper and relate to the overall function of the department.

Auditee's Response

The DIFP's written response is included at Appendix A.

2. Examination Fee and Other Fee Tax Credit

The Department makes no attempt to determine the cost-benefit of the Examination Fee and Other Fee Tax Credit on the annual Tax Credit Analysis Form provided to the General Assembly. As a result, a significant portion of examination costs are borne by the state instead of insurance companies without any evidence of the effectiveness of the incentive being paid. Missouri is one of only five states[1] to allow insurance companies to receive tax credits for examination costs.

[1] North Dakota, Alabama, Utah, and Texas are the other states with an examination fee tax credit.

Based on Department of Revenue data, approximately $14.8 million in examination fee tax credits have been redeemed by insurance companies in the 3 fiscal years ended June 30, 2018. Although no specific goals of the program are stated and no performance measures have been historically reported on the Tax Credit Analysis Form, the fiscal year 2019 form contains historical data on the number of Missouri-based insurance companies and out of state insurance companies that redeemed the tax credit. The information presented shows that the number of insurance companies redeeming the tax credit has decreased from 66 companies in calendar 2016 to 52 in calendar year 2018.

Chapter 374, RSMo requires the DIFP-Insurance to examine insurance companies on a predetermined basis and to bill the insurance companies for the costs of these examinations. However, Section 148.400 RSMo, allows all insurance companies to deduct the entire cost of examinations, as well as income taxes, franchise taxes, personal property taxes, valuation fees, and/or registration fees paid from premium taxes paid and deposited into the state's General Revenue Fund. Additionally, this statute allows insurance companies to carry forward unused examination credits for up to 5 years.

The tax credit for examination fees is unusual, with Missouri being the only state among its contiguous states with such a program. Without some measure of the cost-effectiveness of the program it is unclear how the General Assembly justifies the continuation of the credit. Ensuring the Tax Credit Analysis Form includes an estimate of the cost-benefit of the program, including measures of performance, will provide the General Assembly with sufficient information to properly evaluate the program on an ongoing basis.

A similar condition was noted in our five prior reports.

Recommendation

The DIFP include cost-benefit and performance measure information on the Tax Credit Analysis Form to allow the General Assembly to evaluate the Missouri Examination Fee and Other Fee Tax Credit. Without such information, the General Assembly should consider legislation to reduce or eliminate the credit.

Auditee's Response

The DIFP's written response is included at Appendix A.

Department of Insurance, Financial Institutions, and Professional Registration - Insurance
Organization and Statistical Information

The Missouri Division of Insurance was created by an act of the Missouri legislature in 1869. With the enactment of the state Omnibus Reorganization Act of 1974, the agency was transferred to the Department of Consumer Affairs, Regulation and Licensing. Constitution Amendment No. 6 passed in August 1984, changed the name of the Department of Consumer Affairs, Regulation and Licensing, to the Department of Economic Development, effective September 7, 1984. Constitutional Amendment No. 4, passed in August 1990, created a new Department of Insurance, effective July 1, 1991. Executive Order 06-04 consolidated the former Department of Insurance, the Division of Finance, the State Banking Board, the Division of Credit Unions, and the Division of Professional Registration into one department and changed the name of the department to the Missouri Department of Insurance, Financial Institutions, and Professional Registration (DIFP), effective August 28, 2006. Executive Order 19-02 transferred the Office of Public Counsel and the Public Service Commission to the DIFP and changed the name to the Department of Commerce and Insurance, effective August 28, 2019.

The DIFP-Insurance operates under the authority of Chapter 374, RSMo. The management and control of the DIFP is vested in a director who is nominated by the Governor with the advice and consent of the Senate. John Huff served as Director from February 9, 2009, until February 6, 2017. Chlora Lindley-Myers was appointed Director on March 6, 2017 and continues to serve in that capacity.

As of June 30, 2018, there were 226 domestic and 1762 foreign and alien insurance companies licensed in Missouri. Insurers with primary corporate headquarters located in a particular state are called domestic insurers. Foreign insurers are those that are allowed to sell insurance in a state but have a primary legal residence in another state.

The DIFP - Insurance regulates the insurance industry in the state through enforcement of Chapters 325, 354, and 374 through 385, RSMo. The department regulates and licenses the insurance industry in the state, ensures the insurance industry is financially sound, trustworthy, competent, and responsive to the insurance-buying public; and ensures the insurance industry complies with the laws of the state. To fulfill these responsibilities, the department maintains a central office in Jefferson City and branch offices in St. Louis and Kansas City. The DIFP-Insurance is organized into the following functional units: Insurance Company Regulation Division, Insurance Market Regulation Division, Insurance Consumer Affairs Division, and Administration Division. The DIFP-Insurance had 184 employees as of June 30, 2018.

The DIFP - Insurance administers transactions in the funds listed below.

The Insurance Examiner's Fund is authorized by Section 374.160 and 374.162, RSMo, to receive all monies paid to the state by insurance companies for the costs incurred by the department in conducting examinations, valuations, or proceedings against such companies. Expenditures, authorized by appropriations, are to be used for the purpose of paying the compensation of insurance examiners and expenses directly related to examinations. Any unexpended balances in this fund are perpetually maintained for the purposes of this fund.

The Insurance Dedicated Fund is authorized by Section 374.150, RSMo, to receive all fees due to the state under the provisions of the insurance laws. Appropriations from this fund are to be used solely for payment of expenditures incurred by the department in performing the duties required by law that are not paid for by another source of funds. Any unexpended balance in this fund is perpetually maintained for the purposes for this fund unless the unencumbered balance at the close of the biennium year exceeds two times the total amount appropriated, paid, or transferred to the fund during such fiscal year.

The DIFP-Insurance administers programs financed partially by federal funding placed in the Federal Missouri Department of Insurance Fund. The department receives appropriations from this fund.

The DIFP-Administrative Fund is used to account for department-wide expenditures for budget, legislative coordination, public information, accounting, human resources, and department management. The fund receives monies through a cost allocation to the divisions within DIFP.

The DIFP-Insurance does not receive any appropriations from the General Revenue Fund and does not maintain any proprietary interest in this fund. Receipts collected by the Department of Revenue (DOR) on behalf of the department and deposited into the state's General Revenue Fund include the following:

- Foreign Companies Premium Taxes: In accordance with various provisions of Chapter 148, RSMo, foreign insurance companies licensed in the state are required to pay a 2 percent tax on direct premiums received during the calendar year. The department certifies to the DOR the amount of premium taxes due together with the amount of quarterly installments to be paid by the insurance companies. The DOR collects the premium taxes and deposits them into the General Revenue Fund. Some premium taxes deposited into the General Revenue Fund are not available for general revenue purposes. The provisions of Chapter 148, RSMo, restrict about 50 percent of such premium taxes for distribution to the various school districts in the state.

- Captive Insurance Premium Taxes: In accordance with various provisions of Chapter 379, RSMo, captive insurance companies licensed in the state are required to pay a premium tax at the rate of thirty-eight-hundredths of 1 percent on the first $20 million, and two hundred eighty-five-thousandths of 1 percent on the next $20 million, and nineteen-hundredths of 1 percent on the next $20 million dollars, and seventy-two-thousandths of 1 percent on each dollar thereafter on the direct premiums received during the calendar year. The department certifies to the DOR the amount of premium taxes due to be paid by the insurance companies. The DOR collects these premium taxes and deposits them into the General Revenue Fund.

- Special Purpose Life Insurance Captive (SPLRC) Premium Taxes: In accordance with various provisions of Chapter 379, RSMo, each SPLRC is required to pay a premium tax at the rate of two hundred fourteen thousandths of 1 percent on the first $20 million of assumed reinsurance premium, and one hundred forty-three thousandths of 1 percent on the next $20 million, and forty-eight thousandths of 1 percent on the next $20 million, and twenty-four thousandths of 1 percent of each dollar thereafter on the direct premiums received during the calendar year. The department certifies to the DOR the amount of premium taxes due for to be paid by the insurance companies. The DOR collects these premium taxes and deposits them into the General Revenue Fund.

- Surplus Lines: In accordance with the various provisions of Chapter 384, RSMo, surplus lines insurers are required to pay a 5 percent tax on net premiums for high risk insurance that is underwritten. The DOR collects the surplus lines taxes and deposits them into the General Revenue Fund.

The department certifies to the DOR all penalties and interest due as a result of late payments of surplus lines taxes. The DOR collects the penalties and interest and deposits the amounts into the State School Moneys Fund. In addition, fines and forfeitures imposed and collected by the department under the Missouri Insurance Code are deposited into the State School Moneys Fund.

In accordance with Sections 148.320 and 148.330, RSMo, domestic insurance companies licensed in the state are required to pay a 2 percent tax on direct premiums received during the calendar year. The department certifies to the DOR the amount of premium taxes due together with the amount of quarterly installments to be paid by the insurance companies. The DOR collects the premium taxes and deposits them into the Financial Institutions Tax Fund.

The DIFP-Insurance is authorized to administer Missouri chartered insurance companies requiring rehabilitation or liquidation, commonly referred to as receiverships. Thirteen insurance companies were in receivership at some

point during the 3 years ended June 30, 2018. Five of these receiverships were closed as of June 30, 2018. Companies placed into receivership are under circuit court supervision with the judge appointing the Director as receiver. The Director may appoint a special deputy receiver or agent. There were seven companies that did not have a special deputy receiver assigned to them. The department handled the day-to-day operations for three of these companies and contracted with vendors to act as agents for the other four companies. The six remaining companies were assigned special deputy receivers by the court, and these special deputy receivers directly supervised the companies. The contracted vendors and the special deputy receivers submit disbursements to DIFP - Insurance for approval.

According to the National Association of Insurance Commissioners (NAIC), for calendar year 2017, Missouri ranked 12th nationally in the number of insurance companies incorporated in the state. The department's budget for fiscal year 2018 ranks twenty-second nationally.

The following provides a breakdown of the type of companies licensed in the state.

	As of June 30, 2018	
Type of Company	Missouri Domicile	Foreign and Alien
Captive	49	1
Domestic Surplus Lines Insurer	4	0
Fraternal Benefit	1	28
Health Maintenance Organization	16	13
Health Services	1	0
Life and Health	27	454
Mutual Property	79	0
Prepaid Dental	6	10
Professional Malpractice	4	0
Property and Casualty	38	888
Reinsurer	0	349
Title	1	19
Total	226	1,762

Governor Michael L. Parson
State of Missouri

Missouri Department of
Commerce & Insurance
Chlora Lindley-Myers, Director

September 26, 2019

Honorable Nicole R. Galloway, CPA
State Auditor
Jefferson City, Missouri

Please accept these responses to the audit your office conducted of the Department of Insurance, Financial Institutions and Professional Registration – Insurance for the years ended June 30, 2018, 2017 and 2016.

1. **Insurance Dedicated Fund - Audit Recommendation:**
The DIFP-Insurance work with the General Assembly to ensure all appropriated disbursements from the Insurance Dedicated Fund are reasonable and proper and relate to the overall function of the department.

Department's Response:
The department will continue to work with the General Assembly to ensure that the department's Insurance Dedicated Fund appropriations authorize the department to make reasonable and proper expenditures that relate to the overall function of the department.

2. **Examination Fee and Other Fee Tax Credit - Audit Recommendation:**
The DIFP include cost-benefit and performance measure information on the Tax Credit Analysis Form to allow the General Assembly to evaluate the Missouri Examination Fee and Other Fee Tax Credit. Without such information, the General Assembly should consider legislation to reduce or eliminate the credit.

Department's Response:
The department will continue to complete the Tax Credit Analysis Form and track and provide information on the Missouri Examination Fee and Other Fee Tax Credit (Section 148.400, RSMo.) to the General Assembly as required under the Tax Credit Accountability Act, Sections 135.800-135.830, RSMo. The department will research cost-benefit and performance measures and consider adding them or other clarifying information to the form.

If the department may be of further assistance, please let us know.

Respectfully,

Chlora Lindley-Myers

Chlora Lindley-Myers, Director

Budget Reserve Fund

Report No. 2019-103

October 2019

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the Budget Reserve Fund Management Advisory Report

Background	The Missouri's Budget Reserve Fund (BRF), frequently referred to as the "rainy day fund," was established by Senate Joint Resolution 25 (1999) under Missouri Constitution, Article IV, Sec. 27(a).
Fund Restrictions Leave State Vulnerable to Effects of Recession	The state does not have sufficient contingency funds in the BRF to address budget shortfalls in the event of an economic downturn. The state uses the BRF solely to borrow money annually for cash-flow assistance purposes leaving little to no money available to remedy budget shortfalls or emergencies. The Missouri Constitution restricts the maximum balance of the BRF to a level well below the anticipated reserves necessary to weather the next recession. Restrictions on accessing contingency funds as well as restrictions on fund repayment also make using the BRF for budget stabilization purposes difficult. Maintaining insufficient contingency funds and having significant restrictions on accessing those funds leaves the state unable to appropriately respond to economic recession or emergencies without significant cuts to state spending or services.

Due to the nature of this report, no rating is provided.

NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

We have audited the Budget Reserve Fund as authorized by state law, in fulfillment of our duties under Chapter 29, RSMo. The Scope of our audit included, but was not necessarily limited to, the 2 years ended June 30, 2019. The objectives of our audit were to:

1. Evaluate compliance with certain legal provisions as they relate to the Budget Reserve Fund.

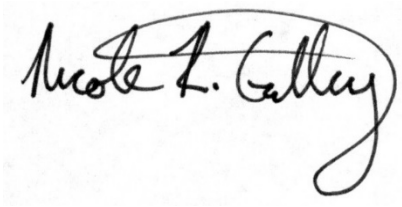
2. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions, as they relate to the Budget Reserve Fund.

3. Evaluate the sufficiency of Budget Reserve Fund balances.

Except as discussed in the following paragraph, we conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

Government Auditing Standards require us to obtain and report the views of responsible officials of the audited entity concerning the findings, conclusions, and recommendations included in the audit report. Since the findings and recommendations contained in this report are legislative in nature and no central agency exists to formally provide responses, we were unable to obtain views of responsible officials for the findings, conclusions, and recommendations outlined in the Management Advisory Report. The views of responsible Office of Administration officials were obtained and included where appropriate.

For the areas audited, we identified (1) no significant noncompliance with legal provisions, (2) the need for improvement in management practices and procedures, and (3) the need for improvement in the sufficiency of the Budget Reserve Fund balances. The accompanying Management Advisory Report presents our findings arising from our audit of the Budget Reserve Fund.



Nicole R. Galloway, CPA
State Auditor

Director of Audits:	Robert E. Showers, CPA, CGAP
Audit Manager:	Wayne T. Kauffman, MBA, CPA, CFE, CGAP
In-Charge Auditor:	Alex Bruner, MBA, CFE
Audit Staff:	Nicole Cash, MBA, CFE, CGAP

Budget Reserve Fund
Introduction

Background

Missouri's Budget Reserve Fund (BRF), frequently referred to as the "rainy day fund," was established by Senate Joint Resolution 25 (1999) under Missouri Constitution, Article IV, Sec. 27(a). The joint resolution was put to a public vote in the 2000 general election and approved by 59 percent of the voters. The BRF was preceded by two different funds, the Budget Stabilization Fund and the Cash Operating Reserve Fund, which were created in response to the recession of the early 1980s.[1]

The Budget Stabilization Fund was created by statute[2] in 1985 to allow the Governor to use appropriations from the fund for expenditures authorized by existing state agency appropriations that had been withheld due to revenue shortfalls. This could only be done while the General Assembly was in session and the General Assembly could deny the use of the fund. The statute did not include provisions requiring repayment of funds used. Monies were placed in the fund pursuant to Senate Bill 2, enacted in 1989, which required revenues collected but not used for refunds to federal retirees to be placed in the Budget Stabilization Fund.[3]

The Cash Operating Reserve Fund was created in 1986 by constitutional amendment in order for the state to meet short-term financial needs. Specific legislative authorization was not required to use the fund, but the monies used, plus interest, had to be repaid by May 15th of the same fiscal year in which used. The Cash Operating Reserve Fund was regularly used for cash flow purposes or for natural disasters, such as the flooding that occurred throughout the state in 1993.[4]

Missouri Constitution

The Missouri Constitution (Constitution) established the BRF.[5] The Constitution allows the Commissioner of Administration to make "cash operating transfers" from the BRF to the General Revenue (GR) Fund or any other state fund without other legislative action if determined necessary for the cash requirements of the state.[6]

The Constitution requires the Commissioner of Administration to transfer an amount equal to the cash operating transfer received, with the interest that would have been earned, to the BRF from any fund that received a cash operating transfer prior to May 16th of the fiscal year in which the transfer

[5] Article IV, Section 27(a), of the Missouri Constitution.
[6] Article IV, Section 27(a)(2), of the Missouri Constitution.

was made. In addition, no cash operating transfers out of the BRF may be made after May 15th of any fiscal year.[7]

The Constitution requires all funds in the BRF to be invested by the Treasurer in the same manner as other state funds are invested. [8] Any interest earned on such investments shall be credited to the BRF and the unexpended balance in the BRF at the close of any fiscal year shall remain in the fund subject to the limitations imposed on the fund balance by the Constitution.

The Constitution states that in any fiscal year in which the Governor reduces the expenditures of the state or any state agencies below their appropriations, the General Assembly may appropriate funds from the BRF to fulfill the expenditures authorized by the existing appropriations which were affected by the Governor's decision to reduce expenditures. In addition, if there is a budget need due to a disaster, declared by the Governor as an emergency, the General Assembly may also appropriate funds from the BRF to meet budget needs due to the disaster. Both instances are fulfilled upon a request by the Governor for an emergency appropriation and by a two-thirds vote of the members elected to each house. These expenditures shall be deemed to be for "budget stabilization purposes." The maximum amount that may be appropriated at any time for such budget stabilization purposes shall be one-half of the total balance of the fund and any amounts appropriated or otherwise owed to the fund, less all amounts owed to the fund for budget stabilization purposes, but not yet appropriated for repayment to the fund.[9]

The Constitution states that one-third of the amount transferred or expended from the BRF for budget stabilization purposes during any fiscal year, including interest that would otherwise have been earned, will be appropriated to the BRF during each of the next 3 fiscal years. These amounts appropriated shall be transferred from the fund which received the transfer to the BRF by July 15th for each of the next 3 fiscal years, or until the full amount, including interest, has been returned to the BRF. The maximum amount, which may be outstanding at any one time and subject to repayment to the BRF for budget stabilization purposes shall be one-half of the total balance in the fund and all outstanding amounts appropriated or otherwise owed to the fund.[10]

The Constitution states that if the balance of the BRF at the close of any fiscal year exceeds 7.5 percent of the net general revenue collections for the previous fiscal year, the excess amount shall be transferred to the GR Fund

[7] Article IV, Section 27(a)(3), of the Missouri Constitution.
[8] Article IV, Section 27(a)(4), of the Missouri Constitution.
[9] Article IV, Section 27(a)(5), of the Missouri Constitution.
[10] Article IV, Section 27(a)(6), of the Missouri Constitution.

unless such excess balance is a result of direct appropriations made by the General Assembly for the purpose of increasing the balance of the fund. However, if the balance in the fund at the close of any fiscal year exceeds 10 percent of the net general revenue collections for the previous fiscal year, the excess amount shall be transferred to the GR Fund notwithstanding any specific appropriations made to the fund. "Net general revenue collections" are all revenues deposited into the GR Fund less refunds and revenues originally deposited into the GR Fund, but designated by law for a specific distribution or transfer to another state fund.[11]

The Constitution states that if the total of the ending balance of the BRF in any fiscal year and any amounts owed to the fund pursuant to Article IV, Section 27(a)(6) is less than 7.5 percent of the net general revenue collections for the same year, the difference shall be transferred from the GR Fund to the BRF by July 15th.[12]

Scope and Methodology

The scope of our audit included, but was not necessarily limited to, the 2 years ended June 30, 2019.

Our methodology included gathering information regarding how the BRF was established through discussions with various officials from the Office of Administration (OA) and State Treasurer's Office (STO) and reviewing information maintained by those agencies. We reviewed information from the Statewide Advantage for Missouri accounting system. We used this information to analyze the Budget Reserve Fund's historic balances and any trends associated with the data from the accounting system. We selected 18 states to contact based on their ranking in the *Stress Testing States 2018* analysis performed by Moody's Analytics. In addition, we contacted all of Missouri's surrounding states that had not already been selected based on their ranking in the Moody's report for a total of 25 states contacted. We sent questionnaires to the selected states regarding their contingency fund(s). We requested the official identify funding requirements of their contingency fund based on their state statutes, identify borrowing purposes by state (if any), identify the fund cap applied (if any), provide financial data for the contingency fund, and other information. We received a response providing at least some of the information from 20 of the states surveyed. We made additional inquiries to many state officials and sought additional clarification to the survey responses as deemed appropriate. We did not receive responses from Arkansas, Maine, Nebraska, Oklahoma, and Vermont.

We reviewed recent studies on national contingency fund trends from Moody's Analytics, The PEW Institute, and the Volcker Alliance. We

[11] Article IV, Section 27(a)(7), of the Missouri Constitution.
[12] Article IV, Section 27(a)(8), of the Missouri Constitution.

contacted the authors of *Stress-Testing States 2018* analysis performed by Moody's Analytics to discuss the methodology of their analysis regarding the preparedness of each state for the next recession.

We also obtained an understanding of the legal provisions that are significant within the context of the audit objectives. This work included, but was not limited to, a review of Article IV, Section 27(a) of the Missouri Constitution.

Budget Reserve Fund Management Advisory Report State Auditor's Findings

1. Fund Restrictions Leave State Vulnerable to Effects of Recession

The state does not have sufficient contingency funds in the Budget Reserve Fund (BRF) to address budget shortfalls in the event of an economic downturn. The state uses the BRF solely to borrow money annually for cash-flow assistance purposes leaving little to no money available to remedy budget shortfalls or emergencies. The Missouri Constitution restricts the maximum balance of the BRF to a level well below the anticipated reserves necessary to weather the next recession. Restrictions on accessing contingency funds as well as restrictions on fund repayment also make using the BRF for budget stabilization purposes difficult. Maintaining insufficient contingency funds and having significant restrictions on accessing those funds leaves the state unable to appropriately respond to economic recession or emergencies without significant cuts to state spending or services.

1.1 Contingency funding insufficient, and below national average

Missouri's BRF, which acts as the state's "rainy day fund," does not maintain sufficient reserves to insulate the state budget during an economic downturn. In the 2 years following the most recent recession, General Revenue (GR) Fund revenues decreased by approximately 4 percent from fiscal year 2008 to fiscal year 2009 and over 7 percent from fiscal year 2009 to fiscal year 2010. This resulted in a cumulative revenue decline over these fiscal years of more than $1 billion. Based on 2019 revenues, a similar recession would result in a 2 year cumulative reduction in revenues of approximately $1.2 billion. However, the balance of the BRF at the end of fiscal year 2019 was at its constitutional maximum of $651 million. In addition, a significant portion of the BRF balance is being used for cash flow shortages in the GR Fund throughout the year (see page 10 for more detail), so the average monthly balance in the BRF available for budget stabilization in fiscal year 2019 was actually $469 million. The BRF reached its lowest balance of fiscal year 2019 at $144 million in April 2019.

According to data compiled by the National Association of State Budget Officers, [13] Missouri's contingency funds are well below the levels maintained by other states. In terms of "rainy day funds" as a percentage of general revenue expenditures, Missouri reported an average of 3.25 percent for fiscal years 2017 and 2018, while the national median was 5.84 percent over the same timeframe.

According to a 2018 stress test report from Moody's Analytics,[14] Missouri ranks 43rd in the nation in terms of preparedness for a moderate economic downturn based on the balance of Missouri's BRF. According to data

[13] National Association of State Budget Officers, *The Fiscal Survey of States: Fall 2018,* https://www.nasbo.org/mainsite/reports-data/fiscal-survey-of-states/fiscal-survey-archives, accessed June 2019.

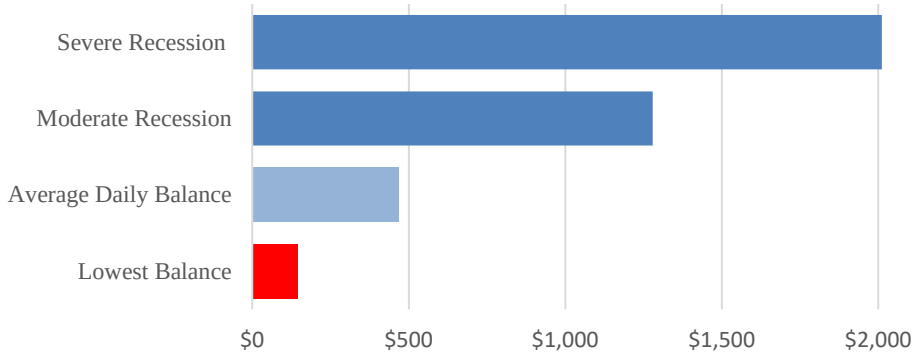
[14] Moody's Analytics, *Stress-Testing States 2018,* https://www.economy.com/home/products/samples/2018-09-15-Stress-Testing-States.pdf, accessed April 2019.

presented in the report, Missouri requires a BRF balance of approximately $1.3 billion to be prepared for a moderate recession or a BRF balance of $2 billion to be prepared for a severe recession.

According to the Moody's report, the Missouri economy is particularly sensitive to economic downturns, resulting in larger revenue reductions and larger Medicaid expenditure increases, compared to other states, in the event of a recession. In terms of combined fiscal shock, the report ranks Missouri as the 8th most sensitive state to a moderate recession. According to the Moody's analysis, this increased sensitivity can be attributed, in part, to the state becoming more reliant on income taxes, and less reliant on sales taxes, for general revenue. Additionally, the lack of Medicaid expansion, while keeping state spending for the program lower, also makes state Medicaid spending more sensitive to economic downturns. According to the Moody's analysis, the fewer individuals covered by the state's Medicaid program under normal conditions means a sharper increase in enrollments during economic downturns.

The Moody's analysis concluded Missouri would have needed contingency funds equivalent to approximately 13.9 percent of its general fund revenues for a moderate recession and 21.9 percent for a larger downturn in 2018. Therefore, Missouri's fiscal year 2018 BRF balance of $616 million (5.7 percent of general fund revenues) is significantly below Moody's suggested balance. Figure 1 below shows the balance in the BRF that Moody's recommended was necessary to avoid raising taxes and/or cutting services during a severe and moderate recession compared to the average daily balance in the BRF by month during fiscal year 2019.

Figure 1: Moody's recommended BRF balances, and 2019 BRF average daily and low balances (in millions)



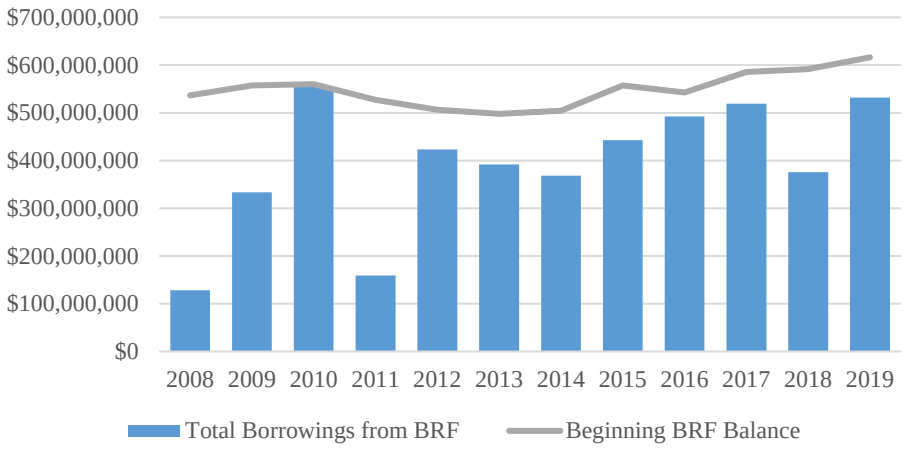
Source: Moody's Analytics: *Stress-Testing States 2018*, discussions with Moody's personnel, Statewide Advantage for Missouri (SAM II) data and Office of Administration General Revenue Fund Cash Flow Analysis Report for fiscal year 2019.

Increased borrowing from the BRF for cash operations results in less balance available for budget stabilization

Borrowing from the BRF for cash operations of the state has steadily increased in recent periods, reducing the amount available for potential budget stabilization should the need arise. The audits of timeliness of income tax refunds[15] documented the state's increased borrowing from the BRF to cover cash flow issues, including the ability to make timely tax refunds, in the GR Fund throughout the fiscal year. In the most recent 5 fiscal years borrowing from the BRF has been consistent, with borrowing in 4 of 5 years exceeding $400 million, and 2 years exceeding $500 million.

Figure 2 shows the total borrowings from the BRF from fiscal year 2008 through fiscal year 2019 in addition to the beginning BRF balance. Pre-recession borrowings (fiscal year 2008) were less than $130 million, whereas more than $360 million has been borrowed every fiscal year since 2011, and more than $500 million was borrowed in fiscal years 2017 and 2019.

Figure 2: Borrowings from the BRF, fiscal year 2008 to 2019 and beginning BRF balance



Source: SAM II data.

The state started fiscal year 2019 with a cash balance of $495 million in the GR fund. Despite this cash balance, the state still borrowed $500 million from the BRF during fiscal year 2019.

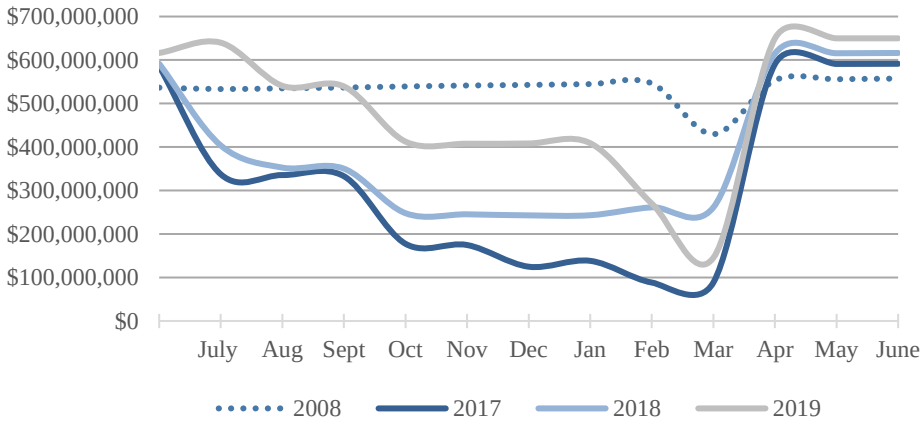
See Appendix A for BRF financial activity, including beginning and ending fund balances for fiscal year 2008 through 2019. Appendix B contains BRF cash operations borrowing, by quarter and in total, for fiscal years 2008 through 2019.

[15] SAO, *Timeliness of Income Tax Refund Issuance*, report number 2018-001, issued January 2018 and SAO, *Timeliness of Income Tax Refund Issuance*, report number 2019-025, issued April 2019.

Dangerously low balances throughout recent years

The balance of the BRF has fallen to dangerously low levels throughout recent fiscal years due to the borrowing for cash operations occurring earlier in the fiscal year. For example, for fiscal year 2008, less than $7,000 was borrowed during the first quarter of the fiscal year. For fiscal years 2017 and 2018, more than $250 million was borrowed during the first quarter of the fiscal year. During fiscal year 2018, the BRF balance was below $300 million for 6 months, from October 2017 to March 2018, and fell below $100 million in March 2017. Figure 3 shows a comparison of the ending fund balance, by month, in the BRF in fiscal year 2008 (pre-recession) and fiscal years 2017, 2018 and 2019.

Figure 3: BRF ending balance by month, fiscal year 2008, 2017, 2018, and 2019



Source: SAM II data.

No constitutional limit on how much of the BRF can be used for cash operations

While the Constitution allows "cash operating transfers" to be made from the BRF,[16] there are no constitutional restrictions on how much of the fund can be used for cash-flow assistance needs. The amount appropriated for borrowing from the BRF for this purpose has consistently increased over the past decade.

In the last 6 fiscal years essentially the entire balance of the BRF has been appropriated for cash flow shortages, potentially leaving Missouri with no funds available for budget stabilization purposes if needed. Figure 4 shows the BRF beginning balance over time, the increase in amounts appropriated from the BRF for cash operations, and the unappropriated balance available for budget stabilization purposes. As can be seen in Figure 4, for fiscal years 2014, 2015, 2016, and 2019, the amount of the BRF appropriated for cash operations actually exceeded the balance of the fund, potentially leaving nothing available for budget stabilization or emergency use.

Inadequate contingency funds leaves the state vulnerable

Inadequate contingency funds can leave the state vulnerable to significant budget cuts in the event of an economic downturn. According to a report by the PEW Charitable Trusts,[17] when the nation enters a recession, states will normally see a drop in revenue as the growth in unemployment results in reductions in individual incomes (particularly capital gains), business profits, and sales. In addition, recessions cause an increase in spending due to the greater demand for both mandatory and discretionary programs and services, such as Medicaid, community colleges and universities, child care subsidies for low-income working parents, and workforce development. A healthy contingency fund allows a state to preserve a balanced budget without having to depend on large spending cuts and/or large tax increases.

In addition, according to the Moody's report, an inadequate contingency fund can lead to troublesome decisions to significantly cut spending or raise revenues just at the time the economy can least afford it.

1.2 BRF restrictions

Constitutional restrictions on the BRF limit the fund's balance, and also limit state's administrators' access to the funds in the event a need for budget stabilization arises.

Balance restrictions

Constitutional provisions limit the balance of the BRF to 7.5 percent of net general revenue collections without legislative approval and to a maximum

[17] The PEW Charitable Trusts, *When to Use State Rainy Day Funds: Withdrawal Policies to Mitigate Volatility and Promote Structurally Balanced Budgets*, <https://www.pewtrusts.org/-/media/assets/2017/04/when-to-use-state-rainy-day-funds.pdf> accessed April 2019.

of 10 percent of net general revenue collections with legislative approval.[18] Based on this restriction, the balance of the BRF at June 30, 2019, was limited to $642 million (7.5 percent of the $8.56 billion net general revenue collections in fiscal year 2019) without legislative approval. The BRF balance as of June 30, 2019 was $651 million, therefore, the excess of approximately $9 million was transferred out of the BRF to the GR Fund on July 12, 2019. Both the beginning BRF balance and the 7.5 percent limit on the BRF balance without legislative approval are well below the preparedness balance suggested by the Moody's Analytics report (approximately $1.3 billion for a moderate recession) discussed in section 1.1. Even with legislative approval, the maximum BRF balance would be $856 million.[19] Therefore, even if the BRF balance was at its constitutional maximum, it would still be more than $400 million short of the estimated balance needed to be considered prepared for a moderate recession.

Access restrictions

The Constitutional requirement that the General Assembly must approve the use of BRF monies for budget stabilization purposes with a 2/3 vote of both houses is restrictive, and effectively makes the BRF unusable for that purpose. To be used for this purpose the Governor must have reduced the expenditures of the state or any state agencies below their appropriations or declared a state of emergency.

Having contingency funds available in the event of budget downturns or emergency is of little value if the restrictions over accessing those funds makes them unavailable. According to the report by The PEW Charitable Trusts, withdrawals from the state's budget stabilization fund should be consistent with the purpose of the fund and they should be linked to economic or revenue fluctuations in a clear and quantifiable manner. This process would provide clear guidance when it is the right time to use the state's reserves. According to the Moody's Analytics report, having clear rules for when reserve funds can be used and for what purpose can help avoid indecision by policymakers when funds are needed, and help avoid the need for more drastic budget decisions when contingency funds exist to help avoid such decisions.

Repayment restrictions

The restrictions in the Constitution that require repayment of moneys borrowed for budget stabilization on a short time frame limit the usefulness of the BRF for that purpose. The Constitution requires that one-third of the amount borrowed from the BRF for budget stabilization purposes during any fiscal year, including interest that would have been earned, shall be repaid by

[18] At the end of any fiscal year any BRF balance exceeding 7.5 percent of the general revenue collections must be transferred to the GR Fund as required by the Missouri Constitution, unless the legislature directly appropriates a higher amount in the BRF (except the balance in the fund at year-end cannot exceed 10 percent of general revenue collections).
[19] Ten percent of the fiscal year 2019 net general revenue collections.

July 15th for each of the next 3 fiscal years, or until the full amount, including interest, has been repaid to the BRF. However, the 2007 recession lasted approximately 18 months, which means the first repayment would have been due before the recessionary period would have ended.

Having to potentially repay a significant portion of the funds borrowed in a short period defeats the purpose of borrowing the funds in the first place. According to the report by The PEW Charitable Trusts, states should have feasible requirements for rebuilding the reserve fund. Requiring withdrawals to be repaid within specific time frames are not optimal because these time frames often do not take the business cycle into account. This weakness can limit policymakers' desire to use the reserve funds even in the case of an emergency.

Conclusion

Missouri has not used the BRF for budget stabilization purposes since the combination of the Budget Stabilization Fund and Cash Operating Reserve Fund in 2000, even though there have been several economic downturns and/or emergencies since 2000, including a severe recession and various natural disasters. Constitutional balance restrictions of the BRF are too low, and do not allow the state to accumulate sufficient contingency funds. In addition, the General Assembly has not taken action to ensure the BRF balance is at its Constitutional maximum. Constitutional provisions regarding when BRF funds can be accessed, and subsequently repaid, are also restrictive, and do not allow the state to easily access these funds for their intended purpose. These restrictions have effectively made the BRF solely a cash flow management tool, with insufficient funds available for budget stabilization purposes.

While the BRF adequately serves the cash flow needs of the state, changes are necessary to ensure the state is appropriately insulated from the next moderate economic downturn or natural disaster. Since any change to the current BRF provisions would require a constitutional change, and would not be able to achieved legislatively, alternative solutions must be considered.

Recommendations

1.1 The General Assembly take action to increase the balance of the BRF to its constitutional maximum to improve the cash reserves available for budget stabilization purposes.

1.2 The General Assembly should explore options to legislatively create a fund specifically for budget stabilization purposes, and include more reasonable criteria for when the funds can be accessed for budget stabilization purposes, and more reasonable restrictions on when funds must be repaid.

Auditee's Response

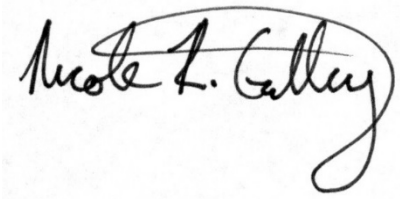
NICOLE GALLOWAY, CPA
Missouri State Auditor

To the County Commission
and
Officeholders of Howard County, Missouri

The Office of the State Auditor contracted for an audit of Howard County's financial statements for the 2 years ended December 31, 2018, through the state Office of Administration, Division of Purchasing and Materials Management. The audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of this audit, performed by Stopp & VanHoy, Certified Public Accountants, and Business Advisors, LLC, is attached.



Nicole R. Galloway, CPA
State Auditor

October 2019
Report No. 2019-102

Missouri State Auditor

RECOMMENDATION SUMMARY

Recommendations in the contracted audit of Howard County

2018-001	The County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze, and manage these risks.
2018-002	The County keep appropriate minutes for closed session meetings.
2018-003	The County prepare the required budgets for each fund.

INDEPENDENT AUDITOR'S REPORT

To the County Commission and
Officeholders of Howard County, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of Howard County, Missouri, as of and for the years ended December 31, 2018 and 2017, and the related notes to the financial statements, which collectively comprise Howard County, Missouri's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting practices prescribed or permitted by Missouri law. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1 of the financial statements, the financial statements are prepared by Howard County, Missouri on the basis of accounting practices prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the *Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles* paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Howard County, Missouri as of December 31, 2018 and 2017, or changes in financial position thereof for the years then ended.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of Howard County, Missouri as of December 31, 2018 and 2017, and their respective cash receipts and disbursements, and budgetary results for the years then ended in accordance with the basis of accounting practices prescribed or permitted by Missouri law as described in Note 1.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards,* we have also issued our report dated August 19, 2019 on our consideration of Howard County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Howard County, Missouri's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Howard County, Missouri's internal control over financial reporting and compliance.

See Notes to the Financial Statements

Note 1 - Summary of Significant Accounting Policies

Organized in 1816, the county of Howard was named after the governor of the Missouri territory, Benjamin Howard. It is a third-class county, and the county seat is Fayette. Howard County's government is composed of a three-member county commission and the following separately elected Constitutional Officers: County Clerk, Collector, Treasurer, Circuit Clerk and *ex-officio* Recorder of Deeds, Sheriff, Assessor, Coroner, Public Administrator and Prosecuting Attorney.

As discussed further in Note 1, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of Howard County, Missouri and the Howard County Senate Bill 40 Board.

Howard County's operations include tax assessments and collections, state/county courts, county recorder, public safety, transportation, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include only the primary government of Howard County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise Howard County's legal entity. The Howard County Senate Bill 40 Board is controlled by a separate board and is also included under the control of Howard County.

Certain elected County officials, such as the County Collector, Treasurer, and Sheriff, collect and hold monies in a trustee capacity as an agent of an individual, taxing units, or other government. These assets, which are held by these officeholders for the sole benefit of external parties, are included in the Statements of Assets and Liabilities Arising from Cash Transactions - Agency Funds - Regulatory Basis.

Basis of Presentation

The accompanying financial statements present the receipts, disbursements, and changes in cash of all funds of Howard County, Missouri, and the comparisons of such information with the corresponding budgeted information for all funds of the County. The funds presented are established under statutory or administrative authority, and their operations are under the control of the County Commission or an elected county official. The General Revenue Fund is the County's general operation fund, accounting for all financial resources except those required to be accounted for in another fund. The other funds presented account for financial resources whose use is restricted for specified purposes.

Basis of Accounting

The financial statements were prepared using accounting practices prescribed or permitted by Missouri law, which differ from accounting principles generally accepted in the United States of America. The effects of the variances between these regulatory accounting practices and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

As a result of the use of this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, certificates of participation, bonds, and obligations under capital leases), and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

Note 1 - Summary of Significant Accounting Policies (continued)

Basis of Accounting (continued)

If Howard County utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types, if applicable, would use the accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

Budget and Budgetary Accounting

In accordance with Chapter 50 RSMo, Howard County adopts a budget for each governmental fund.

On or before January 15th, each elected official and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures.

A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.

Prior to February 1, the budget is legally enacted by a vote of the County Commission.

Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget financial statements.

Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.

Budgets are prepared and adopted on the cash basis of accounting.

During our audit, it was noted that the County was not in compliance with Missouri budgetary state statute Chapter 50 RSMo. The following funds did not have a budget prepared in 2018 or 2017: Local Emergency Planning Commission Fund.

Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

Note 1 - Summary of Significant Accounting Policies (continued)

Taxes (continued)

The assessed valuation of the tangible taxable property, included within Howard County's boundaries for the calendar year 2018 and 2017, respectively, for the purposes of County taxation was as follows:

	2018	2017
Real Estate	$ 80,719,950	$ 78,927,090
Personal Property	32,369,492	30,213,509
Railroad and Utilities	15,926,643	15,233,231
	$ 129,016,085	$ 124,373,830

The tax levy per $100 assessed valuation of tangible taxable property for the calendar year 2018 and 2017, respectively, for the purpose of County taxation, was as follows:

	2018	2017
General Revenue	$ 0.2706	$ 0.2830
Special Road and Bridge	0.3063	0.3052
Sheltered Services Board	0.1000	0.1000

The County also receives sales tax collected by the State and remitted based on the County’s sales tax rate to the total sales tax collected in the County.

Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer's funds are pooled and invested to the extent possible. Interest earned from such investments is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, provided, however, that no such investments shall be purchased at a price in excess of par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in Howard County's name at third-party banking institutions. Details of these cash balances are presented in Note 2.

Interfund Transactions

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing.

Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

Note 2 - Deposits and Investments

Howard County maintains a cash and temporary investment pool that is available for use by all funds. Deposits with maturities greater than three months are considered investments. Each fund type's portion of this pool is displayed on the statement of receipts, disbursements, and changes in cash arising from cash transactions as "Cash and Equivalents." Cash held for others is displayed on the statement of assets and liabilities arising from cash transactions as "Cash and Equivalents."

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits.

The bank balances and carrying values of deposits and investments shown below are included in the financial statements at December 31, 2018, as follows:

	Carrying Value	Bank Balances
Deposits	$ 10,191,533	$ 8,307,282
Investments	38,756	38,756
Total Deposits and Investments as of December 31, 2018	$ 10,230,289	$ 8,346,038
Total Cash and Equivalents - Governmental Funds	$ 3,180,369	
Total Cash and Equivalents - Agency Funds	7,049,920	
	$ 10,230,289	

The bank balances and carrying values of deposits and investments shown below are included in the financial statements at December 31, 2017, as follows:

	Carrying Value	Bank Balances
Deposits	$ 8,874,487	$ 7,536,439
Investments	38,629	38,629
Total Deposits and Investments as of December 31, 2017	$ 8,913,116	$ 7,575,068
Total Cash and Equivalents - Governmental Funds	$ 2,936,108	
Total Cash and Equivalents - Agency Funds	5,977,008	
	$ 8,913,116	

Custodial Credit Risk - Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. At December 31, 2018 and 2017, 100% of Howard County's deposits and investments were covered by the Federal Deposit Insurance Company (FDIC) or were collateralized.

Custodial Credit Risk - Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party that sold the security to Howard County or its agent but not in the government's name. Howard County does not have a policy for custodial credit risk relating to investments.

All investments, evidenced by individual securities, are registered in the name of Howard County or of a type that are not exposed to custodial credit risk.

Note 2 - Deposits and Investments (continued)

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Howard County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Investment Credit Risk

Concentration of investment credit risk is required to be disclosed by Howard County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U. S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). Howard County has no policy in place to minimize the risk of loss resulting from over concentration of assets of a specific maturity, specific issuer or specific class of securities.

The following investments represent more than 5%, individually, of total investments:

Issuer	Investment Type	2018 Balance	% of Portfolio	2017 Balance	% of Portfolio
Merchant & Farmers Bank	Cert. of Deposit	$ 38,756	100%	$ 38,629	100%

Note 3 - Interfund Transfers

Transfers between funds for the years ended December 31, 2018 and 2017 are as follows:

	2018		2017	
Fund	Transfers In	Transfers Out	Transfers In	Transfers Out
General Revenue	$ 4,400	$ 306,469	$ -	$ 257,450
Special Road and Bridge	73,735	-	50,000	-
Prosecuting Attorney Administrative Handling Cost	-	-	4,000	-
Keller Building	-	-	2,500	-
Civil Defense	16,000	-	13,950	-
Prosecuting Attorney Supplemental	-	4,400	-	4,000
Law Enforcement	216,734	-	191,000	-
Total	$ 310,869	$ 310,869	$ 261,450	$ 261,450

Note 4 - Long-Term Debt

Capital Leases

In 2012, the County entered into a capital lease agreement with John Deere financial for $513,962 for three motor graders. The lease had a nominal annual rate of 2.30% and expired on October 31, 2017. Combined principal and interest payments are paid annually in the amount of $32,904 with a balloon payment of $405,000 due at the end of the term. This lease was refinanced in September of 2017 with a nominal annual rate of 3.50%. New combined principal and interest payments are paid annually in the amount of $73,525.

Note 4 - Long-Term Debt (continued)

Capital Leases (continued)

Balance at 12/31/16	Amount Borrowed	Amount Repaid	Balance at 12/31/17	Amount Borrowed	Amount Repaid	Balance at 12/31/18
$ 430,480	$ -	$ (96,107)	$ 334,373	$ -	$ (62,288)	$ 272,085

Interest expense for the years ended December 31, 2018 and 2017 was $11,237 and $10,322, respectively.

Future minimum payments due on the capital leases are as follows:

Year	Principal	Interest	Total
2019	$ 64,502	$ 9,023	$ 73,525
2020	66,793	6,732	73,525
2021	69,166	4,359	73,525
2023	71,623	1,902	73,525
2022	1	-	1
	$ 272,085	$ 22,016	$ 294,101

Principal payments made on the capital lease are made from the Special Road and Bridge Fund and the Road and Bridge Special Trust Fund.

Notes Payable

In 2012, the County borrowed $75,557 from the Missouri Department of National Resources to finance the design, acquisition, installation, and implementation of energy conservation measures. Principal payments are due semi-annually on February 1 and August 1 with interest payable at 0%. The loan matures on August 1, 2020.

In 2013, the County borrowed $68,815 from Exchange Bank of Missouri for the purchase of a Case tractor. Principal payments are due annually with interest payable at 3.75%. This loan matured on September 1, 2018.

In 2015, the County borrowed $61,710 from Exchange Bank of Missouri for the purchase of a John Deere tractor. Principal payments are due annually with interest payable at 4%. This loan matures on August 17, 2020.

Balance at 12/31/16	Amount Borrowed	Amount Repaid	Balance at 12/31/17	Amount Borrowed	Amount Repaid	Balance at 12/31/18
$ 114,257	$ -	$ (35,938)	$ 78,319	$ -	$ (36,795)	$ 41,524

Interest expense for the years ended December 31, 2018 and 2017 was $1,741 and $2,598, respectively.

Future minimum payments due on the notes payable are as follows:

Year	Principal	Interest	Total
2019	$ 22,821	$ 1,061	$ 23,882
2020	18,703	543	19,246
	$ 41,524	$ 1,604	$ 43,128

Note 4 - Long-Term Debt (continued)

Notes Payable (continued)

Principal payments made on the notes payable are made from the Keller Building Fund and the Road and Bridge Special Trust Fund.

Note 5 - Local Government Employees Retirement System (LAGERS)

Plan Description

The County participates in the Missouri Local Government Employees Retirement System (LAGERS), an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for local government entities in Missouri. LAGERS is a defined benefit pension plan which provides retirement, disability, and death benefits to plan members and beneficiaries. LAGERS was created and is governed by statute, RSMo. Sections 70.600-70.755. As such, it is the system's responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401(a) and is tax exempt.

The Missouri Local Government Employees Retirement System issues a publically available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to LAGERS, P.O. Box 1665, Jefferson City, Missouri, 65102, by calling (800) 447-4334, or by visiting the LAGERS website at www.molagers.org.

Benefits Provided

Benefits are available to all full-time employees working in a LAGERS covered department. Benefits vest when an employee earns five years (60 months) of service credit in the system. Normal retirement age is 60 (General) or 55 (Police) and early retirement age is 55 (General) and 50 (Police). Benefits are paid out using a formula that is based on the employee's final average salary and the amount of credit service time.

Contributions

Full-time employees of the County contribute 4% to the pension plan. The January 1st statutorily required contribution rates were 6.20% (General) and 7.50% (Police) of annual covered payroll for the year ended December 31, 2018, and 5.20% (General) and 8.10% (Police) of annual covered payroll for the year ended December 31, 2017. The contribution requirements of plan members are determined by the governing body of the political subdivision. The contribution provisions of the political subdivision are established by state statute. For the years ended December 31, 2018 and 2017, the County contributed $76,490 and $67,446, respectively.

Note 6 - County Employees' Retirement Fund (CERF)

Plan Description

The County Employees' Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elected or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under RSMo. Sections 56.800 to 56.840, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under RSMo. Sections 57.949 to 57.997, and certain personnel not defined as an employee per RSMo. Section 50.1000(8). The Fund was created by an act of legislature and was effective August 28, 1994.

Note 6 - County Employees' Retirement Fund (CERF) (continued)

Plan Description (continued)

The general administration and the responsibility for the proper operation of the fund and the investment of the fund are vested in a board of directors of eleven persons.

Benefits Provided

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of $10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, Missouri, 65101, by calling (573) 632-9203, or by visiting the CERF website at www.mocerf.org.

Contributions

Prior to January 1, 2003, participating county employees, except for those who participated in LAGERS, were required to make contributions equal to 2% of gross compensation. Effective January 1, 2003, participating county employees hired on or after February 25, 2002, are required to make contributions of 4% if they are in a LAGERS county and contributions of 6% if they are in a non-LAGERS county. If an employee leaves covered employment before attaining 8 years of creditable service, accumulated employee contributions are refunded to the employee. The contribution rate is set by state statute and may be amended only by action of the Missouri Legislature. Counties may elect to make all or a portion of the required 4% contribution on behalf of employees. The County collected and remitted CERF employee contributions of $8,954 and $5,505 for the years ended December 31, 2018 and 2017, respectively.

In addition to the above contributions required of employees, the following fees and penalties prescribed under Missouri law are required to be collected and remitted to CERF by counties covered by the plan:

- Late fees on filing of personal property tax declarations,
- Twenty dollars on each merchants and manufacturers license issued,
- Six dollars on each document recorded or filed with county recorders of deeds, with an additional one on each document recorded,
- Three sevenths of the fee on delinquent property taxes, and
- Interest earned on investment of the above collections prior to remittance to CERF.

The County collected and remitted CERF fees and penalties of $106,214 and $86,197 for the years ended December 31, 2018 and 2017, respectively.

Further information related to required contributions, pension benefits, other plan terms, and investments and related return and financial information can be found in the notes to the financial statements of CERF's Annual Financial Report.

Note 7 - Prosecuting Attorney Retirement Fund

In accordance with state statute Section 56.807 RSMo, Howard County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys' and Circuit Attorneys' Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. Howard County has contributed $3,366 and $3,366, respectively, for the years ended December 31, 2018 and 2017.

Note 8 - Other Retirement Plan

Howard County has voluntary 457 and 401(a) plans administered by Empower Retirement (formerly Great-West Retirement Services) which is paid by a deduction from employees' salary. These contributions qualify under the Internal Revenue Code and are tax exempt. Employee contributions collected and remitted by the County for the years ended December 31, 2018 and 2017 for the 457 plan were $26,011 and $23,973, respectively. Employee contributions collected and remitted by the County for the years ended December 31, 2018 and 2017 for the 401(a) plan were $228 and $201, respectively.

Note 9 - Post-Employment Benefits

Howard County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by Howard County.

Note 10 - Economic Development Loan Program

The County has an economic development loan program whereby it issues small business loans to businesses located within the County for the purpose of capital assistance. Participants in the program owed the County $38,173 and $53,198 as of December 31, 2018 and 2017, respectively. Due to default of a program participant, the balance of the loans as of December 31, 2018 is due and payable in full, however, the County is unable to estimate when the balance will be collected.

Note 11 - Leases in the Statements of Lessors

The County leases out various office spaces to many outside organizations and receives lease payments every year per a written lease contract agreement. The building also houses the County's public health unit, the Prosecuting Attorney, and the 911 office. During the years ended December 31, 2018 and 2017, the County received total lease rental payments of $153,744 and $126,960, respectively.

Note 12 - Claims, Commitments and Contingencies

Litigation

The County is subject to various claims and legal proceeding covering a wide range of matters that arise in the ordinary course of its business activities. Management believes that any liability that may ultimately result from the resolution of these matters will not have a material adverse effect on the financial condition of the County.

Note 12 - Claims, Commitments and Contingencies (continued)

Compensated Absences

Vacation time is accrued for every full-time employee in the county and accrues at different rates up to a maximum of twenty-one days per year. An employee may carry annual vacation leave days over to the following year up to the maximum earned in one year to be taken in the following year. Compensation for unused vacation is at the discretion of the County Commission. The county provides full-time county employees with up to one day of sick leave time per month and may accumulate to an unlimited amount of days. Sick leave is not paid upon termination of employment with the county. Vacation and personal leave amounts are reported as disbursements when they are paid. These have not been subjected to auditing procedures.

Federal and State Assisted Programs

The County receives proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned. Such audits could result in refund of grant monies to the grantor agencies. Management believes that any required refunds will be immaterial. No provision has been made in the accompanying financial statements for the potential refund of grant monies.

Note 13 - Risk Management

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member of the Missouri Association of Counties Self-Insurance Workers' Compensation and Insurance Fund. The county purchases workers' compensation insurance through this fund, a non-profit corporation established to provide insurance coverage to Missouri Counties. The fund is self-insured up to $500,000 per occurrence and reinsured up to the statutory limit through excess insurance.

Note 14 - Subsequent Events

The County has evaluated events subsequent to December 31, 2018 to assess the need for potential recognition or disclosure in the financial statements. Such events have been evaluated through August 19, 2019, the date the financial statements were available to be issued. Based upon this evaluation, it was determined that no subsequent events occured that required recognition or additional disclosure in the financial statements.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the County Commission and
Officeholders of Howard County, Missouri

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the accompanying financial statements of Howard County, Missouri as of and for the years ended December 31, 2018 and 2017, and the related notes to the financial statements, which collectively comprise Howard County, Missouri's basic financial statements, and have issued our report thereon dated August 19, 2019.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Howard County, Missouri's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Howard County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Howard County, Missouri's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did identify a certain deficiency in internal control, described in the accompanying schedule of findings and responses that we consider to be a significant deficiency as item 2018-001.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Howard County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards,* and which are described in the accompanying schedule of findings and responses as items 2018-002 and 2018-003.

Howard County, Missouri's Responses to Findings

Howard County, Missouri's responses to the findings identified in our audit are described in the accompanying schedule of findings and responses. Howard County, Missouri's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

August 19, 2019

The County of Howard
Fayette, Missouri
Schedule of Findings and Responses
For the years ended December 31, 2018 & 2017

Financial Statement Findings

2018-001 **Condition:** During our audit, we noted there is no formal fraud risk assessment in place.

Effect: Lack of an appropriate fraud risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

Cause: Management has not prepared documentation of risk assessments, including identifying risks and mitigating controls.

Criteria: Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze, and manage these risks.

Management's Response: The County is looking into updating the accounting policies and procedures manual to include a fraud risk assessment.

2018-002 **Condition:** During our audit, it was noted that the County failed to keep appropriate minutes for closed session meetings.

Effect: Due to failure to keep appropriate minutes for closed sessions meetings, the County is in violation of Missouri Revised Statutes.

Cause: Oversight

Criteria: RSMo. Section 51.120 requires the clerk of a county commission to keep an accurate record of the orders, rules, and proceedings of the county commission.

Recommendation: We recommend that the County keep appropriate minutes for closed session meetings.

Management's Response: The County is looking into better record-keeping procedures for closed meeting minutes.

Financial Statement Findings (continued)

2018-003 **Condition:** During our audit, it was noted that the County was not in compliance with Missouri budgetary state statute Chapter 50 RSMo. The following funds did not have a budget prepared in 2018 or 2017: Local Emergency Planning Commission Fund.

Effect: Due to lack of prepared budget, the County is in violation of Missouri Revised Statutes.

Cause: Oversight

Criteria: Missouri statutes requires Counties to prepare an annual budget as applicable to each fund. Expenditures are not to exceed the budget and funds are not to be budgeted at a deficit.

Recommendation: We recommend that the County prepare the required budgets for each fund.

Management's Response: The County Treasurer was unaware of this account (which was done prior to her coming into office and was under the direction of the prior County Commission) being under the Howard County employer identification number (EIN). It has now been detected, removed from the County's EIN, changed of status at the bank, and included under the EIN of the Local Emergency Planning Commission.

The County of Howard
Fayette, Missouri
Summary Schedule of Prior Year Findings and Questioned Costs
For the years ended December 31, 2018 & 2017

In accordance with *Government Auditing Standards*, this section reports the auditor's follow-up on action taken by Howard County, Missouri, on the applicable findings in the prior audit report issued for the two years ended December 31, 2014 & 2013.

Prior Year Financial Statement Finding

2014-01 **Budgetary Noncompliance on Expenditure Use**

Condition: Expenditures were made in 2014 and 2013 from the General Revenue Fund Emergency Fund classification totaling $3,283 and $45, respectively, which did not meet the statutory requirement of being emergency-type expenditures.

Criteria: Section 50.540.4 RSMo., states that the expenditures shall be made only for unforeseen emergencies and only on unanimous vote of the county commission.

Cause: The County Commission and County Clerk did not understand the statutory provision for use of the Emergency Fund within the General Revenue Fund.

Effect: The County Commission and the County Clerk did not follow state law and budgetary guidelines on the preparation of budget documents.

Recommendation: The County Commission and County Clerk should only use the Emergency Fund expenditure classification within the General Revenue Fund in accordance with the provisions of the state law.

Management's Response: The Howard County Commission and the County Clerk concur with the recommendation and will use the Emergency Fund expenditure classification within the General Revenue Fund in accordance with the provisions of the state law.

Status: Management has corrected this issue, therefore, this finding will not be repeated.

Prior Year Federal Award Finding

2014-02 **Schedule of Expenditures of Federal Awards**

Federal Grantor:	U.S. Department of Agriculture U.S. Department of Housing and Urban Development U.S. Department of Justice U.S. Department of Transportation General Services Administration Election Assistance Commission U.S. Department of Health and Human Services U.S. Department of Homeland Security
Pass-Through Grantor:	Various
Federal CFDA Number:	Various
Program Title:	Various
Pass-through Entity Identifying Number:	n/a
Award Year:	2014 and 2013
Questioned Costs:	n/a

Prior Year Federal Award Finding (continued)

2014-02 (cont.)

Condition: The County's Schedule of Expenditures of Federal Awards (SEFA) contained some errors and omissions of information required by the federal government. Purchases of state surplus property and federal disaster payments were not reported on the 2014 SEFA, and federal awards for the County's public health unit were not properly reported or some not reported on the SEFA for both 2014 and 2013. Also, federal bridge 20% credit or soft match funds distributed to the county totaling $101,228 for 2014 and $57,199 for 2013 were also excluded by the county. Total amendments to the County's SEFA for 2014 and 2013 were $242,263 and $50,535, respectively.

Criteria: Section .310(b) of Circular A-133, Audit of States, Local Governments, and Non-profit Organizations, requires the county to prepare a SEFA for the period covered by the county's financial statements. The county is required to submit the SEFA to the State Auditor's Office as part of the annual budget.

Cause: The County Commission and County Clerk did not take the appropriate steps to ensure the accuracy of the SEFA.

Effect: The SEFA schedules prepared for the County's federal programs were misstated for both years of 2014 and 2013.

Recommendation: Compilation of the SEFA requires consulting county financial records and requesting information from other departments and/or officials. The county should take steps to ensure all departments and/or officials properly track federal awards to ensure all federal awards are properly reported on the SEFA.

Management's Response: The Howard County Commission and the County Clerk concurs with the recommendation and is taking steps to ensure all departments and/or officials properly track federal awards to ensure all federal awards are properly reported on the SEFA.

Status: This finding is no longer applicable.

Missouri State Auditor

Ozark County

Report No. 2019-101

October 2019

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of Ozark County

Sheriff's Controls and Procedures	The Sheriff has not adequately segregated accounting duties and does not ensure adequate supervisory review of detailed accounting and bank records are performed. The Sheriff has not established adequate controls and procedures over seized property. The Sheriff does not deposit inmates' monies, but rather keeps the cash in separate envelopes for each inmate. The Sheriff's office has not developed inventory procedures to account for phone cards and e-cigarettes sold to inmates. The Sheriff's office does not charge or collect sales taxes on phone cards or e-cigarettes sold to inmates, and no sales taxes are remitted to the Missouri Department of Revenue. Pursuant to 12 CSR 10-110.955(3)(B), sales by the state of Missouri and its political subdivisions are subject to tax.
Ex Officio Recorder of Deeds' Controls and Procedures	The Ex Officio Recorder of Deeds does not prepare timely bank reconciliations and does not maintain an adequate list of liabilities. The Ex Officio Recorder of Deeds has not established proper controls and procedures for receipting and depositing monies, and does not maintain the change fund at a constant amount.
Payroll Controls and Procedures	The County Clerk's office does not ensure timesheet calculations, vacation and sick leave balances, and compensatory time balances are accurate, and does not ensure all timesheets are reviewed and signed by the employee's supervisor. County officials did not always follow established written personnel policies regarding vacation leave and compensatory time, and have not established personnel policies addressing the use of unearned leave and compensatory time used in excess of available balances. Employees are paid in advance of time worked, which may lead to errors and the potential for employees to be over/under paid.
Property Tax Reductions	The county did not properly report property tax levy reductions to the State Auditor's Office in 2016, and the County Clerk used an incorrect tax rate ceiling in his sales tax reduction calculations for 2017.
Electronic Data Security	The County Assessor, County Collector, County Clerk, Prosecuting Attorney, and Sheriff have not established adequate password controls to reduce the risk of unauthorized access to computers and data. The County Assessor, County Collector, County Clerk, Prosecuting Attorney, and Sheriff do not have security controls in place to lock computers after a specified number of incorrect logon attempts and/or after a certain period of inactivity.
County Assessor's Receipting and Transmitting Procedures	The County Assessor has not established proper procedures for receipting and transmitting monies.
County Clerk's Transmitting Procedures	The County Clerk does not always transmit monies timely to the County Treasurer as required by state law.

Additional Comments

Because counties are managed by several separately-elected individuals, an audit finding made with respect to one office does not necessarily apply to the operations in another office. The overall rating assigned to the county is intended to reflect the performance of the county as a whole. It does not indicate the performance of any one elected official or county office.

In the areas audited, the overall performance of this entity was **Fair.***

***The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Organization and Statistical Information 18

NICOLE GALLOWAY, CPA
Missouri State Auditor

County Commission
and
Officeholders of Ozark County

We have audited certain operations of Ozark County in fulfillment of our duties under Section 29.230, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2018. The objectives of our audit were to:

1. Evaluate the county's internal controls over significant management and financial functions.

2. Evaluate the county's compliance with certain legal provisions.

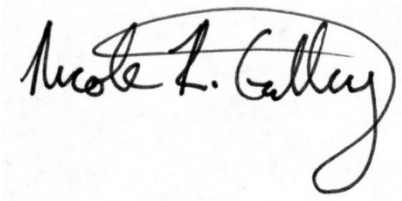
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the county's management and was not subjected to the procedures applied in our audit of the county.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of Ozark County.



Nicole R. Galloway, CPA
State Auditor

The following auditors participated in the preparation of this report:

Director of Audits:	Kelly Davis, M.Acct., CPA, CFE
Audit Manager:	Robyn Vogt, M.Acct., CPA
In-Charge Auditor:	Mackenzie J. Wooster
Audit Staff:	Amanda G. Flanigan, MAcc
	Ethan D. Evans
	Shelby Reams

1. Sheriff's Controls and Procedures

Controls and procedures in the Sheriff's office need improvement. The office collected approximately $78,600 for civil paper service, bonds, concealed carry weapon permits, commissary sales, jail phone commissions, and other miscellaneous receipts during the year ended December 31, 2018.

1.1 Segregation of duties and supervisory review

The Sheriff has not adequately segregated accounting duties and does not ensure adequate supervisory review of detailed accounting and bank records are performed. The Office Administrator is responsible for receipting most payments, recording receipts, depositing monies, making disbursements, and reconciling the bank accounts. The Sheriff indicated he or the Chief Deputy sign all checks and review the bank statements when they can; however, their reviews are not documented. No other supervisory review of the accounting and bank records are performed.

Proper segregation of duties is necessary to ensure transactions are accounted for properly and assets are adequately safeguarded. Internal controls would be improved by segregating the duties of receiving, recording, and depositing payments; making disbursements; and reconciling bank accounts. If proper segregation of duties cannot be achieved, documented independent or supervisory reviews of detailed accounting and bank records are essential and should include comparing daily receipt activity to deposits and disbursements to supporting documentation.

A similar condition was noted in our prior audit report.

1.2 Seized property

The Sheriff has not established adequate controls and procedures over seized property. We identified the following concerns:

- The seized property evidence log is not complete and accurate. We tested 20 seized property items and identified errors for 8 items (40 percent). One test item was not labeled with an identification tag. Three test items were not found in the location stated on the evidence log. Three test items selected from seized property could not be found on the evidence log, and one test item on the evidence log could not be located.

- The Sheriff has not performed a physical inventory of seized property. According to the Evidence Officer, it is unknown when the last physical inventory occurred.

- Access is not adequately restricted for some seized property. Seized property is stored both in a locked room and a fenced evidence cage in the Sheriff's office. Access to the locked room is restricted to only the Evidence Officer; however, all deputies have access to the fenced evidence cage.

Considering the often sensitive nature of seized property, adequate internal controls are essential and would significantly reduce the risk of loss, theft, or

misuse of the property. Complete and accurate inventory records including information such as description, current location, case number, date of seizure, and disposition of such property should be maintained, and periodic physical inventories performed with the results compared to inventory records to ensure seized property is accounted for properly.

1.3 Inmate monies

The Sheriff does not deposit inmate monies, but rather keeps the cash in separate envelopes for each inmate. A cash count performed on March 13, 2019, identified $498 in cash on hand belonging to 7 inmates. The money an inmate has at the time he/she arrives at the jail is recorded in the Sheriff's jail management system and placed in individual envelopes. Any additional money received on behalf of an inmate is recorded in the system and placed in the inmate's envelope. Inmates can only use their money for phone card or e-cigarette purchases. A receipt slip is issued when purchases occur. Any cash remaining in the envelope is returned to the inmate upon release.

To adequately safeguard receipts and reduce the risk of loss, theft, or misuse of funds, the Sheriff should deposit inmate monies in an official bank account and reconcile inmate account records to the reconciled bank account balance monthly.

1.4 Commissary inventory

The Sheriff's office has not developed inventory procedures to account for phone cards and e-cigarettes sold to inmates. A record is maintained to track inmate purchases, but no records are maintained of inventory purchased from vendors and inventory items remaining on hand. Sales to inmates totaled approximately $13,700 for phone cards and $11,800 for e-cigarettes during the year ended December 31, 2018.

Loss, theft, or misuse of the commissary inventory and related monies may go undetected without adequate inventory records and procedures. Detailed inventory records are necessary to adequately account for commissary inventory. Comparison of a periodic physical inventory to inventory records is necessary to ensure commissary items and related monies are properly recorded and handled.

1.5 Sales tax

The Sheriff's office does not charge or collect sales taxes on phone cards or e-cigarettes sold to inmates, and no sales taxes are remitted to the Missouri Department of Revenue (DOR). Pursuant to 12 CSR 10-110.955(3)(B), sales by the state of Missouri and its political subdivisions are subject to tax.

To ensure sales taxes are properly handled, the Sheriff should contact the DOR for guidance on establishing procedures for charging and collecting sales taxes on phone card and e-cigarette sales, and ensure all future sales tax collections are remitted to the DOR.

Recommendations

The Sheriff:

1.1 Segregate accounting duties or ensure adequate independent or supervisory reviews of detailed accounting and bank records are performed and documented.

1.2 Maintain a complete and accurate seized property evidence log, restrict access to seized property, and ensure a periodic inventory is conducted and reconciled to the seized property evidence log. Any differences should be investigated and resolved.

1.3 Deposit inmate monies in an official bank account. Inmate account records should be reconciled monthly to the reconciled bank account balance.

1.4 Maintain accurate commissary transaction records and reconcile these records to inventory purchased and sold.

1.5 Contact the DOR for guidance on establishing procedures for charging and collecting sales taxes on phone card and e-cigarette sales, and ensure all future sales tax collections are remitted to the DOR.

Auditee's Response

1.1 Due to minimal office staff, we cannot segregate duties; however, we will ensure supervisory reviews of detailed accounting and bank records are performed and documented at least on a monthly basis.

1.2 We are actively working to improve our seized property evidence log and procedures, including training, restricting access, and disposing of evidence related to closed cases. Once the seized property evidence records are updated, we will consider conducting an annual inventory, including investigating and resolving any differences.

1.3 All inmate monies are now deposited into the Inmate Trust Fund bank account upon receipt and refunded by check upon the inmate's release. A list of inmate monies are reconciled to the bank account balance on a monthly basis.

1.4 & 1.5 We are no longer handling any phone card or e-cigarette inventory. These items are now handled by the commissary vendor.

2. Ex Officio Recorder of Deeds' Controls and Procedures

Controls and procedures in the Ex Officio Recorder of Deeds' office need improvement. The office collected approximately $84,300 for recording documents such as marriage licenses, deeds, and other miscellaneous receipts during the year ended December 31, 2018.

2.1 Bank reconciliations and liabilities

The Ex Officio Recorder of Deeds does not prepare timely bank reconciliations and does not maintain an adequate list of liabilities. The Ex Officio Recorder of Deeds did not complete the monthly bank reconciliations for November 2018 through January 2019 until February 2019. As a result, she did not identify and correct minor errors related to December and January deposits until late February.

In addition, at our request, the Ex Officio Recorder of Deeds updated her list of liabilities that was last updated in March 2018. As of March 2019, the reconciled bank balance was $1,204, while the list of liabilities totaled $1,348, resulting in a shortage of $144.

Performing monthly bank reconciliations timely and preparing monthly lists of liabilities helps ensure receipts and disbursements have been properly handled and recorded, and increases the likelihood errors will be identified and corrected timely. Regular identification and comparison of liabilities to the reconciled bank balance is necessary to ensure records are in balance and monies are available to satisfy all liabilities. Differences should be adequately investigated and resolved.

2.2 Receipting and depositing

The Ex Officio Recorder of Deeds has not established proper controls and procedures for receipting and depositing monies, and does not maintain the change fund at a constant amount. A cash count performed on February 20, 2019, identified the following concerns:

- Office personnel do not issue receipt slips as copy and fax money is received. Instead, this money is added to the change drawer and one receipt slip is issued periodically for it.

- The Ex Officio Recorder of Deeds does not deposit receipts intact and does not maintain the change fund at a constant amount. The Ex Officio Recorder of Deeds established a change fund of $150; however, she does not count the change fund daily to ensure it reconciles to the established amount. During the cash count, the change fund totaled $169. The Ex Officio Recorder of Deeds stated she believed the $19 difference related to copy money collected, but not recorded in the computer system when received. This money would not have been included in a deposit, because deposits are prepared from the system-generated daily collection reports.

In addition, we noted documentation where the change fund had been used for a $9 postage purchase.

Failure to implement adequate receipting and depositing procedures increases the risk that loss, theft, or misuse of monies received will go undetected. To reduce this risk, procedures should be established to ensure all monies received are properly receipted and deposited intact. In addition, if a change fund is needed, it should be set at a constant amount and a procedure established to reconcile to this amount every time a deposit is made.

Recommendations

The Ex Officio Recorder of Deeds:

2.1 Ensure monthly bank reconciliations and lists of liabilities are prepared and reconciled timely. Any differences between accounting records and reconciliations should be promptly investigated and resolved.

2.2 Issue receipt slips for money received immediately upon receipt and make deposits intact. In addition, maintain the change fund at a constant amount.

Auditee's Response

2.1 I am now working to prepare bank reconciliations and a list of liabilities monthly, and any differences will be promptly investigated and resolved.

2.2 I will ensure all monies are receipted or logged immediately upon receipt, and all monies will be deposited intact daily. In addition, the change fund is now maintained at a constant amount.

3. Payroll Controls and Procedures

Controls and procedures over payroll need improvement.

All employees are responsible for completing and submitting a manual timesheet to the County Clerk's office on a monthly basis. The County Clerk's office uses the timesheets for hourly employees to enter hours worked, vacation and sick leave, and compensatory time into the computerized payroll system. Only hours worked are entered for salaried employees. The County Clerk's office also maintains a manual spreadsheet to track vacation and sick leave and compensatory time for all county employees.

The employees in the Sheriff's office also complete a daily record for each month. The daily record includes the starting time and ending time for each work day, the total hours worked, any compensatory time earned during the month, and the balance of compensatory time at the end of the month. The Sheriff's Office Administrator also maintains a manual spreadsheet to track vacation, holiday, and sick leave balances.

3.1 Time and leave records

The County Clerk's office does not ensure timesheet calculations, vacation and sick leave balances, and compensatory time balances are accurate, and does not ensure all timesheets are reviewed and signed by the employee's supervisor. During our review of payroll records for 3 consecutive pay periods for 5 county employees (15 total timesheets) and while scanning the leave and compensatory time records for all county employees, we identified the following concerns:

- Total hours worked for one employee were overstated by 6 hours, resulting in the employee being overpaid. For one week, the employee's reported hours worked totaled only 34 hours for the week; however, the County Clerk's office calculated 40 hours worked for the week in error.

- One employee's timesheet included 4.5 hours of overtime in the calculation of total hours worked and in the calculation of compensatory time earned. As a result, this employee was overpaid for 4.5 hours.

- One employee's leave usage for 2 months was not properly recorded in the leave records, resulting in his leave balances being overstated. His August 2018 timesheet indicated 20 hours of sick leave had been used. However, these sick leave hours were not recorded in the payroll system or the County Clerk's spreadsheet and were instead paid as regular hours worked. We noted similar issues with the October 2018 timesheet for this employee. Twenty hours of vacation leave were recorded on his timesheet as being used during the month. However, these leave hours were not recorded in the payroll system or the County Clerk's spreadsheet, and were instead paid as regular hours worked.

- Leave and compensatory time records maintained by the County Clerk are not reconciled to records maintained by the Sheriff's office. For example, on the October 2018 daily record completed for the Sheriff's office, one employee recorded using 8 hours of vacation leave and 8 hours of compensatory time during the month. However, the leave and compensatory time were not reported on the timesheet submitted to the County Clerk's office. As a result, the leave and compensatory time did not agree between the records of the Sheriff's office and the County Clerk's office. In addition, for this employee the October 2018 balance of vacation leave, sick leave, and compensatory time totaled 108 hours, 128 hours, and 91 hours, respectively, according to the Sheriff's office records. However, the balances totaled 80 hours, 158 hours, and negative 73.75 hours, respectively, according to the County Clerk's office records.

- Three timesheets were not reviewed and signed by the employee's supervisor.

Accurate time and leave records are necessary to ensure employees receive proper compensation and leave benefits, provide support for payroll

transactions, and ensure all employees are treated equitably. In addition, reconciliations of leave and compensatory time records between the Sheriff's office and the County Clerk's office help verify that records are accurate and consistent with timesheets. Also, to ensure the accuracy of time worked and leave taken, timesheets should be reviewed and signed by the employee's supervisor.

3.2 Personnel policies

County officials did not always follow established written personnel policies regarding vacation leave and compensatory time, and have not established personnel policies addressing the use of unearned leave and compensatory time used in excess of available balances.

Vacation leave

Vacation leave was not accrued in accordance with county policy for 2 employees during 2018. According to the county's policy, vacation leave will accrue for full-time employees at the rate of 4 hours per month for the first 3 years of employment and then at a rate of 8 hours per month thereafter. We noted one employee's vacation leave accrual did not increase from 4 to 8 hours per month when the employee reached 3 years of employment in February 2018. For another employee, the vacation leave accrual did not increase from 4 to 8 hours per month until 4 months after the employee reached 3 years of employment.

In addition, the county's policy states an employee begins earning vacation leave at the start of employment, but is not eligible to use any vacation leave until after 6 months of employment. However, we noted 3 employees used vacation leave before completing their first 6 months of employment.

Excess compensatory time

Compensatory time balances are not handled in accordance with county policy or Fair Labor Standards Act (FLSA) requirements. We noted the compensatory time balance for one employee exceeded the 240 hour maximum allowed by county policy from May through October 2018. The compensatory balance was 282 hours for August through October. We noted another employee reached the 240 hour limit, but his compensatory time balance was capped at 240 hours as indicated in the policy. However, this employee continued to earn additional compensatory time after reaching the maximum, but the additional hours were not added to his compensatory time balance and he was not paid for the additional hours as required by the FLSA.

Sheriff's compensatory time calculation

The Sheriff's office does not calculate compensatory time in accordance with the county's policy and FLSA requirements. The Sheriff's office accrues compensatory time as straight time when employees work more than 40 hours in a week; however, the county's policy requires compensatory time to be awarded at a rate of time and one-half for hours exceeding 171 hours in a 28-day period. We noted one deputy earned 6 hours of compensatory time in July 2018 because he worked 46 hours in a week. However, if the county's policy

and FLSA requirements were followed, compensatory time would not have been earned.

Negative balances

The county's policy does not address the use of unearned leave, and some county employees used vacation or sick leave or compensatory time in excess of their available balances, resulting in negative leave balances. According to the spreadsheet maintained by the County Clerk's office, 3 employees had negative vacation or sick leave balances and 2 employees had negative compensatory time balances during 2018. One of these employees had a negative leave balance for 11 months.

Conclusion

Written personnel policies and strict compliance with those policies is necessary to ensure equitable treatment of employees, prevent misunderstandings, and ensure employees are properly compensated in accordance with FLSA requirements. In addition, employees should be paid for any additional hours of compensatory time worked when balances exceed the 240 hour maximum. Also, the county's policy should be updated to not allow employees to carry negative leave balances.

3.3 Advanced payments

Employees are paid in advance of time worked, which may lead to errors and the potential for employees to be over/under paid. The County Clerk's office distributes payroll for all employees on the last working day of each month for the period ending the last day of the month. Timesheets are prepared and submitted approximately one week in advance of the payroll distributions with estimates of hours to be worked for the last week of the month. The monthly timesheet includes instructions for employees to record their actual hours worked for the last week of the month on the subsequent month's timesheet.

The County Clerk's office does not always adjust the payroll records when differences occur between the actual hours worked and the previously recorded estimated hours worked. In addition, not all county employees are reporting actual hours worked for the last week of the previous month when those hours were estimated; therefore, actual hours worked cannot be compared to estimated hours for these employees.

To ensure payroll disbursements are appropriate and to reduce the risk of errors and the potential for employees to be over/under paid, the County Commission should require adequate documentation to support all payroll transactions. In addition, Article VI, Sections 23 and 25 of the Missouri Constitution, prohibits the granting of public monies or property to any private person, association, or corporation.

Similar conditions previously reported

Similar conditions to sections 3.1 and 3.2 were noted in our prior 3 audit reports. In addition, a similar condition to section 3.3 was noted in our prior audit report.

Recommendations

3.1 The County Clerk ensure timesheets are accurately prepared, properly signed and approved, and employee leave and compensatory time balances are properly recorded and calculated. In addition, for Sheriff's office employees, the Sheriff should ensure the activity reported on the timesheets submitted to the County Clerk's office agrees to the daily record and leave and compensatory time balances are reconciled to balances maintained by the County Clerk's office.

3.2 The County Commission and County Clerk ensure compliance with personnel policies and FLSA requirements, review and update the personnel policies, as necessary, ensure employees are paid for any additional hours of compensatory time worked when balances exceed the 240 hour maximum, and discontinue allowing employees to carry negative leave balances.

3.3 The County Commission should discontinue compensating employees in advance of receiving services, or establish adequate procedures to compare actual time worked to time previously reported for all employees and ensure adjustments to the payroll records are made when necessary.

Auditee's Response

The County Clerk provided the following responses:

3.1 &
3.2 *We ensure timesheet calculations are correct and accurate to the best of our knowledge. We do, however, agree that errors can be made and pride ourselves with fixing those errors in a timely manner, or as soon as they come to our attention.*

In addition, leave and compensatory time kept between the County Clerk's office and the Sheriff's office is already in the process of being fixed. We recognized when the ability to start working with the Sheriff's office was presented, that we actively pursue that ability. The new Sheriff's Office Administrator and the County Clerk's office are actively working together to find the most efficient and best way to fix this issue. We will adopt recommendations 3.1 and 3.2.

3.3 *This issue is an ongoing issue within the payroll process. After the advisement of the previous state audit, we adopted and changed the design of our timesheets to capture the previous months' advance payment period, and these timesheets are signed by both the employee and the supervisor. This gives us the ability to see the difference, if any, from the previous advance payment period and make corrections as they should be made. We agree that the changes made after the previous audit were the best changes that could be made for all parties involved.*

The Sheriff provided the following response:

3.1 We are working with the County Clerk's office to improve timesheet, leave, and compensatory time records. We will ensure centralized leave records are maintained or leave and compensatory time balances are reconciled.

The County Commission provided the following responses:

3.2 &
3.3 We will take into advisement all of the findings in the 2019 audit and will work diligently to address and fix these findings.

4. Property Tax Reductions

The county did not properly report property tax levy reductions to the State Auditor's Office (SAO) in 2016, and the County Clerk used an incorrect tax rate ceiling in his sales tax reduction calculations for 2017.

Section 67.505, RSMo, requires the county to reduce property taxes for a percentage of sales taxes collected. Ozark County voters enacted a one-half cent sales tax with a provision to reduce property taxes by 50 percent of sales taxes collected. The county is required to estimate the annual property tax levy to meet the 50 percent reduction requirement and provides for an adjustment for actual sales tax collections of the preceding year that are more or less than the estimate for the preceding year.

The county is required to certify to the SAO the annual property tax levy including the amount the levy is reduced for sales tax collections, as well as any voluntary reductions. In 2016, the county incorrectly reported the sales tax reduction as a voluntary reduction instead of as a sales tax reduction. The SAO followed Section 137.073.5(4), RSMo, which provides a voluntary reduction taken in a non-assessment year (even year) results in a reduced tax rate ceiling during the subsequent reassessment year (odd year), causing a significantly lowered tax rate ceiling for the county in 2017.

When preparing the sales tax reduction calculations, the County Clerk incorrectly used the tax rate ceiling prior to the ceiling being decreased due to the voluntary reduction. Because the County Clerk used the incorrect tax rate ceiling, he estimated the county was reducing the property tax levy for a sales tax reduction as required. However, the tax rate certification letter issued by the SAO indicated no sales tax reduction was taken for 2017. Had the County Clerk used the correct tax rate ceiling, the estimated 2017 sales tax reduction would have differed. This would also have resulted in changes to his 2018 calculations.

The County Clerk noted the tax rate ceiling had been reduced when calculating the tax rate to be levied for 2017, and contacted the SAO for an

explanation. The SAO provided information regarding the impact of taking a voluntary reduction in a non-assessment year and provided instructions on how the county could reinstate the tax rate ceiling in the next non-assessment year (2018). However, no steps were taken by the County Clerk in 2018 to reinstate the tax rate ceiling. Section 137.073.5(4), RSMo, allows the county to reinstate its tax rate ceiling.

In addition, Section 137.073.6(3), RSMo, allows the county to submit amended tax rate forms to the SAO if clerical errors occurred. In August 2019, the County Clerk contacted the SAO to begin the process to correct the county's tax rate ceiling.

To ensure property tax levies are properly set and property tax rate ceilings are maintained, the County Commission and County Clerk should ensure property tax levy reductions are accurately calculated, reported and certified.

Recommendation

The County Commission and County Clerk properly calculate and report property tax rate reductions (sales tax or voluntary). During the tax rate setting process, the County Commission and County Clerk should ensure tax rate information reported back to the county in the State Auditor's Office certification letter is consistent with expectations and, if not, promptly follow up on any discrepancies.

Auditee's Response

The County Clerk provided the following response:

We will ensure that tax rate information reported back to the county is consistent with expectations.

The County Commission provided the following response:

We will take into advisement all of the findings in the 2019 audit and will work diligently to address and fix these findings.

5. Electronic Data Security

Controls over county computers are not sufficient. As a result, county records are not adequately protected and are susceptible to unauthorized access or loss of data.

5.1 Passwords

The County Assessor, County Collector, County Clerk, Prosecuting Attorney, and Sheriff have not established adequate password controls to reduce the risk of unauthorized access to computers and data. Employees in these offices are not required to change passwords periodically and/or use passwords with a minimum number of characters.

Passwords are required to authenticate access to computers. The security of computer passwords is dependent upon keeping them confidential. However, since passwords in certain offices are not required to be periodically changed

or contain a minimum number of characters, there is less assurance they are effectively limiting access to computers and data files to only those individuals who need access to perform their job responsibilities. Passwords should be confidential, changed periodically, and contain a minimum number of characters to reduce the risk of a compromised password and unauthorized access to and use of computers and data.

5.2 Security controls

The County Assessor, County Collector, County Clerk, Prosecuting Attorney, and Sheriff do not have security controls in place to lock computers after a specified number of incorrect logon attempts and/or after a certain period of inactivity. Also, the Sheriff has not disabled the user account of an employee who has not worked in the office since November 2018.

Logon attempt controls lock the capability to access a computer after a specified number of consecutive unsuccessful logon attempts and are necessary to prevent unauthorized individuals from continually attempting to logon to a computer by guessing passwords. Inactivity controls are necessary to reduce the risk of unauthorized individuals accessing an unattended computer and having potentially unrestricted access to programs and data files. Without effective security controls and effective procedures to remove user access, there is an increased risk of unauthorized access to computers and the unauthorized use, modification, or destruction of data.

Similar conditions previously reported

Similar conditions were noted in our prior audit report.

Recommendations

The County Commission work with other county officials to:

5.1 Require each employee to have a confidential password with a minimum number of characters that is periodically changed.

5.2 Require each county computer to have security controls in place to lock it after a specified number of incorrect logon attempts or after a certain period of inactivity. In addition, ensure user accounts of former employees are promptly disabled.

Auditee's Response

The County Commission provided the following response:

We will take into advisement all of the findings in the 2019 audit and will work diligently to address and fix these findings.

The County Clerk provided the following response:

After taking the advisement of the previous state audit, the County Clerk's office required all computers and respective programs within those computers to be password protected. In addition, these computers will lock

after 10 minutes and require a password to unlock after that time period. We will now take into advisement, and adopt, requiring passwords to be changed every 90 days and have a minimum number of characters, symbols, and capital letters. However, not all programs used by the county have the ability to require some of these changes.

6. County Assessor's Receipting and Transmitting Procedures

The County Assessor has not established proper procedures for receipting and transmitting monies. The office collected approximately $8,700 for copies of maps during the year ended December 31, 2018.

- Monies received are not always transmitted timely to the County Treasurer as required by state law. For example, receipts collected from April 12, 2018, through August 13, 2018, totaling $4,596, were not transmitted until August 13, 2018.

- Checks are not restrictively endorsed immediately upon receipt. The endorsement is applied when preparing the transmittal to the County Treasurer.

Failure to implement adequate receipting and transmitting procedures increases the risk that loss, theft, or misuse of monies received will go undetected. In addition, Section 50.370, RSMo, requires all county officials who receive fees or any other remuneration for official services to pay such monies monthly to the County Treasurer.

Recommendation

The County Assessor ensure all monies are transmitted timely and restrictively endorse checks immediately upon receipt.

Auditee's Response

There will be a transmittal made by the 30th of each month going forward. We have an endorsement stamp for checks received, and will endorse checks upon receipt.

7. County Clerk's Transmitting Procedures

Monies received are not always transmitted timely to the County Treasurer as required by state law. For example, receipts collected from June 14, 2018, through August 27, 2018, totaling $6,912, were not transmitted until August 30, 2018. The County Clerk's office collected approximately $12,600 for maps, all-terrain vehicle permits, liquor licenses, and notary fees during the year ended December 31, 2018.

Failure to implement adequate procedures to transmit monies timely increases the risk that loss, theft, or misuse of monies received will go undetected. In addition, Section 50.370, RSMo, requires all county officials who receive fees or any other remuneration for official services to pay such monies monthly to the County Treasurer.

Recommendation

The County Clerk ensure all monies are transmitted timely.

Auditee's Response

We will be more timely in transmitting money to the County Treasurer, especially during our "high traffic" time of June-July when the vast majority of our revenue is received.

Ozark County
Organization and Statistical Information

Ozark County is a county-organized, third-class county. The county seat is Gainesville.

Ozark County's government is composed of a three-member county commission and separate elected officials performing various tasks. All elected officials serve 4-year terms. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county roads and bridges, and performing miscellaneous duties not handled by other county officials. Principal functions of these other officials relate to law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records important to the county's citizens. In addition to elected officials, the county employed 51 full-time employees and 12 part-time employees on December 31, 2018.

In addition, county operations include a Recycling Center.

Elected Officials

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below:

Officeholder	2019	2018
Johnnie M. Turner, Presiding Commissioner	$	27,080
Greg Donley, Associate Commissioner		25,080
Gary Collins, Associate Commissioner		25,080
Becki Strong, Circuit Clerk and Ex Officio Recorder of Deeds (1)		
Brian Wise, County Clerk		38,000
John Garrabrant, Prosecuting Attorney		138,719
Darrin Reed, Sheriff		42,000
Phyllis Gaulding Turner, County Treasurer		38,000
Shane Ledbetter, County Coroner		11,000
Melinda Abraham, Public Administrator		38,000
Billy D. Hambelton II, County Collector, year ended February 28,	38,000	
Jama M. Berry, County Assessor, year ended August 31,		38,000
Matt Wade, County Surveyor (2)		

(1) Compensation is paid by the state.
(2) Compensation on a fee basis.

Missouri State Auditor

Thirty-First Judicial Circuit
Greene County

Report No. 2019-100

October 2019

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the Thirty-First Judicial Circuit, Greene County

Time-Payment Fee	The court does not assess the time-payment fee on juvenile cases as required by local court and Missouri Supreme Court rules.
Circuit Court Funds	The court does not prepare budgets for the three funds administered by the Court en Banc, and two of the funds have accumulated excessive fund balances without any formal plans for their use. At December 31, 2018, the Time Payment Fund's cash balance was $186,136 and the 31st Judicial Special Fund's cash balance was $982,197.

In the areas audited, the overall performance of this entity was **Good**.*

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Circuit Clerk and Court en Banc's Response 8

NICOLE GALLOWAY, CPA
Missouri State Auditor

Presiding Judge and Court en Banc
and
Circuit Clerk of the
Thirty-First Judicial Circuit
Greene County, Missouri

We have audited certain operations of the Thirty-First Judicial Circuit, Greene County in fulfillment of our duties under Chapter 29, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2018. The objectives of our audit were to:

1. Evaluate the court's internal controls over significant financial functions.

2. Evaluate the court's compliance with certain legal provisions.

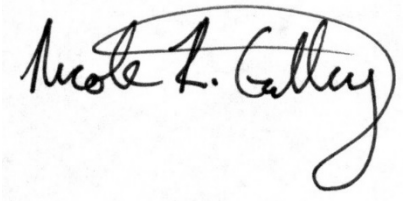
3. Evaluate the court's compliance with certain court rules.

Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the court, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the court's management, the Office of State Courts Administrator, and Greene County and was not subjected to the procedures applied in our audit of the court.

For the areas audited, we identified (1) deficiencies in internal controls, (2) no significant noncompliance with legal provisions, and (3) noncompliance with court rules. The accompanying Management Advisory Report presents our findings arising from our audit of the Thirty-First Judicial Circuit, Greene County.



Nicole R. Galloway, CPA
State Auditor

The following auditors participated in the preparation of this report:

Director of Audits:	Kim Spraggs, CPA, CGAP
Audit Manager:	Josh Allen, CPA, CFE, CGAP
In-Charge Auditor:	Joy Stevens, CFE, CGAP
Audit Staff:	Jacqueline E. Brown, MBA
	Samantha A. Bull

1. Time-Payment Fee

The court does not assess the time-payment fee on juvenile cases as required by local court and Missouri Supreme Court rules. The court did not assess the time-payment fee for approximately 2,800 juvenile cases outstanding as of December 31, 2018.

Local Court Rule 100.3.3 requires the Circuit Clerk to assess a fee on each person who pays a court-ordered judgment, penalty, fine, sanction, or court costs on a time-payment basis, including restitution and juvenile monetary assessments. In addition, Missouri Supreme Court Operating Rule (COR) 21.13 requires all divisions of the circuit courts, except municipal divisions, to assess a $25 time-payment fee on all cases not paid in full within 30 days of disposition. Failure to follow these rules results in lost revenue.

Recommendation

The Circuit Clerk ensure time-payment fees are assessed in accordance with court operating rules.

Auditee's Response

The Circuit Court's written response, provided by the Circuit Clerk and the Presiding Judge, is included at the appendix.

2. Circuit Court Funds

The court does not prepare budgets for the three funds administered by the Court en Banc, and two of the funds have accumulated excessive fund balances without any formal plans for their use.

The Court en Banc administers three funds, each with a specific purpose(s): the Time Payment Fund, the Family Services and Justice Fund, and the 31st Judicial Special Fund. These funds are maintained in three separate bank accounts and the Presiding Judge's office is responsible for making disbursements from the funds. At December 31, 2018, these funds had an aggregate balance of approximately $1.3 million and approximately $150,000 was disbursed from these funds in 2018.

2.1 Budgets

Budgets are not prepared for the Time Payment Fund, the Family Services and Justice Fund, and the 31st Judicial Special Fund.

Preparing a budget for public funds aids in the fiscal management of the monies; provides a means to effectively monitor actual costs, revenues, and cash balances; and helps inform both the county and the public of the court's financial picture.

2.2 Accumulated fund balances

The Time Payment Fund and the 31st Judicial Special Fund have accumulated excessive fund balances without any formal plans for their use. The fees assessed provide significantly more revenue than is necessary to maintain the current expenditures from these funds.

The Time Payment Fund's cash balance was $186,136 at December 31, 2018, while 2018 total disbursements totaled $1,075. As previously noted, Local

Court Rule 100.3.3 and COR 21.13 require the Circuit Clerk to assess the time-payment fee on certain cases.[1] Section 488.5025.2, RSMo, requires the fee be distributed as follows: $8 to the statewide court automation fund, $7 to the director of revenue, and $10 to the Time Payment Fund to be spent under the direction and order of the Court en Banc to improve, maintain, and enhance the ability to collect and manage moneys assessed or received by the court; to improve case processing, enhance court security, preservation of the record; or to improve the administration of justice.

The 31st Judicial Special Fund's cash balance was $982,197 at December 31, 2018, while 2018 total disbursements totaled $79,826. Receipts deposited in this fund have increased each year since 2015 and totaled approximately $226,000 in 2018. The court assesses a surcharge of $20 for each civil case filing, the amount allowed by Section 488.426.2, RSMo. Section 488.429, RSMo, authorizes the Court en Banc to spend these funds for the maintenance and upkeep of the law library, court room renovations, technology improvements, the circuit's family services and justice fund, or debt service on county bonds for courtroom renovations or enhancement projects.

As previously noted, these funds are not budgeted and no other formal plan exists for their use. The Presiding Judge indicated the Court en Banc plans to use some of the 31st Judicial Special Fund balance to remodel ten courtrooms costing approximately $45,000 per courtroom, a total of $450,000 in estimated costs. He also indicated the court plans to use the funds to pay guardian ad litem fees and Family Treatment Court expenses. However, no other plans were provided for the remaining fund balance.

Accumulated excessive cash balances with no formal plan for use of the monies puts an unnecessary burden on taxpayers. The court should determine future needs and develop a formal plan for the use of the Time Payment Fund and the 31st Judicial Special Fund. In addition, the court should consider reducing or suspending the surcharge on civil cases if the fees are not needed for the court's operation.

Recommendations

The Court en Banc:

2.1 Prepare annual budgets for the Time Payment Fund, the Family Services and Justice Fund, and the 31st Judicial Special Fund; and provide copies of these budgets to the county budget officer.

2.2 Develop a formal plan, based on the court's future needs, to use the monies available in the Time Payment Fund and the 31st Judicial

[1] As noted at finding number 1, the court is not collecting the required time-payment fee on juvenile cases.

Special Fund and/or consider reducing or suspending the surcharge on civil cases.

Auditee's Response

The Circuit Court's written response, provided by the Circuit Clerk and the Presiding Judge, is included at the appendix.

Auditor's Comment

The Circuit Court's response states the court provided to auditors a rather extensive outline of the planned use of the funds and the finding concluded the court has no planned use for the funds. However, the finding does acknowledge various plans communicated to audit staff which need to be formally documented. To ensure transparency and accountability over these funds, all plans for the funds should be documented in a formal written plan.

Thirty-First Judicial Circuit
Greene County
Organization and Statistical Information

The Thirty-First Judicial Circuit consists only of Greene County.

Personnel

At December 31, 2018, the judges, Circuit Clerk, Court Administrator, and Juvenile Officer/Family Court Administrator of the Thirty-First Judicial Circuit, Greene County, were as follows:

Title	Name
Presiding Circuit Judge	Michael J. Cordonnier
Circuit Judge, Division II	David Jones
Circuit Judge, Division III	Jason Brown
Circuit Judge, Division IV	Thomas Mountjoy
Circuit Judge, Division V	Calvin Holden
Associate Circuit Judge, Division 21	Jerry A. Harmison Jr.
Associate Circuit Judge, Division 22	Margaret Holden Palmietto
Associate Circuit Judge, Division 23	Andy Hosmer
Associate Circuit Judge, Division 24	Mark Powell
Associate Circuit Judge, Division 25	Becky J.W. Borthwick
Associate Circuit Judge, Division 26	J. Ronald Carrier
Circuit Clerk	Thomas R. Barr
Court Administrator	Kylie Young
Chief Juvenile Officer/Family Court Administrator	Bill Prince

In addition, the Thirty-First Judicial Circuit, Greene County, employed 206 full-time employees and 14 part-time employees on December 31, 2018.

Financial Information

Receipts of the Thirty-First Judicial Circuit, Greene County, were as follows:

	Year Ended December 31, 2018
Circuit Court deposits, fees, bonds, and other	$8,980,964
Juvenile Court deposits, fees, and other	459,783
Total	$9,440,747

Caseload Information

From the Office of State Courts Administrator Missouri Judicial Reports, case filings of the Thirty-First Judicial Circuit, Greene County, were as follows:

	Year Ended June 30, 2018
Civil	15,846
Criminal	15,677
Juvenile	882
Probate	1,931
Total	34,336

Re: Auditees response
Thirty-first Judicial Circuit
Management Advisory Report – State Auditor's Findings

Dear Auditor Galloway,

You have provided us a draft of your Management Advisory Report. Your report follows your audit review process that began April 9, 2019 and included many weeks of onsite review, offsite review following, and inspection of countless documents. We appreciate the thoroughness of your effort, and the professionalism of your audit staff.

Following our careful review your report, we are very proud of the manner in which the financial, operational and legal business is conducted in the Thirty-first Judicial Circuit. While it is no surprise to us, it is certainly gratifying to confirm that based on the thousands of financial transactions and over $9 million managed, there were no significant shortcomings revealed in your investigation. Similarly upon your review of innumerable case related transactions there were no operational or legal issues to report. The dedicated and conscientious men and women in the Thirty-first Judicial Circuit, who universally take great pride in their service to the judiciary, will be gratified to learn of your report.

At your request, we are providing our response to your specific findings. For clarity, our response will be in the same order, and with the same numerical identification which you have chosen for your report.

1. Time-Payment Fee

As you have recited, the Thirty-first Judicial Circuit local court rule 100.3.3 is identical to Missouri Supreme Court Operation Rule 21.13. Both rules require the court to assess a $25 fee on all cases with financial charges not paid in full within 30 days of disposition. Without question the Supreme Court has resolved this fee shall apply to all divisions of the court. As you have observed, our court has not been assessing the "late fee" in cases disposed in the Juvenile Division. The fee has been appropriately assessed in all other divisions of the court.

We have determined this dates back to a time before the rules mandated all divisions of court be assessed the specific fee. [Effective date was January 1, 2012] We can only surmise historically that because the typical Juvenile Division fee is relatively small, $30, and is levied on persons most often without means to make the payment, (juvenile abuse, neglect, and delinquency cases) the Court simply did not determine it appropriate or cost effective to add the $25 additional fee. Our policy did not recognize the rule change.

However, in response to your report, we do acknowledge our obligation to assess the late payment fee on Juvenile Division cases and have already taken action to make certain the fee is assessed on all cases as mandated.

2. Circuit Court Funds

2.1 – 2.2 Budgets and Accumulated fund balances.

You have suggested two of three court managed funds have accumulated excessive balances without any formal plans for their use. Curiously, one of the funds to which you refer is the Time Payment Fund, which was the subject of Part 1 of your report for which we will now be assessing more fees.

We do take issue with your conclusion. In response to the onsite auditor's request, we did provide a rather extensive outline of the Courts planned use of the funds that included significant expenditures made in 2019, albeit outside of your audit period, and the reasonably anticipated future expenditures.

The Thirty-first Judicial Circuit is a non-partisan court as contemplated by Article 5 of the Missouri Constitution. As such, we are restricted and in fact limited by Missouri statutes in the types of expenditures we can approve from the funds you reference. As we disclosed to your onsite auditors, we have been working closely with our elected representatives to advance a statutory amendment to expand the authorized use(s) for these funds so we can better provide judicial resources to our community. We will continue that effort in the next legislative session. If and when we are successful in promoting that amendment we anticipate a substantial and recurrent expenditure from the funds.

To allay your conclusion that we have no planned use for the funds, and in effort to give you some insight into our current and anticipated use, thus far in the calendar year 2019, we have expended nearly $200,000 to upgrade four of our aging courtrooms with modern audio and visual technology. The expense for the equipment, infrastructure, and installation is approximately $45,000/courtroom. Our current plan is to proceed with renovating the remaining ten courtrooms, one-by-one in an organized and disciplined manner. The anticipated expenditure will be in excess of $450,000.

In addition we are very pleased to report the Missouri Legislature has appropriated funds for the Thirty-first Judicial Circuit to install an additional, now sixth Circuit Judge. The first additional Circuit Judge position in our circuit in over 40 years! Therefore in our 2020 budget estimate recently submitted to the Greene County Commission, we have proposed, and now committed in our formal budget, to fund the cost of furnishings, computers and audiovisual equipment for a soon-to-be constructed additional courtroom. This planned expenditure exceeds $100,000. We are working closely and collegially with the Greene County Commission in this regard.

Finally, and consistent with the statutory restriction, in the year 2019 we have used approximately $200,000 of the fund monies to support the expense of our Family Treatment Court program. This program is a section of our broader Treatment Court and serves families in crisis and families unable to reunify with their children due to addiction issues.

You are correct in your conclusion that we have not prepared a formal budget for these funds. We do however disagree with your conclusion that we do not effectively monitor actual costs, revenues and cash balances with regard to the funds. We do in fact carefully monitor each of those management points. While nothing in the enabling statues for these funds, or the Supreme Court Operating Rules would mandate or even suggest that a formal budget should be prepared, we do accept and appreciate your suggestion that a budget may be of assistance in our continued management of these funds.

Sincerely,

Thomas R. Barr
Greene County Circuit Clerk

Michael J. Cordonnier
Presiding Judge
Thirty-first Judicial Circuit

CITIZENS SUMMARY

Findings in the audit of the Missouri Accountability Portal

Incomplete and Inaccurate Data	Certain data reported in the Missouri Accountability Portal (MAP) is not complete or accurate. The OA has excluded a category of state expenditures from reporting in the MAP, resulting in an underreporting of state expenditures of approximately $743 million for the 7-month period July 2018 through January 2019. In addition, the OA has elected to omit interagency payments from the MAP, leading to inaccurate reporting of agency expenditures. The OA has not adopted policies and procedures to ensure bonds reported by political subdivisions to the MAP are complete or accurate.
Portal Usability	Opportunities exist for the OA to increase the usability and functionality of the MAP. The MAP does not incorporate some best practices and actions recommended for transparently reporting government data. Data available from the download tool in the MAP is not the same as the data displayed in the MAP for public browsing.

Because of the nature of this report, no rating is provided.

NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Sarah H. Steelman, Commissioner
Office of Administration
Jefferson City, Missouri

We have audited certain operations of the Office of Administration, Missouri Accountability Portal (MAP). This audit was conducted in fulfillment of our duties under Chapter 29, RSMo. The objectives of our audit were to:

1. Evaluate the timeliness, completeness, accuracy, and quality of the MAP data.

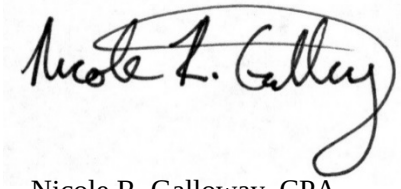
2. Evaluate the extent to which the MAP is consistent with key practices for transparently reporting state (government) data on a centralized website.

3. Evaluate compliance with certain legal provisions.

4. Evaluate the economy and efficiency of certain management practices and information system control activities.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

For the areas audited, we identified (1) deficiencies in the completeness and accuracy of MAP data, (2) noncompliance with key practices for transparently reporting government data, (3) no significant noncompliance with legal provisions, and (4) no significant deficiencies in management practices and information system control activities. The accompanying Management Advisory Report presents our findings arising from our audit of the Missouri Accountability Portal.



Nicole R. Galloway, CPA
State Auditor

The following auditors participated in the preparation of this report:

Director of Audits:	Jon Halwes, CPA, CGFM

Missouri Accountability Portal
Introduction

Background

The Missouri Accountability Portal (MAP) website[1] "is presented to the citizens of Missouri as a single point of reference to review how their money is being spent and other pertinent information related to the enforcement of government programs," according to the website's homepage. The MAP was established by Executive Order 07-24 signed by Governor Matt Blunt in July 2007. The order described the MAP as "an easy-to-search database of financial transactions related to the purchase of goods and services and the distribution of funds for state programs" and "shall be updated each state business day and maintained as the primary source of information about the activity of Missouri's government." This Executive Order was codified into statute[2] in 2009, and amended in 2013.

The MAP website is primarily administered by the Office of Administration (OA), Division of Accounting. The website was built by, and is maintained by, the OA Information Technology Services Division using existing state resources.

The MAP website allows users to access seven distinct data sets of financial information relevant to the state of Missouri, and for one data set, the state's component political subdivisions. These data sets, each represented as a tab, are:

- Employees: Presents gross pay (before taxes and other deductions) for all state employees paid through the statewide accounting system (SAM II).
- Expenditures: Displays payments made by the state to vendors, contractors, grant recipients, etc. Data on this tab comes from the SAM II.
- Budget Restrictions: Displays expenditure restrictions enacted by the governor. Data on this tab is statutorily[3] required to come from the Governor's office.
- Federal Grants: Presents grants received by the state from the federal government. This information is provided by the agency receiving the grant.
- Bonds: All political subdivisions of the state are required to report bonds and obligations they issued. For all subdivisions except public school districts and charter schools, this information is reported by the entity directly to the OA. Public school districts and charter schools report this information to the Department of Elementary and Secondary Education, who then forwards the information to the OA.

[1] The MAP is available online at <https://mapyourtaxes.mo.gov/MAP/Portal/Default.aspx>.

[2] Section 37.850, RSMo.

[3] Section 37.850.4, RSMo.

- Stimulus: Displays revenues and expenditures pertaining to the American Recovery and Reinvestment Act of 2009 (ARRA). Information on this tab comes from the SAM II.
- Tax Credits: Displays selected information regarding tax credits issued by the Missouri Department of Economic Development, who provides the information.

The MAP website has two additional options allowing a user to access additional information outside of the MAP. These options include Financial Reports, made available by the OA Division of Accounting and the Missouri Department of Revenue (DOR); and "Who is Not Paying," an online search tool to identify business entities with a revoked sales tax license, provided by the DOR.

Other states

The U.S. Public Interest Research Group (PIRG), a national non-profit organization with state affiliates, has conducted annual surveys of all 50 states to evaluate their transparency websites. We reviewed the 2010 through 2018 annual reports to determine the benefits of a transparency portal and evaluate Missouri's performance as compared to the rest of the country.

According to the PIRG, transparency websites make government more effective and accountable.[4] Specifically, the reports noted that these websites:

- Save money by allowing vendors to better negotiate contracts and increase competition, allowing users to identify and eliminate governmental inefficiencies, and reducing governmental costs for compliance with information requests.
- Provide support for achieving policy goals by allowing for more efficient access to government information, both by citizens and government employees.
- Cost little to create and operate, with several states (including Missouri) reporting little to no cost, often absorbed into the existing budget without need for additional funding.

In the 2010 review, Missouri earned a score of 81 of 100 possible points. For the 2018 review, Missouri's score had declined to 62 of 100 possible points. Because the reviews used different scoring methodologies, the results are not directly comparable. While the state's score declined over this period, Division of Accounting officials indicated it did not occur due to a decline in the Missouri site, but because of improvements in the sites of other states, and accordingly the increased expectations of what is possible in transparency

[4] U.S. PIRG Education Fund and Frontier Group, *Following the Money 2018: How the 50 States Rate in Providing Online Access to Government Spending Data*, is available at <https://uspirg.org/sites/pirg/files/reports/FtM%20NATIONAL%20FINAL%20VERSION_0.pdf>, accessed February 4, 2019.

websites. For example, the 2010 report indicated Missouri was one of only 36 states with a transparency portal, while by 2018 all 50 states had one. The 2018 report praised several states for new and improved websites with additional features that Missouri was noted as lacking, such as checkbook level reporting of individual transactions, data visualizations, data summaries and subtotals, and guided searches.

Best practices for transparency

The United States Government Accountability Office (GAO) recognizes the value of transparency, stating "Open data can foster accountability and public trust by providing citizens with information on government activities and their outcomes. It can also promote private sector innovation."[5] Accordingly, the GAO provided a list of 5 key practices and 18 key actions to be taken by governments to transparently report government data.

Table 1: GAO key practices and key actions for transparently reporting open government data

Key Practices	Key Actions
Provide free and unrestricted data	Make government data open by default, while protecting sensitive or restricted information
	Do not charge users for access to the data
Engage with users	Identify data users and their needs
	Solicit and be responsive to user feedback
	Reach out to potential users to encourage data use
Provide data in useful formats	Provide users with detailed and disaggregated data
	Provide machine-readable data that can be downloaded in bulk and in selected subsets
	Provide data downloads in a non-proprietary format
	Make the data interoperable with other datasets
Fully describe the data	Disclose known data quality issues and limitations
	Disclose data sources and timeliness
	Clearly label data and provide accompanying metadata
	Publish data under an open license and communicate licensing information to users
Facilitate data discovery for all users	Provide an interface that enables intuitive navigation and ensure that the most important information is visible
	Provide users with appropriate interpretations of the data, such as visualizations or summaries
	Ensure that the website's content is written in plain language
	Provide a search function that is optimized for easy and efficient use
	Use central data repositories and catalogues to help users easily find the data they are looking for

[5] Report GAO-19-72 *Open Data: Treasury Could Better Align USASpending.gov with Key Practices and Search Requirements*, December 2018, is available at <https://www.gao.gov/assets/700/696023.pdf>, accessed May 17, 2019.

Scope and Methodology

The scope of our audit included (1) the OA's approach to and management of the MAP, (2) policies and procedures, and (3) other management functions and compliance issues in place during the year ended December 31, 2018.

Our methodology included reviewing written policies and procedures, and interviewing various OA personnel. We obtained an understanding of the applicable controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We tested certain of those controls to obtain evidence regarding the effectiveness of their design and operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violation of contract or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We obtained data files from the MAP for bonds, budget withholdings, check cancelations, employees (payroll), expenditures, federal grants, revenues and expenditures related to the ARRA, and tax credits as of January 31, 2019. In addition, we obtained financial data from the SAM II as of that date. We compared the data to ensure the completeness and accuracy of the data presented in the MAP. Although we used computer-processed data from the MAP and SAM II systems for our audit work, we did not rely on the results of any processes performed by these systems in arriving at our conclusions. Our conclusions were based on our review of the issues specific to the audit objectives.

We based our evaluation on accepted state, federal, and international standards and best practices related to information technology from the following sources:

- National Institute of Standards and Technology (NIST)
- U. S. Government Accountability Office (GAO)
- ISACA

Officials from the OA refused to provide certain written representations to our office as requested. While such management representations are not specifically required by Government Auditing Standards for performance audits, it is standard practice of the State Auditor's Office to require such representations be provided to help ensure adequate audit evidence has been obtained. Historically, state agencies have not refused to provide such assurances.

We asked OA management to provide, among other things, the following written representations:

- "We have not knowingly withheld from you any records that in our judgment would be relevant to your audit."

- "We are responsible for the program's compliance with provisions of laws, regulations, contracts, and grant agreements applicable to it; and we have identified, and disclosed to you, all such provisions that we believe have a significant effect on operations. We have complied with all aspects of laws, regulations, and grant agreements that would have a significant effect on operations in the event of noncompliance."

OA management refused to provide these written representations and instead provided the following representations, which significantly altered the meaning of these representations:

- "We have not knowingly withheld from you any records you requested that in our judgment would be relevant to your review."

- "We are responsible for compliance with the Revised Statutes of Missouri and the regulation as they relate to MAP and, within the limits of our authority, have performed activities designed to comply with the same. We are unaware of any contracts or grant agreements related to MAP."

In effect, OA officials declined to provide assurance they (1) had not withheld relevant information from audit staff and (2) had disclosed all provisions of laws, regulations, contracts, and grant agreements that the agency believed would have a significant effect on the audit.

Refusal to provide such representations is concerning and may indicate information potentially relevant to our audit was knowingly withheld from us by OA management.

Missouri Accountability Portal Management Advisory Report State Auditor's Findings

1. Incomplete and Inaccurate Data

Certain data reported in the Missouri Accountability Portal (MAP) is not complete or accurate. As a result, any users accessing and using the data could be misled and draw inaccurate conclusions regarding the financial transactions and status of the state and/or its political subdivisions.

The MAP website includes disclaimers for each page providing additional information. For example, the disclaimer for the state expenditures data sets states, "While all of the information contained on this site is an open record in accordance with the Missouri Sunshine Law (Ch. 610, RSMo), there may be additional public records available regarding this data. . . . Any information that is a closed record pursuant to the Missouri Sunshine Law or other applicable state or federal law or regulation will not be published on this site. However, every effort has been made to report all relevant financial data where possible. In some instances names of individuals have been withheld to protect their confidentiality. Some payments are initiated outside the statewide financial system and while the financial expenditures associated with these payments may be reported on this site, it may be necessary to contact the state agencies processing those payments for further information."

The disclaimer does not provide specific information regarding the types of transactions omitted or if the transactions have been omitted entirely or just redacted. For example, some employee payroll records in the MAP are listed under the name "Protected (Public Safety)" to protect the identities of investigators and other vulnerable individuals.

1.1 Excluded category

The OA has excluded a category of state expenditures from reporting in the MAP, resulting in an underreporting of state expenditures of approximately $743 million for the 7-month period July 2018 through January 2019.

When entering expenditures into the state accounting system, state employees must code the expenditure to an object code (a description of the expenditure), which rolls up to a corresponding category (a group of related object codes). For example, the object codes pertaining to Postage, Motor Fuel, and Vaccines are 3 of the 45 object codes corresponding to the "Supplies" category in the state accounting system, while the "Travel" category includes 17 object codes in the system, including mileage, meals, and lodging. The Travel category subdivides further, with separate object codes for in-state and out-of-state use.

We determined the MAP omits all transactions coded to an employee benefits category. During the period July 2018 through January 2019, the MAP did not report expenditures of approximately $743 million coded as benefits.[6]

[6] Items such as state contributions to employee retirement, employee health insurance, and social security and Medicare; and other benefits.

OA personnel noted the help screen for Expenditure information states "Information regarding state employee payroll and fringe benefit payments will be made available on this site at a future date." However, because this disclaimer is not on the data access page, there is a significant risk that users might not see it. Also, since employee payroll has been added to the MAP, users who see the notice might think it is outdated and that benefit payments are now included.

While benefits are sensitive data that should be summarized before reporting to reduce risk, omitting the data in its entirety results in understating the total costs of Missouri government and hinders transparency.

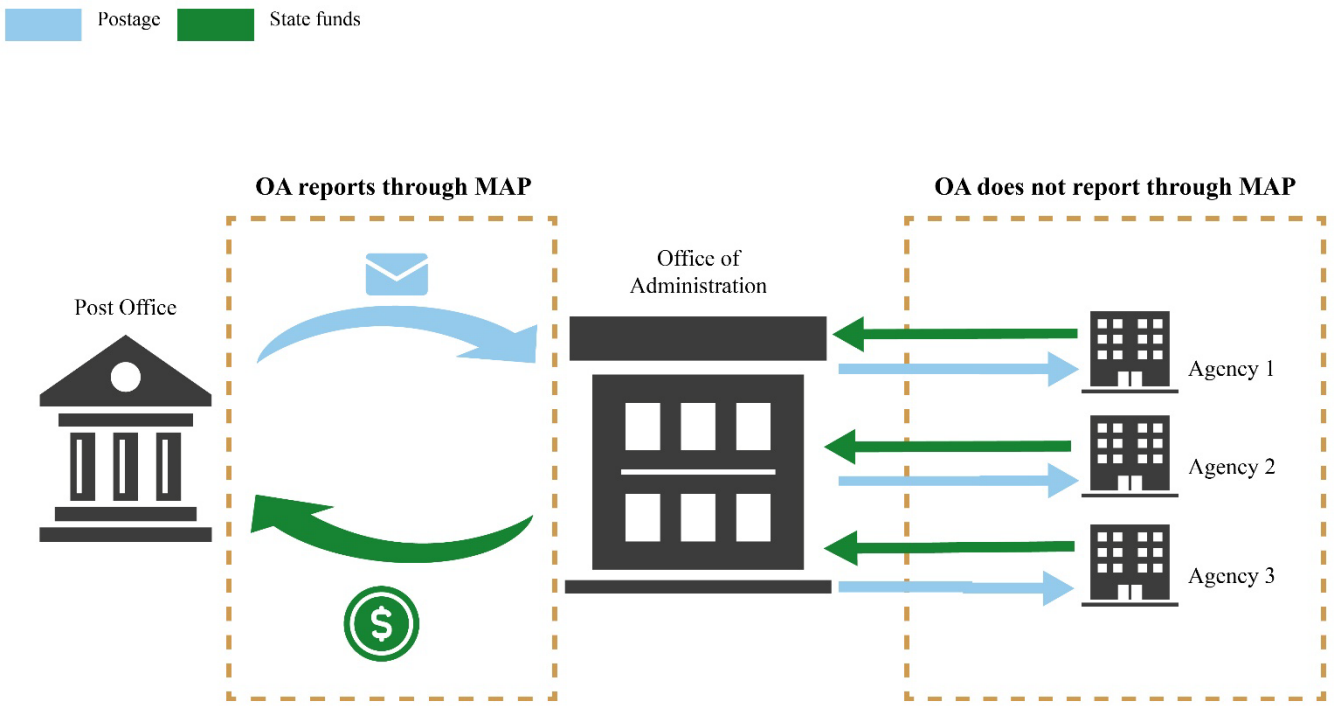
1.2 Interagency payments

The OA has elected to omit interagency payments from the MAP, leading to inaccurate reporting of agency expenditures.

Interagency transactions occur when one state agency provides goods or services to another state agency. Because these transactions are internal, with no money actually leaving state accounts, they are recorded using interagency transactions, which essentially move the funds from one state account to another. This also means these transactions are not included in the MAP database. Instead, these transactions are accounted for when the original purchase is made to the external vendor (i.e., when funds actually leave state accounts). For many items, this is accounted for using a special object code for "rebillable" items during the original purchase, and the standard object code during the interagency purchase.

For example, the OA General Services Division provides centralized mailing services for state agencies. To provide this service, the OA purchases postage in bulk from the United States Postal Service (using the object code for rebillable postage), then bills each agency for its share of the postage used using the interagency billing process (with the object code of postage). The MAP only displays the external "rebillable postage" expenditures by the OA and direct "postage" expenditures by the agencies, and not the interagency "postage" expenditures of each individual agency.

Figure 1: Interagency purchasing process and MAP reporting



Source: State Auditor's Office (SAO).

Because the OA does not include interagency transactions in the MAP, operating expenses of state agencies are understated. For example, Figure 2 shows the percentage of each agency's July 2018 through January 2019 postage expenditures reported in MAP. Total postage expenditures statewide during the period totaled $10.3 million, of which $6.5 million is reported in the MAP.

Figure 2: Percentage of agency postage expenditures reported in MAP, July 2018 through January 2019

Agency	Total SAM II Postage Expenditures	Percent of SAM II Expenditures in MAP
Legislature	$ 277,914	100.00%
Office of State Treasurer	69,457	99.99%
Judiciary	65,021	99.94%
Conservation	905,951	99.77%
Office of Attorney General	52,810	99.10%
Corrections	401,715	92.79%
Revenue	3,698,185	89.41%
Mental Health	137,303	80.96%
Office of Secretary of State	224,010	80.07%
Economic Development	25,354	52.35%
Elementary and Secondary Education	27,656	49.17%
Transportation	61,048	47.61%
Agriculture	48,195	42.61%
Social Services	2,512,426	30.69%
Natural Resources	68,135	23.95%
Labor and Industrial Relations	1,071,521	20.85%
Office of Governor	2,918	20.73%
Public Safety	163,848	19.78%
Health and Senior Services	203,816	19.04%
Office of State Auditor	3,199	8.60%
Office of Administration	50,147 (1)	4.83%
DIFP (2)	248,851	4.08%
Office of Lieutenant Governor	103	0.00%
Higher Education	12,240	0.00%
Total	$ 10,331,824	

(1) Amount excludes approximately $5 million of rebillable postage originally purchased by the Office of Administration.

(2) Department of Insurance, Financial Institutions, and Professional Registration

Source: SAO analysis of MAP and SAM II data.

Because interagency transactions are not reported, the MAP underreports actual postage expenditures for all agencies (except the Legislature, which recorded no interagency postage expenditures). Similar underreporting happens for other object codes in which the MAP does not consider interagency purchases, including utility and telecommunications costs, information technology services, and items obtained through Missouri Vocational Enterprises (Correctional Industries).

The OA notes correctly that it would be improper to record these expenditures twice (once when purchasing from the external merchant and again when making the interagency payment). OA officials said the decision to report transactions in this manner was an effort to show the public the final recipient of state expenditures. However, by choosing to record these purchases in this way, expenditures of the agency actually using the product or service are understated.

1.3 Bond reporting

The OA has not adopted policies and procedures to ensure bonds reported by political subdivisions to the MAP are complete or accurate.

A 2013 amendment to the MAP statutes added the requirement for all political subdivisions to report to the OA all bonds issued, all tax increment financing obligations, and the revenue streams required to repay such bonds and obligations.[7] To facilitate this reporting, the OA created a tool for entities to upload this information directly to the MAP without intervention from OA staff.

We obtained from the MAP a list of all reported bonds issued between January 1, 2015, and January 31, 2019. We also obtained a listing of all bonds certified by the State Auditor's Office during this period.[8] All records with an amount of greater than $20 million or less than $200,000 were matched between the two lists, resulting in a population of 78 bonds for analysis. We identified:

- Seven bonds reported to the OA at a different amount than what was certified by the SAO. All of these bonds were reported at a multiple of their registration amounts, with the largest being a bond certified by the SAO for $8.8 million but reported to the OA as an $8.8 billion issuance.
- Seven bonds certified by the SAO that were not reported to the OA.
- Two bonds reported to the OA twice under different names.

[7] Section 37.850.2 RSMo

[8] Section 108.240, RSMo, requires certain bonds to be certified by the State Auditor's Office prior to issuance. The OA filing and SAO registration requirements are not identical, so all bonds filed with OA are not necessarily certified by the SAO. However, all bonds certified by the SAO should be included in the OA filings.

We contacted representatives of two of the seven political subdivisions that did not file information with the OA. Both indicated they were unaware of the filing requirements and had not been informed of them by the OA.

OA officials provided a copy of two letters sent in late 2013 to known bond counsel firms and general counsels explaining the filing requirement, but stated there is no known complete list of political subdivisions in Missouri to attempt to ensure complete compliance. Additionally, they noted state law does not require the OA to notify political subdivisions, does not require the OA to review or verify the data submitted, and does not provide any resources to the OA to perform any quality control or compliance procedures. Accordingly, they indicated the OA does not perform any procedures to review the completeness and accuracy of the submitted information.

By not taking steps to ensure the completeness and accuracy of data provided to the public, the OA risks misleading the public as to the true financial condition of political subdivisions.

Recommendations

The Office of Administration:

1.1 Include summarized employee benefit transaction data in the MAP to increase completeness and usefulness of the data to users.

1.2 Report interagency expenditures in the MAP to more accurately reflect actual agency expenditures, while continuing to avoid recording expenditures twice.

1.3 Implement procedures to ensure the completeness and accuracy of bond information reported in the MAP.

Auditee's Response

1.1-1.3 The Office of Administration's written response is included in the Appendix.

Auditor's Comment

1.3 The SAO is not permitted to routinely audit most local governments and our ability to audit local governments is in many cases limited to the petition audit process.

2. Portal Usability

Opportunities exist for the OA to increase the usability and functionality of the MAP.

2.1 Best practices

The MAP does not incorporate some best practices and actions recommended for transparently reporting government data.

As discussed in the background section, the United States Government Accountability Office (GAO) has identified 5 key practices and 18 key actions for governments to transparently report government data. We

evaluated the MAP against these best practices and actions, and identified certain weaknesses that could be improved by the OA.

Engage with users

The OA has not attempted any outreach efforts to users of the MAP. Such outreach could help the OA to learn how users utilize the MAP data and what features the users would like to see added or modified in the system. It could also help users develop better uses of the information in the MAP.

OA officials indicated the state had not attempted to conduct formal outreach to system users for several reasons. They said system analytics indicate most users are state employees and not members of the general public. In addition, they said the OA does not have resources (staff and funding) to conduct such research or to implement any changes the research might identify. However, conducting outreach might help the OA learn why the MAP is not used more widely by the general public, and identify changes (some of which could be low- or no-cost) that could be made to enhance the portal now or in the future if resources become available.

Provide data in useful formats

The OA does not provide detailed data through the MAP portal, and has not standardized all data elements to help ensure users understand the data and how data elements relate to one another.

The MAP only presents summarized information to users. The data does not include the count of or specific amounts of payments to a vendor; only the totals are included. Accordingly, information as to specific payments (e.g., the date of the payment) is not available.

In addition, the MAP does not employ a common data dictionary for users. Each section of the MAP has a glossary in the system's help screens. However, we noted each of the five glossaries defining the term "Agency" used a different definition. Only one of these definitions (on the Employee help page) included certain key facts that users should know, including that expenditures of the Office of Public Defender are included with the Judiciary, and the MAP does not include expenditures from certain state entities, including colleges and universities. This inconsistency could cause users to incorrectly believe these entities are included in the other sections.

Fully describe the data

MAP disclosures do not adequately explain what data is missing from the portal, do not disclose the data sources, and fail to provide structured metadata for system users.

The MAP disclaimers indicate that some information is excluded to protect confidentiality. However, transparency could be improved by presenting this data at a summarized level. For example, some employees are identified in the MAP payroll data as "Protected (Public Safety)." However, other vendors are omitted entirely from the MAP. Auditors noted specifically that

miscellaneous vendors do not appear to be included in the MAP. Miscellaneous vendors are a special type of vendor generally used when the state has a large number of similar payees, typically for relatively low dollar amounts, that do not warrant creation of individual vendor records. These vendors are often used for transactions such as witness fees related to court cases and certain refund issuances.

This disclaimer also notes that the MAP only includes original transactions. This means that any adjustments made later are not included. We noted instances in which an object code was understated compared to information in the state's accounting system. Further review indicated the reason for the difference was a correcting entry made to a previously recorded transaction. For example, if an employee's expense account was incorrectly recorded to a taxable reimbursement (such as tuition) instead of non-taxable reimbursement (meals while traveling), the MAP would not be updated for the correcting transaction, resulting in an over reporting of tuition expenses and an underreporting of meals.

The sources of MAP data are not disclosed. While most data comes from the statewide SAM II accounting system, other data is provided by the Department of Economic Development (tax credits), political subdivisions (bond data), or other state agencies (federal grant data).

The MAP also does not include metadata describing the attributes of the data presented. According to the GAO, "metadata describe the characteristics of data in clearly defined, machine-readable fields, which can include attributes such as the date the data were created or modified, or the license used, among other things. Structuring metadata in clearly defined fields makes it possible for search tools to filter and match content pertaining to those fields."

Facilitate data discovery for all users

The OA could take actions to improve the accessibility and understandability of public data in the MAP.

The MAP does not provide users with visualizations or summaries of data, to help them easily identify key issues, trends, and relationships between data points. Additionally, the MAP does not monitor searches performed, which is a prerequisite for developing one-click functionality to help users perform popular searches more efficiently or determine other ways users are using the data.

Conclusion

While the OA incorporates many best practices and actions recommended by the GAO, working to incorporate the remaining guidance would help to provide citizens with the most complete, usable, and functional data possible.

2.2 Data downloads

Data available from the download tool in the MAP is not the same as the data displayed in the MAP for public browsing.

Within the employee payroll section of the MAP, users can see the last pay date for a user and the current gross pay (amount of the most recent paycheck). However, when accessing the downloaded data files, payroll data is only available on a year-to-date basis, without the most recent payment information.

When viewing expenditure records in the MAP, users can see if the expenditure pertained to a state contract, and if so, the contract number associated with the expenditure. This information is not included in the downloadable MAP data. Division of Accounting staff indicated this occurs because this data comes from a different data source in the statewide accounting system than the one used to populate the rest of the MAP.

Because of the lack of complete, consistent, and comparable data, citizens are unable to use the MAP download tool to effectively review and analyze government information.

Recommendations

The OA:

2.1 Evaluate ways to update the MAP to address the best practices and actions recommended by the GAO to transparently report government data.

2.2 Ensure the data available in the MAP and the download tool are complete, consistent, and comparable.

Auditee's Response

2.1-2.2 The Office of Administration's written response is included in the Appendix.

Michael L. Parson
Governor

Fax: (573) 751-1212

Sarah H. Steelman
Commissioner

August 13, 2019

Honorable Nichole R. Galloway
Missouri State Auditor
P.O. Box 869
Jefferson City, Missouri 65102

Dear Madam:

We are providing this letter in connection with your audit of the Missouri Accountability Portal. On August 6, the State Auditor's Office sent a revised version of the draft audit report and therein stated, "Please note, for the OA's response to MAR 1.1, we will exclude from the report content reflecting the management representation letter." Be advised, consistent with the State Auditor's Office description of the "The Audit Process" on its website, we reasonably expect the entirety of the following responses to be included within the final audit report.

The following is the Office of Administration's official response to the draft audit report.

Recommendation 1.

1.1 Include summarized benefit transaction data in the MAP to increase completeness and usefulness of the data to users.

1.2 Report interagency expenditures in the MAP to more accurately reflect actual agency expenditures, while continuing to avoid recording expenditures twice.

1.3 Implement procedures to ensure the completeness and accuracy of bond information reported in the MAP.

Response 1.
1.1. The SAO's dispute with OA regarding the management representation letter began with an email dated May 28, in which the SAO asked for a backdated management letter, specifically telling OA two things: "do not change the date of this letter" and that

"[a]uditing standards require us to obtain from the department a signed letter acknowledging management's responsibility for controls and for other representations."

Draft versions of the audit report have SAO's comments regarding the management representation letter growing from a quarter of a page to more than a full page. In the back and forth the SAO conceded that "management representations are not specifically required by Government Auditing Standards for performance audits." OA responded to the criticisms saying: "In your scope and methodology section, you assert that OA failed to provide written representations 'as requested.' We properly refused to provide a backdated letter. We have provided your office an appropriate management representation letter. While we consider your recommendations, we suggest you consider our recommendation to not ask anyone to issue backdated letters to your office under any circumstance."

The SAO makes no recommendations in the Audit Report about the management representation letter that would permit a direct response. The SAO then asserts in an email dated August 6, that they "will exclude from the report content reflecting the management representation letter" contained in this response. This assertion is inconsistent with the SAO's published policy, which provides: "After receiving a copy of the draft report, the auditee has 30 days to provide written responses to the audit findings. These responses are included in the audit report." SAO website: https://auditor.mo.gov/auditinfo/auditprocess (last visited August 13, 2019).

It is clear that the SAO believes that OA should simply sign any representation letter that the SAO prepares. What OA signed and what SAO requested are nearly identical with the primary difference being OA refuses to guess what records might be "relevant" to the audit that the SAO did not request. Instead, OA attests that it provided and did not withhold requested records that were relevant to the audit. The other change OA made to its letter revised the wording the SAO requested to be more descriptive and easily understood regarding the applicable law and the activity being audited.

Finally, in the email dated August 6, the SAO attempted to justify its request for a backdated management representation letter, noting that dating the letter the date it is signed "unnecessarily extends their [OA's] representations to cover a greater period." That it would be advantageous to backdate a letter does not make it the right thing to do. It would be inappropriate to backdate a letter to conceal from the SAO any developments about which SAO inquired that occurred following the conclusion of audit fieldwork.

Specific to recommendation 1.1, OA agrees to add a link on MAP to the budget explorer website that contains summary employee benefit expenditures.

1.2. OA disagrees. In light of Missouri's twenty year old accounting system's limitations, the most important information for the public to know is the total amount each vendor receives in state expenditures, not each individual agency's transfer to OA that contributed to OA's payment to specific vendors.

1.3. While the Audit Report indicates that localities are required to report bond transactions to the SAO and the SAO has authority to audit the localities' reporting of this information, OA only has statutory authority to grant the public access through MAP of what the localities report about their bond transactions. OA suggests that SAO include a verification process of local bond disclosures to its regular local government audit procedures.

Recommendation 2.
2.1. Evaluate ways to update MAP to address the best practices and actions recommended by the GAO to transparently report government data.

2.2. Ensure the date available on the MAP and the download tool are complete, consistent, and comparable.

Response 2.
2.1. In the prior version of the SAO's audit report, the SAO recommended that OA "Update the MAP to conform to best practices as promulgated by the GAO."

OA responded to this recommendation, saying: "Basic concepts of federalism are important to most Missourians. While the State Auditor believes that the federal Government Accountability Office has identified best practices for government accounting websites, the State of Missouri does not uniformly adopt recommendations made by federal government agencies concerning the state's internal operations. When the federal government does not pay for upgrades to state websites, it lacks the authority to establish the standards for those websites. If OA had unlimited resources, we would determine the best practices and implement them as authorized by Missouri law."

The SAO continues to recommend that OA consider GAO standards to determine best practices for Missouri websites. The GAO is an agency of the federal government, a government entity that is demonstrably unfamiliar with the fiscal constraints faced by state governments As resources allow, OA will consider best practices used by other states for their accounting websites and implement them.

2.2. OA will review the existing exports as time and resources allow.

If you have any questions or concerns, please contact me or Stacy Neal, the Director of the Division of Accounting.

Sincerely,

Sarah Steelman

Sarah H. Steelman
Commissioner

To the County Commission
and
Officeholders of Grundy County, Missouri

The Office of the State Auditor contracted for an audit of Grundy County's financial statements for the 2 years ended December 31, 2018, through the state Office of Administration, Division of Purchasing and Materials Management. The audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of this audit, performed by McBride, Lock & Associates, LLC, Certified Public Accountants, is attached.

Nicole Galloway, CPA
Missouri State Auditor

RECOMMENDATION SUMMARY

Recommendations in the contracted audit of Grundy County

2018-001 Budgetary Compliance	The County ensure compliance with state statutes by refraining from approving expenditures in excess of budgeted amounts and budgeting expenditures in excess of beginning balances plus anticipated revenues. In the event that the originally adopted budget is inadequate to finance the current-year unforeseen expenditures, budgetary amendments should be discussed in a public meeting and formally adopted by the County Commission.
Bank Reconciliations	The County implement procedures to ensure that stale outstanding checks are followed up with in a timely manner and removed from the bank reconciliation when it becomes apparent that checks will not be cashed. Checks that have remained unclaimed for more than three years are deemed abandoned and are required to be turned over immediately to the State Treasurer pursuant to state statutes. We also recommend that the Prosecuting Attorney ensure that bank reconciliations are accurate and properly reconciled between book and bank balance and that any issues are addressed in a timely manner.
Senior Citizens Tax Board Documentation	The Senior Citizens Tax Board implement procedures to ensure that financial documents are kept in a safe and secure location to support the financial transactions, approved budgets, and meeting minutes of the Board.
Credit Card Use	The County implement procedures to ensure expenses of the County are paid in a timely manner, to ensure proper use of taxpayer funds.

INDEPENDENT AUDITOR'S REPORT

To the County Commission and
Officeholders of Grundy County, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of Grundy County, Missouri, which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2017 and 2018, and the related Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles prescribed or permitted by Missouri law. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1, the financial statements are prepared by Grundy County, Missouri on the basis of the financial reporting provisions prescribed or permitted by Missouri Law, which is a basis of accounting other than accounting principles generally accepted in the United States of America.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the "Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles" paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Grundy County, Missouri, as of December 31, 2017 and 2018, or the changes in financial position thereof for the years then ended.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of Grundy County, Missouri, as of December 31, 2017 and 2018, and their respective cash receipts and disbursements, and budgetary results for the years then ended, in accordance with the financial reporting provisions prescribed or permitted by Missouri Law as described in Note 1.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we also have issued our report dated August 9, 2019, on our consideration of Grundy County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Grundy County, Missouri's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

The accompanying Notes to the Financial Statements are an integral part of this statement.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Grundy County, Missouri ("County") is governed by a three-member board of commissioners. In addition to the three board members, there are eight elected Constitutional Officers: Assessor, Circuit Clerk/Recorder, Collector/Treasurer, Coroner, County Clerk, Prosecuting Attorney, Public Administrator, and Sheriff.

As discussed further in Note 1, these financial statements are presented using accounting practices prescribed or permitted by Missouri Law, which differ from accounting principles generally accepted in the United States of America, which would include all relevant Government Accounting Standards Board (GASB) pronouncements. The differences include use of a prescribed definition of the reporting entity and the cash basis of accounting.

A. Reporting Entity

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include the primary government of Grundy County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise the County's legal entity.

In accordance with the regulatory basis of accounting, the financial statements of the County do not include the activity of the Circuit Court, which is part of the Missouri court system and is considered to be a state function, including the operations of the Circuit Clerk and all funds under their control.

B. Basis of Presentation

Governmental Funds – Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, net assets, revenues/receipts and expenditures/disbursements. The County's funds are governmental funds. Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds.

Fiduciary Funds – Fiduciary funds consist of custodial funds. Custodial funds account for assets held by the County, particularly the Collector/Treasurer, as an agent of individuals, private organizations, taxing units, other governments and/or funds. Budgets are not adopted for the County's custodial funds.

C. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

D. Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50, RSMo, the County's policy is to adopt a budget for each governmental fund.

2. On or before the second Monday in January, each elected officer and department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.

4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance. However, the County budgeted a deficit ending fund balance for the Deputy Salary Fund in 2017 and 2018.

5. A public hearing is conducted to obtain public comment on the budget. Prior to its approval by the County Commission, the budget document is available for public inspection, which usually takes place the third and fourth weeks of January.

6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.

7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by a formal vote of the Commission. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.

8. Budgets are prepared and adopted on the cash basis of accounting.

9. Adoption of a formal budget is required by law. However, the Senior Citizens Tax Board could not provide a copy of their approved budget for 2018.

10. Section 50.740, RSMo prohibits expenditures in excess of the approved budgets. Actual expenditures exceeded budgeted amounts for the following funds:

	2018	2017
Juvenile Programs	N/A	✓
Record Preservation	✓	N/A
Law Enforcement Training	✓	N/A
Victims of Domestic Violence	✓	N/A
911	N/A	✓
Drug Court Local	✓	N/A
Senior Citizens Tax Board	N/A	✓

The disbursements reported in 2017 for the Crippled Children Trust Fund and Cemeteries Fund, and $131,423 of the disbursements reported in the Fred Fitch Trust Fund were the result of balance transfer adjustments to recognize the creation of the new Crippled Children Trust CD's and Fred Fitch Trust CD's Funds and were not the result of actual cash disbursed. Therefore, we do not consider the County to have exceeded budgetary authority for these funds. The expenditures of the Senior Citizens Tax Board in 2018 exceeded budgetary authority to the extent that a copy of the approved budget could not be provided.

E. Property taxes are based on the voter-approved tax levy applied to the real and personal assessed property values. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on September 1 and tax bills are mailed to taxpayers in October and November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuations of the tangible taxable property, included within the County's boundaries for the calendar year 2018 and 2017, for purposes of taxation were:

	2018	2017
Real Estate	$ 74,507,346	$ 73,692,206
Personal Property	35,571,635	36,011,060
Railroad and Utilities	22,456,258	21,933,874
Total	$ 132,535,239	$ 131,637,140

For calendar years 2018 and 2017, the County Commission approved a tax levy per $100 of assessed valuation of tangible taxable property as follows:

	2018	2017
General Revenue	$ 0.2374	$ 0.1846
Senate Bill 40 Board	0.0976	0.0969
Senior Citizens Tax Board	0.0488	0.0485

In addition to the levies above, the Special Road & Bridge Fund receives 5% of property tax amounts collected on behalf of township road districts within the County.

F. Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned from these balances is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents may include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, purchased at a price at or below par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash and investment balances are presented in Note 2.

G. Interfund Activity

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing. Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

2. CASH AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the financial statements within the "Cash and Investments" caption. Cash includes deposits and short-term investments with maturities that are less than ninety days. Investments consist of certificates of deposit with original maturities that are greater than ninety days.

Custodial Credit Risk - Deposits – Custodial credit risk is the risk that in the event of a bank failure, a government’s deposits may not be returned to it. Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2018 and 2017, the carrying amounts of the County’s deposits were $3,647,467 and $3,408,710, respectively, and the bank balances were $3,765,901 and $3,492,242, respectively. Of the bank balances, $606,608 and $579,860 were covered by federal depository insurance at December 31, 2018 and December 31, 2017, respectively. The remainder of the balances at December 31, 2018 and December 31, 2017 were covered by collateral held at the Federal Reserve Bank and the County’s safekeeping bank agent in the County’s name or by a line of credit held by the County or by its agent in the County's name.

At December 31, 2018 and 2017, County officeholders held, in addition to the cash and investments listed above, cash held in a fiduciary capacity on behalf of individuals, private organizations, taxing units, other governments and/or funds. At December 31, 2018 and 2017, the

carrying amounts of the County's custodial funds were $8,068,981 and $7,658,517, respectively, and the bank balances were $5,176,744 and $5,215,124, respectively. Of the bank balances, $402,176 and $356,543 were covered by federal depository insurance at December 31, 2018 and December 31, 2017, respectively. The remainder of the balances at December 31, 2018 and December 31, 2017 were covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name.

3. COUNTY EMPLOYEES' RETIREMENT PLANS

A. County Employees' Retirement Fund (CERF)

The County Employees' Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

1) Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the Fund and the investment of the Fund are vested in a board of directors of eleven persons.

2) Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of $10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the Fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, by calling 1-877-632-2373, or by the following website, www.mocerf.org.

3) Funding Policy

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to the CERF. Further, a contribution to CERF of 2% of annual salary is required for eligible employees hired before February 2002, while a contribution of 6% of annual salary is required of employees hired after February 2002. The County has elected not to make contributions on behalf of employees. During 2018 and 2017, the County collected and remitted to CERF employee withholdings and fees collected of $74,894 and $54,234, respectively, for the years then ended.

B. Prosecuting Attorney Retirement Fund

In accordance with state statute Section 56.807, RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed $3,366 and $3,366, respectively, for the years ended December 31, 2018 and 2017.

4. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

5. CLAIMS, COMMITMENT AND CONTINGENCIES

A. Compensated Absences

The County provides full-time employees with four hours per calendar month worked of compensated personal leave, up to a maximum of 360 hours. Ambulance employees earn six hours per calendar month worked of personal leave. Full-time employees may receive compensation for 50% of accrued personal leave upon termination of employment. Vacation time is accrued for every full-time employee beginning with the second year of employment at a rate of one to four weeks per year based on length of employment. Any days not used by the end of the year will be lost. Hourly personnel working in the Grundy County Detention Center may carry over no more than 12 hours vacation. Upon separation due to resignation, death, or termination, an employee may receive compensation for unused accrued vacation leave.

B. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs. Accordingly, such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial and, therefore, no provision has been made in the accompanying financial statements for the potential refund of grant monies.

6. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body. The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections which are intended to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to $2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

7. LONG-TERM DEBT

The County had the following long-term debt outstanding as of December 31, 2018:

A. During 2006, Certificates of Participation (COPS) in the amount of $4,995,000 were issued by First Bank of Missouri on behalf of the County for the construction of a new law enforcement facility. During 2016, the County refinanced the debt by paying off the Series 2006 COPS and issuing new COPS in the amount of $3,465,000. Under the new COPS, the County makes semi-annual interest payments on June 1 and December 1 of each year, with annual principal payments on December 1. The interest rate varies between .8% and 2.7%. Future payments on the COPS are as follows:

Fiscal Year Ending December 31,	Principal	Interest	Total
2019	$ 230,000	$ 60,588	$ 290,588
2020	230,000	57,943	287,943
2021	235,000	54,953	289,953
2022	240,000	51,427	291,427
2023	240,000	47,348	287,348
2024-2028	1,285,000	161,872	1,446,872
2029-2030	555,000	22,133	577,133
Totals	$ 3,015,000	$ 456,264	$ 3,471,264

B. In October 2018, the County entered into a $200,430, five-year capital lease for a 2018 John Deere Excavator. The lease calls for annual payments of $43,736 beginning in March 2019, with an interest rate of 3.8%. In December 2018, the County made a payment of $50,000 toward the principal of the lease. Per the bank, this amount will be held towards the last payment and does not affect interest or the payment schedule.

Fiscal Year Ending December 31,	Principal	Interest	Total
2019	$ 40,919	$ 2,817	$ 43,736
2020	37,675	6,061	43,736
2021	39,107	4,629	43,736
2022	32,729	3,144	35,873
2023	-	1,601	1,601
Totals	$ 150,430	$ 18,252	$ 168,682

The following schedule shows changes in long-term debt during the year ended December 31, 2017:

Description	Balance 12/31/2016	Additions	Payments	Balance 12/31/2017	Interest Paid
Series 2016 COPS	$3,465,000	$ -	$(225,000)	$3,240,000	$ 64,638

The following schedule shows changes in long-term debt during the year ended December 31, 2018:

Description	Balance 12/31/2017	Additions	Payments	Balance 12/31/2018	Interest Paid
Series 2016 COPS	$ 3,240,000	$ -	$(225,000)	$ 3,015,000	$ 62,838
2018 JD Excavator	-	200,430	(50,000)	150,430	-

8. PRIOR YEAR RESTATEMENTS

The balances of the General Revenue Fund and the Ambulance Fund at January 1, 2017 have been restated by $10,000. This had the effect of increasing the General Revenue Fund from $673,740 to $683,340 and decreasing the Ambulance Fund from $1,325,727 to 1,315,727.

9. SUBSEQUENT EVENTS

The County has evaluated events subsequent to December 31, 2018 to assess the need for potential recognition or disclosure in the financial statements. Such events were evaluated through August 9, 2019, the date the financial statements were available to be issued. Based upon this evaluation, it was determined that no subsequent events occurred that require recognition or additional disclosure in the financial statements.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the County Commission and
Officeholders of Grundy County, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Grundy County, Missouri which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2017 and 2018, and the related Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the years then ended, and the related notes to the financial statements, which collectively comprise Grundy County, Missouri's basic financial statements and have issued our report thereon dated August 9, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Grundy County, Missouri's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Grundy County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Grundy County, Missouri's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Grundy County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed one instance of noncompliance or other matters that is required to be reported under *Government Auditing Standards* and is described in the accompanying schedule of findings and recommendations as item 2018-001.

Grundy County, Missouri's Response to Finding

Grundy County, Missouri's response to the finding identified in our audit is described in the accompanying schedule of findings and recommendations. Grundy County, Missouri's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

FINDINGS AND RECOMMENDATIONS

GRUNDY COUNTY, MISSOURI
FINDINGS AND RECOMMENDATIONS

MATERIAL WEAKNESSES IN INTERNAL CONTROL

None

SIGNIFICANT INTERNAL CONTROL DEFICIENCIES

None

ITEMS OF NONCOMPLIANCE

2018-001: Budgetary Compliance

Criteria: State statute prohibits the County from approving expenditures in excess of the budgeted amount for any County fund. This requirement ensures expenditures are subject to public scrutiny as provided by their inclusion in a budget adopted or amended at a public meeting. The County budgets and published financial statements should present a complete and accurate picture of the County's financial position. Additionally, state law requires, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance.

Condition: Actual expenditures exceeded budgeted expenditures for three funds in 2017 and four funds in 2018. The detailed list of funds can be found in Note 1.D.10 to the financial statements.

Additionally, the County budgeted for a deficit fund balance for the Deputy Salary Fund in 2017 and 2018.

Cause: Budgets were not amended to approve expenditures in excess of budgeted amounts. The Deputy Salary Fund is a reimbursement fund which is negative until the County receives reimbursement from the state for salaries paid to Sheriff deputies.

Effect: Budgetary controls are significant to the proper management and custodianship of county funds. Compliance with statutory requirements related to budgets will improve controls over county funds and help maintain the integrity of the budget process.

Recommendation: We recommend the County ensure compliance with state statutes by refraining from approving expenditures in excess of budgeted amounts and budgeting expenditures in excess of beginning balances plus anticipated revenues. In the event that the originally adopted budget is inadequate to finance the current-year unforeseen expenditures, budgetary amendments should be discussed in a public meeting and formally adopted by the County Commission.

County Response: The County is trying to stay in compliance and follow State Statutes to their understanding and belief. Questions have been asked to auditors in the past to make sure we do understand and follow them correctly (amending budgets). The deficit in the Deputy Salary Fund cannot be corrected with county money. The deficit is due to paying in December and not being reimbursed by the State until January of the new budget year. As for the budgeting of fund balance plus expected revenues and budgeting all as expenditures – those are funds controlled mostly by the Sheriff's and Prosecuting Attorney's offices without County control. We will advise them to be more

realistic with their budgeting of those funds. As for the over budget amounts, we will work harder at watching balances closer. We do quarterly reports to all departments and will advise the departments to pay closer attention to their budgets and balances.

Auditor's Evaluation: The response is appropriate to correct the concern.

OTHER MATTERS

In planning and performing our audit of the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis, the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis, and the Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis – All Governmental Funds as of and for the years ended December 31, 2017 and 2018, we considered Grundy County's internal control in order to determine our auditing procedures for the purpose of expressing an opinion on the financial statements and not to provide assurance on internal control. We issued our report on our consideration of internal control over financial reporting dated August 9, 2019. However, during our audit we became aware of matters that are opportunities for strengthening internal controls.

Bank Reconciliations

The bank reconciliation for the Sheriff Inmate (Commissary) account at December 31, 2017 listed a total of $644 in outstanding checks from years 2014 to 2016. The bank reconciliation for the Inmate Security account at December 31, 2018 listed a total of $746 in outstanding checks from years 2014 to 2017.

The bank reconciliation for the Prosecuting Attorney account at December 31, 2017 listed three checks that were outstanding more than 120 days totaling $841. The bank reconciliation for the Prosecuting Attorney account at December 31, 2018 listed 17 checks that were outstanding more than 120 days totaling $1,496. In addition, the reconciliations performed on the Prosecuting Attorney account during the audit period were inaccurate due to the system showing an incorrect beginning bank balance on the reconciliation. As a result, the account had a negative book balance of $117 as of December 31, 2018.

We recommend that the County implement procedures to ensure that stale outstanding checks are followed up with in a timely manner and removed from the bank reconciliation when it becomes apparent that checks will not be cashed. Checks that have remained unclaimed for more than three years are deemed abandoned and are required to be turned over immediately to the State Treasurer pursuant to state statutes. We also recommend that the Prosecuting Attorney ensure that bank reconciliations are accurate and properly reconciled between book and bank balance and that any issues are addressed in a timely manner.

Senior Citizens Tax Board Documentation

The Senior Citizens Tax Board approved budgets for 2018 and 2019 could not be provided as well as bank statements, reconciliations and board minutes for 2018. The Senior Citizens Tax Board Treasurer indicated that she had recently moved and could not locate the documents. We did obtain bank statements for 2018 to review fund activity.

We recommend the Senior Citizens Tax Board implement procedures to ensure that financial documents are kept in a safe and secure location to support the financial transactions, approved budgets, and meeting minutes of the Board.

Credit Card Use

A Sheriff fuel credit card statement for May 2017 that we selected for testing indicated the County paid $29 in late fees and $11 in interest. We recommend the County implement procedures to ensure expenses of the County are paid in a timely manner, to ensure proper use of taxpayer funds.

GRUNDY COUNTY, MISSOURI
FOLLOW-UP ON PRIOR AUDIT FINDINGS FOR AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

In accordance with *Government Auditing Standards*, this section reports the auditor's follow-up on action taken by Grundy County, Missouri, on the applicable findings in the prior audit report issued for the years ended December 31, 2016 and 2015.

1. The Senior Citizens Tax Board does not perform bank reconciliations every month.

   Status: Resolved. Bank reconciliations were implemented as a result of our prior audit recommendation in 2017, however, the reconciliations for 2018 could not be located. See discussion in Other Matters section.

2. The County did not adopt a formal budget for the Fred Fitch Trust Fund or Crippled Children Trust Fund in 2015. Actual expenditures exceeded budgeted expenditures for 10 funds in 2015 and three funds in 2016. The County budgeted a deficit fund balance for the Deputy Salary Fund in 2015 and 2016. The County had an actual deficit fund balance for the Deputy Salary Fund in 2015 and 2016.

   Status: Partially resolved. See finding 2018-001.

3. The Senate Bill 40 Board held deposits at Farmers Bank of Northern Missouri in excess of FDIC deposit insurance that were not adequately covered by pledged collateral at December 31, 2016 and 2015.

   Status: Resolved.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the County Commission
and
Officeholders of Ray County, Missouri

The Office of the State Auditor contracted for an audit of Ray County's financial statements for the 2 years ended December 31, 2018, through the state Office of Administration, Division of Purchasing and Materials Management. The audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of this audit, performed by McBride, Lock & Associates, LLC, Certified Public Accountants, is attached.

RECOMMENDATION SUMMARY

Recommendations in the contracted audit of Ray County

2018-001 Lack of Properly Performed Bank Reconciliations	All offices within the County prepare proper monthly bank reconciliations and make adjustments to the cash accounts.
2018-002 Sheriff's Department Internal Controls	The Sheriff improve the segregation of duties and internal controls within the Sheriff's office, thereby reducing the chance that errors and other problems will occur. Additionally, the Sheriff should increase his oversight of the activities of this employee.
2018-003 Budgetary Compliance	The County ensure compliance with state statutes by adopting a formal budget for all funds and refraining from approving expenditures in excess of budgeted amounts. In the event that the originally adopted budget is inadequate to finance the current-year unforeseen expenditures, budgetary amendments should be discussed in a public meeting and formally adopted by the County Commission.
2018-004 Lack of Investment Policy	The County adopt an investment policy and review compliance with this policy at least annually as required by state statute.
2018-005 Sheriff Fee Turnover and Reimbursement Requests	The Sheriff's office implement procedures to ensure fees and other monies payable to the County are submitted monthly and adequate reports are provided to support the amount of funds turned over. Additionally, we recommend implementing procedures to ensure expenditure reimbursement requests are timely submitted to the proper agencies to ensure the General Revenue Fund is timely reimbursed for expenditures paid out of the fund.

INDEPENDENT AUDITOR'S REPORT

To the County Commission and
Officeholders of Ray County, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of Ray County, Missouri, which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2017 and 2018, and the related Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles prescribed or permitted by Missouri law. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1, the financial statements are prepared by Ray County, Missouri on the basis of the financial reporting provisions prescribed or permitted by Missouri Law, which is a basis of accounting other than accounting principles generally accepted in the United States of America.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the "Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles" paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Ray County, Missouri, as of December 31, 2017 and 2018, or the changes in financial position thereof for the years then ended.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of Ray County, Missouri, as of December 31, 2017 and 2018, and their respective cash receipts and disbursements, and budgetary results for the years then ended, in accordance with the financial reporting provisions prescribed or permitted by Missouri Law as described in Note 1.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we also have issued our report dated August 13, 2019, on our consideration of Ray County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Ray County, Missouri's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

The accompanying Notes to the Financial Statements are an integral part of this statement.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Ray County, Missouri ("County") is governed by a three-member board of commissioners. In addition to the three board members, there are ten elected Constitutional Officers: Assessor, Circuit Clerk, Collector, Coroner, County Clerk, Prosecuting Attorney, Public Administrator, Sheriff, Recorder and Treasurer.

As discussed further in Note 1, these financial statements are presented using accounting practices prescribed or permitted by Missouri Law, which differ from accounting principles generally accepted in the United States of America, which would include all relevant Government Accounting Standards Board (GASB) pronouncements. The differences include use of a prescribed definition of the reporting entity and the cash basis of accounting.

A. Reporting Entity

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include the primary government of Ray County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise the County's legal entity. The Senate Bill 40 Board is separately audited by an independent certified public accountant and is therefore not included in this report in accordance with the regulatory basis of accounting. The Senate Bill 40 Board's audit report may be obtained from the Ray County Board of Services at 200 North College Street, Richmond, MO 64085 or by calling (816) 470-7140. The 2017 financial statements of the 911 Emergency Services Board were separately audited by an independent certified public accountant and are therefore not required to be covered by our auditors report in accordance with the regulatory basis of accounting. The 911 Emergency Services Board's audit report may be obtained from the Ray County 911 Office at 102 West North Main Street, Richmond, MO 64085 or by calling (816) 776-2000.

In accordance with the regulatory basis of accounting, the financial statements of the County do not include the activity of the Circuit Court, which is part of the Missouri court system and is considered to be a state function, including the operations of the Circuit Clerk and all funds under their control.

B. Basis of Presentation

Governmental Funds – Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, net assets, revenues/receipts and expenditures/disbursements. The County's funds are governmental funds. Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds.

Fiduciary Funds – Fiduciary funds consist of custodial funds. Custodial funds account for assets held by the County, particularly the Collector and Treasurer, as an agent of individuals, private organizations, taxing units, other governments and/or funds. Budgets are not adopted for the County's custodial funds.

C. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

D. Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50, RSMo, the County's policy is to adopt a budget for each governmental fund.

2. On or before the second Monday in January, each elected officer and department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.

4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance.

5. A public hearing is conducted to obtain public comment on the budget. Prior to its approval by the County Commission, the budget document is available for public inspection, which usually takes place the third and fourth weeks of January.

6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.

7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by a formal vote of the Commission. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.

8. Budgets are prepared and adopted on the cash basis of accounting.

9. Adoption of a formal budget is required by law. However, the County did not adopt a formal budget for the Building and Grounds Capital Improvement Fund in 2017.

10. Section 50.740, RSMo prohibits expenditures in excess of the approved budgets. Actual expenditures exceeded budgeted amounts for the following funds:

	2018	2017
General Revenue	✓	✓
Noxious Weeds	✓	N/A
Domestic Violence	✓	N/A
Recorder	N/A	✓
Emergency Management	✓	N/A
Prosecuting Attorney Delinquent Tax	✓	N/A
Sheriff Extradition	N/A	✓
Sheriff Post Certified Training	N/A	✓
Ray County CDBG	N/A	✓
911 Emergency Services Board	✓	N/A

Also, the actual expenditures of the Building and Grounds Capital Improvement Fund in 2017 exceeded budgetary authority to the extent that a formal budget was not adopted for this fund.

E. Property taxes are based on the voter-approved tax levy applied to the real and personal assessed property values. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuations of the tangible taxable property, included within the County's boundaries for the calendar year 2018 and 2017, for purposes of taxation were:

	2018	2017
Real Estate	$ 194,669,290	$ 192,622,983
Personal Property	81,471,975	78,142,506
Railroad and Utilities	64,333,565	62,079,329
Total	$ 340,474,830	$ 332,844,818

For calendar years 2018 and 2017, the County Commission approved a tax levy per $100 of assessed valuation of tangible taxable property as follows:

	2018	2017
Special Road & Bridge	$ 0.5003	$ 0.4861
Noxious Weeds	0.0250	-
Capital Improvements	0.0800	0.0800
Senior Citizens Services	0.0488	0.0488

F. Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned from these balances is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents may include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, purchased at a price at or below par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash and investment balances are presented in Note 2.

G. Interfund Activity

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing. Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

2. CASH AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the financial statements within the "Cash and Investments" caption. Cash includes deposits and short-term investments with maturities that are less than ninety days. Investments consist of certificates of deposit with original maturities that are greater than ninety days.

Custodial Credit Risk - Deposits – Custodial credit risk is the risk that in the event of a bank failure, a government’s deposits may not be returned to it. Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2018 and 2017, the carrying amounts of the County’s deposits were $1,405,819 and $1,352,202, respectively, and the bank balances were $1,799,823 and $1,922,698, respectively. Of the bank balances, $630,770 and $501,965 were covered by federal depository insurance at December 31, 2018 and December 31, 2017, respectively. The remainder of the balances at December 31, 2018 and December 31, 2017 were covered by collateral held at the Federal Reserve Bank and the County’s safekeeping bank agent in the County’s name or by a line of credit held by the County or by its agent in the County's name.

At December 31, 2018 and 2017, County officeholders held, in addition to the cash and investments listed above, cash and investments held in a fiduciary capacity on behalf of individuals, private organizations, taxing units, other governments and/or funds. At December 31, 2018 and 2017, the carrying amounts of the County’s custodial funds were $21,780,993 and $24,919,721, respectively, and the bank balances were $20,700,246 and $23,718,923, respectively. Of the bank balances, $2,765,875 and $2,700,819 were covered by federal depository insurance at

December 31, 2018 and December 31, 2017, respectively. The remainder of the balances at December 31, 2018 and December 31, 2017 were covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name.

3. COUNTY EMPLOYEES' RETIREMENT PLANS

A. Missouri Local Government Employees Retirement System (LAGERS)

1) Plan Description

Ray County participates in the Missouri Local Government Employees Retirement System (LAGERS), an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for local government entities in Missouri. LAGERS is a defined benefit pension plan which provides retirement, disability, and death benefits to plan members and beneficiaries. LAGERS was created and is governed by statute, Section 70.600-70.755, RSMo. As such, it is the system's responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401 (a) and is tax exempt.

The Missouri Local Government Employees Retirement System issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to LAGERS, P.O. Box 1665, Jefferson City, Missouri 65102 or by calling 1-800-447-4334, or by the following website, www.molagers.org.

2) Pension Benefits

Benefits are available to all full-time employees working in a LAGERS covered department. Benefits vest when an employee earns five years (60 months) of service credit in the system. Normal retirement age is 60 (General) or 55 (Police), and early retirement is 55 (General) and 50 (Police). Benefits are paid out using a formula that is based on the employee's final average salary and amount of credited service time.

3) Funding Policy

Full-time employees of Ray County do not contribute to the pension plan. The June 30th statutorily required contribution rates were 6.3% and 6.9% (General), and 9.8% and 9.2% (Police) of annual covered payroll for 2018 and 2017 respectively. The contribution requirements of plan members are determined by the governing body of the political subdivision. The contribution provisions of the political subdivision are established by state statute. For the years ended December 31, 2018 and 2017, the County contributed $177,135 and $151,482 to LAGERS.

4) Funding Status

As of February 28, 2018, the actuarial value of plan assets exceeded accrued liabilities by $973,874 and $76,053 for the General and Police divisions, respectively. As of February 29, 2017, the actuarial value of plan assets exceeded accrued liabilities by $853,613 and

$92,131 for the General and Police divisions, respectively. These net pension assets are not recognized in the cash basis financial statements of the County.

B. County Employees' Retirement Fund (CERF)

The County Employees' Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

1) Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the Fund and the investment of the Fund are vested in a board of directors of eleven persons.

2) Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of $10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the Fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, by calling 1-877-632-2373, or by the following website, www.mocerf.org.

3) Funding Policy

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to the CERF. Further, all participants hired on or after February 24, 2002 are required to contribute an additional 4% of their gross compensation to CERF, starting January 1, 2003. An active LAGERS participant who was employed with the County prior to February 24, 2002, is not required to make contributions. During 2018

and 2017, the County collected and remitted to CERF employee withholdings and fees collected of $82,268 and $79,741, respectively, for the years then ended.

C. Prosecuting Attorney Retirement Fund

In accordance with state statute Section 56.807, RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed $3,366 and $2,911, respectively, for the years ended December 31, 2018 and 2017.

D. Other Retirement Plan

Ray County has a voluntary 457(b) plan administered by Empower Retirement which is paid by a deduction from employee's salary. These contributions qualify under the Internal Revenue Code and are tax exempt. Employee contributions qualify collected and remitted by the County for the years ended December 31, 2018 and 2017 were $64,661 and $44,926, respectively.

4. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

5. CLAIMS, COMMITMENT AND CONTINGENCIES

A. Compensated Absences

The County provides full-time employees with one day per calendar month worked of compensated sick leave, up to a maximum of 90 days. Full-time employees having a minimum of five years of service may receive compensation for ¼ of accrued sick leave, up to a maximum of one month. Vacation time is accrued for every full-time employee beginning with the second year of employment at a rate of two weeks per year. Employees with eight or more years of employment earn three weeks per year of vacation leave. Any days not used by the end of the year will be lost. Upon voluntary separation, an employee may receive compensation for unused accrued vacation leave.

B. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs. Accordingly, such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial and, therefore, no provision has been made in the accompanying financial statements for the potential refund of grant monies.

C. Litigation

The County was involved in pending litigation as of the audit report date. The County's management and legal counsel anticipate that potential claims, if any, against the County

resulting from such litigation would not have a material effect on the financial position of the County.

6. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body. The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections which are intended to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to $500,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

7. LONG-TERM DEBT

The County had the following long-term debt outstanding as of December 31, 2018:

A. The County entered into a five year, $100,000 capital lease for a 2010 772G John Deere Motor Grader on June 26, 2015. The lease is scheduled to be paid in annual payments of $21,861 through 2020, which includes interest of 3%. The schedule of remaining payments and interest is listed below:

Fiscal Year Ending December 31,	Principal	Interest	Total
2019	$ 20,590	$ 1,271	$ 21,861
2020	21,216	645	21,861
Totals	$ 41,806	$ 1,916	$ 43,722

B. The County entered into a five year, $96,250 capital lease for a John Deere Wheel Loader on December 19, 2014. The lease is scheduled to be paid in annual payments of $20,888 through 2019, which includes interest of 2.75%. The schedule of remaining payments and interest is listed below:

Fiscal Year Ending December 31,	Principal	Interest	Total
2019	$ 20,322	$ 566	$ 20,888

C. The County entered into a five year, $83,973 capital lease for a New Holland Tractor on February 3, 2015. The lease is scheduled to be paid in annual payments of $18,223 through 2020, which includes interest of 2.75%. The schedule of remaining payments and interest is listed below:

Fiscal Year Ending December 31,	Principal	Interest	Total
2019	$ 17,249	$ 974	$ 18,223
2020	17,730	493	18,223
Totals	$ 34,979	$ 1,467	$ 36,446

D. The County entered into a five year, $50,170 capital lease for a 2014 John Deere Row-Crop Tractor on August 27, 2014. The lease is scheduled to be paid in annual payments of $11,255 through 2019. The schedule of remaining payments and interest is listed below:

Fiscal Year Ending December 31,	Principal	Interest	Total
2019	$ 10,827	$ 428	$ 11,255

E. The County entered into a five year, $50,170 capital lease for a 2014 John Deere Utility Tractor on August 27, 2014. The lease is scheduled to be paid in annual payments of $11,255 through 2019. The schedule of remaining payments and interest is listed below:

Fiscal Year Ending December 31,	Principal	Interest	Total
2019	$ 10,827	$ 428	$ 11,255

F. The County entered into a three year, $100,003 loan with Community Bank of Missouri for the purchase of a 2019 Peterbilt Dump Truck on October 24, 2018. The promissory note amount of $100,003 is scheduled to be paid over 36 months with a monthly payment of $2,989 through October 2021, which includes interest of 4.75%. The schedule of remaining payments and interest is listed below:

Fiscal Year Ending December 31,	Principal	Interest	Total
2019	$ 32,004	$ 3,865	$ 35,869
2020	33,572	2,297	35,869
2021	29,243	648	29,891
Totals	$ 94,819	$ 6,810	$ 101,629

G. The County entered into an agreement with Community Bank of Missouri for $70,000 to replace the courthouse roof in 2017. The loan was paid off in January 2018. Additionally, the County had an annual revolving line of credit with Community Bank of Missouri for the General Revenue Fund and the Special Road & Bridge Fund for $200,000. During 2016, the County drew $70,000 down on the General Revenue Fund line of credit. A $70,000 payment was made and the line of credit was closed in 2017.

The following schedule shows changes in long-term debt during the year ended December 31, 2017:

Description	Balance 12/31/2016	Additions	Payments	Balance 12/31/2017	Interest Paid
2010 John Deere Motor Grader	$ 81,180	$ -	$ (19,392)	$ 61,788	$ 2,469
John Deere Wheel Loader	59,329	-	(19,235)	40,094	1,653
New Holland Tractor	68,088	-	(16,327)	51,761	1,896
John Deere Row-Crop Tractor	31,262	-	(10,020)	21,242	1,235
John Deere Utility Tractor	31,262	-	(10,020)	21,242	1,235
Courthouse Roof	-	70,000	(22,237)	47,763	3,228
Line of Credit	70,000	-	(70,000)	-	-

The following schedule shows changes in long-term debt during the year ended December 31, 2018:

Description	Balance 12/31/2017	Additions	Payments	Balance 12/31/2018	Interest Paid
2010 John Deere Motor Grader	$ 61,788	$ -	$ (19,982)	$ 41,806	$ 1,879
John Deere Wheel Loader	40,094	-	(19,772)	20,322	1,116
New Holland Tractor	51,761	-	(16,782)	34,979	1,441
John Deere Row-Crop Tractor	21,242	-	(10,415)	10,827	840
John Deere Utility Tractor	21,242	-	(10,415)	10,827	840
2019 Peterbilt Dump Truck	-	100,003	(5,184)	94,819	795
Courthouse Roof	47,763	-	(47,763)	-	626

8. OPERATING LEASES

A. In January 2016, the County entered into a non-cancelable lease agreement for a 2016 Caterpillar Motor Grader, under which the County could purchase the motor grader at the end of the lease for $82,960. The agreement calls for seven annual payments of $17,478 ending in 2022.

B. In January 2016, the County entered into a non-cancelable lease agreement for a 2016 Caterpillar Motor Grader, under which the County could purchase the motor grader at the end of the lease for $75,680. The agreement calls for seven annual payments of $17,105 ending in 2022.

The following schedule represents future payments under operating leases:

Fiscal Year Ending December 31,	Amount
2019	$ 34,583
2020	34,583
2021	34,583
2022	34,583

9. CHANGE IN REPORTING ENTITY

As of January 1, 2017, the County has changed it definition of the reporting entity to exclude the Drug Court Fund and Sales Tax Surplus Fund. The effect of this change was to decrease the January 1, 2017 cash and investments balance by $75,860.

10. SUBSEQUENT EVENTS

The County has evaluated events subsequent to December 31, 2018 to assess the need for potential recognition or disclosure in the financial statements. Such events were evaluated through August 13, 2019, the date the financial statements were available to be issued.

In March 2019, the County entered into an agreement with Community Bank of Missouri for a $100,000 revolving line of credit for the General Revenue Fund, which includes interest not to exceed 5.5%.

In June 2019, the County entered into an agreement with Community Bank of Missouri for a $150,000 revolving line of credit for the Special Road & Bridge Fund, which includes interest not to exceed 5.5%.

Effective December 11, 2018, the Ray County Noxious Weed Board and the Ray County Commission entered into a loan agreement for $150,000 at a 1% interest rate. The amount of the loan was transferred from the Noxious Weeds Fund to the General Revenue Fund. On January 25, 2019, the County transferred $150,185 from the General Revenue Fund to the Noxious Weeds Fund for full payment of the loan.

11. INFORMATION NOT COVERED BY AUDITOR'S REPORT

The 911 Emergency Services Board engaged other independent auditor's to perform an audit of their financial statements as of and for the year ended December 31, 2017. The 2017 financial information presented on Exhibit A is not required by the regulatory basis of accounting and is not necessary for fair presentation. It is presented solely for the purpose of ensuring the mathematical integrity of the statement and is not covered by our opinion on the County's financial statements.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the County Commission and
Officeholders of Ray County, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Ray County, Missouri which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2017 and 2018, and the related Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the years then ended, and the related notes to the financial statements, which collectively comprise Ray County, Missouri's basic financial statements and have issued our report thereon dated August 13, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Ray County, Missouri's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Ray County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Ray County, Missouri's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control described in the accompanying schedule of findings and recommendations as items 2018-001 and 2018-002 that we consider to be significant deficiencies.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Ray County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed three instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and are described in the accompanying schedule of findings and recommendations as items 2018-003, 2018-004, and 2018-005.

Ray County, Missouri's Responses to Findings

Ray County, Missouri's responses to the findings identified in our audit are described in the accompanying schedule of findings and recommendations. Ray County, Missouri's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

FINDINGS AND RECOMMENDATIONS

MATERIAL WEAKNESSES IN INTERNAL CONTROL

None

SIGNIFICANT INTERNAL CONTROL DEFICIENCIES

2018-001: Lack of Properly Performed Bank Reconciliations

Criteria: A proper system of internal controls requires timely completion of reconciliations between the accounting system and bank records.

Condition: A review of bank reconciliations of all County bank accounts noted the following internal control issues:

- Sheriff's office bank account reconciliations were not always properly performed or were not performed.
- Prosecuting Attorney bad check bank account reconciliations were not performed in 2017 and 2018.
- Senior Services Board bank account reconciliations were not performed in 2018.
- Sheriff's office bond account had overdraft fees of $745 occurring over a six month period.

Cause: Management does not place adequate emphasis upon reviewing cash transactions and preparing accurate bank reconciliations.

Effect: Errors may go undetected if proper controls are not established to review cash transactions.

Recommendation: We recommend that all offices within the County prepare proper monthly bank reconciliations and make adjustments to the cash accounts.

Prosecuting Attorney's Response: In the past couple of years we transitioned to an online case filing system. Along with that we moved and are moving our bad checks and restitution accounts to that system which will help in preparing the reconciliations in a timely manner.

Sheriff's Response: These problems have been addressed. The cause of the overdrafts has been eliminated by the Office Manager being the only one responsible for bank deposits (or Sheriff). We are trying to adjust our time enough to make sure there is time to reconcile all accounts when necessary.

Senior Services Board's Response: The Ray County Senior Services Board Treasurer will save the reconciliation reports each month for comparison with monthly bank reports and review by board members for reconciliation. There is no need to make adjustment to cash accounts because the Board does not use such accounts.

Auditor's Evaluation: The responses of the Prosecuting Attorney and Senior Services Board are appropriate to correct the concern. The Sheriff's office should keep proper segregation of duties in mind when determining who should be responsible for bank deposits.

2018-002: Sheriff's Department Internal Controls

Criteria: A system of proper internal controls requires a segregation of duties of physical custody of assets, recording transactions, and authorizing transactions.

Condition: There is a lack of segregation of duties over the cash receipt and cash disbursement processes in the Sheriff's office. The same employee in the Sheriff's office collects fees into the office, records the receipt of fees to the transaction ledger, prepares the deposit of fees, deposits the fees, prepares the checks, is an authorized check signer, receives the bank statements, and reconciles the bank statements. Additionally, receipt of fees is only logged once a week and kept in an unlocked desk drawer until deposit is made. Furthermore, there is no indication of management review on the bank statements and reconciliations.

Cause: One employee has been instructed to perform all the above duties.

Effect: A lack of segregation of duties and adequate oversight may result in errors or other problems that might not be recognized and resolved in a timely manner.

Recommendation: We recommend the Sheriff improve the segregation of duties and internal controls within the Sheriff's office, thereby reducing the chance that errors and other problems will occur. Additionally, the Sheriff should increase his oversight of the activities of this employee.

Sheriff's Response: We do not have the budget to hire more employees to "segregate" these duties. I am trying to make sure everything is handled properly and am working on better ways to handle everything.

Auditor's Evaluation: Oversight by officeholders of duties that are performed by their employees is an adequate compensating control when segregation of duties is limited by the size of the office.

ITEMS OF NONCOMPLIANCE

2018-003: Budgetary Compliance

Criteria: State statute prohibits the County from approving expenditures in excess of the budgeted amount for any County fund. This requirement ensures expenditures are subject to public scrutiny as provided by their inclusion in a budget adopted or amended at a public meeting. The County budgets and published financial statements should present a complete and accurate picture of the County's financial position.

Additionally, state statute requires the preparation of annual budgets for all funds to present a complete financial plan for the ensuing year.

Condition: Actual expenditures exceeded budgeted expenditures for six funds in 2018 and five funds in 2017, including the General Revenue Fund which in in poor financial condition and spent in excess of budgeted amounts in both years. The complete list of funds can be found at Note 1.D.10.

Additionally, the County did not adopt a formal budget for the Building and Grounds Capital Improvement Fund for 2017.

Cause: The County did not adequately review and amend budgeted expenditures of each fund to ensure actual expenditures did not exceed budgeted appropriations.

Effect: In order to ensure the integrity of the budgeting process, the budget documents must present a complete and accurate financial position for each County fund and the spending limits should be adhered to.

Recommendation: We recommend the County ensure compliance with state statutes by adopting a formal budget for all funds and refraining from approving expenditures in excess of budgeted amounts. In the event that the originally adopted budget is inadequate to finance the current-year unforeseen expenditures, budgetary amendments should be discussed in a public meeting and formally adopted by the County Commission.

County Response: In the future, the Ray County Clerk will amend the budget to account for added income or expenses.

Auditor's Evaluation: The response is appropriate to correct the concern.

2018-004: Lack of Investment Policy

Criteria: Section 30.950, RSMo, requires political subdivisions with authority to invest in instruments other than depository accounts at financial institutions to adopt a written investment policy.

Condition: The County has not adopted an investment policy as required by state statute.

Cause: The County was unaware of the requirement to adopt a written investment policy.

Effect: Adoption of a written investment policy commits a political subdivision to the principles of safety, liquidity, and yield (in that order) when managing public funds and to prohibit purchase of derivatives (either directly or through repurchase agreements), use of leveraging (through either reverse repurchase agreements or other methods), and use of public funds for speculation.

Recommendation: We recommend the County adopt an investment policy and review compliance with this policy at least annually as required by state statute.

County's Response: In response to the finding, the County provided a copy of an investment policy that was adopted by the Commission.

Auditor's Response: The response is appropriate to correct the concern.

2018-005: Sheriff Fee Turnover and Reimbursement Requests

Criteria: Section 50.370, RSMo states that "every county officer who receives any fees or other remuneration for official services which is payable to the county shall at the end of each month…pay over to the county treasurer all fees and other moneys collected by him which belong to the county."

Condition: Monies received from the Sheriff's commissary account were not being timely turned over to the County Treasurer on a monthly basis. Funds were turned over to the County Treasurer three

times in 2017 and four times in 2018, and a monthly report was not filed to support the amount of monies turned over. Additionally, the prisoner bill of costs reimbursement was not timely submitted by the Sheriff's office increasing the delay for reimbursement from the state. Reimbursement was submitted every two months rather than monthly. The General Revenue Fund was owed approximately $266,634 for reimbursements submitted as of the date of audit fieldwork. Furthermore, request for reimbursement of Sheriff's extradition costs were not timely submitted resulting in expenditures being charged to the General Revenue Fund which have not been reimbursed from Sheriff's extradition due to lack of funds.

Cause: The Sheriff does not place adequate emphasis upon ensuring proper monthly reports are filed and monies are timely turned over to the County Treasurer in accordance with state statute. Additionally, the Sheriff does not place adequate emphasis on ensuring requests for reimbursement are timely submitted.

Effect: There is risk that not all monies payable to the County are being turned over when reports are not filed and monies are not timely submitted. Additionally, the General Revenue Fund balance is encumbered with additional expenditures which are not being timely reimbursed to the fund.

Recommendation: We recommend the Sheriff's office implement procedures to ensure fees and other monies payable to the County are submitted monthly and adequate reports are provided to support the amount of funds turned over. Additionally, we recommend implementing procedures to ensure expenditure reimbursement requests are timely submitted to the proper agencies to ensure the General Revenue Fund is timely reimbursed for expenditures paid out of the fund.

County's Response: We are implementing new procedures to ensure a more timely turnaround on all expenditures and income to be reported to the County Clerk and state.

Auditor's Evaluation: The response is appropriate to correct the concern.

OTHER MATTERS

In planning and performing our audit of the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis, the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis, and the Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis – All Governmental Funds as of and for the years ended December 31, 2017 and 2018, we considered Ray County's internal control in order to determine our auditing procedures for the purpose of expressing an opinion on the financial statements and not to provide assurance on internal control. We issued our report on our consideration of internal control over financial reporting dated August 13, 2019. However, during our audit we became aware of matters that are opportunities for strengthening internal controls.

Outstanding Checks

A review of the bank reconciliations of all County bank accounts noted two accounts that had checks listed as outstanding for six months or more. As of December 31, 2018, the County Treasurer's main account reconciliation listed 16 checks that have been outstanding for over six months, totaling $1,731. As of December 31, 2018, the Prosecuting Attorney's restitution account reconciliation listed seven checks that have been outstanding for over six months, totaling $287.

We recommend the County Treasurer and Prosecuting Attorney remove stale checks from the monthly bank reconciliations on a timely basis and ensure checks are properly moved to unclaimed fees at year end.

Payroll Deficiencies

The County personnel files had Commission approved payment of accumulated vacation leave hours to one employee in the amount of $28,681, to be paid out at $5,000 per year. As of December 31, 2018, the balance owed to this employee was $18,681. This is not in accordance with the County's personnel policy which states that any vacation days not used by the end of the year will be lost.

Additionally, the County was penalized by the IRS for failure to timely file correct 1099 statements in tax year 2015. The County missed filing some 1099's for services and were not aware that partnerships and some sole proprietors were required to have a Form 1099 issued. The County paid $15,275 in penalties in 2017. This was a one-time error with no additional penalties paid after 2017.

We recommend the County administer payroll in accordance with their personnel policy or revise the personnel policy to reflect actual practice. Additionally, we recommend the County implement procedures to ensure required tax forms are properly and timely filed to avoid future penalties.

General Revenue Fund in Poor Financial Condition

As noted in several previous audits, the fund balance for the General Revenue Fund is low and decreased from the year ended December 31, 2017. The County has had to issue short-term debt to cover additional costs associated with the General Revenue Fund.

We recommend the County continue to focus on ways to improve the financial condition of the County's General Revenue Fund. Additionally, we recommend the County implement procedures to ensure County fee offices are timely turning over funds collected to the County Treasurer and timely filing reimbursements for monies expended from the General Revenue Fund.

RAY COUNTY, MISSOURI
FOLLOW-UP ON PRIOR AUDIT FINDINGS FOR AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

In accordance with *Government Auditing Standards*, this section reports the auditor's follow-up on action taken by Ray County, Missouri, on the applicable findings in the prior audit report issued for the year ended December 31, 2016.

1. There was no budget prepared for the Ray County CDBG Fund, Disaster Aid Fund, and the Juvenile IV E Fund for the year ended December 31, 2016.

   The County deficit budgeted in the Sheriff Post Certified Training Fund for the year ended December 31, 2016.

   Actual expenditures exceeded those budgeted in the General Revenue Fund, Domestic Violence Fund, Recorder Fund, Drug Court Fund, Prosecuting Attorney Training Fund, Sheriff Training Fund, Inmate Prisoner Detainee Fund, and the Administrative Handling Cost Fund for the year ended December 31, 2016.

   Status: Partially resolved. See finding 2018-003.

2. Documentation of the County's internal controls has not been prepared in any of the offices.

   Status: Resolved.

3. There is no formal fraud risk assessment in place for any of the County's offices.

   Status: Resolved.

4. There were no bank reconciliations for the Prosecuting Attorney's office.

   Status: Repeated. See finding 2018-001.

5. The Sheriff's office credit card purchases did not have all supporting documentation and internal controls were not in place to safeguard items purchased with credit cards.

   Status: Resolved.

6. There was a lack of sufficient segregation of duties in the Sheriff's office.

   Status: Repeated. See finding 2018-002.

7. The fund balance for the General Revenue Fund is low, and decreased from the year ended December 31, 2015. The County had to issue short-term debt to cover additional costs associated with the General Revenue Fund.

   Status: See discussion under Other Matters in the Findings and Recommendations.

NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for political subdivisions other than cities, towns, and villages, required to file a financial report, under Section 105.145, RSMo, and 15 CSR 40-3.030. Section 105.145, RSMo, provides that the State Auditor's Office notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Because of different filing requirements, a separate report is issued for cities, towns, and villages.

The filing status for the 13 political subdivisions required to file a financial report by August 31, 2019, is presented in summary on page 3 and by individual entity in Appendix A. We have not audited the reports submitted and, accordingly, do not express an opinion or any other assurance on them.

This report also includes the updated filing status for political subdivisions, other than cities, towns, and villages, that filed a financial report in August 2019, after their filing deadline. The filing status for these 115 entities is presented in summary on page 3 and by individual entity in Appendix B-E.

Monthly Report on Political Subdivision Filings
August 2019
Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office posts individual annual financial reports to its website. A searchable link is available at http://auditor.mo.gov.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of $500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than $5,000 in the fiscal year of the annual financial report.

This report includes the filing status for the 13 political subdivisions, other than cities, towns, and villages, with a fiscal year end of February 28, 2019. Cities, towns, and villages have additional filing requirements and their reporting status is included in a separate report. Of the 13 political subdivisions, 7 filed an annual financial report timely and 1 reported a partial financial report.

This report also includes the filing status for 115 political subdivisions, other than cities, towns, and villages, that filed their financial report in August 2019, after their filing deadline.

NICOLE GALLOWAY, CPA
Missouri State Auditor

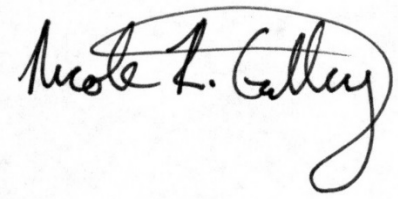
Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for the municipalities required to file a financial report by August 31, 2019, under Section 105.145, RSMo, and 15 CSR 40-3.030, and, when applicable, an addendum under Section 479.359, RSMo, and 15 CSR 40-3.170 and a municipal court certification under Section 479.360, RSMo, and 15 CSR 40-3.180.

Section 105.145, RSMo, provides that the State Auditor's Office (SAO) notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. Additionally, Section 479.362, RSMo, provides that the SAO notify the Department of Revenue whether counties, cities, towns, and villages have timely filed under Sections 479.359 and 479.360, RSMo. Because of different filing requirements, a separate report is issued for all other political subdivisions required to file a financial report.

The filing status for 5 cities and 4 villages is presented in summary on page 3 and by individual entity in Appendix A. This compilation is limited to presenting information submitted to our office. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report includes the updated filing status for municipalities that filed at least one of the items (financial report, addendum, or certification) in August 2019, after their filing deadline. The filing status for these 76 cities, 2 towns, and 27 villages is presented in summary on pages 4 and by individual entity in Appendixes B to E.



Nicole R. Galloway, CPA
State Auditor

Senior Analyst:	Jill Wilson, MBA

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision, except counties and school districts, in the state to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at http://auditor.mo.gov.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of $500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than $5,000 in the fiscal year of the annual financial report.

Section 479.359.1, RSMo, requires every county, city, town, and village to annually calculate the percentage of its annual general operating revenue received from fines, bond forfeitures, and court costs for minor traffic violations.

Section 479.359.3, RSMo, provides that all entities having a municipal court file an addendum to the annual financial report containing items listed in 15 CSR 40-3.170, which also provides the procedures to file an addendum.

Section 479.360, RSMo, requires every county, city, town, and village that has a municipal court to file, with its annual financial report, a certification of substantial compliance with 10 municipal court procedures. This certification must be signed by the municipal court judge. 15 CSR 40-3.180 provides the procedure to file the municipal court certification. Any county, city, town, or village that does not have a municipal court judge is not required to file a certification.

Section 479.362, RSMo, requires that the SAO notify the Department of Revenue whether counties, cities, towns, or villages have timely filed their addendums under Section 479.359 and certificates of substantial compliance under Section 479.360, RSMo. Section 479.368, RSMo, provides penalties for counties, cities, towns, and villages that fail to file, including loss of revenue and mandatory ballot measure to dissolve the political subdivision.

This report includes the filing status for the 5 cities and 4 villages with a fiscal year end of February 28, 2019, whose financial report was due by August 31, 2019. Of the 9 municipalities required to file an annual financial report, 7 filed the report timely. Of the 4 municipalities required to file an addendum, 2 filed an addendum timely. Of the 3 municipalities required to file a certification, 1 filed a certification timely.

This report includes the filing status for 76 cities, 2 towns, and 27 villages that filed at least one of the items (financial report, addendum, or certification) in August 2019, after their filing deadline. Of these entities, 33 filed an annual financial report, 57 filed an addendum, and 30 filed a certification.

CITIZENS SUMMARY

Findings in the audit of Children's Trust Fund Board

Findings

The audit identified no significant deficiencies in internal controls, no significant noncompliance with legal provisions, and no significant deficiencies in management practices and procedures. No findings resulted from the audit.

In the areas audited, the overall performance of this entity was **Excellent**.*

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
and
Sarah Steelman, Commissioner
Office of Administration
and
Members of the Children's Trust Fund Board
and
Emily van Schenkhof, Executive Director
Children's Trust Fund Board
Jefferson City, Missouri

We have audited certain operations of the Children's Trust Fund Board in fulfillment of our duties under Chapter 29, RSMo. The scope of our audit included, but was not necessarily limited to, the 2 years ended June 30, 2019. The objectives of our audit were to:

1. Evaluate the board's internal controls over significant management and financial functions.

2. Evaluate the board's compliance with certain legal provisions.

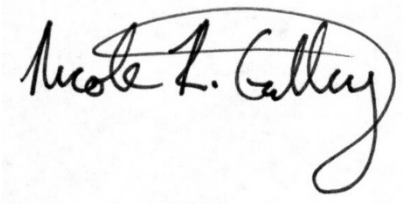
3. Evaluate the economy and efficiency of certain management practices and operations, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the board; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We tested certain of those controls to obtain evidence regarding the effectiveness of their design and operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organizational and Statistical Information is presented for informational purposes. This information was obtained from the board's management and was not subjected to the procedures applied in our audit of the board.

For the areas audited, we identified (1) no significant deficiencies in internal controls, (2) no significant noncompliance with legal provisions, and (3) no significant deficiencies in management practices and procedures. No findings resulted from our audit of the Children's Trust Fund Board.



Nicole R. Galloway, CPA
State Auditor

Children's Trust Fund Board
Organization and Statistical Information

The Children's Trust Fund Board (CTFB) was established by Sections 210.170 to 210.173, RSMo, to provide child abuse and neglect public awareness and prevention programs throughout the state using resources of the Children's Trust Fund (CTF). Receipts of the CTF are comprised of dedicated fees on marriage licenses and vital records, voluntary contributions of state income tax refunds, sales of the specialty CTF license plate, federal grants, general donations, and interest income.

Section 210.170, RSMo, provides that the CTFB shall consist of 17 members. Thirteen public members are appointed by the Governor with the advice and consent of the Senate and are appointed to serve 3-year terms, limited to two consecutive terms. Members serve until their successor is appointed. Two members of the Missouri House of Representatives are appointed by the Speaker of the House and two members of the Missouri Senate are appointed by the President Pro Tem of the Senate. Members of the Senate and House of Representatives serve on the CTFB until their term in the House or Senate expires. On June 30, 2019, the CTFB had 15 members and 2 vacancies. Members serving on the Board as of June 2019 were:

Member	City	Term Expires
John B. Heskett, Ed.D., Chair	Chesterfield	September 2020
Amy Beechner-McCarthy, Chair Elect	Rolla	September 2019
James D. Anderst, M.D. MSCI	Kansas City	September 2020
Melissa Birdsell	St. Joseph	September 2020
Nanci A. Bobrow, Ph. D.	St. Louis	September 2019
Monica Davis, Ed.D.	Rolla	September 2018
Sharon Faulkner	Springfield	September 2018
Michael Howard	Crestwood	September 2020
Margaret Peggy Krokstrom	Chesterfield	September 2019
Sharon E. Rohrbach	Fenton	September 2019
Cherisse Thibaut, LCSW	Kirkwood	September 2018
Derek Wiseman	St. Louis	September 2018
Representative Cody Smith	Carthage	
Senator Jeanie Riddle	Holts Summit	
Senator Jill Schupp	St. Louis	
Vacant		
Vacant		

The CTFB is empowered to enter into contracts with public or private agencies, schools, or qualified individuals to establish community-based educational and service programs focused on the prevention of child abuse and neglect. The programs include home visiting, crisis care, safe sleep promotion, collective impact, parent education and engagement, and other child abuse prevention initiatives. The CTFB also provides public education about the problem of child abuse and neglect and how Missouri citizens can contribute to prevention efforts.

The CTFB may appoint an executive director to perform administrative duties. Emily van Schenkhof was appointed Executive Director in July 2017. Four other employees perform various administrative duties and responsibilities.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the County Commission
and
Officeholders of Nodaway County, Missouri

The Office of the State Auditor contracted for an audit of Nodaway County's financial statements for the year ended December 31, 2018, through the state Office of Administration, Division of Purchasing and Materials Management. The audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of this audit, performed by McBride, Lock & Associates, LLC, Certified Public Accountants, is attached.

INDEPENDENT AUDITOR'S REPORT

To the County Commission and
Officeholders of Nodaway County, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of Nodaway County, Missouri, which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2018, and the related Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles prescribed or permitted by Missouri law. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1, the financial statements are prepared by Nodaway County, Missouri on the basis of the financial reporting provisions prescribed or permitted by Missouri Law, which is a basis of accounting other than accounting principles generally accepted in the United States of America.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the "Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles" paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Nodaway County, Missouri, as of December 31, 2018, or the changes in financial position thereof for the year then ended.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of Nodaway County, Missouri, as of December 31, 2018, and their respective cash receipts and disbursements, and budgetary results for the year then ended, in accordance with the financial reporting provisions prescribed or permitted by Missouri Law as described in Note 1.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we also have issued our report dated August 15, 2019, on our consideration of Nodaway County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Nodaway County, Missouri's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

The accompanying Notes to the Financial Statements are an integral part of this statement.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nodaway County, Missouri ("County") is governed by a three-member board of commissioners. In addition to the three board members, there are 10 elected Constitutional Officers: Assessor, Circuit Clerk, Collector/Treasurer, Coroner, County Clerk, Prosecuting Attorney, Public Administrator, Recorder, Sheriff, and Surveyor.

As discussed further in Note 1, these financial statements are presented using accounting practices prescribed or permitted by Missouri Law, which differ from accounting principles generally accepted in the United States of America, which would include all relevant Government Accounting Standards Board (GASB) pronouncements. The differences include use of a prescribed definition of the reporting entity and the cash basis of accounting.

A. Reporting Entity

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include the primary government of Nodaway County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise the County's legal entity.

In accordance with the regulatory basis of accounting, the financial statements of the County do not include the activity of the Circuit Court, which is part of the Missouri court system and is considered to be a state function, including the operations of the Circuit Clerk and all funds under their control.

B. Basis of Presentation

Governmental Funds – Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, net assets, revenues/receipts and expenditures/disbursements. The County's funds are governmental funds. Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds.

Fiduciary Funds – Fiduciary funds consist of custodial funds. Custodial funds account for assets held by the County, particularly the Collector/Treasurer, as an agent of individuals, private organizations, taxing units, other governments and/or funds. Budgets are not adopted for the County's custodial funds.

C. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

D. Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50, RSMo, the County's policy is to adopt a budget for each governmental fund.

2. On or before the second Monday in January, each elected officer and department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.

4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance.

5. A public hearing is conducted to obtain public comment on the budget. Prior to its approval by the County Commission, the budget document is available for public inspection, which usually takes place the third and fourth weeks of January.

6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.

7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by a formal vote of the Commission. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.

8. Budgets are prepared and adopted on the cash basis of accounting.

9. Adoption of a formal budget is required by law.

10. Section 50.740, RSMo prohibits expenditures in excess of the approved budgets. Actual expenditures exceeded budgeted amounts for the Concealed Weapons Fund.

E. Property taxes are based on the voter-approved tax levy applied to the real and personal assessed property values. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on September 1 and tax bills are mailed to taxpayers in October and November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuations of the tangible taxable property, included within the County's boundaries for the calendar year 2018, for purposes of taxation were:

Real Estate	$ 213,454,520
Personal Property	80,103,700
Railroad and Utilities	31,305,892
Total	$ 324,864,112

For calendar years 2018, the County Commission approved a tax levy per $100 of assessed valuation of tangible taxable property as follows:

General Revenue	$ 0.1600
Senior Citizens	0.0500
Senate Bill 40 Board	0.0500

The property taxes collected from the General Revenue levy are recorded in the Administrative Center Fund. Property tax receipts were recorded in the Special Road and Bridge Fund based on a percentage allocation of tax collections which was $.0500 per $100 of assessed valuation of tangible taxable property.

F. Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned from these balances is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents may include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, purchased at a price at or below par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash and investment balances are presented in Note 2.

G. Interfund Activity

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing. Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

2. CASH AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the financial statements within the "Cash and Investments" caption. Cash includes deposits and short-term investments with maturities that are less than ninety days. Investments consist of certificates of deposit with original maturities that are greater than ninety days.

Custodial Credit Risk - Deposits – Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2018, the carrying amount of the County's deposits was $8,912,413 and the bank balance was $9,020,986. Of the bank balance, $691,804 was covered by federal depository insurance at December 31, 2018. The remainder of the balance at December 31, 2018 was covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name.

At December 31, 2018, County officeholders held, in addition to the cash and investments listed above, cash held in a fiduciary capacity on behalf of individuals, private organizations, taxing units, other governments and/or funds. At December 31, 2018, the carrying amount of the County's custodial funds was $19,997,439 and the bank balance was $14,914,579. Of the bank balance, $1,740,856 was covered by federal depository insurance at December 31, 2018. The remainder of the balance at December 31, 2018 was covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name.

3. COUNTY EMPLOYEES' RETIREMENT PLANS

A. Missouri Local Government Employees Retirement System (LAGERS)

1) Plan Description

Nodaway County participates in the Missouri Local Government Employees Retirement System (LAGERS), an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for local government entities in Missouri. LAGERS is a defined benefit pension plan which provides retirement, disability, and death benefits to plan members and beneficiaries. LAGERS was created and is governed by statute, Section 70.600-70.755, RSMo. As such, it is the system's responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401 (a) and is tax exempt.

The Missouri Local Government Employees Retirement System issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to LAGERS, P.O. Box 1665, Jefferson City, Missouri 65102 or by calling 1-800-447-4334, or by the following website, www.molagers.org.

2) Pension Benefits

Benefits are available to all full-time employees working in a LAGERS covered department. Benefits vest when an employee earns five years (60 months) of service credit in the system. Normal retirement age is 60 (General) or 55 (Police), and early retirement is 55 (General) and 50 (Police). Benefits are paid out using a formula that is based on the employee's final average salary and amount of credited service time.

3) Funding Policy

The County is required by State Statute to contribute at an actuarially determined rate. The rates for the year ended December 31, 2018 were 6.5% (General) and 7.4% (Police) of annual covered payroll. The contribution requirements of plan members are determined by the governing body of the political subdivision. The contribution provisions of the political subdivision are established by state statute. For the year ended December 31, 2018, the County contributed $151,207 to LAGERS.

4) Funding Status

As of February 28, 2018, the actuarial value of plan assets exceeded the accrued liabilities of the plan by $8,802 for the General division, and the actuarial value of accrued liabilities exceeded the plan assets by $53,588 for the Police division. These net pension assets and liabilities are not recognized in the cash basis financial statements of the County.

B. County Employees' Retirement Fund (CERF)

The County Employees' Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

1) Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the Fund and the investment of the Fund are vested in a board of directors of eleven persons.

2) Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different

prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of $10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the Fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, by calling 1-877-632-2373, or by the following website, www.mocerf.org.

3) Funding Policy

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to the CERF. Further, all participants hired on or after February 24, 2002 are required to contribute an additional 4% of their gross compensation to CERF, starting January 1, 2003. An active LAGERS participant who was employed with the County prior to February 24, 2002, is not required to make contributions. During 2018, the County collected and remitted to CERF employee withholdings and fees collected of $184,891.

C. Prosecuting Attorney Retirement Fund

In accordance with state statute Section 56.807, RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed $13,005 for the year ended December 31, 2018.

D. Other Retirement Plan

Nodaway County has a voluntary CERF 457 plan which is paid by a deduction from employee’s salary. These contributions qualify under the Internal Revenue Code and are tax exempt. Employee contributions collected and remitted by the County for the year ended December 31, 2018 was $65,582.

4. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

5. CLAIMS, COMMITMENT AND CONTINGENCIES

A. Compensated Absences

The County provides full time employees with up to 60 days of sick time, to accrue at one day per complete calendar month of employment. Permanent part-time employees accrue sick leave proportional to hours worked up to 60 days. Upon termination, the employee will not be compensated for any unused sick time. Vacation time is accrued for full-time regular employees after a six-month probationary period based on years of employment with the County. During the first two years, employees are eligible for two weeks of vacation per year (up to 80 hours), three weeks during years three through eight (up to 120 hours), four weeks during years nine through twelve (up to 160 hours), and five weeks from years thirteen and on (up to 200 hours). Vacation is accrued on a monthly basis and is awarded retroactively for the six-month probationary period for all employees lasting longer than six months. Upon termination, the employee is compensated for accrued vacation time at the employee's final rate of pay.

B. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs. Accordingly, such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial and, therefore, no provision has been made in the accompanying financial statements for the potential refund of grant monies.

6. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body. The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections which are intended to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to $2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

7. LONG-TERM DEBT

The County had the following long-term debt outstanding as of December 31, 2018:

A. The County entered into a loan with U.S. Bank dated June 1, 2008, for the construction of an administration building. The remaining balance on the loan at December 31, 2018 was $2,704,084. The loan has an interest rate of 4.85% and is due in monthly payments of $29,652 until May 1, 2028. Future payments on the loan are as follows:

Year Ended December 31,	Principal	Interest	Total
2019	$ 229,741	$ 126,086	$ 355,827
2020	241,135	114,692	355,827
2021	253,093	102,734	355,827
2022	265,645	90,182	355,827
2023	278,819	77,008	355,827
2024-2028	1,435,651	165,210	1,600,861
Totals	$ 2,704,084	$ 675,912	$ 3,379,996

B. In December 2016, the County entered into a $139,000, two-year capital lease for the purchase of a 2016 John Deere Excavator. The lease called for two annual payments of $72,957, with interest at 3.25%. The County has the option to purchase the equipment for $1 at the end of the lease term. The final payment of $72,958, consisting of $70,628 of principal and $2,330 of interest, was made in December 2018.

The following schedule shows changes in long-term debt during the year ended December 31, 2018:

Description	Balance 12/31/2017	Additions	Payments	Balance 12/31/2018	Interest Paid
US Bank Loan	$ 2,922,970	$ -	$ (218,886)	$ 2,704,084	$ 136,941
Excavator	70,628	-	(70,628)	-	2,330

8. SUBSEQUENT EVENTS

The County has evaluated events subsequent to December 31, 2018 to assess the need for potential recognition or disclosure in the financial statements. Such events were evaluated through August 15, 2019, the date the financial statements were available to be issued. Based on this evaluation, it was determined that no subsequent events occurred that require recognition or additional disclosure in the financial statements.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the County Commission and
Officeholders of Nodaway County, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Nodaway County, Missouri which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2018, and the related Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the year then ended, and the related notes to the financial statements, which collectively comprise Nodaway County, Missouri's basic financial statements and have issued our report thereon dated August 15, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Nodaway County, Missouri's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Nodaway County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Nodaway County, Missouri's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Nodaway County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

FINDINGS AND RECOMMENDATIONS

MATERIAL WEAKNESSES IN INTERNAL CONTROL

None

SIGNIFICANT INTERNAL CONTROL DEFICIENCIES

None

ITEMS OF NONCOMPLIANCE

None

OTHER MATTERS

In planning and performing our audit of the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis, the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis, and the Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis – All Governmental Funds as of and for the year ended December 31, 2018, we considered Nodaway County's internal control in order to determine our auditing procedures for the purpose of expressing an opinion on the financial statements and not to provide assurance on internal control. We issued our report on our consideration of internal control over financial reporting dated August 15, 2019. However, during our audit we became aware of matters that are opportunities for strengthening internal controls.

Procurement

There was no evidence bids were solicited in accordance with state law for three purchases tested during our audit. These purchases totaled $58,531 and were from the General Revenue and Special Road and Bridge Funds. Section 50.660, RSMo requires competitive bids for all purchases greater than $4,500 and newspaper advertising soliciting sealed bids for purchases exceeding $6,000. Section 50.783, RSMO requires justification stated in the Commission minutes for sole source bids and instances in which the lowest bid was not selected.

We recommend the County maintain evidence to support competitive bids, and ensure that sole source justifications or instances in which the lowest bid is not selected are documented in accordance with state law.

Bank Account Interest

Bank account interest was not posted to County fund ledgers on a timely basis. Our audit noted February bank interest earned of $5,020 was not posted to the General Revenue, Special Road and Bridge, Assessment, Election Shares, 911, Concealed Weapons and Administrative Handling Funds until June 4, 2018. The February, March and April bank interest totaling $782 earned on the Treasurer's Administrative Center Fund bank account deposits were not posted to the fund ledger at December 31, 2018, but were listed as reconciling items.

We recommend the County ensure that all transactions are posted timely to the accounting system and that reconciling items on bank statements are followed up on and resolved in a timely manner.

NODAWAY COUNTY, MISSOURI
FOLLOW-UP ON PRIOR AUDIT FINDINGS FOR AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

In accordance with *Government Auditing Standards*, this section reports the auditor's follow-up on action taken by Nodaway County, Missouri, on the applicable findings in the prior audit report issued for the year ended December 31, 2017.

There were no prior audit findings to follow-up on.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the County Commission
and
Officeholders of Harrison County, Missouri

The Office of the State Auditor contracted for an audit of Harrison County's financial statements for the year ended December 31, 2018, through the state Office of Administration, Division of Purchasing and Materials Management. The audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of this audit, performed by McBride, Lock & Associates, LLC, Certified Public Accountants, is attached.

RECOMMENDATION SUMMARY

Recommendations in the contracted audit of Harrison County

2018-001 Budgetary Controls	The County strictly adhere to the authorized spending limits as documented in the adopted County budget or follow the appropriate procedures to amend the budget.
2018-002 Absence of Investment Policy	The County adopt an investment policy and review compliance with this policy at least annually as required by state statute.
Sheriff Account Negative Book Balance	The Sheriff Department resolve the deficiency of $27 to return the book balance after the monthly turnover to $0.
Procurement Procedures	The Sheriff's office ensure that all fuel logs supporting fuel card charges are obtained and reconciled to the statements.

INDEPENDENT AUDITOR'S REPORT

To the County Commission and
Officeholders of Harrison County, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of Harrison County, Missouri, which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2018, and the related Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles prescribed or permitted by Missouri law. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1, the financial statements are prepared by Harrison County, Missouri on the basis of the financial reporting provisions prescribed or permitted by Missouri Law, which is a basis of accounting other than accounting principles generally accepted in the United States of America.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the "Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles" paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Harrison County, Missouri, as of December 31, 2018, or the changes in financial position thereof for the years then ended.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of Harrison County, Missouri, as of December 31, 2018, and their respective cash receipts and disbursements, and budgetary results for the years then ended, in accordance with the financial reporting provisions prescribed or permitted by Missouri Law as described in Note 1.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we also have issued our report dated August 9, 2019, on our consideration of Harrison County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Harrison County, Missouri's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Harrison County, Missouri ("County") is governed by a three-member board of commissioners. In addition to the three board members, there are eight elected Constitutional Officers: Assessor, Circuit Clerk/Ex-Officio Recorder, Collector/Treasurer, Coroner, County Clerk, Prosecuting Attorney, Public Administrator, and Sheriff.

As discussed further in Note 1, these financial statements are presented using accounting practices prescribed or permitted by Missouri Law, which differ from accounting principles generally accepted in the United States of America, which would include all relevant Government Accounting Standards Board (GASB) pronouncements. The differences include use of a prescribed definition of the reporting entity and the cash basis of accounting.

A. Reporting Entity

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include the primary government of Harrison County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise the County's legal entity.

In accordance with the regulatory basis of accounting, the financial statements of the County do not include the activity of the Circuit Court, which is part of the Missouri court system and is considered to be a state function, including the operations of the Circuit Clerk and all funds under their control.

B. Basis of Presentation

Governmental Funds – Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, net assets, revenues/receipts and expenditures/disbursements. The County's funds are governmental funds. Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds.

Fiduciary Funds – Fiduciary funds consist of custodial funds. Custodial funds account for assets held by the County, particularly the Collector/Treasurer, as an agent of individuals, private organizations, taxing units, other governments and/or funds. Budgets are not adopted for the County's custodial funds.

C. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

D. Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50, RSMo, the County's policy is to adopt a budget for each governmental fund.

2. On or before the second Monday in January, each elected officer and department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.

4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance.

5. A public hearing is conducted to obtain public comment on the budget. Prior to its approval by the County Commission, the budget document is available for public inspection, which usually takes place the third and fourth weeks of January.

6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.

7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by a formal vote of the Commission. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.

8. Budgets are prepared and adopted on the cash basis of accounting.

9. Adoption of a formal budget is required by law.

10. Section 50.740, RSMo prohibits expenditures in excess of the approved budgets. Actual expenditures exceeded budgeted amounts for the following funds:

	2018
Domestic Violence	✓
POST Commission Training	✓
Recorders Technology	✓
Leah Trullinger Endowment	✓

E. Property taxes are based on the voter-approved tax levy applied to the real and personal assessed property values. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on November 1. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuations of the tangible taxable property, included within the County's boundaries for the calendar year 2018, for purposes of taxation were:

	2018
Real Estate	$ 77,996,438
Personal Property	35,293,687
Railroad and Utilities	8,081,321
Total	$ 121,371,446

For calendar years 2018, the County Commission approved a tax levy per $100 of assessed valuation of tangible taxable property as follows:

	2018
General Revenue	$ 0.3714
Senior Citizens' Tax Board	0.0491

F. Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned from these balances is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents may include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, purchased at a price at or below par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash and investment balances are presented in Note 2.

G. Interfund Activity

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing. Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

2. CASH AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the financial statements within the "Cash and Investments" caption. Cash includes deposits and short-term investments with maturities that are less than ninety days. Investments consist of certificates of deposit with original maturities that are greater than ninety days.

Custodial Credit Risk - Deposits – Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2018, the carrying amount of the County's deposits was $3,781,997, and the bank balance was $3,978,621. Of the bank balance, $520,153 was covered by federal depository insurance at December 31, 2018. The remainder of the balance at December 31, 2018 was covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name.

At December 31, 2018, County officeholders held, in addition to the cash and investments listed above, cash held in a fiduciary capacity on behalf of individuals, private organizations, taxing units, other governments and/or funds. At December 31, 2018, the carrying amount of the County's custodial funds was $7,156,522 and the bank balance was $5,628,274. Of the bank balance, $874,238 was covered by federal depository insurance at December 31, 2018. The remainder of the balance at December 31, 2018 was covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name.

3. COUNTY EMPLOYEES' RETIREMENT PLANS

A. County Employees' Retirement Fund (CERF)

The County Employees' Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

1) Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit

clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the Fund and the investment of the Fund are vested in a board of directors of eleven persons.

2) Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of $10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the Fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, by calling 1-877-632-2373, or by the following website, www.mocerf.org.

3) Funding Policy

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to the CERF. Further, a contribution to CERF of 2% of annual salary is required for eligible employees hired before February 2002, while a contribution of 6% of annual salary is required of employees hired after February 2002. During 2018, the County collected and remitted to CERF employee withholdings and fees collected of $132,157 for the year then ended.

B. Prosecuting Attorney Retirement Fund

In accordance with state statute Section 56.807, RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed $3,366 for the year ended December 31, 2018.

4. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

5. CLAIMS, COMMITMENT AND CONTINGENCIES

A. Compensated Absences

The County provides full-time employees with 3.33 hours per calendar month worked of compensated sick leave, or 40 hours in a one year period, up to a maximum of 30 days. Vacation time is accrued for every full-time employee, beginning with the first year of employment at a rate of ten days per year. Employees with two to eight years of employment earn 12 days per year of vacation leave; nine to 13 years of employment earn 15 days per year of vacation leave; 14 to 18 years of employment earn 18 days of vacation leave; and 19 or more years of employment earns 21 days per year. Any days not used by the end of the year (anniversary date of hire) will be lost. Upon separation (resignation, death or termination), an employee may receive compensation for unused accrued vacation leave to the date of termination.

B. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs. Accordingly, such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial and, therefore, no provision has been made in the accompanying financial statements for the potential refund of grant monies.

6. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to $2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

7. LONG TERM DEBT

The County had the following long-term debt outstanding as of December 31, 2018:

A. The County entered into an agreement with BNY Mellon for Certificates of Participation as of June 1, 2012. The agreement was entered to improve buildings and facilities of the County to reduce energy consumption or operating costs, including heating and air conditioning and energy efficient lighting. Principal payments are made annually in May and interest is paid semi-annually at 3%. The final payment is scheduled for May 2022. The schedule of remaining payments and interest is listed below:

Fiscal Year Ending December 31,	Principal	Interest	Total
2019	$ 144,000	$ 15,900	$ 159,900
2020	148,000	13,710	161,710
2021	153,000	7,005	160,005
2022	157,000	2,355	159,355
Totals	$ 602,000	$ 38,970	$ 640,970

B. The County entered into a two year, $99,500 capital lease for a John Deere 41 OL Loader Backhoe for the Road & Bridge Department on January 15, 2017. The lease is scheduled to be paid in annual payments of $26,418, which includes interest of 3.5%, with the final payment scheduled on March 15, 2019. The schedule of remaining payments and interest is listed below:

Fiscal Year Ending December 31,	Principal	Interest	Total
2019	25,511	907	26,418
Totals	$ 25,511	$ 907	$ 26,418

C. The County entered into a 60 month, $149,962 capital lease for an Airbus Vesta 911 telephone system on February 23, 2018. The lease is scheduled to be paid in monthly payments of $2,932, which includes interest of 6.6%, and a purchase option of $1. The first payment was made in August 2018 and the final payment is scheduled to be made in July 2023. The schedule of remaining payments is listed below:

Fiscal Year Ending December 31,	Principal	Interest	Total
2019	26,722	8,459	35,181
2020	28,546	6,635	35,181
2021	30,536	4,645	35,181
2022	32,644	2,537	35,181
2023	20,073	449	20,522
Totals	$ 138,521	$ 22,725	$ 161,246

The following schedule shows changes in long-term debt during the year ended December 31, 2018:

Description	Balance 12/31/2017	Additions	Payments	Balance 12/31/2018	Interest Paid
Certificates of Participation	$ 741,000	$ -	$ (139,000)	$ 602,000	$ 20,415
John Deere Backhoe	50,000	-	(24,489)	25,511	1,929
Airbus Vesta 911 System	-	149,962	11,441	138,521	3,218

8. SUBSEQUENT EVENTS

The County has evaluated events subsequent to December 31, 2018 to assess the need for potential recognition or disclosure in the financial statements. Such events were evaluated through August 9, 2019, the date the financial statements were available to be issued. Based upon this evaluation, it was determined that no subsequent events occurred that require recognition or additional disclosure in the financial statements.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the County Commission and
Officeholders of Harrison County, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Harrison County, Missouri which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2018, and the related Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the year then ended, and the related notes to the financial statements, which collectively comprise Harrison County, Missouri's basic financial statements and have issued our report thereon dated August 9, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Harrison County, Missouri's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Harrison County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Harrison County, Missouri's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Harrison County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed two instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and are described in the accompanying schedule of findings and recommendations as items 2018-001 and 2018-002.

Harrison County, Missouri's Responses to Findings

Harrison County, Missouri's responses to the findings identified in our audit are described in the accompanying schedule of findings and recommendations. Harrison County, Missouri's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

FINDINGS AND RECOMMENDATIONS

MATERIAL WEAKNESSES IN INTERNAL CONTROL

None

SIGNIFICANT INTERNAL CONTROL DEFICIENCIES

None

ITEMS OF NONCOMPLIANCE

2018-001: Budgetary Controls

Criteria: Missouri statutes prohibit approving expenditures in excess of budgeted amounts.

Condition: Actual expenditures exceeded budgeted expenditures for four funds in 2018. The detailed list of funds can be found in Note 1.D.10 to the financial statements.

Cause: Expenditures were approved in excess of budgeted amounts and the budgets were not amended.

Effect: Budgetary controls are significant to the proper management and custodianship of County funds. Compliance with statutory requirements related to budgets will improve controls over County funds and help maintain the integrity of the budget process.

Recommendation: We recommend the County strictly adhere to the authorized spending limits as documented in the adopted County budget or follow the appropriate procedures to amend the budget.

County's Response: The Harrison County Clerk, in office in 2018, retired at the end of that year. It was not brought to the attention of the County Commissioners that there was a necessity to amend the budget to actual expenditures; and, therefore, it was not done.

It is the intent of the current County Clerk to carefully watch each fund for comparison of budget to expenditures, and monitor the budget for areas that might be reaching the point of over-expenditure, thus avoiding this issue in the future.

This is going to be accomplished by running an expenditure report monthly, and presenting it to the Commissioners for review to ensure that no expenditures are in excess of the approved budget. Funds such as Domestic Violence and Leah Trullinger Endowment are funds that expenditures simply match the amount of revenue received, and the budget should be amended at the end of the year so the revenue and expenditures match instead of showing over-spent.

Auditor's Response: The response is appropriate to correct the concern.

2018-002: Absence of Investment Policy

Criteria: Section 30.950, RSMo, requires political subdivisions with authority to invest in instruments other than depository accounts at financial institutions to adopt a written investment policy.

Condition: The County has not adopted an investment policy as required by state statute.

Cause: The County Commission reached out to counsel to review and adopt a formal written policy, but had not followed through by the end of the fiscal year.

Effect: Adoption of a written investment policy commits a political subdivision to the principles of safety, liquidity, and yield (in that order) when managing public funds and to prohibit purchase of derivatives (either directly or through repurchase agreements), use of leveraging (through either reverse repurchase agreements or other methods), and use of public funds for speculation.

Recommendation: We recommend the County adopt an investment policy and review compliance with this policy at least annually as required by state statute.

County's Response: The County Commissioners have again contacted counsel to prepare an investment policy. The attorney has assured us he intends to have a policy ready for approval by the Commissioners by Monday, August 26, 2019.

Auditor's Response: The response is appropriate to correct the concern.

OTHER MATTERS

In planning and performing our audit of the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis, the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis, and the related Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis – All Governmental Funds as of and for the years ended December 31, 2018, we considered Harrison County's internal control in order to determine our auditing procedures for the purpose of expressing an opinion on the financial statements and not to provide assurance on internal control. We issued our report on our consideration of internal control over financial reporting dated August 9, 2019. However, during our audit we became aware of matters that are opportunities for strengthening internal controls.

Sheriff Account Negative Book Balance

The Sheriff Department account is being reconciled to a negative book balance of $27 each month. The Sheriff Department turns over the entire balance of funds collected each month to the Treasurer. When turning over the prior month's funds, the account is reconciled to negative book balance of $27. If the Sheriff Department did not receive at least $27 of receipts prior to the turnover, the account would be overdrawn. However, review of the 2018 bank statements did not show that the account had been overdrawn. We recommend that the Sheriff Department resolve the deficiency of $27 to return the book balance after the monthly turnover to $0.

Procurement Procedures

The Sheriff's office credit card procedures require a fuel log to be filled out when a purchase is made, including the mileage of the vehicle at the time of the purchase and the number of gallons purchased. The fuel logs are to be returned, along with the receipt, to the Sheriff's office and reconciled to the statements prior to submitting the bill to the County Clerk's office for payment. One of two MFA Oil Company fuel credit card payments that was tested during the audit did not include all accompanying fuel logs as required by the Sheriff's credit card policy. The total for transactions that did not include supporting documentation was $190. We recommend the Sheriff's office ensure that all fuel logs supporting fuel card charges are obtained and reconciled to the statements.

HARRISON COUNTY, MISSOURI
FOLLOW-UP ON PRIOR AUDIT FINDINGS FOR AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

In accordance with *Government Auditing Standards*, this section reports the auditor's follow-up on action taken by Harrison County, Missouri, on the applicable findings in the prior audit report issued for the years ended December 31, 2017 and 2016.

2017-001: There is a lack of segregation of duties over the cash receipt and cash disbursement processes in the Sheriff's office.

Status: Resolved. As a result of our prior audit recommendations, the Sheriff's office implemented additional oversight in December 2018.

2017-002: The County does not maintain records of each employee's current approved rate of pay.

Status: Resolved.

2017-003: The Sheriff's office did not maintain all accompanying fuel log reports as required by the Sheriff's credit card policy.

Status: Resolved. The condition of the finding in the current audit period did not rise to the level of a significant deficiency.

2017-004: Actual expenditures exceeded budgeted expenditures for three funds in 2016 and five funds in 2017. Additionally, the Senior Citizens' Tax Board budgeted a negative fund balance in 2017.

Status: Partially resolved. See finding 2018-001.

2017-005: The County has not adopted an investment policy as required by state statute.

Status: Repeated. See finding 2018-002.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the County Commission
and
Officeholders of Dunklin County, Missouri

The Office of the State Auditor contracted for an audit of Dunklin County's financial statements for the 2 years ended December 31, 2018, through the state Office of Administration, Division of Purchasing and Materials Management. The audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of this audit, performed by McBride, Lock & Associates, LLC, Certified Public Accountants, is attached.

Nicole Galloway, CPA
Missouri State Auditor

RECOMMENDATION SUMMARY

Recommendations in the contracted audit of Dunklin County

2018-001 Absence of Investment Policy	The County adopt an investment policy and review compliance with this policy at least annually as required by state statute.
Bank Reconciliations	The Prosecuting Attorney implement procedures to ensure that stale outstanding checks are followed up in a timely manner and removed from the bank reconciliation when it becomes apparent that checks will not be cashed. Checks that have remained unclaimed for more than three years are deemed abandoned and are required to be turned over immediately to the State Treasurer pursuant to state statutes. We also recommend that the Prosecuting Attorney ensure that bank reconciliations are accurate and properly reconciled between book and bank balance and that any issues are addressed in a timely manner.
Senate Bill 40 Board Collateral	The Senate Bill 40 Board ensure that all deposits of public funds in excess of FDIC deposit insurance are properly secured in compliance with state statutes.

INDEPENDENT AUDITOR'S REPORT

To the County Commission and
Officeholders of Dunklin County, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of Dunklin County, Missouri, which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2017 and 2018, and the related Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles prescribed or permitted by Missouri law. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1, the financial statements are prepared by Dunklin County, Missouri on the basis of the financial reporting provisions prescribed or permitted by Missouri Law, which is a basis of accounting other than accounting principles generally accepted in the United States of America.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the "Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles" paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Dunklin County, Missouri, as of December 31, 2017 and 2018, or the changes in financial position thereof for the years then ended.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of Dunklin County, Missouri, as of December 31, 2017 and 2018, and their respective cash receipts and disbursements, and budgetary results for the years then ended, in accordance with the financial reporting provisions prescribed or permitted by Missouri Law as described in Note 1.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards,* we also have issued our report dated August 15, 2019, on our consideration of Dunklin County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Dunklin County, Missouri's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

The accompanying Notes to the Financial Statements are an integral part of this statement.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Dunklin County, Missouri ("County") is governed by a three-member board of commissioners. In addition to the three board members, there are nine elected Constitutional Officers: Assessor, Circuit Clerk, Collector/Treasurer, Coroner, County Clerk, Prosecuting Attorney, Public Administrator, Recorder and Sheriff.

As discussed further in Note 1, these financial statements are presented using accounting practices prescribed or permitted by Missouri Law, which differ from accounting principles generally accepted in the United States of America, which would include all relevant Government Accounting Standards Board (GASB) pronouncements. The differences include use of a prescribed definition of the reporting entity and the cash basis of accounting.

A. Reporting Entity

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include the primary government of Dunklin County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise the County's legal entity.

In accordance with the regulatory basis of accounting, the financial statements of the County do not include the activity of the Circuit Court, which is part of the Missouri court system and is considered to be a state function, including the operations of the Circuit Clerk and all funds under their control.

B. Basis of Presentation

Governmental Funds – Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, net assets, revenues/receipts and expenditures/disbursements. The County's funds are governmental funds. Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds.

Fiduciary Funds – Fiduciary funds consist of custodial funds. Custodial funds account for assets held by the County, particularly the Collector/Treasurer, as an agent of individuals, private organizations, taxing units, other governments and/or funds. Budgets are not adopted for the County's custodial funds.

C. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

D. Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50, RSMo, the County's policy is to adopt a budget for each governmental fund.

2. On or before the second Monday in January, each elected officer and department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.

4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance. However, the County budgeted a deficit balance for the SEMO FTC Grant Fund in 2017.

5. A public hearing is conducted to obtain public comment on the budget. Prior to its approval by the County Commission, the budget document is available for public inspection, which usually takes place the third and fourth weeks of January.

6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.

7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by a formal vote of the Commission. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.

8. Budgets are prepared and adopted on the cash basis of accounting. A formal budget was not prepared for the Sheriff's Revolving Fund in 2017. This was an inactive fund with a leftover balance for several years that was closed out by transferring the remaining balance.

9. Adoption of a formal budget is required by law.

10. Section 50.740, RSMo prohibits expenditures in excess of the approved budgets. Actual expenditures exceeded budgeted amounts for the following funds:

	2018	2017
Emergency 911	✓	N/A
Prosecuting Attorney Bad Check	✓	✓
Dunklin County Law Enforcement Restitution	✓	N/A
County Clerk Discretionary	✓	✓
SEMO FTC Grant	✓	N/A
Senate Bill 40 Board	N/A	✓

E. Property taxes are based on the voter-approved tax levy applied to the real and personal assessed property values. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on September 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuations of the tangible taxable property, included within the County's boundaries for the calendar year 2018 and 2017, for purposes of taxation were:

	2018	2017
Real Estate	$ 205,498,800	$ 205,762,480
Personal Property	84,931,524	86,248,970
Railroad and Utilities	17,553,279	17,160,532
Total	$ 307,983,603	$ 309,171,982

For calendar years 2018 and 2017, the County Commission approved a tax levy per $100 of assessed valuation of tangible taxable property as follows:

	2018	2017
Senate Bill 40 Board	0.1000	0.1000

F. Cash Deposits and Cash Equivalents

Deposits and cash equivalents are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned from these balances is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents may include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, purchased at a price at or below par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at

third-party banking institutions. Details of these cash and cash equivalent balances are presented in Note 2.

G. Interfund Activity

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing. Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

2. CASH AND CASH EQUIVALENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the financial statements within the "Cash and Cash Equivalents" caption. Cash and cash equivalents includes deposits and short-term investments with maturities that are less than ninety days.

Custodial Credit Risk - Deposits – Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2018 and 2017, the carrying amounts of the County's deposits were $6,442,122 and $5,260,631, respectively, and the bank balances were $6,584,730 and $5,299,791, respectively. Of the bank balances, $500,000 and $500,000 were covered by federal depository insurance at December 31, 2018 and December 31, 2017, respectively. The remainder of the balances at December 31, 2018 and December 31, 2017 were covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name, except for $6,206 and $15,266 of Senate Bill 40 Board deposits that were unsecured as of December 31, 2018 and 2017, respectively.

At December 31, 2018 and 2017, County officeholders held, in addition to the cash and cash equivalents listed above, cash held in a fiduciary capacity on behalf of individuals, private organizations, taxing units, other governments and/or funds. At December 31, 2018 and 2017, the carrying amounts of the County's custodial funds were $11,744,729 and $9,151,964, respectively, and the bank balances were $12,365,698 and $9,655,726, respectively. Of the bank balances, $2,107,237 and $1,729,187 were covered by federal depository insurance at December 31, 2018 and December 31, 2017, respectively. The remainder of the balances at December 31, 2018 and December 31, 2017 were covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name.

3. COUNTY EMPLOYEES' RETIREMENT PLANS

A. Missouri Local Government Employees Retirement System (LAGERS)

1) Plan Description

Dunklin County participates in the Missouri Local Government Employees Retirement

System (LAGERS), an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for local government entities in Missouri. LAGERS is a defined benefit pension plan which provides retirement, disability, and death benefits to plan members and beneficiaries. LAGERS was created and is governed by statute, Section 70.600-70.755, RSMo. As such, it is the system's responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401 (a) and is tax exempt.

The Missouri Local Government Employees Retirement System issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to LAGERS, P.O. Box 1665, Jefferson City, Missouri 65102 or by calling 1-800-447-4334, or by the following website, www.molagers.org.

2) Pension Benefits

Benefits are available to all full-time employees working in a LAGERS covered department. Benefits vest when an employee earns five years (60 months) of service credit in the system. Normal retirement age is 60 (General) or 55 (Police), and early retirement is 55 (General) and 50 (Police). Benefits are paid out using a formula that is based on the employee's final average salary and amount of credited service time.

3) Funding Policy

Full-time employees of Dunklin County do not contribute to the pension plan. The June 30th statutorily required contribution rates were 3.9% and 4.8% (General), and 1.6% and .6% (Police) of annual covered payroll for 2018 and 2017, respectively. The contribution requirements of plan members are determined by the governing body of the political subdivision. The contribution provisions of the political subdivision are established by state statute. For the years ended December 31, 2018 and 2017, the County contributed $196,319 and $184,828 to LAGERS.

4) Funding Status

As of February 28, 2018, the actuarial value of plan assets exceeded the accrued liabilities of the plan by $533,956 for the General division and $244,139 for the Police division. As of February 29, 2017, the actuarial value of assets exceeded the accrued liabilities of the plan by $472,287 for the General division and $217,675 for the Police division. These net pension assets are not recognized in the cash basis financial statements of the County.

B. County Employees' Retirement Fund (CERF)

The County Employees' Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

1) Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan

covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the Fund and the investment of the Fund are vested in a board of directors of eleven persons.

2) Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of $10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the Fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, by calling 1-877-632-2373, or by the following website, www.mocerf.org.

3) Funding Policy

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to the CERF. Further, all participants hired on or after February 24, 2002 are required to contribute an additional 4% of their gross compensation to CERF, starting January 1, 2003. An active LAGERS participant who was employed with the County prior to February 24, 2002, is not required to make contributions. The County has elected not to make contributions on behalf of employees. During 2018 and 2017, the County collected and remitted to CERF employee withholdings and fees collected of $258,851 and $171,442, respectively, for the years then ended.

C. Prosecuting Attorney Retirement Fund

In accordance with state statute Section 56.807, RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed $11,628 and $11,628, respectively, for the years ended December 31, 2018 and 2017.

4. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

5. CLAIMS, COMMITMENT AND CONTINGENCIES

A. Compensated Absences

The County provides regular full-time employees with vacation time after they have completed a year of service. Vacation time accrues at the rate of one week per completed year of employment annually, for the first two years. After six years, vacation time will accrue at one additional day per completed year with a maximum of three weeks of vacation time after ten years of employment. Vacation time must be used in the calendar year earned and may not be accumulated. An employee terminating from County service shall be allowed any earned and unused vacation time, either in time off after notice of termination, or salary. Each full-time employee earns one day of sick leave per month, up to a maximum of 30 days. Employees are not compensated for unused sick leave at termination.

B. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs. Accordingly, such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial and, therefore, no provision has been made in the accompanying financial statements for the potential refund of grant monies.

C. Litigation

The County was involved in pending litigation as of the audit report date. The County's management and legal counsel anticipate that potential claims, if any, against the County resulting from such litigation would not have a material effect on the financial position of the County.

6. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to $2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

7. LONG-TERM DEBT

A. On August 30, 2012, the County completed an advanced refunding of the Series 2004 Certificates of Participation delivered in the original principal amount of $9,260,000 for expanding, improving, furnishing and equipping the County's Justice Center. These Series 2012A Certificates are for $9,985,000 with an interest rate varying from 2.375% to 3.65% and a maturity date of December 1, 2030. Future payments on the Certificates are as follows:

Fiscal Year Ending December 31,	Principal	Interest	Total
2019	$ 580,000	$ 245,899	$ 825,899
2020	595,000	232,124	827,124
2021	610,000	216,505	826,505
2022	630,000	198,205	828,205
2023	650,000	179,305	829,305
2024-2028	3,580,000	556,575	4,136,575
2029-2030	935,000	39,237	974,237
Totals	$ 7,580,000	$ 1,667,850	$ 9,247,850

B. On January 10, 2008, the County entered into a promissory note with the Missouri Department of Natural Resources for the replacement of windows. The original amount of the loan was $22,531, with an interest rate of 0% and principal payments due February 1 and August 1 over a period of 10 years. The final payment was made during 2018.

The following schedule shows changes in long-term debt during the year ended December 31, 2017:

Description	Balance 12/31/2016	Additions	Payments	Balance 12/31/2017	Interest Paid
Series 2012A COPS	$ 8,695,000	$ -	$ (550,000)	$ 8,145,000	$ 279,348
DNR Loan	3,451	-	2,120	1,331	-

The following schedule shows changes in long-term debt during the year ended December 31, 2018:

Description	Balance 12/31/2017	Additions	Payments	Balance 12/31/2018	Interest Paid
Series 2012A COPS	$ 8,145,000	$ -	$ (565,000)	$ 7,580,000	$ 262,848
DNR Loan	1,331	-	1,331	-	-

8. CHANGE IN REPORTING ENTITY

As of January 1, 2017, the County has changed its definition of the reporting entity to exclude the Principal County Schools, Schools, Financial Institution Tax, and Surplus Certificate Bids Funds. The effect of this change was to decrease the January 1, 2017 cash and cash equivalents balance by $176,981.

9. SUBSEQUENT EVENTS

The County has evaluated events subsequent to December 31, 2018 to assess the need for potential recognition or disclosure in the financial statements. Such events were evaluated through August 15, 2019, the date the financial statements were available to be issued. Based upon this evaluation, it was determined that no subsequent events occurred that require recognition or disclosure in the financial statements.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the County Commission and
Officeholders of Dunklin County, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Dunklin County, Missouri which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2017 and 2018, and the related Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the years then ended, and the related notes to the financial statements, which collectively comprise Dunklin County, Missouri's basic financial statements and have issued our report thereon dated August 15, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Dunklin County, Missouri's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Dunklin County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Dunklin County, Missouri's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Dunklin County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed one instance of noncompliance or other matters that is required to be reported under *Government Auditing Standards* and is described in the accompanying schedule of findings and recommendations as item 2018-001.

Dunklin County, Missouri's Response to Finding

Dunklin County, Missouri's response to the finding identified in our audit is described in the accompanying schedule of findings and recommendations. Dunklin County, Missouri's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

FINDINGS AND RECOMMENDATIONS

MATERIAL WEAKNESSES IN INTERNAL CONTROL

None

SIGNIFICANT INTERNAL CONTROL DEFICIENCIES

None

ITEMS OF NONCOMPLIANCE

2018-001: Absence of Investment Policy

Criteria: Section 30.950, RSMo, requires political subdivisions with authority to invest in instruments other than depository accounts at financial institutions to adopt a written investment policy.

Condition: The County has not adopted an investment policy as required by state statute.

Cause: The County was unaware of the requirement to adopt a written investment policy.

Effect: Adoption of a written investment policy commits a political subdivision to the principles of safety, liquidity, and yield (in that order) when managing public funds and to prohibit purchase of derivatives (either directly or through repurchase agreements), use of leveraging (through either reverse repurchase agreements or other methods), and use of public funds for speculation.

Recommendation: We recommend the County adopt an investment policy and review compliance with this policy at least annually as required by state statute.

County's Response: The County adopted an investment policy on August 19, 2019.

Auditor's Response: The response is appropriate to correct the concern.

OTHER MATTERS

In planning and performing our audit of the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis, the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis, and the Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis – All Governmental Funds as of and for the years ended December 31, 2017 and 2018, we considered Dunklin County's internal control in order to determine our auditing procedures for the purpose of expressing an opinion on the financial statements and not to provide assurance on internal control. We issued our report on our consideration of internal control over financial reporting dated August 15, 2019. However, during our audit we became aware of matters that are opportunities for strengthening internal controls.

Bank Reconciliations

The bank reconciliation for the Prosecuting Attorney's account at December 31, 2017 and 2018 listed outstanding checks greater than 120 days old, including checks from as far back as 2003, totaling $38,642 and $41,372, respectively. Additionally, the December 31, 2017 bank reconciliation showed a negative book balance of $598. The bank reconciliations for March, April, July and November 2017 and May and July 2018 also had negative book balances.

We recommend that the Prosecuting Attorney implement procedures to ensure that stale outstanding checks are followed up in a timely manner and removed from the bank reconciliation when it becomes apparent that checks will not be cashed. Checks that have remained unclaimed for more than three years are deemed abandoned and are required to be turned over immediately to the State Treasurer pursuant to state statutes. We also recommend that the Prosecuting Attorney ensure that bank reconciliations are accurate and properly reconciled between book and bank balance and that any issues are addressed in a timely manner.

Senate Bill 40 Board Collateral

The Senate Bill 40 Board held deposits at Senath State Bank in excess of FDIC deposit insurance that were not adequately covered by pledged collateral at December 31, 2018 and 2017. At December 31, 2018, the bank balance of the deposits was held by the Board at Senath State Bank was $256,206, of which $250,000 was covered by FDIC insurance, leaving a balance of $6,206 of unsecured deposits. At December 31, 2017, the bank balance of the deposits held by the Board at Senath State Bank was $265,266, of which $250,000 was covered by FDIC insurance, leaving a balance of $15,266 of unsecured deposits. There was no additional pledged collateral on the unsecured deposits at December 31, 2018 and 2017.

We recommend that the Senate Bill 40 Board ensure that all deposits of public funds in excess of FDIC deposit insurance are properly secured in compliance with state statutes.

DUNKLIN COUNTY, MISSOURI
FOLLOW-UP ON PRIOR AUDIT FINDINGS FOR AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

In accordance with *Government Auditing Standards*, this section reports the auditor's follow-up on action taken by Dunklin County, Missouri, on the applicable findings in the prior audit report issued for the years ended December 31, 2016 and 2015.

2016-001: Documentation of the County's internal controls has not been prepared, by all offices.

Status: Resolved.

2016-002: There is no formal fraud risk assessment in place, for all offices.

Status: Resolved.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the County Commission
and
Officeholders of DeKalb County, Missouri

The Office of the State Auditor contracted for an audit of DeKalb County's financial statements for the 2 years ended December 31, 2018, through the state Office of Administration, Division of Purchasing and Materials Management. The audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of this audit, performed by McBride, Lock & Associates, LLC, Certified Public Accountants, is attached.

Missouri State Auditor

RECOMMENDATION SUMMARY

Recommendations in the contracted audit of DeKalb County

2018-001 Senior Services Board Controls	The Senior Services Board design, implement and maintain internal controls adequate to ensure the timely completion of bank reconciliations.
2018-002 Budgetary Compliance	The County ensure compliance with state statutes by refraining from approving expenditures in excess of budgeted amounts or available funds. In the event that the originally adopted budget is inadequate to finance the current-year unforeseen expenditures, budgetary amendments should be discussed in a public meeting and formally adopted by the County Commission. Also, the County should ensure that budgeted expenditures do not exceed the beginning balance plus anticipated revenues for any County fund.
2018-003 Investment Policy	The County adopt an investment policy that meets the requirements of state statutes and review compliance with this policy at least annually.
2018-004 Procurement Procedures	The County solicit bids in accordance with Missouri state law and maintain bid documentation in conjunction with associated disbursement records. In cases in which state statutes would normally dictate that bidding is necessary but is not performed, this reasoning should be included in the Commission minutes or elsewhere.

INDEPENDENT AUDITOR'S REPORT

To the County Commission and
Officeholders of DeKalb County, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of DeKalb County, Missouri, which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2017 and 2018, and the related Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles prescribed or permitted by Missouri law. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1, the financial statements are prepared by DeKalb County, Missouri on the basis of the financial reporting provisions prescribed or permitted by Missouri Law, which is a basis of accounting other than accounting principles generally accepted in the United States of America.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the "Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles" paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of DeKalb County, Missouri, as of December 31, 2017 and 2018, or the changes in financial position thereof for the years then ended.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of DeKalb County, Missouri, as of December 31, 2017 and 2018, and their respective cash receipts and disbursements, and budgetary results for the years then ended, in accordance with the financial reporting provisions prescribed or permitted by Missouri Law as described in Note 1.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we also have issued our report dated August 9, 2019, on our consideration of DeKalb County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of DeKalb County, Missouri's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

The accompanying Notes to the Financial Statements are an integral part of this statement.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

DeKalb County, Missouri ("County") is governed by a three-member board of commissioners. In addition to the three board members, there are nine elected Constitutional Officers: Assessor, Circuit Clerk, Collector/Treasurer, Coroner, County Clerk, Prosecuting Attorney, Public Administrator, Recorder and Sheriff.

As discussed further in Note 1, these financial statements are presented using accounting practices prescribed or permitted by Missouri Law, which differ from accounting principles generally accepted in the United States of America, which would include all relevant Government Accounting Standards Board (GASB) pronouncements. The differences include use of a prescribed definition of the reporting entity and the cash basis of accounting.

A. Reporting Entity

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include the primary government of DeKalb County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise the County's legal entity.

In accordance with the regulatory basis of accounting, the financial statements of the County do not include the activity of the Circuit Court, which is part of the Missouri court system and is considered to be a state function, including the operations of the Circuit Clerk and all funds under their control.

B. Basis of Presentation

Governmental Funds – Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, net assets, revenues/receipts and expenditures/disbursements. The County's funds are governmental funds. Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds.

Fiduciary Funds – Fiduciary funds consist of custodial funds. Custodial funds account for assets held by the County, particularly the Collector/Treasurer, as an agent of individuals, private organizations, taxing units, other governments and/or funds. Budgets are not adopted for the County's custodial funds.

C. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

D. Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50, RSMo, the County's policy is to adopt a budget for each governmental fund.

2. On or before the second Monday in January, each elected officer and department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.

4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance. However, the County budgeted a deficit ending fund balance for the Local Use Tax Fund in 2018.

5. A public hearing is conducted to obtain public comment on the budget. Prior to its approval by the County Commission, the budget document is available for public inspection, which usually takes place the third and fourth weeks of January.

6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.

7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by a formal vote of the Commission. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.

8. Budgets are prepared and adopted on the cash basis of accounting.

9. Adoption of a formal budget is required by law.

10. Section 50.740, RSMo prohibits expenditures in excess of the approved budgets. Actual expenditures exceeded budgeted amounts for the following funds:

	2018	2017
Special Road & Bridge	N/A	✓
Collector Maintenance	N/A	✓
Election	✓	N/A

E. Property taxes are based on the voter-approved tax levy applied to the real and personal assessed property values. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on November 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuations of the tangible taxable property, included within the County's boundaries for the calendar year 2018 and 2017, for purposes of taxation were:

	2018	2017
Real Estate	$ 154,224,060	$ 153,784,620
Personal Property	36,457,141	34,733,867
Railroad and Utilities	14,601,214	14,302,364
Total	$ 205,282,415	$ 202,820,851

For calendar years 2018 and 2017, the County Commission approved a tax levy per $100 of assessed valuation of tangible taxable property as follows:

	2018	2017
General Revenue	$ 0.1732	$ 0.1732
Senate Bill 40 Board	0.0875	0.0867
Senior Services Board	0.0292	0.0289

F. Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned from these balances is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents may include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, purchased at a price at or below par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash and investment balances are presented in Note 2.

G. Interfund Activity

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing. Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

2. CASH AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the financial statements within the "Cash and Investments" caption. Cash includes deposits and short-term investments with maturities that are less than ninety days. Investments consist of certificates of deposit with original maturities that are greater than ninety days.

Custodial Credit Risk - Deposits – Custodial credit risk is the risk that in the event of a bank failure, a government’s deposits may not be returned to it. Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2018 and 2017, the carrying amounts of the County’s deposits were $4,506,523 and $4,050,757, respectively, and the bank balances were $4,731,236 and $4,330,539, respectively. Of the bank balances, $845,270 and $789,995 were covered by federal depository insurance at December 31, 2018 and December 31, 2017, respectively. The remainder of the balances at December 31, 2018 and December 31, 2017 were covered by collateral held at the Federal Reserve Bank and the County’s safekeeping bank agent in the County’s name or by a line of credit held by the County or by its agent in the County's name.

At December 31, 2018 and 2017, County officeholders held, in addition to the cash and investments listed above, cash held in a fiduciary capacity on behalf of individuals, private organizations, taxing units, other governments and/or funds. At December 31, 2018 and 2017, the carrying amounts of the County’s custodial funds were $11,487,732 and $10,813,974, respectively, and the bank balances were $8,587,773 and $10,029,430, respectively. Of the bank balances, $440,774 and $468,547 were covered by federal depository insurance at December 31,

2018 and December 31, 2017, respectively. The remainder of the balances at December 31, 2018 and December 31, 2017 were covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name.

3. COUNTY EMPLOYEES' RETIREMENT PLANS

A. Missouri Local Government Employees Retirement System (LAGERS)

1) Plan Description

DeKalb County participates in the Missouri Local Government Employees Retirement System (LAGERS), an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for local government entities in Missouri. LAGERS is a defined benefit pension plan which provides retirement, disability, and death benefits to plan members and beneficiaries. LAGERS was created and is governed by statute, Section 70.600-70.755, RSMo. As such, it is the system's responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401 (a) and is tax exempt.

The Missouri Local Government Employees Retirement System issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to LAGERS, P.O. Box 1665, Jefferson City, Missouri 65102 or by calling 1-800-447-4334, or by the following website, www.molagers.org.

2) Pension Benefits

Benefits are available to all full-time employees working in a LAGERS covered department. Benefits vest when an employee earns five years (60 months) of service credit in the system. Normal retirement age is 60 (General) or 55 (Police), and early retirement is 55 (General) and 50 (Police). Benefits are paid out using a formula that is based on the employee's final average salary and amount of credited service time.

3) Funding Policy

Full-time employees of DeKalb County do not contribute to the pension plan. The June 30th statutorily required contribution rates were 5.9% and 7.0% (General), and 3.8% and 4.8% (Police) of annual covered payroll for 2018 and 2017 respectively. The contribution requirements of plan members are determined by the governing body of the political subdivision. The contribution provisions of the political subdivision are established by state statute. For the years ended December 31, 2018 and 2017, the County contributed $55,725 and $61,158 to LAGERS.

4) Funding Status

As of February 28, 2018, the actuarial value of the assets of the plan exceeded the accrued liabilities by $110,428 and $94,190 for the General and Police divisions, respectively. As

of February 28, 2017, the actuarial value of assets of the plan exceeded the accrued liabilities by $166,295 and $100,224 for the General and Police divisions, respectively. These net pension liabilities are not recognized in the cash basis financial statements of the County.

B. County Employees' Retirement Fund (CERF)

The County Employees' Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

1) Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the Fund and the investment of the Fund are vested in a board of directors of eleven persons.

2) Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of $10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the Fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, by calling 1-877-632-2373, or by the following website, www.mocerf.org.

3) Funding Policy

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to the CERF. Further, all participants hired on or after February 24, 2002 are required to contribute an additional 4% of their gross compensation

to CERF, starting January 1, 2003. An active LAGERS participant who was employed with the County prior to February 24, 2002, is not required to make contributions. During 2018 and 2017, the County collected and remitted to CERF employee withholdings and fees collected of $114,185 and $98,355, respectively, for the years then ended.

C. Defined Contribution and Deferred Contribution Plans

1) Plan Description

DeKalb County offers employees the opportunity to participate in the CERF defined contribution plan and Internal Revenue Code (IRC) Section 457 deferred compensation plan. The plan's provisions and contribution requirements were established by and may be amended only by the Missouri General Assembly. Pension plan members are eligible to participate.

2) Contributions

Employees elect a contribution level, subject to IRC limitations. The CERF Board of Directors may provide limited matching contributions, with pension plan trust funds, to the defined contribution plan accounts.

3) Administration

Maintenance of individual member accounts and custody of assets have been contracted to a third-party administrator and investment custodian, respectively. The County sends members contributions directly to the third-party administrator. Members may select from several options for investing their contributions and their share of matching contributions. During 2018 and 2017, the County collected and remitted to the Section 457 Plan third-party administrator employee withholdings collected of $21,838 and $17,144, respectively, for the years then ended.

D. Prosecuting Attorney Retirement Fund

In accordance with state statute Section 56.807, RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed $3,668 and $3,366, respectively, for the years ended December 31, 2018 and 2017.

4. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

5. CLAIMS, COMMITMENT AND CONTINGENCIES

A. Compensated Absences

The County provides full time employees with up to 90 days of sick time – to accrue at one and one quarter days per complete calendar month of employment. Unused sick leave benefits will not be paid to employees upon termination of employment. Employees with one to nine year(s) of service accumulate annual leave at one and one quarter days per month, up to a maximum of 15 days. Employees with 10 to 14 years of service accumulate annual leave at one and one half days per month, up to a maximum of 20 days. Employees with 15 or more years of service accumulate annual leave at one and three quarters days per month, up to a maximum of 25 days. Annual leave may be carried forward from year to year up to the maximum amounts noted above. Upon termination of employment, employees will be paid for unused annual leave time that has been earned through the last day of work.

B. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs. Accordingly, such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial and, therefore, no provision has been made in the accompanying financial statements for the potential refund of grant monies.

6. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body. The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections which are intended to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to $2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

7. LONG-TERM DEBT

On August 8, 2013, the County entered into an agreement with UMB Bank for Certificates of Participation to make improvements to the Courthouse in the amount of $1,355,000 to be paid in

full by March 1, 2028. There are four principal balances, $245,000; $265,000; $290,000, and $444,000, with interest rates of 2.25%; 2.75%; 3.25%, and 4.50%, respectively. Payments are due on March 1 and September 1 of each year.

Fiscal Year Ending December 31,	Principal	Interest	Total
2019	90,000	38,112	128,112
2020	90,000	35,637	125,637
2021	95,000	32,856	127,856
2022	95,000	29,769	124,769
2023	100,000	26,600	126,600
2024-2028	555,000	64,238	619,238
Totals	$ 1,025,000	$ 227,212	$ 1,252,212

The following schedule shows changes in long-term debt during the year ended December 31, 2017:

Description	Balance 12/31/2016	Additions	Payments	Balance 12/31/2017	Interest Paid
Courthouse Loan	$1,195,000	$ -	(85,000)	$1,110,000	$ 42,644

The following schedule shows changes in long-term debt during the year ended December 31, 2018:

Description	Balance 12/31/2017	Additions	Payments	Balance 12/31/2018	Interest Paid
Courthouse Loan	$1,110,000	$ -	(85,000)	$1,025,000	$ 40,519

8. COOPERATIVE VENTURES

A. In October 1992, the Counties of Andrew, Clinton, Caldwell and DeKalb and the City of Cameron agree to establish a venture called ACCD 911, for the purpose of providing 911 emergency telephone services. Pursuant to Section 190.300, RSMo, the voters of the respective government entities involved approved a 15% Emergency Telephone System Tax on local telephone charges to fund the services. Pursuant to the agreement, the ACCD Regional Enhanced 911 System Board was created to be the governing body of the ACCD 911, authorized to enter into contracts, employ staff, hold/dispose of property, and incur debt, with only the ACCD 911 Venture being obligated for the debt incurred.

B. In May 2005, the County, in conjunction with Daviess County, created the Daviess-DeKalb Regional Jail District to house prisoners for the counties as well as other governments on contractual basis. A four-member commission which governs the District is comprised of the presiding commissioners and sheriffs from the two counties. In November 2005, the District voters approved a one-half cent sales tax to provide regional jail services and court facilities and equipment for the two counties. Also in November 2005, the District assumed operations at the jail facility. The counties will share equally in any net operating losses of the regional jail. Neither Daviess County nor DeKalb County is obligated for debt incurred by the District.

9. CHANGE IN BASIS OF ACCOUNTING

DeKalb County, Missouri, has changed its basis of accounting from presenting its financial statements in accordance with GASB 34 for 2013 and 2014 on the cash basis of accounting to the regulatory basis of accounting as prescribed or permitted in accordance with state law. The accounting change had no effect on the beginning cash balances of county funds.

10. RELATED PARTIES

The Public Administrator is the vice president/banking center manager at Bank Midwest's Cameron Branch, where a majority of ward bank accounts are held.

11. SUBSEQUENT EVENTS

The County has evaluated events subsequent to December 31, 2018 to assess the need for potential recognition or disclosure in the financial statements. Such events were evaluated through August 9, 2019, the date the financial statements were available to be issued.

The ACCD 911 Board, which oversees emergency dispatching in the four-county region encompassing Andrew, Caldwell, Clinton and DeKalb, awarded $513,753 to AVTEC in 2018 to upgrade equipment consoles. $392,523 was paid on April 12, 2019, and $108,396 has been invoiced but not paid due to dispute. Additionally, in April 2019, voters in all four counties approved a $1 fee to be charged to the provider of any device capable of contacting 911, and it is anticipated fees will be collected beginning in 2020. The charge was implemented to offset declining landline revenues.

The County budgeted $360,000 for courthouse upkeep and repairs in 2019 due to water damage from a leaking roof and foundation settlement. On March 28, 2019, the County Commission executed a $208,000 contract with Sommers Construction to replace the courthouse roof.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the County Commission and
Officeholders of DeKalb County, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of DeKalb County, Missouri which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2017 and 2018, and the related Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the years then ended, and the related notes to the financial statements, which collectively comprise DeKalb County, Missouri's basic financial statements and have issued our report thereon dated August 9, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered DeKalb County, Missouri's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of DeKalb County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of DeKalb County, Missouri's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify a certain deficiency in internal control described in the accompanying schedule of findings and recommendations as item 2018-001 that we consider to be a significant deficiency.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether DeKalb County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed three instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and are described in the accompanying schedule of findings and recommendations as items 2018-002, 2018-003, and 2018-004.

DeKalb County, Missouri's Responses to Findings

DeKalb County, Missouri's responses to the findings identified in our audit are described in the accompanying schedule of findings and recommendations. DeKalb County, Missouri's responses was were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

FINDINGS AND RECOMMENDATIONS

MATERIAL WEAKNESSES IN INTERNAL CONTROL

None

SIGNIFICANT INTERNAL CONTROL DEFICIENCIES

2018-001: Senior Services Board Controls

Criteria: A proper system of internal control requires timely completion of reconciliations between the accounting system and bank records.

Condition: No bank reconciliations were prepared by the Senior Services Board.

Cause: The Senior Services Board secretary assumed her duties in 2017 and said she was unaware bank reconciliations needed to be performed.

Effect: Without timely, accurate bank reconciliations, the risk of misstatement of the Senior Services Board's financial statements is heightened.

Recommendation: We recommend the Senior Services Board design, implement and maintain internal controls adequate to ensure the timely completion of bank reconciliations.

County Response: The Senior Services Board will comply with the recommendation of timely bank reconciliations.

Auditor's Evaluation: The response is appropriate to correct the concern.

ITEMS OF NONCOMPLIANCE

2018-002: Budgetary Compliance

Criteria: County budget law in the state statutes states that County budgets should present a complete and accurate picture of the County's financial position. This requirement ensures expenditures are subject to public scrutiny as provided by their inclusion in a budget adopted or amended at a public meeting. The statutes also prohibit budgeting expenditures in excess of the beginning balance plus estimated revenues for any County fund.

Condition: Actual expenditures exceeded budgeted expenditures for seven funds in 2018 and 11 funds in 2017. Additionally, the County budgeted a negative ending balance for the Local Use Tax Fund in 2018.

Cause: The County did not amend budgets as prescribed by state statutes and budgeted for a deficit balance in one fund.

Effect: In order to ensure the integrity of the budgeting process, the budget documents must present a complete and accurate financial position for each County fund and the spending limits should be adhered to.

Recommendation: We recommend the County ensure compliance with state statutes by refraining from approving expenditures in excess of budgeted amounts or available funds. In the event that the originally adopted budget is inadequate to finance the current-year unforeseen expenditures, budgetary amendments should be discussed in a public meeting and formally adopted by the County Commission. Also, the County should ensure that budgeted expenditures do not exceed the beginning balance plus anticipated revenues for any County fund.

County Response: The County will take the proper steps to be in compliance with our original budget. If unforeseen expenditures occur the budget will be amended with the proper proceedings to do so.

Auditor's Evaluation: The response is appropriate to correct the concern.

2018-003: Investment Policy

Criteria: Section 30.950, RSMo requires political subdivisions that manage public funds to adopt an investment policy that prioritizes safety, liquidity and yield; prohibits derivatives, leveraging, and speculation with public funds; and requires collateralization of deposits.

Condition: The County's investment policy states "All excess monies from the county will be invested in CD's."

Cause: The Commission adopted a policy that does not sufficiently addresses Section 30.950, RSMo.

Effect: The County investment policy does not ensure investment direction in accordance with state statute.

Recommendation: We recommend the County adopt an investment policy that meets the requirements of state statutes and review compliance with this policy at least annually.

County Response: The County will adopt an investment policy that meets the requirements of state statutes to replace the one that is currently being used.

Auditor's Evaluation: The response is appropriate to correct the concern.

2018-004: Procurement Procedures

Criteria: Section 50.660, RSMo states that, "All contracts and purchases shall be let to the lowest and best bidder after due opportunity for competition, including advertising the proposed letting in a newspaper in the county or township with a circulation of at least five hundred copies per issue, if there is one, except that the advertising is not required in case of contracts or purchases involving an expenditure of less than six thousand dollars. It is not necessary to obtain bids on any purchase in the amount of four thousand five hundred dollars or less made from any one person, firm or corporation during any period of ninety days…." Section 50.783.1, RSMo states that, "The county commission

may waive the requirement of competitive bids or proposals for supplies when the commission has determined in writing and entered into the commission minutes that there is only a single feasible source for the supplies."

Condition: Our audit noted several transactions for which bidding would be expected to have been performed but neither competitive bids nor sole source justification could be provided. Our audit noted five such transactions totaling $136,443.

Cause: The commission did not obtain competitive bids or provide sole source justification in the minutes.

Effect: Transactions were procured in violation of state law in a manner that does not promote maximum open market competition.

Recommendation: We recommend the County solicit bids in accordance with Missouri state law and maintain bid documentation in conjunction with associated disbursement records. In cases in which state statutes would normally dictate that bidding is necessary but is not performed, this reasoning should be included in the Commission minutes or elsewhere.

County Response: The County will solicit bids or will provide proper documentation to justify sole source reasoning in the minutes. Any reasoning for not taking bids will be documented in the minutes.

Auditor's Evaluation: The response is appropriate to correct the concern.

DEKALB COUNTY, MISSOURI
FOLLOW-UP ON PRIOR AUDIT FINDINGS FOR AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

In accordance with *Government Auditing Standards*, this section reports the auditor's follow-up on action taken by DeKalb County, Missouri, on the applicable findings in the prior audit report issued for the years ended December 31, 2014 and 2013.

1. During review of the Senior Services Board bank accounts and check register, which serves as the general ledger, it was noted that there were no formal bank reconciliations performed. Additionally, it was noted that there were deposits and interest that were not recorded in the check register. There was also a deposit recorded in check register that was not able to be traced to bank statements.

   Status: Partially resolved. See finding 2018-001.

2. The financial statements of the County as presented in the annual budget document present transfers between funds. The recorded transfers in did not equal the recorded transfers out in either 2014 or 2013.

   Status: Resolved.

3. The ACCD 911 Board did not report certificates of deposits in the budget or published financial statements.

   Status: Resolved.

4. The County did not maintain proper documentation of employee pay rates to support the amount paid to each employee. Additionally, timesheets were noted that did not have a supervisor signature.

   Status: Resolved.

5. Out of twenty five transactions tested for each year, eight voucher packets in 2013 and seven voucher packets in 2014 were not approved or initialed by the officeholder as required by the County's internal control procedures. Additionally, we noted one instance where the rate paid by the County for rock did not agree to the agreed upon rate per the contract with the vendor. We also noted that there was no invoice or other support for the purchase of equipment in the amount of $30,500 in the Special Road and Bridge fund during 2013.

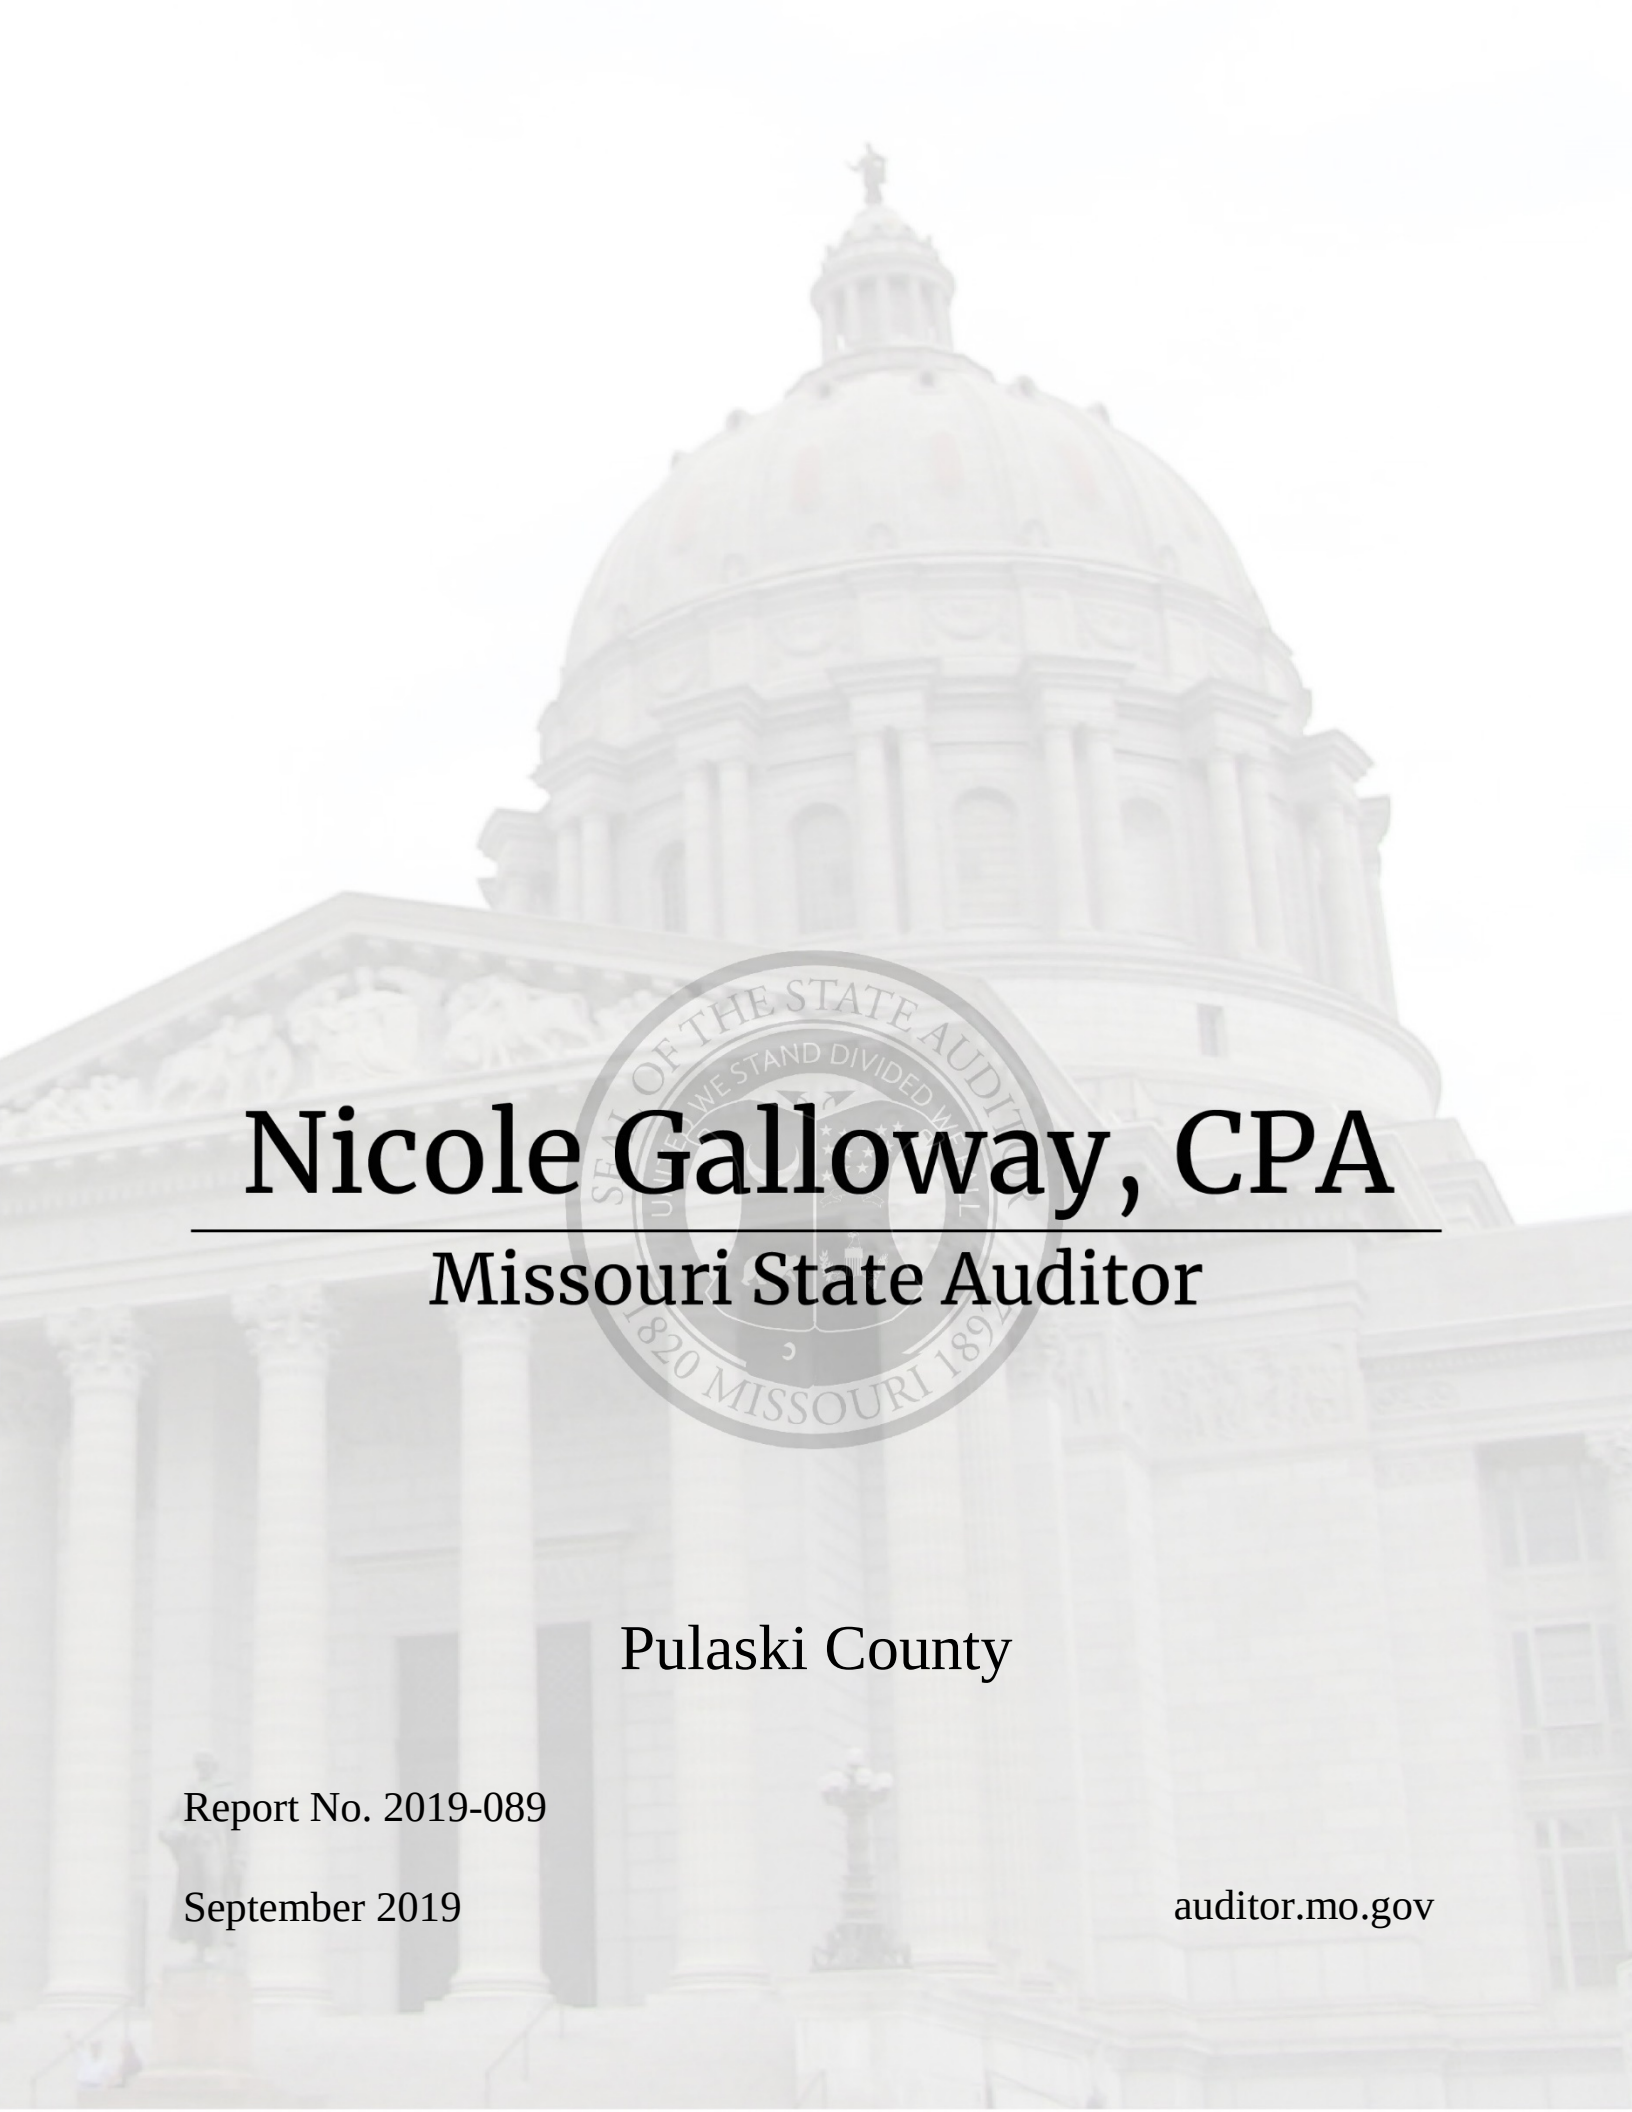
   Status: Resolved.

6. The County did not adopt a formal budget for the Sheriff-IPDS fund in 2014. Actual expenditures exceeded budgeted expenditures for nine funds in 2013 and 2014.

   Status: Repeated. See finding 2018-002.

7. The County did not consistently solicit bids and/or retain bid documentation for various purchases of goods and services.

   Status: Repeated. See finding 2018-004.



Nicole Galloway, CPA

Missouri State Auditor

Pulaski County

Report No. 2019-089

September 2019

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of Pulaski County

County Controls and Procedures	The county lacks adequate controls and procedures to account for fuel used by the road and bridge department and County Assessor's office. Some budgets for county funds do not reasonably reflect the anticipated financial activity and cash balances, reducing the effectiveness of the budget as a tool for monitoring or controlling disbursements. For many county funds, including the General Revenue Fund and the Law Enforcement Sales Tax Fund, budgeted disbursements equal available resources, resulting in a projected ending cash balances of $0. Actual disbursements were significantly less than budgeted for the General Revenue Fund and Law Enforcement Sales Tax Fund in 2018.
Sheriff's Controls and Procedures	The bookkeeper does not deposit civil paper service fees until the papers are served, and procedures have not been established to routinely follow-up on outstanding checks.
Prosecuting Attorney's Controls and Procedures	The Prosecuting Attorney's office does not deposit receipts timely, and procedures have not been established to routinely follow-up on outstanding checks.
Additional Comments	Because counties are managed by several separately-elected individuals, an audit finding made with respect to one office does not necessarily apply to the operations in another office. The overall rating assigned to the county is intended to reflect the performance of the county as a whole. It does not indicate the performance of any one elected official or county office.

In the areas audited, the overall performance of this entity was **Good**.*

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Organization and Statistical Information 8

NICOLE GALLOWAY, CPA
Missouri State Auditor

County Commission
and
Officeholders of Pulaski County

We have audited certain operations of Pulaski County in fulfillment of our duties under Section 29.230, RSMo. In addition, McBride, Lock & Associates, LLC, Certified Public Accountants, was engaged to audit the financial statements of Pulaski County for the year ended December 31, 2018. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2018. The objectives of our audit were to:

1. Evaluate the county's internal controls over significant management and financial functions.

2. Evaluate the county's compliance with certain legal provisions.

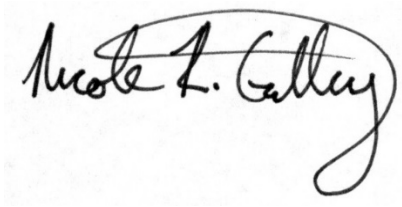
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the county's management and was not subjected to the procedures applied in our audit of the county.

For the areas audited, we identified (1) deficiencies in internal controls, (2) no significant noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of Pulaski County.



Nicole R. Galloway, CPA
State Auditor

The following auditors participated in the preparation of this report:

Director of Audits:	Kelly Davis, M.Acct., CPA, CFE
Audit Manager:	Todd M. Schuler, CPA
In-Charge Auditor:	Shannon Spicer, MBA
Audit Staff:	Albert Borde-Koufie, MBA
	Troy Tallman, CFE
	Emmett Spradlin

1. County Controls and Procedures

Controls and procedures over fuel use need improvement. In addition, budgets need to reflect realistic disbursement estimates.

1.1 Fuel use

The county lacks adequate controls and procedures to account for fuel used by the road and bridge department and County Assessor's office.

The fuel purchased by the road and bridge department is stored in bulk fuel tanks at 4 road and bridge sheds. County Assessor's office personnel charge fuel to the county's account at a local convenience store. During the year ended December 31, 2018, fuel purchases totaled approximately $139,000 for the road and bridge department and $1,500 for the County Assessor's office.

A formal reconciliation of fuel use to fuel purchases for the bulk tanks is not prepared. Logs of fuel dispensed from bulk fuel tanks are maintained by road and bridge department personnel. County officials indicated fuel use is compared to fuel purchases; however, this review is not documented. In addition, mileage and usage logs are not maintained for the road and bridge department or the County Assessor's office vehicles and equipment.

Procedures for maintaining and reviewing mileage and fuel use logs and reconciling the information to fuel purchased are necessary to ensure vehicles and equipment are properly utilized; prevent paying vendors for improper amounts; and decrease the risk of loss, theft, or misuse of fuel occurring and going undetected. Mileage and usage logs are necessary to document the appropriate use of vehicles and equipment and to support fuel purchases.

A similar condition was noted in our prior audit report.

1.2 Budgets

Some budgets for county funds do not reasonably reflect the anticipated financial activity and cash balances, reducing the effectiveness of the budget as a tool for monitoring or controlling disbursements. For many county funds, including the General Revenue Fund and the Law Enforcement Sales Tax Fund, budgeted disbursements equal available resources, resulting in a projected ending cash balance of $0. Actual disbursements were significantly less than budgeted for the General Revenue Fund and the Law Enforcement Sales Tax Fund in 2018. This practice also impacts projected and actual cash balances of each fund budgeted in this way. We identified similar budget practices for 2016 and 2017.

As noted in the following table, the County Commission significantly overestimated disbursements for the General Revenue Fund and the Law Enforcement Sales Tax Fund for the 2018 budgets, and as a result the actual ending cash balances were significantly higher than the projected ending cash balances.

		Year Ended December 31, 2018	
		General Revenue	Law Enforcement Sales Tax
Budgeted disbursements	$	4,020,997	2,546,296
Actual disbursements		3,682,459	1,746,466
Budgeted over actual disbursements	$	338,538	799,830
Projected ending cash balance	$	0	0
Actual ending cash balance		539,543	921,600
Actual over projected ending cash balance	$	539,543	921,600

Realistic projections of the county's uses of funds are essential for the efficient management of finances and for communicating accurate financial data to county residents. Significantly overestimating anticipated disbursements is misleading to the public and prevents an accurate estimate of the county's financial condition.

Recommendations

The County Commission:

1.1 Document reconciliations of fuel logs to fuel purchases. Any significant discrepancies should be promptly investigated. In addition, the County Commission and County Assessor should require mileage and usage logs be maintained for all vehicles and equipment.

1.2 Ensure budgets provide reasonable estimates of anticipated disbursements and ending cash balances.

Auditee's Response

The County Commission provided the following responses:

1.1 We agree and will ensure a documented reconciliation of fuel logs and purchases is performed periodically, and any significant differences will be investigated. We will ensure mileage and usage logs are maintained in the future.

1.2 We agree and will make every effort to ensure budgeted expenditures and cash balances more closely reflect anticipated activity for each fund.

The County Assessor provided the following response:

1.1 I agree and will ensure mileage and usage logs are maintained in the future.

2. Sheriff's Controls and Procedures

Controls and procedures in the Sheriff's office need improvement. The Sheriff's office collected monies for civil paper service fees, concealed carry weapon permits, jail phone commissions, commissary profits, and other miscellaneous receipts totaling approximately $271,000 during the year ended December 31, 2018.

2.1 Depositing

The bookkeeper does not deposit civil paper service fees until the papers are served. The bookkeeper records the receipt of these monies on prenumbered invoices and a spreadsheet when received. During a cash count performed on February 26, 2019, we identified 23 checks, totaling $2,037, with dates ranging from June 1, 2018, to February 19, 2019, for service fees for civil papers not served. In the same cash count we identified $1,035, which included 13 other checks, totaling $1,015, with dates ranging from May 8, 2018, to February 21, 2019, for service fees for civil papers that had been served. This money should have been deposited based on office procedures.

Failure to implement adequate depositing procedures increases the risk that loss, theft, or misuse of monies could occur and go undetected.

2.2 Outstanding checks

The Sheriff has not established procedures to routinely follow-up on outstanding checks. As of December 31, 2018, 61 checks issued from the Sheriff's fee account totaling $3,317 had been outstanding for over one year. Twenty-seven of the checks were also identified as outstanding for over one year during our prior audit. In addition, as of December 31, 2018, 23 checks issued from the commissary account totaling $96 had been outstanding for over one year.

Procedures to routinely follow up on outstanding checks are necessary to prevent the accumulation of monies in the account and ensure monies are appropriately disbursed to the payee or as otherwise provided by state law.

Similar conditions previously reported

Similar conditions were noted in our prior audit report.

Recommendations

The Sheriff:

2.1 Ensure monies received are deposited intact and timely.

2.2 Establish procedures to routinely investigate outstanding checks. Old outstanding checks should be voided and reissued to payees that can be readily located. If payees cannot be located, the monies should be disposed of in accordance with state law.

Auditee's Response

2.1 I agree and have already taken steps to implement the recommendation.

2.2 I agree and will implement the recommendation.

3. Prosecuting Attorney's Controls and Procedures

Controls and procedures in the Prosecuting Attorney's office need improvement. The Prosecuting Attorney's office collected approximately $175,000 in bad check and court-ordered restitution, delinquent taxes, and related fees during the year ended December 31, 2018.

3.1 Depositing

The Prosecuting Attorney's office does not deposit receipts timely. For example, $7,813 in restitution receipted from November 30, 2018, through December 13, 2018, was not deposited until December 14, 2018.

Failure to implement adequate depositing procedures increases the risk that loss, theft, or misuse of monies could occur and go undetected.

3.2 Outstanding checks

The Prosecuting Attorney has not established procedures to routinely follow-up on outstanding checks. As of December 31, 2018, 97 checks issued from the restitution account totaling $8,855 had been outstanding for over one year, with 7 checks dating back to 2013. In addition, as of December 31, 2018, 22 checks issued from the 3 bad check accounts totaling $1,864 had been outstanding for over one year, with one check dating back to 2012.

Procedures to routinely follow up on outstanding checks are necessary to prevent the accumulation of monies in the account and ensure monies are appropriately disbursed to the payee or as otherwise provided by state law.

Recommendations

The Prosecuting Attorney:

3.1 Ensure monies received are deposited timely.

3.2 Establish procedures to routinely investigate outstanding checks. Old outstanding checks should be voided and reissued to payees that can be readily located. If payees cannot be located, the monies should be disposed of in accordance with state law.

Auditee's Response

3.1 My office generally deposits weekly. The period selected by the auditors for testing was during a transition period between clerks and when another clerk was on vacation, which contributed to the delay in depositing during that period.

3.2 I agree and have already implemented this recommendation and have adopted procedures to turn over unclaimed monies every six months.

Pulaski County
Organization and Statistical Information

Pulaski County is a county-organized, third-class county. The county seat is Waynesville.

Pulaski County's government is composed of a three-member county commission and separate elected officials performing various tasks. All elected officials serve 4-year terms. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county roads and bridges, and performing miscellaneous duties not handled by other county officials. Principal functions of these other officials relate to law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records important to the county's citizens. In addition to elected officials, the county employed 92 full-time employees and 12 part-time employees on December 31, 2018.

In addition, county operations include the Senate Bill 40 Board, the Senior Citizens Service Board, and eight Neighborhood Improvement Districts.

Elected Officials

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below:

Officeholder	2019	2018
Gene Newkirk, Presiding Commissioner	$	34,832
Lynn Sharp, Associate Commissioner		32,297
Rickey Zweerink, Associate Commissioner		33,575
Rachelle Beasley, Circuit Clerk and Ex Officio Recorder of Deeds (1)		
Brent Bassett, County Clerk		50,871
Kevin Hillman, Prosecuting Attorney		138,644
Jimmy Bench, Sheriff		57,703
Sue Rapone, County Treasurer		50,871
Nicholas Pappas, County Coroner		16,036
Loretta Rouse, Public Administrator		53,174
Terri Mitchell, County Collector (2), year ended February 28,	64,839	
Daniel Whittle, County Assessor, year ended August 31,		50,357
Don Mayhew, County Surveyor (3)		

(1) Compensation is paid by the state.
(2) Includes $13,099 of commissions earned for collecting city property taxes.
(3) Compensation on a fee basis.

NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
and
Board of Directors of Fire Protection
Districts in St. Louis County

Certain fire protection districts are required by Section 321.690, RSMo, to be audited and to submit their audit reports to the State Auditor's Office (SAO). To address our responsibilities of Section 321.690.3, RSMo, and 15 CSR 40-4.010 to 15 CSR 40-4.020, we have reviewed the independent audit reports of the fire protection districts in St. Louis County for audit periods ending December 31, 2018. The purpose of this review was to evaluate the districts' compliance with statutory audit requirements and SAO regulations. Because our review is limited to statutory and regulatory compliance, we do not express an opinion or any other form of assurance on the audit reports.

There are 23 fire protection districts in St. Louis County. All districts with an audit period ending December 31, 2018, except Kinloch Fire Protection District, submitted audit reports. Section 321.690.2, RSMo, requires certain fire protection districts to have an audit performed biennially, and Section 321.690.3, RSMo, requires the districts to forward the audit report to our office within 6 months of fiscal year end. The Kinloch Fire Protection District did not timely obtain the required independent audit for the audit period ended December 31, 2018. However, in June 2019 the district engaged independent auditors to perform an audit for this time period. Upon completion of the audit, the district is expected to submit the report to the SAO.

The SAO posts the individual audit reports to the office's website. A searchable link is available at https://auditor.mo.gov. A table summarizing our review of the St. Louis County fire protection districts' audit reports follows.

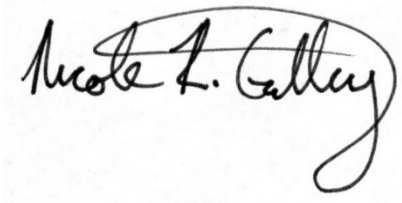
[1] The audit report filed did not include the views of responsible officials related to the audit findings, conclusions, and recommendations, as required for audits performed in accordance with *Government Auditing Standards*. A revised audit report was requested and obtained. We noted no concerns with the revised audit report.
[2] The audit report was filed after the statutory deadline of 6 months after the close of the fiscal year end.

Except for the Kinloch Fire Protection District failing to obtain and submit an audit report, we identified no other concerns from our review of the audit reports submitted by the St. Louis County fire protection districts.



Nicole R. Galloway, CPA
State Auditor

NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
and
Board of Directors of Fire Protection
Districts in Greene County

Certain fire protection districts are required by Section 321.690, RSMo, to be audited and to submit their audit reports to the State Auditor's Office (SAO). To address our responsibilities of Section 321.690.3, RSMo, and 15 CSR 40-4.010 to 15 CSR 40-4.020, we have reviewed the independent audit reports of the fire protection districts in Greene County for audit periods ending December 31, 2018. The purpose of this review was to evaluate the districts' compliance with statutory audit requirements and SAO regulations. Because our review is limited to statutory and regulatory compliance, we do not express an opinion or any other form of assurance on the audit reports.

There are 11 fire protection districts in Greene County. All districts with an audit period ending December 31, 2018, submitted audit reports. Section 321.690.2, RSMo, requires certain fire protection districts to have an audit performed biennially, and Section 321.690.3, RSMo, requires the districts to forward the audit report to our office within 6 months of fiscal year end. Some of the districts were not required to submit a report in 2019, because they obtain biennial audits and the most recent audit report submitted was for the 2 years ended December 31, 2017. These districts are expected to submit a biennial audit report for the 2 years ended December 31, 2019.

The SAO posts the individual audit reports to its website. A searchable link is available at https://auditor.mo.gov. A table summarizing our review of the Greene County fire protection districts' audit reports follows.

District	Audit Report Period	Report Complied with Section 321.690.3, RSMo	Findings in Independent Audit Report
Ash Grove[1]			
Battlefield	1 Year Ended 12/31/18	Yes	No
Bois D'Arc[1]			
Brookline	2 Years Ended 12/31/18	Yes	No
Ebenezer[1]			
Fair Grove	2 Years Ended 12/31/18	Yes	No
Logan-Rogersville	2 Years Ended 12/31/18	Yes	No
Strafford Volunteer	2 Years Ended 12/31/18	Yes	No
Walnut Grove	1 Year Ended 12/31/18	Yes	Yes
West Republic	2 Years Ended 12/31/18	Yes[2]	No
Willard	1 Year Ended 12/31/18	Yes	No

[1] The fire protection district had an independent audit for the 2 years ended December 31, 2017. The district's next audit is expected to cover the 2 years ended December 31, 2019, and is required to be submitted to the SAO no later than June 30, 2020.
[2] The report was filed after the statutory deadline of 6 months after the close of the fiscal year end.

We identified no concerns from our review of the audit reports submitted by the Greene County fire protection districts.

NICOLE GALLOWAY, CPA
Missouri State Auditor

Board of Directors
Smithville Area Fire Protection District

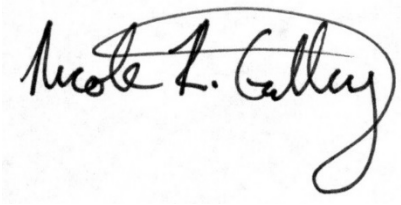
We have conducted follow-up work on certain audit report findings contained in Report No. 2018-099, *Smithville Area Fire Protection District* (rated as Poor), issued in September 2018, pursuant to the Auditor's Follow-Up Team to Effect Recommendations (AFTER) program. The objectives of the AFTER program are to:

1. Identify audit report findings for which follow up is considered necessary, and inform the district about the follow-up review on those findings.

2. Identify and provide status information for each recommendation reviewed. The status of each recommendation reviewed will be one of the following:

    - Implemented: Auditee fully implemented the recommendation, either as described in the report or in a manner that resolved the underlying issue.
    - In Progress: Auditee has specific plans to begin, or has begun, to implement and intends to fully implement the recommendation.
    - Partially Implemented: Auditee implemented the recommendation in part, but is not making efforts to fully implement it.
    - Not Implemented: Auditee has not implemented the recommendation and has no specific plans to implement the recommendation.

As part of the AFTER work conducted, we reviewed documentation provided by district officials and held discussions with district officials to verify the status of implementation for the recommendations. Documentation provided by the district included minutes of meetings, financial records, and other pertinent documents. This report is a summary of the results of this follow-up work, which was substantially completed during June 2019.



Nicole R. Galloway, CPA
State Auditor

Smithville Area Fire Protection District
Follow-Up Report on Audit Findings
Status of Findings

1. Incentive Payments

The Smithville Area Fire Protection District paid $209,072 in year-end incentive payments (including fringe benefits), to all full-time employees (including the Fire Chief and Assistant Fire Chief) between December 2011 and December 2015.

While these payments were authorized by the Board of Directors, the actual payments exceeded initial estimates presented to the Board for approval by $32,500 (before taxes). The Board did not review and approve individual incentive payments and there was no documentation indicating the Board was informed the actual incentive payments significantly exceeded the initial estimates provided. In addition, we found the incentive payments made were based on inaccurate or unreasonable calculations, which inflated the total amount paid by $86,360.

These payments were likely bonuses and in violation of the Missouri Constitution, because they were not part of a formal pay plan and seemed to represent additional payments for services previously rendered because there was no documentation of additional hours worked by the employees to support the payments.

Recommendation

The Board of Directors should ensure all employee compensation is authorized by the Board, documented in a formal pay plan as appropriate, and in compliance with state law.

Status

Implemented

The district has not paid incentive payments to employees since December 2015 and has no plans to do so in the future.

2. Fire Station #3

The Board constructed Station #3 at a cost of approximately $1.8 million without ensuring the district had sufficient funding available to staff the station and cover ongoing and future operational and maintenance costs associated with it. Additionally, the district did not retain any documents related to preplanning and development of the station.

Station #3 was placed into operation in May 2017 with minimal equipment and no staff. All emergencies were responded to from Station #2. While district officials indicated they would not be able to staff Station #3 without a tax increase, they had not completed a cost analysis to support this statement.

Recommendation

The Board of Directors should determine additional funding necessary to pay for expenses associated with ongoing and future operations and maintenance costs, including staffing, for Station #3. In addition, the Board should evaluate options to fund these additional costs.

Status

Not Implemented

As of July 2019 Station #3 remains unstaffed, and all emergencies are still responded to from Station #2.

The Fire Chief provided a calculation estimating the total annual cost to fully staff and operate Station #3. The calculation indicates voters would need to approve a tax levy increase of .6002 (more than twice the current tax levy of .2906). The Fire Chief indicated the Board currently anticipates asking voters for an increase in the property tax levy of .3200 or .3500 in November 2020. The exact amount of the increase to be requested has not been determined and will depend on what increase the Board expects voters to approve. The Fire Chief indicated the district anticipates the remainder of the funding for Station #3 will be provided by increases in sales tax revenues and increases in property taxes as a result of economic growth in the Smithville area. The district has not, however, obtained a study to determine if economic growth in the area, along with a property tax levy increase, will be sufficient to provide the additional funding necessary to staff and operate station #3.

A review of open and closed board meeting minutes for the period October 23, 2018, through April 23, 2019, showed the Board briefly addressed the current status of Station #3 at the December 18, 2018, meeting. The minutes did not include documentation of discussions concerning future funding or staffing plans, or evidence the Board had addressed funding options and other considerations provided to us by the Fire Chief.

3. Firefighter Safety and Training

The district had not established adequate policies and procedures for firefighter safety and health, training, and respiratory protection.

3.1 Safety and training programs

The district had not established a written occupational safety and health program or a written training, education, and professional development program.

Recommendation

The Board of Directors seek assistance from available resources, including the state Fire Marshal's Office in the Missouri Division of Fire Safety and the University of Missouri Fire and Rescue Training Institute, and develop a written occupational safety and health program and a written training program for district firefighters.

Status

In Progress

The district obtained a draft policy manual through a vendor subscription service in November 2018. This vendor provides state-specific policies for public safety agencies. District personnel are currently customizing the various draft policies for district needs and plan to have many of the policies in the manual adopted by September 24, 2019, including the following policies on safety and training:

- The Personal Protective Equipment policy states the district will provide and maintain at no cost to the member, personal protective equipment (PPE) including head, face and eye, body, hand, and foot protection that meets the standards approved by the National Fire Protection Association. The district's members are expected to wear the PPE any time there is a risk of exposure to a hazard.

- The Vehicle Seat Belts policy requires all members wear seat belts while operating or riding in district vehicles or privately owned vehicles while conducting district business.

- The High-Visibility Safety Vests policy requires members to wear class II high-visibility safety vests in addition to PPE whenever the emergency scene is located on or near a roadway.

- The Training Records policy includes a section on maintaining an annual master training calendar to document district-provided, regularly scheduled training.

- The Training policy provides for professional growth and continued development of district members. The policy requires the training officer to develop a training plan to be updated annually based on an annual assessment of training needed by district members.

3.2 Respiratory protection

The district had not implemented a written respiratory protection program and had not performed testing on its respirators as recommended by the manufacturer.

Recommendation

The Board of Directors establish a written respiratory protection program and ensure self-contained breathing apparatuses are tested in accordance with the manufacturer's recommendations.

Status

In Progress

The district's draft policy manual includes a Respiratory Protection Program policy. This new policy describes the types of respirators and when each type should be used. The policy also contains procedures for performance and fit testing, and requires performance and fit testing to be performed annually. The district plans to finalize and adopt this policy by September 24, 2019.

District personnel had performance tests performed in April 2018 and fit tests performed in April 2018 and January 2019. Because new respirators were placed into service in March 2019, performance testing did not occur that year. Performance and fit testing on these respirators is not required until March 2020.

4. Procurement Procedures and Contracts

Controls and procedures over procurement and district contracts needed improvement.

4.1 Professional services and contracts

The district had not established policies and procedures for the selection of vendors providing professional services. In addition, the district did not solicit requests for proposals for various professional services, had not periodically conducted a competitive selection process for various professional services, and did not always enter into written contracts with the providers selected. Examples of significant professional services for which requests for proposals were not solicited included litigation services, information systems and information technology services, auditing services, and legal services.

Recommendation

The Board of Directors periodically solicit proposals for professional services and enter into written contracts for those services. In addition, the Board should establish a policy to address the selection of professional services.

Status

Implemented

The Board solicited proposals for legal services in October 2018 and solicited proposals for auditing services and a new information technology provider in January 2019. The Board entered into written contracts for these services. In addition, as part of the draft policy manual, the district customized and adopted a new policy, Purchasing/Credit Card Use, in January 2019. This policy requires requests for proposals for professional services be advertised at least every 3 years.

4.2 Bidding

The district did not have a formal bidding policy and bids were not solicited for some purchases made during the year ended December 31, 2016. In addition, district personnel could not provide any documentation showing the district published a notice for some bids, as required by state law.

Recommendation

The Board of Directors establish formal bidding policies and procedures, including documentation requirements related to bid specifications, the bids or quotes received, and justification for bids selected and maintain documentation of decisions made.

Status

Implemented

The district made a significant purchase of new respirators in October 2018 that required competitive bidding. We reviewed the bid documentation and noted the district published notice for bids and selected the lowest of the 2 bids received for $190,207. In addition, the district's Purchasing/Credit Card Use policy, adopted in January 2019, outlines bidding procedures and documentation requirements.

5. Accounting Controls and Procedures

Weaknesses existed with the district's accounting controls and procedures.

5.1 Segregation of duties and oversight

The Board had not established adequate segregation of duties and review processes over the various financial accounting functions performed by the Fire Chief and Administrative Assistant.

The Administrative Assistant was responsible for all accounting duties and the Fire Chief typically documented his review and approval of authorized disbursements, but did not perform a documented review of other accounting functions and records. A Board member signed all checks; however, a documented review and approval of individual invoices and other supporting documentation was not performed. In addition, the list of disbursements approved by the Board each month did not include payroll disbursements.

Recommendation

The Board of Directors segregate accounting duties to the extent possible and implement appropriate review and monitoring procedures. In addition, the Board should ensure complete lists of disbursements are prepared and compared to invoices and other supporting documentation.

Status

Partially Implemented

The Board has not further segregated accounting functions, but has implemented some additional oversight procedures. The Board President indicated a Board member reviews and documents approval of individual invoices prior to signing checks. We reviewed a travel expense voucher from August 2018 and credit card statements from September 2018 and March 2019 and noted a Board member signed the voucher and credit card statements to document approval. Board members do not ensure all receipts for credit card purchases are included with the credit card statements, and rely on the Administrative Assistant to perform a reconciliation of receipts to the credit card statement. However, as indicated in section 6.2, the March 2019 credit card statement had several missing receipts.

The Board also reviews a financial report each month that includes the bank statements and bank reconciliations and a list of disbursements. The Fire Chief indicated he also reviews the bank reconciliations, but we noted his review is not documented. We also noted the list of disbursements reviewed by the Board does not include payroll disbursements. The Board President indicated payroll is monitored by the Board's review of the budget to actual report each month.

5.2 Bank reconciliations

The district did not have procedures to follow up on and resolve differences between accounting records and bank reconciliations timely. In December 2015, the district received $3,204,132 in bond proceeds. The deposit was recorded in the accounting system twice in error. The error was not corrected until November 2017.

Recommendation

The Board of Directors ensure any differences between accounting records and reconciliations are investigated and resolved timely.

Status

Implemented

The Fire Chief indicated he and the Board review the bank reconciliations. However, the Fire Chief's review is not documented. The Fire Chief also indicated reviews performed identified no differences between the accounting records and reconciliations during 2019. We reviewed the April 2019 bank reconciliations for the district's bank accounts, and identified no unresolved differences between accounting records and the bank reconciliations.

5.3 Receipting and depositing

Significant weaknesses existed in the district's procedures for receipting monies and making deposits.

- Receipt slips were not issued for some monies received and the method of payment was not always recorded on receipt slips.
- Deposits were not made timely or intact, the numerical sequence of receipt slips was not accounted for, and receipts were not kept in a secure location until deposited.
- Checks and money orders received were not restrictively endorsed at the time of receipt and were only endorsed when deposits are prepared.

Recommendation

The Board of Directors ensure receipt slips are issued for all monies received with the method of payment indicated on the receipt slip, and the composition of deposits is reconciled to the composition recorded on receipt slips. The district should also ensure receipts are maintained in a secure location until deposited, checks and money orders are restrictively endorsed immediately upon receipt, and deposits are made timely and intact.

Status

Partially Implemented

The Fire Chief indicated the district no longer issues manual receipt slips or accepts cash payments. He indicated district personnel will issue receipt slips from the accounting system; however, these receipts will not be numbered because the accounting system does not have this capability. The district had no checks on hand during our review; however, the Fire Chief indicated checks are endorsed immediately upon receipt and kept in a locked room until deposited. There were no receipt slips or other documentation such as copies of the checks received to demonstrate that the composition of receipts agreed to the composition of deposits or that receipts were deposited timely and intact.

6. Disbursements

Controls and procedures over district travel and training expenditures, credit card purchases, and payment for local meals needed improvement.

6.1 Travel and training expenditures

The district incurred unnecessary travel and training costs due to the former Fire Chief traveling to the location of but not attending a conference. In addition, the district paid excessive travel advances for meals and incidental expenses to district employees.

The Fire Chief indicated the district prepaid for meals and incidental expenses at the federal Continental United States (CONUS) per diem rate when employees traveled. However, our review noted rates for the first and last day of travel were not reduced in accordance with the CONUS schedule, the daily amount advanced was more than CONUS rates authorized, and the number of days advanced appeared wasteful or unnecessary.

Recommendation

The Board of Directors reimburse documented travel expenses rather than providing travel advances, require employees to submit documentation of training attendance, and obtain reimbursement for all costs associated with the training not attended or completed.

Status

Partially Implemented

The district's draft policy manual does not include a travel policy. The Fire Chief indicated the district plans to develop a written travel policy by October 2019. In addition, the district now reimburses only documented travel expenses, no longer provides travel advances, and requires employees to submit documentation of training attendance. The Fire Chief indicated the district has not requested reimbursement for the costs associated with the training not attended. The Board President indicated the district has a new attorney and this matter will be discussed with him before making a final decision.

6.2 Credit cards

The district did not maintain adequate documentation to support some disbursements made using district credit cards and review procedures for credit card purchases needed improvement.

Our review identified transactions where adequate documentation was not retained. For these transactions, either the receipt slip retained was illegible, or information documenting how the purchase related to the operation of the district was not included. In addition, we noted transactions that did not have any receipt submitted to support the purchase.

Neither the Board nor someone independent of the disbursement process reviewed and documented approval of individual transactions charged to the district credit card or ensured supporting documentation for all credit card transactions was reconciled to the credit card statement.

Recommendation

The Board of Directors establish controls and procedures for the review and approval of all credit card purchases and ensure all purchases are supported by appropriate documentation and are reconciled to billing statements.

Status

Partially Implemented

The district's Purchasing/Credit Card Use policy, adopted in January 2019, provides guidelines for credit card purchases. It requires a receipt for all credit card purchases and states the receipts shall be presented to the Board member signing the district checks for review before the bill is paid. However, the Board President indicated Board members currently do not ensure all receipts for credit card purchases are present; rather they rely on the Administrative Assistant to perform a reconciliation of receipts to the credit card statement.

We reviewed the March 2019 credit card statement and supporting documentation and noted that it was initialed by a Board member to document his review and approval; however, receipts and other supporting documentation were not attached for 10 of 14 purchases. The Fire Chief located the missing documentation at our request.

6.3 Local meals

The Board had not established a policy for providing employee meals while not on travel status. Our review of all credit card transactions noted the former Fire Chief and the Deputy Fire Chief made numerous food and drink purchases at local restaurants, most of which were not supported by information demonstrating how the purchase related to the operation of the district or detailing the persons in attendance. It could not be determined why the purchases were necessary.

Recommendation

The Board of Directors develop a comprehensive policy regarding food purchases and ensure purchases made with district credit cards are reasonable and prudent uses of public funds.

Status

Partially Implemented

The district's Purchasing/Credit Card Use policy, adopted in January 2019, provides guidelines for food purchases made with credit cards. The new policy requires a memo to accompany food receipts describing the nature of the expense and who was present. The new policy addresses food purchases if made by credit card, but not other purchase methods.

We reviewed the March 2019 credit card statement and supporting documentation and noted food purchases at a local restaurant for $357. A memo describing the nature of the expense and who was present was not attached. The Fire Chief indicated the meal was for a local fire chiefs luncheon and the district was reimbursed for the expense.

7. Sunshine Law

The Board's procedures for complying with the Sunshine Law, maintaining minutes of meetings, and retaining copies of certain email messages needed improvement.

7.1 Closed meetings and minutes

The Board did not comply with state law regarding meeting minutes and closed sessions.

- The Board did not prepare meeting minutes for 20 of 35 closed sessions held. Minutes of closed sessions were generally only prepared and retained if the Board took a vote in the session.
- The Board did not document in open meeting minutes the specific reasons or section of law allowing the meetings to be closed for 15 of 35 closed sessions held.

Recommendation

The Board of Directors prepare minutes for all closed meetings and ensure the specific reasons for closing a meeting are documented in open meeting minutes.

Status

Implemented

We reviewed the Board's open and closed meeting minutes for the period October 2018 through April 2019. Minutes were only prepared for the October 2018 closed meeting although closed meetings were also held in November 2018, December 2018, and January 2019. However, the Board President indicated minutes for these closed sessions were not prepared by the district's contracted transcriber. When the Board became aware of the issue, the transcriber was informed that minutes should be prepared for closed sessions as well as open sessions. We noted closed minutes were prepared for the April 2019 closed session. The open meeting minutes cited the specific sections of law allowing the meetings to be closed.

7.2 Board decisions

The district did not retain adequate documentation to support certain Board decisions and meeting minutes do not typically include Board discussions held to support decisions made.

Recommendation

The Board of Directors ensure meeting minutes include sufficient information necessary to provide a complete and accurate record of significant matters discussed and actions taken.

Status

Implemented

We reviewed the Board's open meeting minutes for the period October 2018 through April 2019. The minutes for this period contained more detail than the minutes reviewed during the audit. For example, the December 2018 open meeting minutes document a discussion regarding new policies the board was

considering adopting, and the January 2019 open meeting minutes document the Board's approval of one of those policies, the Purchasing/Credit Card Use policy.

7.3 Public access policy and requests for records

The district has not adopted a written policy regarding public access to district records as required by state law. In addition, the district did not maintain a log or other record of public records requests to ensure all requests are handled in compliance with the Sunshine Law.

Recommendation

The Board of Directors develop written policies regarding procedures to obtain access to, or copies of, public records and establish a request log.

Status

Not Implemented

The district's draft policy manual does not include a public access to records policy. The Fire Chief indicated the district plans to develop its own written policy on public access to district records by October 2019. The Fire Chief also indicated the district has not received any Sunshine Law requests in the last several months, but plans to establish a request log.

7.4 Email

The district did not send the Fire Chief (the custodian of records) copies of email messages that are considered to be a public record under state law.

Recommendation

The Board of Directors ensure email messages sent between a majority of the Board's members are sent to the Fire Chief and made available for public inspection and copying in accordance with state law.

Status

Implemented

The Fire Chief indicated email messages are backed up on the district's server and only the information technology contractor has the ability to permanently delete the messages. Copies of email messages can be obtained from the contractor when requested.

8. District Policies and Procedures

District policies and procedures needed improvement.

8.1 Bylaws

The Board had not established written bylaws or other formal policies and procedures for the administration of the district. Instead, the Board President indicated the Board followed "Rules for Missouri Fire Protection Districts" provided by the University of Missouri Extension office.

Recommendation

The Board of Directors adopt written bylaws.

Status

Not Implemented

The Board has not adopted written bylaws. The Board President indicated fire districts in Missouri, that are members of the Missouri Association of Fire Protection Districts (MAFPD), follow the MAFPD's recommended guidelines and as a result, adopting their own written bylaws is not necessary.

8.2 Standard operating guidelines

The district's Standard Operating Guidelines (SOGs), which served as a guide for operations within the district and were designed to assist employees in performing their job duties, did not include guidelines to address certain important issues, including employee performance evaluations, travel, and use of internet and email or personal use of district provided electronic devices.

Recommendation

The Board of Directors maintain complete, comprehensive, and up-to-date SOGs to help employees carry out district operations.

Status

In Progress

The district's draft policy manual includes a Performance Evaluations policy and an Information Technology Use policy. The district plans to finalize and adopt these policies by September 24, 2019. The Performance Evaluations policy will require full-time permanent employees to be evaluated by a supervisor once each year. The district adopted a Purchasing/Credit Card Use policy in January 2019. In addition, the Fire Chief indicated the district plans to develop a written travel policy by October 2019.

8.3 Budgets

The Board did not prepare annual budgets for all district funds as required by state law. In addition, budget documents did not include all statutorily required information.

The district had not prepared budgets for the Capital Improvement or Debt Service Funds. In addition, the budgets prepared for the General Fund did not include a budget summary or debt service information, and only included a comparative statement of estimated receipts and disbursements for the prior year when state law requires a comparative statement of actual or estimated receipts and disbursements for the 2 preceding years.

Recommendation

The Board of Directors prepare annual budgets for all funds that include all information required by state law.

Status

Partially Implemented

We reviewed the 2019 budgets and noted a budget was prepared for all funds. However, the budgets did not include a budget summary, debt service information, or a comparative statement of actual or estimated receipts and disbursements for the 2 preceding years.

9. District Property and Vehicle Usage

Controls and procedures over district property and vehicle usage needed improvement.

9.1 Maintenance and repairs

District procedures for the maintenance and repair of vehicles and equipment were not adequate. An inspection of all district vehicles and equipment was performed on a daily basis and any maintenance and repair issues noted were documented on the Daily Truck Check Maintenance Appendix. Items were removed from the appendix when repaired or replaced. In addition, district personnel indicated items were also removed from the appendix at the request of the former Fire Chief if he determined the issue would not be repaired or replaced. However, the appendix did not document when and how identified issues were resolved.

Recommendation

The Board of Directors establish adequate procedures to ensure vehicles and equipment receive preventative maintenance and repairs timely. At a minimum, require maintenance logs be kept for each district vehicle and equipment and that these logs be reviewed periodically.

Status

Implemented

We observed that maintenance logs are now maintained for district vehicles and equipment, and daily inspection checklists are performed electronically using a software program purchased by the district in July 2018. District personnel use these records to record all repairs and maintenance performed and ensure repairs and maintenance are performed as needed.

9.2 Vehicle usage

The current and former Fire Chief were not required to maintain vehicle usage logs. The current and former Fire Chief were provided a district vehicle and personal use was allowed. The district did not report the value of the current and former Fire Chief's personal use of a district vehicle on W-2 forms as required by the Internal Revenue Service (IRS). Prior to October 2016, these vehicles were not marked as public safety vehicles.

Recommendation

The Board of Directors refer to IRS guidelines regarding use of employer-provided vehicles and adopt appropriate policies and requirements. In addition, the Board should also ensure all compensation is properly reported on W-2 forms, and amend W-2 forms for unreported compensation, as appropriate.

Status

Partially Implemented

The district's draft policy manual includes a Use of District Vehicles policy. This policy prohibits personal use but does not meet all of the IRS requirements because it does not require the employee to always be on call or require the employee to use the vehicle for commuting. The district plans to finalize and adopt this policy by September 24, 2019. The district did not report the value of the current and former Fire Chief's personal use of a district

vehicle on W-2 forms as required by the IRS and has not amended past W-2 forms for unreported compensation. The Board President indicated the district has a new attorney and the Board will discuss this matter with him before making a final decision.

9.3 Capital assets

The district had not developed procedures to identify capital asset purchases and dispositions throughout the year and records to account for district property were not adequate. Capital asset records lacked some necessary information such as purchase date, vendor, model or serial number, and disposition information such as the date and method of disposal. In addition, assets were not tagged or otherwise identified as district property and an annual physical inventory was not performed.

Recommendation

The Board of Directors ensure complete and detailed capital asset records are maintained on a perpetual basis, assets are properly tagged for identification, and annual physical inventories are performed and compared to detailed records.

Status

In Progress

District personnel created a capital asset record when they performed a physical inventory of capital assets costing $1,000 or more in March 2019. The record includes a description of the item, its location, and the inventory number. It does not include some necessary information such as purchase date, vendor, and model or serial number. We observed the district has affixed property tags with inventory numbers to the assets on the capital asset listing and generic unnumbered property tags to other district property not required to be on the listing. The Fire Chief indicated the capital asset record will be updated to include purchase date, vendor, and model or serial number as new assets are purchased and added to it.

10. Employment Contracts

The district entered into multi-year employment contracts without terms allowing the district to terminate the employee for reasons other than for cause.

The district entered into an employment contract with terms allowing the district to terminate the former Fire Chief for cause, but the contract did not address termination for other reasons. In addition, the contract automatically renewed each year so that following each extension, the agreement term remained 5 years. The current Fire Chief's contract also did not address termination without cause and renewed automatically each year so that following each extension, the agreement term remained 3 years.

Recommendation

The Board of Directors ensure employment contracts properly safeguard district interests.

Status

In Progress

No revisions have been made to the current Fire Chief's contract. As indicated in the audit finding, it does not address termination without cause and renews automatically each year so that following each extension, the agreement term remains 3 years. The Board President indicated the district's attorney is working on revisions to the contract and the Board has authorized the attorney to negotiate a new contract with the Fire Chief. The Board plans to review the amended contract at its September 24, 2019, meeting and approve the final contract in October 2019.

11. Electronic Data Security

The district did not have security controls in place to lock computers after a specified number of incorrect logon attempts. In addition, the district did not periodically test for recovery of data from backup files.

Recommendation

The Board of Directors require each computer to have security controls in place to lock it after a specified number of incorrect logon attempts. In addition, ensure recovery of data from backup files is tested on a regular basis.

Status

In Progress

The Fire Chief indicated new computers were purchased and installed in early 2019 and the new computers lock after a period of inactivity. In addition, we reviewed the district's current information systems and information technology (IT) services contract and it requires the contractor to perform data backups and develop and test a disaster recovery plan. However, the IT vendor has not tested the plan because the district's internet connection speed is not sufficient to perform the test. The Fire Chief indicated the district is currently working on upgrading its internet service so the plan can be tested.

Office of Governor

Report No. 2019-085

September 2019

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the Office of the Governor

Payment of Operating Costs by Other State Agencies	As noted in our prior three audit reports, the Governor's office continued to supplement operations by using appropriations of other state agencies, and therefore circumvented the appropriation process established by the General Assembly. As a result, the Governor's office under reported the true costs of operating the office. During Governor Greitens' term, more than $1.5 million in personnel, Governor's Security Division, and other costs were shifted to other state agencies.
Boards and Commissions	As noted in our prior audit report, the Governor's office did not have adequate procedures to ensure vacancies and expired terms on boards, commissions, committees, councils, etc. (boards) were filled timely. In addition, the Governor's office did not address Task Force recommendations to eliminate and consolidate certain boards and board member positions and did not have adequate procedures to ensure board records were complete and accurate.
Mansion	As noted in our prior two audit reports, the Governor's office did not ensure the fees charged for mansion events sponsored by outside entities were sufficient to fully recover event costs.
Office Policies and Procedures	The Governor's official calendar was not always maintained in a detailed manner. In addition, the Governor's office did not establish a written employee manual or prepare written job descriptions for many positions.
Travel	As similarly noted in our prior three audit reports, the Governor's office did not take adequate measures to minimize travel costs or follow state travel policy. The Governor's office did not always procure commercial airfare in accordance with the state travel policy. The Governor's office often made lodging reservations without performing price comparisons or other procedures to ensure lodging costs were reasonable as required by state travel policy.
Use of State Resources for Political and Personal Purposes	State laws are ambiguous and contradictory regarding the use of state resources by the Governor's office for political and personal purposes. Similar to previous governors, the Governor used the security and transportation resources provided by the Missouri State Highway Patrol for all official, political, and personal activities. The state also paid the personal food costs for the Governor and his family. The Governor did not reimburse the state for any political or personal use of state resources.

Capital Assets

As similarly noted in our prior three audit reports, records and procedures to account for Governor's office and mansion property were not adequate. Office and mansion capital asset record discrepancies noted in prior audits were still not resolved; and as result, capital asset records were incomplete and inaccurate. In addition, annual physical inventories of office assets were not performed.

In the areas audited, the overall performance of this entity was **Fair**.*

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Honorable Eric R. Greitens
and
Honorable Michael L. Parson, Governor
Jefferson City, Missouri

We have audited certain operations of the Office of Governor, in fulfillment of our duties under Chapter 29, RSMo. The scope of our audit included, but was not necessarily limited to, the period January 9, 2017, to June 1, 2018. The objectives of our audit were to:

1. Evaluate the office's internal controls over significant management and financial functions.

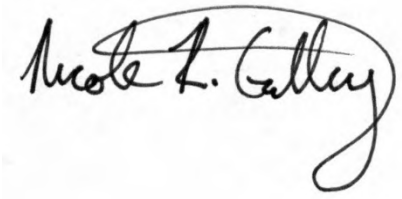
2. Evaluate the office's compliance with certain legal provisions.

3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the office, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We tested certain of those controls to obtain evidence regarding the effectiveness of their design and operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the Office of Governor.



Nicole R. Galloway, CPA
State Auditor

Audit Staff:	Amanda G. Flanigan, MAcc
	John-Henry T. Jarwood, MBA, CFE

Office of Governor
Introduction

Background

The governor is required to be at least 30 years of age and must have been a citizen of the United States for at least 15 years and a resident of this state at least 10 years prior to election. The governor is elected at the presidential election for a 4-year term and is subject to re-election. No person may hold the office for more than 2 terms.

On January 9, 2017, Eric R. Greitens was inaugurated as the fifty-sixth governor. He served in this role until his resignation on June 1, 2018. Lieutenant Governor Michael L. Parson was inaugurated as the state's fifty-seventh governor to fill the remainder of the term, which expires in January 2021.

The Governor and his family resided in the Governor's mansion, located near the capitol. The mansion was first occupied in 1872 and was added to the National Register of Historic Places in 1969. The Governor and First Lady hosted public and private events at the mansion. Events were also hosted by other entities including the Friends of the Missouri Governor's Mansion, a statewide, nonpartisan, nonprofit organization dedicated to the mansion's restoration and educational programs.

The Governor's office is located in Jefferson City. There are regional offices in Kansas City and St. Louis.

Duties

The supreme executive power of the state is vested in the governor. Unless otherwise provided by law, the governor appoints all members of boards, commissions, and state government department heads as well as those of several other entities in the state and all vacancies in public offices. The governor commissions all officers of the state unless otherwise provided by law. Through the capacity as commander-in-chief of the militia, the governor is the conservator of peace throughout the state.

Providing the state's principal financial administration, the governor presents to the General Assembly a proposed budget for each appropriation period. All bills passed by both houses are presented to and considered by the governor where they are signed into law or disapproved and returned to the originating house.

In addition to the duties specifically assigned to the governor in the constitution, many other duties are assigned by statute and by custom. The governor is also a member of the Board of Public Buildings and the State Board of Fund Commissioners.

Employees and expenditures

Throughout Governor Greitens' term, the office had 23 to 29 full-time employees paid from Governor's office appropriations. In January 2017, by Executive Order 17-04, Governor Greitens created the position of chief operating officer. Other key positions included chief of staff, general counsel,

legislative director, and policy director. In addition, about 14 Governor's Security Division personnel of the Missouri State Highway Patrol (MSHP) were paid from appropriations of the Governor's office or the MSHP. Additional employees of the Governor's office were paid by other state agencies.

Governor Greitens' and office employees' travel expenses were paid from appropriations of the Governor's office and other sources. During Governor Greitens' term, travel expenditures paid from office appropriations totaled $130,500. In addition, according to 2018 and 2017 Personal Financial Disclosure Statements filed with the Missouri Ethics Commission, Governor Greitens received out-of-state lodging and travel benefits valued at about $227,000 for various meetings or political events and about $99,000 for international trade missions. The trade missions were funded by the Hawthorn Foundation[1] and the Republican Jewish Coalition. The statements also indicated Governor Greitens received gifts for in-state travel from 7 sources.[2]

The Governor's office incurred legal expenses related to two legal matters near the end of Governor Greitens' term. For one matter related to the office's use of a confidential digital messaging service,[3] legal costs through June 2018, totaling about $201,300, were paid by the Governor's office ($178,400)[4] and the State Legal Expense Fund administered by the Attorney General's office ($22,900). In June 2018, the Office of Administration (OA) declined to pay legal expenses of two outside law firms totaling about $153,000 related to the Missouri House of Representatives' investigation of Governor Greitens. The OA concluded these legal expenses were not within the purpose of the state appropriations as the services were primarily for the personal benefit of Governor Greitens and not the office.

Additional office expenditures were paid by other state agencies. When audit staff asked Governor's office officials if any office costs were paid from private sources, they indicated they were not aware of any such costs and any costs paid from private sources would have been for personal or political purposes.

[1] The Hawthorn Foundation also funded trade missions of previous governors.

[2] Personal Financial Disclosure Statements require disclosure of gifts exceeding $200 but do not require disclosure of gift amounts or purpose.

[3] *Sansone v. Greitens*, Cole County Circuit Court Case Number 17AC-CC00635.

[4] Legal expenses totaling about $26,700 were paid from fiscal year 2019 appropriations because the fiscal year 2018 appropriations had been fully spent.

Office of Governor
Management Advisory Report
State Auditor's Findings

1. Payment of Operating Costs by Other State Agencies

As noted in our prior three audit reports, the Governor's office continued to supplement operations by using appropriations of other state agencies, and therefore circumvented the appropriation process established by the General Assembly. As a result, the Governor's office under reported the true costs of operating the office.

Despite receiving increased appropriations in fiscal year 2018, which partially addressed concerns noted in prior audit reports, the Governor's office continued to pay expenses from appropriations of other state agencies. If the Governor's office had not allocated expenses to other state agencies, appropriation authority of the office and mansion would have been exceeded in fiscal years 2018 and 2017, and the Governor's Security Division (GSD) in fiscal year 2017. During Governor Greitens' 17-month term (January 9, 2017 to June 1, 2018), expenses totaling approximately $1,548,000 were shifted to other state agencies.

During fiscal years 2018 and 2017, the Governor's office received appropriations from the state General Revenue Fund (GRF) and various other funds for the operating costs of the office, mansion, and GSD. Office operating appropriations increased from a total of about $2.2 million in fiscal year 2017 to $2.6 million in fiscal year 2018. Prior to fiscal year 2018, all Governor's office operating appropriations were from the GRF. Beginning in fiscal year 2018, to address concerns identified in prior audit reports, the office received additional appropriations from the GRF and several other funds to pay the salaries of 6 additional full-time employee positions. In fiscal year 2019, office operating appropriations were further increased for an additional 5 full-time employees. The mansion appropriation totaled approximately $100,000 each fiscal year. Appropriations for the GSD operated by the Department of Public Safety (DPS) - Missouri State Highway Patrol (MSHP), were transferred from the MSHP to the Governor's office in fiscal years 2016 and 2017, then transferred back to the MSHP in fiscal year 2018. GSD appropriations totaled approximately $1.8 million for fiscal year 2017.

1.1 Staffing and GSD costs

State agencies paid personnel and GSD costs totaling at least $1,201,000 for employees of the Governor's office, mansion, and GSD during Governor Greitens' term. There were 29 employees paid by Governor's office and mansion appropriations as of June 1, 2018.

Governor's office and mansion personnel

The salaries of 16 Governor's office and mansion employees were paid from appropriations of 14 other state agencies during Governor Greitens' term. The Governor's office required the Department of Natural Resources (DNR) to fund the salaries of the Mansion Executive Director, Assistant Director, and Cook; and required the Department of Economic Development to fund the salary of the Director of the Kansas City regional office during Governor Greitens' entire term. In addition, the Governor's office required several state agencies to fund all or part of the salaries of the Chief Operating Officer, three

boards and commissions personnel, and three constituent services personnel during January to June 2017; and a special assistant, staff assistant, legislative and policy advisor, and two deputy counsel during July 2017 to June 2018. These positions were paid by other state agencies, although the employees in these positions performed duties for the Governor's office, were physically located in offices of the Governor or mansion, and were supervised by Governor's office personnel.

The salaries of the 16 positions paid by other state agencies during Governor Greitens' term are listed in the following table:

State Agency	Amount
Agriculture	$ 3,511
Corrections	19,793
Economic Development	26,437
Elementary and Secondary Education	10,478
Health and Senior Services	8,111
Higher Education	682
Insurance, Financial Institutions and Professional Registration	32,743
Labor and Industrial Relations	28,623
Mental Health	21,139
Natural Resources	167,767
Office of Administration	203,700
Public Safety	11,887
Revenue	20,974
Social Services	15,391
Total	$ 571,236

Beginning in fiscal year 2018, Governor's office appropriations increased about $419,000 for the salaries for the chief operating officer and the boards and commissions and constituent services positions. Beginning in fiscal year 2019, Governor's office appropriations increased about $292,000 for the salaries for the special assistant, staff assistant, legislative and policy advisor, and deputy counsel positions.

GSD personnel and expenses

Despite receiving appropriations for GSD costs, some personnel and other expenses of the GSD continued to be paid from MSHP appropriations. Personnel of the GSD within the MSHP provide security services for the Governor.

Prior to fiscal year 2016 and in fiscal year 2018, the costs of the GSD were paid entirely from appropriations of the MSHP, and averaged about $2 million annually.[5] For fiscal years 2016 and 2017, the Governor's office

[5] For fiscal years 2014 through 2015 and 2018 (excluding vehicle and fuel costs that continued to be paid from MSHP appropriations)

received annual appropriations of about $1.8 million for the GSD's expenses, and the corresponding appropriations of the MSHP were reduced. According to an MSHP official, the Governor's office GSD appropriations were intended for all costs of the GSD except for vehicles and fuel, which was paid from MSHP appropriations. However, the amount appropriated to the Governor's office was not sufficient to cover all GSD costs; and consequently, some costs continued to be paid from appropriations of the MSHP. For fiscal year 2017, GSD personnel, travel, fuel, and other costs totaling approximately $630,000 were charged to MSHP appropriations. A comparative statement of GSD expenditures from MSHP appropriations is included at Appendix E.

Other personnel

Costs associated with additional personnel that provided services to the Governor's office could not be identified because they did not separately account for and report their time spent on work performed for the Governor's office and/or the mansion. Office of Administration (OA) employees perform budget, purchasing/expenditure, payroll, and capital asset processing duties, and Department of Corrections (DOC) employees supervise inmates working at the mansion. These employees were paid from OA and DOC appropriations.

1.2 Other expenses

During Governor Greitens' term, state agencies paid association dues and other expenses, totaling approximately $347,000, of the Governor's office and mansion. The Governor's office required 3 agencies to pay the following operating expenses during Governor Greiten's term:

Operating Expenses		Amount
National Governors Association dues:		
Economic Development	$	15,330
Office of Administration		130,200
Mansion food and other expenses:		
Natural Resources[1]		155,826
Office of Administration[2]		45,959
Total	$	347,315

[1] Certain costs of mansion considered to be historical and/or cultural in nature were charged to Department of Natural Resources (DNR) appropriations.

[2] Wages paid for inmates who worked at the mansion.

Conclusions

The practice of paying Governor's office, mansion, and GSD personnel and expenses from the appropriations of other state agencies makes it difficult to establish accountability for the true and accurate costs of operating the Governor's office. This practice limits accountability and transparency over certain Governor's office expenditures and distorts the operating costs of both the Governor's office and the state agencies paying the Governor's expenses. The Governor's office needs to take measures to reduce office and mansion expenses to ensure expenditures are within the approved appropriation

authority. If the Governor's office receives future appropriations for the GSD, the office should ensure those appropriations are sufficient and work with the MSHP to ensure costs are within appropriation amounts.

Recommendation

The Office of Governor discontinue the practice of using other agency appropriations to pay the operating costs of the Governor's office. The Governor's office should request funding levels sufficient to pay all operating costs of the office and mansion from its own appropriations and ensure expenditures do not exceed office appropriation authority. If other agency personnel perform duties related to the operation of the Governor's office, their time should be recorded and paid from the Governor's office appropriations.

Auditee's Response

Former Governor Greitens' written response, provided by the Deputy Legislative Director to both former Governor Greitens and current Governor Parson, is included at Appendix A.

Current Governor Parson's written response, provided by the General Counsel, is included at Appendix B.

Auditor's Comment

Current Governor Parson's response states the Auditor recommends the Governor request greater appropriations at the expense of the taxpayers and agencies under his purview and the finding fails to account for the structure of the executive branch or acknowledge the fluid and flexible nature of the work many state employees perform. However, the impact of the audit recommendation is not increased costs, rather increased transparency and accountability over Governor's office and state agency costs, which is the intent of the state appropriation process. The Governor's office relationship to the other agencies under his purview does not eliminate this need for transparency or compliance with the appropriation process. Current Governor Parson's response also states the Auditor fails to acknowledge the association dues correlated to and were in support of the operations of the agencies that paid the dues; however, Governor's office personnel did not provide any documentation showing that the association supported these agencies. If such costs support other agencies, detailed documentation should be maintained.

2. Boards and Commissions

As noted in our prior audit report, the Governor's office did not have adequate procedures to ensure vacancies and expired terms on boards, commissions, committees, councils, etc. (boards) were filled timely. In addition, the Governor's office did not address Task Force recommendations to eliminate and consolidate certain boards and board member positions and did not have adequate procedures to ensure board records were complete and accurate.

Boards are created for various purposes by state statute or by a Governor's Executive Order. The governor is required to appoint the majority of the members of the boards, often with the approval of the Missouri Senate. The

authorizing statutes or executive orders specify member background requirements, the length of terms, and who appoints and approves the members. Members are often required to represent diverse interests and/or specific experiences such as political party affiliation, geographic residence, or profession. Terms are often 3, 4, or 6 years, and members are generally expected to serve until replaced, even after their term expires. Members generally serve without compensation.

Vacancies occur as terms expire and members resign from their positions. The Governor's office is generally made aware of vacancies by the applicable board or the resigning member. The Governor's office reviews each member application and performs background checks on applicants considered for appointment.

The Governor's office maintains records of each board including members' names, terms, and vacant positions; and publishes the information on the Governor's office website. Our review of these records as of October 2018 noted there were approximately 210 boards of which about 160 had vacant and/or expired governor-appointed positions. These boards had about 2,000 positions, of which about 1,500 were governor-appointed positions and about 900 (60 percent) of the positions were vacant or had expired terms.

Changes were made in recent years that eliminated 10 boards and 164 governor-appointed positions. In January 2017, Governor Nixon issued Executive Order 17-01 eliminating 2 boards with a total of 21 governor-appointed positions. In April 2017, Governor Greitens created the Boards and Commissions Task Force to evaluate the need for the existing boards and to make recommendations for improvement. To partially address Task Force recommendations to the General Assembly, Senate Bill 843, Second Regular Session, 99th General Assembly (2018), eliminated 7 boards and 136 governor-appointed positions. In addition, Senate Bill 975, Second Regular Session, 99th General Assembly (2018), eliminated another board with 7 governor-appointed positions. Governor Greitens signed these bills on June 1, 2018 and they became effective in August 2018.

In October 2017, the Task Force recommended the Governor re-evaluate the need for 3 boards and reduce the number of members on 3 boards. Similarly, the Task Force recommended the General Assembly eliminate, consolidate, or reduce the number of members on various boards. In total, the Task Force recommended eliminating about 44 boards and 450 governor-appointed positions. Most reductions recommended by the Task Force, other than the changes previously noted, had not been made as of October 2018.

2.1 Board vacancies and expired terms

The Governor's office did not have adequate procedures to ensure vacant positions and expired terms were filled timely. Our review of board vacancies

disclosed several boards with significant numbers of vacancies and expired terms.

We followed up on 21 boards reviewed during our prior audit with significant numbers of vacancies and expired terms as of May 2016. Executive Order 17-01 and Senate Bills 843 and 975 subsequently eliminated 7 of these boards with 67 governor-appointed positions. Also, the Governor's office made 11 appointments to these boards during Governor Greitens' term. However, as of October 2018, the Governor's office had not timely filled most vacancies and expired terms for the remaining 14 boards.[6] The 14 boards had 48 vacant governor-appointed positions and 27 governor-appointed positions with expired terms. Ten boards had 1 to 11 vacant governor-appointed positions, and 5 boards had 2 to 6 governor-appointed positions with expired terms since at least May 2016. In total, for the 14 boards, 75 of the 141 (53 percent) governor-appointed positions needed to be addressed. In addition, the Governor's office had not worked with the General Assembly to address the Task Force recommendations to eliminate or consolidate 3 of these boards[7] with 40 governor-appointed positions.

Procedures to fill board vacancies timely are necessary to ensure boards have sufficient members to function properly. Unfilled vacancies can make it more difficult or impossible for boards to establish a quorum to meet and conduct business. Also, unfilled vacancies may prevent balanced decision making on boards because the backgrounds and interests associated with the vacant positions would not be represented. Not timely replacing members with expired terms appears to violate the intent of statutory term length provisions. For any boards or commissions that are no longer needed, the Governor's office should rescind the related executive order or work with the General Assembly to repeal the related statutes.

2.2 Task Force recommendations

The Governor's office did not address Task Force recommendations.

The Task Force recommended the Governor's office consider reducing the number of members of the Governor's Council on Disability, consolidating the Hispanic Business, Trade, and Culture Commission with another board, and restructuring the Citizens Advisory Committee on Corrections. In

[6] Governor's Committee to End Homelessness, Missouri Brain Injury Advisory Council, Missouri Citizens' Commission on Compensation for Elected Officials, Missouri Electronic Prior Authorization Committee, Coordinating Board for Higher Education, Missouri Consolidated Health Care Plan Board of Trustees, Missouri Development Finance Board, Petroleum Storage Tank Insurance Fund Board of Trustees, Board of Therapeutic Message, State Highways and Transportation Commission, Missouri Technology Corporation, State Milk Board, State Lottery Commission, and Missouri Housing Development Commission.

[7] Missouri Brain Injury Advisory Council, Missouri Electronic Prior Authorization Committee, and State Milk Board.

addition, the Task Force recommended the Governor's office eliminate 24 governor-appointed positions for the Missouri Workforce Development Board, the Statewide Independent Living Council, and the State Interagency Coordinating Council. However, no changes to those boards occurred. As of October 2018, Governor's office records indicated these 6 boards had 101 governor-appointed positions with 90 vacancies or expired terms.

To enhance the efficiency and effectiveness of state boards, the Governor's office should document plans to address the recommendations of the Task Force and take appropriate action to rescind executive orders determined to be obsolete. Documentation should be maintained to support the decisions.

2.3 Incomplete and inaccurate records

The Governor's office did not have adequate procedures to ensure complete and accurate records of board members, vacancies, and expired terms. Formal procedures have not been established to periodically contact the boards for up-to-date board member information. In addition, board records did not indicate the date positions became vacant; and as a result, the Governor's office did not have information regarding the age of vacancies.

Complete, accurate, and up-to-date records regarding board members are necessary for the Governor's office to monitor board vacancies and expired terms, and appoint board members. Without such information, the Governor's office and the public are not aware of vacant positions and expired terms. To ensure records of boards and commissions are up-to-date, procedures should be established to periodically contact boards for current information regarding board members, vacancies, and expired terms and update board records for any new information received. In addition, maintaining records of position vacancy dates would allow the Governor's office to monitor the age of vacancies and prioritize appointment efforts.

Recommendations

The Office of Governor:

2.1 Work with the various boards to fill vacancies and expired terms timely. In addition, if boards are no longer needed for the purposes created, the Governor' office should rescind the related executive order or work with the General Assembly to repeal the related statutes.

2.2 Address the Boards and Commissions Task Force recommendations and take appropriate actions to reduce, consolidate, or restructure boards as necessary. Documentation should be maintained to support the decisions.

2.3 Establish procedures to ensure board and commission records are complete, accurate, and up to date.

Auditee's Response

Former Governor Greitens' written response, provided by the Deputy Legislative Director to both former Governor Greitens and current Governor Parson, is included at Appendix A.

Current Governor Parson's written response, provided by the General Counsel, is included at Appendix B.

Auditor's Comment

2.2. Former Governor Greitens' response states the hearings held and testimony received by the Task Force resulted in recommendations and legislation that was passed and signed into law. However, as noted in the finding, the Task Force's report also contained recommendations to the Governor's office that were not addressed.

2.3. Former Governor Greitens' response states the recommendation would unnecessarily increase government paperwork and delay future appointments, and current Governor Parson's response states the Governor's office maintains appropriate records. However, as described in the finding, the records were incomplete and inaccurate. Without complete, accurate, and up-to-date records, the Governor's office is unable to properly fulfill its responsibilities related to appointments to boards and commissions.

3. Mansion

As noted in our prior two audit reports, the Governor's office did not ensure the fees charged for mansion events sponsored by outside entities were sufficient to fully recover event costs.

During Governor Greitens' term (January 9, 2017 to June 1, 2018), the Governor's office paid costs of mansion operations and events from multiple funding sources including the mansion and office appropriations, the Mansion Donation Fund, and appropriations of other state agencies. In recent years, the Governor's office spent all or most of its annual mansion appropriation totaling approximately $100,000. The Mansion Donation Fund was established to accept donations and fees for payment of costs of mansion events and operation costs. In addition, as previously noted, the Governor's office paid some mansion costs from DNR and OA appropriations. During Governor Greiten's term, mansion costs to the state totaled about $442,000, of which about $361,000 (82 percent) was paid from appropriations of other state agencies.

Mansion operating costs include salaries, general upkeep of the mansion, food provided to the Governor and his family, and food and entertainment costs associated with various events held at the mansion. For events sponsored by outside entities, the Governor's office charged and deposited fees into the Mansion Donation Fund. During Governor Greitens' term, the mansion held 81 events with 55 hosted by the Governor and 26 sponsored by outside entities. The Governor-hosted events included 17 receptions, 13 dinners, 8

luncheons, 2 barbeques, 3 breakfasts, 7 meetings, and 5 other public events at the mansion. During this period, the Governor's office received fees totaling approximately $71,000 for outside events. Governor's office personnel plan, schedule, and manage mansion events. Also, as discussed later in the report, the Governor did not reimburse the state for costs related to the personal consumption of food.

Costs of the mansion paid by the Mansion Donation Fund, mansion appropriation, and other state agency appropriations during Governor Greitens' 17-month term (January 9, 2017 to June 1, 2018) are presented in the following table.

		Appropriations			
		Mansion Donation Fund[1]	Governor's Office and Mansion	Other Agencies[2]	Total
Expenses:					
Salaries	$	0	35,599	159,178	194,777
Food		9,558	74,417	55,771	139,746
Other[3]		12,593	19,803	146,014	178,410
Total	$	22,151	129,819	360,963	512,933
Less Receipts					(70,788)
Total State Costs	$				442,145

[1] A Comparative Statement of Receipts, Disbursements, and Changes in Cash and Investments for the Mansion Donation Fund for the 2 years ended June 30, 2018, is included at Appendix F.

[2] DNR and OA appropriations (see MAR finding number 1).

[3] Includes inmate wages.

Although recommended in the prior two audit reports, the Governor's office did not analyze the costs of outside entity-sponsored events or determine if the fees charged were sufficient to fully recover event costs. In 2017, mansion personnel revised the menu and menu prices. The Mansion Director indicated menu prices increased to reflect higher food costs; however, no documentation was prepared to support the basis for the prices. In addition, the fees for facility usage, labor, and other costs have not been reviewed and updated since 2010.

To ensure the costs of mansion events sponsored by outside entities are fully recovered, the Governor's office should analyze the costs associated with outside events and revise the fee schedule and menu prices as necessary. Such analysis and revisions should be periodically performed and documented.

Recommendation

The Office of Governor analyze the costs associated with outside events and revise the menu prices and fee schedule if necessary. Such analysis and revisions should be periodically performed and documented.

Auditee's Response

Former Governor Greitens' written response, provided by the Deputy Legislative Director to both former Governor Greitens and current Governor Parson, is included at Appendix A.

Current Governor Parson's written response, provided by the General Counsel, is included at Appendix B.

4. Office Policies and Procedures

The Governor's official calendar was not always maintained in a detailed manner. In addition, the Governor's office did not establish a written employee manual or prepare written job descriptions for many positions.

4.1 Governor's calendar

The Governor's calendar was not sufficiently detailed to disclose the business purpose of the official's various activities. The calendar generally noted the date, time, and location of scheduled events, and the person(s) with whom he met, but the business nature of the meeting or event was often not documented.

Good governance and the conduct of state business requires transparency, openness, and accountability. The Governor should maintain an official calendar that adequately details the nature and official duties of all travels and office functions.

4.2 Employee manual

As noted in our prior three audit reports, the Governor's office did not develop a comprehensive written employee manual to address issues such as working hours, performance appraisals, lines of authority, use of state resources, and other items of importance to employees.

A comprehensive employee manual that details policies and procedures can benefit both the office and employees by providing an understanding between management and employees regarding rights and responsibilities. An employee manual can also provide guidance and control for the effective and consistent management of the office, help avoid misunderstandings, and ensure management's policies are fairly and consistently applied to all employees.

4.3 Employee job descriptions

The Governor's office did not prepare written job descriptions for 12 positions, or approximately half of the positions paid from office and mansion appropriations.

Job descriptions are needed to clarify the duties, responsibilities, required qualifications, and reporting relationships of each position to help prevent

misunderstandings among employees and supervisors about performance expectations.

Recommendations

The Office of Governor:

4.1 Maintain an official calendar that details the official duties of the Governor's official activities.

4.2 Develop a comprehensive written employee manual.

4.3 Prepare job descriptions for all positions.

Auditee's Response

Former Governor Greitens' written response, provided by the Deputy Legislative Director to both former Governor Greitens and current Governor Parson, is included at Appendix A.

Current Governor Parson's written response, provided by the General Counsel, is included at Appendix B.

Auditor's Comment

Current Governor Parson's responses to finding numbers 4.2 and 4.3 state it would be impractical and inefficient to reduce the work of the Governor's office to a single employee manual and individual job descriptions. The responses further state the findings exceed the Auditor's mandate to conduct a post-audit and are attempts to manage an agency beyond the Auditor's control. As stated in the finding, these documents are necessary to properly communicate rights and responsibilities to employees and provide guidance and control for the effective and consistent management of the office. Office holders are responsible for ensuring decisions regarding employees are properly documented.

5. Travel

As similarly noted in our prior three audit reports, the Governor's office did not take adequate measures to minimize travel costs or follow state travel policy.

5.1 Airfare

The Governor's office did not always procure commercial airfare in accordance with the state travel policy. During Governor Greitens' term (January 9, 2017 to June 1, 2018), the Governor's office paid for flights on commercial airlines totaling about $9,500.

For 10 of 11 commercial flights reviewed totaling approximately $4,200, the Governor's office procured the flights 0 to 19 days prior to the date of the flight. State travel policy (SP-6) requires employees to exercise prudent care in arranging airfare to obtain the lowest feasible fare, and obtain the lowest reasonable, logical airfare at least 21 days in advance. When such advance purchase is not possible, the policy provides that the reason(s) be

documented. The Governor's office did not maintain documentation to justify the deviation from state policy.

5.2 Lodging

The Governor's office often made lodging reservations without performing price comparisons or other procedures to ensure lodging costs were reasonable as required by state travel policy. During Governor Greitens' term, the Governor's office paid approximately $12,000 in lodging costs from the Governor's office and mansion appropriations.

Most lodging expenses reviewed exceeded Continental United States (CONUS) lodging rates (federal employee per diem maximums, established by the U.S. General Services Administration). We reviewed 9 trips of the Governor and/or office employees for 1 or more nights, and noted lodging costs for 8 of the 9 trips exceeded CONUS rates. The Governor's office did not document price comparisons or other procedures performed, or why the higher lodging cost was necessary and reasonable for any of the 8 trips. In total, the Governor's office paid lodging costs in excess of CONUS rates by approximately $425 for the 8 trips, or an average of about $50 per night in excess of CONUS rates.

In cities where multiple hotels or motels are located, lodging can often be procured at rates less than CONUS rates. The state travel policy (SP-6) requires that "in areas where comparable accommodations are available at significantly different prices you should seek prior approval before selecting higher priced lodging and document the reason(s) for selecting the higher priced lodging. Key issues that determine hotel acceptability to the State include accountability, transparency, price, safety, convenience, ease of booking and payment, oversight and issue resolution." The policy also provides that CONUS rates should be used as a benchmark when evaluating lodging costs. Procedures requiring performing price comparisons and ensuring rates do not exceed CONUS rates are necessary to demonstrate compliance with state policies and ensure lodging costs are reasonable. Documentation should be maintained to support any lodging expenses exceeding CONUS rates.

Recommendations

The Office of Governor:

5.1 Ensure airfare tickets are purchased at least 21 days in advance in accordance with state policy, and the reason(s) are documented if such advance purchase is not possible.

5.2 Require employees to perform price comparisons and ensure rates do not exceed CONUS rates when making lodging arrangements. If it is necessary to exceed CONUS rates, the Governor's office should ensure adequate documentation of the reason is prepared and retained.

Auditee's Response

Former Governor Greitens' written response, provided by the Deputy Legislative Director to both former Governor Greitens and current Governor Parson, is included at Appendix A.

Current Governor Parson's written response, provided by the General Counsel, is included at Appendix B.

6. Use of State Resources for Political and Personal Purposes

State laws are ambiguous and contradictory regarding the use of state resources by the Governor's office for political and personal purposes. Similar to previous governors, the Governor used the security and transportation resources provided by the MSHP for all official, political, and personal activities. The state also paid the personal food costs for the Governor and his family. The Governor did not reimburse the state for any political or personal use of state resources.

Section 43.330, RSMo, allows the governor's security division within the MSHP to ". . . provide transportation, security, and protection for the governor and the governor's immediate family." This section makes no distinction between official state business and events that are personal or political, and it is not clear whether the intent of this legislation was to allow the use of state resources for the Governor's political or personal activities. Article III, Sections 38(a) and 39, Missouri Constitution, prohibit the use of state resources for personal or private gain. In addition, there is no specific provision in state law allowing a state official to use any state resource for anything other than official use.[8]

As a general rule, state resources should be used for a public purpose, for the benefit of the general public, and not for political or personal gain. If the state intends to allow the governor to use state resources for anything other than official state purposes, legislation should be pursued to clearly allow this practice and other related conditions, such as reimbursement, of such use. At a minimum, until such provisions are established, with the possible exception of security, the use of any state resource by the governor for purposes other than official state business should be reimbursed or discontinued.

A similar condition was noted in prior audit reports.

Recommendation

The Office of Governor pursue legislation regarding its use of state resources, including those of the MSHP, for anything other than official use. With the

[8] Federal executives, such as the President, must abide by various federal rules, regulations, and ethics laws governing the use of federal resources for political use. For example, if a presidential trip includes multiple stops, some for political events and some for official purposes, travel costs are allocated between the campaign and the federal government. The President does not reimburse for any security costs, but he is required to pay for personal items such as food.

possible exception of security, until state law is clarified, the office should require the governor to reimburse the state for the use of state resources for purposes other than official state business (except for de minimis activities) or discontinue such use.

Auditee's Response

Former Governor Greitens' written response, provided by the Deputy Legislative Director to both former Governor Greitens and current Governor Parson, is included at Appendix A.

Current Governor Parson's written response, provided by the General Counsel, is included at Appendix B.

7. Capital Assets

As similarly noted in our prior three audit reports, records and procedures to account for Governor's office and mansion property were not adequate. Office and mansion capital asset record discrepancies noted in prior audits were still not resolved; and as result, capital asset records were incomplete and inaccurate. In addition, annual physical inventories of office assets were not performed.

Office

The Governor's office did not update capital asset records in the statewide accounting system (SAM II) for discrepancies noted in prior year annual physical inventories; and office capital asset records continued to be overstated as a result. As of June 1, 2018, SAM II capital asset records still included the 25 items totaling $61,000 that office personnel had identified in multiple annual inventories as missing or transferred to another agency, some identified as far back as 2009. In addition, the office did not perform physical inventories during Governor Greitens' term. Excluding the 25 missing and transferred items, office SAM II capital asset records included 14 items valued at approximately $92,400 as of June 1, 2018.

Mansion

The Governor's office did not update SAM II capital asset records for capital asset additions identified in previous years, and mansion capital asset records were understated as a result. Our three prior audits reported 29 additional items, valued at $1,000 or more, included on a listing of mansion assets prepared in January 2009, but not recorded in SAM II. As of June 1, 2018, the Governor's office still had not updated the SAM II capital asset records for these items. In addition, the physical inventory performed during June 2017 did not include these items. As of June 1, 2018, a SAM II report of mansion capital assets included 27 items totaling approximately $66,900.

Records and procedures

The Code of State Regulations, 15 CSR 40-2.031, requires each department to account for all acquisitions and dispositions of equipment items $1,000 or more, and to maintain adequate capital asset records that contain identification number; description of the item including name, make, model and serial number, where appropriate; acquisition cost; date of acquisition; estimated useful life at the date of acquisition; physical location in sufficient

detail to readily locate the item; and method and date of disposition. An annual physical inventory of capital assets is required, and should be reconciled to capital asset records and the prior annual physical inventory, and documentation should be maintained of the physical inventory including the date, personnel performing the procedure, assets verified, and any adjustments needed to the inventory records. In addition, departments are required to establish controls over sensitive items less than $1,000.

The failure to maintain a complete and accurate inventory listing reduces the control and accountability over capital assets and increases the potential that loss, theft, or misuse will go undetected. In addition, annual inventories are necessary to establish proper accountability over capital assets, and documentation of the physical inventory should be retained to show compliance with state regulations. Discrepancies noted during annual inventories should be promptly investigated and necessary adjustments made to the capital asset records.

Recommendation

The Office of Governor ensure (1) complete and accurate capital asset records are maintained for office and mansion assets, (2) annual physical inventories are conducted and documented for all property, (3) discrepancies noted in annual inventories are promptly investigated and capital assets records properly adjusted, and (4) capital asset records are reconciled to SAM II records.

Auditee's Response

Former Governor Greitens' written response, provided by the Deputy Legislative Director to both former Governor Greitens and current Governor Parson, is included at Appendix A.

Current Governor Parson's written response, provided by the General Counsel, is included at Appendix B.

Auditor's Comment

Former Governor Greitens' response states that office staff performed annual inventory checks. However, the Governor's office could not provide documentation of physical inventories performed during Governor Greitens' term.

August 22, 2019

Missouri State Auditor
John Lieser, Audit Manager
State Capitol, Rm 121
Jefferson City, MO 65101

Dear Mr. Lieser:

Please find the below responses to the close-out audit you conducted of Governor Eric Greitens. The numbered paragraphs correspond to the numbered findings contained in the draft report you provided.

1.1 Staffing and GSD costs:

The Governor's office accounted for its operational costs in a manner that properly reflected the nature of the work it performed. All agencies under the purview of the executive branch of the State of Missouri work with and for the Governor in the performance of his duties. Furthermore, as noted by the Auditor, the Governor's office transitioned six FTE in FY 18 and 5 FTE in FY 19 from various agencies into the Governor's Office. These changes were made in coordination with House Budget Chair and Senate Appropriations Chair as a good faith effort to more accurately reflect Governor's office staff.

1.2 Other expenses:

The association fees paid by the Governor correlate to and were in support of the operations of the agencies that expended the appropriations. As with the prior administration, the office accounted for its operational costs in a manner that properly reflected the nature of the work it performed.

2.1 Board vacancies and expired terms:

As the prior administration responded to a nearly identical finding, the Governor's Office worked to ensure that qualified Missourians willing to serve were appointed and nominated for service on various boards and commissions. After nomination, the Governor's Office submitted these individuals for confirmation by the Missouri Senate. It should also be noted that Missouri law allows an appointed individual serving in a term beyond the term's expiration date to retain the full authority to act as a member of the board or commission.

The Governor appointed hundreds of qualified nominees to numerous boards and commissions. The Governor's Task Force eliminated obsolete, duplicative, and unnecessary boards and commissions and brought forth legislation introduced in the Missouri General Assembly and signed by the Governor.

2.2 Task Force recommendations:

The Governor's Task Force was led by the Governor's Director of Boards and Commissions, Lt. Governor Parson, and legislative leaders. This task force held countless hearings and took testimony from nearly every board and commission in the state. All meetings were held in an open forum and the discussions therein resulted in the Task Force's recommendation and subsequent legislation that was passed and signed into law. This was outlined in the 27-page report submitted October 31, 2017 (https://ltgov.mo.gov/wp-content/uploads/2017/10/Boards-and-Commissions-Task-Force-Report-FINAL.pdf).

2.3 Incomplete and inaccurate records:

The Governor's office ensured that every individual appointed to a board or commission was properly vetted and qualified to serve. The auditor does not show that any appointee was improperly nominated or failed to meet the qualifications to serve. The recommendation put forward by the auditor would only increase unnecessary government paperwork and lead to the delay of future appointments.

3. Mansion:

The Governor's Mansion is a unique facility unlike any other in the State. The Governor's office coordinated with the necessary staff in order to ensure the Mansion operated in an efficient and cost-effective manner.

4.1 Governor's calendar:

The calendar of the Governor accurately accounted for all meetings, events, appearances, and official activities and was property archived with the Secretary of State per the records retention schedule.

4.2 Employee manual:

Members of the Governor's office were regularly informed of the policies and procedures applicable to their positions and the management of the office. Daily, weekly and monthly staff meetings were utilized to reinforce the policies and procedures, and to answer any questions.

4.3 Employee job descriptions:

Numerous written job descriptions were provided to the auditor. Additionally, all members of the Governor's office were fully informed of the duties and responsibilities of their positions, as well as performance expectations. Daily, weekly, and monthly staff meetings were utilized to address any issues.

5.1 Airfare:

The Governor's office followed state travel policy to every extent possible and made every effort to ensure the most cost-effective means when unplanned travel situations arose.

5.2 Lodging:

The Governor's office followed state travel policy and made every effort to ensure the most cost-effective means when unplanned travel situations arose.

6. Use of State Resources for Political and Personal Purposes:

The Governor's Office followed all state laws and regulations regarding the use and expenditure of state resources, consistent with previous governors. The Governor is on duty at all times.

7. Capitol Assets

Governor's Office staff and Mansion employees performed annual inventory checks.

Respectfully,

Jeff Earl
Deputy Legislative Director

STATE CAPITOL
201 W. CAPITOL AVENUE, ROOM 216
JEFFERSON CITY, MISSOURI 65101

(573) 751-3222
WWW.GOVERNOR.MO.GOV

Michael L. Parson
GOVERNOR
STATE OF MISSOURI

August 23, 2019

Missouri State Auditor's Office
John Lieser, Audit Manager
State Capitol, Room 121
Jefferson City, MO 65101

Dear Sir:
